I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

Good afternoon,

I am writing this morning to voice my opposition to the proposed policy (WAC 246-100-070) which allows local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-040) these specifics come from WAC 246-100.

I also and especially would like to voice my opposition to WAC 246-105 that requires Covid 19 injections as part of school immunization.

Thank you for your time.

Sincerely,

Lance Koehler

To Whom It May Concern,

I learned today that the Washington State Board of Health will discuss applying current infectious disease WAC Codes to include Covid-19 for all WA State residents. I am COMPLETELY against any of the proposed Covid Policies that are over-reaching and immoral. My family and I stand against these proposed WAC's:

- * WAC 246-100-070
- * WAC 246-100-045
- * WAC 246-100-040
- * WAC 246-100
- * WAC 246-105

I have already let all of my friends and family know that outrageous WACs these are being considered and have encouraged them to speak up and speak out! Please do the right thing and protect our freedoms and the freedom to choose without punishment!

Sincerely,

Brianna Gilstrap

I, Judith W Cruz Cosme , write to each of you on my behalf and on behalf of many others in our community. We oppose the proposals of WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

We are all completely against local health officials using law enforcement and the use of an emergency order to inadvertently detain a person or family in a quarantine facility if they refuse requests for medical examination, tests, treatment. , counseling or vaccination.

We are all completely against covid-19 injections as part of the school's vaccination requirements using WAC 246-105.

Subject: Written comments regarding BOH rules affecting ESHB 1551

External Email

...trying to save you some time today, so more community members can speak. As such, I'm submitting my comments here. Thank You for what you do (truly meant).

On behalf of HealthHIV—and as a (founding) member of the WA HIV Justice Alliance (WHJA)—a community coalition formed in response to implementation of the Governor's END AIDS WA Strategy—we would like to thank the WA State Board of Health (BOH) for their thoughtful approach to incorporating community input into administrative rules affecting ESHB 1551 .

And while, we are truly encouraged by this second meeting, in response to the public's input received during November 2021's meeting on the initial draft rules, we want to highlight the manner in which WAC 246-100-036 and Responsibilities and duties of Local health officers may interpret the following proposed rule change:

To contact persons who may have experienced ((substantial)) exposure, including persons identified as sex ((and)) or injection equipment-sharing partners((,)) and spouses;"

Based on the reasonable estimation, determination of the LHO, the language change striking "substantial" exposure could potentially broaden the way this rule is employed in the real-world; and that certain jurisdictions may unintentionally—or intentionally—use this rule change to more forcefully reach out to named partners (of the potentially exposed), specifically HIV-positive partners who are (by generally accepted medical standards) unable to transmit the virus to others through (the recently codified rule definition of what constitutes) sex. Our concern is that not all jurisdictions may be viewing this rule change through the lens of science--and it;s going to be up the BOH on how it plans to implement these rules equitably, across all jurisdictions.

It is our experience that the Department of Health through its Office of Infectious Disease division—as a past co-chair of the HIV Planning Steering Group—does not currently have proposed draft implementation plans to proactively reach out to medical providers, contracted service providers (such as medical case management and supportive service agencies) to define—for their patients, Ryan White clients—of how these (liability) changes affect them, as misdemeanor laws and behaviors endangering rules still apply, under WAC 246-100-070.

We appreciate the opportunity to weigh-in on these rules changes and ask the BOH to more assertively reach out to LHOs and medical and contracted service providers as to how these rule changes in the field affect their patients and clients; and how ESHB 1551 was meant to modernize our statutes, not broaden them.

Sincerely,

Scott D. Bertani

Subject: Objection to Proposed COVID-19 Policies

External Email

I am opposed to any of the proposed policies related to detaining individuals in quarantine facilities, involuntary medical exams, testing, or treatments. I am also opposed to including COVID-19 injections as part of school immunization requirements using WAC 246-105.

I stand against the following proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

- * I believe in informed consent for medical decisions.
- * I support medical freedom and bodily autonomy.
- * I believe in personal freedoms supported by The Constitution of the United States.

- * Children are at an extremely low risk of mortality as a result of COVID infection.
- * The vaccines are still only EUA status.
- * There are no long term studies to document any history of safety.
- * Studies now show that both vaccinated and unvaccinated individuals can transmit COVID. Therefore, the vaccine does not prevent spread of infection or disease.

Subject: PROPOSED COVID POLICIES

External Email

I am adamantly opposed to the proposed COVID policies in Washington. These proposed policies are completely over reaching and nothing short of tyrannical. "We the people" is supposed to actually mean something; where is our voice in this, why are so many things decided without a vote from the people? These proposed policies also clearly show our state government does not trust its people to make informed decisions regarding their own personal health. Do not pass WACs WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Seriously, stop with the Covid shenanigans.

At no point in history have the parties "involuntarily detaining" lay citizens been recognized by history as anything other than oppressors. In every one of history's cases it was either upholstered under the guise of some nebulous idea of public health or it was political expurgation naked of pretense; and when the dust settled, humans looking back recognized the former was just a deceptive affectation of the latter--and those seeking justice after-the-fact saw no difference--in every case, in every generation, in every country.

More to the point, if you follow through with adding Covid-19 to the penumbra of WAC 246-100-070, -045, -040, -100, and -105, you will be inviting the scrutiny and direct legal action of an increasingly-angry citizenry on your organization and their constituent members. To the majority of people in this state who contribute to society and the economy, it appears as if those of you in the government only pay attention to the wealthy in Seattle and the single-variable information curated by tech executives and the UW--and their benefit is the only factor you have cognizance of.

The mandates Jay Inslee's government enacted crippled our economy, ruined the livelihood of many citizens, and put many of our fellow citizens on the streets. There isn't much more for us to lose, and everything for us to gain back and more--and it appears the bureaucracy of Inslee's government are standing in everyone's way. If you follow through with this, expect the mores of political activism in 2020 to be picked up and used

by the other side.

External Email

January 15, 2021

Dear,

Stuart Glasoe

This letter is regarding the Washington State Health Department meeting on January 12, 2022 to make proposed changes to allow local health officers to use law enforcement (WAC-246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246 100 045) following refusal to voluntarily comply requests for medical examination, testing, treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100. This includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This ruling, which is not a law, but a ruling will force people to containment camps who are not vaccinated. Using the false assumption that the vaccines are only the solution to end the covid 19 and the variants is grossly negligent. There is overwhelming evidence and data showing there are many alternative therapeutics and treatment solutions for

Covid-19. Such as and not limited to, vitamin c, d and zinc, black seed cumin treated early has significant positive results. Ivermectin and Hydroxychloroquine were being used at the very start of the Covid -19 pandemic with great success and continue to be used. They have no long term side effects and have been used for decades and are very inexpensive to produce and readily available. We have witnessed these two drugs save two seniors from dying from the covid 19 virus and many individuals that have used these therapeutics and treatment solutions and were cured of Covid-19.

As an elected or public official, your first obligation is to no harm, known as common law 1st, do no harm its constitutional duty. We are all equal no one is above the law, no one lives above the law. You are causing harm. Rule of law which clearly states that the government as well as private actors are accountable under the law.

I have researched by listing and reading from many Medical and Senior Law experts, which they state no one knows the long-term effects of these Covid 19 vaccines.

What I have seen on the VAERS report dated back in Aug 8th, 2021, 571,830 total reports of adverse effects, only between 1-10% of adverse events are reported in VAERS by some estimations.

Deaths 12,791, Life-threatening 13,140, permanently disabled 16,044, Hospitalizations: 51,242 Anaphylaxis 5,282 bell's palsy 4,461, miscarriages 1,505 heart attacks: 5,590 severe allergies 24,3050.

According to WHO, World Health Organization, the Vigil Access was launched by the World Health Organization in 2015 to provide public access to information in VigiBase. This is the WHO global database of reported potential side effects of medicinal products.

I have listed a few and these are the total adverse reactions:

Mumps vaccine: 713 from years 1972-2021

Hepatitis B vaccine: 104,827 from years 1984-2021

Pneumococcal vaccine: 236,307 from years 1980-2021

Influenza vaccine: 272,438 from years 1968-2021

Covid 19: 2,513,185 from ONE YEAR 2020-2021

This is illegal unlawful and unmoral. You are causing harm.

Respectively,

Howard & Tracy Moreland

External Email

Greetings:

I am writing to provide my comments to address the subject meeting.

To be specific, I have provided the policies that I understand will be addressed below in bold:

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Here are my comments:

I believe that these proposed policies are wrong on multiple levels. For the sake of brevity, I will provide in bullet point form my rationale for reaching this conclusion.

a) The vaccines have proven to be ineffective. Viruses mutate, and every year there will be a new variant. This is true of the flu also. We don't mandate that people take the flu vaccine. Why are we considering mandating that everyone take a vaccine for Covid? (and by the way, the flu vaccines are never better than 60% effective either for the same reasons)

b) The vaccines are an experimental drug. These have not been thoroughly vetted. It normally takes 10 years of vetting before a vaccine is released. Never before in history have we mandated one treatment to the exclusion of all others. This is a dangerous path to take.

c) We are seeing increasing evidence of the danger of the vaccine to young people. There are numerous cases of cardiac issues, guillain barre syndrome, disrupted menstrual cycles, still born babies, and sudden death. If even a fraction of these cases are tied to this vaccine, that should be reason enough to pause and wait for the data to come in.

d) The school age population is the population least at risk from Covid. The risk reward ratio simply does not make sense to require vaccination amongst any population. But it makes the least amount of sense with school aged children. They are at the least risk from Covid, and they are at the most risk from the vaccine itself.

e) We have always protected pregnant women and minors from experimental drugs. In fact, the package inserts of virtually every reputable drug on the market contains language that the medicine has no data for people who fall into those categories. Because it is considered unethical to include them in clinical trials. Yet, we are now considering mandating their participation in the largest clinical trial in human history.

f) Insurance companies are beginning to show data that the death rate among working age people; between the age of 18 and 65 has increased significantly. And that's excluding those that died from Covid. Now one can argue that we don't know why. But the one factor that has changed in that time period is the introduction of the vaccine. Doesn't it make sense to wait and evaluate that data?

g) Finally, this mandate will result in a gutting of the public school system as many parents will simply opt out. They may personally be willing to take the risk of an experimental drug. But to expose their children is probably a bridge to far for many.

There are many more reasons that this mandate is a very bad idea. But for the sake of brevity I will stop there.

I respectfully request that you take these thoughts into consideration and move to not move forward with this dangerous policy.

Respectfully yours,

Derek Soanka

Hello,

It has come to my attention that WA Board of Health will be discussing COVID-19 shot mandates for schools and recommendations for forcible quarantine and/or detention of those that disagree with policies. As a parent and a citizen of the State of WA, I request that you abandon the plan of forming a technical advisory group to explore COVID-19 mandates and adopt a new rule of requiring products to have completed Phase 3 clinical trials before they can be added to the list of school requirements.

One definition of insanity is to repeat the same action over and over again and expect different results. For almost 2 years we have attempted to follow the health recommendations of washing, masking, distancing, testing, isolating and vaccinating. By now, it is quite apparent that the virus has mutated; as a result, SARS CoV2 has become

more virulent (which is the nature of all viruses) but LESS FATAL. Real immunity is achieved with exposure and recovery as is evidenced by the fact that those infected with SARS in 2002/3 cannot become infected with SARS CoV2 today! In contrast, COVID-19 has managed to find a way to escape the vaccine per the evidence by the incredibly high numbers of vaccinated and even boosted individuals getting sick and testing positive. Surely this fact has not escaped your knowledge!

I also hope that you, being members of the WA State Health Board, are well aware of what the #1 cause of death was (aside from abortions which came in at an astonishing 43 million, globally) in 2021. Last year, the disease that killed 8.2 million people globally was cancer. Cancer killed more people last year than COVID-19 has since the beginning of the pandemic. Death is tragic, yes, but I will not stand by as mandates and overreaches of personal medical freedoms are occurring, of which should only be between doctors and their patients should be handled; politicians and elected officials like yourselves have not earned nor have any say in the privacy of what medical choices my family or any Washingtonian family makes. Can you imagine what the United States could do if local officials like yourself across the nation put this much effort into cancer research and treatment as they did in pushing for COVID-19 vaccine creation? We'd probably find a cure within the next year.

I do not doubt that you all desire to improve the health of Washingtonians. However, I do not trust that you have carefully investigated and logically determined adequate and measurable health remedies for which you are able to provide evidence. Before doubling down on measures that seem to HARM more than they HELP the overall health of citizens, please determine and make public the evidence to justify any policies. Giving "powers of police officers, sheriffs, constables, and all other officers" is an overreach of what the State Health Departments' responsibilities, an overreach of the people's freedoms, as well an effort to over-centralize general powers within the state, which is against what our Constitution stands for throughout the land.

Regarding mandating shots, know that the clinical trials will not be completed until 2023. Know that WA State has a legal definition of a "vaccine" that the COVID-19 shots do not fulfill as they were never part of a living microorganism nor do they prevent transmission or infection of disease. "Vaccine" means a preparation of killed or attenuated living microorganisms, or fraction thereof, that upon administration stimulates immunity that protects against disease and is approved by the federal food and drug administration as safe and effective <https://app.leg.wa.gov/RCW/default.aspx?cite=70.290.010>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault.aspx?cite=70.290.010>

Finally, do no harm! You cannot possibly know or care more about the health of children than do the parents of Washington children!

Now I ask, how necessary or even safe is it to give a vaccine to a person who already has immunity to the pathogen? Most children by now have been exposed to the virus and have developed immunity without difficulty since it has now been almost 2 YEARS. Why consider a mandate for those not at high risk for adverse outcome should they become infected but who carry unknown risks of adverse reaction with getting the shot?

I look forward to hearing these concerns addressed and evidence for any and all recommendations to be presented when I tune into your meeting on January 12.

Thank you,

Hailey Eames

Subject: Comment re: 1/12/22 DOH Agenda

External Email

To Whom it May Concern,

As a resident of Washington State, I am obligated to express my concerns about the upcoming DOH agenda items regarding COVID-19 policy and proposed policy changes to WAC 246-100, specifically sections 070, 045 and 040 on January 12, 2022.

As the virus continues to mutate and lessen in virulence, as viruses do, I urge caution to the members of the board in regards to any permanent changes to current infectious disease WAC codes. I also urge prudence as you consider the amount of conflicting data on the effectiveness of the shots and adverse reactions reported. Furthermore, research data is coming out daily about preventative protocols and interventions that have higher success than the vaccine options proposed.

The height of the pandemic is quickly waning and I believe it is time to rebuild confidence in the great people of Washington. Washingtonians have proven their willingness to be cautious, helpful and neighborly over the past 2 years. As the pandemic turns into an endemic situation, it is important for the people of Washington State to begin their return to "normal". Continued mandates, threats of quarantine camps and forced vaccinations are not what Washingtonians want or need. It would be more effective to further study and fund healthy living programs for our State; emphasizing exercise, healthy eating, appropriate vitamin D levels, better sleep and stress management.

I ask that you do NOT make policy changes to the WAC in regards/response to Covid.

Thank you for your time and consideration,

Elizabeth Gienger

Subject: Public Comment-WAC 246-100-070

External Email

If this is true and the WSBOH is planning to implement this garbage law/mandate:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.
(Immunization Criteria for Child Care and School Entry - making EUS Covid shots mandatory for child care and school admission).

Then you are all ignorant of the facts or just plain evil. There can't be any scientific/medical reason you have gathered to make this kind of decision. If you do have information you based your proposal on, you need to share it with the public. There is ample data from all over the world gathered by leading scientists and doctors over the last 2 yrs on why these are ridiculous measures to take. There should be recorded debate with your department and these people so that you AND the public can make intelligent decisions about incarcerating people wrongly for the correct decisions they make.

Sincerely,
Greg Brown

Subject: January 12th Meeting agenda - My Comments

External Email

Dear Board Members,

While the below letter may be copied and pasted, I fully agree with this individual and the information presented. I have done a lot of my own study on this topic these past two years. I have watched as this has progressed and the continued attempts to remove our basic individual rights as Americans in this state. Our basic rights have been under attack under the guise of public health. You are bordering on instigating communist rule in a nation of people that will not adhere to or accept it. If you do this, I expect you will be prosecuted and found liable when all is said and done. I don't think you can afford that.

The very thought that you would even consider a "police state" in the name of public health in WA is horrifying! To physically restrain and detain any individual because they are ill or have made a decision to take care of themselves as they see fit is not within your scope of responsibility, nor is this done in our nation. We are a free people. Period. Below you will find data on the vaccine, quarantine, testing. I think we have all found that people are going to get this virus no matter what they do. Vaccinated or not, you can get and give this virus. The chances of survival are great for most people in America. The policies over these past two years have not worked. I ask that you look past what you have been told, or directed and look into the facts of health and how people can work towards being healthy and work toward that.

Please allow common sense and cooler heads to prevail. Consider our constitutional

rights and I ask that you also consider empathy in dealing with your fellow humans and do what is right, not continue to promote what is the ongoing narrative.

"Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100."

"Dear Board of Members,

No CDC guidelines, OSHA regulations or health officer order can suspend our rights. "We the People" and do not consent. We do not give you the authority to force any medical procedures on our children, elderly, or on any human being that does not choose of their own free will your offerings of "public health" in a vaccine trial.

Your chapter 246 - 100 and rule making petition for 246 -105 try to confuse, coerce, intimidate, threaten and harass us. This is called retaliation and discrimination, and that is against the law.

We have the right to determine what is the best for our families and what is done with our body and it doesn't matter whether the vaccine only has an "emergency authorization" or not.

The masks and the testing are also "emergency use authorization" but even if they weren't, we cannot be forced into complying. Only a licensed medical doctor can suggest a medical treatment such as a mask, covid testing or a vaccine. You or school administrator has no authority to do so.

We have the constitutionally-protected and GUARANTEED right to life and the right to determine what it's done to our body.

We are covered under ADA laws and our needs would have to be accommodated by law.

You are not a medical professional and, therefore, you are unlawfully practicing medicine by prescribing, recommending, and using coercion to insist on this experimental medical

treatment.

Whereas:

1. The Nuremberg Code, codified into US Federal Law, prohibits forcing or coercing anyone, under any circumstances, to participate in a medical experiment; and the Code states "the voluntary consent of the human subject is absolutely essential."

2. Phase 3 clinical trials of COVID-19 vaccines are not yet completed. C4591007—the main clinical trial in children and young adults with BNT162b2—has an estimated completion date of May 5, 2026 and hence qualify as medical experiments. People taking these treatments are enrolled in clinical trials.

3. The vaccine formulation now being given to U.S. children aged 5-11 is NOT the same formulation used in the clinical trials, and NOT the same formulation that has been administered to all other age groups under EUA. So even when current ongoing clinical trials are complete, the results cannot be assumed to be relevant to the safety or effectiveness of the new formulation.

"The vaccine that is authorized for use in children 5 through 11 years of age includes the same mRNA and lipids but different inactive ingredients compared to the vaccine that has been used under EUA in individuals 12 years of age and older and that has been studied in clinical trials." Source: <https://www.fda.gov/media/153717/download>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2Ffl.php%3Fu%3gsEDZi0c0ul8yuHNdLbCcgJBde8QRsuRiigDoCiurI_tLVMZw%26h%3DAT34dNmYAPXwaReupUF6I4xZpNzPortlJRj6faJyATXkIuNCYRzHEne7E1DhtVWwAiyesELDPDz0Ye02UUs%26__tn__%3D-UK-R%26c%5B0%5D%3DAT09KWxn1mqCkgv_7Z7WCSsUTE4c7gqXjxobBtO5IKiozS1m4kJm2kJ8AYc5G3Buiwa2r_1x0ZBD0h8qFrLimHeJLcWoEBer4WfJZop29N7cDxOceGrtvwt96X5J-BUj81VGx-x-3B3fUOnMJInayRH4r7fMcTCemDMsZXIf90FydU&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Ca3ae5

4. Most vaccines are trialed for at least 5-10 years and COVID-19 vaccines have been in trials for less than one year.

5. No previously attempted coronavirus vaccines (ie. MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement resulting in severe illness and deaths in animal models. The participants in clinical trials involving children aged 5-11 received "two doses of 10 µg BNT162b2 or placebo (saline)", not the new formulation.

Source: <https://www.fda.gov/media/153447/download>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2Ffl.php%3Fu%3UK-R%26c%5B0%5D%3DAT09KWxn1mqCkgv_7Z7WCSsUTE4c7gqXjxobBtO5IKiozS1m4kJm2kJ8AYc5G3Buiwa2r_1x0ZBD0h8qFrLimHeJLcWoEBer4WfJZop29N7cDxOceGrtvwt96X5J-BUj81VGx-x-3B3fUOnMJInayRH4r7fMcTCemDMsZXIf90FydU&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Ca3ae5

6. Numerous doctors, scientists and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 vaccines, including but not limited to death, infertility, miscarriages, Bell's palsy, blood clots, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis,

myocarditis, and antibody dependent enhancement leading to death.

7. Children and youth are at virtually no risk of dying from COVID-19 or transmitting it to others, but deaths and

injuries to children and youth have already occurred in the COVID-19 injection clinical trials.

8. FDA admits safety unknown. Children are being used as test subjects, with their parents acquiescing under fraudulent marketing pressure. Public Health messaging does not match the reality of the current knowledge base. At the October 26 VRBPAC meeting, FDA Advisor Dr. Eric Rubin admitted: ". . . but we're never going to learn about how safe this vaccine is unless we start giving it."

9. International Alliance of Physicians and Medical Scientists has declared that children should be excluded from vaccine mandates:

"Consensus is clear among MDs and medical PhDs: following 20 months of exhaustive research, millions of patients treated, hundreds of clinical trials performed and scientific data shared worldwide, they conclude that healthy children and the COVID-recovered should be excluded from restrictions and vaccine mandates."

Source: <https://globalcovids Summit.org/.../thousands-of-physicians...>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2Ffl.php%3Fu%3of-physicians-and-scientists-reach-consensus-on-vaccinating-children-and-natural-immunity%253Ffbclid%253DIwAR0N9E6isPGXQ6EycTZlvG8LNN_wVhUpgPRcoGcKtAGgxS6UtMd1Bh4qIbc%2W1Wa7wXLCprK889Ux1U0go15tr_0oeQt15UzP-v35OBQLD6StJs-_anDJEjXOQRsv4knSFhHTs8%26__tn__%3D-UK-R%26c%5B0%5D%3DAT09KWxn1mqCkgv_7Z7WCSsUTE4c7gqXjxobBtO5IKiozS1m4kJm2kJ8AYc5G3Buiwa2r_1x0ZBD0h8qFrLimHeJLcWoEBer4WfJZop29N7cDxOceGrtvwt96X5J-BUj81VGx-x-3B3fUOnMJInayRH4r7fMCTCemDMsZXIf90FydU&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Ca3ae5

10. There have been more deaths from COVID-19 vaccines, as reported to the Vaccine Adverse Events Reporting System (VAERS), than deaths in the last 10 years from all vaccines combined and only 1% -10% of vaccine injuries are reported to VAERS. The full extent of adverse events from the COVID vaccines is unknown as there is a significant delay in uploading reports to the VAERS database.

The risk associated with COVID-19 vaccinations is extremely dangerous to the health and well-being of all children and this form of treatment unnecessary.

Any coercion or pressure tactics used for students to be vaccinated contravenes the Nuremberg Code, the Helsinki Declaration and Federal Law.

Any use of "implied consent" by any minor child under the age of 18 is defined in law as gross, contributory, and culpable criminal negligence.

Any party found to be involved in vaccination coercion when entrusted with the care of our children such as all school staff, school board members and executive, and any other adults who may have access to our children while under their care. This includes the assistance of outside school staff, contractors, public health nurses, or health officials could be prosecuted to the full extent of law and you may be held personally and criminally liable for any injuries or deaths that may occur.

We are forced to err on the side of spiritual caution and refuse to harm our temples in honor of God's Holy Word.

The 1st Amendment of the constitution has protected these exact claims before the Supreme Court on many occasions. Even State governments have faced this glaring truth during the Covid crisis as they attempted to pass mandates and laws that violated this basic principle only to have their wrong decisions righted before the Courts, with financial penalties.

While, as Christians, we strive to be at peace with all men and to obey all laws and mandates from a Legitimately elected government. We do not do so in violation of God's Holy Laws, of which the protection of my body is one of those spiritual laws that supersedes all man made laws in my religious conscience. ``

Hello all,

I am reaching out with grave concern regarding the following WAC codes:

246-100-070

246-100-045

246-100-040

235-100

246-105

The proposed are absolute authoritarian monstrosities that stand for the opposite of the American values. The powers that would be allowed are in no way the best interest of the people for whom you claim to represent. Please listen and vote no on these proposed codes for their sake and for the generations to come.

Thank you for your time and consideration.

Attention, you have been put on Notice - RE: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Are you in fact violating Under 21 code of federal regulations, Section 50.23/24, it is illegal to make anyone participate in an experimental program using coercion? Are you interested in doing a civil violation of the law? Are you willing to violate Section US code 18.2331, subsection 802, stating coercion is illegal and the definition of domestic terrorism is anytime a us citizen or government is forced to do something they wouldn't otherwise do that is domestic terrorism?

Which one of these 8 felonies do you want to be implicated in? All carry 99 year prison terms and 100 million dollar fine.

Under 21 code of federal regulations, Section 50.23/24, it is illegal to make anyone participate in an experimental program using coercion. Coercion is illegal under Section US code 18.2331, subsection 802, inside the definition of domestic terrorism is anytime a us citizen or government is forced to do something they wouldn't otherwise do that is domestic terrorism.

To whom it may concern,

As a lifelong resident of Washington state and mother of four young children, I am completely against any and all of the proposed Covid Policies that are over reaching and immoral. As a mother who has a parenting plan, and who has gone through court process, i know that you want what's best for our children, which is not forcing them to this when it is still emergent and we do not know the long term effects. I'd like to remind you that this is based on what is best for the children which is their parents being able to choose to exempt from a vaccine just like other vaccines / choose what is best for them based on their personal situation. This is completely not freedom.

I firmly stand against the proposed WAC's, WAC 246-100-070
WAC 246-100-045
WAC 246-100-040
WAC 246-100
WAC 246-105

Best regards,

Emma

I am writing to you today to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State, and also extreme opposition to a rule change to include Covid under the Communicable and Certain Other Diseases category.

No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization -- yes still. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense

TPC #653: Dr. Mattias Desmet, Dr. Robert Malone, Dr. Peter McCullough (Mass Formation Psychosis) (rumble.com)

Just yesterday, former White House advisors conferred that this virus will be part of a normal routine of similar viruses. This Covid virus, just like RSV, was in fact man-made and released (whether it was intentional or not has yet to be proven.)

"The 'new normal' requires recognizing that SARS-CoV-2 is but one of several circulating respiratory viruses that include influenza, respiratory syncytial virus (RSV), and more," the authors write. "COVID-19 must now be considered among the risks posed by all respiratory viral illnesses combined."

The virus is waning itself out, as viruses do, and the newest strain of Omicron is proving just that. We need to collectively band together as Americans, to do what is very best for all people, and stop living in such extreme fear as being mandated by our main stream media. Several mandates are literally killing people at extremely high rates:

I am completely against any of the proposed Covid Policies that are over reaching and immoral, and stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed policies that violate our civil liberties and fundamental rights as human beings. And I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light." Daniel 2:20-22
"Speak up for those who cannot speak for themselves; ensure justice for those being crushed." Proverbs 31:8

Please do the right thing and reject any requirement of these vaccinations for school age children and reject the change of rule to include Covid as a Communicable Disease. I call on you to represent the population of those whom you swore to be a voice for to reject all such aforementioned policies. I stand with the Constitution - will you? I am praying over you as are countless others as you make the right decision.

Thank you,

Kristina Linkem

Washington state board of health,

I object to the plan to put unconstitutional WAC codes in place such as WAC 246-100-070, WAC 246-100-045 and WAC 246-100-040.

There is no reason to do so when over 99% of people who contract covid also recover. These codes go completely against citizens body autonomy and I will not stand for it.

Sincerely,

To Whom it May Concern:

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Children are immune to covid and normally don't get it. Regardless of age, there is a 99.98% recovery rate, and the number of deaths from it are less than the flu.

We know the vaccine for the covid-19 is not safe, and people dying in the hospitals were the ones vaccinated. It is not a "vaccine".

This is a violation of our human rights, the Constitution for the United States for America, HIPAA policy, and The Nuremberg Code (international law). It is a crime against humanity. Therefore I condemn the passing of these bills.

Hello WA Board of Health,

I am a mother in Bellevue.

I remember in fall of 2020, Bellevue School District asked parents to select in-person, hybrid, or online. 70% of respondents chose in person for their children.

Parents aren't as worried about the safety of their students as you are. Covid has a low risk in children, and vaccines have an unknown risk. Please allow everyone to make their own risk assessment. Please don't coerce people.

Please don't detain people unreasonably. We've gotten through 2 years of a pandemic quite well.

Kindly,
Lacey

To all of our elected officials of the people, by the people, and for the people, regarding your meeting Jan 12 to discuss:

PROPOSED POLICIES:

* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

* Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

If you impose these policies, you are inviting large scale and resolute resistance to involuntarily detaining anyone against their will, for denying to provide personal medical information covered by HIIPA, or to refuse to put in their body what they are uncomfortable with. This insanity has to stop. You can go ahead and try, but it will fail, and I, an American citizen, will not comply, and if anything like this is imposed, will be dutifully bound as an American citizen to protect other American citizens, and my family, from this tyranny, as the patriot I am.

Sincerely,

David Jenkinson

I find it surreal and mind numbing that I even feel compelled to write an email like this, but it suffices to say that I am completely against any of the proposed COVID Policies that are over reaching and immoral. I am 100% against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I don't know how much it needs to be reported before the government of Washington acknowledges the realities behind COVID.

*

Over 99% of people who get COVID survive COVID.

* People who are vaccinated and vaccine free both get and spread COVID, so to discriminate against those who are vaccine free is simply ignoring the science.

* The science has shown the latest variant is less harmful than the previous manifestations of COVID. This is normal for variants and would be expected to continue. In other words, there is no need for enforcement of any of the WAC's listed.

It seems to me like this is some sort of power grab by the government. Please stop this madness now!

Sincerely,

Frank Gmelin

External Email

Please block the implementation of these policies related to WAC codes in relation to Covid 19. This is wrong and completely unconstitutional.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC 246-100),
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I and my family are completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Children are at extremely low risk for Covid
The vaccines are still only EUA (emergency use authorized)

There are no long-term studies to document any history of safety

Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,

The vaccine apparently does not stop the spread of the disease.

Sincerely,
Christina (Peterson) Ostriem

Subject: Public Comments for WSBOH Members from March EH Committee Special Meeting

External Email

I am writing to inform you that my family and I vehemently oppose the proposed policies listed below:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

If either of these policies move forward we will be moving out of state to a state that respects medical freedom of choice and parental authority. Dozens of families we know personally have already fled Washington for political reasons and I can only imagine the mass exodus that will ensue if we continue on this path.

Sincerely,
- Emily

Christopher Lapins, King County Resident, Concerned Citizen, & Productive Member of the Community

To the Washington State Board of Health; Executive Director Michelle Davis; & to the rest of the board committee:

This message is in regards to the BoH meeting taking place Wednesday Jan.12th where the board will discuss applying current infectious disease WAC codes to include Covid-19 for all Washington State residents. These comments are specifically apropos of the decision to,

"Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100."

I declare my direct disapproval of and opposition to such measures. I exhort all board members to also oppose this bill. I foresee that such decrees could and would be greatly abused by authoritative powers and would violate our God given rights to life and liberty. The very wording of this edict is very frightening. Leave Washington Residents alone to decide for themselves how to care for their health. Covid-19 does not pose a threat great enough to warrant orders of this caliber.

Let me offer this: such action would pose a public concern of another kind as fear of Orwellian practices such as these might spark panic and anxiety in the hearts of many Washington residents.

Again, I implore all BoH members to be in opposition to this decision and vote no on it. A society where the people are not free to chose without coercion what to do with or inject into their bodies is NOT a free one. The founding fathers of the United States intended liberty to be steadfast during all times, regardless of whether or not there is a wide-spread public health crisis, which in this case there isn't anyway.

I sincerely hope that my comments are taken seriously.

Thank you & God Bless.

I am completely AGAINST any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-45, WAC 246-100-040, WAC 246-100, WAC 246-105.

We the people will NOT allow our medical freedom to be stripped away from us.

I am asking you to carefully consider the repercussions of what you are proposing. Getting a vaccine should be a choice between the citizens and our healthcare providers not the county or the state to be involved in. The state of Washington and Pierce County are trying to make medical decisions for us.

You guys are over stepping and violating our constitutional rights. Many people have already moved out of the state due to your requirements these proposed changes will only make more people flee Washington.

Our state has one of the highest vaccination rates nation wide, some of the strictest protocols and rules for masks and vaccinations and yet we still have one of the highest rates of Covid so what makes you believe implementing more policies will help? Why not follow suit of other states who are letting people live their lives and have lower Covid rates.

WE WILL NOT GIVE UP WE WILL NOT STAND QUIET WHILE YOU TRY TO STRIP US OF OUR MEDICAL FREEDOM!

You are violating our constitutional rights

Sincerely concerned Washington state citizen,

Aleksander

To Whom It May Concern,

Regarding the following proposed policies:

PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC 246-100).
- Including the Covid-19 injections as part of school immunization requirements using (WAC 246-105.)

These policies being proposed are highly concerning. They are more similar to the methods of dictatorships and monarchies of old than anything the U.S. has ever stood for. These policies would be creating immense opportunity for abuse of the populous by government entities the moment they go into effect. Regardless of our political view this should be troubling. What happens when the political environment shifts in this state and a new group decides something else medical should be mandated? Today the current leadership may want this, but do they want their children and children's children living under the same law when they no longer lead? I oppose these policies with every fiber of my being.

Here is a list of articles out of China demonstrating exactly where these kinds of ideas and policies end:

Cc:
Subject: Unlawful mandates. Please read!!

attachments\1570A82C82A64962_Image-1.jpeg

External Email

I oppose the Communicable and Certain Other Diseases Rule.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Additional comments:

(20) "Medical treatment" or "treatment" means the treatment for curable diseases and treatment that causes a person to be unable to transmit a disease to others, based on generally accepted standards of medical and public health science.

With regard to COVID, the vaccines are failing to cause a person to be unable to transmit a disease to others. And "generally accepted standards of medical and public health science" are controversial at best, and at worst are determined by large pharmaceutical companies controlling funding for research and spending more money lobbying than on research. They have no liability for so-called vaccines, they provide misleading poorly designed short-term unblinded research, they have had to pay large settlements for committing fraud, and they are focused on profits at the cost of human lives. Is experimental vaccination that carries risk of death and permanent harm the "treatment" you are proposing?

Isolation" means the separation(, for the period of communicability or contamination,) of infected or contaminated persons or animals from others ((in such places and under such conditions as)) to prevent or limit the ((direct or indirect)) transmission of the infectious agent or contaminant from those infected or contaminated to those who are susceptible to disease or who may spread the agent or contaminant to others.

Now why would you propose removing the provision that specifies the period of isolation?

(13) "Health order" or "order" means a written directive issued by the state or local health officer that requires the recipient to take specific action to remove, reduce, control, or prevent a risk to public health.

Considering that health orders could include specific action (presumably including vaccination), and that so-called COVID vaccinations are currently available under emergency use authorization (and not approved) and are being administered without informed consent, you should be on notice that this revision puts your "health officers" in the position of further subjecting people to medical experiments. Is that what you're desiring to achieve? Involuntary participation in human medical experimentation? Is the resistance to your attempt at one-size-fits-all mandated vaccination so great that you must resort to these measures?

WAC 246-100-045 specifies "competent medical care" and there is already a great shortage of that. How would you propose ensuring competent medical care?

I don't have time to continue picking this thing apart, but it appears to be an attempt at inappropriate and inadvisable overreach. How would you propose implementing these WAC provisions? The potential for human rights violations, civil rights violations, discrimination, government overreach, and similar harms far outweigh any of your fabricated benefits in this poorly handled COVID crisis that has already been made exponentially worse by the way it has been mismanaged by public health authorities.

Under these provisions, it appears it would be easier to detain someone for having symptoms of the common cold than it would be for a victim of domestic violence to get a restraining order. Even mentally ill persons at risk of causing harm to themselves and others must be allowed a medical exam and have a court order for involuntary medical treatment. Quit trying to impose your ineffective and dangerous pharmaceutical products on adults and children who do not want them and who recognize that there are safe and effective alternatives.

If you're going to mandate anything, you should mandate that your public health officers and authorities read "The Real Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health". The author welcomes debate and any sincere scientific challenges or updates to the thoroughly researched content.

I imagine some of you believe you are acting in someone's best interest, but you are merely doing the bidding of Big Pharma while failing to represent the people and protect our democracy.

A Very Concerned Washingtonian.

To Whom it may concern:

I am against any COVID proposed policies. I am against the WAC's that are wanting to get implemented for WA state. That is immoral and our medical freedom can not be stripped from us. I am against WAC 246-100-045 <tel:246-100-045> , WAC 246-100-040, WAC 246-100-070 <tel:246-100-070> , WAC 246-100, and WAC 246-105.

Please consider not implementing these WAC as it we all have our own rights and they shouldn't be violated.

Thank you for your time,
WA resident

Please voice our concerns as parents and free citizens of the greatest country in the world. I am completely against any of the Covid policies that are overreaching and immoral. I stand against these proposed WAC's: WAC-246-100-070, WAC-246-100-045, WAC-246-100-40, WAC-246-100, WAC-246-105. Studies shows that children are at extremely low risk for Covid and that the vaccines are still only EUA (emergency use authorized) and do not show efficacy long term. This is not science based decision to force COVID vaccination, especially when there's zero liability on vaccine makers behalf and no transparency. Medical health decisions are a right guaranteed to every citizen of our great country. Government overreach is tyrannical at this point.
Thank you. -Olena Motso

To the Washington State Board of Health,

The proposed laws and enforcement of WAC 246-100-070, 246-100-045, and 246-100-040 are overreaching and unconstitutional. These regulations are written in a way that gives a "health officer" the ability to arrest and sequester a citizen (and even their family) because the citizen does not voluntarily agree to be examined, tested, receive treatment/vaccination.

This is absurd and unconstitutional, and is diametrically opposed to individual liberty and freedom. In no way should a government official, let alone a mere "health officer", have the ability to do this to the citizenry. The naivety of the authors of these regulations is preposterous, and the fact that these exist in the public register is unacceptable. The propensity to abuse power by government officials must be opposed head on with no compromise to the liberty of the citizen.

The reasoning for these quarantine regulations existing is based not only on a total lack of regard for individual freedom, but faulty understanding of the contrived paradigm of the Covid issues we face today. There are dozens of states that have no restrictions or plans to do anything remotely similar to what is proposed in the WAC references above. Their schools are wide open, illegal mask mandates are nonexistent, and vaccination mandates are disallowed. And yet life continues on there, and in fact flourishes as people are flocking to these states to LIVE IN FREEDOM. However, here in Washington the trend is proceeding in the opposite direction, with results of hospital overruns, loss of jobs, and governmental overreach. These results exist WITH horrible policies in place, showing the result of allowing them.

This "quarantine" provision and everything associated is wrong, unconstitutional, stupid and illegal. These regulations should be immediately removed from the register, health officials should be put back in their place and the governor should resign. This is a rise of an unconstitutional beast of a government that hides behind a cloak of lies and misinformation.

Regarding the idea of making COVID-19 shots mandatory for school admission, I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

-During the October 26th FDA advisory committee meeting, 16 of the 18 members were very clear that they believe "otherwise healthy" children do NOT need this injection. It was specifically stated in their closing comments that they were recommending approval so that "high risk children in conjunction with their parents and doctors" could have it available. They also noted that though some states may try to "mandate" it, they couldn't let that deter them from making it available to high risk kids that may need it.

-Federal Emergency Use Authorization statutes prohibit school mandates of EUA products. The only FDA approved version is not yet available in the United States.

Phase 3 clinical trials of COVID-19 vaccines are not yet completed. C4591007—the main clinical trial in children and young adults with BNT162b2—has an estimated completion date of May 5, 2026. Source:<https://clinicaltrials.gov/ct2/show/NCT04816643>

-The vaccine formulation now being given to U.S. children aged 5-11 is NOT the same formulation used in the clinical trials, and NOT the same formulation that has been administered to all other age groups under EUA. So even when current ongoing clinical trials are complete, the results cannot be assumed to be relevant to the safety or effectiveness of the new formulation.

-Not having language that recognizes and acknowledges innate immunity of the Covid 19 recovered is irresponsible medicine and employs a one size fits all medical approach that does not take into account the individual health needs of children.

-Children are the least affected by this virus regarding severity and most at risk of unknown long term effects.

Thank you for your consideration in this matter.

Sincerely,

Amber Metcalfe

Subject: New WAC codes

External Email

This email is to state my objections to the attempted developing and possible adoption of the following proposed new WAC codes:

WAC 246-100-070
WAC 246-100-045
WAC 246-100-040

and modification of existing WAC 246-005.

As a citizen of the United States of America, governed by the U.S. Constitution, I object to these new WAC codes. These are forced actions using a state of misfortune that has come upon our state to restrict legal and sovereign rights; to choose medical treatment and/or voluntary quarantine and/or vaccination(s), and violates the authority of parental governance over parent's children.

In my opinion, these new WAC codes and extreme over-reaching laws are similar to those imposed upon citizens of countries ruled by hostile governments. These types of laws, mandates and/or codes are not in keeping with our historical governance that emphasis freedom as defined by our U.S. Constitution. This is also in violation of our Washington Constitution which clearly states that no law can be made to be enforced that is in direct violation of the U.S. Constitution.

Although I respect tge concern of our state officials that are attempting to manage the current mutations of the covid 19 virus, using authoritarian practices is not Constitutional by federal or state law.

Firmly Grounded,
Portia Childress

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

- * Children are at extremely low risk for Covid
- * The vaccines are still only EUA (emergency use authorized)
- * There are no long-term studies to document any history of safety. This is extremely concerning and irresponsible to create a trial of the entire population. What are the long term effects of introducing foreign RNA into young bodies? No one know.
- * Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore, the vaccine apparently does not stopthe spread of the disease
- * This is a choice that parents ought to make after doing their due diligence with full informed consent.

These policies are overreaching and immoral. We stand against the following proposed WACs: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Hello,

I stand against any of the proposed covid policies that are over reaching and completely immoral. They go against the foundational Constitutional Rights of every American citizen. I strongly stand against these proposed WAC's:

WAC 246-100-070, WAC 246-100-045, WAC-246-100-040, WAC-100, WAC 246-1-5.

A statement to parents & public health officials from Dr. Robert Malone, Harvard MD & Inventor of mRNA vaccines.

"My name is Dr. Robert Malone and I am speaking to you as a parent, grandparent, physician, and scientist. I don't usually read from a prepared speech, but this is so important that I wanted to make sure that I ge4t every single word and scientific fact correct.

I stand by this statement with a career dedicated to vaccine research and development. I'm vaccinated for COVID and I'm generally pro-vaccination. I have devoted my entire career to to developing safe and effective ways to prevent and treat infectious disease.

Before you inject your child, a decision that is irreversible - I wanted to let you know the scientific facts about getting this genetic vaccine, which is based on mRNA technology I created:

There are three issues parents need to understand:

1) The most alarming point about this is that once these damages have occurred, they are irreparable.

You can't fix the lesions within their brain.

You can't repair the heart tissue scarring.

You can't repair a genetically reset immune system.

And this vaccine with cause reproductive damage that could affect future generations of

your family.

2) The second thing you need to know about is the fact that this novel technology has not been adequately tested. We need at least 5 years of testing / research before we can really understand the risks. Harms and risks from new medicines often become revealed many years later. Ask yourself if you want your own child to be part of the most radical medical experiment in human history.

3) One final point: The reason they're giving you to vaccinate your child is a lie. Your children represent no danger to their parents or grandparents. It's actually the opposite. Their immunity after getting Covid, is critical to save your family if not the world from this disease.

In summary: there is no benefit for your children or your family to be vaccinating your children against the small risks of the virus, given the known health risks of the vaccine that as a parent, you and your children may have to live with for the rest of their lives. The risk/benefit analysis isn't even close.

As a parent and grandparent, my recommendation to you is to resist and fight to protect you and your children".

- Dr. Robert Malone

I stand by the statement & research presented by Dr. Robert Malone.

Please, for the love of God, do not allow this radical medical experiment to happen to our children. The consequences will live on for decades if we do not start thinking of the harm this is going to cause our children, and the future generations to come.

Thanks,

AnneCherise Jensen

ajensen@tulaliptribes-nsn.gov<mailto:ajensen@tulaliptribes-nsn.gov>

Before your child is injected, read Dr Robert Malone's statement on child COVID vaccinations

Before you vaccinate your child, which is irreversible and potentially permanently damaging, find out why 15,000 physicians and medical scientists around the world signed a declaration publicly declaring that healthy children should NOT be vaccinated for COVID-19.* On behalf of these MDs and PhDs, Dr Robert Malone, who has devoted his career to vaccine development, provides parents with a clear statement outlining the scientific facts behind this decision.

“My name is Robert Malone, and I am speaking to you as a parent, grandparent, physician and scientist. I don't usually read from a prepared speech, but this is so important that I wanted to make sure that I get every single word and scientific fact correct.

I stand by this statement with a career dedicated to vaccine research and development. I'm vaccinated for COVID and I'm generally pro-vaccination. I have devoted my entire career to developing safe and effective ways to prevent and treat infectious diseases.

After this, I will be posting the text of this statement so you can share it with your friends and family.

Before you inject your child - a decision that is irreversible - I wanted to let you know the scientific facts about this genetic vaccine, **which is based on the mRNA vaccine technology I created.**

There are three issues parents need to understand:

The first is that a viral gene will be injected into your children's cells. This gene forces your child's body to make toxic spike proteins. These proteins often cause permanent damage in children's critical organs, including

- Their brain and nervous system
- Their heart and blood vessels, including blood clots

- Their reproductive system, and
- **This vaccine can trigger fundamental changes to their immune system**

The most alarming point about this is that once these damages have occurred, **they are irreparable**

- You can't fix the lesions within their brain
- You can't repair heart tissue scarring
- You can't repair a genetically reset immune system, and
- This vaccine can cause reproductive damage that could affect future generations of your family

The second thing you need to know about is the fact that **this novel technology has not been adequately tested.**

- We need at least 5 years of testing/research before we can really understand the risks
- Harms and risks from new medicines often become revealed many years later

Ask yourself if you want your own child to be part of the most radical medical experiment in human history

One final point: the reason they're giving you to vaccinate your child is a lie.

- Your children represent no danger to their parents or grandparents
- It's actually the opposite. Their immunity, after getting COVID, is critical to save your family if not the world from this disease

In summary: there is no benefit for your children or your family to be vaccinating your children against the small risks of the virus, given the known health risks of the vaccine that as a parent, you and your children may have to live with for the rest of their lives.

The risk/benefit analysis isn't even close.

As a parent and grandparent, my recommendation to you is to resist and fight to protect your children." 15 December 2021

External Email

To Whom It May Concern~

I am unable to make the meeting Wednesday so this e-mail is my public comment in regards to agenda items 5, (246-100 WAC) 9 (246-100 WAC), and 11 (246-105 WAC).

It is alarming to know that the Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents with the proposed policies including:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I would like it to be known that I am against both of these possibilities becoming reality. Implementation of such a policy in the United States of America is against our rights and freedoms as Americans. There is nothing "voluntary" about these proposals.

Please seriously consider putting a stop to these policies.

Washington State Board of Health Members,

I wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070 <tel:246-100-070>) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045 <tel:246-100-045>) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040 <tel:246-100-040>). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical

freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and its variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. Several of my friends ages 40 up to 75, (all unvaccinated), some with several comorbidities have had Covid (including Delta variant) have all survived. Our God-given natural immunity kicked in and we successfully navigated the disease and are now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS reports!

Also, I have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus. Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept my concerns and recommend AGAINST these proposals being presented.

Sincerely,
Pamela Coffell

Subject: NO on Unconstitutional Vaccine Agenda

External Email

Washington State Board of Health:

I'm writing to express my strong opposition to WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, and 246-105. A person's freedom to make their own choices pertaining to their health and wellbeing as well as their children's is a constitutional right. Let us not make the same mistakes others have made throughout history. The Nuremberg code was created to ensure that these war crimes were not repeated in the future and protected individuals' rights concerning their bodies.

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90% of the population. These Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been double vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines.

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about our health; it is an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

THE NUREMBERG CODE

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have the legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision. This latter element requires that, before the acceptance of an affirmative decision by the experimental subject, there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person, which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study, that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made, and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the experiment to an end, if he has reached the physical or mental state, where continuation of the experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill, and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

["Trials of War Criminals before the Nuremberg Military Tribunals under Control Council Law No. 10", Vol. 2, pp. 181-182. Washington, D.C.: U.S. Government Printing Office, 1949.]

I am 100% against the proposed COVID policies. They purposed policies are a government over reach.
There is not enough data to support this. The Trusted News Initiative has censored and pushed one narrative to the people.
I stand against these proposed WAC's : WAC 246-100-070, WAC 246- 100-045, WAC 246-100-040.
This goes against my constitutional rights. My personal beliefs as an American citizen.
If these pass, I will leave the state and relocate to a state which protect and honor our rights and freedoms.

Vaccinated people are still contracting and spreading COVID, they are filling up the hospitals. Also in fact dying of this virus after three shots.
This is America stand up and act like it!
Consider you're actions. We the people have the power. Government works for the people.

This is not the role of government!

Allison Chamberlain

Subject: My Public Comments

External Email

Based upon rumors surrounding the possible changes to these important WAC's I am completely against any proposed Covid Policies that are over reaching and immoral. These immoral policies include requiring a CHILD to be vaccinated for a virus such as Covid-19, and policy change to Communicable and Other Certain Diseases, Chapter 246-100 WAC that would include covid-19.

Curious, Will you require FLU vaccinations for our children to attend school? Don't think so Covid 19 is a VIRUS not a disease. It is treatable and manageable WITHOUT a vaccination. A vaccination that has a track record far worse than many pharmaceuticals that have led to lawsuits, public outcry, and even death. These covid-19 policies and vaccinations are Immoral and unconstitutional. It is OUR RIGHT to choose for ourselves and our children what WE as parents determine is best for us.

If these changes are implemented the exodus of WORKING families to other states will dwarf what we have already experienced. The amount of lost labor and revenue will be yet another notch in the belt of this dying state due to policy changes recently implemented similar to these that are being proposed.

Give the parents the right to choose without constricting our everyday lives giving people no choice but to break to these tyrannical policies. Offerings of free food, lottery entries, free tickets to public events with proof of vaccination are just a few things I am referring to.

I stand against changes proposed to WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105 that would include any new requirements that would be implemented on the basis or the direct correlation to Covid-19.

Thank you for taking our public comments.

-Christopher Johnson

Vote NO on this policy. VOLUNTARY is not VOLUNTARY if this is implemented. ONLY if Illegally entered the country and are not US citizens.

PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Sincerely,

Marilyn Bennett

Subject: STRONGLY OPPOSED to WACs: 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105

External Email

I STRONGLY OPPOSE these proposed policies. The fact that a policy so blatantly immoral and disgusting is up for discussion is truly appalling. And in the name of 'health and safety?' If anything, this will be more of a detriment to public health and safety and an unnecessary overreach of authority.

You are public servants, which means you must do as we the public say, as we pay your salaries.

WE DO NOT WANT OUR CITIZENS BEING DETAINED INVOLUNTARILY.

These measures will violate privacy and bodily sovereignty, it will tear families apart who are already struggling, it will exacerbate the erosion of the populations already deteriorating mental health and it will set the precedent for more policies that are even more overreaching and tyrannical.

It has also come to light the newest variants of covid have mutated away from being deadly and no more a threat than the common cold, which renders policies such as these completely unnecessary. Washington also has one of the highest vaccination rates in the US.

There is no justification for these measures whatsoever when other solutions are available and less invasive to privacy and well-being. I ask, as a concerned citizen, can you provide the following:

- * Please provide proof that a team of people going door to door, doing health checks (possibly spreading the virus themselves) is safer than individuals just receiving a text to stay home due to contact tracing.
- * Please provide proof that a Covid detention center does not affect someone's mental health.
- * Please provide proof that new variants of Covid are deadly enough to warrant such measures.
- * Please provide proof that these measures do not violate HIPAA and other individual privacy rights.

- * Please provide proof that being detained involuntary will not affect the employment of an individual and their ability to provide for their family.
- * Please provide proof that the use of police force to detain unwilling individuals is safer than texting them to just stay home due to contact tracing.
- * Please provide proof that removing people from their homes to another "shelter" makes sense when those "shelters" could be used for the thousands of homeless people in the streets.
- * Please provide proof that forcefully detaining individuals with potential illness is the best use of our diminished police force and won't distract them from their actual jobs to serve and protect.
- * Please provide proof that nothing within these proposed measures violates the Nuremberg Code:

* The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion, and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.

* Please provide proof that the budget for enforcing these measures cannot be spent on anything better.

* Please provide proof that if detained an individual would have access to all medical, dietary and hygienic needs.

* Please provide proof that the public, NOT YOU, the public believes this is necessary for their own safety.

* Please provide proof that these measure are not discriminatory and thusly illegal in any way (medically, race, gender, age, or status).

* Please provide proof of long term data that vaccinating children is safe.

* Please provide proof that the vaccines don't do more harm than good.

As a concerned citizen, I hope you read this thoroughly and understand my concerns. These proposed measures SHOULD NOT be passed and should never be brought up again.

Thank you for your time.

Sincerely,
Gamble Jones

Good morning,

I am writing this e-mail regarding the proposed COVID-19 policies that would be a complete overreach of the government and are at best a threat to our freedoms as American citizens. This is besides the fact that the vaccine is more of a risk to children than actually getting COVID. It's absolutely senseless, unless you have different motives. This is not right - you know it and we know it. I, and my other 4 family members, stand in complete opposition of the following proposed WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Sincerely,

Jana Bajema

To WA State Board of Health:

Concerning your agenda for your meeting next week, as lifelong Washington State residents we wanted to write you and let you know that we OPPOSE any involuntary isolation or quarantine of people as described in parts of WAC 246.100. We also OPPOSE any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

In short, we are COMPLETELY AGAINST any of the proposed COVID policies that are over reaching and immoral. We stand against these proposed WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Do not vote for these policies!

Dear Washington State Board of Health,

I appreciate the difficulty you have had over the past two years. Trying to strike a balance between allowing Washingtonians to be free people as defined in our constitution and keeping the hospital, businesses, and general public operational and prosperous has been a challenge I can't even imagine being tasked with. Not to mention the task of keeping schools open and children/school staff mentally and physically healthy. I thank you for your efforts and applaud you for keeping up the good fight.

I am alarmed that the following policies are being proposed as a way to mitigate the current COVID-19 situation. First of all, allowing law enforcement to force or involuntarily detain a group of people based on refusal to comply with request for medical examination, testing, treatment, counseling, or vaccination is against our the rights provided to us in our constitution. Making the Covid-19 vaccination mandatory for school goes against all the research about how this virus affects kids. Why would we force children to vaccinate when they are barely affected by it?

