**~ Optional ~**

*Please consider completing this optional section, which will give the Board a sense of why this review has been requested.*

**NOTE:** When conducting a health impact review, the Washington State Board of Health will consider various ways that a proposal might exacerbate or ameliorate health disparities. Completing this section will give the Board a head start by helping it understand the reasons why a review is being requested.

**Briefly describe how you think the proposal might impact health disparities and whether you believe the impact will be in a positive or negative direction.**

Likely there will be positive impacts on health due to reducing youth vaping (who are most drawn to exciting flavors) and first-nicotine users. Likely there will be fewer health complications among teens due to reduced vaping (i.e., teen hospitalized in Wisconsin recently due to vaping).

**Are there specific organizations or community groups you would like the Board to contact as part of this review if time allows?**

- African American Tobacco Control Leadership Council
- Healthy King County Coalition Tobacco, Marijuana and Other Drugs (TMoD) Work Group
- Somali Health Board in
- Tobacco-Free Kids
- Keep it Sacred (<https://keepitsacred.itcmi.org/>)
