**~ Optional ~**

*Please consider completing this optional section, which will give the Board a sense of why this review has been requested.*

**NOTE:** When conducting a health impact review, the Washington State Board of Health will consider various ways that a proposal might exacerbate or ameliorate health disparities. Completing this section will give the Board a head start by helping it understand the reasons why a review is being requested.

**Briefly describe how you think the proposal might impact health disparities and whether you believe the impact will be in a positive or negative direction.**

**We believe this bill will have a positive impact on health by reducing vaping access to youth, by reducing the addictive nature by reducing high nicotine levels & large container sizes. We also believe that by giving local authority to set more assertive vaping regulation, health will be impacted positively.**

**Are there specific organizations or community groups you would like the Board to contact as part of this review if time allows?**

**African American Tobacco Control Leadership Council (AATCLC), Healthy King County Coalition, Center for Multicultural Health**