The media messaging during this entire pandemic has been difficult to follow and at times has completely left out pieces of research. The media, driven by the desire to be fiscally healthy, has done nothing but given Americans a reason to question and be uncertain about some of the practices we have employed to fight this pandemic. I personally can see the struggle on both sides of the continuum. Follow with me if you will..before the election Americans were told to question any vaccination that would be coming out under the current administration. Just a few months later we were told to get the same vaccination at any cost. We were paid, given free merchandise, entered in lotteries, etc. Then we were told if we got vaccinated we would be able to be without masks and quarantines. We were also told the vaccination had an effectiveness rate of over 80%. Then a few months later we were told that even if you are vaccinated you have to mask up and quarantine. Then the effectiveness of the vaccination dropped considerably. I completely understand how science works and that we aren't sure until we are able to questions, test, and hypothesize about these measures. However, the media has portrayed these things as truth and has changed the narrative along the way too many times. This has caused many Americans to distrust and be suspicious of the policies. The way to correct this problem seems to be to correct the messaging and respect the people of Washington's struggle. Acknowledge it and come at it with compassion and honest conversations. There is also the fact that this vaccination came on the scene much quicker than any other one in history. This again has given Americans a reason to be hesitant and one you can't deny.

If you start forcing people to comply instead of acknowledging the problem the media and politics have caused, I believe you will continue to erode the democracy many American's fought so hard to obtain, perhaps even create a situation where certain

groups of people will do whatever it takes to defend it! We can't ignore the fact that the media, big business, and politics have made a mess of this situation. The solution lies in trying to determine how we correct that. Not in forcing Washingtonians to comply with something that doesn't make sense to them because of the narrative they have been fed. The evidence that social media is causing the threads of our society to unravel in so many different directions is mounting. The microcosms it has created is what is causing this divide. The real solution lies there. How do we regulate that? Personally I believe in vaccinations and am vaccinated. I know how they have eradicated and controlled viruses and diseases through out history. But I can see why others would question and be confused by the messaging here.

The pandemic is becoming endemic. Why would we treat it in such a extreme way? We do not treat the flu this way? That is what this virus is becoming, a virus similar in nature to the flu. Many scientists believe that omicron will help to push the virus to the endemic level and give many American's an immunity from severe disease. We will continue to deal with the virus but not at the same levels we are now. We also have many new therapies and treatments that we are able to use to fight the sickness. We do not force American's to eat healthy and exercise although not doing these things can cause diabetes and heart disease, which are leading causes of death. People with these ailments do fill up our hospitals every year. I know that hospitals work on very slim margins. Maybe a solution lies there, why don't we put policies in place to increase the amount of staff, beds, etc. during peak times and equip our hospitals to be able to handle the overflow of patients?

I fear for what will become of our state if you enforce these policies and ask you not to take this step. I am a concerned citizen and wish for our state to be united and healthy. Not just physically but also democratically. The policies you are proposing are not the solution and will create a greater divide than one can imagine.

I beg you not to put these policies in place.

Thanks for your time.

PROPOSED POLICIES:

* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

* Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

--

instead of teaching people how to be proactive with health, you are invested in making money with the jab, please consider that many people already have had covid and are wanting to keep the integrity of the human species of natural immunity. The MRNA is screwing with our DNA, and it is not tested - well it has been a year of testing now, and there are plenty of results that are not being looked and considered. If you have taken the vaccine and had an adverse reaction like the 800,000 have that are reported in the VERSE, and I know personally people who's lives are ruined because of the jab, you absolutely need to explain to us why you are tromping down this path?

The decision to do this is not the right one, the lockdown measures are not the answer, they have not worked in the past, it is a definition of insanity to keep trying. The conversation on how ugly our government has become, that everyone is afraid to say - but they are saying it in the background is more than you realize or will admit.

I stand for medical freedom of choice and that it is no-ones business of what I choose medically, I am fine for the vaccine, just mandating it is not our governments place.

Thank you for listening

Communicable and Other Certain Diseases, Chapter 246-100 WAC

-Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

2. Immunization Criteria for Child Care and School Entry

-Making Covid shots mandatory for child care and school admission.

To whom it may concern,

I would like to bring up the topic that the Covid 19 vaccines are NOT effective. People that have had 2 shots and a booster are having break thru infections! These break thru infections are capable of infecting other people. As you can see, these shots are NOT delivering the results that originally promised!

Also, these vaccines are still under emergency use authorization (EUA). Under the Nuremberg code, YOU CANNOT force an individual to participate in a treatment that he/she does not want that is UNDER EUA!

The only Covid 19 vaccine FDA approved is called Comirnaty. Comirnaty is NOT being distributed in the UNITED STATES. All the Covid 19 vaccines available for the public are EUA shots.

Thank you for your time!

To State Board of Health,

As a parent, teacher, and well-informed citizen, I am writing to express my concerns in regard to items on your meeting agenda.

Agenda Item #9 – Allowing local health departments to set up quarantine facilities and in some cases, detain people against their will. This is in direct conflict with our state constitution and is completely unnecessary in the current health situation. The vaccines have proven ineffective, as people still get Covid-19 after receiving them. Medically, it is proven that people develop natural immunity after having Covid-19. What justification would there be for quarantine facilities?

Agenda Item #11- Informed Choice Washington's Petition for Rulemaking (filed by Xavier Figueroa, Ph.D. on behalf of ICWA) requests a new rule that prohibits any EUA product, or any product that has not successfully complete Phase 3 trials to be added to mandatory school health requirements. I agree with this statement for the following reasons. #1. The current Covid -19 vaccines have not completed Phase 3 trials. #2. The current vaccines for Covid-19 are still in EUA. This means that they are supposed to only be applied in an emergency – not as a broad application to the entire public. #3. The EUA no longer should be applicable in this situation as current and further studies are finding many therapies for early treatment for Covid-19, which improves opportunities for natural immunities to develop. #4. The current vaccines are not preventing Covid-19. #5. According to the CDC's website VAERS, the current Covid-19 vaccines have a terrible record of adverse events and death. There is no data on safety over 3, 5, 10 years and beyond. It is not acceptable to vaccinate every child with a vaccine with this undeniably tragic safety level. The consequences could be devastating on our children!

Respectfully,

Teresa Diane Colley

Subject: Concerning new policies

External Email

Greetings Mr. Glasoe!

I hope this email finds you healthy and well.

I know several important conversations will be happening soon. I would like to weigh in on the matter and explain why.

I strongly object to the proposed policies:

WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Covid-19 was new and scary virus, but we've come a long way since it first appeared.

Immunocompromised and those individuals strongly concerned have the option to get a vaccine. Majority have mild infections. Passing laws at this point is government overreach at best, especially since vaccines DO NOT prevent transmission, or provide much protection for the new variant.

But what is happening, is that people feel threatened by the government. I already do,

when I see these proposed policies. And when Government institutions will try to pass good policies in the future, if need arises, there will be pushback because you're setting a precedent of government overreach. PICK YOUR BATTLES. The current proposed measures are unnecessary and the current situation does not warrant such strict policies. It is a serious virus, but please remember the death rate is still less than 1 percent (even that is generous). Most people are either vaccinated or have natural immunity. You want to strip away freedoms of people for the sake of what? People want to be free, and safe. But how can we feel safe knowing we can be voluntarily detained because we didn't consent to a medical procedure related to a virus with such a high survival rate?

Concerning vaccine requirements of children: Requiring children to get a vaccine that has a higher risk of an adverse reaction than the threat of the initial infection is wrong. If you must do something, then please put it in the "recommended" vaccine list, BUT NOT REQUIRED.

COVID-19 is NOT an infection that can be eradicated with vaccines like POLIO or MEASLES, then why treat them the same? Put it in the category of the flu, which is closer to reality. I'm begging you, LEAVE THE CHILDREN ALONE! They are not a threat to our society. COVID is not a large threat to the well-being of children. If someone WANTS their child vaccinated, they know how to do it, and they will do it.

Thank you for your time,

Liliya Smal

P.S. I was going to provide articles to support my claims (although you have access to them), but I was afraid my e-mail will get flagged for containing links.

Subject: OPPOSITION TO MANDATORY COVID VACCINES AND RULE CHANGES

External Email

I am writing to you today to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State, and also extreme opposition to a rule change to include Covid under the Communicable and Certain Other Diseases category.

No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization -- yes still. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID, as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show proof of

To: Davis, Michelle (SBOH) <Michelle.Davis@sboh.wa.gov>
Subject: Jan 12th meeting

External Email

Dear Michelle,

I am a Washington state citizen and a parent. I STRONGLY OPPOSE the use of police officers and health officials for taking persons to detainment facilities who do not comply with quarantine, face masks, testing, and vaccination. WE ARE UNITED STATES CITIZENS WITH A CONSTITUTION. WE HAVE INDIVIDUAL RIGHTS AND LIBERTIES. WE DO NOT LIVE IN WORLD WAR II, NAZI GERMANY. NO COVID QUARANTINE CAMPS!!! I strongly oppose adding covid to list of diseases. Please show studies where covid has been isolated.

I STRONGLY OPPOSE required covid vaccination for children and adolescents. Recent information coming out shows that these covid vaccines, are not vaccines, they are gene modification therapies. These gene modification therapies are not safe. See VAERS report: VAERS through 12/24,21: 1,000,227 adverse events reported. 21,002 deaths, 110,609 hospitalizations, 109,245 urgent care, 156,456 doctor office visits, 8,673 anaphylaxis, 12,532 Bell's palsy, 22,117 3,435 miscarriages, 10,640 heart attacks,

22,117 myocarditis/pericarditis, 35,650 permanently disabled, 5,011
Thrombocytopenia/low Platelet, 23,892 life threatening, 36,492 severe allergic reaction,
and 11,462 shingles. <https://openvaers.com/covid-data>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F covid-data&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cfac9adf800f84323de7908d9d218dbe7%7C11d0e>
. There has not been full disclosure as to what are in these injections. The vaccine box
insert is blank. The current offered covid gene modification injections are under EUA,
thus they are not FDA approved.. only Cominarty is FDA approved and it is currently not
being offered. Children and adolescents are at much higher risk of vaccine damage than
covid.

I strongly oppose proposed WACS:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

These proposals are violations of Nuremberg Code: "The voluntary consent of the human
subject is absolutely essential. This means that the person involved should have legal
capacity to give consent; should be so situated as to be able to exercise free power of
choice, without the intervention of any element of force, fraud, deceit, duress,
overreaching, or other ulterior form of constraint or coercion; and should have sufficient
knowledge and comprehension of the elements of the subject matter involved as to
enable him to make an understanding and enlightened decision."

Subject: Opposition to Proposed Covid WAC

External Email

To whom it may concern,

As a lifelong resident of Washington state and mother of four young children, I am completely against any and all of the proposed Covid Policies that are over reaching and immoral. As a mother who has a parenting plan, and who has gone through court process, i know that you want what's best for our children, which is not forcing them to this when it is still emergent and we do not know the long term effects. I'd like to remind you that this is based on what is best for the children which is their parents being able to choose to exempt from a vaccine just like other vaccines / choose what is best for them based on their personal situation. This is completely not freedom.

I firmly stand against the proposed WAC's, WAC 246-100-070
WAC 246-100-045
WAC 246-100-040
WAC 246-100
WAC 246-105

Best regards,

Emma

Fwd: January 12 Meeting- Current infectious disease WAC codes to include Covid-19 for all WA State residents.

Send an email to these people by tomorrow!! This is the one I sent. They are trying to use the WAC's to set up camps in WA to force people into and to require the vaccine for ALL WA schools.

Subject: January 12 Meeting- Current infectious disease WAC codes to include Covid-19 for all WA State residents.

Hello,

I'm concerned about the WAC's being reviewed to possibly be revised and add to them. You don't have the right to decide if a child gets vaccinated or to decide if you can use law-enforcement to detain me and or my family if you choose to do so. The following proposed policies/WAC's are unconstitutional! .

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC

This blatant abuse of power needs to stop. I am NOT in support and oppose these possible changes. Please don't do this.

Thank you,

I oppose the proposed Covid policies, that you are scheduled to vote on today, that I believe that are over-reaching, immoral, and which do not respect differences in personal health that need to be individually determined and assessed. I strongly oppose your proposed policies which interfere with the privacy, and medical and religious rights of any person to determine what is acceptable and what is not, including the fundamental right established at Nuremberg to refuse medical treatment. I stand against these proposed WAC's: WAS 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Please do NOT approve these proposed policies.

Subject: Statement on proposed application of WACs to Covid-19

External Email

To whom it may concern,

I vehemently oppose the State Board of Health's proposal to extend certain infectious disease WACs to include Covid-19. The proposal is a gross and unjustified overreach of power, for a disease that continues to decline in both severity and mortality rates.

Let me state this clearly: WSBOH does not make law; only the Legislature makes law. WSBOH's policies must comply with the Constitution of WA State. This proposal violates the Constitution, and it violates the God-given Rights of the People. Such an overreach of power is unacceptable and will not be tolerated.

Witness:

WA State Constitution, Article I, Section 1: " All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights." (emphasis mine)

WA State Constitution, Article I, Section 3: " No person shall be deprived of life, liberty, or property, without due process of law."

WA State Constitution, Article I, Section 7: " No person shall be disturbed in his private affairs, or his home invaded, without authority of law."

WA State Constitution, Article I, Section 11: " Absolute freedom of conscience in all matters of religious sentiment, belief and worship, shall be guaranteed to every

individual, and no one shall be molested or disturbed in person or property on account of religion..."

WA State Constitution, Article I, Section 30: " The enumeration in this Constitution of certain rights shall not be construed to deny others retained by the people."

I refuse my consent to these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

You have been given Notice.

It is appalling that I have to write my state legislature against the following overreaching policies WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. I am a resident of Washington State and a Registered Nurse at a local hospital who works on a Covid unit. If local health officials are allowed to use law enforcement to force an emergency order to quarantine families and individuals, and if Covid injections become mandatory in schools, I will remove my kids from school and, if necessary, move from Washington state. These policies are violations of fundamental liberties.

Subject: Public Comments for WSBOH Members from March EH Committee Special Meeting

External Email

The below information has come into my awareness this morning along with this Committee Special Meeting today, which I'm unable to attend, so am sending this email:

On Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

PROPOSED POLICIES: • Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100. • Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I'm not able to attend so I wanted to let you know it's a definite NO for me!! This is seriously ridiculous since, to my understanding and research to date, the Corona Virus has been around since 1971 and the Covid-19 genetic experimental vaccine has killed more people than all vaccines put together in all time and that there IS alternative medicine that has cured this virus. India and other places around the world are using vitamins and other prescription medicines for their patients with success.

I choose medical freedom to be able to choose whether or not I, or anyone else, gets the vaccination and boosters, without government or military involvement being forced into quarantine and forced to take the vaccination.

Sincerely,
Denise Rolland

Dear Stuart,

I strongly disagree with any vaccine mandate and or allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntary comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100□□□□□□

DO NOT Include the Covid-19 injections as part of school immunization requirements ! ! !

Thank you,
Mark Anthony

Subject: Comments for the Immunizations & Quarantine Proposals, Reject them!

External Email

I am strongly opposed to involuntary detentions, testing, quarantines, and to making COVID-19 shorts mandatory for school admission or childcare in our State for the following Reasons:

- Children have never been at risk for harm from covid
- Prior to the injections being allowed under the EUA, Covid deaths were limited to the elderly and those with multiple comorbidities but then the injections came out and due to their 'transmission' as reported by the 'vaccine' manufacturers, the contents spread to others so now all segments of society are susceptible to its ingredients.
- The vaccine does not stop the spread of covid, nor does it stop transmission, so there is no benefit
- States that have respected individual rights to choose medical treatments, use voluntary precautions, and protected the at risk populations, have already achieved herd immunity and are operating normally. States using mandatory lock downs and mask mandates are harming people and the economy and are more harmful to community health.

There is a preponderance of evidence that back this up.

Please do the right thing and reject vaccine requirements for school admission, and reject all of these proposals;

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Subject: Meeting in Progress NOW RE: WAC 246 100 045, WAC 246 100 070

External Email

I am writing this letter as a citizen of Washington State who is appalled at the behavior of your board.

1. You put on your agenda that you will be discussing detaining citizens AND families, against their will, at your leisure, who refuse to be vaccinated with an experimental mRNA treatment. We can read. We are not all stupid. It was CLEARLY WRITTEN and on your agenda. I and several people I personally know double checked your site because we understand the nature of social media. Making an announcement at the beginning of the meeting that we citizens aren't educated enough to decipher our own written language is belittling and only makes you look worse. Every time you say "misinformation" it makes me even more angry, because that's codeword for "we got caught". Lying to us only confirms our suspicions.
2. You decided you would not take verbal testimony from all the concerned citizens during this meeting. Why? Are you not interested in hearing from the minions? We are not standing down on this issue. You are now under the scrutiny of the people YOU SERVE.

I object to the adoption of this amendment to our laws. You are NOT LAWMAKERS. You do not have authority to force experimental procedures on any American citizen. You must abide by both State and Federal Laws, in spite of the fact that you are under the belief you are above the laws of this land.

Federal law 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(III)
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fuscode.house.gov%2Fview.xhtml&prelim-title21-section360bbb-3a%26num%3D0%26edition%3Dprelim&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C3b008b76acc04e>>
requires that the person to whom an EUA vaccine is administered be advised, of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks.

The reason for the right of refusal stems from the fact that EUA products are by definition EXPERIMENTAL. Under the Nuremberg Code
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedia.tghn.org%2Fmedialibrary%2F>>
, no one may be coerced to participate in a medical experiment.

You have been advised. There are numerous legal actions being taken by citizen groups all over the planet. If you intend to be the recipients of a law suit, then continue with your work to arrest and detain citizens of Washington State who refuse to participate in this medical experiment.

Finally, shame on you. You all know this experiment is a failure. You all know of the millions of people suffering injuries from these shots. You all know of the MILLIONS of deaths from blood clots and myocarditis. You are participating in genocide.

Erica Norton

Subject: We The People are your bosses

External Email

To whom it may concern, you unelected bureaucrats,

I am a FREE citizen and lifelong resident of Washington. I reside in Spokane County. I am one of your bosses. I am not your servant, peasant, subject, peon, or inferior.

I have a multitude of questions, serious, important questions, and a lot to say about the way people employed by the government of Washington have begun to believe they are the rulers of the citizens of Washington, have come to the completely mistaken and wicked belief that they are entitled to make private, medical decisions for the citizens of Washington and the children, and that they have the right to coerce, compel, and force the FREE citizens of Washington to do anything, especially anything that violates a free human being's bodily autonomy.

I OPPOSE WAC 246-105 (You may NOT allow Covid-19 injections to be added to school immunization requirements.)

I OPPOSE WAC 246-100 (You may NOT allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).).

I do not agree that these WACs should be modified, changed, or altered in any way to add any language referring to COVID-19 or coronavirus or any of the variants.

I DEMAND that you tread lightly and remember that We The People are free, sovereign human beings with the right to speak and move freely, amongst other things. You have no right to violate our rights, freedoms, or bodily autonomy. Anything you do while being paid by the taxpayers of Washington must be with the full awareness of our rights and zero treading upon them.

My first question, a 2 parter, which you MUST address: When did you become the rulers/bosses/parents/supervisors/kings/queens/lords/stewards of the citizens of Washington? And when did WE the People abdicate our rights and freedoms to you?

If your answer is anything but "NEVER" and "NEVER" then you should resign in shame immediately. How dare you believe, even for 1 second, that YOU have any right whatsoever to dictate anything to the free citizens who have chosen to live in Washington? WE are YOUR bosses. WE pay your salaries. You are supposed to work for us. We are not peasants, subjects, peons, slaves, indentured servants, children, minions, inferiors, etc. We have the right to make our own decisions. You have ZERO right to impose your wicked ideas on us, to force, coerce, threaten, chide, compel, or anything. If you cannot remember these things then resign right now. You have no business being in "public service" if you cannot remember YOU SERVE THE PUBLIC. As the publicly funded website for the Board of Health says, "the State Board of Health has served the people of Washington for 132 years." SERVED THE PEOPLE. It does NOT say "ruled the people." Further, it says you "promote policies that protect and improve the public's health." Promote does not equal "coerce" or "force" or "rule." Maybe you should refresh your memories and remember your places (that would be beneath the people who are your bosses, by the way).

We elect representatives to a legislature where they discuss, write, take opinions on, debate, and vote on laws. We did not elect career bureaucrats to create rules, regulations, or demands on the people. If you have not been elected to a legislature then stop thinking you have any right to force your notions upon us. No rules/regulations without representation. If you are in the legislature, then it's time to remember YOU WORK FOR US. You have no business creating and passing laws that violate our freedoms and rights. If you cannot remember this, then resign in disgrace. I do not care if the legislature "grants you powers." They only serve with the consent of the governed and we do not consent to be experimented on, to be ruled by unelected (or elected) power-hungry fascists or give up our rights, freedoms, and bodily autonomy. WE DO NO CONSENT.

WE ARE IN CHARGE, not you. You have ZERO right to violate my bodily autonomy, make medical decisions for me, force me to inject ANYTHING in my body, deny me entrance to publicly funded spaces, force me to wear fabric on my face, coerce me to inject anything

into my body, coerce me to wear fabric on my face, etc. etc. etc. As a free human being, I get to decide what I inject into my body, what I wear, and where I go. My tax dollars pay for publicly funded spaces and if you want to deny me entrance to anything my money pays for then I want all of my money back and I will no longer pay taxes. Such things are literally discrimination, segregation, and immoral. I will not share my private medical choices with event staff, clerks, government officials, or to enter establishments, public or private. My private medical records are MY BUSINESS ALONE. If you think forcing people to share their medical records with others is acceptable, then you better be ready to put your own medical records out in public view immediately so we can all have a look and make decisions on what you are allowed to do, what you must inject, the behavior you are no longer allowed to engage in, etc. Further, if you want to coerce us into sharing this medical decision, then it's only fair that everyone's every medical decision be public record. Promiscuous? Then we want to see if you have STDs before you can be in public. A drinker or smoker? We get to dictate what you get to do in life. A drug user? We get to make decisions for you, too, and share everything publicly. Or maybe you should back this runaway train up and remember you serve free citizens who have the right to private medical records.

Second Question: When did the free citizens of Washington give their children to you to raise? Why do YOU think you have the right to dictate other people's children's medical decisions? Children belong to God and with their parents. They do not belong to the governor, the attorney general, legislators, school principals, babysitters, cousins, neighbors, store clerks, or you, unelected, arrogant, power-hungry bureaucrats. You have NO RIGHT to decide what is injected into other people's children. Parents have the responsibility to make decisions for their children.

COVID-19 is really not much of a threat to MOST people and it's even less of a threat to children. According to the CDC's best estimate of the infection fatality rate for individuals ages 0-19 is 0.00002, meaning 99.998% of children survive it. Why on earth do they need to be injected with things which have no long-term studies or trials? These shots have barely been around for a year and you cannot possibly argue that a year or 2 suffice as "long-term." It is horrifying that you are even considering making experimental shots mandatory for anyone, let alone children. Other immunizations (which actually IMMUNIZE, unlike the COVID "vaccines") were tested for a long time before they were used and were available for a long time before anyone considered making them mandatory. As COVID primarily impacts the elderly and the ill, it is unconscionable to demand children be forced to get injected with these experiments. Please refer to this article and many others like it for more information, as apparently you are completely ignorant of reality: <https://www.tabletmag.com/sections/news/articles/covid-vaccine-mandates-kids-legal>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.tabletmag.com%2Fsections%2Fnews%2Farticles%2Fcovid-vaccine-mandates-kids-legal&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C5dc6816d500847808cc108d9d22898d5%7C11d>

Currently, as I am sure you must know, there is no COVID-19 "vaccine" available in the United States outside of ones approved only under the Emergency Use Authorization, which is only possible if there are no therapeutics available to treat something. As we all know, there are therapeutics available to help fight COVID-19. I believe you cannot mandate these shots as long as they are under the EUA. And, as you know, "Comirnaty" is not available in the United States so you cannot mandate children be forced to get the EUA injections. Or anyone else, for that matter.

To quote the article above at length:

"In 2004, under Section 564 of the Food, Drug and Cosmetic Act, 21 U.S.C. § 360bbb-3, Congress permitted the FDA to grant EUAs so that any American in a personal

emergency can choose whether or not to explore potentially lifesaving treatments that have not gone through the full testing regime. In other words, the legal basis for EUAs is a matter of the individual right to access experimental treatments, not of government right to compel such treatments. EUA products, by definition, have not yet been proven safe and effective according to FDA standards.

Indeed, Congress has recognized that Americans should not be forced to take medical products that have not been deemed safe and effective by the federal agency charged with the power to to decide. The same federal statute that authorizes EUA products also requires, among other things, that potential recipients of such medications be informed "of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks." According to a plain reading, individuals have a statutory right to "refuse administration" of a vaccine approved only for emergency use. The language leaves no doubt that Congress intended for any decision to take such products to be made free of coercion, pressure, or duress. A city or school system that withholds children's access to education, extracurricular, and recreational activities—all crucial to their cognitive and emotional development—violates both the letter and the spirit of the statute."

I read this and think you should read it, too (or read it AGAIN): 'As the Technical Advisory Group stated during their meeting on December 29th, in order to amend Chapter 246-105 WAC "the vaccine (Covid vaccine) containing this antigen must PREVENT disease(s) that have significant morbidity and/or mortality". CLEARLY, these COVID "vaccines" DO NOT PREVENT TRANSMISSION. We were told repeatedly, by the CDC, Biden, and the rest of the snake oil salesmen, that these "vaccines" would 100% prevent you from getting or transmitting COVID-19. That was obviously a bunch of lies. Numbers show that highly "vaccinated" places are seeing massive surges of "cases." Masks also do not stop transmission (DUH) either and we do not consent to be muzzled. The only point of mandating these shots which do not prevent transmission is to control free human beings and force them to do as you "command." NOPE. We do not consent.

There are no Washington laws which give you the authority to mandate citizens must take an medication or have any medical intervention. Such a thing is so far out of your purview that you should never show your face again in public if you think you have even a tiny, infinitesimal "right" to do so. Requiring these untested "vaccines" for children is outside any law as well. Such decisions belong solely to parents/guardians and children. As the article says, "The Ninth and 14th Amendments to the United States Constitution protect the right of individuals—both children and adults—to bodily integrity and to decline unnecessary medical treatment."

Further, Natural Immunity is an important, long-studied scientific fact which those in the "health" field, in their haste to seize control and impose their own wills upon free citizens, have decided to pretend doesn't exist. Do you force those who have had chicken pox or measles, etc., to get the actual vaccines for these diseases? Do you force them to get "booster" shots? No, you do not, as such things would destroy the natural immunity which does a better job than anything created in labs. Since the COVID "vaccines" do not immunize anyone, you have no reason to coerce, compel, force, or mandate anyone into getting these shots. You have no moral, ethical, scientific, or legal standing to do so. If you think you have such rights, then please be aware that others can use the same arguments to dictate their beliefs in the future. Most Christians do not believe in sex before marriage and a case could certainly be made that engaging in such promiscuous behavior has consequences that hurt society at large, which would mean the government should be able to force interventions on those who think they have the right to decide who they sleep with. Etc. If you want to open that door, we're happy to make sure everyone in this Godless state is living pure, holy lives.

As we do not know the bodily consequences these "vaccines" might have long-term, it is unconscionable that you would even consider mandating them for children (or anyone). We cannot have any idea how their developing bodies might be hurt by these experimental shots. Are you prepared to be sued, as a "board" and as individuals by parents whose children are damaged by something you ordered before long-term studies can possibly exist? You will be morally, ethically, and, hopefully, criminally/monetarily/civilly held liable for any consequences if you mandate these for children. If you have half a brain amongst you, then you will step back, remember your place, and wait a decade or more to see how things go. Parents/guardians have the sole rights to make this decision for children. NOT YOU.

Under Jay Inslee's hateful guidance, government workers have arrogantly decided they have the right to dictate to the free citizens of this state, to discriminate, segregate, violate bodily autonomy, and threaten, coerce, force. We live in the United States of America and as Americans, we are FREE. We have the sole right to decide what medical "treatments" are injected into our bodies. We have the right to move freely, at will, to speak freely, to assemble, and to get rid of all governments which violate our rights. You are employed by the citizens of Washington. You better remember your place. You may provide suggestions and we are free to ignore them. There is not one medical treatment or medicine which every single person needs. Not one. We do not force healthy people to have chemotherapy or take heart medication (malpractice, anyone???). We do not put casts on unbroken legs. Why on earth would you think everyone should get these experimental shots? You have no idea what consequences many people will face due to your immoral, unethical coercion. You may recommend people get these experimental shots. You may NOT demand, force, coerce, pressure, threaten, or mandate them. In the last two years, you have created a hateful, divisive, cruel society where you segregate people based on their personal medical choices. You tell them they are less than, vectors for disease, and evil, when they are not. You lock them out of society and foment hatred against them. Is it any wonder that there have been so many more opioid overdoses and deaths, more domestic violence, more suicides, more hopelessness? YOU have contributed to these deaths and despair. YOU. And yet you cruelly continue to divide and subjugate us. If you care about the health and well-being of all Washington citizens (what a laugh!), then you should be concerned with all of those people. Vastly higher numbers of people have been affected by those things than by COVID-19 but you have ignored them at our peril. You have failed to encourage therapeutics, exercise, and healthy eating to prevent COVID and other things. You have locked people inside, kept them away from co-workers and loved ones (gathering strengthens immune systems, obviously, so it's interesting to consider whether you purposefully crafted policies which forced people to weaken their immune systems), and tried to keep them frightened.

Government is instituted by the people, for the people, to make life better for the people, not to rule the people. Free people cannot be compelled by any government or business or person to violate their bodily autonomy. Do you know what we call it when a person uses force or coercion to violate another's bodily autonomy? RAPE. We call it rape and it is immoral and evil. You have no right to violate our bodily autonomy or our children's bodily autonomy. We do not consent to any violation of our bodily autonomy. We do not consent to being locked out of society. We do not consent to be ruled by bureaucrats.

If you are a doctor, you have presumably taken an oath to "do no harm." Yet, in the last two years, you have crafted policies which have done immeasurable harm. You have kept people frightened, alone, and you should be held accountable for these things. Time to remember your oaths and step back from committing evil against the free citizens of Washington. You continue to abuse power loaned to you by the legislature, which only has power because it is loaned by the people. We do not consent to be abused, manipulated, frightened, coerced, forced, threatened, segregated, discriminated against, or locked out.

Perhaps you should spend some time learning more history so you can see how those who violated bodily autonomy and freedom are remembered. Many were put on trial and faced severe consequences for their evil actions. You have the choice to violate freedoms or to step back and recognize you have no such powers on this earth. For example, you should read the Nuremberg Code and why it was instituted in the first place. Never in history have the good guys been the ones coercing, forcing, threatening people with injections. So perhaps you might recognize which side you are currently on here. (Not the good guys, obviously.)

Nuremberg Code:

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

"The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity." (This means each of you individually is responsible for ascertaining the consent of the people, as in each person you think should be forced to have these experimental shots, and if you force/coerce/threaten, then you are individually responsible for the consequences. You cannot say it was a group decision or you just went along with others. You are complicit and morally, ethically responsible.)

Subject: PROPOSED POLICIES

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□ Daniel 2:22 □□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for and reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□ Proverbs 31:8 □□

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Emily Seaboch

Subject: Requirements

External Email

I, Kati Spencer, a registered Voter and resident of Spokane WA wholeheartedly oppose any and all CoVID vaccine requirements for any minor child in WA state. I oppose any medical treatment, medical examination or counseling (WAC 246-100) without parental consent. I will not allow local health officials to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC-246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) This includes the requirement of the covid-19 injection as a part of school immunization requirements using WAC 246-105.

It is an infringement on our rights as citizens and our ability to do what is best for our children and ourselves. The government doesn't have the right to tell us as parents or US citizens what we can and cannot do with our own bodies. We have the right to medical autonomy and it needs to stay that way. The government needs to get out of our medical decisions.

This is an atrocious abuse of power and we will not stand for it.

Subject: Proposed Covid Policies

External Email

Hello – I am writing to you as a concerned citizen regarding the proposed covid policies that are up for discussion at next week’s meeting. They are a gross overreach of the state’s powers and immoral. This state seems to have forgotten that we live in a country that is founded on certain freedom’s and inalienable rights, and though I have loved this state for decades, I am beyond ashamed by its leadership and people doing horrible things in the name of good.

I am absolutely against the following proposed policies:

WAC 246-100-070

WAC 246-100-040

WAC 246-100-045

WAC 246-100

WAC 246-105

Before even considering moving forward with any of these measures, it would seem (and has been confirmed by the CDC) that vaccinated and unvaccinated can both be infected and spread the virus. It is also true that children are at very low risk and young boys have a higher incidence of myocarditis and dying from the vaccine than from natural covid infection. Further, the omicron variant may be spreading quickly, but as of mid December there had only been 2 deaths worldwide.

Honestly, I pray that something would cause members of this Board to feel conviction in their heart for the damage you may choose to inflict on adults and children in this state. It’s reprehensible.

Dyan Englund

I am encouraging you to NOT adopt the proposed policies WAC 246-100-070, 246-100-045, 246-100-040 and 246-105.

I am adamantly opposed to these changes. The adoption of these changes will only serve to further divide the citizens and will do nothing to control Covid-19. It will violate our civil rights and further bog down our court systems costing taxpayers thousands if not millions of dollars.

I cannot believe that Washington State believes it is ok to treat citizens like this.

Dear Health Board,

I am completely against the decision that is on the table to allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

I am also completely against making the Covid-19 vaccine mandatory for public school attendance. You will see an even larger influx of homeschooling and alternate schooling if you do this.

Remember you work for the people, not the other way around. Do not pass the above action items.

Sincerely,

Alicia Smallbrock

This is with regard to the proposition to mandate Covid Vaccinations for attendance of public schools. As a parent, and a citizen of the US, I am appalled that you are even considering something like this. Not only is it unconstitutional to force people to vaccinate, it is also overreach to mandate an experimental drug to children. Per FDA, atleast a 5 year testing period is required to rule out most side effects, including myocarditis in children. It is unconscionable that the government would attempt to force people into injecting this drug. This is NOT done in the United States of America! This is a country where even children have constitutional rights. How dare you put them in harm's way!!

I am completely and strongly opposed to any of the proposed Covid policies, which are overreaching, immoral, unethical and unconstitutional. I stand against these WACs.

WAC 246-100-070
WAC 246-100-045
WAC 246-100-040
WAC 246-100
WAC 246-105

Do the right thing! Listen to the people and put an end to this show of force and violence against the unvaccinated! Statistics show that it is the vaccinated who are 312% more at risk of contracting variants. The unvaccinated are by and large healthy. I personally have lost friends to the Covid vaccination . Perfectly healthy people who collapsed a few days after receiving them. Do not push this on our children!!

PLEASE let's have some common sense. Do not let fear rule the day. Our bodies were made with built-in immune system. We just need to be smart about how to take care of our bodies by way of food, drink, sleep, work and exercise. Let us live in freedom to take care of ourselves.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 245-100-040, WAC 246-100, WAC 246-105.

Sincerely,

Chris Kredit

Washington State Board of Health Members,

I am a resident in Chelan, WA, and wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and its variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. Both me and my husband, age 65 and 75, (unvaccinated) with several comorbidities had Covid in June and July of 2021 (Delta variant) and survived. Our God-given natural immunity kicked in and we successfully navigated the disease and are now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS

reports!

Also, we have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus. Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept our concerns and recommend AGAINST these proposals being presented.

Sincerely,

Catherine Anderson

Dear Washington State Board of Health,

Please let it be known that I, my family, and most of the members of our church and my friends in our community vehemently oppose the proposed policy changes that are being discussed regarding COVID-19. There should not be any additional governmental authority given or granted regarding the management of this endemic disease.

Please do not enact these policies or anything similar to them in the future: (WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105). Thank you for protecting the constitutional freedoms of our citizens. We will be watching and joining the proceedings via webinar to keep close tabs on this outcome.

Sincerely,

Pastor Joel Creekmore

Subject: January 12 th regarding infectious disease WAC codes to include Covid

External Email

Hello,

I'm concerned about the WAC's being reviewed to possibly be revised and add to them. You don't have the right to decide if a child gets vaccinated or to decide if you can use law-enforcement to detain me and or my family if you choose to do so. The following proposed policies/WAC's are unconstitutional and will lead to extreme unrest.

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC

This blatant abuse of power needs to stop. I am NOT in support and oppose these possible changes. Please don't do this.

Thank you,

Dave Strakele

Marysville WA

Subject: Change to infectious disease codes

External Email

Hello,
My name is Greg Thorn and I am a native Washingtonian currently living in Brewster in Okanogan County.

It is imperative that you do not include COVID-19 in the existing Infectious Disease Codes.

Specifically, these proposed WAC's: WAC 246-100-070, WAC 246-100 -045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Further, you must cease further action on the vaccine mandates currently under discussion. They are over-reaching, immoral, and unconstitutional.

They absolutely will not stand up to legal challenges and simply serve to punish and harm thousands more innocent Washingtonians who have not yet fled this state in search of refuge in a free state.

Thank you for your attention to this important matter.

Our family is completely against any of the COVID policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There should absolutely be no right for law enforcement to detain people for vaccination purposes. The vaccination for COVID is unproven as a legitimate vaccination. People are receiving the vaccination still getting COVID, being hospitalized for COVID and dying from COVID. There is no evidence that it lowers symptoms of COVID in the majority of people. There are significant side effects and risks of receiving the vaccination. This should not be a required vaccination at this time as it is NOT a vaccination.

Please, please, consider the effects of these WACs and the unnecessary overreach they would cause. Please oppose these WAC's.

Subject: NO on Unconstitutional Vaccine Agenda

External Email

Washington State Board of Health:

I'm writing to express my strong opposition to WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, and 246-105. A person's freedom to make their own choices pertaining to their health and wellbeing as well as their children's is a constitutional right. Let us not make the same mistakes others have made throughout history. The Nuremberg code was created to ensure that these war crimes were not repeated in the future and protected individuals' rights concerning their bodies.

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90% of the population. These Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been double vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines.

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about our health; it is an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

THE NUREMBERG CODE

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision. This latter element requires that, before the acceptance of an affirmative decision by the experimental subject, there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person, which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study, that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made, and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the experiment to an end, if he has reached the physical or mental state, where continuation of the experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgement required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

["Trials of War Criminals before the Nuremberg Military Tribunals under Control Council Law No. 10", Vol. 2, pp. 181-182. Washington, D.C.: U.S. Government Printing Office, 1949.]

Subject: Reponse to Upcoming Board of Health Meeting on 12 January 2022

External Email

Good Afternoon,

I wanted to send a written response into the Board and address my concerns with the upcoming meeting on 12 January. Attached is my letter and I have posted the contents in this email below.

"The Proposed Policy:

* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

* Including the COVID-19 injections as part of the school immunization requirements using WAC 246-105."

1. I am disappointed in the fact that the notification to the public of this meeting/hearing taking place had to be disseminated on Facebook and was not broadcast through mainstream media leads to immediate distrust in the motivations of this board. Furthermore, the fact that people have not been provided adequate time to review and comment on the decisions being considered is criminal. This "Policy" that you are considering violates basic freedoms granted by God and guaranteed by the US Constitution, Bill of Rights and the WA State Constitution.

Direct violation of the WA State Constitution Article I Section 1 - 3, 7, 8, 11, and 30.

Direct violation of the US Constitution Article VII, 1st and 4th Amendments.

Direct violation of the ADA of 1971.

2. Although I sympathize with the current COVID concerns and situation, "The Science" does not support these types of actions from the Board. To date COVID 19, untreated, has a greater than 99% survival rate among the population. Although death tolls in high-risk categories increase, nearly all cases have had underlying conditions/factors that increased their vulnerabilities. The

3. current hospitalization/infection rates for minors (children), as identified by the NAID Director, Dr Anthony Fauci, on January 4, 2022, "Has increased, but further examination of the data has identified that the hospitalization was primarily due to other factors and not COVID. The minors did test positive after hospitalization, but COVID was not the primary reason for admittance." This has directly resulted in the infection rates being skewed unnaturally high and inducing a false public panic and development of inappropriate policies.

4. On January 6, 2022, the CDC reported that the PCR Test, the test used primarily for COVID 19 identification, was faulty. In a published announcement on its website, the agency stated that, "They will no longer honor the emergency use authorization of the PCR test for COVID testing beginning 01 January 2022." They identified that the PCR Test was unable to differentiate between the Flu and COVID. Based on this information alone, all mandates that have been placed in effect should be removed since the testing that has been used to make these decisions has been proven faulty and therefore the case numbers are inaccurate. With this identified now, does it make any sense that the common FLU took 2021 off? In 2021, there was a decrease of FLU cases by greater than 98% from 2019. We can attempt to credit masking with these reductions but the masks that are authorized for use against COVID is designed for dust (1-100 microns), pollen (10-1000 microns), bacteria (0.3-60 microns), and smoke (1 micron). These masks are ineffective against a virus (20-250 nanometers) since the virus particle is smaller than the smallest bacteria particle by roughly a factor of 1000. The "Science" does not support this theory either.

5. Adding the COVID vaccination to the vaccine requirements for school should not be

considered nor approved. Although the FDA has approved a COVID 19 Vaccine (CORMINATY), this vaccine will not be available in the United States until after 2023. The vaccine that is currently being administered is still under EUA and not approved for full dissemination throughout the population. A review of the VAERS data shows that in 2021 alone there were 5,248,369 vaccines administered in the United States. Of those vaccinations 7,245,381 adverse reactions of which 164,858 were specially COVID 19 vaccine reactions with 18,342 reported deaths. These numbers are horrific in themselves, but the CDC admits on their own site that the numbers reported are "likely only approximately 10% of the actual cases." This vaccine SHOULD NOT be mandated to anyone, let alone forced onto our children for a virus that has greater than a 99% survival rate.

6. Although COVID 19 was declared a "Public Health Emergency" by Secretary of the Department of Health and Human Services (HHS) and this declaration was renewed on 15 October 2021, this declaration does not grant Gov Inslee the ability to hold the State of WA in a continuous "State of Emergency" so that the legislative process can be circumvented. Gov Inslee declared the "State of Emergency" for Washington on 29 February 2020, these emergency powers can stay in effect for 30 days (RCW 43.06.220). These "Powers" are not meant to be granted for extended periods so that abuse of power can be avoided. These powers have been being applied for nearly 2 years and the legislature has not been involved with the law making to address the "Pandemic." These "Mandates" are only suggestions from the "Good idea fairy" and hold no legal stance and should not even be considered for enforcement until the legislature is given the opportunity to deliberate and create laws that support these efforts. On 03 January 2022, President Biden stated, "There is no Federal Response Plan for COVID. These decisions should be pushed down and made at the State level." The issue is that the decisions are being made in a vacuum by the Governor, which is not the way the government is designed to work.

7. As the continued removal of God given and constitutionally guaranteed freedoms occurs based NO factual scientific data there comes a time when common people must stand and speak out against these policies. It is the right of every person to choose what goes into their bodies and it is the responsibility of the parents to determine what vaccinations should be administered to their children. I am not anti-vaccine. However, a vaccine is defined as a substance used to stimulate the production of antibodies and provide immunity against one or several diseases, prepared from the causative agent of a disease, its products, or a synthetic substitute, treated to act as an antigen without inducing the disease. This COVID 19 protocol does not meet the definition unlike the small-pox and polio vaccines do for example. This should absolutely be the choice of the parents and not policy directed by this Board.

I appreciate that you will take the time to review and consider my concerns.

Thank you,

Floyd Rinehold

Subject: January 12th Meeting - FDA COVID Vaccine Approval - Nuremberg Code (1947)

External Email

Dear State Board of Health,

1. The FDA NEVER approved the COVID 19 vaccine being used today.
2. The Nuremberg Code (1947) clearly states that humanity cannot be experimented on.
3. If you approve these POLICIES (WAC 246-100-070) (WAC 246-100-045) (WAC-246-100-040) and you are challenged in court, THESE FACTS WILL COME OUT!!

SEN. RON JOHNSON: We do not have an FDA-approved vaccine being administered in the U.S. The FDA played a bait and switch. They approved the Comirnaty version of Pfizer drugs. It's not available in the U.S. They even admit it. I sent them a letter three days later going "What are you doing?" What they did is they extended the emergency use authorization for the Pfizer drug vaccine that's available in the U.S., here that's more than 30 days later, they haven't asked that very simple question. If you're saying that the Pfizer drug is the same as the Comirnaty, why didn't you provide FDA approval on

that? So, there's not an FDA-approved drug and, of course, they announced it so they could push through these mandates so that people actually think, "Oh, OK now these things are FDA approved." They are not and again, maybe they should be, but the FDA isn't telling me why.

The judgment by the war crimes tribunal at Nuremberg laid down 10 standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide.

This judgment established a new standard of ethical medical behavior for the post World War II human rights era. Amongst other requirements, this document enunciates the requirement of voluntary informed consent of the human subject. The principle of voluntary informed consent protects the right of the individual to control his own body.

This code also recognizes that the risk must be weighed against the expected benefit, and that unnecessary pain and suffering must be avoided.

This code recognizes that doctors should avoid actions that injure human patients.

The principles established by this code for medical practice now have been extended into general codes of medical ethics.

The Nuremberg Code (1947)

THE NUREMBERG CODE

1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be

so situated as to be able to exercise free power of choice, without the intervention of any element

of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and

should have sufficient knowledge and comprehension of the elements of the subject matter

involved, as to enable him to make an understanding and enlightened decision. This latter

element requires that, before the acceptance of an affirmative decision by the experimental

subject, there should be made known to him the nature, duration, and purpose of the experiment;

the method and means by which it is to be conducted; all inconveniences and hazards reasonably

to be expected; and the effects upon his health or person, which may possibly come from his

participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation

and a knowledge of the natural history of the disease or other problem under study, that the

anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental

suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian

importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest

degree of skill and care should be required through all stages of the experiment of those who

conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the

experiment to an end, if he has reached the physical or mental state, where continuation of the

experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate

the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith,

superior skill and careful judgement required of him, that a continuation of the experiment is

likely to result in injury, disability, or death to the experimental subject.

Good afternoon,

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105".

No child or adult should be mandated to take a vaccine or put anything in their body. Title VII prohibits employment discrimination and should protect children from having to take a vaccine to attend school.

Thank you for your time.

Danielle Yellam

Subject: I OPPOSE WAC 246-100

External Email

Good morning,

I am writing this morning to voice my opposition of the proposed policies. First and foremost I oppose policy (WAC 246-100-070) which allows local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) these specifics come from WAC 246-100.

I also would like to voice my opposition to WAC 246-105 that requires Covid-19 injections as part of school immunization.

Thank you for your time.

Hello,

I am writing to let you know I am completely against any of the overreaching covid-19 policies that are being proposed. They unethical, immoral and anti science. It is a blatant over reach of power.

I am against WAC 246-100-070, WAC 246-100-045, WAC 246-100-040.

Thank you for your time and consideration in this matter.

Sincerely,
Allyson Mills

External Email

I am completely against any of the proposed Covid policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Using Law Enforcement to force medical treatment is both unethical but also specifically against the Nuremberg Code. How these proposals get misused will be on your heads. And, eventually, will come home to roost. Choose the wise path of personal medical autonomy.

Also, given how little attention has been paid to the original notice, I request that another public notice and hearing be held on these proposals and more complete information about the proposals be prepared to ensure complete public understanding prior to adoption.

To All Concerned:

I am extremely OPPOSED
the proposed Covid Policies
that are over reaching and
IMMORAL.

We stand against
these proposed WAC's: WAC
246-100-070, WAC
246-100-045, WAC
246-100-040, WAC 246-100,
WAC 246-105.

These are experimental injections, with proven major adverse side effects, and death for many. We do not know the effects long term. Also this is taking away our freedom of choice for our bodies. I will not stand for our adults or children to be forced to be injected with these harmful substances in order to keep there jobs, go to school, go out in public, travel. This is a human right. The thought of being forced into being vaccinated, quarantined, receive medical care, employment or worse is immoral. It scares me that it is even on the ballot. This is like the holocaust. I stand for freedom, God and my rights as a human. The drug companies are not responsible for any ill consequences currently or in the future. They are making billions of dollars and not accountable. This is a huge red flag!!! I adamantly OPPOSE these proposals. I have personally seen ill effects of these vaccines. It is real. Please save mankind and our freedom to choose from this horrific bill.

Sincerely

A Very Concerned Human!

To the Health Board Chairman,

Please don't vote for the change in the WAC that allows "Enforcement of local health officer orders". We already are sliding towards a totalitarian form of government in the United States. The State of Washington has done without this regulation since we became a state, we don't need it now. This change may have unintended consequences and even cause civil unrest. I hope you can convince others to vote against this as well.

Sincerely,

William L. Boyd

Subject: Opposition to Proposed WAC

External Email

To Whom It May Concern-

I wanted to take a moment to voice my opposition and concern for the proposed Washington Administrative Code (WAC) that is up for discussion on 1/12 by the Department of Health.

As a longtime Washington and Seattle citizen, I strongly oppose the proposed Codes:

WAC 246-100

WAC 246-100-040

WAC 246-100-070

WAC 246-100-045

WAC 246-105

In regards to WAC 246-100 (including 246-100-070, 246-100-045, and 246-100-040), these proposals would violate basic human rights and medical freedom. These proposals are immoral and are complete overreach. It is my right, as a private citizen, to care for my own body and determine any medical procedures or care with my own doctor.

Regarding WAC 246-105, children should not be required to inject this vaccine in order to receive an education. Most vaccinations go through years of trials, and due to the low risks that children have with this particular virus, this is completely unnecessary.

I urge you to listen to the citizens of this state and consider all voices in these discussions.

Thank you,
Ms. Cornutt

Subject: Comments regarding Covid Vaccine requirements for children

External Email

I, Erin Williams, a registered Voter and resident of Spokane WA wholeheartedly oppose any and all CoVID vaccine requirements for any minor child in WA state. I oppose any medical treatment, medical examination or counseling (WAC 246-100) without parental consent. I will not allow local health officials to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC-246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) This includes the requirement of the covid-19 injection as a part of school immunization requirements using WAC 246-105.

It is an infringement on our rights as citizens and our ability to do what is best for our children and ourselves. The government doesn't have the right to tell us as parents or US citizens what we can and cannot do with our own bodies. We have the right to medical autonomy and it needs to stay that way. The government needs to get out of our medical decisions.

This is an atrocious abuse of power and we will not stand for it.

To whom it may concern:

I am a licensed Physician Assistant here in Washington. You should be aware that there are MANY health care providers that are not in favor of these mandates, but many of us have been afraid to voice our opinions due to fear of retaliation against our licenses. What kind of educated dialogue can be had when dissenting thoughts are squashed? I am 100% opposed to the proposed COVID policies. They are over-reaching and unconstitutional. There is not enough long-term research and knowledge to know if the vaccines are even safe after 6 months and there are very concerning health risks that are shown in the currently available VAERS reports, including death in young healthy people. How can that information be ignored? The CDC and Dr Fauci have admitted that the vaccines do NOT stop transmission, there is only a "potential" to reduce disease severity. Most people, especially children, are not at risk from severe disease, so why the hard-headed push to force people into a vaccine they do not need when it is not stopping the spread? Particularly when there are unknown consequences? Natural immunity must be considered in the fight to end this pandemic, and I feel that if it had been recognized initially we would not be in the current ridiculous mess we are in now. Every day we are seeing more data that recognizes the robust superiority of natural immunity. Why would we continue to mandate a vaccine that is inferior and ineffective?

I, along with many other Washington residents, stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040. Not only are these an infringement against our constitutional rights, but also our moral and personal rights. If these pass my family, along with MANY other Washington residents, will leave the state and relocate to states that protect and honor our rights and freedom. My children, and MANY other children, will be pulled out of public schools.

Look at the data and see the writing on the wall. Vaccinated people ARE contracting and spreading COVID. Vaccinated people ARE filling up hospitals and ICU's. Children have greater than 99% survival rate WITHOUT a vaccine that poses long-term cardiac risk. This is America and we have the right to decide what goes into our own bodies. Actions have consequences and Washington residents will not stand for this unnecessary and unconstitutional power grab.

Thank you for your time and consideration,

Darci Glass PA-C

To Whom it may concern,

I am completely against any of the proposed Covid policies listed below. They are overreaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There are numerous reasons why I feel that mandating such laws go against our Constitutional Freedoms and the wellbeing of not only American's but our world.

Thank you for taking time to review my email. I am looking forward to speaking on the Zoom on the 12th.

Respectfully,

Brittany Webster

External Email

Dear Washington State Board of Health,

I urge you to consider the real science and full spectrum of medical data when considering requiring a COVID vaccine for day care and school attendance. Randomized controlled trials are the gold standard in medical research because there is a control group. Pfizer conducted a randomized control trial of 44,000 patients divided into two groups. One group gets vaccine, one group gets placebo. More people died in the Pfizer vaccine group than the placebo group. The difference wasn't statistically significant but scientifically one cannot claim these vaccines reduce death.

The Pfizer and Moderna vaccines use non-FDA-approved mRNA gene therapy, according to their filings with the US Securities and Exchange Commission. Clinical trials for the drugs conclude in 2023. The only FDA approved version of the vaccine is Comirnaty, is not currently available, and is different than the emergency use authorized Pfizer-BioNTech vaccine. 21 US Code 360BBB protects one's right to refuse any emergency use authorized medical products, therefore it is illegal to mandate an EUA vaccine.

The VAERS database is the database for vaccine injuries. A Harvard report in 2010 shows that fewer than 1% of vaccines adverse events are reported to VAERS. The CDC validates all entries and false allegations are prosecuted. Pre-COVID, VAERS shows about 158 deaths due to vaccines per year. In January 2021, over 17,000 deaths and over 70,000 hospitalizations from the Covid Vaccines were reported. This quantity of lethal reactions historically shut down other vaccine programs.

Further, the CDC says that the Covid hospitalization risk for children is about the same risk of the flu.

Tens of thousands of doctors around the world, including the creator of the mRNA technology Dr. Robert Malone, warn of the extreme dangers of this experimental Covid drug. It is not safe, responsible, or legal to require this experimental drug for children.

Finally, as this is an experimental drug that you are trying to force on our children I will leave the 10 points to the Nuremberg code. I strongly urge you to read them over as YOU will be the ones held responsible of these crimes if you push these mandates through.

The ten points of the code were given in the section of the judges' verdict entitled "Permissible Medical Experiments":[6]

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject

matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.[13]

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Subject: Opposing detainment WAC

External Email

My family and I are Washington state residents and are vehemently opposing the following WAC:

WAC-246-100-070;
246-100-040
; 246-100-045
; 246-105
; 246-100.

This is way too far. My knowledge and training are in nuclear power and safety, environmental and chemical cleanup, there should be a specific order for those type securements/detaining in case of exposure to public or environment but biohazards or viruses should not be clumped together in this order. This is a step on my American toes, this is absolutely disgusting. This is government overreach to the Nth degree. If a mass exodus of conservative wholesome citizens is what you want, you will get it. Keep recommending this type of law and the entire state is going to look like the vile streets of Seattle.

With distaste to everyone a part of this

Subject: I'm Fully Vaccinated, But These Proposed Policies Are WRONG

External Email

This email is to let you know that I believe the proposed policies WAC 246-100-070 to quarantine individuals and groups of people (families) forcibly for refusing to get vaccinated are completely wrong. The WAC 246-105 to include Covid-19 injections as part of school immunization requirements is also completely wrong.

These policies are an enormous abuse of power by the government. We are all entitled as citizens of the state of Washington and of the United States to take care of our bodies as we see fit. Everybody's body is different medically speaking and not everyone's body can tolerate the Covid vaccines in which case the vaccine could do them bodily harm. And if the vaccines are not beneficial for all adults, they'd be even worse for kids. In addition, the vaccines currently in use have not actually been approved. They're just authorized for emergency use, in which case, if an individual has a bad reaction to the vaccine, the manufacturer and insurance companies are not liable. Then the individual or their family has to pay.

