**~ Optional ~**

*Please consider completing this optional section, which will give the Board a sense of why this review has been requested.*

**NOTE:** When conducting a health impact review, the Washington State Board of Health will consider various ways that a proposal might exacerbate or ameliorate health disparities. Completing this section will give the Board a head start by helping it understand the reasons why a review is being requested.

**Briefly describe how you think the proposal might impact health disparities and whether you believe the impact will be in a positive or negative direction.**

**In the previous Health Impact Review related to these bill provisions, we found the bill had the potential to increase the number of low-income students who eat lunch, which in turn had potential to improve students' diet quality, to improve educational outcomes, to improve earning potential, and to decrease health disparities.**

**Are there specific organizations or community groups you would like the Board to contact as part of this review if time allows?**