So please, don't allow the proposals to become law. Thank you.

Sincerely,

Dorene L. Morton

I stand against these proposed WAC's:
WAC 246-100-070 <tel:246-100-070> ,WAC 246-100-045 <tel:246-100-045> , WAC 246-100-040 <tel:246-100-040> , WAC 246-100, WAC 246-105

There is something very creepy about this which should be very obvious. "Quarantine" facility for re-education and vaccination is eerily similar to a concentration camp. Call me a conspiracy theorist if you want. When you give the government emergency power to "Temporarily" take away freedoms and human rights they don't usually give it back. You might want to familiarize yourselves with the reichstag fire and reichstag fire decree.

When this whole thing started everyone I worked with went on unemployment because they would make more money because of the temporary unemployment. I continued to work and have been working this whole time because I don't participate in fake pandemics. I know the disease is real but to quote the CDC "most people will be fine" Risk is part of life, you people are trying to create a utopia where risk doesn't exist. I'd rather risky freedom than be safe and unfree.
It is not the government's job to protect me from disease.

If my daughter gets the virus will you take her from me and vaccinate her behind my back without my consent? What about people with false positives? If someone has to take the test because their coworker has covid and they get a false positive and are forced to a quarantine facility then actually get sick and die in the facility. What about natural immunity? It is a real thing, if it wasn't vaccines wouldn't work. If you get covid and are quarantined you won't need a vaccine because you have natural immunity, besides the vaccine obviously doesn't work. It's like the whole world has lost their minds.

Removing someone from their home is Un American and anti freedom. Vaccination without informed consent is A Human rights violation.

CDC has said most people will be fine and the disease is becoming more infectious and less deadly, it's basic virology. This is a pandemic of bad health, the CDC confirmed 75% of deaths occurred in people with at least 4 comorbidities.

Re-education? Sounds like brainwashing. I am very educated on the subject and am surrounded by unscientific propaganda while scientists and experts who speak out are silenced.

Forced "quarantine" is immoral and government overreach. stop this insanity now.

Thanks,
Rhys Jones

To whom it may concern,

I am writing to address the Board of Health acting on/proposing WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I implore you NOT to implement far reaching, vague, wide sweeping responses to Covid outbreaks and the actions being proposed against Washington state citizens.

It is CLEAR, vaccination, social distancing, mask mandates, etc. have NOT stopped (nor likely slowed) the spread of Covid. These actions are inciting fear, confusion, and unrest.

Imposing harsh response WILL create civil unrest. IF this happens, the onus will be on those of you responsible for enacting these measures.

People need autonomy and freedom. Those who are fearful of the virus should have access to ALL resources (vaccines, pre-treatments, etc.) Those who have already caught and recovered from the virus, or those who've chosen to vaccinate, or those who've caught the virus and vaccinated, should maintain their civil liberties and freedom from bureaucratic, draconian, nonsense.

Do the right thing.

Sincerely,

Andrew Borgstadt

External Email

Dear Washington State Board of Health and all others to whom this may concern,

I am writing to state my concerns regarding policies you are looking to put into place at the Jan. 12, 2022 meeting. I strongly OPPOSE all of the following....

1. WAC 246-100-070 - To allow local health officers to use law enforcement.

This would be a tyrannical over reach of their jurisdiction and a complete violation of the Constitution and our rights as US citizens. Using law enforcement in health matters, because this is what using them for is being proposed, would violate our God given rights to medical freedom in this county and the law.

1. WAC 246-100-045 - To force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility.

This is unfathomable and I can't even believe it would be allowed in the United States of America!!! Our government's job is to make our lives better by creating policies that uphold the constitution and our rights to freedom. You are NOT allowed to take our freedoms away...PERIOD, and that is exactly what this policy would do!!! Our medical freedom is just that...OUR FREEDOM-OUR CHOICE. It would be an understatement to say that this is inhumane and a complete overreach of authority. You cannot use the term "voluntarily comply" but then involuntarily detain a person or group for not "voluntarily complying"...that is not what the definition of voluntary is!

1. Wac 246-100-040 - Following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination.

No one, and I mean NO ONE, should ever be able to say what is good for me or my family medically and/or force me or my family into medical treatments, testing, examination, counseling or vaccination. Your job as government officials is to provide us with the most current AND ACCURATE information and it is our job as FREE CITIZENS to apply that to ourselves and families as we feel is right and necessary. YOU DO NOT HAVE THE RIGHT TO FORCE ANY MEDICAL TREATMENT ONTO US...That is a complete violation of the Nuremberg Code!!!

1. WAC 246-105 - Include the Covid-19 injections as part of school immunizations requirements.

The Covid-19 injection is proving to be no more than a pharmaceutical at this point. There are more people that I know with Covid that have had the injection and booster and are still not only contracting but also spreading the virus to others vs those who have not received it. It is not FDA approved...PERIOD! It is at best an experimental therapeutics and cannot and DOES not prevent the spread of Covid-19...that's a fact!!!! To top it off children are the least affected from Covid-19. The risk of a child dying from the virus is so minimal vs the risk of adverse reactions from the injection should be taken into HEAVY consideration. If you feel this needs to be part of school immunizations then our tax dollars should remain with the family for them to decided where they feel their money is best spent. You cannot have it both ways!

Unfortunately, I feel that the above pleas will fall on deaf ears as this state has already grossly overstepped their authority. However, I truly hope you will take into consideration the laws of our state, our constitutional rights as US citizens and pray God will guide your hearts to do what is morally and ethically right.

Thank you for your time and please make the right and humane decisions for our state,

Rachel Williams

To whom it may concern,

I am voicing my opinion here of complete opposition to any force by health department with police force to isolate families or individuals into forced quarantine facilities. To force children to have a covid shot before school admittance.

This is not only grossly illegal and against many different human rights and our God given rights also our right of choice. It is absolutely deplorable, disturbing and will absolutely affect our homes and livelihoods.

I am as a local saying NO to all proposed Covid policies and WAC codes including WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC-105. This is my official email in response to the following meeting with public notations ending by 12 today.

Regards,

Erica Bailiff

To whom it may concern,

I have just received a message that is very concerning as Washingtonian, American and a parent of 5 children.

Proposed policies:

* Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

* Include the Covid-19 injections as part of school Immunization requirements using WAC 246-105.

How can this even be an option when this shot doesn't prevent anyone from getting in, spreading it, and the virus for unvaccinated has 98.9 survival rate here in Washington state? People who have been vaccinated are still getting it and most of all spreading it.

We should be able to make our own decisions on if we want ourselves and/or our children vaccinated.

Now the quarantine period is 5 days with no recommendation to test at the 5 days just wear a mask that doesn't work. If you were following the science we wouldn't have mandates at all.

Since this is the Washington State Board of Health, why wouldn't you recommend better diet, exercise an overall healthier lifestyle? So many other options could be recommended before such drasric measures.

Per CDC website,

Obesity Worsens Outcomes from COVID-19

Adults with excess weight are at even greater risk during the COVID-19 pandemic:

* Having obesity increases the risk of severe illness from COVID-19. People who are overweight may also be at increased risk

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2Fncov%2Fneed-extra-precautions%2Fpeople-with-medical-conditions.html%23obesity&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C00666403a5bb4351cc3008d9>

.
* Having obesity may triple the risk of hospitalization due to a COVID-19 infection

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2Fncov%2Fneed-extra-precautions%2Fpeople-with-medical-conditions.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C00666403a5bb4351cc3008d9d15ff3d6%7>

.
* Obesity is linked to impaired immune function.^{2,3}

* Obesity decreases lung capacity and reserve and can make ventilation more difficult.⁴

* A study of COVID-19 cases suggests that risks of hospitalization, intensive care unit admission, invasive mechanical ventilation, and death are higher with increasing BMI.⁵

* The increased risk for hospitalization or death was particularly pronounced in those under age 65. ⁵

* More than 900,000 adult COVID-19 hospitalizations occurred in the United States between the beginning of the pandemic and November 18, 2020. Models estimate that 271,800 (30.2%) of these hospitalizations were attributed to obesity.⁶

Children diagnosed with obesity may suffer worse outcomes from COVID

-19. In a study of COVID-19 cases in patients aged 18 years and younger, having obesity was associated with a 3.07 times higher risk of hospitalization and a 1.42 times higher risk of severe illness (intensive care unit admission, invasive mechanical ventilation, or death) when hospitalized.⁷

.
I'm just very confused as a parent as to why there is such an over reach into everyone thinking they know what is best for me and my family. You don't. There is no science that makes me feel that I need to live my life in fear. making kids get vaccinated for school will cause so much more mental health problems than they already have from the lockdowns. I hope there will be a mass exodus from schools is such policies are implemented. I've heard a lot of comparisons to Nazi Germany, and reading these policies just goes to show there is a grain of truth in that.

I look forward to the January 12th meeting.

Subject: Covid mandates

External Email

Hello,

The extreme attempts of the Washington state government and health department to completely control the public due under the guise of Covid-19 has reached alarming levels. It smacks of the beginnings of what has been seen in other countries (ie, Germany and Hitler). Our liberties and freedoms are being removed piece by piece and it has been allowed and encouraged due to the fear mongering of the media and exploitation of the uneducated masses.

Doing the same thing over and over and expecting different results (ie the definition of insanity) is what is happening here. Masking isn't working, vaccines are not working or slowing the spread, the virus is becoming more contagious/stronger and the vaccines aren't preventing it, the side effects are frightening and damaging not only our adult population but our youth in ways that we have not yet been able to be measure.

What has happened to medical freedom? What has happened to the right to choose for your own body and your own children? This is not the United States of America that I grew up in and I am afraid of the progression towards control by the state of all of our freedoms and liberties, including our own bodies. The idea of quarantining people in a state run facility is pretty terrifying, as well as forcing questionable vaccinations in children for the first time in my lifetime.

As a medical professional I find it suspicious that the FDA is requestingAs a medical professional I find it suspicious that the FDA is requesting 55 years to turn over its clinical data... Never in history has this ever happened nor been allowed. This tells me that there is definitely information they do not want the public to have, and in 55 years it will be too late. There is not even a recourse for people who followed the mandates and have damaged their bodies permanently since the FDA/government is not holding the vaccine companies responsible for lifelong damages (pericarditis, myocarditis, neurological discovers, autoimmune and others). This is setting a precedence that the government knows better than the individual person what is right for their bodies and their children and their lives.

To summarize, my family and I are completely against any of the proposed Covid policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 2.

PROPOSED POLICIES: Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

If you pass this bill you will be in violation of the Nuremberg code and you can be indicted and arrested for your participation. Common Law Juries are being formed around the state, which have the power to do that. A law of this nature violates the Constitution and several health laws, including the Patient Bill of Rights and HIPPA laws. The Supreme Court already ruled that NO emergency can eliminate any rights guaranteed by the Constitution. If you proceed to pass this bill after being warned, you will be considered to be intentionally committing treason. If you are unfamiliar with Common Law Juries and their power, you better look it up. This is a consequence, not an empty threat.

See the laws that David Martin shares in his quick video below. They are the US Federal Statutes that incorporate Nuremberg. David has done all the work and shared it on his website. See link:

https://www.instagram.com/p/CYVSfl2KkSF/?fbclid=IwAR1Ivec598G-DDf93zt2kyHcglJXj2aj8zR314TaGev6uEinsK76M_XV8OM

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.instagram.com%2Fp%2FCYVSfl2KkSF/?fbclid=IwAR1Ivec598G-DDf93zt2kyHcglJXj2aj8zR314TaGev6uEinsK76M_XV8OM&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C

I would also like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be

no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Subject: no to vaccine requirements

External Email

January 7, 2022

In response to Washington state proposed "vaccine injection requirement".

I do not support:

#1 The breaking of the Constitution for the United States of America.

#2. Taking away Medical Freedoms from parents and their children by forcing immunizations at schools (or masks for that matter.)

I do not support the requirement by Washington state or any other government to enforce or make mandatory any medical procedure (this is what the shot "injection" is) on any citizen or for that matter requirement of masks.

1. Constitutional

This country was founded with a very UNIQUE Constitution in the World. This Constitution for the United States of America gives us inalienable rights in the Declaration of Independence and rights to our own bodies in the First Amendment. By voting to allow local health officers to BREAK THE Constitution you yourselves are committing TREASON. Any Law Officers that would consider or do these actions of taking people from their homes are committing TREASON also. An emergency order that goes AGAINST the Constitution is not LAW. Mandates are not LAW.

In the Proposed Policies it has an illogical statement: -Allow local health officers to use law enforcement (WAS 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). Here is the rub: Voluntarily means you have a CHOICE. Requests are just suggestions. This is illogical in itself.

A. Committing a crime against humanity by breaking the Nuremberg Code – The Nuremberg Code for Crimes Against Humanity by the International Military Tribunal at Nuremberg, Germany 1947.

The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision.

B. Treason – By going against the Constitution for the United States of America;

specifically the 1st, 4th and 14th Amendments.

C. Breaking the ADA and HIPAA Laws of Washington state.

D. Breaking the Civil Rights Act.

A very concerned citizen of the United States of America land of the Free and Brave.
Sincerely,
Kara Boone

External Email

Hi I as a citizen here in Washington state would like to make a comment on the proposed WAC 246-100.

I know it's past the deadline for comments but your page crashed prior to noon 1/7

My comments to WAC 246-100 SHOULD NOT BE PLACED INTO LAW. Any of it 070,105,40,and 045 should not be put into law.

Majority of wa residents have received at least one shot, the majority in the state are moving to be health and able to fight this virus, the death rate has fallen, yes there's more infections but the Vax is working and keeping people out of hospitals. So if things are getting better then is no reason to implement such laws where it takes people freedoms away.

Thanks

Subject: Involuntarily detaining citizens for medical reasons. AKA - COVID quarantine camps

External Email

I'm writing to the Washington State Board of Health to state that I am strongly opposed to the proposed policy that will be discussed at your January 12 meeting, relating to providing law enforcement authority to involuntarily detain Washington state citizens.

I oppose the following;

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC 246-100).
- Including the Covid-19 injections as part of school immunization requirements using (WAC 246-105.)

This is a power grab by an unelected, unaccountable bureaucracy. Detaining a person without due process is a gross violation of the WA State and US Constitutions, violating our freedoms.

Also, I am strongly opposed to any action which would require covid vaccinations for children to attend schools. It is also the child's right to obtain an education without the novel vaccine that is currently failing the world.

In closing, I am vehemently opposed to both these policies you are considering. They are antithetical to American law and values.

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds if they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.

-Concerned citizen.

Count 2: 18 USC § 2339– Conspiring to Commit Acts of Terrorism

Count 3. 15 U.S.C. §1-3 – conspiring to criminal commercial activity

Count 4. 18 USC § 175 – Funding and Creating a Biological Weapon

Count 5. 15 U.S.C. §8 – market manipulation and allocation

Count 6. 18 U.S.C. § 1001 – lying to Congress

Count 7. 15 U.S.C. § 19 – interlocking directorates

Count 8. 18 U.S. Code § 2384 - Seditious conspiracy

The Proposed Indictment

Throughout the decade of the 90s Pfizer sought to research, develop and patent a coronavirus (CoV) vaccine. Their first patent filing specifically recognizing the S-protein as the immunologic target for vaccines was filed on November 14, 1990 (U.S. Patent 6,372,224). With a focus on swine and canine gastroenteritis, these efforts showed little commercial promise and the patent was abandoned in April of 2000. During the same period, the National Institute for Allergy and Infectious Disease (NIAID) under the vaccine obsession of Dr. Anthony Fauci, funded Professor Ralph Baric at the University of North Carolina Chapel Hill. This program designed to commercially weaponize a naturally occurring toxin is the beginning of the criminal conspiracy and **violates 18 USC § 175, 15 USC § 1-3, and 15 USC § 8** Dr. Baric's expertise was understanding how to modify components of the coronavirus associated with cardiomyopathy. NIAID Grants AI 23946 and GM63228 (leading to patent U.S. 7,279,327 "Methods for Producing Recombinant Coronavirus") was the NIH's first Gain-of-Function (GOF) project in which Dr. Baric created an "infectious, replication defective" clone of recombinant coronavirus. This work clearly defined a means of making a natural pathogen more harmful to humans by manipulating the Spike Protein and other receptor targets. A year after filing a patent on this GOF CoV, the world experienced the first outbreak of Severe Acute Respiratory Syndrome (SARS).

Under the guise of responding to a public health emergency, the United States Centers for Disease Control and Prevention (CDC) filed a patent application on the genome of SARS CoV on April 25, 2003. Accessing and manipulating the genomic data (which came from China making an “invention” claim by a U.S. entity illegal **violating 35 USC §101, 103**), Dr. Baric, Dr. Fauci, and the CDC **violated 18 USC § 175** (a felony). One year earlier, Dr. Baric and his team had already filed a patent which clearly the pathogen CDC claimed as novel in 2003. Three days after filing a patent on the genome, NIH-funded Sequoia Pharmaceuticals filed a patent for the vaccine on the virus invented a mere three days earlier. At the same time, in **violation of 15 USC § 19** Dr. Fauci was appointed to a board position with the Bill and Melinda Gates Foundation (a competitor in vaccine manufacturing) thereby beginning the interlocking directorate¹ anti-trust crime.

In 2005, the DARPA and MITRE hosted a conference in which the intentions of the U.S. Department of Defense was explicit. In a presentation focused on “Synthetic Coronaviruses Biohacking: Biological Warfare Enabling Technologies”, Dr. Baric presented the malleability of CoV as a biological warfare agent. **Violating 18 USC § 175** and inducing the non-competitive market allocation (**violating 15 USC § 8**) for years to follow, Dr. Baric and the U.S. Department of Defense spent over \$45 million in amplifying the toxicity of CoV and its chimeric derivatives.

From 2011 until the alleged COVID-19 pandemic, Dr. Fauci has routinely lamented about the inadequacy of public funding for his vaccine programs and the public’s general unwillingness to succumb to his insistence that everyone MUST be vaccinated against influenza. Despite repeated appropriations to advance vaccine dependency, his efforts have been largely unsuccessful. NIAID – under Dr. Fauci’s direct authorization – encouraged UNC Chapel Hill and Dr. Baric’s lab to ignore the GoF moratorium in a letter dated October 21, 2014. At that time, Drs. Fauci, Baric and EcoHealthAlliance’s Peter Daszak were in possession of an extremely dangerous Chinese pathogen identified a year earlier in Wuhan.²

While many illegal acts were committed by the conspirators leading up to 2015, the domestic terrorism program (**in violation of 18 USC § 2339**) was announced by NIAID-funded Daszak at the National Academy of Sciences. Here, he announced what was to become the domestic and global terrorism event branded COVID-19.

¹ We note that gain-of-function specialist, Dr. Ralph Baric, was both the recipient of millions of dollars of U.S. research grants from several federal agencies and sat on the World Health Organization’s International Committee on Taxonomy of Viruses (ICTV) and the *Coronaviridae* Study Group (CSG). In this capacity, he was both responsible for determining “novelty” of clades of virus species but directly benefitted from determining declarations of novelty in the form of new research funding authorizations and associated patenting and commercial collaboration. Together with CDC, NIAID, WHO, academic and commercial parties (including Johnson & Johnson; Sanofi and their several coronavirus patent-holding biotech companies; Moderna; Pfizer; Merck; BioNTech; AstraZeneca; Janssen; Ridgeback; Gilead (Dr. Baric’s alter ego); Sherlock Biosciences; and others), a powerful group of interests constituted what are “interlocking directorates” under U.S. anti-trust laws. Further, most of these entities, including the Federal Government ones **violated 35 USC § 200-206** by failing to disclose Federal Government interest in the remedies proposed.

These entities were affiliated with the WHO’s Global Preparedness Monitoring Board (GPMB) whose members were instrumental in the Open Philanthropy-funded global coronavirus pandemic “desk-top” exercise EVENT 201 in October 2019. This event, funded by the principal investor in Sherlock Biosciences (a beneficiary of the SARS CoV-2 EUA for CRISPR technology) and linking interlocking funding partner, the Bill and Melinda Gates Foundation into the GPMB mandated a respiratory disease global preparedness exercise to be completed by September 2020 and alerted us to anticipate an “epidemic” scenario. We expected to see such a scenario emerge from Wuhan or Guangdong China, northern Italy, Seattle, New York or a combination thereof, as Dr. Zhengli Shi and Dr. Baric’s work on zoonotic transmission of coronavirus identified overlapping mutations in coronavirus in bat populations located in these areas.

² By October 2013, the Wuhan Institute of Virology 1 coronavirus S1 spike protein was described in NIAID’s funded work in China. This work involved NIAID, USAID, and Peter Daszak, the head of EcoHealth Alliance. This work, funded under R01AI079231, was pivotal in isolating and manipulating viral fragments selected from sites across China which contained high risk for severe human response. (Ge, XY., Li, JL., Yang, XL. *et al.* Isolation and characterization of a bat SARS-like coronavirus that uses the ACE2 receptor. *Nature* **503**, 535–538 (2013).) The GoF work NIAID allowed to persist in the face of the moratorium was Dr. Baric’s work with this pathogen

“...until an infectious disease crisis is very real, present, and at an emergency threshold, it is often largely ignored. To sustain the funding base beyond the crisis, he said, we need to increase public understanding of the need for MCMs such as a pan-influenza or pan-coronavirus vaccine. A key driver is the media, and the economics follow the hype. We need to use that hype to our advantage to get to the real issues. Investors will respond if they see profit at the end of process, Daszak stated.”³

It is not surprising that one year later NIAID’s funding paid off with Dr. Baric’s lab announcing that the Wuhan-derived pathogen was “poised for human emergence”.⁴

Knowing that the U.S. Department of Health and Human Services (through CDC, NIH, NIAID, and their funded laboratories and commercial partners) had patents on each proposed element of medical counter measures and their funding, Dr. Fauci, Dr. Gao (China CDC), and Dr. Elias (Bill and Melinda Gates Foundation) conspired to commit acts of terror on the global population – including the citizens of the United States – when, in September 2019, they published the following mandate in **A World At Risk**:

“Countries, donors and multilateral institutions must be prepared for the worst. A rapidly spreading pandemic due to a lethal respiratory pathogen (whether naturally emergent or accidentally or deliberately released) poses additional preparedness requirements. Donors and multilateral institutions must ensure adequate investment in developing innovative vaccines and therapeutics, surge manufacturing capacity, broad-spectrum antivirals and appropriate non-pharmaceutical interventions. All countries must develop a system for immediately sharing genome sequences of any new pathogen for public health purposes along with the means to share limited medical countermeasures across countries.

Progress indicator(s) by September 2020

- *Donors and countries commit and identify timelines for: financing and development of a universal influenza vaccine, broad spectrum antivirals, and targeted therapeutics. WHO and its Member States develop options for standard procedures and timelines for sharing of sequence data, specimens, and medical countermeasures for pathogens other than influenza.*
- *Donors, countries and multilateral institutions develop a multi-year plan and approach for strengthening R&D research capacity, in advance of and during an epidemic.*
- *WHO, the United Nations Children’s Fund, the International Federation of Red Cross and Red Crescent Societies, academic and other partners identify strategies for increasing capacity and integration of social science approaches and researchers across the entire preparedness/response continuum.”⁵*

As if to confirm the utility of the September 2019 demand for “financing and development of” vaccine and the fortuitous SARS CoV-2 alleged outbreak in December of 2019, Dr. Fauci began gloating that his fortunes for

⁵ https://apps.who.int/gpmb/assets/annual_report/GPMB_annualreport_2019.pdf (page 8)

additional funding were likely changing for the better. In a February 2020 interview in **STAT**, he was quoted as follows:

“The emergence of the new virus is going to change that figure, likely considerably, Fauci said. “I don’t know how much it’s going to be. But I think it’s going to generate more sustained interest in coronaviruses because it’s very clear that coronaviruses can do really interesting things.”⁶

In November 2019 – one month before the alleged “outbreak” in Wuhan, Moderna entered into a material transfer agreement – brokered by the Vaccine Research Center at NIAID (at which UNC Chapel Hill alum Dr. Kizzy Corbett worked) – to access Dr. Baric’s Spike Protein data to commence vaccine development. In his own written statement obtained by the **Financial Times**, he refers to this agreement as being the foundation for the mRNA Moderna vaccine.⁷

To finalize the nature of the racketeering and anti-trust criminal conspiracy, when it came time to commercialize the NIH and DARPA owned spike protein and pass it off as a “vaccine” (in conflict with the standard for vaccines in statutory and scientific application), the Operation Warp Speed contract was awarded to DoD contraction ATI, a subsidiary of ANSER. In a graph reminiscent of the anti-trust hearings at the formation of the Clayton Act in the early 20th century, the identity of the interlocking conflicts of interests are presented in graphic relief. It is with no surprise that the result of this price-fixing conspiracy was the enrichment of the conspiring parties and the harm of consumers.

Indeed, *the money followed the hype* and they *used the hype to get to the real issues*. *Investors follow where they see profit at the end of the process*.

And real Americans are dying each day because a criminal organization unleashed terror resulting in the deaths of Americans.

18 U.S.C. § 2331 §§ 802 – Acts of Domestic Terrorism resulting in death of American Citizens

Pub. L. No. 107-52 expanded the definition of terrorism to cover "domestic," as opposed to international, terrorism. A person engages in domestic terrorism if they do an act "dangerous to human life" that is a violation of the criminal laws of a state or the United States, if the act appears to be intended to: (i) intimidate or coerce a civilian population; (ii) influence the policy of a government by intimidation or coercion;

Every single Act, the declaration of the State of Emergency, the Emergency Use Authorization, the fraudulent face masks, the business closures, and the OSHA and CMS vaccine mandates are ALL admitted by the conspirators to be acts to coerce the population into taking a vaccine. Further, these acts disrupted the democracy of the United States of American and resulted in the violation of 18 USC § 2384. The conspirators announced it in 2015, then prepared the pathogen in 2016, and laid out the terror campaign in September 2019. And now they profit from the death of Americans.

Please do not require children to be vaccinated for covid. We do not believe our kids need this vaccine and parents should have a final choice on what is right and wrong for OUR kids. These mandates should end immediately. We all live in a free country. The constitution protects our personal rights and this is a violation. If these mandates continue my family will be forced to move out of Washington like many others. Please do what is right!

I DO NOT agree with the proposed policies that include law enforcement to involuntarily detain people for isolation.

The following proposed policies I DO NOT agree with.

246-100-070

246-100-045

246-100-040

246-105

Do the right thing and END this!!!

Hello,

As a parent of children whom attend public schools in WA state and are subject to your decision making, I urge you to rescind WAC 246-105 regarding the inclusion of Covid-19 vaccination as part of school immunization requirements using WAC 246-105. This virus has produced ZERO deaths during 2020, and 2021, in the age group 0-17 year old throughout WA state. This data is available on the CDC website in the provisional COVID-19 death by age group (please click this link):

https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2Fwidgets%2F9bhg-hcku%3Fmobile_redirect%3Dtrue&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ce352b190df0e421

Adding to this, concerning reports have been presented in increasing number of deaths caused by sudden cardiac arrest: Seventeen-year-old Washington female dies from heart attack weeks after receiving second Pfizer vaccination

Seventeen-year-old Washington female dies from heart attack weeks after ...
VAERS data indicates three Washington deaths following COVID-19 vaccination.

A report coming from NY state, a state with drastic vaccination mandates and rules to enforce it, shows an increasing number of athletes exhibiting signs of cardiac arrest in their K-12 school district:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.thegatewaypundit.com%2F2020/08/12%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ce352b190df0e421613cd08d9d20f2d03%7C1>

Please consider that athletic activities are a strong deterrent to drug use, overdose and prevent depression. Should you enforce a vaccine that could lead to deaths of athletes, many parents will dissuade their children from pursuing sports and therefore, your rule will lead to an increase in suicides and overdoses. There have been ZERO deaths due to Covid-19 in children so far in WA state, so why would you want to require this vaccination?

Another proposed policy that I urge you to strongly rescind is allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

This action is so concerning to me - I grew up in a communist country and this type of power left at the discernment of individuals is alarming as it gives abusive and power hungry health officers legal power over innocent citizens. The numbers are clear: ZERO deaths in the age group 0-17 years old, why then involve the law enforcement officers whom should combat deadly drug cartels, arm robberies, sexual assaults and child trafficking? In this state where we are hindering law enforcement to act against real criminals we are pushing to criminalize a health choice.

I strongly encourage that you reassess the spectrum of your actions and the potential destructive effect of your policies.

Respectfully yours,

Delia

Good day,

I am writing this email to voice my opposition of these proposed policies. First and foremost I oppose policy (WAC 246-100-070) which allows local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) these specifics come from WAC 246-100.

I also would like to voice my opposition to WAC 246-105 that requires Covid-19 injections as part of school immunization.

Thank you for your time. Please vote NO on these policies.

Kind regards,

Don Fogarty

Washington State Board of Health,

I understand that the laws I've listed below are being considered at the meeting on January 12th and that today at noon is the deadline for commenting on them. Thankfully I heard about this from someone else. I looked at your website and couldn't find these laws on my own, and the meeting itself wasn't listed (website gives a "404 error") at first. But if this is the case then I'd like to state vehemently that I am completely against any of the proposed Covid Policies, the proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

"involuntary detainment" is a very scary piece of text to see here. This needs further clarification as to why this is ever included in state law in regards to health/covid enforcement.

I am a citizen in Renton, an Aerospace Engineer, and very concerned for the direction that our state laws are taking... Please let me know if there is a way I can learn more and further voice my concerns or thoughts

Hi there,

Please read below for my comments regarding the proposed policies WAC 246-100-070 , WAC 246-100-045 , and WAC 246-100-040 that fall under WAC 246-100.

I believe, along with many historians that putting such policies in place in the State of WA will lead to a high potential for unchecked power among individuals with the ability to impose such policies. With this type of control, humans have historically shown that they CANNOT be trusted; just look at what has happened with Teachers Unions and the power they hold.

Secondly, the policy outlined under this section does not specify if "refusal to VOLUNTARILY comply with requests for medical examination, testing, treatment, counseling, vaccination" has ANYTHING to do with COVID-19. If this is the case, then people who refuse counseling for drug use, abuse, pedophilia, or any other disorder that can be treated by these methods can also be "detained"? This is incredibly vague and will most definitely lead to an abuse of power. (Also, learn how to spell and use proper grammar if you are writing policies or laws.. unbelievably pathetic).

Lastly, we should be focused on the SCIENCE and FACTS behind what is happening and what HAS happened over the course of the past 2 years. Science, along with facts, clearly show us that the vaccine IS NOT preventing the spread of newer variants such as Omicron and has debatable statistics involving death rates (most hospitals have lied about these figures). Instead of a mission to "get everyone the jab", there should be more focus on living a healthy lifestyle in order to avoid sickness and death associated with COVID-19.

Please consider the above comments as a case against these policies.

Regards,
Anthony Porcaro

Dear Washington State Board of Health,

I am completely against any of the proposed covid policies that are over reaching and immoral. We stand against these proposed WAC's:

- WAC 246-100-070
- WAC 246-100-045
- WAC 246-100-040
- WAC 246-100-100
- WAC 246-100-105

Respectfully,

Alexandra Billings

I stand against these proposed Covid policies. The Covid-19 vaccine is defined by the life insurance industry to be an "experimental medical intervention". Since August 2021, 91% of Covid-19 deaths have been among the fully vaccinated since. According to VAERS, over 21,000 people have died and over 1 million have been injured from this "vaccine" to date. That is more than the total from all vaccines for the past 30 years (It should be noted, a Columbia University study estimates the actual numbers are 20 times higher). It is by far the deadliest vaccine ever created. This experimental gene therapy is not safe or effective and violates the Nuremberg code

To Whom It May Concern,

These measures are unconstitutional, unnecessary and illegal. Please hear the voices of the masses and don't allow this to proceed. We are Americans. We have the right to utilize our own minds in medical decisions and how we choose to live our lives. The government should have NO SAY in the personal decisions we choose to make for our kids. The fact that these measures are even presented speaks to how far our country has come from its original standing. We the People rule ourselves. NO GOVERNMENT overreach! This is government overreach and I ask you to stop ALL mandates and stop adding more to the docket.

On Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

- To voice your concerns, register for the live webinar here:

https://us02web.zoom.us/.../reg.../WN_DjusY10WTj-EyQyDTdyxsw
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fus02web.zoom.us%2F...%2Freg.../WN_DjusY10WTj-EyQyDTdyxsw&data=04%7C01%7CW5BOH%40SBOH.WA.GOV%7C8bead5dd9e4245f546c308d9d62349ec>

- You can also dial-in using your phone for listen-only mode: Call in: +1 (253) 215-8782 (not toll-free) Webinar ID: 894 7406 4216 Passcode: 957396

- Location: 101 Israel Rd. SE, Tumwater, WA 98501

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

To whom it may concern,

I am absolutely against any of the proposed covid policies that are overreaching and against my religious freedoms and autonomous rights.

I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

It is absurd to think anyone should be forced to receive a vaccine that does NOT prevent contracting the virus nor spreading the virus. It is absurd to mandate a vaccine when Covid-19 has a low fatality rate. It is absurd to mandate a vaccine when most age groups, specifically children, do not have a high risk of serious illness due to Covid-19.

It is up to the PARENTS whether or not an emergency vaccine should enter any minor. There are zero long term studies of the side affects (due to the vaccine being new) of this vaccine which should worry any health department. All long term expectations of the vaccine are speculative and therefore should not be regulated for anyone. No child should be subjected to an experiment. Especially a mandated experiment.

Thank you,
CJ

NO to all proposed covid mandates...all of them. WAC 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105...all of them! Force? They are over reaching and not representative of a country that values freedom of choice. Washington politics prides itself on individual rights...individual rights...rights to choose, my body, my choice, lifestyle choices, and equality for all. How can you stand for that and at the same time force covid policies on everyone? Haven't enough people and businesses left Washington? Haven't enough businesses gone out of business?
More will follow if these policies are passed.

To Whom It May Concern:

I am writing you today to voice my vehement opposition to including the COVID-19 vaccination as part of school immunization requirements under WAC 246-105 (or any other WAC that might apply).

Children are at an extremely low risk for severe symptoms or hospitalization from COVID-19. The vaccine does not prevent the spread of the virus.

There are no long term studies on the effects of the vaccine. I would never put something in my kids' bodies that has unknown adverse effects for a virus that is no worse than the flu for almost every child.

We have never mandated the flu vaccine (nor should we), so why would we mandate this? This vaccine is not comparable to existing immunization requirements for schools since it does not prevent infection, nor does it stop the spread.

This vaccine is still only authorized for emergency use and not FDA approved and will never be put in my perfectly healthy children.

Requiring this vaccination for our kids (or anyone) is unconstitutional, and we will be forced to seek other means for educating our children.

As far as WAC 246-100-070, it's complete insanity to force law enforcement to take action against people for their medical choices. This is a free country and we should continue to have medical freedom.

Please do not include the COVID-19 vaccination as a requirement for public education in this state. I oppose mandating the COVID-19 vaccination.

Thank you.

Dear State Board of Health Members -

I am wrting to you regarding two topics on the agenda of your January 12, 2022 meeting.

The first item is regarding required Covid immunization for children to attend school or childcare. Please do not recommend/make this a requirement. Please respect parental rights to choose medical care for their children.

The second is regarding the board's consideration of allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntary comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) particularly as it pertains to Covid. Please do not recommend this type of enforcement of covid protocols. This is not how I want my fellow citizens treated. It is not appropriate and isn't warranted in the current situation. The citizens of Washington should be able to make their own medical choices with the help of their doctors.

Sincerely,
-Christina Howell

Subject: Opinion for consideration for January 12th BOH meeting

External Email

To the Washington State Board of Health,

The proposed laws and enforcement of WAC 246-100-070, 246-100-045, and 246-100-040 are overreaching and unconstitutional. These regulations are written in a way that gives a "health officer" the ability to arrest and sequester a citizen (and even their family) because the citizen does not voluntarily agree to be examined, tested, receive treatment/vaccination.

This is absurd and unconstitutional, and is diametrically opposed to individual liberty and freedom. In no way should a government official, let alone a mere "health officer", have the ability to do this to the citizenry. The naivety of the authors of these regulations is preposterous, and the fact that these exist in the public register is unacceptable. The propensity to abuse power by government officials must be opposed head on with no compromise to the liberty of the citizen.

The reasoning for these quarantine regulations existing is based not only on a total lack of regard for individual freedom, but faulty understanding of the contrived paradigm of the Covid issues we face today. There are dozens of states that have no restrictions or plans to do anything remotely similar to what is proposed in the WAC references above. Their schools are wide open, illegal mask mandates are nonexistent, and vaccination mandates are disallowed. And yet life continues on there, and in fact flourishes as people are flocking to these states to LIVE IN FREEDOM. However, here in Washington the trend is proceeding in the opposite direction, with results of hospital overruns, loss of jobs, and governmental overreach. These results exist WITH horrible policies in place, showing the result of allowing them.

This "quarantine" provision and everything associated is wrong, unconstitutional, stupid and illegal. These regulations should be immediately removed from the register, health officials should be put back in their place and the governor should resign. This is a rise of an unconstitutional beast of a government that hides behind a cloak of lies and misinformation.

Regarding the idea of making COVID-19 shots mandatory for school admission, I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

-During the October 26th FDA advisory committee meeting, 16 of the 18 members were very clear that they believe "otherwise healthy" children do NOT need this injection. It was specifically stated in their closing comments that they were recommending approval so that "high risk children in conjunction with their parents and doctors" could have it available. They also noted that though some states may try to "mandate" it, they couldn't let that deter them from making it available to high risk kids that may need it.

-Federal Emergency Use Authorization statutes prohibit school mandates of EUA products. The only FDA approved version is not yet available in the United States.

Phase 3 clinical trials of COVID-19 vaccines are not yet completed. C4591007—the main clinical trial in children and young adults with BNT162b2—has an estimated completion date of May 5, 2026. Source:<https://clinicaltrials.gov/ct2/show/NCT04816643>

-The vaccine formulation now being given to U.S. children aged 5-11 is NOT the same formulation used in the clinical trials, and NOT the same formulation that has been administered to all other age groups under EUA. So even when current ongoing clinical trials are complete, the results cannot be assumed to be relevant to the safety or effectiveness of the new formulation.

-Not having language that recognizes and acknowledges innate immunity of the Covid 19 recovered is irresponsible medicine and employs a one size fits all medical approach that does not take into account the individual health needs of children.

-Children are the least affected by this virus regarding severity and most at risk of unknown long term effects.

Thank you for your consideration in this matter.

Sincerely,

Doug Metcalfe

External Email

To whom it may concern,

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

The recent overreach of the government has left many facing tough decisions on how to further proceed caring for their families. These proposed WAC's take more control away from parents and families and place them in the hands of those who "think they know better." This is completely beyond any constitutional right of the elected officials. To also take families to camps for the "safety of others" has nothing to do with actual safety but with control and power grabs by government officials. You can guarantee that next election cycle we will be fighting back with the ballot box.

I hope that as a board, you take the consideration that removing families and forcing injections is not for the better of the populace but is taking one step closer to a tyrannical government where anyone can be removed for the "better."

-Bryant Lopez

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds of they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling,

vaccination (WAC 246-100-040).

2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.

-Concerned citizen.

Members of the board,
I find it hard to believe that we are even in this position. It's been nearly two years since the people of this state had their lives turned upside down by a lie of "two weeks to flatten the curve". There has been no end to the overreach of regulations from that time on.

I strongly disagree with your desires to force an injection on the youth of this state in order to attend school and carry on a life with friends and activities. Personally, my children have things such as vitiligo where skin irritation has often caused permanent loss of pigmentation. But I was told the hopes of getting a mask exemption were so slim it wasn't worth my effort. I can't imagine even trying for an injection exemption for medical OR religious reasons. Moving sounds simpler. Which is a sad state of affairs to consider.

I am against the proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Subject: State Board of Health Washington - Proposed Policy for Infectious Disease

External Email

Proposed Policy

Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination (WAC 246-100-040). In addition, include Covid-19 injections as part of school immunization requirement using WAC 246-105.

My opinion

This proposed policy is extremely over-reaching and goes against basic human dignity and decency.

For the state to enter a person's house and force them to comply with a vaccination or risk detention is the most un-American thing I can think of. As Americans we have fought for our rights to have individual freedoms and bodily autonomy. What this policy is now suggesting is that individual rights should now be subjugated for the great good of society. Rather than trust people to make their own informed decisions based on their own beliefs and research, the state is now the sole arbiter of truth and that there is only one, correct way to think. This totalitarian mindset has to stop.

In the early 1950s, Senator Joseph R. McCarthy of Wisconsin had charged that hundreds of communists had infiltrated the state department and other federal agencies. For four years he held hearings and acted as judge, jury, prosecutor, castigator, and press agent, all in one. McCarthyism finally came to an end in 1954 when McCarthy picked a fight with the US Army. Senator McCarthy was in the middle of calling one of the Army's attorney's a communist when Joseph Welch stood up and angrily interrupted McCarthy by saying "You have done enough. Have you no sense of decency?" Overnight, McCarthy's immense national popularity evaporated. Censured by his Senate colleagues, ostracized by his party, and ignored by the press, McCarthy died three years later, 48 years old and a broken man.

We have reached that point in time with Covid. Have you no sense of decency? What started as two weeks to flatten the curve has now grown to encompass all facets of society (workplace mandates, school closures, small businesses shutting down, firing of police officers, doctor and firefighters that refuse to comply, economic turmoil). Rather than focusing on treatment for Covid, the sole focus has been on masks and vaccinations. We have seen over time that Covid is highly transmissible and not something we can contain. We need to learn to live with it and overtime, like the 1918 Spanish Flu, pandemic viruses typically mutate and evolve into an endemic disease that circulates at lower, more manageable levels.

This policy should not be implemented. It goes against the fabric of the United States and the freedoms outlined by our founding fathers in the constitution. When people get

covid-19 they should stay home until they are no longer transmissible. They should be encouraged to treat their symptoms from home as they see fit. After they recover, they enter back into daily life as normal. For those that feel vaccination is their best personal choice, they should feel free to make that decision and get vaccinated and additional boosters as necessary based on their needs and situation. No one should be forced to take an experimental treatment if they do not want to. We have God-given rights to our own bodily autonomy and those right should never be infringed upon through mandates, economic coercion or fear of detention.

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

Sincerely,

Dan Morris

Subject: Put an end to Covid regulations

External Email

To whomever, this may concern,

I am writing to you as a constituent of Washington State who is concerned about government policy. I am writing this letter to express my strong opposition to the proposed Policies listed below

- 1.WAC 246-100-070
- 2.WAC-246-100-045
- 3.WAC-246-100-040
- 4.WAC-246-100
- 5.WAC246-105

I urge policymakers to reverse course and honor the will of the people that elected them. There has been a lack of discourse and open-end discussion at the state level, county level, city level, and community level therefore passing these regulations would result in a negative effect on Washington communities. It is important that the government prioritizes the opinions of its constituents especially when it involves expanding the power of the state government.

Sincerely,
Alex Scolnic

To All Concerned:

I am extremely OPPOSED
the proposed Covid Policies
that are over reaching and
IMMORAL.

We stand against
these proposed WAC's: WAC
246-100-070, WAC
246-100-045, WAC
246-100-040, WAC 246-100,
WAC 246-105.

These are experimental injections, with proven major adverse side effects, and death for many. We do not know the effects long term. Also this is taking away our freedom of choice for our bodies. I will not stand for our adults or children to be forced to be injected with these harmful substances in order to keep there jobs, go to school, go out in public, travel. This is a human right. The thought of being forced into being vaccinated, quarantined, receive medical care, employment or worse is immoral. It scares me that it is even on the ballot. This is like the holocaust. I stand for freedom, God and my rights as a human. The drug companies are not responsible for any ill consequences currently or in the future. They are making billions of dollars and not accountable. This is a huge red flag!!! I adamantly OPPOSE these proposals. I have personally seen ill effects of these vaccines. It is real. Please save mankind and our freedom to choose from this horrific bill.

Sincerely

A Very Concerned Human!

Subject: Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

External Email

Greetings:

I am writing to provide my comments to address the subject meeting.

To be specific, I have provided the policies that I understand will be addressed below in bold:

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Here are my comments:

I believe that these proposed policies are wrong on multiple levels. For the sake of brevity, I will provide in bullet point form my rationale for reaching this conclusion.

a) The vaccines have proven to be ineffective. Viruses mutate, and every year there will be a new variant. This is true of the flu also. We don't mandate that people take the flu vaccine. Why are we considering mandating that everyone take a vaccine for Covid? (and by the way, the flu vaccines are never better than 60% effective either for the same reasons)

b) The vaccines are an experimental drug. These have not been thoroughly vetted. It normally takes 10 years of vetting before a vaccine is released. Never before in history have we mandated one treatment to the exclusion of all others. This is a dangerous path to take.

c) We are seeing increasing evidence of the danger of the vaccine to young people. There are numerous cases of cardiac issues, guillain barre syndrome, disrupted menstrual cycles, still born babies, and sudden death. If even a fraction of these cases are tied to this vaccine, that should be reason enough to pause and wait for the data to come in.

d) The school age population is the population least at risk from Covid. The risk reward ratio simply does not make sense to require vaccination amongst any population. But it makes the least amount of sense with school aged children. They are at the least risk from Covid, and they are at the most risk from the vaccine itself.

e) We have always protected pregnant women and minors from experimental drugs. In fact, the package inserts of virtually every reputable drug on the market contains language that the medicine has no data for people who fall into those categories. Because it is considered unethical to include them in clinical trials. Yet, we are now

considering mandating their participation in the largest clinical trial in human history.

f) Insurance companies are beginning to show data that the death rate among working age people; between the age of 18 and 65 has increased significantly. And that's excluding those that died from Covid. Now one can argue that we don't know why. But the one factor that has changed in that time period is the introduction of the vaccine. Doesn't it make sense to wait and evaluate that data?

g) Finally, this mandate will result in a gutting of the public school system as many parents will simply opt out. They may personally be willing to take the risk of an experimental drug. But to expose their children is probably a bridge to far for many.

There are many more reasons that this mandate is a very bad idea. But for the sake of brevity I will stop there.

I respectfully request that you take these thoughts into consideration and move to not move forward with this dangerous policy.

Respectfully yours,

Don Anderson

I oppose the proposed WAC's 246-100-070 <tel:246-100-070> , WAC 246-100-045 <tel:246-100-045> , WAC 246-100-040 <tel:246-100-040> , WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

I have 4 children in the public school system and I will absolutely pull them out to home school if this goes through.

Thank you for your time,

Genevieve Robinson

Subject: Meeting Agenda for January 12, 2022 - Rumors surrounding detentions and law enforcement.

External Email

Good Afternoon,

I am hearing rumblings about the next meeting on January 12, 2022 that I would like some clarification on. Specifically, I have received information stating that the Board will be discussing the potential for Washington State residents being detained via the Health Department and law enforcement for matters (non-vaccination or exposure) related to Covid-19. Per your posted Agenda I do not see anything specific to these issues being discussed but item 6 and item 9 are rather open-ended with just WAC 246-100 referenced. As a resident, I would like to know the finer details...especially if it pertains to WAC 246-100-040, 045, and 070. I am not a fan of rumors and prefer to deal with facts and that is why I am contacting the Board. If you can give me clarity then I can get the word out through different resources. Thank you in advance for your assistance.

As a resident of Tumwater, WA I am completely against any of the proposed Covid Policies that will be presented at the January 12, 2022 meeting. These proposals are over-reaching, immoral, and unconstitutional. I stand against revising these WAC's to include Covid-19: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I also firmly stand against any Covid-19 vaccine mandate for school children. We are talking about a virus with over a 99% survival rate that keeps mutating. The fact that children are not an at risk group and the vaccinated can still contract/carry the virus, this should be a decision left to the parents.

I am writing in to let you know I am completely against proposed policies WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. They are completely overreaching, immoral, and quite frankly crimes against humanity. When does this end? Politicians and legislators should look to history to understand where this ends up and how far across the line it's gone. I can assure you policies as this will end up on the "wrong" side of history. Just the amount of people that I know personally who will pull their children from schools over a covid vaccine mandate will make an impact on the funding. Please do not put people in involuntary "quarantine" facilities. Please do not mandate a gene therapy vaccine for children that has no long term safety studies. All 3 of my children have had covid and the symptoms were VERY mild. What happened to the concept of "my body my choice?"

Subject: Requirements

External Email

I, Kati Spencer, a registered Voter and resident of Spokane WA wholeheartedly oppose any and all CoVID vaccine requirements for any minor child in WA state. I oppose any medical treatment, medical examination or counseling (WAC 246-100) without parental consent. I will not allow local health officials to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC-246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) This includes the requirement of the covid-19 injection as a part of school immunization requirements using WAC 246-105.

It is an infringement on our rights as citizens and our ability to do what is best for our children and ourselves. The government doesn't have the right to tell us as parents or US citizens what we can and cannot do with our own bodies. We have the right to medical autonomy and it needs to stay that way. The government needs to get out of our medical decisions.

This is an atrocious abuse of power and we will not stand for it.

I am completely against any of the proposed covid policies being voted on next week!
They are overreaching and immoral!!

This does NOT represent American values of liberty!! I cannot believe how this country and particularly our state under Governor Inslee have devolved to overt communist tactics of censorship and control. It's truly breathtaking and sickening.

Have you forgotten that as government employees, you are employed BY THE PUBLIC???
You answer to us.

Instead, it seems public servants think it's their job to control information, push propaganda, and shut down dissenting voices in order to maintain control and achieve their greater goals of professional and personal advancement.

I, for one, do not need the government to manage my it my children's health for me.

There are some who may seem to need help managing their health... EVEN SO, THAT IS NOT THE JOB OF THE GOVERNMENT.

Have you forgotten that:

- 1) Children are at very low risk for complications even if they do contract COVID
- 2) The vaccines are still only emergency use authorized!!
- 3) There are no long term safety studies documenting a history of COVID vaccine safety.
- 4) There ARE studies showing that the vaccinated and unvaccinated can both spread the virus, therefore
- 5) The vaccine does not prevent the spread of the virus.

So tell me, WHY are you pushing the vaccine so hard??

Why is natural immunity not included in this conversation??

Why have effective therapeutics been banned?? https://m.theepochtimes.com/dr-mccollough-says-outpatient-treatments-for-covid-19-have-been-suppressed_4189353.html

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fm.theepochtimes.com%2Fdr-mccollough-says-outpatient-treatments-for-covid-19-have-been-suppressed_4189353.html&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cd3014909a34b4149b19d08d9d215

Where in this conversation is the emerging life insurance field information about premature NON-COVID deaths being up 40% in 2020? How do you explain this?
https://m.theepochtimes.com/prime-age-mortality-up-40-percent-majority-not-covid-19_4196936.html

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fm.theepochtimes.com%2Fprime-age-mortality-up-40-percent-majority-not-covid-19_4196936.html&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cd3014909a34b4149b19d08d9d215

What about the government's OWN early safety net of VAERS?? HOW can you ignore the statistically significant data piling up there regarding COVID vaccine injury??

I am a healthy, pregnant, 35 year old mom who would rather die of COVID at home than go to a hospital to die alone on a ventilator (proven to be not effective in COVID patients, looking at you, Cuomo!) and denied effective therapeutics with no family allowed in the room, managed by prematurely graduated resident nurses "following COVID protocol".

But wait, I have already had COVID once, possibly twice and I came through it just fine with a healthy view of the body and it's God-designed immune system. WITHOUT any use of aforementioned therapeutics!! So explain to me why I would need a vaccine that is supposedly designed to do what my body has already done for me??

Just to be perfectly clear, I stand against WA 246-100-070, WA 246-100-045, WA 246-100-040, WA 246-100-030

Subject: Public Comments Submission

External Email

Christopher Lapins, King County Resident, Concerned Citizen, & Productive Member of the Community

To the Washington State Board of Health; Executive Director Michelle Davis; & to the rest of the board committee:

This message is in regards to the BoH meeting taking place Wednesday Jan.12th where the board will discuss applying current infectious disease WAC codes to include Covid-19 for all Washington State residents. These comments are specifically apropos of the decision to,

"Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) refusal to voluntary comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100."

I declare my direct disapproval of and opposition to such measures. I exhort all board members to also oppose this bill. I foresee that such decrees could and would be greatly abused by authoritative powers and would violate our God given rights to life and liberty. The very wording of this edict is very frightening. Leave Washington Residents alone to decide for themselves how to care for their health. Covid-19 does not pose a threat great enough to warrant orders of this caliber.

Let me offer this: such action would pose a public concern of another kind as fear of Orwellian practices such as these might spark panic and anxiety in the hearts of many Washington residents.

Again, I implore all BoH members to be in opposition to this decision and vote no on it. A society where the people are not free to chose without coercion what to do with or inject into their bodies is NOT a free one. The founding fathers of the United States intended liberty to be steadfast during all times, regardless of whether or not there is a wide-spread public health crisis, which in this case there isn't anyway.

I sincerely hope that my comments are taken seriously.

Thank you & God Bless.

Subject: Public Comment re: WAC 246-100 and 246-105

External Email

I am writing to voice my serious disagreement and disapproval as public comment to proposed WAC 246-100 including 246-100-070, 246-100-045, 246-100-040, and 246-105.

The fact that this subject matter is even being considered is deplorable and downright unbelievable.

At what point did a very few select group of people arrive at the idea of imposing forced and arbitrary regulations on private citizens without any form of due process. The fact that Washington state is even considering stripping civil liberties and freedom of its residents is incomprehensible.

This cannot happen.

This is pure tyranny and a violation of our constitutional rights, civil liberties and a total and complete dissolution of all things life, liberty and the pursuit of happiness.

Haven't we learned something about the detriment of concentration camps from our past. History cannot and must not repeat itself.

To proceed and impose this is illegal and in violation of all rights and will ultimately destroy Washington state, a state I have loved and called home my entire life.

Swift measure to end these corrupt and unjust WAC's must be taken now.

Sincerely,
Erin Poznanski

To whom it may concern,

I oppose the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I do not support covid vaccine mandates of any kind. Individual medical Liberty should be preserved. The covid vaccine data shows the it does not prevent infection or transmission and children are not at risk of any serious side effects from covid but do face potential side effects from the vaccine such as myocarditis.

I also support Informed Choice Washington's Petition for Rulemaking.

I strongly oppose the inclusion of Covid 19 into WAC 246-100-070. It is an unnecessary and invasive overstep of government involvement on a disease whose current variant is drastically reduced in severity. Such action would erode public trust in the BOH.

Thank you,

Beth G.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. Being a student who has not gotten Covid yet, even without a vaccination, I feel as though my free rights are being taken away. I don't want to give up my free will of education over a forced vaccination. We should be able to reject any injections that can harm our bodies. We stand against these proposed WAC's: WAC 246-100-070, WAC246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Sincerely,
Anna Snitko

Subject: Regarding Proposed Covid Policies

External Email

To whom it may concern,

I am completely against the proposed COVID policies. They are over reaching and unconstitutional. There isn't enough research, study and knowledge to back up these actions, in fact there is more data to suggest Washington state is among the worst States in regards to their covid policies.

I, along with many other Washington residents, stand against these proposed WAC's : WAC 246-100-070, WAC 246-100-045, WAC 246-100-040.

Not only are these an infringement against our constitutional rights, but also our moral & personal rights!

Natural Immunity must be considered in the fight to end the pandemic.

Everyday we are seeing natural immunity being considered, questioned and in some cases allowed as an exemption. Vaccinated people are still contracting and spreading COVID, they are filling up the hospitals and ICU and clearly children are not part of that surge.

This is America and we have the right to decide what goes in our bodies.

If this passes, you will see even more of a mass exodus from the government school system than you are already seeing.

Actions have consequences and WA residents will not stand for this kind of unconstitutional power grab.

Thank you for your time,

Dan DeLano

Subject: Comments on Proposed Inclusion of COVID Vaccination Requirements Within the Washington Administrative Codes for Enforcement Under Revised Codes of Washington (RCW).

External Email

As a legally documented resident and registered voter residing within Washington State, I am respectfully providing my comments regarding the discussions being held by WA State Board of Health in consideration of including COVID-19 vaccination requirements within the Washington Administrative Codes for lawful enforcement under the Revised Code of Washington (RCW). I have also attached a PDF file of the comments if that is helpful.

My comments follow in order of personal priority with references provided to proposed topics of discussion by the State Board of Health.

1.0 WAC 246-100-070, WAC 246-100-045, WAC-246-100-040 in regard to detaining, isolating or quarantining a person or group of persons (families) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination.

1.1 I object to any amendment or modification of WAC 246-100-070 which would permit law enforcement to detain, isolate, or quarantine a person or group of persons; including families, who are themselves; or the minor dependent, of a legally registered citizen of the United States of America, following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling or vaccination for any disease. I encourage the members of the Washington State of Health to disregard this proposed amendment which I believe tramples the fundamental provisions of the United States Constitution and the rights of legal citizens granted by the Bill of Rights.

2.0 WAC 24-105-030."Discussions to add Covid-19 to the list of child immunizations required for school attendance.

2.1 In principle, mandated treatments including this proposed action represents an egregious over-reach by the State and potentially tramples parental rights to administer their family's health decisions with full and factual "Informed Consent".

2.2 Further, consideration of any proposed amendments to the WAC for including Covid should provision "Parental Informed Consent" and reasonable exceptions, (i.e.; natural immunity, alternate treatments including emerging oral drugs, religious beliefs, medical, and private/home education).

2.2.1 In my view there is a complete lack of evidence of the necessity of inclusion of a COVID vaccination requirement in WAC 246-105. Quoting from 246-105-010: "The purpose of this rule is to protect children and the public against certain vaccine-preventable diseases. Under the authority of the board of health, this rule describes the immunization requirements of children attending schools and child care centers." The facts are the current COVID vaccines do not prevent catching the disease or any of its variants, and therefore are ineligible for inclusion in the list of "vaccine-preventable" diseases. The current COVID "vaccines", as is demonstrated by the vast number of "breakthrough" cases, are not able to prevent COVID to a comparable level as actually effective vaccines for the section 030 listed diseases, but merely amount to a pre-treatment for the disease that may generally reduce the severity or death.

2.2.2 Compare and contrast the number of COVID breakthrough cases (and rates) to breakthroughs for those vaccinated against the diseases listed in 246-105-030. Who has heard of multiple breakthrough cases of chickenpox? Diphtheria? Rubella? Measles? Mumps? Pertussis? And the rest of the list, for that matter. The simple fact is, the number of "breakthrough" cases associated with currently listed diseases is so small they are considered negligible - it would be major local news of an outbreak of Measles or Mumps in our local schools, yet these are all but unheard of. Yet the number of COVID cases that breakthrough the current vaccines is significant. Therefore, as a matter of definition, COVID is not a vaccine preventable disease.

2.2.3 Considering that the best available evidence and international focus of treatment the COVID vaccine was to treat the elder community with comorbidities that increase

their risk of hospitalization and potentially death. As of this writing reported data indicates that on average, children suffer no worse from COVID than the normal seasonal flu, and considering the unknown potential long term side effects of the current COVID vaccines as an emergency treatment, the risk-reward profile indicates negligible benefit to the children of Washington, while imposing unquantified potential risk upon them.

2.2.4 In your discussions of amending the WAC to include a vaccine mandate please compare the current policy for seasonal flu: Flu is an equal, if not a greater risk to children yet there is no mandate to vaccinate children for the seasonal flu. Yet, this Board is considering mandating a vaccine for a disease, COVID, that is equal or lower risk to children AND has a vaccine with an unknown long term risk profile? That seems illogical and would indicate other non-fact-based motivations for such a mandate. I respectfully urge the board to not add COVID to the list of diseases in WAC 24-105-030.

External Email

Dear WSBOH,

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org)

Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) violates our civil rights and the Geneva Convention. Refer to the following: 18 U.S. Code § 2441 - War crimes

Please remember your oath. Stop this madness NOW.

I am completely against the
PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements

This goes against our Constitutional rights as Americans. This puts us all at risk of repeating history. This is basically a concentration camp.

Also, to force vaccines on children to go to school is completely unethical. If they have medical conditions that could have adverse effects with this vaccine that has long-term studies on it.

Thanks for hearing me out .

Bethany Bertram

External Email

Good morning,

I am completely against any of the proposed Covid Policies that are over reaching and immoral.

We the People of Washington State, stand against the following proposed WAC's:

WAC 246-100-070
WAC 246-100-045
WAC 246-100-040
WAC 246-100
WAC 246-100-105

Thank you

To whom this may concern,

As a tax-paying resident of Washington State, I strongly oppose these proposed policies and ask that, in the name of the people the Washington state government is meant to serve, that you put a stop to this immediately.

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Sincerely,

Gwyndolen Benton

Subject: Public comments for WSBPH members from March EH committee special meeting

External Email

To those committee members discussing upcoming policy reform concerning WAC 246-100-070, WAC 246-100-045, and WAC 246-100-040,
Happy New Year to you all! Beginning this new year, my family and I find ourselves extremely concerned over the proposed policies to be discussed on Jan 12th. The responses of WA state leadership and the federal government to current health issues continue to run a very dangerous path toward government overreach. The language of the proposal itself is immediately threatening. Individuals and families will be "involuntarily detained" by law enforcement if they "refuse to voluntarily comply" with requests for medical exams, testing, treatment, vaccination and counseling?? If citizens do not volunteer to comply but then are forced to comply, it was never a request. And if leadership is not merely asking respectfully but forcing a medical exam, treatment, vaccination or counseling on me or my child, this is absolutely unconstitutional! What happened to our unalienable, God-given rights to pursue religious and personal freedoms? There is no pandemic clause in the bill of rights. Please consider the ramifications of such oppressive policies. There is a huge potential for human rights violations to be folded into the right given to officials to force medical procedures and detainment and indoctrination (counseling) on people. These atrocities will be part of WAC law forever...not just in this current "state-of-emergency". It is a hardship that we unfortunately have a new virus in the pool of viruses people must now deal with yearly. However, when there has been a 95%+ survivability rate of COVID-19 in this country, these extreme propositions are even further from being warranted. These last 2 1/2 years or so have been trying times. The amount of conflicting information circulating about COVID-19 and the vaccine is ridiculous. My family and I have been watching very closely to see for ourselves what has been transpiring with those who have contracted COVID-19 and also those who have received the COVID-19 vaccination. All members of my family and most of my extended family have had and recovered from COVID-19, including one with terminal cancer and previous open heart surgery. On the other hand, there have been a large number of disturbing reports and first hand accounts of the negative side effects (even death), from friends and community members who have received the vaccination. Still we are being FORCED to vaccinate?? This leads me to highly question the motives of a government who would disregard data that suggests COVID-19 is not as deadly as it is reported to be and instead, would FORCE citizens to accept that COVID-19 should be treated as a state-of-emergency and punish or withhold rights to citizens who will not comply with extreme and unconstitutional methods of control. This begs the question whether covid 19 is really the issue at hand. Is this a fight because of a state-of-emergency or a fight for a state-of-control? Tell me this is not the way the United States of America or the governor of WA state deals with it's issues now! We have not adopted a new constitution. We still have a system of government for the people, not a people for the government to use. I would respectfully ask by what right do you feel justified to revoke the freedoms that God has given us? (The constitutional rights of life, liberty and happiness...which certainly includes the joy of raising my family without complete government control). I do not want to leave Washington state. My family and I have invested our futures here as business owners. We love and cherish this state. We are willing to stay and fight for a strong state full of healthy people that respect the health concerns we face and who are respected as well. As an American and Washingtonian I am requesting that you protect our state from harmful laws that will inevitably revoke our freedoms and ways of life.

I know it's crazy hard to be in office and we will be praying for you all as you meet this month to discuss these matters. Thank you so much for your consideration!
—Rachel Breithaupt, Port Angeles, WA

External Email

If this is true I ABSOLUTELY OPPOSE IT! It's UNAMERICAN!

Please everyone send an email to link provide and just copy if you want the last part about the WAC and that we oppose Vax requirements for ages 5 and up. Add whatever else you want. But we need as many people to email so they know.. WE ARE NOT FOR mandatory Vax. It's our right to choose what goes in our bodies and children's bodies. They are fighting to be able to come and arrest us and put us in camps. This is such crap.

We have till NOON today to email comments to our department of health.
Email: wsboh@sboh.wa.gov
This is very serious- involuntarily detaining of citizens for medical reasons to a quarantine camp. They can come take any of us and lock us up.

We stand against these proposed WAC's:
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

To whom it may concern,

I am completely against any of the covid polices being discussed. It is overreaching and immoral. Our country was based on and fought for a free America not one that we force any different thoughts, beliefs or medical decisions on others. The prisons don't even serve pork because of the Muslim beliefs. A place where a person committed a crime, broke a law, and was sent to by A JUDGE and JURY, but you're going to propose to have law enforcement involuntary detain a person or family because they do not want to voluntarily comply with medical examination, testing or treatment. What dictates who gets thrown in these "camps?" If you have a cough or allergies are you going to be run through the mill? If you are throwing up, instead of resting and drinking fluids now you have to go make sure you're not infected and potentially have police show up at your door. To force a vaccination on a person that chooses to not put something in their body that hasn't even been tested or out long enough to see potential long term side effects is exactly the opposite of a free country and what our ancestors fought for. When did this country become "do what we say when it comes to your health or else we will put you in concentration camps until you comply." What happened to my body my choice? I stand against the proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100, WAC 246-105.

Thank you for your time.

Board Members,

Thank you for serving in our beautiful state of Washington. I am a father of 3 children, who lives in Vancouver WA along with many other families. We the people here, who elected you to represent us and our families do not support WAC 246-100-070 and 246-100-045. This is unconstitutional. You stand with woman to protect their bodies when they want to abort the baby, but now you force people who want to protect their body from vaccine. This is hypocrisy. Do not take away the freedom that our fathers fought for, the freedom given by God. Stop telling us how to live our lives. We elected you to represent us, please do so. We are wholeheartedly oppose WAC 246-100-070 and 246-100-045, please vote against it.

Respectfully yours,

To whom is in charge,

I understand the public involvement in helping prevent spread of diseases, flus, colds, etc. I get it. I really do. However involuntary actions on the public is not the way. This is a general consensus from the public in multiple applications here in the US. An example, you shouldn't be walking up to a random person who "looks" illegal and asking for their green card without actual evidence to suspect them.

I am completely against any of the covid policies that involve involuntary action or constriction on public freedoms. I am against WACs: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Please reconsider. If you want public infringement on our rights to decide what to do in our own life, then let it be the public's decision and put it to a fair vote. Let school districts make their own choice. Or leave it up to local policy so there's a sense of choice and freedom to live where it aligns with our views as many do. I love Washington and have grown up here, but I do not agree with the over-reaching policies of certain upon the rest of the state. Other cities that do not live the same way as Metro cities. Please be respectful of your residents diversity with how they live their life.

Thank you for your time,

Jasmine Kling

Subject: Why I am concerned about proposed policies WAC 246-100-070....

External Email

Greetings Ms.Davis!

I hope this email finds you healthy and well.

I know several important conversations will be happening soon. I would like to weigh in on the matter and explain why.

I strongly object to the proposed policies:

WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Covid-19 was new and scary virus, but we've come a long way since it first appeared.

Immunocompromised and those individuals strongly concerned have the option to get a vaccine. Majority have mild infections. Passing laws at this point is government overreach at best, especially since vaccines DO NOT prevent transmission, or provide much protection for the new variant.

But what is happening, is that people feel threatened by the government. I already do, when I see these proposed policies. And when Government institutions will try to pass good policies in the future, if need arises, there will be pushback because you're setting a precedent of government overreach. PICK YOUR BATTLES. The current proposed measures are unnecessary and the current situation does not warrant such strict policies. It is a serious virus, but please remember the death rate is still less than 1 percent (even that is generous). Most people are either vaccinated or have natural immunity. You want to strip away freedoms of people for the sake of what? People want to be free, and safe. But how can we feel safe knowing we can be voluntarily detained because we didn't consent to a medical procedure related to a virus with such a high survival rate?

Concerning vaccine requirements of children: Requiring children to get a vaccine that has a higher risk of an adverse reaction than the threat of the initial infection is wrong. If you must do something, then please put it in the "recommended" vaccine list, BUT NOT REQUIRED.

COVID-19 is NOT an infection that can be eradicated with vaccines like POLIO or MEASLES, then why treat them the same? Put it in the category of the flu, which is closer to reality. I'm begging you, LEAVE THE CHILDREN ALONE! They are not a threat to our society. COVID is not a large threat to the well-being of children. If someone WANTS their child vaccinated, they know how to do it, and they will do it.

Thank you for your time,

Liliya Smal

P.S. I was going to provide articles to support my claims (although you have access to them), but I was afraid my e-mail will get flagged for containing links.

From: Barbara Miller
Sent: 1/7/2022 11:45:01 AM
To: DOH WSBOH
Cc:
Subject: advisory board meeting

External Email

Dear Advisory Board for the Washington State Board of Health:

I am writing to voice my concerns about the Board of Health proposing a policy change to WAC 246.

WAC 246-100 states: Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

This is a frightening idea that feels like it comes straight out of Nazi Germany. It would be the most discriminatory action taken by our nation to date. The very idea that the state could detain people for refusal to comply with vaccine mandates flies in the face of common sense. The Covid "vaccine" does not prevent transmission or protect one from getting Covid. It is also not considering the large percentage of the population that have already acquired natural immunity through having had Covid. Would you think it was ok to use law enforcement to involuntarily detain vaccinated individuals as well? Are we turning into a police state?

We must not usurp the rights of individuals' freedom to take care of themselves in a manner that reflects their religious and moral beliefs.

Please stand for our freedoms. Please consider that action to support the use of law enforcement in this way will most certainly create a divided population that will not stand together. I fear the negative ramifications will be far greater than any intended good it will have.

With respect,

Barbara Miller

From: Candace Hulse
Sent: 1/7/2022 11:12:10 AM
To: DOH WSBOH
Subject: Please do not approve Covid Vaccination Mandate for our children

External Email

Dear Washington Board of Health,

Please do not approve a Covid Vaccination for Children. The CDC and FDA and many others have openly admitted our children are at very, low risk of Covid. and severe illness. The International Alliance of Physicians and Medical Scientists has declared that the children should be excluded from the vaccine mandates.(Actually all forced Vaccine mandates should be repealed).

"Consensus is clear among MDs and medical PhDs: Following 20 months of exhaustive research, millions of patients treated, hundreds of clinical trials performed and scientific data shared worldwide, they conclude that healthy children and the Covid- recovered should be excluded from restrictions and Vaccine Mandates" (Source: globalcovids Summit.org)

The vaccination side effects do not out way the Benefits' CDC has admitted to the risks of myocarditis, blood clots, death, and that children are not a high risk, if any, of severe disease. We need our children for the future for true herd immunity." Healthy unvaccinated children are critical to achieving herd immunity. Natural immunity is proven to tolerate infection, benefiting community protection"

There is insufficient data supporting that vaccination assist in herd immunity.

This current Vaccine is not the same as the one the study was on. It has changed formulas a few times. www.fda.gov

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.fda.gov%2F&data=04%7C01>>. This vaccine, for our children is still an unknown and has not reached stage 3 of the normal testing for approval. For the Safety of our children please DO NOT APPROVE a Vaccine mandate that has no history of efficacy or safety for children. By the way, the vaccine or drug being used is not stopping the current Covid 19 infections. I know 25 people currently sick at home most bedridden who are Vaccinated!

I am also very concerned about WAC-246-100, WAC 246-100-070, WAC 246-100-045, WAC 246-040

(If I am reading those correctly)

I am very concerned that these will be used for any reason for anything! Please do not support these. I am against any and all involuntary enforcements on private citizens. We have to be free to choose and stay away from Government over reach, if these WACs would allow that please do not enact.

Thank you for your time in reading my email and truly taking to heart what a detriment this could be to our children.

Sincerely,

Candy Hulse

We the people will NOT allow our medical freedom to be stripped away from us.

I am asking you to carefully consider the repercussions of what you are proposing. Getting a vaccine should be a choice between the citizens and our healthcare providers not the county or the state to be involved in. The state of Washington and Pierce County are trying to make medical decisions for us.

You guys are over stepping and violating our constitutional rights. Many people have already moved out of the state due to your requirements these proposed changes will only make more people flee Washington.

Our state has one of the highest vaccination rates nation wide, some of the strictest protocols and rules for masks and vaccinations and yet we still have one of the highest rates of Covid so what makes you believe implementing more policies will help? Why not follow suit of other states who are letting people live their lives and have lower Covid rates.

WE WILL NOT GIVE UP WE WILL NOT STAND QUIET WHILE YOU TRY TO STRIP US OF OUR MEDICAL FREEDOM!

You are violating our constitutional rights
Sincerely concerned Washington state citizen,

Aleksander

I totally oppose children getting vaccinated with an emergency untested vaccine. They are at high risk of adverse complications including sickness, hospitalization or heart disease. I believe it is safer and more beneficial for them to get Covid and have natural immunity as a result.

The DOH should not have the power to involuntarily inject children or adult citizens of the United States. This is coercion and illegal. We the people have a right to choose what is injected into our bodies. These proposed Covid Policies are an over-reach and immoral.

Sincerely,
Deborah Bowen

To Whom It Concerns,

I vehemently oppose any & all covid-19 mandates, and/or requirements.

Do not allow these:

- Local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Do not allow this —

- Covid-19 injections as part of school immunization requirements using WAC 246-105.

I also vehemently oppose Agenda Item #8, the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school.

I do support Agenda Item #11 Informed Choice Washington's Petition for Rulemaking. This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

Please do the right thing for all citizens.

Hello,

I would like to voice my opposition to your proposed policy's: 1, "Allow local health officers to use law enforcement (WAC 246-100-070 <tel:246-100-070>) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045 <tel:246-100-045>) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040 <tel:246-100-040>)" and 2, Making covid vaccination mandatory for school children.

I'm sure you are aware now that the covid vaccine does not prevent one from getting covid or passing it on. This is admitted by the CDC now. This proposal may have seemed like a good idea before, but with the current knowledge about how the disease is spreading the most in highly vaccinated areas and countries....detaining people in camps or facilities for no actual benefit to society and completely ignoring the Constitutional rights of individuals (whose medical decisions are not your business) sounds more like northern Australia or communist China than Washington state.

Also please don't attempt to make the vaccine mandatory for school kids, as you know they have a 99.99%+ survival rate if they did get covid, and their existing natural robust immune

system doesn't require any help, not to mention the chance of heart or other damage.

Plus it is difficult to comment when the meeting materials aren't available until after the email comment cutoff time of 12 noon friday...

I hope you all will reconsider these proposals and reject them.

Thanks,

David Saunders

I do not support the following proposed policies:

Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I feel that these proposed policies are unconstitutional. This is not the role of the Health Department.

Hello I am writing to state my strong objections to any law or mandate requiring an experimental vaccine(s) which now the CDC says don't prevent infection or transmission and are creating many serious side effects including death according to the vaers reports. Coerced experimental vaccines are violations of state, federal and international laws in place and carry very severe penalties, both financial and incarceration. If you are being delegated by our governor Inslee to be the front person for this illegal program you would be advised to be aware of what he is delegating to you and the penalties YOU would be subject to. Whatever you are being paid for this position it's not worth the risk of implementing a vaccine mandate.

1. Constitutional-

This country was founded with a very UNIQUE Constitution in the World. This Constitution for the United States of America gives us inalienable rights in the Declaration of Independence and rights to our own bodies in the First Amendment. By voting to allow local health officers to BREAK THE Constitution you yourselves are committing TREASON. Any Law Officers that would consider or do these actions of taking people from their homes are committing TREASON also. An emergency order that goes AGAINST the Constitution is not LAW. Mandates are not LAW.

In the Proposed Policies it has an illogical statement: -Allow local health officers to use law enforcement (WAS 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). Here is the rub: Voluntarily means you have a CHOICE. Requests are just suggestions.

You will be breaking the following Laws:

A. Committing a crime against humanity by breaking the Nuremberg Code – The Nuremberg Code for Crimes Against Humanity by the International Military Tribunal at Nuremberg, Germany 1947.

The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision.

B. Treason – By going against the Constitution for the United States of America; specifically the 1st, 4th and 14th Amendments.

C. Breaking of the ADA and HIPAA Laws of Washington state.

D. Breaking the Civil Rights Act.

2. Health-

I have attached several short videos for you to watch from several doctors and a flier also called "Masked Science."

I do not support:

#1 The breaking of the Constitution for the United States of America.
#2. Taking away Medical Freedoms from parents and their children by forcing immunizations at schools (or masks for that matter.)

Just so you are aware.....20 or more Criminal Complaints and Commercial Liens have been filed against all 19 of Clallam and Jefferson County Board of Health public servants. Each of these complaints totalled \$5,130,000.00= \$270,000.00 x 19. Interesting that there are 19 of State Board Health Public Servants too.

Constitutionally Educated Citizens will not sit back and allow STATE Board of Health People to do the same, break our rights as listed above. If you want a Commercial Lien in the amount of \$270,000 or more put against you....go forward with this action. Please read the constitutions of our state and nation.

External Email

Good Morning,

I am completely against the proposed COVID policies. They are over reaching and immoral!

On top of that, there isn't enough research, study and knowledge to back up these actions!

I OPPOSE the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period!

I SUPPORT Informed Choice Washington's Petition for Rulemaking -- this is item 11 on the agenda! This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

I, along with many other Washington residents, stand against these proposed WAC's : WAC 246-100-070, WAC 246- 100-045, WAC 246-100-040.

Not only are these an infringement against our constitutional rights, but also our moral & personal rights!

If these pass, I along with MANY other WA residents will leave the state and relocate to states which protect and honor our rights and freedoms.

Natural Immunity must be considered in the fight to end the pandemic.

Everyday we are seeing natural immunity being considered, questioned and in some cases allowed. Since when did a man-made vaccines overrule our bodies and our immune systems.

Look at the data and see the writing on the walls. Vaccinated people are still contracting and spreading COVID, they are filling up the hospitals and ICU and early children have a 99% chance of survival.

This is America and we have the right to decide what goes in our bodies.

If this passes I will take all of my children out of public school, and so will many other parents.

Actions have consequences and WA residents will not stand for this kind of unconstitutional power grab.

I urge you to adhere to our Constitution and listen to the good people of Washington State.

Thank you for your time,
Erika Johnson

Subject: WAC Code Proposal and COVID Mandate Compliance

External Email

Good morning,

I am a lifelong resident of WA state. I love this state and the diversity it brings (geographically, socially, politically, and economically). However, I am deeply concerned that the WA State Board of Health is considering adding WAC codes that would force residents to comply with any state issued COVID/vaccine mandates (or face steep legal consequences).

This is unsettling. There is no doubt the COVID virus (and its variants) is real (but nonetheless, the survival rates are astronomically high should someone catch the virus, whether vaccinated or not). COVID is also very similar to the yearly flu.

Please do not pass these proposed additions, including WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105. Lifelong residents (and steady taxpayers) such as myself may have no choice but to leave the state to another state that is not attempting to overreach into the daily lives of its residents.

Thank you,
Collin Schuler

I'm absolutely mortified at the prospect of Washington having involuntary covid detention facilities as currently practiced in other countries.

There was a "conspiracy theory" leak from Canada (attached) from October 2020, and 10/10 of the roadmap items in it either happened or were attempted. Eventually locking people in covid isolation facilities indefinitely in other countries factors into the plan, so it is of the gravest concerns to start having involuntary covid detention facilities here.

I'm emailing to condemn the proposed WAC changes: WAC 246-100-040, WAC 246-100-045, WAC 246-100-070, WAC 246-100, and WAC 246-105.

Good morning,

Thank you for your consideration.

Mary

PETITION FOR ADOPTION, AMENDMENT, OR REPEAL OF A STATE ADMINISTRATIVE RULE

In accordance with [RCW 34.05.330](#), the Office of Financial Management (OFM) created this form for individuals or groups who wish to petition a state agency or institution of higher education to adopt, amend, or repeal an administrative rule. You may use this form to submit your request. You also may contact agencies using other formats, such as a letter or email.

The agency or institution will give full consideration to your petition and will respond to you within 60 days of receiving your petition. For more information on the rule petition process, see Chapter 82-05 of the Washington Administrative Code (WAC) at <http://apps.leg.wa.gov/wac/default.aspx?cite=82-05>.

CONTACT INFORMATION *(please type or print)*

Petitioner's Name _____

Name of Organization _____

Mailing Address _____

City _____ State _____ Zip Code _____

Telephone _____ Email _____

COMPLETING AND SENDING PETITION FORM

- Check all of the boxes that apply.
- Provide relevant examples.
- Include suggested language for a rule, if possible.
- Attach additional pages, if needed.
- Send your petition to the agency with authority to adopt or administer the rule. Here is a list of agencies and their rules coordinators: <http://www.leg.wa.gov/CodeReviser/Documents/RClist.htm>.

INFORMATION ON RULE PETITION

Agency responsible for adopting or administering the rule: _____

1. NEW RULE - I am requesting the agency to adopt a new rule.

The subject (or purpose) of this rule is: _____

The rule is needed because: _____

The new rule would affect the following people or groups: _____

2. AMEND RULE - I am requesting the agency to change an existing rule.

List rule number (WAC), if known: _____

I am requesting the following change: _____

This change is needed because: _____

The effect of this rule change will be: _____

The rule is not clearly or simply stated: _____

3. REPEAL RULE - I am requesting the agency to eliminate an existing rule.

List rule number (WAC), if known: _____

(Check one or more boxes)

It does not do what it was intended to do.

It is no longer needed because: _____

It imposes unreasonable costs: _____

The agency has no authority to make this rule: _____

It is applied differently to public and private parties: _____

It conflicts with another federal, state, or local law or rule. List conflicting law or rule, if known: _____

It duplicates another federal, state or local law or rule. List duplicate law or rule, if known: _____

Other (please explain): _____

Vote NO on this policy. VOLUNTARY is not VOLUNTARY if this is implemented. ONLY if Illegally entered the country and are not US citizens.

PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC

246-100-040). These specifics come from WAC 246-100.

Sincerely,

Marilyn Bennett

To Whom it may concern,

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I will leave this state in a heartbeat if this goes through. You cannot keep pretending that unvaccinated are more of a threat than vaccinated. I know a vaccinated/boosted family who took a PCR test, flew to Aspen, got sick...but assumed their PCR test from the day before cleared them and it was just a cold. They spent 5 days in a resort, restaurants, shops, skiing, then flew home...only to find out the next day they have Covid. Meanwhile, I cannot attend a Christmas craft show, eat in a restaurant, or workout in a gym. Please explain to me the science behind this. I have antibodies...and I had them tested at 4 months, when they supposedly waned and they had actually increased from 3 months before. I test twice a week just to get a paycheck.

I only live in this sick state because I want to be near family, but I have positioned myself to leave as soon as I need to. Prepare for a mass exodus. But maybe that's what you want...good luck when you scare off all the hardworking people who have lived in Washington their entire lives.

Good morning,

I am writing to let you know that I am opposed to the proposed WAC's

246-100-070

246-100-045

246-100-040

246-100

246-105

I am adamantly opposed to giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

We are the United States of America, the land of liberty and freedom. We are not Nazi Germany.

I am completely opposed to COVID-19 injections as part of the school immunization requirements using WAC 246-105.

Please be careful with the decisions you make. You will be held accountable one day.

Dear Board of Health,
My wife and I are hard working Washingtonians. She is a nurse and I am a physician. We are alarmed at the overreach of our government regarding mandates. Haven't enough hard working citizens left our state to escape these mandates? The passes are closed preventing transportation of much needed supplies. The nurses we fired because they would not comply are still working, but are charging the hospitals so much more as they are now "travelers". . Our state is being stripped of its workforce.

We oppose 246-100-070 -NO EMERGENCY ORDER. We oppose 246-100-045 - NO MANDATORY ISSOLATION. We oppose 246-100-040 - NO FORCED VACCINATIONS OR TREATMENT OF ANY KIND AGAINST THE WILL OF YOUR CITIZENS. This is the time to stand for your people, your State and your Country. Say NO to these mandates!!

What shall be the punishment for the health officer and law enforcement officers for forcing a person or group of people to submit to unwanted medical procedures? Just in case you've forgotten, the Nazi's did exactly what you are proposing. This was codified in the Nuremberg trials as a violation of basic human rights.

Subject: Proposed Policy changes pertaining to "emergency order"

External Email

Hello;

I am writing to let you know of my strong objection to the enforcing of (WAC 246-100-070) an emergency order to involuntarily detain a person or group of persons to isolate them in a quarantine environment. Overreaching Government actions for Health care is unConstitutional, immoral and illegal. No one should have forced medical decisions made for/to them.

Parents also have the right to do what is best for their child/children without impersonal unknown bureaucrats forcing their opinions on our health decisions. This objection includes: WAC246-100-045, WAC 246-100-040, and WAC 246-100; WAC 246-105

May I remind you that our US and State government (including the Dept of Health) is supported and paid for by its citizens' Tax dollars and is in place only to protect our land from invasions and to operate reasonably for "we the people's" benefit. Government is not for overreaching measures to remove our freedoms and/or our own decisions. We can and will make our own health care choices regardless of what the mind-set of some politicians is currently. We also do not want to harm others, but know how to care for our own.

We are a free people and will remain so.

I urge you to keep our freedoms in mind when discussing new policies. We the people are against government interference with our health and freedoms!
Do not impose backward thinking "health care" on the citizens of this state,

Sincerely,
Concerned Citizen

Subject: Opposition to proposed covid policies

External Email

I am completely against any of the proposed covid policies that are over reaching and immoral. I stand against the proposed WAC'S: 246-100-070,246-100-045, 246-100-040, 246-100, 246-105.

Please stand up for the people of this state and do not further perpetuate governmental over reach and Inslee power grab. When people ask how did Nazi Germany happen, this is exactly how. When people stand by and allow their government to continue to take small freedoms away one by one. Please stop this madness.

Subject: 4 apparently secret WAC's - VOTE NO!

External Email

To our trusted REPRESENTATIVES in Olympia,

As a reminder.....you were voted into your position as a representative. NOT for your own agenda, or even for the agenda of others, but to represent the people you serve. I find it so very sad I need to even remind you of this, but this kind of legislation.....done primarily in secret.....is why I am reminding you of it. Remember....nothing remains secret for long. How you vote on these 4 WAC's will be exposed.

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Vote NO on all of them.

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination. Not only am I against it, but it is unlawful for them to do so. The Supreme Court is already overturning several unlawful mandates, or will be very soon. To try to enforce such a HUGE state government overreach will backfire in ways you cannot imagine. People are very angry with the leadership of this state already.....and the ridiculous 23 months of living under a dictator Governor who is drunk on power, and should not have the powers he has. Both Democrats and Republicans are angry with Inslee AND the Democratic majority that push through "mandates" and laws (often in secret), hoping no one will notice. In case you are not aware.....both sides have noticed.

Do you really want to push everyone over the edge until there is a total Red Wave in this state? It is coming. The Democrats are watching this session very closely. The majority of them are very angry also, and sick of being told what to do. Especially when there is no science to back up the mandates. In fact, Washington is doing quite badly compared to most other states. Yet we have some of the strictest mandates because we have Inslee who just likes to play with his power.

Be smart. Do your job.....not someone's bidding. Represent the people.....not Inslee or special interests. Ask them.....they will tell you. Both sides will tell you this is an insane overreach. You are taking us back to putting Asian Americans in camps like the Washington State Fairground. Is that the history you really want to make? That's your plan?

Do not push the people you represent until they start fighting back. They are all on the very edge of doing so right now. Don't believe me? Just ask them. The media won't. But you can. Of course, that is your job. Ask ALL of them, on both sides of our state. AND

LISTEN!

I am also completely against covid-19 injections as part of the school immunization requirements using WAC 246-105. This is just plain common sense. Until there are more trials, more research about long term side effects, you have no business demanding children take this vaccine. Parents can decide that for themselves. It's not your right to make that a law when this is not a fully tested, tried and true vaccine.

Lastly, while I am at this, DO NOT try to pass a law that says the Governor can appoint the State Superintendent of Education, as Rykdahl just spoke about. Let the people decide if that should become a law....but you are probably afraid to do that.

The Constitution, and the founding fathers of our amazing country had divine inspiration when they organized a government with checks and balances. It was to avoid what is happening in our state. In Washington State, we do not have checks and balances. Look at where that has gotten us. Seattle, a once beautiful destination place, is a laughing stock to the rest of the country. No one goes there anymore.....not even other Washingtonians. It's filled with crime, and homelessness that knows no end, and garbage and filth and danger everywhere. Inslee keeps taxing the heck out of people and businesses, IN A PANDEMIC, even though the state has an insane surplus! He attacks businesses he personally has an issue with, while ignoring others that have benefitted him somehow. He attacks them with the Dept. of L&I and other government agencies. He's allowed the Employment Security system to be hacked and has done nothing to fix it. There are huge scandals within that agency, and it's former director that I am sure will come out on a Netflix documentary very soon. And the Democrats are allowing all of this to go on. No checks and balances.

The time is now to stop that, and remember the oaths that you took.

Start now....vote No on these 4 WAC's.

Carl & Danielle Mahnken

External Email

Dear Washington State Board of Health,

I urge you to consider the real science and full spectrum of medical data when considering requiring a COVID vaccine for day care and school attendance. Randomized controlled trials are the gold standard in medical research because there is a control group. Pfizer conducted a randomized control trial of 44,000 patients divided into two groups. One group gets vaccine, one group gets placebo. More people died in the Pfizer vaccine group than the placebo group. The difference wasn't statistically significant but scientifically one cannot claim these vaccines reduce death.

The Pfizer and Moderna vaccines use non-FDA-approved mRNA gene therapy, according to their filings with the US Securities and Exchange Commission. Clinical trials for the drugs conclude in 2023. The only FDA approved version of the vaccine is Comirnaty, is not currently available, and is different than the emergency use authorized Pfizer-

BioNTech vaccine. 21 US Code 360BBB protects one's right to refuse any emergency use authorized medical products, therefore it is illegal to mandate an EUA vaccine.

The VAERS database is the database for vaccine injuries. A Harvard report in 2010 shows that fewer than 1% of vaccine adverse events are reported to VAERS. The CDC validates all entries and false allegations are prosecuted. Pre-COVID, VAERS shows about 158 deaths due to vaccines per year. In January 2021, over 17,000 deaths and over 70,000 hospitalizations from the Covid Vaccines were reported. This quantity of lethal reactions historically shut down other vaccine programs.

Further, the CDC says that the Covid hospitalization risk for children is about the same risk of the flu.

Tens of thousands of doctors around the world, including the creator of the mRNA technology Dr. Robert Malone, warn of the extreme dangers of this experimental Covid drug. It is not safe, responsible, or legal to require this experimental drug for children.

Finally, as this is an experimental drug that you will be forcing on our children, I will close with the 10 points to the Nuremberg code. I strongly urge you to read over these as YOU will be the ones held responsible for these crimes if you push these mandates through.

The ten points of the code were given in the section of the judges' verdict entitled "Permissible Medical Experiments":[6]

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.[13]

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.
6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.
8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.
9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.
10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Subject: Upcoming policy topic (involuntary detainment etc)

External Email

This is in regard to the following proposed policy-

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

I'm writing to remind you to be on the right side of history, and not even consider that anyone should be involuntarily (forcefully) detained and placed in a quarantine facility, and even force vaccinated.

This is an appalling proposition, and you should be ashamed. If you are not noticing the parallels to concentration camps in the past, then you aren't paying attention, and you have been highly deluded to think it is for "the greater good." Eroding our basic human rights to refuse any treatment is flat out WRONG. The people will not stand for it and you can bet it will get very ugly for you before it is made right again.

Now is your chance to stand up for what are basic human rights. If our human rights are taken away, it's not about health anymore. Some day will you be explaining to your grandchildren (1) How you demolished the basic human rights of your constituents, or (2) How you stood up for them despite the current lying, false mainstream narrative?

Think hard before you decide. Be on the right side of history. Listen to your conscience.

Choose wisely.

Sincerely,

Cassandra Hare

Michelle,

I oppose this proposition. I am not opposed to the choice or availability of vaccinations, in fact I have received many vaccinations. But I am whole heartily against the covid-19 injections and the fear and bullying tactics being employed to coerce the public, "joints for jabs", free bus rides for a month, cups of coffee, and now this idea to forcibly detain those who do not wish to receive the covid-19 vaccination in a concentration camp, excuse me, in a "quarantine facility". This disease is real but it is also overwhelmingly mild and does not result in hospitalization for the vast majority of those who contract it. Those with risk factors including advanced age, immune deficiency, obesity, respiratory, and heart conditions should certainly make informed choices for themselves as should the rest of the public. This is a matter of bodily autonomy this is not a matter for bureaucracy and the WA State Board of Health. It is and should remain out of the scope of practice for this board to apply current infectious disease WAC codes to include Covid-19 for all WA State residents. Recommendations are one thing forced intervention is another. Our state has a very high percentage of vaccinated residents 75% (<https://usafacts.org/visualizations/covid-vaccine-tracker-states/>)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fusafacts.org%2Fvisualizations%2Fvaccine-tracker-states%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C851d6f943ad740cacccc08d9d231802f%7C1>) and herd immunity in this case is reported by the Cleveland Clinic to be achieved between 70-85% (<https://health.clevelandclinic.org/how-much-of-the-population-will-need-to-be-vaccinated-until-the-pandemic-is-over/> <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealth.clevelandclinic.org%2Fhow-much-of-the-population-will-need-to-be-vaccinated-until-the-pandemic-is-over%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C851d6f943ad740cacccc08d9d231802f%7C1>). Further the 65 and older population, (unquestionably the most vulnerable population from the onset of this pandemic), has an even greater percentage of vaccinated individuals at nearly 100% nationwide (see the before mentioned usafacts.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fusafacts.org%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C851d6f943ad740cacccc08d9d231802f%7C1> link).

I am very strongly opposed to these proposed policies being discussed.

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Very Sincerely,

Stephanie Newcomb

I am completely against the proposed COVID policies. They are over reaching and immoral!

On top of that, there isn't enough research, study and knowledge to back up these actions!

I, along with many other Washington residents, stand against these proposed WAC's : WAC 246-100-070, WAC 246-100-045, WAC 246-100-040.

Not only are these an infringement against our constitutional rights, but also our moral & personal rights!

Please don't strip away our medical freedom!

External Email

Hello,

I am completely against any of the proposed COVID policies that are overreaching of the role of government, do not allow for personal responsibility and against the freedoms outlined in the Constitution and Bill of Rights of our country. I stand against the proposed changes of the following WACs: WAC 246-100-045, WAC 246-100-070, WAC 246-100-040, WAC 246-100, WAC 246-105.

Medical choice should be personal and confidential between yourself and your health care team. Experimental and Emergency Use Vaccinations should not be forced upon people not willing to assume the risks to the body and unknown future. To force these same on minors under 18 is disgusting and irresponsible. Medical Freedom and Choice does not only belong to the abortion supporting portion of society.

Thank you,
Kimberly Young

Subject: Proposed vaccine policies

External Email

Dear Washington State Board of Health,

If you are at all concerned about your constituents, the rule of law and personal freedom you will not even consider the following proposed policies:

Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100. Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I pray you do what is right and reject these evil tyrannical proposals (the use of law enforcement for the incarceration of people for not submitting to medical procedures imposed by someone else) and leave these decisions to the individual persons to make their own choices.

Law enforcement has absolutely zero place in the Peoples personal medical decisions, just as none of you on this board have any place in the Peoples personal medical decisions. These policies are absurd and very dangerous. I cannot believe that they are even being considered. You should take a look back at history, if you support any of these policies you are an enemy of the People and of our God given, Constitutionally protected freedoms and in the end you will have blood on your hands.

You should read the Nuremburg code and remember the Nuremburg Trials.

Annette

I was forwarded this information and I was wondering if it was factual and how I am able to determine whether or not it is true.

“On Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

- To voice your concerns, register for the live webinar here:
https://us02web.zoom.us/webinar/register/WN_DjusY10WTj-EyQyDTdyxsw
- You can also dial-in using your phone for listen-only mode: Call in: +1 (253) 215-8782 (not toll-free) Webinar ID: 894 7406 4216 Passcode: 957396 • Location: 101 Israel Rd. SE, Tumwater, WA 98501 • Comments must be in by this Friday, Jan. 7th at noon. Don't wait!

PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The following survey response is submitted:

1.

Please select one:

Other

2.

Please enter your comments or questions in the space provided below:

Please DO NOT apply or adopted the current WAC codes to include covid. To detain families or individuals based on their personal health choices about covid is highly disturbing and clearly a complete violation of individual health and constitutional rights! WA STATE can not become communistic Germany! Let individual right remain!!! Say no to WAC 246-100-070, 246-100-045, 246-100, 246-100-040

Subject: Comments for January 12 State Board of Health Public Meeting

External Email

Hello,

To those who will be making decision on just proposed new policies:

* Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

* Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I oppose and totally disagree with these immoral, radical, unethical, unconstitutional, anti-American proposals! Creating detentiofacilities for unvaccinated, healthy or unhealthy, who got the virus or not, who does not want to comply with the radical mandates, is a CRIME AGAINST HUMANITY not a law! Are those who proposed these policies forgot what Fascism was or they maybe did not study that topic in school? If no, I'm just sharing a warning – those policies and mandates will bring chaos and problems here in WA (see what's happening in Australia). Those who are forcing Fascist like policies\mandates probably will be prosecuted and imprisoned for a lifetime in the future for supporting terrorism!

Shame on those who support any kind of terrorism including communism and fascism!!!

Few more things to think about:

* COVID-19 = FLU – based on different sources, survival rate is ~99.98%

* Omicron is nothing – not dangerous at all, not even close – symptoms of a common cold

* There are absolutely no cases of COVID-19 among kids!

* Natural immunity is much more effective (~10-1000x times) than any kind of Flu\C-19 shots

* It is not a vaccine! It is a dangerous experimental drug, technically it's a poison, that kills people and makes the immune system vulnerable – As minimum, please check out the VAERS which has just 1% of registered cases and it's already having ~20K death and more than 1 million adverse reactions where people become disabled in many cases. Ask around and you'll see how dangerous it is!

* Seems like Fauci lied to Congress and will be prosecuted for that. Hopefully soon and imprisoned for a lifetime.

* Also, regular masks are 100% useless and do not stop viruses like Flu\Corona at all – have never been stopping the spread and each and every doctor knows that fact – or I'd say, those who studied biology in school knows that too. Forcing people to wear masks is a silly idea came from radical and ignorant people who want to show their political power.

* All VACCINE MANDATES are unconstitutional, radical and extremely immoral. I hope it's clear why

* Do you even know how many people died because of smoking last year? No? So please go and check all statistics before talking about COVID!

Thanks for understanding and hope nothing like that will be brought into the law!

Sincerely,

Denis Ankuda

Subject: Proposed Covid Policies

External Email

Good Morning, I am completely against the proposed COVID policies as they are over reaching and immoral.

There is not enough research, study and knowledge to back up these actions.

I, along with many other Washingtonians stand against proposed WACs: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040.

These infringe against our constitutional, moral and personal rights.

Natural immunity must be considered in the fight to end the pandemic.

Everyday we are seeing natural immunity being considered, questioned and in some cases allowed. Since when did a manmade vaccine overrule or bodies and our immune systems?

Vaccinated people are still contracting and spreading Covid, they are filling the hospitals and ICUs. Children already have a 99% chance of survival against the virus without the vaccine.

If this passes then many parents will be forced to withdraw their children from the public school system. Parents will not stand for this unconstitutional power grab. It is not ok, for the government to force us into a vaccination experiment.

Thank you for your time,

Cristie Bingham

I am extremely opposed to the Covid Policies that are over reaching and immoral. We stand against these proposed WAC's

WAC
246-100-070
246-100-045
246-100-040
246-100
246-105

These are experimental injections, with proven major adverse side effects and death for many. We do not know the effects long term. Also this is taking away our freedom of choice for our bodies. I will not stand for our adults or children to be forced to be injected with these harmful substances in order to keep their jobs, go to school, go out in public and/or travel. This is a human right. The thought of being forced into being vaccinated, quarantined, receive medical care, employment, or worse is immoral. It scares me that it is even on the ballot. This is a holocaust, I stand for freedom, God and my rights as a human. The drug companies are not responsible for an illness, consequences, side effects, now or in the future. They are making billions of dollars yet are not held accountable. I adamantly OPPOSE these proposals. I have personally seen ill effects from these vaccines.

Sincerely,
Debra L. Parker

Concerned Citizen of the Washington State.

Subject: Regarding proposed policies to current infectious disease codes

External Email

Washington State Board of Health members,

I am writing to you, pleading with you, to reject the proposed policies for all Washington state residents: WAC 246-100-070, WAC 246-100-045, and WAC 246-100-040.

These proposed policies are inhumane, a disgusting trampling of human rights and an abuse of power.

It is criminal to include the Covid-19 injections as part of school immunization requirements. We do not have any long term studies, these children are guinea pigs, and to mandate a product that has not been sufficiently studied is unethical.

Scientific integrity is disappearing from our society when studies that counter the mainstream narrative are pulled by a publisher, without consent of the journal editor or the authors of the study, for no apparent reason. A recently published study "A Report on Myocarditis Adverse Events in the U.S. Vaccine Adverse Events Reporting System (VAERS) in Association with COVID-19 Injectable Biological Products," in the journal, Current Problems in Cardiology, demonstrated a markedly higher risk for myocarditis than for any other vaccines. From the article:

"We used VAERS data to examine cardiac AEs, primarily myocarditis, reported following injection of the first or second dose of the COVID-19 injectable products. Myocarditis rates reported in VAERS were significantly higher in youths between the ages of 13 to 23 ($p < 0.0001$) with 80% occurring in males. Within 8 weeks of the public offering of COVID-19 products to the 12-15-year-old age group, we found 19 times the expected number of myocarditis cases in the vaccination volunteers over background myocarditis rates for this age group. In addition, a 5-fold increase in myocarditis rate was observed subsequent to dose 2 as opposed to dose 1 in 15-year-old males. A total of 67% of all cases occurred with BNT162b2. Of the total myocarditis AE reports, 6 individuals died (1.1%) and of these, 2 were under 20 years of age - 1 was 13. These findings suggest a markedly higher risk for myocarditis subsequent to COVID-19 injectable product use than for other known vaccines, and this is well above known background rates for myocarditis. COVID-19 injectable products are novel and have a genetic, pathogenic mechanism of action causing uncontrolled expression of SARS-CoV-2 spike protein within human cells. When you combine this fact with the temporal relationship of AE occurrence and reporting, biological plausibility of cause and effect, and the fact that these data are internally and externally consistent with emerging sources of clinical data, it supports a conclusion that the COVID-19 biological products are deterministic for the myocarditis cases observed after injection."

Please do not include this dangerous shot on school requirements, WAC 246-105.

Thank you for your time.

Honorable Members of the Washington State Board of Health,

I would like to express my absolute opposition to implementation of a COVID-19 Vaccine requirement for schools and Forced Quarantine Detention for law-abiding citizens in the state of Washington.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable.'

· Children's Health Defense (childrenshealthdefense.org
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2F.php%3Fu%3EFXgrbKn8%26h%3DAT05ScIFWlueBBXUcktwmVz5Qb_IC1eB5CiM661qIda0KHqUWndoXb22IBdMy34IaBRnR%26c%255b0%255d%3DAT34cWIT4ys5pAskcz59P-P2pbIb0Xu3kDbzTxbIhTMxQ2IZxN2hrfyddAZwp6KiD5W-EAA6R6iDsX7apRixel4O0zaYN5IW58LXep7UsT-HOCy-KxZg8cIv0xB24yj1mcgHDaumtxYDz2icyf7iyuR9ZvC8&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C
) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit. In addition, children who have already had the virus and recovered are now protected by natural immunity, which is by far the strongest protection against the virus.

3. No one knows the long-term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it." According to Dr. Eric Ruben, Editor in Chief NEJM, the studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2F.php%3Fu%3bSGqXSkEbK4apjB6ASW-AYYIzf0WkXY%26h%3DAT1nWpeQ1pf5iJu2UcxoQXjYgz9bOBLt0K9diW2JZUZnn8G85giiHlfisEW_GAb91kM9_1P0HvsN-2LWpbSNUH_94aXNWQJxMj9kXGzHQ%26__tn__%3DR%255d-R%26c%255b0%255d%3DAT34cWIT4ys5pAskcz59P-P2pbIb0Xu3kDbzTxbIhTMxQ2IZxN2hrfyddAZwp6KiD5W-EAA6R6iDsX7apRixel4O0zaYN5IW58LXep7UsT-HOCy-KxZg8cIv0xB24yj1mcgHDaumtxYDz2icyf7iyuR9ZvC8&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Look inside your soul and do the right thing.....DO NOT require these vaccinations for school age children.

In regard to allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntary comply with requests for medical examination, testing, treatment, counseling,

vaccination (WAC 246-100-040):

- This not only violates the Washington State Constitution, but the right to Religious Freedom protected by the 1st Amendment and the right to Privacy in 4th Amendment of the United States Constitution.

- Therefore 37 or 39 County Sheriff's have signed a letter, pledging not to enforce any involuntary removal of private law-abiding citizens to a quarantine facility.

Science does not support the notion that unvaccinated individuals spread the virus any more than vaccinated individuals, nor do our laws permit us to segregate and discriminate against people for refusing a medical intervention.

- Equal Protection Clause of the 14th Amendment to the U.S. Constitution and the Civil Rights Act of 1964.

Masks, in the words of an FDA physician, are little more than "facial decorations" and have no impact on the spread; yet they are mandated for adults and children. This is not American in any way and the truth will come out.

Those who are hiding their heads in the sand from the facts and science of this so-called pandemic (In the Washington State Flu Season of 2017-18 the death rate was 11%, while the Covid death rate in the State of WA thus far is 1.1% according to government sources) will be held accountable for being on the wrong side of history.

No mandate can be followed that violates human rights of conscience and autonomy.

- There is zero evidence indicating that unvaccinated individuals or free breathing individuals are a threat to the vaccinated and masked.

- And like children, when the 99% of adults who contract the virus, survive it and recover, they too have natural immunity which prevents us from contracting or transmitting the virus again.

There has been time enough to find out the truth about what is going on with Covid, and there is no excuse for these draconian measures to be inflicted on citizens anymore. Each of you have been entrusted with making important decisions about the Public Health of our state and each of your credentials qualify you to serve on this board. However, as Government employees, you are public servants who answer to the Sovereign Citizens of this state & this country, the taxpayers who fund your department & your salaries. You

work for us.

I pray for each of you to do the right thing by rejecting these Unconstitutional Mandates and respect the Individual Liberties of every Washington State resident that are guaranteed by the Bill of Rights in the United States Constitution and the Washington State Constitution.

Sincerely,

Brady LaMotte

PROPOSED POLICIES:

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.
- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

These proposals go against any serious science and or laws already on the books concerning both vaccination procedure and involuntary incarceration for noncompliance to an untested unauthorized and failed vaccine

https://c1195e81-3166-490a-9534-803ca643f4a6.usrfiles.com/ugd/c1195e_30cead87cea143079810cee2f7033c7a.pdf

WA state health dept is voting on detainment facilities. I am disgusted and disappointed with a state that would allow such segregated actions against free Americans. The use of a hierarchal structure has been know to collapse with the people being the ones to pay the ultimate price. Allowing history to repeat itself in the name of health is a farce. I am completely against any of the proposed COVID policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Subject: advisory board input

External Email

Dear Advisory Board for the Washington State Board of Health:

I am writing to voice my concerns about the Board of Health proposing a policy change to WAC 246.

WAC 246-100 states: Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

This is a frightening idea that feels like it comes straight out of Nazi Germany. It would be the most discriminatory action taken by our nation to date. The very idea that the state could detain people for refusal to comply with vaccine mandates flies in the face of common sense. The Covid "vaccine" does not prevent transmission or protect one from getting Covid. It is also not considering the large percentage of the population that have already acquired natural immunity through having had Covid. Would you think it was ok to use law enforcement to involuntarily detain vaccinated individuals as well? Are we turning into a police state?

We must not usurp the rights of individuals' freedom to take care of themselves in a manner that reflects their religious and moral beliefs.

Please stand for our freedoms. Please consider that action to support the use of law enforcement in this way will most certainly create a divided population that will not stand together. I fear the negative ramifications will be far greater than any intended good it will have.

With respect,

Barbara Miller

Subject: Proposed WAC changes

External Email

Hello,

I would like to voice my concern with the Proposed Policies and WAC codes. I have been a Seattle Firefighter for 22 years and have spent the last two years in our state's ground zero of COVID. These potential WAC changes are unfounded, not needed, and violate every form of individual Right. There is NO pandemic, and there never has been. As a front line worker who has the emails from the King County Medical Director telling us to count ANY death as a COVID death as long as the patient is in some way positive with the virus. This includes trauma patients, heart attacks, the flu, you name it. It is disgusting and is in violation of every medical oath. Standard PPE and mild protection of our elderly and vulnerable is more than adequate. When you as a government agency start to enact procedures that violate individual rights, the citizens will turn against you. These "vaccines" have done no good and I have watched first hand numerous accounts of adverse reactions. I have had firefighter friends die days after receiving a booster, numerous patients with severe stroke two weeks after injection, and severe respiratory distress also after being vaccinated. These drugs are doing more harm than good.

Telling an individual or family that they are required to take a vaccine that is not FDA approved and has not been out on the market for longer than 13 months is against the Constitution and our rights as Free Americans. Our ancestors fought for our rights to give us the freedom to make choices for ourselves. If our Washington State health Department and Governor push to vaccinate and take away individual freedoms that is putting you into the NAZI Germany and Hitler era. Governments shall not overreach and cause immoral policies against an individual person's freedoms.

To require children to be vaccinated with a vaccine that is not FDA approved and been through a full multi level trial just as every other medicine and vaccine has had to go through is immoral, illegal, and overreach. Putting a medicine in our bodies that we don't know enough about and that we have personally witnessed other friends and family members have severe reactions to as well as die within 2 days of having these vaccines is again against our personal liberties afforded us under both the State and US Constitution. Please vote against all WAC codes that require COVID vaccines for anyone.

I would love to talk with someone more about my reasons why I am against this if you want to hear more information.

I stand against these Proposed WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Sincerely,

Brady Hubler

To Whom It May Concern:

As a citizen and resident of Washington state, I am completely against and oppose any and all of the proposed covid policies. These policies are like the yellow star from the Holocaust and modern-day gas chambers. The government is conditioning people to think in such ways and its completely over-reaching, unethical, anti-constitutional, and immoral.

I stand AGAINST these proposed WAC's:

WAC 246-100-070
WAC 246-100-045
WAC 246-100-040
WAC 246-100
WAC 246-105

Respectfully,
Enna Radchenko

External Email

I am completely against any of the proposed Covid Policies that are over reaching, unethical, and completely immoral. This goes against medical freedom. You are trying to strip away our medical freedom over a vaccine that doesn't even prevent spread or contracting the virus. You can be fully vaccinated with all boosters and still catch covid along with spreading it to others. This is outrageous. IF THERE IS A RISK, THERE MUST BE A CHOICE! With any vaccine, there is a risk. Therefore, there must be a choice. I, along with many others, do not consent and do not agree with these proposed "laws"!!!

We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. "

I am completely against any of the proposed Covid Policies; they are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. "

You are proposing to remove freedom of choice and penalize anyone who does not think or believe as you do! Wow... talk about taking "plays" right out of Hitler's playbook, Mein Kamp! He suppressed his people and used fear to control their reactions. He politicized the military and established the SSS to enforce his demands. Shame on you for turning back the clock over 250 years to a time when men and women were subjected to the abuse of those with power and money! The very reason many left their homelands and came to America, in search of freedom from oppression! You are using fear tactics, and turning people against each other... no different than what Hitler did in Nazi Germany, and what Communism does in China, Russia, North Korea, etc.

With great wisdom and foresight, America was set apart from any other country by its Republican form of government to ensure that our freedoms were not determined by power-grabbing narcissists. People all over the world still come here for freedom's sake!

Are you saying tyranny is the answer? I thought the states' Governors took an oath to prevent tyranny, dictatorship, communism, and such from entering our states; to ensure our states remain to be a republican form of government, that places people's freedom and liberties above all else!?

We'll always have to coexist with viruses, and outbreaks of new viruses. Eventually, natural immunity takes over and they become less of a threat to most. Will you take this action every time? If you go through with this maneuver, there will be a mass exodus from WA state. AIDS has killed more people than Covid. Did you take this action then? I can't believe you are so willing to give up our rights, there must be BIG money in this for some of you! Shame on you...

REJECT THE PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC 246-100).
- Including the Covid-19 injections as part of school immunization requirements using (WAC 246-105.)

Very concerned citizen of the United States of America. May God be with us!

External Email

I'm am completely against any of the proposed Covid policies. They are authoritarian, immoral and illegal. The potential to detain citizens without due process is illegal, unconstitutional, and violates the core ideals of the Nuremberg code.

Mandating experimental medical treatment without informed consent is a crime against humanity.

Mandating experimental gene therapy drugs for children to "protect" them against a virus that poses little risk to them is wrong. Full stop.

I am opposed to the proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Please consider these comments in making your decision. Should you vote to approve these WAC's, you will find yourself firmly on the wrong side of history.

Thanks, Colin

Subject: Objection on the WA Covid Detainment Emergency

External Email

Hello,

My name is Anthony Antohe and I wanted to say I am completely against any of the proposed Covid Policies that are overreaching and immoral. My family, community, and I stand against these proposed WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Again, this would be an absolute overreach of our freedoms and a violation of our Constitutional rights to make our own individual medical decisions. Seeing as how other state governors, such as Governor Jared Polis (D), have declared Covid is no longer an emergency, we the people would recognize any enactment or enforcement of these proposals as nothing short of acts of tyranny.

Respectfully,

Anthony Antohe

To whom it concerns,
I am a bit concerned of the idea of involuntary containment of people who are not vaccinated. I believe that is too extreme of a measure. Being a new mother it concerns me about the future that is being paved for my son here in Washington State. I do not agree with WAc 246-100-070. If this becomes enacted we will be no better than the Nazis involuntarily containing Jewish citizens. Take a moment and reflect on that. I would never have thought that Americans, people of a free country would EVER think of such an idea. For the sake of my 4 month old son, please do not enact that code.

Liked " Below is the body of my email message in case it helps:

Stop this blatant usurpation of our freedom and basic rights! My family and I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105 as I understand they are forcing people to comply with medical testing, treatment, vaccinations, examination against their free will and free choice. Furthermore, I understand they are giving such tyrannical powers as forcing people into quarantine facilities. This sounds a lot like the National Socialists in Hitler's Germany. #040 alone gives the local health officer authorization to detain Washingtonians in a quarantine facility and force whatever "treatment" they feel is in the state's best interest. This is about whether our state will respect any rights they don't believe is convenient for them. This is a ploy to subject us to slavery. Please browse #040 yourself if you think I am exaggerating! No disease is as dangerous as losing human dignity and subjecting ourselves to an elitist "health officer" or anyone's subjective control. Stop this blatant usurpation of our freedom and basic rights!

Thank you! "

To whom it may concern,

I vehemently oppose the State Board of Health's proposal to extend certain infectious disease WACs to include Covid-19. The proposal is a gross and unjustified overreach of power, for a disease that continues to decline in both severity and mortality rates.

Let me state this clearly: WSBOH does not make law; only the Legislature makes law. WSBOH's policies must comply with the Constitution of WA State. This proposal violates the Constitution, and it violates the God-given Rights of the People. Such an overreach of power is unacceptable and will not be tolerated.

Witness:

WA State Constitution, Article I, Section 1: " All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights."

WA State Constitution, Article I, Section 3: " No person shall be deprived of life, liberty, or property, without due process of law."

WA State Constitution, Article I, Section 7: " No person shall be disturbed in his private affairs, or his home invaded, without authority of law."

WA State Constitution, Article I, Section 11: " Absolute freedom of conscience in all matters of religious sentiment, belief and worship, shall be guaranteed to every individual, and no one shall be molested or disturbed in person or property on account of religion..."

WA State Constitution, Article I, Section 30: " The enumeration in this Constitution of certain rights shall not be construed to deny others retained by the people."

I refuse my consent to these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

You have been given Notice.

This information copied below reached me this morning and this is what I have to say:

THIS IS NOT NAZI GERMANY- THIS IS AMERICA. WHAT ARE YOU PEOPLE DOING?
QUARANTINE CAMPS? REALLY? FORCING THE CITIZENS OF OF THIS STATE WHO MAKE
CHOICES THAT DIFFER FROM YOURS TO COMPLY OR ELSE BE SENT AWAY?/?
THIS IS UNCONSTITUTIONAL AND AGAINST OUR CIVIL RIGHTS. THIS OPPOSES
EVERYTHING THIS COUNTRY WAS FOUNDED ON AND FOR.
BE REMINDED THE CONSTITUTION GRANTS US FREEDOMS AND YOU ARE DENYING "WE
THE PEOPLE" OUR FREEDOMS.
THIS MUST NOT BE PUT INTO LAW.....
DO NOT PUT THIS INTO LAW.

As a registered voter in the State of Washington I'm here to say the people of
Washington will not stand for this.

Frederica Vitulli

>> This is insane and unconstitutional. And Washington state has been building
quarantine camps in the Centralia area and have been openly and publicly advertising for
employees.

>>

>> On Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss
applying current infectious disease WAC codes to include Covid-19 for all WA State
residents.

Subject: Infectious Disease WAC Codes

External Email

To Whom It May Concern,

I learned today that the Washington State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

I am completely against any of the proposed Covid Policies that are over-reaching, immoral, and not based on science.

My family and I stand against these proposed WAC's:
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I have already let all my friends and family know these are being considered and have encouraged them to speak up and to speak out!

Please do the right thing; protect our freedoms!!!!

Regards,
Chris Bodwin

External Email

Hi,

I am writing to provide a comment for the Jan 12th meeting discussing applying current infectious disease WAC codes to include Covid for all WA state residents.

I and my family stand fully against these proposals, which are over-reaching and deeply immoral. Individuals should have full medical autonomy and decision-making responsibility for their medical examinations, testing, treatment, counseling, and vaccination. These are areas of responsibility that should never fall under the government's jurisdiction. It is grievous and wrong to consider including Covid-19 injections in school immunization requirements as science has shown Covid to not be a serious threat against children. Requiring such would be a violation of parental rights.

We stand against these proposed WAC's:

WAC 246-100

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-105

Please let me know if you have any questions or need further information. Thanks a lot and God bless!

Best regards,

Charlie Wang

Subject: Please Don't Force Vaccination

External Email

Honorable members of WA TAG,

I was informed of a meeting that you are having this week that may impact all Washingtonians in a very serious and disastrous way. I am most appreciative of all the difficult work you are faced with, and as a citizen of Washington, I desire to give you my opinion that you may use it accordingly in representation.

Myself and many others are deeply disturbed by these current policy propositions -- one, requiring children in schools to undergo the dangerous covid-19 injection, and two, allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination.

These policies are directly in opposition to the freedoms that all Americans have rights to, under the Constitution and under God. The Constitution and God are the two things that our country and its honorable system of "By the people, for the people," were founded upon. The people of Washington are depending upon you to represent them and keep their families safe from state and big-Pharma overreach. Please consider this as you discuss and vote upon these proposals.

Thank you for all your hard work.

Sincerely,

Emma Edwards

Subject: Infections Disease Codes Proposals

External Email

To whom this may concern,

I realize you are meeting to discuss existing statutes and adding Covid to these existing statutes. I don't envy you this job in a time of unprecedented illness, strife, and division. It is my sincere hope the meeting is productive, honest, and appropriate. I want to voice my concerns in regards to this topic.

1. Adding a Covid vaccine for school children is egregious. Children are at the lowest risk for serious outcomes nor do they spread Covid in the way an adult does. Parents, and children, have no recourse if their children are seriously injured by this particular vaccine as the pharmaceutical companies are shielded from lawsuits. The VAERS data shows this particular shot is not safe OR effective. It is seriously harmful for school-aged boys.

2. Why is the vaccine the only official plan for limiting the impact of Covid? Why are comorbidities not being addressed? Why is there no early treatment plan in place? Reliance on a genetic therapy as the sole tool is a short-sighted and inadequate public health plan.

3. In absence of recognizing natural immunity to Covid (whether from prior infection or previous shots), we are at serious risk for a never-ending stream of risky and unproven pharmaceutical interventions based on ever-changing science/whims/panicked responses. Today it is 3 shots. What is it 4 months from now? 1 year? Where is the end-point? Parents and children will be funneled into a subscription plan for shots. By refusing to recognize immunity, citizens are coerced into an ongoing experiment in real-time.

4. Covid is long past the "pandemic" phase as this has been a reality for over two years now. It is clearly endemic. It is found in both human and animal populations and will be for the foreseeable future.

5. Current policies of masking children, shutting down schools, and severely limiting social, human interactions has caused unprecedented mental anguish across the entire population, and most specifically for children. To add the trauma of forced quarantines and isolations (per 246-100-070 and 246-100-045) is unbelievable. This would clearly strip the dignity, humanity, and autonomy of individuals and families to make their own health decisions. It would destroy an entire generation in the name of "public health."

Please understand that I am not saying Covid is not a challenge and has not wrought trouble. It certainly has. But these proposals are inadequate and compound harms.

With respect and sincerity,
Ashleigh Tergeson

From: Deanna Leslie

To: DOH WSBOH
Cc:
Subject: Please do not add covid-19 to WAC codes

External Email

Dear WA State Board of Health Members,

I am writing to respectfully request that covid-19 NOT be added to the list of communicable and other disease in the WAC codes.

I know that the purpose of WAC 246-100 is to protect the health and well-being of the public by controlling communicable and certain other diseases like HIV, rabies, psittacosis, sexually transmitted diseases, and tuberculosis. I know that covid-19 is a communicable disease, however the survival rate of those who get covid-19 is significant:

- * 0 – 19 years, 99.997%
- * 20 – 49 years, 99.98%
- * 50 – 69 years, 99.5%
- * 70+ years, 94.6%

And regardless of vaccination status of covid-19 you can get it or spread it. The COVID shots are "leaky vaccines". They do not make you immune against the virus but rather only lessen symptoms of infection. The COVID shots do not prevent infection or transmission, hence the variants created inside vaccinated individuals will spread, attacking both vaccinated and unvaccinated alike. Leaky vaccines can allow the virus to mutate within the mildly ill host, who then transmits the mutated virus to other. In this way the shots can fuel a never-ending chain of outbreaks.

So, allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) doesn't make sense.

Sincerely,

Deanna Leslie

I totally oppose children getting vaccinated with an
emergency untested vaccine. They are at high risk of adverse complications including
sickness, hospitalization or heart disease. I believe it is safer and more beneficial for
them to get Covid and have natural immunity as a result.

The DOH should not have the power to involuntarily inject
children or adult citizens of the United States. This is coercion and illegal. We the people
have a right to choose what is injected into our bodies. These proposed Covid Policies are
an over-reach and immoral.

Sincerely,
Deborah Bowen

Subject: January 12th Meeting - FDA COVID 19 Vaccine - Nuremberg Code (1947)

External Email

Dear State Board of Health,

1. The FDA NEVER approved the COVID 19 vaccine being used today.
2. The Nuremberg Code (1947) clearly states that humanity cannot be experimented on.
3. If you approve these POLICIES (WAC 246-100-070) (WAC 246-100-045) (WAC-246-100-040) and you are challenged in court, THESE FACTS WILL COME OUT!!

SEN. RON JOHNSON: We do not have an FDA-approved vaccine being administered in the U.S. The FDA played a bait and switch. They approved the Comirnaty version of Pfizer drugs. It's not available in the U.S. They even admit it. I sent them a letter three days later going "What are you doing?" What they did is they extended the emergency use authorization for the Pfizer drug vaccine that's available in the U.S., here that's more than 30 days later, they haven't asked that very simple question. If you're saying that the Pfizer drug is the same as the Comirnaty, why didn't you provide FDA approval on that? So, there's not an FDA-approved drug and, of course, they announced it so they could push through these mandates so that people actually think, "Oh, OK now these things are FDA approved." They are not and again, maybe they should be, but the FDA isn't telling me why.

The judgment by the war crimes tribunal at Nuremberg laid down 10 standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide.

This judgment established a new standard of ethical medical behavior for the post World War II human rights era. Amongst other requirements, this document enunciates the requirement of voluntary informed consent of the human subject. The principle of voluntary informed consent protects the right of the individual to control his own body.

This code also recognizes that the risk must be weighed against the expected benefit, and that unnecessary pain and suffering must be avoided.

This code recognizes that doctors should avoid actions that injure human patients.

The principles established by this code for medical practice now have been extended into general codes of medical ethics.

The Nuremberg Code (1947)

THE NUREMBERG CODE

1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be

so situated as to be able to exercise free power of choice, without the intervention of any element

of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and

should have sufficient knowledge and comprehension of the elements of the subject matter

involved, as to enable him to make an understanding and enlightened decision. This latter

element requires that, before the acceptance of an affirmative decision by the experimental

subject, there should be made known to him the nature, duration, and purpose of the experiment;

the method and means by which it is to be conducted; all inconveniences and hazards reasonably

to be expected; and the effects upon his health or person, which may possibly come from his

participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society,

unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation

and a knowledge of the natural history of the disease or other problem under study, that the

anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental

suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian

importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest

degree of skill and care should be required through all stages of the experiment of those who

conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the

experiment to an end, if he has reached the physical or mental state, where continuation of the

experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate

the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith,

superior skill and careful judgement required of him, that a continuation of the experiment is

likely to result in injury, disability, or death to the experimental subject.

Subject: Proposed WACs

External Email

To whom it may concern,

I am writing due to my concern regarding the following proposed WACs:

- WAC 246-100-070
- WAC 246-100-045
- WAC 246-100-040
- WAC 246-100
- WAC 246-105

I believe the Washington government is exercising an overreach of power that is immoral and unconstitutional. Politicians cry that there is division in this country yet propose mandates, requirements, and unlawful isolations that are perpetuating that of which they denounce.

If you are not careful you will be the ones to drive society to mirror what was seen in Germany in the 30s and 40s. It starts with simple propositions like this until it blossoms to the point of no return.

I implore you with all of my heart to not take this devilish step to combat a virus with a greater than 99% chance of survival. We are coming up on year 3 of wearing face masks, isolation, and vaccines and yet we are experiencing are greatest surge of Covid-19 thus far. We must learn to live with the fact that this virus will not depart from us and will continue to infect regardless of any tyrannical piece of legislation the government tries to put into place.

Working as a servant of the public is a difficult job and I commend you for looking out for the people's best interest, but I can assure you, this will do more harm than good.

Regards,
Austin B.

Subject: WAC 246 100, WAC 246 100 040, WAC 246 100 045, WAC 246 100 070

In regards to:

WAC 246 100

WAC 246 100 040

WAC 246 100 045

WAC 246 100 070

As a tax paying American citizen, I STRONGLY DISAGREE AND VOTE AGAINST THE FOLLOWING LEGISLATIVE MOTIONS:

WAC 246 100

WAC 246 100 040

WAC 246 100 045

WAC 246 100 070

These motions are unconstitutional and threaten the medical privacy of the American people. The human body has natural biological defenses against disease and viruses, not to mention the extensive help from the development of modern medicine. Unfortunately, there comes a time when every individual's immune system is too old or too weak to continue the fight. This is inevitable for every being on the planet. To place further rules and regulations on people, reducing freedoms will only begin a civil war. It may seem fictitious to you, living in the wealthier class, but down here in the real civilian world, the people who have to work their lives away paying your salary, then get bombarded with treats of freedom reduction, WE ARE TALKING CIVIL WAR!! Heed my warning!!

RATHER instead of reducing freedoms and placing further rules and regulations, we can practice motions that ACTUALLY take steps towards a healthier society. Such as the reduction of chemicals in processed foods sold in stores, teaching our 12 year old children that instead of relying on a vaccine created in a lab, they can grow and eat vegetables that naturally build their immunities. Putting an end to deforestation to help slow down carbon emissions for cleaner air to breathe, instead of building developments to make people like you richer and richer but only further destroying our habitat. Rather than making us slap on a mask to prevent disease between each other, but at the same time give little concern to our environment, littering it with said masks. The environment that physically keeps each and every one of us, as well as all the animals of the world alive.

AGAIN, these motions are unconstitutional and will only further destroy our country and our planet. Eventually natural processes take over. Do not make a war out of this. If you're not going to teach and promote health for everyday practice and long term effects, do not concern yourselves with our health at all.

Sincerely, We The People.

Health Dept.

I am completely against any of the proposed Covid Policies that are over reaching and are so very immoral. We stand against these proposed.

WAC's: WAC246*-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

We don't do this for the flu or for shingles so why this? I am not saying it's not real but this is America we have a choice. We are supposed to be the land of the free!!!! Let those make their decision if they want to take the vaccine or not but the whole part of detaining people that's just CRAZY!! LOCO!!!

We have other things like gangs, drugs, shootings, pedophiles that you can detain people but not to quarantine for COVID!!!!

Subject: Comments for January 12, 2022 Webinar hearing

External Email

Attention WA State Board of Health members:

Concerning the proposed application of current infectious disease WAC codes to include all WA State residents, I am submitting my comments for your consideration.

As a long time resident of Washington State, I do not want Covid-19 added to the WAC codes 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105 or any other WA State infectious disease codes.

Covid-19 has been politicized and has become a tool for Governmental overreach. Citizens have the ability to make their own health decisions and do NOT need law enforcement to detain, isolate or quarantine them.

The gene-therapy injection currently called a vaccine is still under EUA, Emergency Use Authorization and should NOT be mandated for children for school admission or any other reason. Children have above a 99% survival rate and have shown to be minimally affected by Covid-19.

Having only learned of this recently, my comments are limited and I cannot organize and present the information from medical experts or studies. However, there are many available.

Please consider these comments and recognize that for each one of us expressing such concerns, there are many, many more who hold the same opinions but have not been informed of the hearing.

Thank you,
Diane Stiles

Subject: Jan 12th (9:30am - 3:30pm) MEETING re. WAC Codes

External Email

I have just been informed that on Jan. 12th (from 9:30 AM to 3:30 PM), the WA State Board of Health will be discussing applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

As a European Jew (I am also an American Citizen, registered to vote in WA State as well as being a resident here, in WA), I am horrified by the amendments to the laws you are seeking to implement. The idea that someone can come to my door and decide what I PUT INTO MY BODY, or TAKE ME AWAY, or PUNISH ME for NOT COMPLYING, TRAUMATIZES ME.

Is that what you are looking to do? TRAUMATIZE people??

I am OPPOSED to implementing the WAC 246-100-070 to FORCE an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility.

I am OPPOSED to implementing WAC 246-100-045 following refusal to comply with requests for medical examination, testing, treatment, counseling, vaccination WA 246-100-040.

In England, in 1940, at the age of 20, my mother joined the Ambulance Corps. Subsequently, as bombs fell on London and people went running for the shelters, my mother was climbing into an ambulance to go out looking for those wounded. (After the war, she came to America, where she met my father. She lived here the rest of her life). If she were here NOW, she would be dumb struck by the measures being proposed today, BY THIS GOVERNMENT, as well as appalled and shaken to her core.

On the other side of the globe, in San Francisco, my father's nanny, Toshi, who was

Japanese, was taken away to a camp, 'GUILTY' only BY ACCIDENT OF BIRTH.

As a society, we have come to admit that draconian measures such as these, are shameful, are wrong, and constitute Government Sanctioned Discrimination.

Under Title 21 Code of Federal Regulations section 50.23 and 24, it is illegal to make anybody participate in an experimental program using coercion. That is how the United States law embraces the Nuremberg Code.

If, as a Nation, we are to make reparations for the past, it is incumbent upon us to NOT SLEEP IN THE PRESENT, making these mistakes all over again, albeit with different sectors of the population, under the pretense of caring for people's safety. A Government trying to FORCE people to take something into their bodies that they have NOT agreed to and DO NOT WANT, is Government Sanctioned rape.

As a U.S. Citizen, I go on the record as OPPOSING Agenda # 8: the WA State Board of Health (or any other entity) forming a Technical Advisory Group (TAG) to review information about Covid-19 shots with the intention or consideration of MANDATING them for children of ANY age.

I wholeheartedly SUPPORT Agenda #11 (Informed Choice Washington's petition): I am asking the WA State Board of Health to create a new rule that PROHIBITS the adding of ANY 'Emergency Use Authorized' (EUA) product/substance/drug or any licensed product that lacks completed phase 3 trial studies to the School's 'Required' List.

I OPPOSE implementing COVID-19 injections as part of school immunization requirements using WA 246-105.

A year into the vaccinations and we are seeing that they do not work, that those vaccinated can catch AND transmit covid-19, that there have been massive numbers of people irreparably harmed by them, with the drug companies NOT interested, NOT HELD ACCOUNTABLE, indemnified. This is HORRIFIC. History will be the final judge, but my hope is that people who know their history will intervene to see that we do not repeat heinous mistakes.

Need I say more?

Sincerely,

Andrea Jeffress

(US Citizen)

I want to express how extremely opposed I am to the following proposed laws..

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This is most definitely overreach of power by the government and takes away a human right to choose what's best for their body and their children. I'm not against vaccines but I am for the right to choose!

Please vote NO on these!

Thank you

I highly object to changes proposed by this body to WAC 246.100-070, WAC 246100-045 and WAC 246.105 in which include the following:

Using law enforcement to force people from their homes for the purpose of quarantining if they refuse testing, medical examination or vaccine. This is unconstitutional and tyrannical.

And making the what is still an experimental vaccine mandatory for all school age children. Long term side effects are not known for children and they have the least symptoms. To take this extreme stance could be devastating to our children's future health.

Donna Duke

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□Daniel 2:22□□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for and reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□Proverbs 31:8□□

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Emily Seaboch

WA State Board of Health:

I am concerned about the proposed inclusion of Covid-19 in the WA State Infectious Disease control protocols. I am speaking as a fully immunized and boosted resident who has chosen to immunize her children against Covid. I believe Covid is real, and I believe immunizations and masks have been invaluable in preventing illnesses and death. However, I also believe that including Covid in the infectious disease protocol now is problematic for four reasons

1. No medical health expert in the world believes Covid will be eradicated. It will be an endemic disease that will evolve to be more similar to the flu. Infectious disease protocols are not and were not designed for this situation.
2. While I may have understood a stance like this in the beginning stages of the pandemic (and realize it was impossible then did to lack of a vaccine), the omicron variant has led the CDC, WHO, and similar organizations to say Covid is becoming less deadly. I understand that it is becoming more contagious. However, we cannot argue that simply because a disease is contagious, we must then involve government oversight and policy.
3. In order for this to actually work as proposed, you are going to need to require every get boosted every six months. This is an unsustainable situation, and ultimately prolonging the crisis. Less than 10 percent of African residents have received the first dose while Israel is currently on its fourth dose. We are creating a "brushing our teeth while eating Oreos" situation, and expecting we're going to get clean teeth. It's going to keep evolving, and again, we aren't going to eradicate it.
4. We will absolutely have another global illness or pandemic. I, my family, the whole world is counting on people quarantining until we know what we need to. I am deeply concerned, looking at the state of WA and US residents, that if you overstep now, we will have a major and deadly backlash next time around.

The general consensus of medical professionals is that vaccinated people are fairly safe when it comes to Covid, even if and when they get it. There may be additional consequences for individuals who chose not to vaccinate if and when they get Covid. But they have been given the option to vaccinate and they have been told the possible consequences of contracting Covid. Those decisions and consequences are theirs to make and have. I believe there would be dire, long-reaching consequences to how public health and safety is viewed if involuntary quarantine occurs. I believe you will be creating many more problems than you solve if you keep these kids out of school systems.

Thank you,
Amy N. Miller, PhD

Subject: Public Comments Re: Upcoming 1/12/2022 BOH Hearing

External Email

Hello.

I am writing to voice my opinions (for the purpose of your upcoming hearing(s) 1/12/2022) regarding WAC 246-100-070, WC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105. I urge you NOT to move forward with approving these proposed Administrative Codes as I feel they are not constitutionally founded, and I have grave concerns regarding elected officials, who are not medically qualified professionals, wanting to decide what is medically in the best interest of Washington state citizens. I believe these are myopically written proposals... Putting into effect laws in the guise of 'public health or safety' interests without sound factual proof that such laws would actually address, prevent, or eliminate the risk of any alleged public safety risks are unfounded attempts to appear to help resolve those risks when there is no sound evidence that adopting these proposed Codes would provide effective solutions to an ever changing, ever mutating target. Further, our country has been far more successful and prosperous than any in recent history because our government was founded upon a democratic system that had an effective set of sound checks and balances in place in order to keep our nation from becoming a dictatorship (or worse) due to actions of our elected (and appointed) officials who might choose to exceed the bounds of their position and/or disrupt the intentionally established balances of authority between our various branches of government.

In my opinion, these proposed Administrative Codes are not well founded, sound solutions to the present health issues at hand. While I agree we must continue to explore new ways to address the health crisis into which we have been thrust, I do not support (nor do I condone) these proposed methods for resolving them. I do not believe these Codes would achieve their stated purposes. And, I believe these Codes, as written, open the door for stripping (and further stripping of) the legal rights of Washington citizens - beyond even those which might directly be related to the current COVID-19 virus situation.

Respectfully,

Elizabeth Davis

It is also is unethical for the lack of presentation on this meeting. Most people who have heard about it was by word of mouth in the last panicked 24hrs before close of comments. Anytime I attempted to share the meeting information on social media platforms, to get a quick word out to my peers, it was taken down within an hour. How are your representatives to get an unbiased representation of the population if it isn't even available to everyone?

We the people are NOT happy with the FAR over step by OUR government.

Kindest regards,

Brett

I am completely against any of the proposed Covid policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC, 246-100-040, WAC 246-100, WAC 246-105.

These are unconstitutional and completely against all that the United States stands for.

We the tax paying citizens are capable of making our own health decisions for ourselves and our children, if our government was truly concerned about health and wellbeing smoking would be outlawed, marijuana would be illegal still, and we would have harsher drug laws. Those concerned with their own health risks and predispositions to negative COVID side effects and take proper precautions to protect themselves. They have the knowledge on how to reduce exposure, tons of opportunities to work and school from homes, use store pickups etc. COVID 19 has stolen enough of our lives, years of it intact. It cannot steal our freedoms as Americans. And shame on anyone in support of this modern day internment camp. We all look back in shame on wrongfully segregating and imprisoning the Japanese after the attack on Pearl Harbor. Let us not make the same mistakes twice. Let us learn from our country's own history. Let us not lose our freedom.

I am completely AGAINST any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-45, WAC 246-100-040, WAC 246-100, WAC 246-105.

We the people will NOT allow our medical freedom to be stripped away from us.

If children are required to get the covid vaccine for school you will be pushing so many parents to home school or move states. Parents are already scared sending their kids to school with all of the school shootings so this will just be one more reason for them to decide to home school.

The covid-19 vaccination should not be forced upon children.

I am asking you to carefully consider the repercussions. Getting a vaccine should be a choice between the citizens and our healthcare providers not the county or the state to be involved in. The state of Washington and Pierce County are trying to make medical decisions for us. What's next are you going to not let us have the choice to get an abortion if I decide that's what best for us?

You guys are over stepping and violating our constitutional rights. Many people have already moved out of the state due to your requirements these proposed changes will only make more people flee Washington.

Our state has one of the highest vaccination rates nation wide, some of the strictest protocols and rules for masks and vaccinations and yet we still have one of the highest rates of Covid so what makes you believe implementing more policies will help? Why not follow suit of other states who are letting people live their lives and have lower Covid rates.

WE WILL NOT GIVE UP WE WILL NOT STAND QUIET WHILE YOU TRY TO STRIP US OF OUR MEDICAL FREEDOM!

You are violating our constitutional rights

Sincerely concerned Washington state citizen,

Aleksander

Subject: No Vaccination Mandates in Washington State

External Email

I am absolutely against mandates for health, especially for the new technology in the Covid-19 vaccinations.

Every person should make decisions concerning their health for themselves.

The government needs to stay out of it.

I am opposed to the following:

WAC 246-100-070 <tel:246-100-070>

WAC 246-100-045 <tel:246-100-045>

WAC 246-100-040 <tel:246-100-040>

We already know that there are many dangers in the world. The government is not able to keep everyone safe and it should not overstep the rights of individuals. Do your best to keep roads and other transportation systems safe, food safe and our public facilities reasonably safe from avoidable hazards. Stay out of individual health care mandates. Informed decisions are individual. Brainwashing is not recommended. Give us accurate information, not political rhetoric.

External Email

Dear Servants of the people,

I am gravely concerned about the proposed legislation to render our state a police state. If you think this a strange statement, consult history!

I am against WAC246-100-070, WAC246-100-045, WAC246-100-040, WAC246-100-070, WAC246-100-105, and WAC246-100.

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family onto a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

Please consider that your decision is fully your responsibility...credit or discredit. Be true to yourself and let no other influence your action. The people put trust in their public servant to protect and carry out their wishes in alignment with the constitution.

Respectfully,

Sandra S. Skinner-Young

External Email

To WSBOH Members,

I am emailing you about my concerns regarding Washington States approach to COVID. You are having a Board Meeting Wednesday January 12, 2022 to implement more policies that go against our constitutional rights as a citizen of the United States. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families), is just plain wrong. Also the policy to include the Covid-19 injections as part of school immunizations requirements using (WAC 246-105). This drug is still experimental. You do not know the long range side effects or damage that it can cause children. Parents should have the right of choice as to whether their child gets a Covid-19 injection. The American Physicians and Surgeons stated approximately 99.9% of individuals who contract COVID will have mild to moderate symptoms and recover, just like the flu. The majority of the deaths are coming from the 0.62% of the population who are in nursing homes. I myself recovered from Covid-19 and thought I just had a sinus infection. Early home based treatment and healthy diet and exercise is key. Forced immunizations and involuntary detaining of citizens for Covid-19 just sparks more distrust in the Washington State Health Department, CDC and State/Federal Government in general. Washington State has been my home for almost my whole life. I pay taxes and vote consistently. In conclusion I don't see the mandates for Covid-19 having helped the State. In fact they have hurt Washington State citizens (young and old) physically, financially and emotionally. The proposed policies you are meeting about on January 12, I totally oppose.

Thank you for letting me express my concerns,
Barbara Connelly

To whom it may concern,

It has come to my attention that The Board of Health is voting next week on 2 items. One is the child vax mandate. The other could lead to forcing those not vax'd into quarantine camps. I've seen several posts on the freedom sites regarding this and it's very serious. I'm urging whoever answers these emails that this is completely against my civil and constitutional rights as a citizen, in good standing with the State of Washington and our Federal government.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Do what I've asked of you.

Sincerely,
David A Hughes III

PROPOSED POLICIES:

Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

ALL DETAILS HERE

Title 246 WAC: Department of Health

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsendfox.com%2Ftrk%2Fclick%2F>

I am writing to oppose these changes. COVID is not something to fear that requires quarantine facilities. Forcing people to quarantine because they refuse a shot that doesn't work, wearing a mask that doesn't work, or getting tested by a test that doesn't even test for the supposed new varieties is completely unconstitutional. The vaccines are not FDA approved beyond emergency use. The vaccines are not even made to cover more than the original Wuhan's strain yet people are being led believe they will. Geert Vandenbosche has spoken on how these vaccines should not be given at all right now in mid pandemic. Below is a video on his message to the world.

<https://m.youtube.com/watch?v=5xYr1pWDfrs>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fm.youtube.com%2Fwatch%3Fv%2F>

As for adding COVID Vax to the school Vax schedule, HELL NO! Do any of you have your own kids!?! Do you want to have grandkids some day? There are no long term studies completed on these vaccines and we have no idea what will happen to our childrens fertility capabilities. Kids are having heart attacks, strokes, myocarditis, and all kinds of things that are NOT NORMAL for kids to have. The media may try to say other wise, but if the board has any common sense they will know that historically that is not true. I for one, am not very motivated to play Russian roulette with my kids over a "virus" that is not the huge threat to society we were told. The vaccine is proving to be a greater threat to society than any variation of said virus. If you want to see the adverse events being reported, check out the VAERS site. Harvard did a study and estimated that only 1-2% of adverse events were actually being reported. That's pretty scary considering what numbers are being shown. Please, do more research before you thrust Washington into equal or worse standing than NAZI Germany. Your own families future may depend on your decisions today.

Subject: Do Not Support Vaccine Mandate for Children

External Email

Dear Washington Board of Health,

The CDC and FDA and many others have openly admitted our children are at very, low risk of Covid. and severe illness. The International Alliance of Physicians and Medical Scientists has declared that the children should be excluded from the vaccine mandates.(Actually all forced Vaccine mandates should be repealed).

"Consensus is clear among MDs and medical PhDs: Following 20 months of exhaustive research, millions of patients treated, hundreds of clinical trials performed and scientific data shared worldwide, they conclude that healthy children and the Covid- recovered should be excluded from restrictions and Vaccine Mandates" (Source: globalcovids Summit.org)

The vaccination side effects do not out way the Benefits' CDC has admitted to the risks of myocarditis, blood clots, death, and that children are not a high risk, if any, of severe disease. We need our children for the future for true herd immunity." Healthy unvaccinated children are critical to achieving herd immunity. Natural immunity is proven to tolerate infection, benefiting community protection"

There is insufficient data supporting that vaccination assist in herd immunity.

This current Vaccine is not the same as the one the study was on. It has changed formulas a few times. www.fda.gov

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.fda.gov%2F&data=04%7C01>>. This vaccine, for our children is still an unknown and has not reached stage 3 of the normal testing for approval. For the Safety of our children please DO NOT APPROVE a Vaccine mandate that has no history of efficacy or safety for children. By the way, the vaccine or drug being used is not stopping the current Covid 19 infections. I know 25 people currently sick at home most bedridden who are Vaccinated!

I am also very concerned about WAC-246-100, WAC 246-100-070, WAC 246-100-045, WAC 246-040

(If I am reading those correctly)

I am very concerned that these will be used for any reason for anything! Please do not support these. I am against any and all involuntary enforcements on private citizens. We have to be free to choose and stay away from Government over reach, if these WACs would allow that please do not enact.

Thank you for your time in reading my email and truly taking to heart what a detriment this could be to our children.

Sincerely,

Candy Hulse

Comments for the Jan 12th meeting.
Please oppose using law enforcement to detain people in quarantine facilities. We are free people. This would be a gross overreach of power. Our medical decisions are private.

No school child should be forced to get a Covid vaccine. Please rethink this.
Those who have the vaccine shots & boosters are still getting COVID. The vaccines are not protecting citizens from getting sick.

Please do not require children to be vaccinated for Covid. I have 6 children ages 18, 17, 15, 14, 12, and 10. Some of them had Covid. They are all fine. Vaccines are created to help mimic natural antibodies. Why do children need a vaccine to do what nature has already done for them. This choice should be left to the parents. This is an over reach on parental rights and bodily autonomy. These mandates must not continue. We are a free people and the constitution is the supreme law of the land which declares our personal rights.

Thank you for your time

Absolutely NOT!

I am totally and completely AGAINST the proposed Covid Policies.

I am AGAINST all of these proposed WAC's:

WAC 246-100-070, WAC 246-100-045, WAC 246-100-040,

WAC 246-100, WAC 246-105.

Anything that is this controlling and immoral should NOT be implemented!!!

Signed PKC

□

Members of the Washington State Board of Health,

I oppose the following proposed policies:

Allowing local health officers to use law enforcement (WAC 246-100—070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040. These specifics come from WA 246-100. Which includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I am concerned for these policies as they go against our God given rights and freedom.

Respectfully,

Mandy Meier

To all who are contemplating these Unconstitutional and draconian measures,

I am completely against any of the proposed Covid policies that are overreaching and immoral. I, and those like me, stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

The Nuremberg Code, which has been recognized globally for decades is now being ignored at the peril of all humanity, and for what? The alleviation of the irrational fear of a virus, or perhaps the lust for power and riches? Just remember that 'I was just following orders' has never saved anyone's life when charged with crimes against humanity. Choose wisely.

Fwd: January 12 Meeting- Current infectious disease WAC codes to include Covid-19 for all WA State residents.

Send an email to these people by tomorrow!! This is the one I sent. They are trying to use the WAC's to set up camps in WA to force people into and to require the vaccine for ALL WA schools.

Subject: January 12 Meeting- Current infectious disease WAC codes to include Covid-19 for all WA State residents.

Hello,

I'm concerned about the WAC's being reviewed to possibly be revised and add to them. You don't have the right to decide if a child gets vaccinated or to decide if you can use law-enforcement to detain me and or my family if you choose to do so. The following proposed policies/WAC's are unconstitutional! .

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC

This blatant abuse of power needs to stop. I am NOT in support and oppose these possible changes. Please don't do this.

Thank you,

Subject: My Public Comments

External Email

My comments regarding WAC 246-100-070 is pure ANGER! How dare you ask law enforcement to enforce people being ripped from their homes and sent to some isolation camp because they have Covid. For most healthy people, the virus is nothing. How about we put rules and mandates for healthy eating and exercising. Shut down all the fast food restaurants and encourage people to naturally build their immune systems. Stop forcing them to inject unknown substances into their bodies, or face imprisonment.

This world has terribly overreacted to this VIRUS! A virus that clearly isn't responding to vaccinations and the more people vaccinate, the faster it is mutating.

Regarding requiring Covid vaccinations for kids to attend school is the most disgusting thing I have ever heard. We do not know short or long term effects of this vaccine, on adults or children. And to force parents to have to vaccinate their children with something that we don't know much about, that alone should be illegal. It is not your place to force that.

I would rather pull my kids out of public school and homeschool them if a vaccine is mandated to attend school.

Isn't it time to just go back to living normally?

To whom it may concern;

As a long-time resident of Washington State, it's extremely disheartening to witness the level of blatant disregard this leadership is displaying against the Constitutional freedoms and liberties granted to EVERY state resident under the US Constitution, including medical freedoms.

I want it publicly stated that I am completely against ANY of the proposed COVID policies that are overreaching and immoral and I fully stand against ALL of the following proposed WACs:

- * WAC 246-100-070
- * WAC 246-100-045
- * WAC 246-100-040
- * WAC 246-100
- * WAC 246-105

As a reminder, The Nuremberg Code was put into effect as a result of German physicians & the medical society in the mid 1920s being accused of very unethical medical practices. The 10 points of the Nuremberg Code were based on beneficence and non-maleficence, but also stressed legal doctrine of informed consent. Those 10 points are as follows:

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.[13]

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fen.wikipedia.org%2Fwiki%2FNurembergCode&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C16710f53dc994a919de708d9d216a958%7C11d0e217>

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted where there is an a priori reason to believe

that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Good morning,

As a long time Washington State resident and RN, I am completely against any of the proposed Covid Policies. The policies are a complete overreach of the government and completely immoral. Utilizing law enforcement to force quarantine and isolation and mandating children take an experimental vaccine is incomprehensible. This is not in the name of science, but outright control. Our right to medical freedom must be upheld at all costs. It is a slippery slope if we lose the right to determine what happens to and goes into our bodies. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100 and WAC 246-105.

To whom it may concern,

I am a resident of Douglas County and object to all above proposed policies. This is a gross mis reach of government (what's supposed to be an American government) who is dictating the forcible actions towards American citizens who have every right to decline the vaccination. This is the most absurd proposal and a blatant violation of citizens rights and liberties. I'm ashamed to be a Washington State resident with all these dictatory, power & control hungry politicians attempting to govern this state. This is a clear representation of a government doing the opposite of working for the people....which is constitutional if you all have forgotten this fact.

Concerned citizen about the train wreck this state is currently in,

Cari R.

To whom it may concern,

I, as a Washington State resident, am completely against any/all of the proposed Covid Policies that are over reaching and immoral.

"Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.□• Including the Covid-19 injections as part of school immunization requirements using WAC 246-105."

By trying to implement these policies, our state would start to become like Australia. Our citizens will not stand for these rules. Our police will not enforce these rules because they know it is wrong and goes against our freedoms. This will not be tolerated by most people that live in this state and I ask you to highly reconsider trying to implement them. These rules go against our rights, liberties and the pursuit of happiness. Do not vote yes on these rules/policies.

A concerned citizen,
Dewey Thomas

Subject: Vote NO for requiring vaccinations

External Email

To the Washington State Board of Health,

As a concerned Washington State citizen that votes and pays taxes, I'd like to express my opinion that you please vote AGAINST the following proposed policies:

* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

* Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

There are a plethora of reasons that these decisions contradict reason and common sense. It is clear that our immune systems and the Covid 19 have unknown components that deserve individual choices. Medical decisions should be between an individual and their personal medical providers. This includes a parent's right to make medical decisions for their children.

Statistics show that, though COVID 19 has been a virulent adversary, there is an extremely low risk of mortality, and this risk is even lower when it comes to our children. In addition, as all viruses mutate, they will become less severe.

I appreciate your consideration and a maximum effort to represent ALL Washington Citizens' best interests.

Thank you,
Anni Millard

To Whom It May Concern:

As a lifelong Washington state resident and U.S. citizen, I am writing to let you know that I am completely against any of the proposed COVID policies. They are overreaching, immoral and infringe upon our liberties as Americans. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100 & WAC 246-105.

Please let us residents' voices be heard and considered.

Thank you,
Melinda Ihnen

I want to express how extremely opposed I am to the following proposed laws..

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This is most definitely overreach of power by the government and takes away a human right to choose what's best for their body and their children. I'm not against vaccines but I am for the right to choose!
Please vote NO on these!

Thank you

I vehemently oppose the proposed WAC's

246-100-070

246-100-045

246-100-040

246-100

246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105

Under the Hitler Regime in Germany, this type of Nazism, as you are all proposing, was put in place. I know the history of Germany under Hitler and the Nazi regime too well and recognize it too well as my mother would have been 98 today, and she warned me in 2005. She stated, If America continues to follow the pattern they are following, they will experience what Germany experienced. I am writing to you and this is a warning. If you all decide to put in place a Nazi regime like you are proposing above, there will be ramifications against you that nobody will be able to stop. And the ramifications will follow as thus..... It states in the Bible, do not harm my anointed ones.

I am sick and tired of the Nazism that has decided to seep into our State. And I warn you and all the politicians and our Governor. You mess with us, and GOD WILL deal with you. And I fear for your lives. It is not I who will do anything, but GOD, BUT GOD.....mark my words. GOD has ways of getting rid of people that have tried to harm me. Please put your Hitler/ Nazi enforcements to bed and stop these extreme dictatorship tactics

immediately!

From a very concerned citizen of the United States of America who has been born here in the State of Washington!

Subject: Comments for Proposed Policies to be Considered at the January 12th Meeting

External Email

PROPOSED POLICY:

\* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Under no circumstances should this policy be passed by this board. Having local health officers use law enforcement to force involuntary detention of anyone is totally wrong. Any board member who feels this is okay is either illiterate, afraid to stand up against tyranny, or is to be included in the corruption that surrounds this entire issue – of which the corruption runs deep. This corruption will be met with all legal measures and citizen pushback.

Absolutely DO NOT vote for this policy – VOTE NO!

PROPOSED POLICY:

\* Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Although volumes could be presented to you regarding why this policy is wrong, this board has found itself in the midst of what will be the largest legal fight and citizen pushback in history if adopted. This board may instead ignore the salient points and take the course that so many boards have across the nation. But these facts are hard to ignore – it would be wise for you to open your minds, get fully educated, stand up to the corruption and BIG money interests, and start endorsing medical treatments that are safe and work:

Children are at extremely low risk for Covid

The vaccines are still only EUA (emergency use authorized) -- EVEN THOUGH THERE ARE OTHER PROVEN TREATMENTS AVAILABLE BUT BEING CENSORED AND IGNORED!

There are no long-term studies to document any history of safety – BUT THERE ARE VOLUMES OF EVIDENCE SHOWING THE DANGERS ASSOCIATED WITH THEM

Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,

The vaccine does not stop the spread of the disease

This medical malpractice should not be undertaken by this Board.

Absolutely, DO NOT vote for this policy – VOTE NO!

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds if they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.  
-Concerned citizen.

I would like to express my extreme opposition to the implementation of a COVID 19 vaccine requirement for schools in Washington State. These policies are overreaching and immoral. I stand against these proposed WAC's.

246-100-070

246-100-045

246-100-040

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fprotect-us.mimecast.com%2Fs%2FchILC5yWqqtZo0JYpfyn0pC%3Fdomain%3Dchildrenshealthdefense.org&data=0>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did

not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long-term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product - Commentary - America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fprotect-us.mimecast.com%2Fs%2FJM-2C680rrTrEoNI0T5oTUF%3Fdomain%3Damericasfrontlinedoctors.org&data=04%7C01%7CWSBOH%40SBO>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Kim Wilson - Registered voter for the State of Washington

To whom it may concern,

I stand against the policies (WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105) that endanger Washington state's citizen's right to medical freedom. If these policies go into effect, it will strongarm residents into an Orwellian scenario where our government dictates welfare for everyone. Taking our right away to choose vaccination and/or be subject to force IS the definition of coercion.

We need to be sober-minded enough to realize that these policies are aimed toward removing our voice as the people of this country and state, and allowing totalitarian control by the government.

If we are not to repeat history, and join the likes of other totalitarian governments, we must realize what steps lead to the abandonment of personal rights and government overreach (including these WAC policies listed above)!

Please hear my voice and the others like me, and put an end to these tyrannical policies!

Sincerely,  
Garrett Amerson

Re.: PROPOSED POLICIES:

1. Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
2. Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Bottom Line: A long-time WA resident, I am adamantly opposed to official's forcing involuntary detention for responsible citizens who exercise their right to determine what they will/won't inject into their own bodies. You propose "involuntary" detention for "voluntary" noncompliance. Sadly, these two mutually-exclusive descriptors ("involuntary" and "voluntary") belie the subplot of what's being advanced. And I object to it.

As a retired educator, I am equally appalled at the thought of forcing experimental injections into the arms of children and youth. Too many questions are yet unanswered. A FDA advisor reminds us that there is no expectation that the lower dose in children will behave similarly to the higher adult dose. This, of course, begs the question: Do we really want to experiment on our children?

One of the most academically cited American epidemiologists alive today says he would pull a healthy child out of public school before he administered this vaccine. Harvard University professor of medicine, Martin Kulldorff, agrees with Dr. Harvey Risch. Data and scientific studies he's reviewed show that children are more likely to contract serious disease or die from the annual influenza, or the flu, than COVID-19.

Covid injections are experimental. Simple as that. Dr. Eric Rubin, who sits on the administration's vaccine advisory panel, said in part, "We're never going to learn about how safe this vaccine is unless we start giving it. That's just the way it goes. That's how we found out about rare complications of other vaccines, like the rotavirus vaccine." Never mind that safety data are lacking! Rep. (and Doctor) Greg Murphy (NC) responded rightly in noting that Ruben's comment "is literally the most dangerous statement" he had ever heard in medicine." I agree.

Re.: Too many questions are yet unanswered.

The CDC openly acknowledges that for 30 years since creation of the VAERS reporting

system, reporting of adverse vaccine DEATH reports remained very low and constant. However, beginning in December 2020 with the first COVID19 vaccines hitting the open market, and escalating every day since, the adverse event DEATH reports have skyrocketed to levels never before seen in 30- years of vaccine adverse event reporting. Before mass-enforcing an experimental injection, especially on children, these questions (and countless more) must be answered (with peer-reviewed science):

1. The CDC admits there are no peer-reviewed studies, yet it's okay to take these injections deemed "safe and effective." But by what standard? There is no longitudinal history from which to draw.

2. Just what's in these injections? We know that the mRNA Moderna experimental injection contains SM-102 designated "for research use only, not for human or veterinary use" (See: Cayman Chemical Safety Data Sheet acc: OSHA HCS. Trade Name: SM-102.) What else is in these injections, and why pump them into humans (especially children)?

3. Salk researchers confirmed that the main damage from Covid is caused by the clot-generating spike protein, not the virus. It's unclear how long these potentially lethal proteins remain trapped in the lining of the blood vessels, or what damage they might eventually do, so why inject people with a substance that teaches their cells to make spike proteins?

4. Why the Covid surge (which, on a per-capita basis, was higher than the surge that devastated India) in 4 out of 5 of the most vaccinated countries (Forbes)?

5. Why did more people die in 2021 (January through August) despite the rollout of COVID shots in December 2020?

6.

7. Researchers noted: "Overall, our data provide strong evidence that SARS-CoV-2 infection in humans robustly establishes the two arms of humoral immune memory: long-lived B cells and memory B cells." This is perhaps the best available evidence of long-lasting immunity. Yet natural immunity is downplayed in the media narrative. Why?

8. To encourage pharmaceutical companies to manufacture ground-breaking new medicine, governments use no-fault indemnity against lawsuits. Where's the protection for individuals injured from the vaccine?

9. Cardiovascular, neurological and immunological adverse events are all being reported at rates never even remotely seen before. Shouldn't the magnitude of side effects compared to other vaccination programs concern us? This is especially true in that adverse events are broadly known to be seriously under reported!

10. One's right to informed consent mustn't be bypassed. But the mainstream media narrative is quite silent about adverse effects. According to the CDC, Myocarditis, a rare condition, is occurring at a higher than expected rate in vaccinated individuals. Researchers used data from the Vaccine Safety Datalink, run by the CDC, to find 21 potential cases, 11 of which were confirmed, of Guillain-Barré syndrome (GBS) in people who got the shot. Autoimmunity and the opposing condition, metabolic syndrome, are well known adverse events caused by vaccines. The Covid injection is also paired with Creutzfeldt-Jakob (prion) disease. Shouldn't the public be fully informed of these risks and, then, decide for themselves?

A local ABC News Station posted a request on Facebook for people to share their stories. In five days, over

200K people

posted comments, all of which addressed vaccinated loved ones who died shortly after being injected, or who are permanently disabled. Shouldn't this at the very least be looked into?

The Informed Consent Action Network (ICAN) reported that a study showed that the actual number of anaphylaxis is

50 to 120 times higher than claimed by the CDC.

Re.: Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

In September, the Singapore government awarded a teen \$225K for having a heart attack following a Pfizer shot. Over in Taiwan, second doses of the Pfizer-BioNTech jab for children, aged 12 to 17, have been temporarily halted due to myocarditis concerns.

Meanwhile, in America, the director of the CDC advocates approving the jab for children, aged 11 to 15 years old; and WA wants to include Covid-19 injections as part of school immunization requirements.

So why inject healthy children when their risk is statistically insignificant? Metrics among the unvaccinated rise across

age groups, but data clearly illustrate that younger, healthy people are at little risk from the disease. Fact is, unvaccinated 18- to 29-year-olds saw deaths lower than most fully-vaccinated age groups.

Most Covid patients (70.6 percent) have one or more underlying health conditions.

Nearly 36 percent infected are obese. 31 percent suffer from chronic lung disorders, and just over 14 percent suffer neurologic disorders. COVID-19- associated hospitalization rates in children were found to be overcounted when, in fact, 45 percent of the patients admitted to Lucile Packard Children's Hospital in California were not about Covid.

There is no logical reason for forcing risky, untested injections on healthy children.

Consider instead the youth who are vaccinated. In June, the CDC reported higher-than-expected rates of myocarditis among vaccinated (not

unvaccinated) youth. There were 117 cases among males 12 to 15 (when no more than five were expected).

Dr. Nicola Klein of the Kaiser Permanente Vaccine Study Center presented data regarding post-vaccination heart inflammation from the Vaccine Safety Datalink, a database from the CDC, and nine other healthcare groups, including five Kaiser Permanente facilities.

Data also showed higher than expected cases among youth following vaccination.

Yet we are expected to ignore facts and summarily dismiss legitimate concerns, as these, as misinformation perpetrated by quacks. Even if such claims ring true, who gets to decide? The answer is best found in the cliché, "Follow the money." Throughout the pandemic, nine new billionaires have been hatched. Pfizer alone estimates to profit at least 33.5 billion dollars from the Covid injections; and many medical professionals receive financial incentives to promote injections. In the United Kingdom, for example, nurses get

£10 per needle they put into a child.

Our charge is to protect children, not to use them for monetary gain. They are not guinea pigs, nor should they be treated as such.

Hello:

It has come to my attention that the following policies are being discussed and considered by your Board on Wednesday, January 12, 2022:

**PROPOSED POLICIES:**

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I'd like to go on record that I oppose any consideration of the above policies and changes to the WAC 246.

The policies to use law enforcement to force isolation are barbaric and serious government over-reach in direct violation of both the 14th Amendment of the United States Constitution but also Article 1, Sections 2 & 3 of the Washington State Constitution.

The policies to consider Covid-19 injections as part of school immunization requirements are un-just as these experimental injections are still under EAU only (yes, including the Pfizer injections). Not only that, but parents, NOT the State should be responsible for making medical decisions on behalf of their children. Where there is risk, there MUST be choice.

Thank you for reading,

Annie Easter

External Email

To Washington State Board of Health,

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

To whomever proposed such idiotic and immoral (and against our Constitutional rights as citizens of the USA) these codes must be repealed and redacted from our state code system. It's abhorrent to entertain such 'laws' and mandates- complete over reach. STOP!!! Enough is enough!!!

Thank you for your time,  
Kiersten Stimets

This is a letter to officially let you know that the following actions would be opposed and cause undue hardship to many people, dragging our democracy backwards and is a step towards communism. Do not attempt to behave like Australia. Americans will not stand for it. This is not North Korea.

WA State Board of Health will discuss (on public Zoom meeting) applying current Infectious Disease WAC codes to include Covid-19 for ALL WA State residents. Read WAC 246-100-70 and 246-200-45 (to detain in quarantine FACILITIES) following refusal to voluntarily comply with exam, testing, treatment, counseling and VAX.

Sincerely  
Ms. Jones  
Citizen

Subject: Vote NO on vaccine mandates and subsequent oppressive maneuvers

External Email

To the Washington State Board of Health,

As a concerned Washington State citizen that votes and pays taxes please vote AGAINST the following proposed policies:

Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

There are a plethora of reasons that these decisions contradict reason and common sense. It is clear that our immune systems and the Covid 19 have unknown components that deserve individual choices. Medical decisions should be between an individual and their personal medical providers, not mostly unelected government officials making broad scoping policies for complicated issues. This includes a parent's right to make medical decisions for their children.

Statistics show that, though COVID 19 has been a virulent adversary, there is an extremely low risk of mortality, and this risk is even lower when it comes to our children. In addition, as all viruses mutate, they will become less severe.

There are not long term studies proving efficacy and/ or safety of these vaccines, and for many, the vaccine is not a best option, especially while the risks are so low, and there are other viable treatments and avenues to fight this diseases, including but not limited to supplementation, antiviral and anti-inflammatory medications proven to be safe, as well as letting our natural immune system do what it is designed to do.

I appreciate your consideration and a maximum effort to represent ALL Washington Citizens' best interests.

Sincerely,  
Christina Konrad  
Everett, WA 98208

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□Daniel 2:22□□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for and reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□Proverbs 31:8□□

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Emily Seaboch

Subject: Opposition to statewide vaccine mandates

External Email

To whom it may concern,

I am absolutely against any of the proposed covid policies that are overreaching and against my religious freedoms and autonomous rights.  
I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

It is absurd to think anyone should be forced to receive a vaccine that does NOT prevent contracting the virus nor spreading the virus. It is absurd to mandate a vaccine when Covid-19 has a low fatality rate. It is absurd to mandate a vaccine when most age groups, specifically children, do not have a high risk of serious illness due to Covid-19.

It is up to the PARENTS whether or not an emergency vaccine should enter any minor. There are zero long term studies of the side affects (due to the vaccine being new) of this vaccine which should worry any health department. All long term expectations of the vaccine are speculative and therefore should not be regulated for anyone.  
No child should be subjected to an experiment. Especially and mandated experiment.

Thank you for your time,

I am a citizen and a registered voter in Washington state as well as being a resident of WA. I expect your agency to follow the law.

Under 21 code of regulations section 50.23 and 24 It is illegal to make anybody participate in an experimental program using coercion. That is how the US law embraces the Nuremberg Code.

1. I am OPPOSED to implementing the WAC 246-100-070 to FORCE an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility.
2. Also I am OPPOSED to implementing WAC 246-100-045 following refusal to comply with requests for medical examination, testing, treatment, counseling, vaccination WA 246-100-040.
3. I OPPOSE implementing COVID-19 injections as part of school immunization requirements using WA 246-105.

I OPPOSE the above steps, making them laws under the emergency order. These decisions to vaccinate are the responsibility of the parents! They should not be mandated or become laws enforced by the Government.

I believe these laws to be in violation of the individual's freedom. Coercion is being used and it violates the Nuremberg Code.

I believe these laws to be in violation of the individual's freedom. Coercion is being used and it violates the Nuremberg Code.

Some notes about the Covid Vaccine:

Director Walensky recently stated: "What the vaccines can't do anymore is prevent transmission"

Dr Fauci says, "We know now as a fact that (vaccinated people with Covid -19 are capable of transmitting the infection to someone else"

Modernas Chief medical Officer Dr Tal Zaks agrees, "There is no hard evidence that it (the vaccine) stops (the Covid-19 vaccinated) from potentially infecting others who have not been vaccinated"

These 3 leaders are stating that the Vaccine CANNOT prevent transmission of infection.

Thanks for taking time to read my Comments,

Claire Brossmann

Subject: Opposition to COVID vaccination add to current schedule.

External Email

Good morning!

A few days ago, during a WA State Board of Health meeting, the advisory group spoke of whether they should recommend adding Covid vaccination to the current WA vaccine schedule for school and daycare entry. Unfortunately public comments were not allowed. The advisory group would be making a recommendation for our children without hearing from the parents.

I oppose the Covid vaccine being added to the school and daycare schedule. Children have mild to no symptoms from the virus, and are thus the safest. Covid Vaccine inserts are none existent to the public, leaving us without a knowledgeable and informed choice. Pharmacists themselves do not have access to a vaccine insert. We are told to believe and take the plunge yet so many have had horrible and even deadly complications from these vaccines. Please urge the advisory group to be cautious and not make recommendations for the Covid vaccine to be added to the school and daycare schedule.

Also, I oppose local health officers to use law enforcement (wac 246-100-070) to force an emergency order to involuntary detain a person or a group of persons to be isolated in quarantine facility (wac 246-100-045). This proposed rule (to wac 246-100 as outlined above) is unconstitutional and violates human rights and freedoms.

Thank you for taking the time to read my opposition and concerns. I look forward to reading your reply.

To Washington State Board of Health,

My request is straight forward and simple, please do not apply or allow anyone to implement, the above WAC's or other similar law, regulation, etc., to instigate an emergency order for the purpose of quarantine, detainment, or control, or similar, of any citizen(s) of the state of Washington due to COVID-19. Please support freedom of choice by individuals and parents for their children. The COVID-19 virus is not a situation where a vaccine should be mandated, especially for children. The benefits of a vaccine do not outweigh freedom of choice. The situation is not as dire as it is made out to be. Put aside the data as data can be made to show what the user chooses. Go out to the communities and talk to individuals about their experience. You will find it is not as you think, it is not a situation where mandates are needed. Please support freedom of choice. Even the CDC has reduced the recommendations for exposure times and quarantine recommendation times.

We are not in a state of emergency, we are a state of 7.7 million people, we are not where near an emergency situation, with less than 900,000 total cases and deaths on a downslide, it is not necessary and would be a huge mistake to allow these WAC's to be implemented by Health Officials, even just one health official would have sole authority to implement, that is not what we are about, and it is not needed. Again, please support freedom of choice.

Thank you,

Anita Gahimer Crow  
Washington State Citizen and Voter

Good morning Washington State Board of Health.

I am writing this email regarding the proposed policies allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). As well as Including the Covid-19 injections as part of school immunization requirements using (WAC 246-105.)

Adding COVID-19 to this list would hurt local businesses both small and large and overall hurt the economy of Washington State. Currently companies are struggling to fill positions and keep employees due to the current conditions and adding this legislation will only make it tougher for employers to hire people. For example, the company I currently work for employs roughly 700 people, has 72 vacant positions and has approximately 30% of staff unvaccinated. If these policies were to go into effect it would immediately hurt local businesses both small and large that are currently struggling to stay open with the staff we have. These policies would directly harm the economy of Washington state and will do more harm than good.

I am completely against any of the proposed Covid Policies that are overreaching and immoral. I stand against the following policies proposed by WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Subject: Why the Pfizer inoculation does more harm than good

External Email

To: 'wsboh@sboh.wa.gov <mailto:wsboh@sboh.wa.gov>' <wsboh@sboh.wa.gov <mailto:wsboh@sboh.wa.gov>>  
Subject: Why the Pfizer Inoculation Does More Harm than Good

Dear Washington State Department of Health staff,

Please do not require school children and preschoolers to be inoculated with a Covid "vaccine" in order to attend school in our state!

Why the Pfizer vaccine for Covid 19 Does More Harm Than Good

Source: [www.CanadianCovidCareAlliance.org](http://www.CanadianCovidCareAlliance.org)  
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.canadiancovidcarealliance.org>>

The Pfizer trial only used:

- 1) Unexposed & inoculated, and
- 2) Unexposed & not inoculated.

They should have also included:

- 1) Exposed & inoculated, and
- 2) Exposed and not inoculated (aka natural immunity from having had Covid).

The fact that they avoided the latter 2 shows that they thought their Pfizer vax wouldn't perform well in those categories. A study should show how those exposed and not inoculated fare vs. inoculated & exposed. It didn't.

The clinical endpoints of the trial should have been: Do people who take the Pfizer vax have less illness and death? (It wasn't) Choosing the proper endpoint is well-known, as a result of testing of cancer drugs. In cancer drug testing, they had to switch to all-point mortality, and Pfizer should have done so.

They could easily have included biomarkers, but they didn't. We need to know how people exposed, but not inoculated compare with the exposed and inoculated. This is natural immunity, and we need to know how those with natural immunity fared.

They should have tested for: de-dimer levels (micro-clotting) before and after.

Other biomarkers Pfizer should have and easily could have tested for: inflammation, barrier permeability, hypoxia, cardiac damage, predisposition to Alzheimer's, predisposition to autoimmune disease.

They should have had biomarkers for thrombotic disease. This is a condition which would take time to surface, but could have been measured before & after in biomarkers. Many doctors are reporting thrombotic conditions in vaccinated patients.

Vaccine passports: The Pfizer vaccine was not tested for spread reduction: No evidence at all that they reduce transmission and disease, and that was never one of the endpoints of the study. All they measured for was, "Do people who take the vaccine test positive for Covid-19 less often?" and the study was designed so that they would get few "no" answers, and they then proceeded to a vax rollout.

Testing failures: Subjective testing: The study did not test all patients for Covid-19! Instead, they only tested for the Covid-19 symptom, and then left it up to the discretion of their investigators to decide what that was. So that means that asymptomatic infection would be missed entirely. And it introduced a high level of subjectivity to the trial, because an investigator could actually decide whether to test or not to test. This lack of systematic testing actually makes the results of the trial unreliable. All participants should have been tested.

There is considerable missing data in the study. The endpoint is all Covid cases: 8 inoculated vs 162 placebo. But it's such a small # of participants to begin with. But there are 80 lost follow-up subjects in the inoculated group! They don't know whether they got sick or not, or even died. They don't know. That's 10x more than the # of Covid cases they had in the inoculated group. So if a significant proportion of those 80 had been positive, it would have dramatically changed the results. Also, all the suspected but unconfirmed cases: 1594 in the inoculated group, 1816 in the placebo. This means they were symptomatic, but the investigator never followed up with a Covid test! These are huge numbers compared to the confirmed cases! The fact that the suspected cases which weren't tested were significantly larger than the endgame results means that this data is unreliable. The study should not have been accepted.

What about the placebo group? There were also many unconfirmed cases. If all these cases, inoculated and placebo, were positive, the relative risk reduction would then only be 19%. That's not a high enough percentage to gain approval.

Adolescents: The inoculation is really all risk and no benefit.

Teens are statistically at 0% risk of death from Covid-19. But the vaccine does pose risk of serious events. But the study was not designed to find serious adverse events. A serious event that occurred at a rate of 1/800 might not even show up in a sample of 1,005 people.

In the tests, there was a serious event in at least one subject who was inoculated. A 12-year-old girl. She experienced multiple serious effects, including lost feeling from the waist down, lost bowel and bladder control, menstrual cycle issues, seizures, verbal and motor tics, dizziness, fainting, headaches, brain fog, erratic blood pressure, and more. And the last 10 months, she is wheel chair bound and fed by a feeding tube. Pfizer labelled her case "functional abdominal pain."

5-11 year olds: The inoculation is an unacceptable risk to this group. Pfizer, using predictive modelling, acknowledges that their inoculations WILL cause myocarditis, but optimistically claims there will be zero deaths from myocarditis in any of their modelled

scenarios. It's speculative. Still, there's no justification for giving children myocarditis. But the government has actually normalized myocarditis in kids, publishing Sick Kids brochures of how to deal with myocarditis in kids. But how to deal with it is to not cause myocarditis in kids! It's very serious. It causes permanent damage. Severe myocarditis weakens your heart so that the rest of your body doesn't get enough blood. Blood clots can form in your heart, leading to a stroke or heart attack. And the mortality rate is up to 20% at 6.5 years. The risk of 4 in 20 children who contract myocarditis dying within 6.5 years is unequivocally an unacceptable risk for children. But the FDA maintains that it is an acceptable risk for children. They have actually abandoned the "do no harm" principle.

Dr Eric Rubin of the New England Journal of Medicine (NEJM) has said that the way to find if they do harm is by doing a roll-out on the population. He voted to roll out inoculations for ages 5-11, and suggested that a population level roll out as an appropriate way to test for adverse events. Of note, the NEJM is also the publisher of the Pfizer reports.

Governments are proclaiming the inoculations to be safe, yet the data is not there to back that up. Pfizer admits that their long term immune response, efficacy & safety data is limited and that their studies weren't powered to find "rare" side effect, as only about 1500 kids were in the testing group which received the inoculation. The law of informed consent says that parents should be told about these risks, but it's not happening.

On Nov 2, the British Medical Journal released an article about their investigation into Ventavia, one of the research companies Pfizer hired to conduct the trials. A whistleblower who was a Regional Director reported to the FDA that Ventavia: falsified data, unblinded participants, did not follow up and test participants who reported symptoms, and mislabeled some specimens. Several other employees backed up the Whistleblower's account. But Pfizer never disclosed the problems in its EUA application, and in fact, Pfizer has now hired the same researcher, Ventavia, to run more Covid-19 clinical trials.

So it's not surprising that we are seeing the issues we are in the 6-month report.

Manipulation of Data Cohorts: Pfizer took the results from their adult trial, which started July 27, 2020, and then added in the results from the 12-15 year olds' trial, despite the fact that the adolescent trial started four months later. Since it's well known that the efficacy wanes over time, this gives a false boost to the efficacy numbers. The efficacy of the two groups should have been reported separately, not presented as one combined result.

Pfizer trials did not prove safety. They proved harm. The endpoints of the trial should have been illness and death, not a positive or negative Covid-19 test. But their test actually showed harm. They used younger, healthier groups than the vaccine would eventually be rolled out to. Here are some results of Pfizer's own randomized control trial: Related adverse event, +300% over placebo group; severe adverse event, +75% over placebo group; any serious adverse event, +10% over placebo group. Deaths in the vaccinated group: 20; placebo group, 14.

How is this harm playing out in the real world? Governments are assuring us that they are monitoring safety and will let the public know if there are problems. But once the vaccine was rolled out at the population level, the surveillance method for reporting is called "passive." It's difficult and time-consuming for overworked doctors and health workers to file the harm reports, and then it goes thru several levels of bureaucratic approval before the case is accepted as a vaccine-related injury.

"Active" surveillance was used for trial participants. They were given a phone app with choices of adverse events they experienced. 78% reported adverse reports, and 5% were

To those who serve the health and well being of the people of our state, and especially our children, who remain at near statistically zero risk of undergoing significant harm from covid-19 and its variants:

I vehemently oppose any & all covid-19 mandates, and/or requirements — including & particularly these proposed brazen totalitarian police state measures.

Do not allow these:

- Local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Do not allow this —

- Covid-19 injections as part of school immunization requirements using WAC 246-105.

I also vehemently oppose Agenda Item #8, the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school.

I do support Agenda Item #11 Informed Choice Washington's Petition for Rulemaking. This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

Enough is enough.

And may i remind that there are legal teams around the world assaying & preparing the need for the next iteration of the Nuremberg Trials, in which crimes against humanity will be prosecuted, and justice served.

Thanks for doing the right thing.  
Alby Baker  
Port Townsend, Wa.

To Whom it may concern,

We are writing this email as citizens of the state of Washington in opposition to using WAC 246-100-070, WAS 246-100-045, and WAC 246-100-040 to force an emergency order to involuntarily detain a person or group to be isolated in a quarantine facility following refusal to comply with above stated laws regarding Covid-19.

We are also in opposition to including the Covid-19 injections as part of the school immunization requirements using WAC 246-105. These vaccinations have not met the required testing time frame, and therefore long term effects are not known. It is also known that the percentage of children seriously affected by Covid-19 is very small.

Respectfully submitted,  
Ken and Tracy White

External Email

To whom it may concern,

I am writing to oppose the proposed covid-19 policies that are currently being considered on Jan 12th. These include:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040

Although I understand the rationale behind these proposed policies, I do not think they will have the intended effect. These policies will put undo pressure on our already overwhelmed police force. These health policies and mandates should not be considered law unless the people that they affect have had a chance to review them. The language of these policies leaves a lot to interpretation and opportunity for misuse and overreach.

These policies will also discourage people from seeking testing for infectious disease and may actually exasperate the problem. Would you willingly be tested for an illness if you thought it was possible that you would be involuntarily detained?

The current mandates and policies have not stopped the spread of Covid even though the majority of people have willingly followed them. Doubling down on these policies will not improve our current situation.

Thank you in advance for your time and consideration.

Kady Bowman

External Email

I won't be able to attend the meeting tomorrow, but the subject of involuntary (forceful) detainment by law enforcement (WAC 246-100-070) as an excuse for Covid containment being considered is absolutely against basic human rights. Washington already has an embarrassing mark in history in regards to Japanese concentration camps in 1942 -- what is being considered here is even more atrocious.

Please reconsider forced vaccination using camps and police force on extremely ineffective vaccines, especially on those who already have long-lasting natural immunity.

From a concerned resident,  
-Dustin

External Email

I am NOT in support of mandating Covid vaccines for children. Public schools are paid for through our taxes and must remain inclusive to all, regardless of medical decisions.

While the media continues to spread fear and panic, actual health data supports the following claim: Covid and its variants in no way pose a health emergency to our kids, but Covid vaccines may be detrimental to their health as they have not been proven safe or even effective. It would be criminal to force families to allow medical experiments on their children in order to receive a public education.

I am NOT in support

allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility.

and

I do NOT support (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination.

This is unconstitutional and opens the doors for corruption for a virus that has been proven to kill less than 2% of those who get covid.

To all the politicians that I trust are in the leadership positions for such a time as this;

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

We have a pandemic but we also have intentional intimidation and fear tactics being used against American citizens to use this pandemic for power over people and political gain. I can't stand any political system we have in place. It hasn't been for the people by the people since I learned about it in high school in 1990 and even though I do vote I've been ashamed to be voting in our political system since I became old enough in 1992. I was blown away by the power tactics used then and I am even more blown away now. What you are attempting to do with using the state of emergency to divide this nation is also appalling and makes a difficult situation worse when people have loved ones who are dying regardless of whether they have or haven't followed your mandates thus far. As American citizens we have a right to have the constitution be upheld for our behalf and we should be able to trust our institutions in place to insure our safety without putting additional fear in our hearts and trampling on our rights. I think you can do what you were all put into your positions to do without pushing anymore political gain for your own team. You all have focused on those goals more than coming together in bipartisanship to beat this pandemic and have failed us sorry to be so blunt but it is obvious.

It is time to fix that instead of continuing to kill your voting members by creating dividing lines where your voting members are or could be killing the opposite side to defend their own views in words or deeds. Think of other ways to work together and support what has been working instead of manipulation to show what you want to prove in the moment. It is contradicting and very obvious even for those of us who try not to listen to the negativity, constant changing policies and recent fights going on in the political world.

In addition, because of how the politics are leading each states personal agenda you are dividing family members, friends, neighbors because of your blatant manipulation tactics to influence people based on your agendas and limiting our ability to join together as a nation in coming together with respect and love towards one another to beat this pandemic and not be driven by fear or pretending it doesn't exist. It is a crisis and we can work together and not against each other. This state intentionally held back testing kits from medical establishments knowing full well when the previous testing kits would expire in December. I was informed personally when my attempt to continue with the testing that has been simple and easy to do since September switched and I was canceled on multiple times in December after being set up for my testing. But I did stay home without the testing to stay safe for others. This intentional action created multiple people from not being tested and most humans most likely followed through with their holiday plans instead of staying home if they weren't sure or at least made it more difficult for them to know what to do during the holidays and testing requirements.

If we are going to start putting people in jail then we need to start with the political agenda withholding testing kits to twist the facts and have it lean towards a particular agenda.

I love People and I do think you will be able to do the right thing to come together and make us proud of our politicians no matter what side they are on but as the leaders we assigned as a state or nation to work together for the good of all people.

I want to feel pride to vote and will be continuing to encourage teamwork, love, respect, kindness and trust that as our leaders you will get us there. We will beat this agenda or we will beat each other in words or actions. The choice is yours and you are leading the way. Be the example you want your loved ones to be treated by the other side.

Praying for you all, the nation, and coming together to understand each other more and develop policies out of love and respect despite what another one votes.

You are in a very tough time to lead us, I do see that and feel for you. You do have my respect for continuing to lead during this time. May you really think about the choices you are making and if there are other ways to address the concerns. I beg you please start working together... It's amazing what humans can come up with by working together and not against each other!! It is in that spirit we will find our answers □□□□□

With love,

Amy Crook LMFT LLC

External Email

Dear Board Members,

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There is no emergency from the infection. Covid is not a deadly disease. Each variant is less virulent than the one before. The recovery rate remains nearly 100%.

Countries and states with high vaccination rates also have high numbers of cases as everyone knows the vaccines do not prevent infection or transmission. (As AFLDS' recent lawsuit against OSHA details

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsable.madmimi.com%2Fc%2F351>  
, these injections are merely "treatments" that, for some people, may reduce symptoms. [AFLDS - America's Frontline Doctors]). I have family members who were vaccinated and had covid!

There is, however, cause for concern given the 1,800,000+ adverse events that have been logged in VAERS

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Caf3c5b9dbb87489a7bcb08d9d2194ff1%7C11d0>  
(Vaccine Adverse Event Reporting System) following vaccination. Incidents recorded in VAERS are also generally acknowledged to represent as little as 1-10% of ALL events actually happening. Here are some events: Unexplained sudden deaths among FIFA athletes in 2021 has risen five-fold

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Famericasfrontlinedoctors.org%2F2021%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Caf3c5b9dbb87489a7bcb08d9d2194ff1%7C11d0>  
. Children ages 5-11 are turning up with myocarditis after vaccination. Ages 5 to 11!! "A 13-year-old Michigan boy

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths%2F2021%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Caf3c5b9dbb87489a7bcb08d9d2194ff1%7C11d0>  
year-old-jacob-clynick-dies-pfizer-vaccine-myocarditis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Caf3c5b9dbb87489a7bcb08d9d2194ff1%7C11d0  
died June 16, three days after he received his second dose of Pfizer's COVID vaccine."

Where there is risk, there must be choice.

Early treatment, ivermectin (created for humans, developer won Nobel prize), hydroxychloroquine, monoclonal antibodies, etc., are simple, basic treatments that aid recovery without hospitalization.

Let us take care of ourselves.

Thank you.

Please do not vote to approve the following:

\* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

\* Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Subject: Concerns

External Email

Washington State Board of Health Members,

I am a resident in Chelan, WA, and wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and its variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. Both me and my husband, age 65 and 75, (unvaccinated) with several comorbidities had Covid in June and July of 2021 (Delta variant) and survived. Our God-given natural immunity kicked in and we successfully navigated the disease and are now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS reports!

Also, we have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus. Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept our concerns and recommend AGAINST these proposals being presented.

Sincerely,  
Catherine Anderson  
Chelan, Wash. 98816

What is being proposed is unbelievable.

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Local health officers' use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility (if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination) is a horrific precedent. This is not the type of history WA needs to be a part of, and it's completely unfathomable that it's on the table. We the people see this playbook move right out of WWII.

In addition, I am completely against Covid-19 injections as part of the school immunization requirements using WAC 246-105. These injections are still experiments, and this should be unlawful.

I will be doing everything in my power to make known this agenda, and create obstacles to this should any aspect be agreed upon.

To whoever hears this or see's this,

I am completely against any of the proposed covid policies that are over reaching and immoral, I stand against these WAC's :

WAC 246-100-070,

WAC246-100-045,

WAC 246-100-040,

WAC 246-100, WAC 246-105.

Please do not let your hopes of stopping covid (when we should be treating it) infringe on my and my family's rights. There are many of us, I assure you once we have nothing left to lose, you will have no choice but to hear our voices. Washington state is slowly turning into a communist nation in front of our eyes, taking my rights away will not help stop covid when 4 different vaccines and various vaccination rates could not stop it either. Your efforts are nothing but a power grab. Do the right thing and stand for liberty and freedom, or be voted and thrown out of your positions.

Thanks.

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds if they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.  
-Concerned citizen.

From: Charles Amerein  
Sent: 1/7/2022 1:18:25 PM  
To: DOH WSBOH  
Subject: Public comment for meeting 1-12-22 agenda Item #9

External Email

To the Board,

My name is Charles Amerein and I am a County Commissioner in Columbia County.

I was made aware of your planned agenda item on the 5th of this month and then only through a third party. To wit, the innocuously labeled agenda item #9 of your posted proposed agenda.

“1:30 p.m.

9. Rules Hearing Continuance

- Communicable and Other Certain Diseases, Chapter 246-100 WAC
- Testimony Will Be Taken
- Possible Action”

Which I understand in more detail to be,

“PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.”

I delayed a day to ensure that this was actually a real agenda item, not a prank and that it was as unconstitutional as it sounded before responding.

Were I only a citizen of this State I would be outraged and appalled, as an elected official

I am sickened and embarrassed. The power to do this does not lie even in the hands of the highest elected official, let alone with a group of partisan appointed bureaucrats. Human rights are inalienable, and I can think of no quicker way to a Nuremburg style trial for the WSBOH than this.

Attempts to force, coerce or otherwise strong arm a person into your point of view usually backfire in spectacular fashion. I know that I am not alone in my feelings about this issue and would highly recommend you put out a statement apologizing for even considering it before scrapping the plan entirely and then resigning en masse.

You embody the very opposite of primum non nocere.

Charles Amerein

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□ Daniel 2:22 □□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for to reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□ Proverbs 31:8 □□

"Ensure justice" - isn't that the key to the position you are in?

Subject: Objection to Covid policy

External Email

January 7, 2022

Good morning,

I am writing as a tax paying, law abiding, resident of Washington state and a citizen of the United States of America, and voice my concern and strong opposition to the proposed policies Washington State is looking to vote in. Regardless of whether or not they will be implemented in the near or far future, they are an absolute impediment on the rights of the citizens and open the door to a catastrophic effect on the people of Washington State.

Government, is in place for the people, by the people, not to make detrimental decisions and policies behind closed doors. The citizens of the great state are intelligent enough to make their own decisions in regards to infectious diseases without government overreach and seemingly better decisions for them!

My family and I strongly oppose all of the policies that are in the following proposed WAC codes to be approved for infectious diseases including Covid-19 in Washington State.:

- WAC 246-100-040
- WAC 246-100-045
- WAC 246-100-070
- WAC 246-100
- WAC 246-105.

Kindly consider the voice of the people and stand for freedom, medical or otherwise, to protect the founding principles of this great nation.

Very Respectfully,

Deanne Davisson

Subject: Objection to Proposed Suspension of Habeas Corpus

External Email

I am completely against any of the proposed Covid policies that are being proposed. They are all immoral, overreaching, and unconstitutional as they are working towards the suspension of Habeas Corpus. All of the proposed WAC are in opposition to not only the Constitution but also your Oath of Office. Your protection of the public cannot go against superseding laws that prohibit these actions, no matter how effective you would deem them to be.

WAC that are extremely condemned by the majority of the voting population including school officials, government workers, health officials, law enforcement, etc are 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105

We support the public officials that are working to keep us safe, illegal detainment is not something that can be condoned on a moral, logical, or legal level.

Revoke these illogical measures and regain the public trust. This will only create defiance to any further measures and will hinder any of your future efforts

From: Eileen Dronen  
Sent: 1/7/2022 8:17:59 AM  
To: DOH WSBOH  
Subject: Forcing people into quarantine facilities and making Covid vaccines mandatory for children

External Email

Washington State Board of Health Members,

My husband, Lynn Dronen and myself, Eileen Dronen, residing in Wenatchee, WA, wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070 <tel:246-100-070> ) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045 <tel:246-100-045> ) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040 <tel:246-100-040> ). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and its variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. Both me and my husband, age 65 and 75, (unvaccinated) with several comorbidities had Covid in June and July of 2021 (Delta variant) and survived. Our God-given natural immunity kicked in and we successfully navigated the disease and are now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS reports!

Also, we have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus. Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept our concerns and recommend AGAINST these proposals being presented.

Sincerely,  
Lynn and Eileen Dronen

External Email

Hi WA BOH,

I am emailing as a concerned WA state resident. I am completely against the proposed COVID policies WAC 246-100-070, WAC 246-100, and WAC 246-105. I worked as a senior level statistical programmer for clinical trials for over nine years, and from looking at the data and the number of adverse events associated with the COVID-19 vaccines, it would be immoral to mandate them to anyone, especially our vulnerable children. These vaccines permanently alter one's DNA and we do not know the long term safety data. It will take decades to fully know the long term effects. However, are already seeing a very concerning number of adverse events.

Furthermore, safety aside, the government does not have the right to overstep our religious liberties as protected by the constitution. As these vaccines WERE developed using fetal tissue, and many object to them based on that fact because of sincerely held religious beliefs, they CANNOT be mandated.

Children are also not at significant risk of death from COVID-19. The vaccine is not necessary for children and the FDA has discussed that it may do more harm than good.

Our medical freedoms must be upheld. These policies are an absolute violation of our constitutional rights.

Angela Lamb

Subject: Comments on proposed meeting of Jan. 12th, 2022

External Email

Dear Board members,

I would like to comment about the following agenda items on your proposed meeting of Jan. 12th, 2022:

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

As a homeowner in WA state and as a citizen, I would like to voice my concern of having the Board make any kind of move towards coercion of testing, treatment or vaccination of citizens. Any move in this direction violates the Nuremberg code agreed upon universally after World War II. As I write there is legal momentum to address coerced or forced medical treatments for all parts of the world and certainly for the United States and Washington State. I would like to believe that no one of you, in this difficult situation, would want to find themselves acting hastily and ending up on the wrong side of universal humanitarian law when examination is made public.

Best regards,

-- Eli Chiprout

I am 100% against the proposed COVID policies. They purposed policies are a government over reach.  
There is not enough data to support this. The Trusted News Initiative has censored and pushed one narrative to the people.  
I stand against these proposed WAC's : WAC 246-100-070, WAC 246- 100-045, WAC 246-100-040.  
This goes against my constitutional rights. My personal beliefs as an American citizen.  
If these pass, I will leave the state and relocate to a state which protect and honor our rights and freedoms.

Vaccinated people are still contracting and spreading COVID, they are filling up the hospitals. Also in fact dying of this virus after three shots.  
This is America stand up and act like it!  
Consider you're actions. We the people have the power. Government works for the people.

Allison Chamberlain

Please know that I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105. If for no other reason, the potential risk of children being harmed by covid-19 is much less than the potential harm that may come from the "vaccine." We still have no idea what the long term risks are from such vaccination.

Thank you,

Robert O'Bannan

Subject: reg the January 12 board of Health Public Meeting .. my public comments

External Email

Hi there,

I'm originally from Switzerland and I'm a legal us citizen and registered to vote in Washington state as well as being a resident in this state.

I'm outraged at what you are proposing in the upcoming bills.

Under 21.. code of regulations section 50.23 and 24 it is illegal to make anybody part of an experimental medical vaccination program using coercion. The US law accepted the Nuremberg Code .. so the crimes against humanity would not happen again.

I am OPPOSED to implementing the WAC 246-100-070 to FORCE an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility.

Also I am OPPOSED to implementing WAC 246-100-045 following refusal to comply with requests for medical examination, testing, treatment, counseling, vaccination WA 246-100-040.

Also I OPPOSE implementing COVID-19 injections as part of school immunization requirements using WA 246-105.

I'm against making all these a law under the emergency order. The decision to vaccinate a child or the adult itself ... should be the SOLE decision of the parent or the person themselves.... Nobody should be forced to inject an experimental drug into their body. The government should no have any say in this decision..

These laws would be a total violation of each person's individual freedom.....this is a violation of the Nuremberg Code.

There are so many people who are vaccinated now and are getting Covid again.. it's not

really protecting people.

So many people are having side effects and or are dying after taking the vaccines.. all reported on the VAERS CDC Website..

I had my boss die last year after taking the second shot of the Pfizer vaccine, my friend in the office got Bell's Palsy after her first vaccine shot and my other friend's son wife who was pregnant got a miscarriage right after the shot ... so I think with so many people having side effect and dying ... you as the health care department should absolutely not force people to get this vaccine and give people a choice of what each person wants to do.. the risk and consequences of this experimental drug are way too big to enforce it on people.

I think you don't want to be held liable and be a part of this crime against humanity.

Thanks for reading my comments.

Subject: Concerning proposed policies

External Email

Regarding the proposed policies for the upcoming meeting, I STRONGLY oppose them. To involuntarily detain people over something that has a 99% survival rate is unconstitutional and just not something that should even be considered, purr act of evil.... to mandate kids receive a vaccine that has high risks of myocarditis and teachers having to be taught signs of symptoms of cardiac arrest and yet actual Covid has less effects on them, is not right... it should be parent choice what happens to their children, they are the ones to birth them, raise them, feed them, etc.. they should be the ones to decide on vaccines...NOT THE GOVERNMENT!

NONE OF THIS IS OKAY. STOP THIS INSANITY NOW!

AGAINST THE PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC

246-100-040). These specifics come from WAC 246-100.

- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Subject: Proposed Policies

External Email

I am absolutely against each and every one of the following proposed policies. These are not in accordance with our rights guaranteed by the Nuremburg Codes.

They are illegal.

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

These specifics come from WAC 246-100.

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Nuremburg Code #1:

“The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision."

The key words in the above quote are "voluntary consent" free from "form(s) of constraint or coercion." No medical procedure, therefore, can be made mandatory. As time passed after the 1947 creation of the Nuremberg Code, addendums were made that enhanced our individual rights. Such ratification occurred in 1964 when the World Medical Association met in Helsinki, Finland and established the "Helsinki Declaration."

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.wma.net%2Fpolicies-post%2Fwma-declaration-of-helsinki-ethical-principles-for-medical-research-involving-human-subjects%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C8a47eb5a731e47d9e49c08d9d239945d9>

This document restricted human experiments for medical research to even tighter degrees than we had previously known. Keep in mind that this meant there was increased burden and liability on researchers even though they were working with voluntary subjects. In short, even after consent was given by an individual to be a subject, the researching body had to adhere to strict ethical guidelines and if they did not, they could be found guilty in a court of law.

No single legislation has been passed in North America that challenges any line item of either the Nuremberg Code or the Helsinki Declaration. A citizen's body is strictly under their own sovereign control and no entity, government, corporation or individual is given legal power to supersede the individual's right to freely choose or reject any and all medical procedures, medications or advice. These guarantees exist in one form or another in the healthcare regulations of all Western nations.

Suzan Keller

I am urging to reject outright the proposals to use these codes in regards to covid. There is no emergency and the existing codes are a flagrant violation of human rights.

Please, do not allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

There is no public health emergency, except for the vaccine injured. The vast majority of hospitalizations today are those who've received any of these Covid 'vaccinations'.

Prior to the injections being allowed under the EUA, Covid deaths were limited to the elderly and those with multiple comorbidities but then the injections came out and due to their 'transmission' as reported by the 'vaccine' manufacturers, the contents spread to others so now all segments of society are susceptible to its ingredients.

There are now over 20,000 'Covid Vaccine related' Deaths and roughly 1 million reported injuries and considering that VAERS is known to only report 1%, that number is much higher.

Basically these 'vaccines' work as designed; to undermine ones immune system and spread their Spike Proteins which is causing the 'variants'. Pfizer warns those receiving the 'vaccine' about transmission to others by "Inhalation or Skin Contact". Starting on page 62: <https://thecovidblog.com/wp-content/uploads/2021/03/C4591001-Pfizer-Clinical-Protocol.pdf#page=62>  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fthecovidblog.com%2Fwp-content%2Fuploads%2F2021%2F03%2FC4591001-Pfizer-Clinical-Protocol.pdf%23page%3D62&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C1cfaaecf6ac44e67c19908d9d1eb0e67%7C11d0e21>>  
The 'vaccinated' are the Super Spreaders as their weakened immune system allows themself to be susceptible to other pathogens up to and including being re-infected by Covid.

Pfizer CEO Calls mRNA Technology "Gene Editing"

End these 'vaccine' mandates across the board as we are in the midst of a 'Pandemic of the Vaccinated'.

Reject forced quarantining. Stop using the government as a weapon. None of these proposals have anything to do with Health.

Sincerely,

Annette Kessler

Comments on proposed Covid Policies:

Putting the Japanese Americans in camps was wrong in the 1940's, and putting ANYONE in camps is wrong TODAY. Please learn from history.

As a taxpayer, I cannot afford the lawsuits and reparations that these policies will encourage.

This proposed legislation is WAY too heavy-handed for a virus that has a 99.9% survivability rate. Will you be jailing Fat people next? How about Smokers?

At this stage in the pandemic, the vaccines are authorized for EMERGENCY USE ONLY, and are NOT APPROVED BY THE FDA. Since children are not susceptible to this virus the way elderly people are, requiring children to get this vaccine is totally uncalled for.

Please publish the names of the author(s) of this aberration, so that they may be rightfully ridiculed for proposing such preposterous public policy.

Subject: WA Covid Detainment Emergency

External Email

Members of the Washington State Board of Health,

I oppose the following proposed policies:

Allowing local health officers to use law enforcement (WAC 246-100—070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WA 246-100. Which includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I am concerned for these policies as they go against our God given rights and freedom.

Respectfully,

Ginny Meier

External Email

Dear Michelle,

Seriously, stop with the Covid shenanigans.

At no point in history have the parties "involuntarily detaining" lay citizens been recognized by history as anything other than oppressors. In every one of history's cases it was either upholstered under the guise of some nebulous idea of public health or it was political expurgation naked of pretense; and when the dust settled, humans looking back recognized the former was just a deceptive affectation of the latter--and those seeking justice after-the-fact saw no difference--in every case, in every generation, in every country.

More to the point, if you follow through with adding Covid-19 to the penumbra of WAC 246-100-070, -045, -040, -100, and -105, you will be inviting the scrutiny and direct legal action of an increasingly-angry citizenry on your organization and their constituent members. To the majority of people in this state who contribute to society and the economy, it appears as if those of you in the government only pay attention to the wealthy in Seattle and the single-variable information curated by tech executives and the UW--and their benefit is the only factor you have cognizance of.

The mandates Jay Inslee's government enacted crippled our economy, ruined the livelihood of many citizens, and put many of our fellow citizens on the streets. There isn't much more for us to lose, and everything for us to gain back and more--and it appears the bureaucracy of Inslee's government are standing in everyone's way. If you follow through with this, expect the mores of political activism in 2020 to be picked up and used by the other side.

In regards to:

WAC 246 100

WAC 246 100 040

WAC 246 100 045

WAC 246 100 070

As a tax paying American citizen, I STRONGLY DISAGREE AND VOTE AGAINST THE FOLLOWING LEGISLATIVE MOTIONS:

WAC 246 100

WAC 246 100 040

WAC 246 100 045

WAC 246 100 070

These motions are unconstitutional and threaten the medical privacy of the American people. The human body has natural biological defenses against disease and viruses, not to mention the extensive help from the development of modern medicine. Unfortunately, there comes a time when every individual's immune system is too old or too weak to continue the fight. This is inevitable for every being on the planet. To place further rules and regulations on people, reducing freedoms will only begin a civil war. It may seem fictitious to you, living in the wealthier class, but down here in the real civilian world, the people who have to work their lives away paying your salary, then get bombarded with treats of freedom reduction, WE ARE TALKING CIVIL WAR!! Heed my warning!!

RATHER instead of reducing freedoms and placing further rules and regulations, we can practice motions that ACTUALLY take steps towards a healthier society. Such as the reduction of chemicals in processed foods sold in stores, teaching our 12 year old children that instead of relying on a vaccine created in a lab, they can grow and eat vegetables that naturally build their immunities. Putting an end to deforestation to help slow down carbon emissions for cleaner air to breathe, instead of building developments to make people like you richer and richer but only further destroying our habitat. Rather than making us slap on a mask to prevent disease between each other, but at the same time give little concern to our environment, littering it with said masks. The environment that physically keeps each and every one of us, as well as all the animals of the world alive.

AGAIN, these motions are unconstitutional and will only further destroy our country and our planet. Eventually natural processes take over. Do not make a war out of this. If you're not going to teach and promote health for everyday practice and long term effects, do not concern yourselves with our health at all.

Sincerely, We The People.

Kira Marie Fenske

Subject: RE: Stop this blatant usurpation of our freedom and basic rights!

External Email

Below, I have my pastors response to your far reaching, unethical and illegal taking of my and my families rights. I have included it because I am just learning of what you are planning and he states my beliefs well. I simply don't have the time to figure out how I could put it any better. Please know if you were ever to move forward on such an aggressive, anti-American approach; there are those of us that will fight with every fiber of our being for our families wellbeing; don't push it.

Stop this blatant usurpation of our freedom and basic rights! My family and I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105 as I understand they are forcing people to comply with medical testing, treatment, vaccinations, examination against their free will and free choice. Furthermore, I understand they are giving such tyrannical powers as forcing people into quarantine facilities. This sounds a lot like the National Socialists in Hitler's Germany. #040 alone gives the local health officer authorization to detain Washingtonians in a quarantine facility and force whatever "treatment" they feel is in the state's best interest. This is about whether our state will respect any rights they don't believe is convenient for them. This is a ploy to subject us to slavery. Please browse #040 yourself if you think I am exaggerating! No disease is as dangerous as losing human dignity and subjecting ourselves to an elitist "health officer" or anyone's subjective control. Stop this blatant usurpation of our freedom and basic rights!

Next time you are thinking of turning us into a Social/Communitistic state, give more warning. You are obviously afraid of what you may hear and weakness is never an attractive attribute in a leader.

Thank you!

Dan DeBoise

Subject: dont approve WAC246-100-070

External Email

wsboh@sboh.wa.gov <mailto:wsboh@sboh.wa.gov>

Please do not approve health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility (WAC 246-100-045). The government should not be making health decisions for us or forcing us into something that we don't believe in or support. People, and government, are inquiring way too much into our private affairs like never before. Never in my 65 years have I seen so much governmental control, censoring and fear factoring.

I understand that COVID is a real thing and that many people are not following what "science" calls protocols. I had COVID and heard from many medical professionals that people who are vaccinated and following the "Science" are still getting COVID, spreading it and dying. If the vaccine was so effective it would not take 4 boosters to stop the virus which hasn't happened yet. People are receiving a false sense of security with the vaccine. I have two co-workers that are fully vaccinated and have been sick for two weeks now with COVID.

There are other healthy positive interventions that should be promoted. People who take Zinc, Quercetin, ascorbic acid and Vitamin D are healthier and do not seem to be suffering side effects of COVID. There is also ivermectin that other states and countries have used to decrease COVID cases.

Again, please think of long term consequences to implementing these WAC's. I would very much love to see everyone get healthy, resilient and feel like they can make their own wise choices.

With appreciation,

Curtis L Hough

I am writing to you all in opposition to your proposed WAC codes listed below:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

The implementation and enforcement of any of these WAC's would be most Washington state resident's final straw. You will have a mass exodus of kids from schools, residents from this state, your own law enforcement officers not willing to go along with it, and those who are willing to enforce any of these WACs will be met with angry citizens willing to protect their families and way of life any way they can.

We will not give in, we will not comply with these tyrannical "laws" being proposed. Any law that goes against the Constitution is NULL AND VOID. There has already been papers filed for the New Nuremberg trials (link to what this is Nuremberg Code - Wikipedia <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fen.wikipedia.org%2Fwiki%2FNuremberg%2Fcode>>).

Trials for the Covid-19 shot do not end until 2023 and I will not have my kids or myself be a part of a trial that has the risk of death. That is MY choice and should remain that way.

Please do the right thing for the citizens of this state and NOT PASS any of these WACs.

Sincerely,  
Angry Citizen

To whom this may concern, i phillip a gray a legal american and law abiding citizen currently residing in WA state would like to express urgent concerns about the following;

I oppose the proposed WAC's 246-100-070 <tel:246-100-070> , WAC 246-100-045 <tel:246-100-045> , WAC 246-100-040 <tel:246-100-040> , WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

These things violate our rights as americans and the core beliefs and values the country was founded on, and it is a major constitutional breach. If we allow this now where does the line stop? Theres no telling what will be over stepped next. This is turning into socialism, no longer a place where theres freedom If choice.

Thank you for your consideration.

To Whom It May Concern,

I learned today that the Washington State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

I am completely against any of the proposed Covid Policies that are over-reaching and immoral.

My family and I stand against these proposed WAC's:  
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I have already let all my friends and family know these are being considered and have encouraged them to speak up and to speak out!

Please do the right thing; protect our freedoms!!

Sincerely,  
Dave Edmiston

I am completely against any of the proposed Covid policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Stop with the medical tyranny. The omicron variant is no more intense than the common cold and offers absolutely no justification to detain citizens involuntarily. This is an absolute violation of human rights.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

Daniel 2:20-22

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for and reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

Proverbs 31:8

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Emily Swanson

I am strongly against all these proposed policies listed below. We do not live in a country that is ruled by dictators who think they know better than the individual to care for their own health and wellbeing, without the government stepping in, and their dependents/children/older adults in their care. The Gov't has no authority to rule over individuals and their children/dependents/older adults in their care. It is against our constitutional rights.

There is no reason to implement any of these laws/policies regarding isolation/quarantine/Covid 19 flu vaccine requirement for adults or children. Absolutely no reason for children to be injected for the Covid 19 jab as a part of the school immunization requirements. There is no scientific proof that the children are at risk.

I was horrified to hear what you at the BoH are proposing. This is immoral and should be criminal. I only hope in the future something will be done to control your crazed grab for power and control of citizens.

I am totally against all proposed WACs

246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Please read the US constitution and learn about the treasured freedoms we have had as citizens of this great country.

Give people responsibility for their health. Look at the true dangers of Covid which can be managed.

And instead encourage people to lose weight! Look at the percentage of hospitalized people that are obese and deal with this true health crisis.

Stop the power grab!

Kristine Grigas

Hi my names Ethan payment and I live in Shelton Washington, I think this new policy is a violation of our rights and it's completely wrong to detain us to a facility. This is sounding like a concentration camp. If we don't have the vaccine and you put us in a facility to be quarantined you are surrounding people with sick people and more will die.

Hello,

What you are proposing is NOT rooted in science, full of fear which leads to control, propaganda, hypocritical, and absolutely not sound in judgment. You need to do your research that is unbiased, truthful, and produces freedom. Do not partner with fear, anti-freedom, discrimination, fascism, and totalitarianism.

I am completely against any of the proposed Covid Policies that are overreaching and immoral.

I stand against these proposed WAC's:  
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Sincerely,

Ben Straup

To Whom It May Concern,

I learned today that the Washington State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

I am completely against any of the proposed Covid Policies that are over-reaching and immoral.

My family and I stand against these proposed WAC's:  
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I have already let all my friends and family know these are being considered and have encouraged them to speak up and to speak out!

Please do the right thing; protect our freedoms!

Cara A. Wells

As a healthcare worker and citizen of Washington state I am completely against the idea to involuntary detain people in quarantine centers if people refuse to receive medical care. Each person has the freedom and liberty to decide what's best for their body and no government has the authority over an individual's body. Coming from a communist country, I am appalled that this state wants to use communist tactics to force people to submit their freedom and will to the government. My body and will always be my choice what I do with it. Therefore I am completely against any of the proposed covid policies that are over reaching and immoral. I stand against the proposed WAC's :WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Washington state board of health, I ask you to do better job at creating policies that will actually benefit the community.

To whom it may concern,

I oppose the State Board of Health's proposal to extend certain infectious disease WACs to include Covid-19. The proposal is a gross and unjustified overreach of power.

WSBOH's policies must comply with the Constitution of WA State.

Witness:

WA State Constitution, Article I, Section 1: " All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights."

WA State Constitution, Article I, Section 3: " No person shall be deprived of life, liberty, or property, without due process of law."

WA State Constitution, Article I, Section 7: " No person shall be disturbed in his private affairs, or his home invaded, without authority of law."

WA State Constitution, Article I, Section 11: " Absolute freedom of conscience in all matters of religious sentiment, belief and worship, shall be guaranteed to every individual, and no one shall be molested or disturbed in person or property on account of religion..."

WA State Constitution, Article I, Section 30: " The enumeration in this Constitution of certain rights shall not be construed to deny others retained by the people."

I refuse my consent to these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Here is my Notice,

Bella Fleur

Dear Sirs,

We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105, which we understand will be discussed at your January 12 State Board of Health meeting. We very much value our freedom to make our own medical decisions. We are all for getting information out and encouraging things such as vaccinations but no medical decision should ever be forced on anyone and there should be no punitive actions and certainly no detaining of anyone! Talk of forcing people into quarantine facilities is just madness. These measures would be an egregious overreach! We have never forced flu shots on anyone and as COVID goes through it's iterations it looks like it will come down to managing it, much as we have done with the flu. Severity, hospitalization and death keep decreasing as we go forward so we believe this is absolutely not the time to ramp up any kind of governing overreach.

Mr. and Mrs. Steven Anderson

#### PROPOSED WASHINGTON STATE HEALTH DEPARTMENT POLICY CHANGES:

\* (WAC 246-100-070) - [2003; Certified on 10/25/2019 WAC 246-100-070]Health officers can force local law enforcement to intern citizens.

\* (WAC 246-100-045) - [2003; Certified on 10/25/2019 WAC 246-100-045]Defines the level of non-compliance where local law enforcement can be forced to intern citizens.

\* (WAC 246-100-040) - [2003; Certified on 10/25/2019 WAC 246-100-040]Procedures for isolating or interning citizens

NOTE: These policy changes were written to include every single citizen - vaccinated and un-vaccinated. If they can make it stick in WA, the rest of the states will follow.

Washington State Health Department Policy Change: [These "Soft Law" regulatory policies were introduced by Washington State's Health Department in 2003 and certified in 2019 - just before the Covid scamdemic arrived].

(WAC 246-100-070) - [2003; Certified on 10/25/2019 WAC 246-100-070]Health officers can force local law enforcement to intern citizens.

(WAC 246-100-045) - [2003; Certified on 10/25/2019 WAC 246-100-045]Defines the level of non-compliance where local law enforcement can be forced to intern citizens.

(WAC 246-100-040) - [2003; Certified on 10/25/2019 WAC 246-100-040]Procedures for isolating or interning citizens

#### WASHINGTON BOARD OF HEALTH (WAC CODE) REGULATORY STATUTES:

\* <https://app.leg.wa.gov/WAC/default.aspx?cite=246-100-070>  
<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault.aspx?cite=246-100-070%26fbclid%3DIwAR3HAGI7OIVrNbs6LSTQRs\\_r7F9sFuPIMt9g0vOvuvtn43IabM6GE9uFs&data=04%7C](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault.aspx?cite=246-100-070%26fbclid%3DIwAR3HAGI7OIVrNbs6LSTQRs_r7F9sFuPIMt9g0vOvuvtn43IabM6GE9uFs&data=04%7C)>

STAY AWAY from the experimental gene altering bio-weapon injection driving the plandemic. Run from the mind controlled/bought off medical-political nexus that is driving the global banking re-org. People and animals are dying from the activation of 5G on the ground and in space (just as they have every single time the MIIC has increased the EMR on the planet: 1G, 2G, 3G, 4G...); and now the Kill Switch: 5G at 60 GigaHertz = Terminal Hypoxia = Goodbye to Blood Oxygen Uptake. Un-injected children are getting fatally injured [CDC Code: MIS-C] by Spike Protein Shedding from their parents. Two year old girls with periods. Boys with inflamed eyeballs. Forty Dead as of 09/21. The injected are starting to activate devices in proximity, and the nano CPU in their bloodstream was made by E2K (Elbrus model)... pharmacovigilance at it's best.

Are you ready to be a docile, sterile, "Transhuman 2.0" w/a short, expensive, disease-ridden life-span?

FRIENDLY REMINDER: It was the government that stole your freedoms, destroyed your businesses, and ruined your children's future - NOT un-vaccinated people. So who do you think is going to the Rex 84 Covid Internment Camps ("CIC's") now? What are those purple/black street and highway lights really for? Exactly how do you think this is going to end?

ARE YOU READY FOR MARBURG (THINK EBOLA)? THEY HAVE ALREADY PREPARED THE NEXT BIG PANDEMIC

Here is the Shocking Next Phase of the Scamdemic Warns Healthcare Whistleblower:

Subject: Stop the Tyranny

External Email

Good Morning,

I am completely against the any of the proposed Covid policies allowing law enforcement to use force and requiring the vaccine for school. These measures are an absolute over reach and complete tyranny. There is overwhelming data about those that have been vaccinated getting infected. In fact, my family got Covid from our fully vaccinated parents. Children should not be subjected to a vaccine with NO long term study and without the manufacture being liable. Law Enforcement/Government should NOT make medical choices for others. COVID IS HERE TO STAY. You can't outsmart or outrun this virus. There are animal reserves and it is here to stay. These mandates and insanity need to STOP. These proposals are immoral and evil.

I stand firmly against these proposed WAC's - 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105.

>>These measures will not pass. God, Angels and the Universe, I ask that you move in and send this darkness back to the light to be transformed and only be returned IN LIGHT. <<

Thank you,  
Daniela Montelongo

To Whom it may concern,

I am writing to express my concern regarding the Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry. As a lifelong WA citizen with two school-age children, I am adamantly against mandating the COVID-19 Vaccine. Mandating the vaccine violates human rights and does not meet the necessary criteria for inclusion in the WAC. As most want us to follow the science on this issue I urge you to look deeper in to the science and how COVID-19 is not a large enough threat to our school age children to deem it necessary to create a mandatory vaccination for them, and would be unethical. This should be left up to our freedom of choice to be able to choose what we put in our body. I feel we should be inclusive of both sides feelings on this issue, and allow those who choose to vaccinate their children to do so and those who don't to not be discriminated against. By forcing the vaccine we will be increasing the division in our great country and adding one more thing for us to continue to fight about.

I also strongly oppose extending the scope of WAC 246-100-070 Enforcement of local health officers to expand authority to involuntarily quarantine individuals. By allowing this to go through and put into action will be in direct violation of our constitutional rights and will be allowing us to repeat what has already happened in history in a not so distant past. This would not be making progress this would be going backwards.

I hope these concerns will be heard and taken seriously.

Thank you for your time.

Hello,

I am horrified at the suggestion and proposition of the following polices: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100 and WAC 246-105.

These are violating people of their rights and freedoms of choice. These are a direct violation of the Nuremberg Code: "The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situation as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision."

Please protect the citizens of WA and their children from losing their rights to choose.

Sincerely,  
Allison Hansen

Subject: Comments on Proposed Inclusion of COVID Vaccination Requirements Within the Washington Administrative Codes for Enforcement Under Revised Codes of Washington (RCW).

#### External Email

As a legally documented resident and registered voter residing within Washington State, I am respectfully providing my comments regarding the discussions being held by WA State Board of Health in consideration of including COVID-19 vaccination requirements within the Washington Administrative Codes for lawful enforcement under the Revised Code of Washington (RCW). I have also attached a PDF file of the comments if that is helpful.

My comments follow in order of personal priority with references provided to proposed topics of discussion by the State Board of Health.

1.0 WAC 246-100-070, WAC 246-100-045, WAC-246-100-040 in regard to detaining, isolating or quarantining a person or group of persons (families) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination.

1.1 I object to any amendment or modification of WAC 246-100-070 which would permit law enforcement to detain, isolate, or quarantine a person or group of persons; including

families, who are themselves; or the minor dependent, of a legally registered citizen of the United States of America, following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling or vaccination for any disease. I encourage the members of the Washington State of Health to disregard this proposed amendment which I believe tramples the fundamental provisions of the United States Constitution and the rights of legal citizens granted by the Bill of Rights.

2.0 WAC 24-105-030."Discussions to add Covid-19 to the list of child immunizations required for school attendance.

2.1 In principle, mandated treatments including this proposed action represents an egregious over-reach by the State and potentially tramples parental rights to administer their family's health decisions with full and factual "Informed Consent".

2.2 Further, consideration of any proposed amendments to the WAC for including Covid should provision "Parental Informed Consent" and reasonable exceptions, (i.e.; natural immunity, alternate treatments including emerging oral drugs, religious beliefs, medical, and private/home education).

2.2.1 In my view there is a complete lack of evidence of the necessity of inclusion of a COVID vaccination requirement in WAC 246-105. Quoting from 246-105-010: "The purpose of this rule is to protect children and the public against certain vaccine-preventable diseases. Under the authority of the board of health, this rule describes the immunization requirements of children attending schools and child care centers." The facts are the current COVID vaccines do not prevent catching the disease or any of its variants, and therefore are ineligible for inclusion in the list of "vaccine-preventable" diseases. The current COVID "vaccines", as is demonstrated by the vast number of "breakthrough" cases, are not able to prevent COVID to a comparable level as actually effective vaccines for the section 030 listed diseases, but merely amount to a pre-treatment for the disease that may generally reduce the severity or death.

2.2.2 Compare and contrast the number of COVID breakthrough cases (and rates) to breakthroughs for those vaccinated against the diseases listed in 246-105-030. Who has heard of multiple breakthrough cases of chickenpox? Diphtheria? Rubella? Measles? Mumps? Pertussis? And the rest of the list, for that matter. The simple fact is, the number of "breakthrough" cases associated with currently listed diseases is so small they are considered negligible - it would be major local news of an outbreak of Measles or Mumps in our local schools, yet these are all but unheard of. Yet the number of COVID cases that breakthrough the current vaccines is significant. Therefore, as a matter of definition, COVID is not a vaccine preventable disease.

2.2.3 Considering that the best available evidence and international focus of treatment the COVID vaccine was to treat the elder community with comorbidities that increase their risk of hospitalization and potentially death. As of this writing reported data indicates that on average, children suffer no worse from COVID than the normal seasonal flu, and considering the unknown potential long term side effects of the current COVID vaccines as an emergency treatment, the risk-reward profile indicates negligible benefit to the children of Washington, while imposing unquantified potential risk upon them.

2.2.4 In your discussions of amending the WAC to include a vaccine mandate please compare the current policy for seasonal flu: Flu is an equal, if not a greater risk to children yet there is no mandate to vaccinate children for the seasonal flu. Yet, this Board is considering mandating a vaccine for a disease, COVID, that is equal or lower risk to children AND has a vaccine with an unknown long term risk profile? That seems illogical and would indicate other non-fact-based motivations for such a mandate. I respectfully urge the board to not add COVID to the list of diseases in WAC 24-105-030.

The current COVID "vaccines", as is demonstrated by the vast number of "breakthrough" cases, are not able to prevent COVID to a comparable level as actually effective vaccines for the section 030 listed diseases, but merely amount to a pre-treatment for the disease that may generally reduce the severity or death.
- 2.2.2** Compare and contrast the number of COVID breakthrough cases (and rates) to breakthroughs for those vaccinated against the diseases listed in 246-105-030. Who has heard of multiple breakthrough cases of chickenpox? Diphtheria? Rubella? Measles? Mumps? Pertussis? And the rest of the list, for that matter. The simple fact is, the number of "breakthrough" cases associated with currently listed diseases is so small they are considered negligible - it would be major local news of an outbreak of Measles or Mumps in our local schools, yet these are all but unheard of. Yet the number of COVID cases that breakthrough the current vaccines is significant. Therefore, as a matter of definition, COVID is not a vaccine preventable disease.
- 2.2.3** Considering that the best available evidence and international focus of treatment the COVID vaccine was to treat the elder community with comorbidities that increase their risk of hospitalization and potentially death. As of this writing reported data indicates that on average, children suffer no worse from COVID than the normal seasonal flu, and considering the unknown potential long term side effects of the current COVID vaccines as an emergency treatment, the risk-reward profile indicates negligible benefit to the children of Washington, while imposing unquantified potential risk upon them.
- 2.2.4** In your discussions of amending the WAC to include a vaccine mandate please compare the current policy for seasonal flu: Flu is an equal, if not a greater risk to children yet there is no mandate to vaccinate children for the seasonal flu. Yet, this Board is considering mandating a vaccine for a disease,

COVID, that is equal or lower risk to children AND has a vaccine with an unknown long term risk profile? That seems illogical and would indicate other non-fact-based motivations for such a mandate. I respectfully urge the board to not add COVID to the list of diseases in WAC 24-105-030.

Regards;

James T. Fulton III; Washington State Resident;  
Residing at 106206 E Tripple Vista Dr,  
Kennewick, WA 99338

What is being proposed is unbelievable.

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

Local health officers' use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility (if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination) is a horrific precedent. This is not the type of history WA needs to be a part of, and it's completely unfathomable that it's on the table. We the people see this playbook move right out of WWII.

In addition, I am completely against Covid-19 injections as part of the school immunization requirements using WAC 246-105. These injections are still experiments, and this should be unlawful.

I will be doing everything in my power to make known this agenda, and create obstacles to this should any aspect be agreed upon.

Dear Washington State Board of Health Members,

I wish to comment on the actions being considered by your Board, as to making the Covid 19 "vaccinations" mandatory for public school children and also, Involuntary detention of a person or group of persons to be isolated in a quarantine facility.

THE PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

These measures are unconstitutional and as we have seen, with the changing of the Covid protocols by the CDC, FDA, Anthony Fauci and other agencies, these mandates have done little to stop the spread of Covid-19, Indeed, the social distancing, face coverings, and lock downs have brought nothing but harm to our children, people, our communities, businesses and our society. True science has been tossed out the window, and doctors who have tried to offer early treatments, have been silenced and banned from social media and even their licenses have been threatened to be taken away. People who have been damaged by these "vaccines," have been forced off of social media, stating that they are NOT anti-vax, but just wanting to share their bad reaction or now, health issues with others, just as a warning as to what could happen to them, if they get the shot, without knowledge of the side-effects. Myocarditis is now being seen among our young people, who have taken the shots. Insurance agencies are seeing more deaths in the last year, than ever before. Indeed, the VAERS system, which is supposed to alert the medical community of any mounting side effects from a new vaccine or pharmaceutical product, is showing vast amounts of damage and death to those who have taken the shots, and this is being ignored. Please do some research on VAERS! Three years ago, I would never have believed that such things could happen in America, and even now, you want to force experimental vaccines, isolation and quarantine upon people who want to make their own choices regarding their health, for themselves and their children?

Last year, we did not know a single person who had died from Covid-19. This year, since the J and J, and mRNA vaccines were introduced, we know many people who have had strokes, brain bleeds, health issues and 2 neighbors died 2 weeks apart, after getting their second shot, and have heard of many more in our circle of friends. I can no longer keep up with the forums where people go to share their vaccine injuries, because there are so many, now. These victims include photos and videos.

Since the vaccine manufacturers are not responsible for the injuries and deaths, who is? For some, getting a "free shot," has caused them many thousands of dollars in testing, ER visits and doctor appointments. Will you be liable, for mandating vaccines - especially experimental vaccines, which have no long-term studies as yet? Are you really willing to force school-aged children to take a shot that was developed quickly and has had no real and honest data regarding the possible and experienced side-effects? Why do you want to use our children as Guinea pigs? A real vaccine (vs. mRNA gene therapy shot), takes many years to test and to prove it is safe. Saying something is "safe and effective," does not make it so. Data does. Doctors or people who have real discussions about side-effects that they have seen, are effectively shut down, and no real and honest discussions and data comparisons are happening, because we "must not do anything to make people vaccine hesitant." Bribes to get the vaccines have now led to coercion, which is leading to force. This is wrong. Parents and their children's doctors should be making their medical decisions, not a Board of Health, nor a president or governor. People who have had the "vaccines," (and now boosters) are now getting breakthrough infections of the "variants," (read mutations) and dying. This is happening in other countries that have had very high vaccination rates, as well. The shots have not stopped Covid-19, which is a Corona virus, that is usually described as a cold or flu. Treating them as we have in years past, would have stopped this "pandemic" sooner.

I am asking that you look into more data and damages done by these new gene therapies, before you mandate such awful things as forced experimental "vaccines" for children, or draconian measures like locking up people who don't follow guidelines that have changed nearly every week. You talk about equity, but have caused division, by creating a lesser class of the "unvaccinated." Many people who choose not to get the shots, have already had Covid-19 and have strong, long-lasting antibodies that protect much better than any jab. That is more real science, that has been tossed out, as well.

Please do not force unwanted vaccines or experimental gene therapies upon our children/Washington citizens, and do not mandate isolating people or families to quarantine facilities. What goes into our bodies should be our choice and we should not fear losing our jobs, homes, or freedoms, because we do not choose to participate in

experimental therapies. Do not ignore the actual data that is coming out, about the ineffectiveness of these shots, and the damage they are doing to the people in our State and all over the world. Please do your due-diligence and do some research!

Sincerely, Carol and Bob Brown, Vancouver, WA

Subject: Covid polices are immoral

External Email

My entire family including myself are completely against any of the following Covid polices that are immoral and over reaching. This is unconstitutional and clearly there is no evidence to back up these vaccines are even doing anything because people vaccinated and not vaccinated are still getting covid. This should be a personal decision not forced upon young children when it's only been approved for emergency use in children and mine are not high risk therefore should not be forced into getting it. These policies are over reaching and immoral. This is America land of the free and will always be! We do not approve and are against any of the following WACS : WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

- very concerned citizens that are against losing our constitutional rights.

Subject: RE: Immunization Criteria for Child Care and School Entry

External Email

Dear Washington State Board of Health (WSBOH) Member,

This is in regards to your upcoming meeting January 12, 2022.

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

And, I am completely against COVID-19 injections as part of the school immunization requirements using WAC 246-105, for the following Reasons:

1. Children are at very low risk for catching COVID.
2. The vaccines are still only EUA (emergency use authorized)
3. We have NO long term studies completed to document any history of safety of this vaccine!
4. Studies are now showing that both vaccinated AND unvaccinated can transmit COVID.
5. I have had numerous people in my sphere who have been vaccinated, been infected with COVID, and have passed away. This proves to me that being vaccinated

does not stop the spread of this virus, nor does it keep people from dying from this virus!!

Furthermore, this is still America – the LAND OF THE FREE AND HOME OF THE BRAVE!  
The Constitution of the United States guarantees freedoms and rights that these proposed measures seek to implement.

I insist that you oppose these measures!

One of “We the People”,

Brent D. Green

Subject: January 12th Washington State Board of Health Meeting

External Email

Hello, my name is Beau Crisp and I am writing to voice my concern regarding your upcoming board meeting. I gathered as much detail as possible but in general I believe that there are proposed rule changes regarding vaccination requirements for school age children and the authority of health officers to detain any resident that has not chosen to receive the Covid-19 vaccine. WAC Chapter 246-105.

I oppose required Covid 19 vaccination requirements for school age children as this vaccine does not prevent the virus nor the transmission of the virus as evidenced by the record number of daily cases . In addition the vaccine has caused injuries and even death in some circumstances. Not to mention the potential long term side effects have not had time to emerge. There are medical experts such as Dr. Malone, who holds the patent on MRNA vaccines, that do not feel that the Covid 19 Vaccine is necessary for children. Therefore, I hope to see that the board refrains from adding the Covid 19 vaccine to the current list of required vaccines, that the board considers the right for parents to choose and that medical and religious exemptions are made available if the vaccine is added to the list.

Furthermore, I also oppose detaining any individual that has chosen not to receive the Covid 19 vaccine. Again, cases continue to skyrocket; breakthrough cases included despite the fact that roughly 70% of Washingtonians are currently fully vaccinated.

On another note, I do not believe any of the proposals are constitutional. Our nation is a free nation and said proposals would infringe on the rights of our citizens.

Thank you for allowing me to be heard.

Sincerely,

Beau Crisp

We are opposed to the proposed WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105 and or any changes made to these regarding anything to do with COVID vaccines, COVID mandates or the giving of health officers the authority to use law enforcement.

We are completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

We are completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

External Email

To Whom It May Concern~

I am unable to make the meeting Wednesday so this e-mail is my public comment in regards to agenda items 5, (246-100 WAC) 9 (246-100 WAC), and 11 (246-105 WAC).

It is alarming to know that the Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents with the proposed policies including:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I would like it to be known that I am against both of these possibilities becoming reality. Implementation of such a policy in the United States of America is against our rights and freedoms as Americans. There is nothing "voluntary" about these proposals.

Please seriously consider putting a stop to these policies.

Regarding:

PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Comment: This is illegal, immoral and unconstitutional and would take away freedoms given to us by God. Anyone supporting such control and loss of freedom should be removed from their job.

- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Comment: There is no informed consent for this injection, therefore, it cannot be mandated. This injection is experimental, therefore, it cannot be mandated. There is no liability for damages caused by this injection, therefore it must not be mandated. There is no medical emergency except in the minds of those full of fear from a corrupt media and from those who want to profit financially from the injections. My body - My choice!

Honorable Members of the Washington State Board of Health,

I would like to express my absolute opposition to implementation of a COVID-19 Vaccine requirement for schools and Forced Quarantine Detention for law-abiding citizens in the state of Washington.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable.'

· Children's Health Defense (childrenshealthdefense.org

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.facebook.com%2F.php%3Fu%3EFXgrbKn8%26h%3DAT05ScIFWlueBBXUcktwmVz5Qb\\_IC1eB5CiM661qIda0KHqUWndoXb22IBdMy34IaBRnR%26c%255b0%255d%3DAT34cWIT4ys5pAskcz59P-P2pbIb0Xu3kDbzTxbIhTMxQ2IZxN2hrfyddAZwp6KiD5W-EAA6R6iDsX7apRixel400zaYN5IW58LXep7UsT-HOCy-KxZg8cIv0xB24yj1mcgHDaumtxYDz2icyf7iyuR9ZvC8&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.facebook.com%2F.php%3Fu%3EFXgrbKn8%26h%3DAT05ScIFWlueBBXUcktwmVz5Qb_IC1eB5CiM661qIda0KHqUWndoXb22IBdMy34IaBRnR%26c%255b0%255d%3DAT34cWIT4ys5pAskcz59P-P2pbIb0Xu3kDbzTxbIhTMxQ2IZxN2hrfyddAZwp6KiD5W-EAA6R6iDsX7apRixel400zaYN5IW58LXep7UsT-HOCy-KxZg8cIv0xB24yj1mcgHDaumtxYDz2icyf7iyuR9ZvC8&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C)  
) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit. In addition, children who have already had the virus and recovered are now protected by natural immunity, which is by far the strongest protection against the virus.

3. No one knows the long-term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it." According to Dr. Eric Ruben, Editor in Chief NEJM, the studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2F.php%3Fu%3bSGqXSkEbK4apjB6ASW-AYYIzf0WkXY%26h%3DAT1nWpeQ1pf5iJu2UcxoQXjYgz9bOBLt0K9diW2JZUZnn8G85giiHlfisEW\\_GAb91kM9\\_1P0HvsN-2LWpbSNUH\\_94aXNWQJxMj9kXGzHQ%26\\_\\_tn\\_\\_%3DR%255d-R%26c%255b0%255d%3DAT34cWIT4ys5pAskcz59P-P2pbIb0Xu3kDbzTxbIhTMxQ2IZxN2hrfyddAZwp6KiD5W-EAA6R6iDsX7apRixel400zaYN5IW58LXep7UsT-HOCy-KxZg8cIv0xB24yj1mcgHDaumtxYDz2icyf7iyuR9ZvC8&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffacebook.com%2F.php%3Fu%3bSGqXSkEbK4apjB6ASW-AYYIzf0WkXY%26h%3DAT1nWpeQ1pf5iJu2UcxoQXjYgz9bOBLt0K9diW2JZUZnn8G85giiHlfisEW_GAb91kM9_1P0HvsN-2LWpbSNUH_94aXNWQJxMj9kXGzHQ%26__tn__%3DR%255d-R%26c%255b0%255d%3DAT34cWIT4ys5pAskcz59P-P2pbIb0Xu3kDbzTxbIhTMxQ2IZxN2hrfyddAZwp6KiD5W-EAA6R6iDsX7apRixel400zaYN5IW58LXep7UsT-HOCy-KxZg8cIv0xB24yj1mcgHDaumtxYDz2icyf7iyuR9ZvC8&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C)  
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Look inside your soul and do the right thing.....DO NOT require these vaccinations for school age children.

In regard to allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040):

- This not only violates the Washington State Constitution, but the right to Religious Freedom protected by the 1st Amendment and the right to Privacy in 4th Amendment of the United States Constitution.

- Therefore 37 or 39 County Sheriff's have signed a letter, pledging not to enforce any involuntary removal of private law-abiding citizens to a quarantine facility.

Science does not support the notion that unvaccinated individuals spread the virus any more than vaccinated individuals, nor do our laws permit us to segregate and discriminate against people for refusing a medical intervention.

- Equal Protection Clause of the 14th Amendment to the U.S. Constitution and the Civil Rights Act of 1964.

Masks, in the words of an FDA physician, are little more than "facial decorations" and have no impact on the spread; yet they are mandated for adults and children. This is not American in any way and the truth will come out.

Those who are hiding their heads in the sand from the facts and science of this so-called pandemic (In the Washington State Flu Season of 2017-18 the death rate was 11%, while the Covid death rate in the State of WA thus far is 1.1% according to government sources) will be held accountable for being on the wrong side of history.

No mandate can be followed that violates human rights of conscience and autonomy.

- There is zero evidence indicating that unvaccinated individuals or free breathing individuals are a threat to the vaccinated and masked.

- And like children, when the 99% of adults who contract the virus, survive it and recover, they too have natural immunity which prevents us from contracting or transmitting the virus again.

There has been time enough to find out the truth about what is going on with Covid, and there is no excuse for these draconian measures to be inflicted on citizens anymore. Each of you have been entrusted with making important decisions about the Public Health of our state and each of your credentials qualify you to serve on this board. However, as Government employees, you are public servants who answer to the Sovereign Citizens of this state & this country, the taxpayers who fund your department & your salaries. You work for us.

I pray for each of you to do the right thing by rejecting these Unconstitutional Mandates and respect the Individual Liberties of every Washington State resident that are guaranteed by the Bill of Rights in the United States Constitution and the Washington State Constitution.

Sincerely,

Brady LaMotte

Please know that I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105. If for no other reason, the potential risk of children being harmed by covid-19 is much less than the potential harm that may come from the "vaccine." We still have no idea what the long term risks are from such vaccination.

Thank you,

Robert O'Bannan

Sent: 1/7/2022 9:30:25 AM  
To: DOH WSBOH  
Subject: Quarantine facilities and making Covid vaccines part of children's vaccination requirements

External Email

To the Washington State Board of Health Members,

I, Debra Ciarlo, residing in Wenatchee, WA, wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and its variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. I, age 65, (unvaccinated) with several comorbidities had Covid in June and July of 2021 (Delta variant) and survived. My God-given natural immunity kicked in and I successfully navigated the disease and am now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS reports!

Also, I have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus. Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept my concerns and recommend AGAINST these proposals being presented.

Sincerely,  
Debra Ciarlo  
1317 Seattle St  
Wenatchee, WA

Subject: Against WAC 246-105

External Email

To whom it may concern,  
I am emailing regarding proposals for the upcoming Washington state Board of Health meeting. I am stating that I am completely against WAC 246-105 , for children to be forced to get vaccinated in order to attend school. Not enough information over years has been accumulated for me to make a decision that vaccinations are beneficial and not harmful. No one should be forced to make a health decision such as this or be forced into isolation or detainment for their rights as a human being. Therefore I also am strongly against WAC 246-100-070 , WAC 246-100-045, WAC 246-100-040.  
I am hoping you will consider human rights and freedom amidst all of this. Government controlling people will only bring unrest in a country.

Sincerely,

Amy Jarju

Subject: Requirements

#### External Email

I, Kati Spencer, a registered Voter and resident of Spokane WA wholeheartedly oppose any and all CoVID vaccine requirements for any minor child in WA state. I oppose any medical treatment, medical examination or counseling (WAC 246-100) without parental consent. I will not allow local health officials to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC-246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) This includes the requirement of the covid-19 injection as a part of school immunization requirements using WAC 246-105.

It is an infringement on our rights as citizens and our ability to do what is best for our children and ourselves. The government doesn't have the right to tell us as parents or US citizens what we can and cannot do with our own bodies. We have the right to medical autonomy and it needs to stay that way. The government needs to get out of our medical decisions.

This is an atrocious abuse of power and we will not stand for it.

Subject: Jan 12 meeting regarding proposed WACs

External Email

To the WA Board of Health:

My name is Jane Sidlo and reside in Federal Way, WA

I want to address the alarming unconstitutional overreach of the following proposed WACs:

WACs: 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105

What you are proposing here is a blatant disregard for our freedom under the constitution.

1.  Do not add Covid-19 to the current infectious disease WAC codes, as this is not a disease that causes death as our government would like for us to believe, with a 98% + survival rate. There has been evidence reported by doctors that they were to falsify death certificates claiming covid when covid was a secondary cause. Suddenly every other ailment disappeared, and everything reported was COVID! Seriously! And you want us to entrust you to implement these WACs!?
2. The definition of pandemic has been changed from 'rapidly spreading infection that kills a lot of people' to 'rapidly spreading infection'. This makes it very convenient for

governments to manipulate and control people by simply changing the definition of a word, using media reporting and spreading that fear incessantly is another tactic. We know from the beginning that covid was 98.+ % recoverable. In addition, politicians along with government agencies have dictated to what doctors can use to treat their patients. Proven treatments are not allowed!! Suddenly, they become the experts and then later we find out these treatments that were pushed are not effective. Such as the vaccine, Remdesivir; the WHO is now saying Remdesivir which was making a lot of money (3K for treatment) for big Pharma is not affective and advise not to use it. (Yes, Fauci praised it! And it has killed many including my friend!)We know the vaccine is not effective because many that have gotten it have gotten Covid and landed in the hospital. I know such people personally. Now they are advised to get the second vaccine and now the boosters and it's never going to end, this is clearly all about control and not concern for real public health. How are we the public to trust these government mandates and this control when we can see and hear with our very own eyesight and our very own hearing that a fraud is being perpetrated not only on this country, this State of Washington in particular, is radically overstepping the people's rights and desires for their own medical decisions. I personally have never gotten Covid, I have relied on my natural immunity and a healthy diet along with supplementation. I do not want to be injected with an experimental vaccine that has been known to kill and harm many people (CDC'S own VAERS DB!). Senator Ron Johnson held a hearing, allowing testimony of all of those that entered the trials of how they were injured and now it is covered up and they are abandoned. So, I say NO! stop this madness, stop this control. It's ironic that the government will allow for the killing of the unborn sighting, 'my body my choice'. But me as an individual that do not want to take a harmful experimental vaccine into my body cannot say, 'my body my choice!' Well, I do say my body my choice!

3. How is it the government, WA State, can ignore all the injuries reported due to the Covid vaccines?? Blood clots, Heart inflammation, Strokes, other sudden death and internal bleeding, uncontrollable body movements! And you sit there with your pens and ink and plan to force this atrocity on your WA Citizens! Some of us remember, we remember it was said in the beginning by the so-called health experts that they don't know the long-term effects! Well, we can see the short-term effects and the so-called cure is worse the illness!

4. I have had to write this letter on short notice, so I will quickly reference one of the WACs, it may be the one ending in 70 or 45, but at the sole discretion of 1 person, he can force a citizen into quarantine, this is frightful! Are we NAZI GERMANY NOW??? Sure sounds like this is the direction this current board and WA government is headed.

5. I appeal to your conscience WA Board of Health, how can you knowing all of this write these Proposed WACs? There is already enough blood on the hands of WA politicians and the media that is going to have to be answered for, DO NOT ADD TO IT!

6. One last point WA Board of Health! If you really cared about the health the of the people of Washington, why on earth would you hand out needles to addicts and promote their slow painful death rather than trying to treat them so they can get well? I can answer that for you, because none of this is about caring or health concerns, it's way bigger than that and you are going along with a very dark agenda.

7. One last comment, leave the children alone! They are not at risk for covid and never were! You are planning to destroy their health for life with this dangerous shot.

I could go on and on with much more information surrounding the lies and agendas behind covid and the shots but time of the essence here. I just hope to God those deceived by all this wake-up, (follow the money and power trips)

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

External Email

Good morning,

I am writing this morning to voice my opposition of the proposed policies. First and foremost I oppose policy (WAC 246-100-070) which allows local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) these specifics come from WAC 246-100.

I also would like to voice my opposition to WAC 246-105 that requires Covid-19 injections as part of school immunization.

Thank you for your time.

Sincerely,  
Christine and Tyler Davis

Good morning,

I write you today in regards to WAC 246-100-070, WAC 246-100-045, WAC 246-200-040, WAC 246-100, 246-105. These bills are of massive concern to all Washington state citizens yet few know they are even a topic of discussion. I idea that you would willfully discuss the notion of detaining the citizens you serve to impose a sense of "greater good" is not only counterintuitive, it's barbaric. The weight these bills carry would fracture the basis of freedom we enjoy in this state and forever damage the trust and confidence we have in any governmental entity. I implore you to see reason in this regard. Vote NO on imposing such tyrannical

Laws on the citizens you claim to serve.

Respectfully,

A concerned citizen

Subject: You wanna be a Nazi? Think about how Nazi ended up with!

External Email

Dear Board Members,

It was shocking to know that you are going to propose the policy as below:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

You wanna be a Nazi? To involuntarily detain a person or group of persons in a quarantine facility?? For Covid-19? The survival rate is 94.5% including elderly people? As for the current domain variant, Omicron, even WHO admits it only has mild symptoms, many people had it and recovered from it, most of them are vaccinated people. You will detain people for this mild variant? Think carefully! Think what Nazi ended up with!! This is America! We the People will never let you do this to us!!

As for another proposal:

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I think you may already know about these:

The CDC Director Walensky herself stated, "What the vaccines can't do anymore is prevent transmission."

Dr. Anthony Fauci says, "We know now as a fact that [vaccinated people with Covid-19] are capable of transmitting the infection to someone else."

Moderna's Chief Medical Officer Dr. Tal Zaks agrees, "There's no hard evidence that it stops [the Covid-19 vaccinated] from...potentially infecting others who haven't been vaccinated."

That breaks new legal ground by proving Covid-19 "vaccines" are mere treatments and therefore have no legal grounds for forced use, especially for kids! Their survival rate is over 99.9995%!

The requirement of Covid-19 injections is a reckless abuse of power without justification in case law.

Do you have the safety data and the long-term side effects data of the covid-19 injections for kids? Before you vote for this proposal, you need to be aware that you are personally responsible for any injuries or deaths to kids caused by the covid-19 injections if you vote yes.

There are already many injuries and deaths reports about the covid-19 vaccine on adolescents out there, if you are interested, I can send them to you per your reply.

Consider your decision think carefully!

A concerned WA resident, Anna

Subject: Public Comments for WSBOH Members from March EH Committee Special Meeting

External Email

Hi,

I am writing to provide a comment for the Jan 12th meeting discussing applying current infectious disease WAC codes to include Covid for all Washington state residents. I and my family stand fully against these proposals, which are over-reaching and deeply immoral. Individuals should have full medical autonomy and decision making responsibility for their medical examinations, testing, treatment, counseling, and vaccination. These are areas of responsibility that should never fall under the government's jurisdiction. It is grievous and wrong to consider including Covid-19 injections in school immunization requirements as science has shown Covid to not be a serious threat against children. Requiring such would be a violation of parental rights.

We stand against these proposed WAC's:

WAC 246-100

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-105

Thank you,  
April Mallery

I am horrified that this is actually being considered. I have read the contents of this WAC and find it to be barbaric and no better than what I understand to be happening in Communist China. This will be placing the Health Department on a very slippery slope towards being policing tyrant's of the people who are capable of making their own personal decisions on health care. Your department has no right to try and dictate what I do with my body. I am coming from 40 yrs as a health care professional and avid reader of history. I have also done extensive research into what is happening with the current health care crisis and anyone who believes this is about our health is totally out of their minds. No to this slippery slope!

External Email

Good Afternoon Representatives,

I am writing to OPPOSE proposed policies:

That allow local health officers to use law enforcement (WAc 246-100-070) that are aimed to force an emergency order to involuntary detain a person or group of persons (families) to be isolated in quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

I am writing to OPPOSE proposed policies:

that would include COVID-19 injections as part of school immunization requirements using WAC 246-105

I am writing to SUPPORT the request to adopt a new rule:

ICWA is requesting the WA State Board of Health adopt a new, permanent Rule prohibiting the Board from adding to the daycare or school requirements any Emergency Use Authorized

product or any licensed product formulation which has not yet completed Phase 3 clinical trials.

This new rule request pertains to any and all avenues through which the Board has authority to add

medical interventions requirements, including through regular or emergency rule-making.

The rule is needed because: Despite the absence of any FDA licensed COVID-19 vaccine w/ completed

Phase 3 trial studies in children, and despite CDC-acknowledged risks of myocarditis and blood clots, the BOH

has gathered a Technical Advisory Group to examine adding COVID-19 vaccines to daycare & school requirements.

This new rule is needed immediately to ensure that federal EUA regulations are upheld & to protect fully informed consent,

which prohibits the use of coercion or undue influence, such as can be exerted by state requirements.

The new rule would affect the following people or groups: All minor children, their parents and guardians in WA state.

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

Dear Board,

I am completely against any of the proposed Covid policies that are overreaching and immoral. I am firmly against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. As you know, the omicron variant is widespread, fast moving, and as a respiratory virus, difficult to control. We must learn to stop panicking and learn live with this virus. Your above proposals do nothing except drive mistrust between citizen and government. This is my opinion, as well as the opinion of my family of 4.

Thanks for your time,  
David Roberts, Puyallup resident

External Email

I oppose the Communicable and Certain Other Diseases Rule.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Additional comments:

(20) "Medical treatment" or "treatment" means the treatment for curable diseases and treatment that causes a person to be unable to transmit a disease to others, based on generally accepted standards of medical and public health science.

With regard to COVID, the vaccines are failing to cause a person to be unable to transmit a disease to others. And "generally accepted standards of medical and public health science" are controversial at best, and at worst are determined by large pharmaceutical companies controlling funding for research and spending more money lobbying than on research. They have no liability for so-called vaccines, they provide misleading poorly designed short-term unblinded research, they have had to pay large settlements for committing fraud, and they are focused on profits at the cost of human lives. Is experimental vaccination that carries risk of death and permanent harm the "treatment" you are proposing?

Isolation" means the separation((, for the period of communicability or contamination,)) of infected or contaminated persons or animals from others ((in such places and under such conditions as)) to prevent or limit the ((direct or indirect)) transmission of the infectious agent or contaminant from those infected or contaminated to those who are susceptible to disease or who may spread the agent or contaminant to others.

Now why would you propose removing the provision that specifies the period of isolation?

(13) "Health order" or "order" means a written directive issued by the state or local health officer that requires the recipient to take specific action to remove, reduce, control, or prevent a risk to public health.

Considering that health orders could include specific action (presumably including vaccination), and that so-called COVID vaccinations are currently available under emergency use authorization (and not approved) and are being administered without informed consent, you should be on notice that this revision puts your "health officers" in the position of further subjecting people to medical experiments. Is that what you're desiring to achieve? Involuntary participation in human medical experimentation? Is the resistance to your attempt at one-size-fits-all mandated vaccination so great that you must resort to these measures?

WAC 246-100-045 specifies "competent medical care" and there is already a great shortage of that. How would you propose ensuring competent medical care?

I don't have time to continue picking this thing apart, but it appears to be an attempt at inappropriate and inadvisable overreach. How would you propose implementing these WAC provisions? The potential for human rights violations, civil rights violations, discrimination, government overreach, and similar harms far outweigh any of your fabricated benefits in this poorly handled COVID crisis that has already been made exponentially worse by the way it has been mismanaged by public health authorities.

Under these provisions, it appears it would be easier to detain someone for having symptoms of the common cold than it would be for a victim of domestic violence to get a restraining order. Even mentally ill persons at risk of causing harm to themselves and others must be allowed a medical exam and have a court order for involuntary medical treatment. Quit trying to impose your ineffective and dangerous pharmaceutical products on adults and children who do not want them and who recognize that there are safe and effective alternatives.

If you're going to mandate anything, you should mandate that your public health officers and authorities read "The Real Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health". The author welcomes debate and any sincere scientific challenges or updates to the thoroughly researched content.

I imagine some of you believe you are acting in someone's best interest, but you are merely doing the bidding of Big Pharma while failing to represent the people and protect our democracy.

A Very Concerned Washingtonian.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105.

I do not believe that forcing COVID-19 immunization of children will be in their best interest or benefit in the long run because of the lack of long-term data of mRNA data. It is unethical to put children's future health on the line for the temporary 'better good' of the adult population during this pandemic.

Respectfully,

Subject: No to Proposed Covid Policies

External Email

Hello,

I am a Washington healthcare worker and I am entirely against the immoral and overreaching proposed Covid-19 policies that will be voted on this upcoming Wednesday, January 12th, by the Washington State Board of Health. I am standing against the following proposed WAC's:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

Using law enforcement to vaccinate people is unconstitutional. Requiring the Covid-19 vaccine to allow children to attend public school is not justifiable. The vaccine does not prevent individuals from catching or spreading the virus. Long-term complications from the vaccine are still unknown. This mandate has played a significant role in destroying the workforce and economy. Implementing mandatory quarantines and screening processes is understandable, forcing a vaccine that does not contain or withstand the virus is not.

Please send more information if possible.

Thank you,  
Edelia Babak

Dear Washington State Board of Health,  
I served as a Navy Nurse. My father served in VIetnam. My husband served in the military for 20plus years. My Uncle served in VIetnam. My Grandfather served and died freeing our POWs in the Phillipines. Many of my operational friends died in Afghanistan. I know all too well the cost of our freedoms. I have that solemn folded flag on my desk. I have seen that folded flag handed to a wife. And those sacrifices that were made by brave Patriots for our freedoms are being totally thrown away.

Since when, in a battle, do we hide or shield ourselves with our children? I would wholeheartedly take a bullet for my children, or any child for that matter. So, why now are we sacrificing our children to a disease which they have a less than 1% chance of severe illness/death from? Never before has a child been forced to take a rushed vaccine for the greater good. We do not have long term studies on this vaccine or the impact thereof. In most of the trials, the control group ended up getting the vaccine. To not have a control group is absolutely unheard of in the production of a new drug. So, why are we pushing it on our children? Children that we should do eveything to protect, as they are our future. What we are doing to our children is completely unethical.

We are cowering in fear. The Greatest Generation that stormed the beaches of Normandy are rolling in their graves right now at our cowardice. My military friends that died in the service of our nation are equally pissed. We are raising a generation of children that are afraid to even breathe. You see fear in their eyes. That is not the American fighting spirit.

I am completely against any of the proposed Covid policies that are over reaching and immoral. I stand against the proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I take this stance because I personally experienced vaccine injury after my athrax immunizations in the military. Vaccine injury happens. I am walking proof and my life has been greatly impacted, thus my children's have too. We should not be pushing this immunization until we know more. Vaccination should remain a conversation between only the patient and doctor.

Thank you for your time. Please continue to safeguard our freedoms that were so valiantly protected through the generations,  
Elisha Wyant

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

It is my right to determine whether my child receive vaccination or medical treatment of any kind according to Title 7 of the Civil Rights Act.

It is illegal to force an experimental drug on anyone. All COVID-19 vaccinations are experimental drugs.

I am completely against any of the proposed COVID Policies that are over reaching and immoral including these proposed WAC's:  
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Fauci himself stated in an interview this week that the number of hospitalizations recorded for children is wrong.

Natural immunity must be recognized.

Therapeutic treatments are available.

The country is not in a state of emergency due to COVID-19.

This is pure overreach.

I am encouraging you to NOT adopt the proposed policies WAC 246-100-070, 246-100-045, 246-100-040 and 246-105.

I am adamantly opposed to these changes. The adoption of these changes will only serve to further divide the citizens and will do nothing to control Covid-19. It will violate our civil rights and further bog down our court systems costing taxpayers thousands if not millions of dollars.

I cannot believe that Washington State believes it is ok to treat citizens like this.

Subject: Do We Still Live In the USA?

External Email

To Whom It May Concern

I'm not sure what's happening in our state or in our world, but seeing that you have a .wa.gov  
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwa.gov%2F&data=04%7C01%7Cw>>  
after your name gives me reason to believe that you are in a position to hear me out and take appropriate action to answer my question: Do we still live the USA?

I am aghast at the completely dictatorial policies that are coming out of Olympia. The fear mongering and the division being caused by unconstitutional policies surrounding this "pandemic" are surreal. Data manipulation, misinformation, and an utter lack of transparency to the people of this country is causing an internal disintegration of our country!! Who benefits from this? Certainly not the people of the USA.

The mandate on a "vaccine" that is not even a vaccine was the first 3 alarm bell going off in my head (perhaps there were others that I ignored - shame on me) but these upcoming proposals listed below are cause for much higher alarms. People will not stand idly by. This needs to stop now!

"I am completely against any of the proposed Covid Policies that are over

reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you?"

If you have any say in this matter, now is the time to speak.

Thank you for your time,

--

Dear Board members,  
I am a born and raised citizen of WA State.  
Granddaughter of a WW2, Korea, and Vietnam veteran of the United States Army .He like so many others who fought and many who died , handed us our freedom on a silver platter. And this is how some in our state wish to thank them.My Grandfather must be spinning in his grave for the COV policies you wish to add to 246-100-070,246-100-045,246-100,&246-105 .All are much like nazi Germany!They are tyrannical goverment over reach ! Unjust and oppressive! NO MORE MANDATES!!!! NO MORE! We the PEOPLE have had enough!  
Please read and re-read the United States Constitution until you understand it. And then read the Nuremburg Code. These policies you are pushing for ,go against We the PEOPLE. Remember that and your place as an employee.

Sincerely A. Davies

Subject: WAC Proposed policies 246-100-40/45/70/100/105

External Email

I am strongly against all these proposed policies listed below. We do not live in a country that is ruled by dictators who think they know better than the individual to care for their own health, without the government stepping in, and their dependents/children/older adults in their care. The Gov't has no authority to rule over individuals and their children/dependents/older adults in their care. It is against our constitutional rights.

.

There is no reason to implement any of these laws/policies regarding isolation/quarantine/Covid 19 flu vaccine requirement for adults or children. Absolutely no reason for children to be injected for the Covid 19 jab as a part of the school immunization requirements. There is no scientific proof that the children are at risk.

Hello,

The covid-19 recovery rate for the majority of the population, ESPECIALLY CHILDREN, is almost 100%!

There are therapeutics to treat covid-19 the government has been suppressing from the public. Hydroxychloroquine, Ivermectin, vitamin D + Vitamin C + Zinc + Quercetin = cure for covid-19, for ALL AGES

Please see attached ORDER that proves Pfizer has been trying to hide the information about its covid-19, gene therapy "vaccine". Please read in its entirety.

Please also see attached two newspaper articles from the early 1900's that says the epidemics were being caused because of the vaccinations, and take note the SCHOOLS and MILITARY decided to stop requiring vaccinations because they were causing MORE HARM and not creating immunity. The newspapers say this publicly. History repeats itself.

"A popular Government, without popular information, or the means of acquiring it, is but a Prologue to a Farce or a Tragedy; or, perhaps both. Knowledge will forever govern ignorance: And a people who mean to be their own Governors, must arm themselves with the power which knowledge gives." -James Madison

"For a nation that is afraid to let its people judge the truth and falsehood in an open market is a nation that is afraid of its people." -John F. Kennedy, February 26, 1962.

I strongly OPPOSE - DISAGREE:

Covid-19 vaccination mandates for children and adults - weather it be school, private/public businesses of any size

-ingredients of vaccinations are not yet public

-adverse reactions, injuries, death due to the vaccinations are being suppressed by the government and media - look at the most recent VAERS REPORTS

-anyone who QUESTIONS the efficacy of the "vaccines" are called "conspiracy theorists" - there needs to be two sides of the conversation heard and made public

-each person has the right to decide for themselves what medical treatments to receive

I strongly OPPOSE-DISAGREE:

-Requiring Covid-19 injections as part of school immunization requirements using WAC 246-105.

--Medical decisions for children are to be made by the PARENTS. NOT THE GOVERNMENT.

--There are no longterm studies for covid-19 - therefore, there are unknown risks/consequences.

I strongly OPPOSE - DISAGREE:

Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

--Medical decisions are to be made by the INDIVIDUAL person. NOT THE GOVERNMENT

--

5-CENT 'PHONE CHARGE IS SET

Flat Rate on All Public Calls Established by Burleson.

Public telephone pay station rates will apply to all switchboards conducted by hotels, clubs, and private institutions beginning December 1, according to an order issued yesterday by the Postmaster General Burleson.

The order, issued by the committee on standardization of rates for telephone service, is as follows: "On and after December 1, 1918, hotels, apartment houses, clubs and similar institutions shall not charge any guest, tenant, or member for telephone messages an amount in excess of flat charged for such service at the public pay stations in the same exchange nor shall they charge for private branch exchange stations an amount in excess of that actually paid by them for such stations."

"Tribe" Leader Fined For Borrowing Wife

For borrowing his follower's wife Father Armand, patriarch of the "Tribe of Israel," of Fairfax County, was fined \$50 yesterday at the second session of the Circuit Court.

Followers of the prophet crowded the courtroom, protesting it was the custom of the "tribe" for the leader to borrow the wives of the faithful. The husband in this particular case, however, maintained that his consent to the transaction had not been obtained, as the customs of the tribe also demanded, and had the "father" arrested.

NUXATED IRON advertisement with image of a bottle and text describing its benefits for strength and energy.

EVERETT TRUE BY CONDO cartoon showing a man in a suit talking to a woman. Text includes: "EVERETT, DON'T YOU GO WAY!", "MRS. TRUE, THE BOYS WANT ME TO JOIN THEM AT THE CLEAR STORE, AND I SO I'VE GOT AN APPOINTMENT AT EIGHT O'CLOCK!!", "THEN YOU ALSO HAVE A DISAPPOINTMENT AT EIGHT O'CLOCK! YOU'LL STAY RIGHT HERE AND HELP ME WIND THIS SWEATER YARN!!"

BROKERS ELECT MEETING HALL OLD OFFICERS FOR D.C. URGED

Appraisal Committee Important Factor in Real Estate Men's Organization. Congress to Get Plan to Use Navy Building for Conventions.

The election of officers by the Washington Real Estate Brokers for the ensuing year was held last night at a meeting in the Board of Trade rooms. The unanimous selection of the officers of last year was made. They are as follows: Charles W. Fairfax, president; Herbert P. Shannon, vice president; A. S. Gardner, treasurer; Chas. S. Shreve, secretary.

"SUFFS" SEEK \$50,000 FUND

District's Quota \$1,000 in Drive to Gain Money Needed for Victory Vote.

One vote per month for the past ten months at a cost of \$10,000 is the record of the National Woman's Party. One more vote is needed and it has just received an extensive drive for \$50,000 more to gain it and the District has been called on to raise \$1,000 of this sum.

The fifty thousand dollars is to be spent to rouse the whole country to voice its demand for the quick passage of the suffrage amendment. The Democratic party is to be made to feel its responsibilities, as the party which has been in power six years for this legislation, "the suffrage leaders declare."

INFLUENZA, EPIDEMICS AND VACCINATION

By Chas. M. Higgins, Brooklyn, N. Y.

Vaccination a proved cause of epidemics and a possible or partial cause of the present epidemic of influenza and pneumonia. Request to the U. S. War Department to suspend all army vaccination during epidemics, and to make all vaccination wholly voluntary as it now is in the English army.

Hon. Newton D. Baker, Secretary of War, War Department, Washington, D. C. Dear Sir: As a lifelong student of the nature and effects of vaccination and its relation to public health, and as an American citizen interested in the best welfare of our soldiers and citizens, please permit me to suggest that your department might now very properly direct that all army vaccination should be suspended during the present epidemic of influenza and pneumonia which is now prevailing in different parts of the country and causing many deaths.

Medical Authority Forbids Vaccination During Epidemics and Opposes Compulsion.

The highest medical authorities, even the strongest pro-vaccinators, advise the suspension of all vaccination during epidemics of contagious diseases. See Osier's Modern Medicine, edition of 1913, Vol. I, pages 847 and 848. This recent work of high authority also condemns all compulsory vaccination and admits its dangers as follows: After advising against all vaccination during epidemics of dangerous diseases it states:

"With the greatest care, however, certain risks are present, and so it is unwise for the physician to force the operation on those who are unwilling or to give assurance of absolute harmlessness."

There is some suspicion now existing that the multiple and widespread vaccinations of different kinds to which the soldiers have been subjected for some time past in the several camps throughout the country may be a cause, or at least a condition of the present epidemic, which may favor its spread, for as a matter of fact, it has spread more severely in these camps, particularly in New England and more especially in Massachusetts, where the epidemic seems to be the most fatal. The great number of cases occurring in the Massachusetts camps and at Camp Dix, in New Jersey, with the high mortality of 25 per cent, seems to show that whatever the disease truly is—it is, surely, in its worst types a very dangerous and fatal infection and calls for the most serious and careful precautions, one of these being the suspension of all infecting operations, like vaccination, while such a dangerous epidemic exists.

Grave Nature of Present Epidemic of Influenza and Pneumonia.

From the rapidity, severity and mortality of the disease it would seem not to be a true influenza, as heretofore known, and as its worst cases are characterized by a rapid and fatal ending, sometimes with a few days' sickness, in malignant or septic pneumonia, with abscesses in the lungs, it seems more related to the very fatal "Pneumonic plague" which raged in Manchuria after the Japanese war. This suspicion is strengthened by the fact, just reported in the newspapers, that the chief germ found in the fatal cases is the "streptococcus" which is found in the worst forms of "blood poisoning" or "septicemia" and also in vaccination. Now the act of ordinary vaccination is, in itself, an act of blood poisoning, pure and simple, and it is so classed in medical and statistical works as a form of "septicemia," and one disease germ commonly found, with many others, in vaccine virus is the streptococcus, which is the chief germ found in all bad pus infections and abscess formations. See Manual of Causes of Death, U. S. Census Bureau, 1913, page 56, No. 20. Therefore, as the act of vaccination is simply the impregnation of the body and blood with a pus infection identical with "septicemia" or "pyemia," and as this infecting process is repeated at wholesale in the bodies of thousands and tens of thousands of men closely massed in camps, should it be any wonder if an epidemic of some sort of "septicemia" should crop out at some time under such conditions?

Possible Relation of Vaccination to Present Epidemic.

In leading medical and statistical works both influenza and pneumonia are all classed as different forms of "septicemia," and while I do not of course know, and do not say, that the present epidemic of influenza and pneumonia is actually caused by vaccination, yet I repeat that when the body and blood of millions of men all over this country and Europe is deliberately impregnated with various septic diseases, or septicemic infections, can any reasonable person, whether doctor or layman, be surprised if such world-wide, and million times repeated, acts of septicemic infection should be ultimately proved to have some causative or conditional relation to the present world-wide epidemic of septicemic disease? Is it physically or medically possible to go on sowing and spreading some mild disease, at wholesale, within human bodies, without reaping some wild diseases at retail?

It's a Big Show With a Kick That Generates More Energy Than Niagara Falls

See for yourself, then tell your friends. It's a Big Show With a Kick That Generates More Energy Than Niagara Falls. See for yourself, then tell your friends.

quarter around the earth from that cause of infection.

Great Danger of Vaccination During Epidemics.

It is of course very difficult to prove or determine the real cause or origin of any epidemic disease and as a matter of fact, with few exceptions, these diseases are a great mystery to the medical profession and very little is as yet known about them. It is known, however, that ordinary vaccination is very dangerous during epidemics and should be stopped while the epidemic exists, because, what is called double or "mixed" infections are very dangerous and very likely to be fatal in final effect. See Osier's Modern Medicine, Vol. I, pages 82 and 83. For example, if the infection of pneumonia should enter the system at the same time when it was struggling with the vaccine infection it would be almost sure to kill, particularly the severe type of septic poisoning now prevailing. Hence the medical and hygienic wisdom of suspending all septic infecting operations, like vaccination, while any epidemic condition exists; and also the wisdom of now making all vaccination voluntary, instead of compulsory, as advised by the high medical authority quoted and by the present example of the English army.

Logical and Medical Relation Between Influenza and Vaccination.

Another interesting point in this connection is the actual relation between influenza and the two closely related diseases of vaccination and smallpox. Of course, you know that vaccination and smallpox are simply varieties of the same disease and that modern vaccine virus originates directly from human smallpox, which is transplanted to the cow and thence used from the cow on the human body, instead of being taken directly from some natural or inoculated disease of the cow, called "cowpox," as in the original vaccination of Jenner, which was taken from the cow directly to the human arm and thence from arm to arm—a form of vaccination which was long ago given up and prohibited as most dangerous to human health and life.

You must also know that smallpox is a very "various" disease and that this is the probable reason for its Latin name, "Variola," because it exists in so many forms or "variations," and one of these varieties is a puzzling and misleading form, without eruption, which is almost identical with influenza, so that one disease can be, and often is, mistaken for the other. In fact true smallpox might be described simply as influenza with eruption and mild smallpox or vaccination as influenza without eruption! This, you will see, establishes a logical and medical relation between vaccination and influenza and further strengthens the suspicions stated that the present epidemic of influenza and septicemia or septic pneumonia may have some causative relation to the extensive wholesale and repeated vaccinations in the military camps throughout the world and would indicate that this vaccine infection was now escaping from and overflowing its usual bounds and running wild as a world-wide epidemic infection; and hence the positive and compelling reasons for now checking this overflowing infection by suspending all further vaccination while this epidemic and infecting condition exists.

Influenza Vaccination and Smallpox on the U. S. Battleship Ohio. To show that the relation above outlined, between influenza, variola and vaccination, is no mere fancy, let me cite the instance of the influenza and smallpox epidemics in the vaccinated crew of the U. S. Battleship Ohio in December, 1913, as taken from the U. S. Naval Medical Bulletin of October, 1914. Here I think you will find a most interesting confirmation of this point, as follows: "Coincident with the outbreak of smallpox on the Ohio, an epidemic of influenza was present and had been for several days. The initial symptoms of both diseases are so similar that until the eruption appears in smallpox it is impossible always to differentiate between the two; and, indeed, it is possible that some of the cases classed as influenza may have been smallpox without eruption."

Epidemics Actually Caused by Vaccination.

That the hypothetical condition suggested in a preceding paragraph, viz., that the wholesale and world-wide vaccine infection going on for the past few years has possibly now escaped from its usual bounds and is now overflowing and running wild and thus causing epidemics in mankind, or animals; that this, I say, may be no mere hypothesis or theory, but rather a hard fact, is proved by the frightful epidemics of "foot and mouth disease" in the United States in 1902, 1908 and 1914, which originated from two of the largest vaccine factories in this country—One in Philadelphia and the other in Detroit—and was widely distributed to cattle and mankind in several of our States. See reports of U. S. Bureau of Animal Industry, 1905 and 1908.

Proved Value of English System of Non-Compulsion.

I feel sure, therefore, that this new well-tested English reform of abolishing compulsory vaccination, and making all vaccination voluntary will prove equally successful with us, as in England, in the increase of general health and reduction of disease as so clearly stated in the quotation already given from the English Minister of Health. See also the recent English work, "The Vaccination Question," London, 1914, by Dr. Milford, a pre-vaccinator, health officer of the unvaccinated city of Leicester, who gives similar testimony, after many years' experience, condemning compulsory vaccination and showing its needlessness for public health and its great dangers to human life.

Conclusion.

In conclusion, I hope, therefore, that your Department will see the truth and wisdom of the suggestions here offered and will do what seems best to you to have these suggestions adopted in the army, viz.: to suspend all vaccination during epidemic conditions and make all vaccination voluntary as it now is in the English army. This reform will I am sure conduce to the best health and welfare of the whole army and particularly to the newest or youngest part of it, the boys under 21, now called into military service, and which is one of the most precious possessions of the nation to be most carefully conserved in every way we can.

Also Year Book of U. S. Dept. of Agriculture, 1914, page 38.

It is clearly shown in these reports that vaccine infection was the direct cause of these epidemics in 1902 and 1908; but the cause of the epidemic of 1914 and 1915 is not so clearly proven, although there is a strong suspicion that it was caused by vaccine infection like the two others, and as a matter of fact it originated in the same State—Michigan—where the epidemic of 1906 originated and where the largest vaccine factory in the country is located.

These vaccine epidemics caused the destruction of hundreds of thousands of cattle and other domestic animals in over a score of States, at a loss of many millions of dollars to the Government and people of this country. Surely any medical operation so inherently dangerous and capable of inflicting such injury on animals, or man should not be forced on any person against conscientious objection or without free will and consent and should not be required by our enlightened domestic government in our army in any form except purely voluntary like all other medical remedies and operations.

There is an attempt made in some of the official reports to deny that these epidemics of "foot and mouth disease" caused by vaccination could be or were transmitted to mankind in virus and were limited to domestic animals, but this I believe to be a grave mistake, as I have the most convincing evidence that this disease was so transmitted to many human victims both child and adult with most awful effects in 1902 and 1908 and is frequently transmitted to mankind in vaccine virus.

Vaccine Factories a Possible and Proved Source of Epidemics and Should Be Investigated by Congress and the Government.

This foot and mouth disease is a horrible eruptive fever, a kind of "cowpox," or something like a mongrel smallpox and diphtheria combined, or also like a very bad chickenpox, with successive crops of blisters or blotches, something like cold sores, large and small, breaking out all over the body, but chiefly on the hoofs or hands and feet, lips and nostrils, also inside the mouth and throat. Sometimes these blotches become confluent and pustular and continue for months but usually, the eruption ends in a few weeks in recovery or death. In the worst cases, with internal eruptions and pus infection, affecting vital nerve centers, the end comes in a few days by the victim choking to death from paralysis of the heart and breathing organs like what happens in infant paralysis, rabies and lockjaw.

Now here we see that at least two, and probably three, great epidemics of fatal disease have originated from vaccine factories and this raises the serious question as to how far other epidemics, or even the present epidemic, may have originated from some vaccine factory or from some of their products extensively or carelessly used. Surely, the places where dangerous infectious diseases are constantly propagated on a gigantic scale, and disseminated therefrom into the bodies of millions of animals and mankind, should be the very possible or probable source of epidemic disease. Obviously, therefore, this entire subject of the present extensive manufacture and distribution of diseases or disease cultures or products and its relation to epidemics and public health should be thoroughly investigated by Congress and the Government at an early date. To show you what a gigantic and dangerous medical interest this vaccine manufacture has now become, it may be sufficient to state that there are now about 150 concerns licensed by the U. S. Government to manufacture vaccines and serums for animal or veterinary use, and about fifty concerns licensed to make vaccines and serums for human use with a capital of about fifty millions! This is one of the great medical interests supporting compulsory vaccination which is a grave medical malpractice, which should be abolished wherever it exists and replaced by wholly voluntary vaccination as already shown.

Data Proving Danger and Fatality of Vaccination and Its Needlessness Where Sanitation and Hygiene Are Used.

With this letter I send you three pamphlets containing facts which will verify some of the statements herein made, viz.: First, my pamphlet, "Open Your Eyes," which in pages 21 to 23 will show how vaccine virus is made and how diseases are transmitted by it to animals and mankind, including the serious epidemics of 1902 and 1908. In pages 24 to 26 you will find data from the Registrar General of England, one of the highest statistical authorities in the world, showing a yearly mortality from vaccination which is often greater than that from smallpox, particularly in little children, where it is frequently many times more than that from smallpox. We have a similar or even greater mortality from vaccination in this country, but it is most shamefully denied and concealed by that part of the medical profession which is fanatical on compulsory vaccination and which now controls most of our Departments of Health and Vital Statistics. This serious charge I am prepared to legally prove when necessary. On page 45 in the pamphlet you will find testimony from the English Minister of Health that the partial repeal and the consequent decline in vaccination and increase in sanitation have not increased smallpox but greatly reduced it and that actually, in his own words—"as exemptions from vaccination have gone up from four per cent to thirty per cent, so deaths from smallpox have declined." It is estimated that over fifty per cent of the children and from five to ten per

cent of the army in England are unvaccinated.

Second: In Mr. Loyster's pamphlet entitled "Vaccination Results in New York State in 1914," you will find a record of about thirty deaths of little children, including the author's own son, which were caused by vaccination, ending fatally in lockjaw, paralysis, or septicemia. Photographs and particulars of these cases are given which makes a most shocking record of the dangers of vaccination to health and life and the shameful efforts of a dominating part of the medical profession to constantly deny, minimize and conceal this very grave fact.

Third: In my latest pamphlet, "Vaccination and Lockjaw," you will find an exhaustive explanation of the true relation of vaccination to lockjaw and how it causes many deaths from lockjaw in little children, and the falsity of the apologies and arguments by which some doctors try to deny and conceal this fatal responsibility of vaccination for such deaths, which should be now unquestionable to any honest or competent doctor.

Wonderful Work of War Department and Army Acknowledged.

Before closing, please permit me to express my full appreciation of the wonderful work done by your department and our army officials in raising, encamping and equipping our present great army and putting it into the fighting field so quickly and so potently, with the result of immediately turning the tide of warfare against the enemy, for which majestic result your department and our army officers most fully deserve, as they undoubtedly have, the unstinted thanks and congratulations of our whole citizenry, civil and military, man and woman.

No army in the field or camp has ever been taken better care of in a general sanitary, hygienic and medical sense than our army during this grueling war. The able and liberal way in which the physical, moral, mental, religious and recreational needs of the men have been covered by various bodies, military, medical, civic and religious, is the wonder of all our citizens who have visited our camps. And to this undoubtedly is due the cheerful and high spirits, the wonderful morale and fighting power of our brave soldiers that has made itself instantly felt on the battlefield in the barbarous enemy to his knees and will undoubtedly soon result in a complete victory over the basic American principles of democratic government for the whole world—Equality—Consent of the governed and rational liberty for all citizens in their inherent rights.

Compulsory Vaccination Condemned as Un-American.

I feel therefore that the only blot on this glorious record of our army is the disastrous medical practice, or rather malpractice, of compulsory vaccination, which violates the fundamental American principles and also violates the oath which the soldier takes as to "Liberty and Justice for all." In compulsory vaccination there is obviously neither "liberty" nor "justice" and it is utterly opposed to the fundamental American principle of liberty and choice and to the sanctity of the body, and it therefore fits only with some code of Prussianism from which it has been in fact copied. I believe, further, that with the excellent sanitary and hygienic conditions now used in our army, the medieval medical barbarism of compulsory disease inoculation, ostensibly to produce health, is to say the least, neither necessary nor ultimately useful but probably produces far more disease than it prevents. For example: for one death that naturally occurs from smallpox or typhoid fever, ten to one hundred occur from the far more frequent and fatal diseases of tuberculosis, pneumonia and meningitis. And let us here ask what is the use of having the soldiers forced to submit to a whole series of disease infections, if these infections, at best, only give immunity for a little while from such diseases, as typhoid and smallpox, and make the system more susceptible to a greater mortality from the far worse diseases of pneumonia and meningitis, which actually seems to be the possible effect of vaccination from the recurring epidemics of these dangerous diseases in our heavily vaccinated camps.

Proved Value of English System of Non-Compulsion.

I feel sure, therefore, that this new well-tested English reform of abolishing compulsory vaccination, and making all vaccination voluntary will prove equally successful with us, as in England, in the increase of general health and reduction of disease as so clearly stated in the quotation already given from the English Minister of Health. See also the recent English work, "The Vaccination Question," London, 1914, by Dr. Milford, a pre-vaccinator, health officer of the unvaccinated city of Leicester, who gives similar testimony, after many years' experience, condemning compulsory vaccination and showing its needlessness for public health and its great dangers to human life.

Conclusion.

In conclusion, I hope, therefore, that your Department will see the truth and wisdom of the suggestions here offered and will do what seems best to you to have these suggestions adopted in the army, viz.: to suspend all vaccination during epidemic conditions and make all vaccination voluntary as it now is in the English army. This reform will I am sure conduce to the best health and welfare of the whole army and particularly to the newest or youngest part of it, the boys under 21, now called into military service, and which is one of the most precious possessions of the nation to be most carefully conserved in every way we can.

An enthusiastic welcome awaited the Russian royals.

ASK \$51,000,000 FOR NEW SEWERS

Metropolitan Commission Outlines Plan Requiring 14 Years to Finish.

DISPOSE WASTE OF CITY OF 9,000,000

Protection of Rivers and Harbors Included in System Proposed After Eight Years' Study.

The Metropolitan Sewerage Commission, which in 1906 has been considering ways and means of providing New York with an adequate system of sewage disposal, in its final report, which will be made public this morning, recommends the building of a system that will take sixteen years to complete and cost \$51,000,000.

The system recommended by the commission resembles in the main the system inaugurated by the Metropolitan Sewer Commission of Massachusetts. The problem here in many ways resembles that presented in greater Boston, only on an immensely larger scale, and the great intercepting sewers and distributing stations planned find their counterparts in the sewers that traverse the valleys of the Charles and Mystic rivers, and in the big pumping stations at Moon Deer Island and Peddock's Island, in Boston Harbor.

According to the estimates of the board, if begun now, will cost \$14,000,000 by 1918, \$25,000,000 by 1929, \$38,000,000 by 1935, leaving \$13,000,000 to be expended before the work is completed in 1930.

Such work, the commission recommends, should be done under the supervision of a central body, and operated by such a body, if not made part of some existing department, such as that of water supply. The construction of works by the boroughs and operated by borough officials is said to be impracticable, its success depending upon erection and operation by a central body responsible only to the whole city.

The report, a most bulky and complete document, is signed by Dr. George A. Soper, president of the board; James H. Fuertes, H. de B. Parsons, Charles Scoy Smith and Lindsay R. Williams. All have placed their resignations in the hands of the Mayor, with a request that they be relieved from further duty and permitted to turn over their records to the Board of Estimate. At the request of the Board of Estimate the commission will continue in office a short time longer, that the board may have the benefit of its services in considering the new project.

Commenting on the report, Dr. Soper says that the works recommended are necessary to clean up and prevent further pollution of the harbor, which he now asserts to be the dirtiest of any of its size in the world, and avoid the necessity of spending vastly larger amounts later on, when the growth of the city will have doubled the amount of sewage to be disposed of daily and make the harbor a menace to life.

The system recommended consists largely of intercepting sewers running parallel to the waterfront to collect the sewage from the local systems, with outlets at the bottom of the deep and swiftly flowing channels. The scheme being one which provides for future construction and needs is so designed that each part as completed will in time become a link in the system, that, while not needed now, will ultimately be necessary, the works to be commenced in the near future, being only such as are immediately necessary from a sanitary standpoint.

As designed, the plans permit of the utilization of new methods of sewage disposal that may be discovered without "scrapping" any part of the plant that may have been constructed, even of some system by which the values of sewage as fertilizer may be recovered with safety to the community and at a cost that will not be prohibitive commercially. A large part of the commission's report is devoted to demonstrating the fact that it is not at present, at least, possible to install a system by which the \$5,000,000 worth of manurial values in the city's sewage now dumped into the sea can be utilized.

The commission is flatterly against any scheme calling for the collection of all the sewage of New York at one central point and disposing of it by sending it out to the sea, because of the extreme cost—approximately three times the estimated

HAVE YOU MADE YOUR WILL?

YOU ought not to die without making a Will. If you do nothing, the law provides an administrator for you but perhaps the person appointed might be the very one that you know is least capable.

Again, if you do nothing, the law provides where your property will go—but will it go where you want it to? Better talk it over with our trust officers to-day. Next week may be too late.

TITLE GUARANTEE AND TRUST CO Capital \$5,000,000 Surplus (all earned) \$1,000,000 176 Broadway, New York 175 Kenner St., 196 Montague St., B'klyn, 350 Fulton St., Jamaica.

cost of the plan recommended—and the difficulty that would be experienced in so disposing of all the sewage at sea and not causing nuisances along the adjacent shores.

KILLED AT PARTY BY TWO IN AMBUSH

Victim Shot Down—Slayers with Guns Awe Guests and Escape.

James Costaro, of 324 East 109th st., was a guest at a merry birthday party last night in honor of William Cornacchio. After a tango he stepped out in the vestibule of the building at 262 East 121st st., to cool himself.

At sight of him two men who had been lurking in the shadow of the stoop rushed at him, firing as they ran. Costaro fell, mortally wounded. Without stopping to look at their victim the bandits dashed through the dancing rooms, threatening the guests with their pistols, and to a rear window.

A boy named Mentini was sitting in this window. They hurled him to the ground, leaped out, ran across the back yard, placed a ladder against a fence wall and escaped.

Costaro, not knowing death was so near, started to drag himself to a drug store a block away. He fell dead before he reached it. An examination showed that the bullet, which entered his back, penetrated the heart.

The murder is a mystery to the dead man's friends and the police. One theory is that the assassins mistook him for some one else. Still another is that they were enemies of Angelo Cornacchio, for whose son William the party was given.

Five shots in all were fired, only one of which took effect. The guests at the party were so terrified by the firing and the hurried rush of the two gunmen that they were unable to give any description of them.

Costaro was married and had a two-year-old son. It was to keep the news of his being wounded from his wife that he attempted, unaided, to make his way to the drug store.

FIVE DEAD IN EXPLOSION

Gas Accident in Ohio Attributed to Lighted Cigarette.

Columbus, June 14.—Five men are dead and ten are in hospitals with serious injuries as the result of a gas explosion in a trench here to-day. Five other men also were burned, but only slightly.

It is believed that a cap on a joint of gas pipe was blown off while the men were laying the main, and that the escaping gas was ignited by a lighted cigarette.

GUARDSMEN TO GET TEST CALL TO ARMS

Companies of Infantry, Cavalry and Engineers Face "War" Signal.

"BLUES" HERE WILL CONFRONT INVADERS

Army Officers to Direct Rapid Mobilization—Medical Examination for Men.

A trial mobilization of a part of the militia will be made within a few days as a part of the plan just adopted for getting the militia into line for immediate call.

Exactly as if President Wilson had called for volunteers, several companies will be mustered into service as for war, with regular army officers superintending and doctors rejecting those unfitted for the field.

The plan that will be worked out was prepared by Major General John F. O'Ryan, who has just returned from the War College, in Washington. Heretofore, when the militia and volunteers were called for federal service, confusion and delay resulted. Under the plan of Major General O'Ryan it is hoped to develop speed and certainty in mobilization, using a small force for the experiment, that, if successful, will be applied to the whole militia.

An order will be sent out to the companies selected, stating that the President has called for volunteers to defend the nation (blue) against a foreign power (white). The companies will be directed to assemble in their armories at 5 a. m. the following morning for service in the field.

This order will be sent to Company B, 7th Infantry; Company E, 4th Infantry; Troop L, 1st Cavalry; Machine Gun Troop of Cavalry; Battery F, 1st Field Artillery; Battery B, 2d Field Artillery and Company D, 23d Engineers.

At once army officers will arrive at the armories and order the companies to recruit to full war strength, which is as follows: Company of Infantry to 150 men, troop of cavalry to 100, battery to 171 men and company of engineers to 164 men.

In order to make the test as practical as possible, everything will be done up to the moment when the men are ready to take the oath of enlistment. Records will be made of all men and their finger prints taken.

Lieutenant Colonel R. Foster Walton and his staff will prepare a camp for mobilization, and Lieutenant Colonel Stenberg, with his staff, will see that all supplies are made ready. By the time the trial recruiting for war is finished in the armories and the companies in full strength have been mustered in, the camp will be ready for them in every way, including equipment, water supply, shelters, railroad sidings, subsistence, fuel and forage.

The following regular army officers have been detailed to work out the plan: Colonel William H. Sage, chief mustering officer; Lieutenant C. B. Hedges, with the 7th Regiment; Lieutenant Thomas L. Crystal, with the 4th Regiment; Captain J. B. W. Corey, with the 1st Field Artillery; Lieutenant Harry Pfeil, with the 2d Field Artillery; Captain David H. Biddle, with the 1st Cavalry; Captain L. C. Andrews, with the machine gun troop; Captain W. D. A. Anderson, with the engineers. Chief medical officer will be Sanford H. Wadhams, U. S. A.

National guard officers assigned to assist the medical department are: Lieutenant Colonel W. S. Terriberry, Major D. R. Lucas, Captain G. M. Muren, Captain E. Bishop, Captain S. McCullagh, Lieutenant L. Hulton and Lieutenant J. T. Plicher.

2 Killed as Train Jumps Track

Danville, Va., June 14.—Engineer John Wingate, of Danville, and Fireman Pickard, of Southern Railway train No. 22, bound from New York to Birmingham, were killed in a derailment early to-day at Sadler, N. C., fifteen miles south of here. All coaches save the last three left the track.

WRIGLEY'S SPEARMINT

Illegal Re-Vaccination in Our Public Schools

Advice to Our Citizens AND

Warning to Our Boards of Health

AND OUR Boards of Education

This Open and Public Letter to the parent of a pupil in our Public Schools, with regard to certain acts of Illegal Vaccination now being practiced in our Public Schools and in some of our Parochial and Private Schools, will speak clearly for itself on this important question and will answer the inquiries of several of my correspondents similarly wronged by such oppressive, usurping and illegal acts of our health and school officials in this City and State.

Mr. John J. Cannon, 305 E. 152 Street, New York City.

Dear Sir: I regret very much that your recent letter was mislaid in a mass of other correspondence not requiring immediate answer, but I will now fully and carefully answer your inquiries.

You do not state whether the school which discharged your daughter for refusing to be vaccinated was a public school or a parochial or private school. This makes a big difference in answering your questions for the reason that the state vaccination law applies to public schools only. But I assume that the school you refer to was a Public School.

If any Health Board doctor or other person threatened to come to your house and compel you to have your child vaccinated against your will, you have committed the crime of intimidation and coercion, and you should have him prosecuted under certain sections of the Penal Code by complaint to the nearest magistrate, particularly if he has actually attempted to carry this threat into effect. There is no law in this state compelling any person to be vaccinated against his will and consent, and to attempt or to effect such forcible vaccination is a crime.

There is another very important point in your case that I want to call to your careful attention, and that is your statement that your child was vaccinated six years ago; so that what the Health Board doctors now want you to do is to have your child re-vaccinated under their present theory that vaccination is useless as protection on the part of these doctors, the fact being that the period of protection by vaccination is very vague and indeterminate and by some of the best authorities is placed at a very short period not exceeding three or six months or a year.

Whatever the correct theory of the period of protection by vaccination may be, however, I now advise you that this point is entirely irrelevant in your case, and that the demand of any health official or school official in this town to have your child re-vaccinated at their dictation and upon their threat to otherwise exclude her from her undoubted right to attend public school is illegal; and furthermore, that such school official or health official is thereby committing a crime under the Penal Code and that you should make a complaint against him immediately before the nearest magistrate, as before stated.

The school vaccination law in this state requires only one vaccination to admit a child to public school; and the Attorney General of this state has given his legal opinion that one vaccination (and this whether successful or not) satisfies the vaccination law of the state relating to public schools. Moreover, a court and jury in this state in the City of Rochester have decided, as a matter of law and fact, that a child once vaccinated (whether successfully or not) is actually and legally vaccinated and is legally eligible to enter a public school under the laws of this state. I therefore further advise you that, in my judgment, there is ground against either our school or health officials who wish to deprive you of your legal right to have your child vaccinated but also for a suit for damages against either our school or health officials who wish to deprive you of the public schools because you will not submit to their illegal and criminal dictation of requiring your child to be re-vaccinated at certain arbitrary periods of years which they have in their own minds picked out as necessary but for which there is no justification or authority in law whatever. They have, indeed, as much right under the present law to require re-vaccination of our school children every four years as they would have to require it every year or six months or at morning, noon and night, that is, no right whatever to require any of these arbitrary and dangerous acts.

Now all this vaccination fanaticism of which our little school children are made the suffering victims is done under the old medical superstition—which, by the way, is very profitable to the vaccinating profession—that frequent and general vaccination is necessary to protect our children from the great alleged danger of infection and death from smallpox; whereas, it is easily proved from the vital statistics of this State, which are open and public every year, that there is regularly more danger of being struck by lightning than of being killed by smallpox, and that this slight danger from smallpox is least of all in children of school age who are most naturally immune to smallpox and all other causes of death in general, and which actually show only 5 per cent of the total deaths from all causes although they constitute 25 per cent of the whole population.

On the other hand, it can be readily proved from death certificates and other data not published but now concealed by our Health Departments in this City and State (all dominated and controlled by vaccinating doctors) that there are actually more deaths caused every year in this City and State from smallpox and Septicemia in children—even two or three times more in some years! And I now again challenge our Health Departments in this City and State to deny or disprove this solemn, shocking and fearless statement of medical and statistical truth if they can or dare. And if they shall dare deny it I then challenge them to allow a free and open inspection of our death certificates and vital records by a thoroughly representative, able and disinterested Committee of Citizens to establish the truth or error of my statement in a public manner.

I am, of course, not surprised that our Health Officials should act in the lawful manner here complained of with regard to vaccination or re-vaccination, as they have been doing such acts for years past and are now doing them all over the state, although repeatedly rebuked and restrained by the highest courts in this state and in this City of Brooklyn in particular for acts of illegal vaccination. But I am surprised that the men of various types of intelligence and character who form our Board of Education, supposed to be selected from representative citizens of all classes in this community, should lend themselves so readily and so supinely to this shameful violation of law and abuse of official power with regard to the illegal and dangerous scheme of periodic re-vaccination in our Public Schools, which is more dangerous to the health and life of school children than smallpox.

And if these intelligent men would only take the trouble to independently study this great subject of vaccination down to its basic facts and up to present date and cease their blind acceptance of the fallacies of so-called high authorities they would not be so easily fooled by these musty old medical falsehoods commonly accepted as to the necessity, efficacy and safety of vaccination for public health.

I therefore wish to again appeal to the words of our greatest Mayor and Civic Martyr, who appointed most of the men now in the Board of Education, namely, our great Mayor Gaynor, who has been perhaps the greatest exponent of the rights of the citizen under our laws and the greatest enemy of the abuse of official power that we have ever had in our political history, and I now ask our Board of Education to give special attention to some of his last words covering this very point, to be found on Page 88 of his "Letters and Speeches," and these words the Board of Education and the Board of Health may now consider as applying directly to themselves in this case:—

"We must see to it that those whom we elect to office do not go outside of the laws or set themselves up above the laws and do as they please. It always has been the case throughout the world that the officials who did this did it on the plea that the laws were not good enough—that they could do better than the laws prescribed. Beware of all such officials. We do not want officials who have any lust of power. We want officials who are careful to exercise no power except that given to them by the people by their laws. There is no more dangerous man in a free country, in a democracy, than an official who thinks he is better than the laws."

In conclusion, I wish to say that I have had so many complaints such as yours of this illegal re-vaccination in our Public Schools and this illegal intimidation and coercion to vaccination against free will and consent by Health Board doctors and nurses and by School Officials that I have concluded to make this reply and advice to you an open and public letter addressed not only to you in person but to all citizens, and to our Health and School Officials in particular, with the hope that such dangerous and illegal acts will be suppressed at once and if not so suppressed that our citizens will ask for the dismissal of the officials guilty of these oppressive, usurping and illegal acts.

CHAS. M. HIGGINS, Treasurer Anti-Vaccination League of America.

271 Ninth St., Brooklyn, N. Y., June 15, 1914.

NOTE: The necessity of answering a large correspondence that had accumulated from previous press articles, and other unavoidable circumstances, has delayed the continuance of these articles and has also suggested a change in the order of future subjects which will continue in a few days.

The whole purpose of these articles is to enlighten the public mind as to the facts about vaccination, to refute old and dangerous medical falsehoods and false statistics, and to leave all voluntary vaccination perfectly free for every one who desires it or believes it to be good or necessary for health, public or private, but to restrain and prohibit all compulsory vaccination in every shape and form as violative of most sacred and fundamental human rights and most dangerous to public health and human life and profitable only to vaccinating doctors and vaccine manufacturers.

LITTLE MOTHER TO FIVE SAYS, "ADOPT ALL, IF YOU TAKE ANY"

Six Homeless East Side Children Draw Throng of Women to Sheltering Society, but Mollie, Ten Years Old, Hugs Baby Elizabeth Tight.

Bereaved mothers of the East Side and those with children, too, thronged the rooms of the Hebrew Sheltering and Immigrant Aid Society, at 229 East Broadway, yesterday. Word had gone out that there were six homeless children there.

On the bench in the reception room huddled the six. Mollie Kosavsky, ten years old, was the head of the family. For three weeks she and her sister Cecil, eight years old, took sole care of the others, with such help as kindly neighbors could give them. Yesterday Mollie snuggled Baby Elizabeth, sixteen months old, in her arms. Hyman, William, Louis and Meyer gathered close to the two elder girls and eyed intruders resentfully.

"Don't worry," whispered Mollie softly as she rocked Elizabeth in her arms. "They shan't take one of us unless they take all. And they can take none unless our father gives his consent. He will never do that. Soon he will be back with health and work, and all will be well."

But Baby Elizabeth was hugged tight when admiring women sought to inveigle a smile by sly chirrups and finger snapping. "Not one without all!" whispered Mollie fiercely to herself. Early in the spring their home in

Buffalo had been broken up. Their mother had been sent to a state hospital for the insane. The doctors said her case was hopeless. Walter Kosavsky, the father, brought his brood to New York. He got two poor rooms at 59 Ridge st., and sought work as a shoemaker. His search was unsuccessful.

The rooms got very cold at night and the windows had to be kept closed. The father's cough got worse. Sometimes there was no food, and when there was the smallest child had first choice. By the time the father's turn came the pickings were lean indeed. Finally he, too, was sent away. He had tuberculosis, and some of his acquaintances had him sent to a sanatorium.

For three weeks Mollie and her sister Cecil kept the family together, meanwhile attending school at Ridge and Broome sts. Finally some of the neighbors told the teachers in the school how matters stood. The assistance of Judge Leon Sanders, president of the Hebrew Sheltering and Immigrant Aid Society, was invoked, and he had the children taken to that institution temporarily. Now the society is trying to get in touch with the father to obtain his consent to their adoption.

Subject: WA State Board of Health January 12th meeting

External Email

I am writing in regards to the following WAC codes that will be discussed in your board of Health meeting on January 12th -

I am a long time resident & voter of the State of Washington and have been appalled at policies that have been pushed onto Washingtonians from the beginning of this pandemic. As a citizen and tax payer of our state, we should be given the chance to vote on all matters that affect our Rights & Liberties.

WAC 246-100-070 - Which would allow Local Health Officers / Law enforcement to detain a person / group... Please vote no, on this policy, this is unnecessary use of force towards WA state citizens. The cost of this policy would be huge and would open the doors to immense damage & trauma to many families and persons unnecessarily.

WAC 246-100-045 - Which would allow the detainment of said group of people.... Please vote no, Did we not learn our lesson from Germany & our own detainment of Japanese Americans. This policy is frightful, abusive and is Morally & Ethically unconscionable.

WAC 246-100-0440 - To include the COVID vaccinations as part of school immunization policy... This age group is not in danger from this virus, nor is the current vaccines approved by the FDA - these vaccines are still currently in the Emergency Use stage. We do not know the long term effects of these vaccines as they have not been studied in humans or animals for long term damage. We can't consciously or morally force these experimental drugs on our children, our future. If this becomes a requisite to public education, my children will have no part of it and will be pulled immediately.

\* There is only 1 Vaccine currently approved by the FDA and it is not even available or being administered in the United States currently.

\* The Break through covid cases among the vaccinated is appalling and most Omicron infection is in the vaccinated population.

\* What we should be focusing on is Therapeutics & Prophylactics to help support the population who are inevitably getting the virus (whether they are vaccinated or unvaccinated), not the detainment of citizens or forcing medical treatments.

\* We need to support each other to get through this, not alienate or separate citizens based on whether they take or not take an experimental gene therapy, that is is waning quickly and showing to need boosters.

Thank you for your time in this matter,

Sincerely,  
Svea Miller

From: Allyson Rasmussen  
Sent: 1/7/2022 11:23:11 AM  
To: DOH WSBOH  
Cc:  
Subject: Oppose All Proposed Covid Policies

External Email

To Whom It May Concern:

I completely and unequivocally OPPOSE any of the Covid Policies that are overreaching and and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100 and WAC 246-105.

As a parent of 2, I have consulted with our healthcare providers and have decided not to have my children get any of the available Covid-19 vaccinations. I will reevaluate when Phase 3 data is available and the data is released from the trial phases is made public.

It is not acceptable to consider adding Covid 19 vaccinations to the mandatory list as the vaccines are still under EUA and have not completed trials. It is disconcerting that efforts to make trial data public is stalled, there should be no mandatory vaccinations without full transparency of all data related to what is being required.

More importantly, it is well established that generally kids are not at risk of death from any variant of Covid. Additionally, we now know that the vaccines do not prevent spread or infection in adults or children. There is some discussion about disease severity reduction, and hopefully at a minimum the data proves this out, but severity is also generally not an issue for kids.

Please do not add proposed Covid 19 Policies to WAC 246-105, WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, and WAC 246-100. If this happens without options, my kids will not be part of the public school systems, and we will be forced to move out of our beloved state.

Thank you,

Allyson Rasmussen

Stephen Kutz, Elisabeth L. Crawford, Temple Lentz, Vazaskia Crockrell, Fran Bessermin,  
Bob Lutz, Umair and A. Shah, MD, MPH

My understanding is that you are considering mandating COVID shots for school age children as a requirement to attend school. My hope is that families who do not want the shots whether for medical reasons or religious reasons will be allowed exemption.

I have studied hundreds of hours about COVID, literally, reading a wide variety of offerings. Here are my major concerns.

1. I have asked patients who got vaccinated what Informed Consent was given to them- "not much" is the most common response. I am sure that I do not need to include RCW 69.77.050 to remind us all of the concept of informed consent but here it is:

Washington State Legislature site online:

RCW 69.77.050

Informed consent.

(1) Prior to treatment of the eligible patient with an investigational product, the treating physician shall obtain written informed consent, consistent with the requirements of RCW 7.70.060(1), and signed by the eligible patient or, if the patient lacks the capacity to consent, his or her legally authorized representative.

(2) Information provided in order to obtain the informed consent must, to the extent possible, include the following:

(a) That the patient has been diagnosed with a serious or immediately life-threatening disease or condition and explains the currently approved products and treatments for the disease or condition from which the eligible patient suffers;

(b) That all currently approved and conventionally recognized treatments are unlikely to prolong the eligible patient's life;

(c) Clear identification of the investigational product that the eligible patient seeks to use;

(d) The potentially best and worst outcomes of using the investigational product and a realistic description of the most likely outcome. This description must include the possibility that new, unanticipated, different, or worse symptoms may result and that death could be hastened by the proposed treatment. The description must be based on the physician's knowledge of the proposed treatment in conjunction with an awareness of the eligible patient's condition;

(e) That the eligible patient's health benefit plan is not obligated to pay for the investigational product or any harm caused to the eligible patient by the investigational product, unless otherwise specifically required to do so by law or contract, and that in order to receive the investigational product the patient may be required to pay the costs of administering the investigational product; and

(f) That the eligible patient is liable for all expenses consequent to the use of the investigational product, except as otherwise provided in the eligible patient's health benefit plan or a contract between the eligible patient and the manufacturer of the

investigational product.

(3) The document must be signed and dated by the eligible patient's treating physician and witnessed in writing by at least one adult.

My understanding is that IT IS THE LAW to provide informed consent about a procedure. That was my training and that is my practice. The person needs to be told the possible good, bad, and the ugly. THEY GET TO CHOOSE if they want the procedure whether for themselves or their child(ren). If they are not informed and something goes awry-That is LAWSUIT time and the plaintiff will likely get awarded a lot of money if the provider cannot prove informed consent.

2. I am interested to know what your personal liability is as a governmental agency, and as individuals within that agency, if you mandate the COVID experimental shot for school attendance without possibility of exemption. What recourse will families have if

a child is vaccine injured or even dies because you used your governmental power to coerce families to do something they did not want to do? I am a Washington State taxpayer and

would prefer not to have to pay more in taxes to cover the expenses if the State successfully

gets sued even by one family due to DOH mandated school COVID shots.

If you suggest that with the current available information you believe, as a Washington State agency, that the

COVID shots could be helpful and the family decides to proceed on their own, there would be less chance of

expensive lawsuits and settlement payouts for the State. The families who want the vaccines will get them.

Policy

In fiscal year 2021, the U.S. government paid \$246.9 million in claims for vaccine-related injuries and deaths. Not a single payout was related to Covid-19 vaccines.

Each person with a "provable" injury from a Covid vaccine could claim up to \$379,000 from a special Covid vaccine fund set up by the federal government. The payout for death could be as high as \$370,376.

However, according to an OpenTheBooks.com investigation, the federal government didn't pay a penny for Covid-vaccine claims. The special fund for these claims is called the Countermeasures Injury Compensation Program (CICP).

There were only 1,357 claims filed that alleged "injuries/deaths from the Covid vaccines," and 53 were listed as deaths, according to recent reporting by the U.S. Department of Health and Human Services (HHS).

By contrast, the self-reporting Vaccine Adverse Reporting System (VAERS) lists 16,310 deaths related to Covid vaccines. Of these, "5,326 of the deaths occurred on Day 0, 1, or 2 following vaccination[.]"

The low number of applicants to the CICP fund for injuries or death from the Covid vaccine suggests that people don't know the special fund exists.

The "normal" vaccine fund, the National Vaccine Injury Compensation Program (VICP), has existed since 1988 and provides compensation for injuries or deaths associated with

most vaccines routinely administered in the United States (such as pediatric and seasonal influenza vaccines), according to the Congressional Research Service. Last year, this fund paid out \$246.9 million in vaccine-related injuries and deaths. Payouts include \$250,000 for a vaccine-caused death and \$250,000 "for pain and suffering and emotional distress." A special vaccine court handles these claims. However, in the case of Covid-19 vaccines developed and approved under Project Warp Speed, deaths resulting from a Covid vaccine would pay out through the CICP and would pay more money than a vaccine-related death in normal times.

Since the benefit for a death caused by a Covid-19 vaccine is \$370,376 for fiscal year 2021 and \$50,000 per year for lost employment income (with a lifetime cap to be "generally \$379,000"). So, the death benefit is \$120,376 higher than for other vaccines (\$250,000).

However, there is no equivalent to the VICP's \$250,000 "for pain and suffering and emotional distress" under the current Covid-19 parameters.

Here are some other differences between the two vaccine-injury funds:

1. No attorney fees. The Covid fund is not authorized to provide reimbursement for attorneys' fees. Therefore, lawyers have less incentive to represent claims.
2. Injured children receive small payouts. A Covid vaccine-injured child would only be reimbursed for "reasonable medical expenses." Since the child survived and isn't employed, there's no other compensation.
3. Narrow window to file a claim. The Covid fund allows a one-year window to file a claim whereas the regular vaccine fund has a three-year window.

And sure enough, the CICP fund hasn't paid out a dime in Covid-vaccine claims. HHS bluntly states online, "As of October 1, 2021, the CICP has not compensated any Covid-19 countermeasures claims."

#### BACKGROUND:

The federal government is still operating under the "public health emergency" declared by Trump administration HHS Secretary Alex Azar on February 4, 2020. This declaration created a different funding stream for claims from adverse reactions to vaccines. Congress established the Countermeasures Injury Compensation Program (CICP) as part of the PREP Act in 2005 to encourage the rapid development and deployment of medical countermeasures during a public health emergency.

The Public Health Emergency (PHE) declaration has been renewed multiple times, most recently by Biden Administration HHS Secretary Xavier Becerra, on October 15, 2021, effective October 18, 2021. (Under federal law, the declaration lasts 90 days and can be renewed).

For the most part, since that February 4, 2020, declaration, "manufacturers, distributors, and health care providers are generally immune from legal liability (i.e., they cannot be sued for money damages in court) for losses related to the administration or use of covered countermeasures against Covid-19[.]" CRS reports.

This liability protection enabled those industry players to shift into high gear to address the pandemic without fear of lawsuits. Under the PHE declaration, the CICP funds any lawsuits related to adverse reactions proven by victims or their families.

\$246.9 million in non-COVID-vaccine-related claims (FY2021)

According to the VICP's latest report dated October 2021, \$4.6 billion in total compensation has been "paid over the life of the program" (which began in 1988). From 2006-2019, 6,054 claims were compensated out of the 8,516 petitions for compensation that were "adjudicated by the Court[.]"

According to the table included on page nine of the report, in fiscal year 2021 the U.S. government paid out \$210.4 million to 722 petitioners, and, after adding in attorney's fees the total U.S. taxpayer outlay was \$246.9 million.

With such a complicated and bureaucratic process in place, it's no wonder that zero Covid-vaccine claims have been paid to victims or their families.

#### NOTE:

The vaccine injury/death compensation issue was first tipped to us by the prestigious Illinois watchdog organization, Edgar County Watchdogs. Learn more here

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fedgarcountywatchdogs.com%2F&>

We reached out to Health and Human Services and a spokesperson replied. Review the entire response here

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.openthebooks.com%2Fasset>

“The Countermeasures Injury Compensation Program (CICP) is working to process claims as expeditiously as possible. For the majority of COVID-19 countermeasure claims, including COVID-19 vaccine claims, the CICP is still waiting for records and documentation to be submitted. About 90 percent of claims are awaiting medical records for review. Requesters are permitted to submit the necessary medical records after the claim is filed and this is the most significant factor in the processing time for CICP claims.”

National Vaccine Injury Compensation Program Data Report,- updated October 1, 2021, Updated monthly, and includes the number of petitions filed; adjudications compensated and dismissed; awards paid by type and amount; claims by vaccine; and adjudication categories by vaccine.

Adam Andrzejewski

In conclusion:

I know that these have been stressful times and that you as public health officials have, more than likely, studied hard the COVID VAERS data from the CDC, testimonials from real healthcare providers who are in the “trenches” dealing with high numbers of COVID patients (and perhaps using low cost medicines with good results), so that you are well informed to make careful decision(s) that will impact the short and long term health of Washington State citizens young and old.

This is a great opportunity for all of you to make history as DOH board members who made excellent choices for Washington State children based on good science and medicine.

Respectfully,  
Patti Robbins, ND

To Whom it may concern,

I am writing to express my concern regarding the Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry. As a lifelong WA citizen with two school-age children, I am adamantly against mandating the COVID-19 Vaccine. Mandating the vaccine violates human rights and does not meet the necessary criteria for inclusion in the WAC. As most want us to follow the science on this issue I urge you to look deeper in to the science and how COVID-19 is not a large enough threat to our school age children to deem it necessary to create a mandatory vaccination for them, and would be unethical. This should be left up to our freedom of choice to be able to choose what we put in our body. I feel we should be inclusive of both sides feelings on this issue, and allow those who choose to vaccinate their children to do so and those who don't to not be discriminated against. By forcing the vaccine we will be increasing the division in our great country and adding one more thing for us to continue to fight about.

I also strongly oppose extending the scope of WAC 246-100-070 Enforcement of local health officers to expand authority to involuntarily quarantine individuals. By allowing this to go through and put into action will be in direct violation of our constitutional rights and will be allowing us to repeat what has already happened in history in a not so distant past. This would not be making progress this would be going backwards.

I hope these concerns will be heard and taken seriously.

Thank you for your time.

Corey Dolan

Subject: NO Concentration Camps in Washington State or the United States!!!!

External Email

To the Washington Board of Health:

We are commenting about the policies that will be discussed at the January 12, 2022 meeting regarding current infectious disease WAC codes to include Covid-19 for all Washington State residents. We are very concerned about WAC 246-100-070 to force an emergency order to INVOLUNTARILY detain a person or families to be isolated in a QUARANTINE FACILITY (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination testing.

We do NOT want CONCENTRATION CAMPS in this state (or this country). This was something that was done during the Hitler's Nazi regime. This is absolutely UNACCEPTABLE!

We also do NOT want the Covid-19 injections included as part of the school immunization requirements using WAC 246-105. Most children have had mild symptoms. This is CHILD ABUSE!

Sincerely,

Cheryl and Rod Thompson

□

Greetings:

I am writing to provide my comments to address the subject meeting.

To be specific, I have provided the policies that I understand will be addressed below in bold:

**PROPOSED POLICIES:**

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Here are my comments:

I believe that these proposed policies are wrong on multiple levels. For the sake of brevity, I will provide in bullet point form my rationale for reaching this conclusion.

- a) The vaccines have proven to be ineffective. Viruses mutate, and every

year there will be a new variant. This is true of the flu also. We don't mandate that people take the flu vaccine. Why are we considering mandating that everyone take a vaccine for Covid? (and by the way, the flu vaccines are never better than 60% effective either for the same reasons)

b) The vaccines are an experimental drug. These have not been thoroughly vetted. It normally takes 10 years of vetting before a vaccine is released. Never before in history have we mandated one treatment to the exclusion of all others. This is a dangerous path to take.

c) We are seeing increasing evidence of the danger of the vaccine to young people. There are numerous cases of cardiac issues, guillain barre syndrome, disrupted menstrual cycles, still born babies, and sudden death. If even a fraction of these cases are tied to this vaccine, that should be reason enough to pause and wait for the data to come in.

d) The school age population is the population least at risk from Covid. The risk reward ratio simply does not make sense to require vaccination amongst any population. But it makes the least amount of sense with school aged children. They are at the least risk from Covid, and they are at the most risk from the vaccine itself.

e) We have always protected pregnant women and minors from experimental drugs. In fact, the package inserts of virtually every reputable drug on the market contains language that the medicine has no data for people who fall into those categories. Because it is considered unethical to include them in clinical trials. Yet, we are now considering mandating their participation in the largest clinical trial in human history.

f) Insurance companies are beginning to show data that the death rate among working age people; between the age of 18 and 65 has increased significantly. And that's excluding those that died from Covid. Now one can argue that we don't know why. But the one factor that has changed in that time period is the introduction of the vaccine. Doesn't it make sense to wait and evaluate that data?

g) Finally, this mandate will result in a gutting of the public school system as many parents will simply opt out. They may personally be willing to take the risk of an experimental drug. But to expose their children is probably a bridge to far for many.

There are many more reasons that this mandate is a very bad idea. But for the sake of brevity I will stop there.

I respectfully request that you take these thoughts into consideration and move to not move forward with this dangerous policy.

Respectfully yours,

Derek Soanka  
Resident, Vancouver, Washington

The government is out of line.

I am 100% against any and all of the proposed covid policies trying to be introduced. They are over reaching, immoral, and more importantly unconstitutional. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

The government has no place intruding on individuals personal health care. Every individual is different and reacts differently to different treatment. This is between the individual and their trusted doctor. Furthermore, the latest variant has proven to be far less of a threat. With the strongest variant we had a 98% chance of being fine so with this latest one we are certainly well above 99%.

This madness needs to stop!

Sincerely,

Carli

I vehemently oppose WAC 246-100-070, WAC 246-100-045, WAC 246-200-040, WAC 246-100, WAC 246-105 . Any discussion on using these codes on the public in the state of Washington is a direct violation of bodily autonomy and medical freedom. No person or group should have the right to vote on what another person does with their body or what medical interventions they must accept. The fact that these are up for discussion in the first place is a moral affront to the republic that our country is founded on. Even if board members do not believe in God given rights, the very essence of the usage of these codes is un-American. The Washington State, with its beauty and rich cultural makeup, that I was proud to speak of to others and share my home with, is beginning to look nothing like itself. The rights of my body are not up for democratic vote.

Sincerely,  
Concerned citizen.

To whom it may concern,  
I am completely opposed to any of the proposed Covid Policies that our local and federal government are trying to enforce and mandate. It is a complete over reach and immoral. This is a violation of our constitutional rights! We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. So disappointed in the governing bodies of Washington State!

External Email

I stand against these proposed WAC's:

WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Detaining & forcing medical testing and/or treatment is unconstitutional & unnecessary in America. No FORCED COVID shots of children!!

Forcing medical care, isolation, or treatment is totally unnecessary as COVID is getting less & less dangerous. As it mutates it is becoming more contagious but is causing less severe illness.

Because the majority of the population is vaccinated, along with natural immunity of those who have had the illness, herd immunity is happening now which will keep the illness under control.

The action of mandating a vaccine to the least impacted age group is unconscionable! There are side effects from these shots, making them much more dangerous than if the child were to contract the virus. There are also many unknown long-term effects, including possible sterilization.

This action would cripple the already failing public schools. So many parents are already about to Home School their kids and this will force this action upon them.

You cannot say you want to do this to protect the children when you speak of mandating the vaccine for a virus that is becoming more like the flu every day and impacts kids 0-19 years old the least. Follow the data!!!

Both of these proposed mandates are terrible and unnecessary and would take away more of American's constitutional rights and God-given freedoms!!

ALLOWING LOCAL HEALTH OFFICERS TO USE ENFORCEMENT TO FORCE AN EMERGENCY ORDER TO INVOLUNTARILY DETAIN A PERSON, OR GROUP OF PERSONS, TO BE ISOLATED IN A QUARANTINE FACILITY FOLLOWING REFUSAL TO VOLUNTARILY COMPLY WITH REQUESTS FOR MEDICAL EXAMINATION, TESTING, TREATMENT, COUNSELING, VACCINATION.

Regards,  
Allison Lewey

Subject: FW: Wa State Board of "Health" & Inslee's proposed Tyrannical & Unconstitutional Quarantine Camps & Forced Vaccines

From: Sue Kicha <GALEK\_TSP@msn.com>  
Sent: Friday, January 7, 2022 12:00 AM  
To: Kahler, Kelie (SBOH) <Kelie.Kahler@sboh.wa.gov>  
Subject: Wa State Board of "Health" & Inslee's proposed Tyrannical & Unconstitutional Quarantine Camps & Forced Vaccines

External Email

It's come to our attention that the WA Board of Health & Dictator Inslee is considering passing UNCONSTITUTIONAL bills for Quarantine Camps & forced vaccines with:

\*WAC 246-100-040

\*WAC 246-100-105

\*WAC 246-100-070

\*WAC 246-100-045

If you pass these bills you WILL BE IN VIOLATION of the NUREMBERG CODE & YOU WILL BE INDICTED for CRIMES AGAINST HUMANITY for your participation. Currently there are Common Law juries being formed ALL around WA State which have the power to do this to YOU! If you have't heard about this, you ought to look it up before you vote. WE THE PEOPLE will hold you accountable for YOUR actions, & we will not let you get away with this CRIME!

These bills not only violate our precious & beloved Constitution but several other health laws including:

\* PATIENT BILL OF RIGHTS

\* HIPPA LAWS

\* THE Supreme Court ALREADY RULED THAT NO EMERGENCY CAN ELIMINATE ANY RIGHTS GUARANTEED BY THE CONSTITUTION

If your "Health" Board & Inslee proceed to pass these bills after being warned of these facts you are KNOWINGLY VIOLATING, YOU will be considered to be intentionally committing TREASON against the Constitution & against We the People of the United States of AMERICA!

The covid Omicron variant is contagious HOWEVER, VERY MILD...HEALTHY PEOPLE ARE NOT DYING OF IT. Actually it will help us reach herd immunity quickly for anyone interested in REAL SCIENCE. However, our government officials don't seem to be interested in real science. Instead you all only use data that goes alongside of your AGENDA....& are fully focused on THE GREAT RESET & destroying our state & country for a virus with a 99.997% SURVIVAL RATE, so you'll be able to pass the Vaccine Passport to take over control our assets if we don't comply with your every whim. You are EVIL!!!!

We are actively ORGANIZING & WE THE PEOPLE will PEACEFULLY fight you on this. We are thankful for the 2nd Amendment during times like these when our government has become tyrannical — this is exactly WHY our founders made the 2nd amendment so we the people if need be could defend ourselves from governmental TYRANNY. \*\*\*Canada & Australia sure wished they hadn't surrendered their guns....they NOW have no defense against their tyrannical DICTATOR government officials & are now a communist police state. This is not a threat...it is a simple fact.

Never have I understood the importance of the 2nd Amendment UNTIL BIDEN & INSLEE have gone CRAZY MAD & now our own Wa State Board of Health too over covid restrictions taking ALL OUR FREEDOMS AWAY .... Again for a very survivable virus for healthy people of all ages.

You act like we don't talk with friends from other states. ALL RED STATES ARE WIDE OPEN. Our daughter goes to college in Arizona, & they don't even mask up there! Dear friends moved to Florida & they said Covid is NON-EXISTENT there!!!

WE THE PEOPLE OF WASHINGTON STATE WLL NOT ALLOW YOU TO FORCE ANYTHING INTO OUR BODIES OR OUR CHILDREN'S THAT WE HAVEN'T FREELY CHOSEN FOR OURSELVES.

There are MILLIONS OF US IN WA STATE & only a few hundred or thousand of you. We are AWAKE to your tyranny & stomping all over our Constitutional Rights. WE WILL WIN THIS BATTLE....not you! We will rise up against you & protest every minute of everyday against this until you make the right decisions to OPPOSE THESE BILLS & any others in the future!

Subject: Mandatory Vax and Forced Quarantine - WA State

External Email

I would like to express my extreme opposition to the implementation of a COVID 19 vaccine requirement for schools in Washington State. These policies are overreaching and immoral. I stand against these proposed WAC's.

246-100-070

246-100-045

246-100-040

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are

interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fprotect-us.mimecast.com%2Fs%2FcHiLC5yWqqtZo0JYpfyn0pC%3Fdomain%3Dchildrenshealthdefense.org&data=0>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long-term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fprotect-us.mimecast.com%2Fs%2FJM-2C680rrTrEoNI0T5oTUF%3Fdomain%3Damericasfrontlinedoctors.org&data=04%7C01%7CWSBOH%40SBO>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Its is your duty to hear from the people who these affect. You kniw that this is completely wrong and is an abuse of power. We have rights that you should not even consider taking away. This is not what the majority wants or needs and you know it. Find solutions that are actually good for everyone . Focus on real health issues like the poor health of the people by educating on nutrition, how to get your immune system heathy with things naturally provided from the earth. Focus on uniting with love, kindness rather than things that divide and cause people to be so unkind to each other. I have the the right to focus on health in a way i know works for me. Im an adultin tuned to my own needs while still caring about other concerns and their safety. What the mandates and laws have done is made peoples health worse by allowing seclusion, , division, segregation, fear, and constant concern for the future creating an even worse health crisis. Mental health which directly affects the physical health. You have to stop the insanity as you are creating another pandemic of a different nature but even more dangerous . You know the statistics are yet you refuse to take that seriously. You cant claim ignorance forever as it all comes out sooner or later and you will lose all trust if the people. Be wise in your next steps.

Hello,

I am stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. The Washington state government should not vote in these far over reaching bills that strip people of their right to medical freedom. The government should not impose such draconian rules upon its citizens. Involuntary quarantine in a camp is currently being done in other places but there has not been any evidence that it actually impacts overall covid numbers. Some countries like Sweden have had far greater liberties and only treated vulnerable populations and have the best numbers in the world. Let's be like Sweden.

External Email

Hello,

I am writing to provide comments on the new proposed covid policies. I am completely against any of the proposed covid policies that are over reaching and immoral. As a parent I pulled my kids from public school in the 2020 school year and homeschooled. If these policies go into effect again. I along with many other parents I know will do the same. Children are at very low risk and to put parents in the position to either have to give them an opportunity to public education or have to risk their future lives would be unethical. I stand against these proposed WAC's WAC246-100, WAC 246-100-070, WAC 246-100-040, WAC-246-100, WAC 246-105. Please for the sake of our beautiful state of Washington do not let these pass. Keep our state free.

Thank you,  
Brittney Hinojosa

Subject: Comments for Meeting of Jan 12, 2022

External Email

Hello:

It has come to my attention that the following policies are being discussed and considered by your Board on Wednesday, January 12, 2022:

**PROPOSED POLICIES:**

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I'd like to go on record that I oppose any consideration of the above policies and changes to the WAC 246.

The policies to use law enforcement to force isolation are barbaric and serious government over-reach in direct violation of both the 14th Amendment of the United States Constitution but also Article 1, Sections 2 & 3 of the Washington State Constitution.

The policies to consider Covid-19 injections as part of school immunization requirements are un-just as these experimental injections are still under EAU only (yes, including the Pfizer injections). Not only that, but parents, NOT the State should be responsible for making medical decisions on behalf of their children. Where there is risk, there MUST be choice.

Thank you for reading,

Amy Bovenkamp

I have read and strongly object to the proposed WAC 246-100-040, as well as related WACs 246-100-045, -050, and -070.

A proposal of involuntarily isolation for individuals or groups simply because they are suspected of being infected with, exposed to, or contaminated with a communicable disease is a violation of constitutional rights, and to have it enforced by police officers, sheriffs, or other law enforcement officials smacks of a police state.

This is America, not a communist regime. Please do not vote to authorize these over reaching proposals.

To Whom It May Concern

I'm not sure what's happening in our state or in our world, but seeing that you have a .wa.gov <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwa.gov%2F&data=04%7C01%7C>> after your name gives me reason to believe that you are in a position to hear me out and take appropriate action to answer my question: Do we still live the USA?

I am aghast at the completely dictatorial policies that are coming out of Olympia. The fear mongering and the division being caused by unconstitutional policies surrounding this "pandemic" are surreal. Data manipulation, misinformation, and an utter lack of transparency to the people of this country is causing an internal disintegration of our country!! Who benefits from this? Certainly not the people of the USA.

The mandate on a "vaccine" that is not even a vaccine was the first 3 alarm bell going off in my head (perhaps there were others that I ignored - shame on

me) but these upcoming proposals listed below are cause for much higher alarms. People will not stand idly by. This needs to stop now!

"I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you?"

If you have any say in this matter, now is the time to speak.

Thank you for your time,

Subject: Proposed Covid-19 Mandates

External Email

I am writing in regards to the extreme attempts of the Washington state government and health department to completely control the public due under the guise of Covid-19 as it has reached alarming levels. It smacks of the beginnings of what has been seen in other countries (ie, Germany and Hitler). Our liberties and freedoms are being removed piece by piece and it has been allowed and encouraged due to the fear mongering of the media and exploitation of the uneducated masses.

Doing the same thing over and over and expecting different results (ie the definition of insanity) is what is happening here. Masking isn't working, vaccines are not working or slowing the spread, the virus is becoming more contagious/stronger and the vaccines aren't preventing it, the side effects are frightening and damaging not only our adult population but our youth in ways that we have not yet been able to be measure.

What has happened to medical freedom? What has happened to the right to choose for your own body and your own children? This is not the United States of America that I grew up in and I am afraid of the progression towards control by the state of all of our freedoms and liberties, including our own bodies. The idea of quarantining people in a state run facility is terrifying, as well as forcing questionable vaccinations in children for the first time in my lifetime.

As a medical professional I find it suspicious that the FDA is requestingAs a medical professional I find it suspicious that the FDA is requesting 55 years to turn over clinical data... Never in history has this ever happened nor been allowed. This tells me that there is definitely information they do not want the public to have, and in 55 years it will be too late. There is not even a recourse for people who followed the mandates and have damaged their bodies permanently since the FDA/government is not holding the vaccine companies responsible for lifelong damages (pericarditis, myocarditis, neurological disorders, autoimmune and others). This is setting a precedence that the government knows better than the individual person what is right for their bodies and their children and their lives.

To summarize, my family and I are completely against any of the proposed Covid policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 2.

Subject: Regarding WAC 246-100-070

External Email

My name is Dominique McClure and I am a resident in Washington state. I've been here all my life. I am opposing the following proposed "detaining Covid emergency" policies. This is not right as it violates many rights.

I oppose

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

I am Inna Gordiyenko together with my husband and kids completely against any of the proposed Covid policies that are over reaching and immoral. This is something that no one should tell me what to do. It's my body, my health and my choice. Who gave the right to government to decide and use our tax money against us. We stand against these proposed WAC's: WAC-246-100-070, WAC-246-100-045, WAC-246-100-040, WAC-246-100, WAC-246-105 Please hear our voices and may God give you strength and wisdom to stand against all the evil.

Subject: Friendly comments on proposals possibly under consideration

External Email

Dear members of the WA State Board of Health,

I'm writing in reference to rumor concerning WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Unfortunately, I'm within an hour of the public deadline to submit comment, so I don't have time to respond but to claims about these proposals and ask that you may consider my remarks as they apply to their actual content. What I read claims the following:

The proposed policies would allow "local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC 246-100)."

If this is at all accurate, then the proposed changes to Washington Administrative Code should be cause for alarm for people on all sides--I acknowledge that we're besieged by multiple crises--of confidence in our institutions; in public health; and yes, political climate.

I'm in favor of taking vaccines, and in masking--but in my view, public officials and agencies have somehow not yet earned the trust of a substantial part of the general public regarding these and related topics. My suggestion in such scenarios would be to do more to earn the public trust--but rather than find ways to persuade, it seems the state is instead considering more paternalistic approaches to adult citizens as it aims to do with these citizens' children (i.e., "If you insist on acting like children, we will increase the power of the state to treat you like children"--consider the irony in how this does more to change the state than it does the citizenry it's supposed to serve).

The proposed changes appear to empower state police to segregate citizens in quarantine encampments, to mandate involuntary "counseling," and to undergo irreversible medical treatment (in the form of vaccines, in this case). The impressions these scenarios give echo dangerously similar to historical events we as Washingtonians should be outspokenly vigilant against--especially in politically charged times, where the risks of excess into abuse cross into violations of basic human rights.

I members of the board to consider that while these powers would be created to target one minority population today, they will in time be used to target other minority populations that manage to fall out of favor by majorities in the future. You have the power to--for the moment--forestall that future from materializing, but it starts with a "NO" vote on these proposals. Please do not surrender to temporary impulse to solve today's problem by creating far worse ones tomorrow.

You have my support in taking a steadier hand to this matter than what crisis-driven approach would imply. Please vote "No" on any measures with the effect described above.

Daniel Cervera

To whom it may concern,

It is very frustrating to have the media silence Americans from voicing their concerns and opinions. The fact checkers are not truthful. A post on Facebook stated that Washington state is adopting quarantine and isolation facilities to detain unvaccinated citizens but was dismissed as misinformation.

Here are state policies on quarantine and isolation:

WAC 246-100-045

Conditions and principles for isolation or quarantine.

The local health officer shall adhere to the following conditions and principles when isolating or quarantining a person or group of persons in accordance with WAC 246-100-040

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault%2F100-040&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cabe0d7137f964bdb503008d9d5ffe081%7C11d0e>

:

(1) Isolation or quarantine must be by the least restrictive means necessary to prevent the spread of a communicable or possibly communicable disease to others and may include, but are not limited to, confinement to private homes or other public or private premises;

- (2) Isolated individuals must be confined separately from quarantined individuals;
- (3) The health status of isolated or quarantined individuals must be monitored regularly to determine if they require continued isolation or quarantine;
- (4) If a quarantined individual subsequently becomes infected or is reasonably believed to have become infected with a communicable or possibly communicable disease that the local health officer believes poses a significant threat to the health and safety of other quarantined individuals, he or she must promptly be placed in isolation;
- (5) Isolated or quarantined individuals must be released as soon as practicable when the local health officer determines that they have been successfully decontaminated or that they pose no substantial risk of transmitting a communicable or possibly communicable disease that would constitute a serious or imminent threat to the health and safety of others;
- (6) The needs of a person isolated or quarantined must be addressed to the greatest extent possible in a systematic and competent fashion, including, but not limited to, providing adequate food, clothing, shelter, means of communication with those in isolation or quarantine and outside these settings, medication, and competent medical care;
- (7) Premises used for isolation or quarantine must be maintained in a safe and hygienic manner to minimize the likelihood of further transmission of infection or other harm to persons isolated and quarantined;
- (8) To the extent possible, cultural and religious beliefs should be considered in addressing the needs of individuals, and establishing and maintaining isolation or quarantine premises;
- (9) Isolation or quarantine shall not abridge the right of any person to rely exclusively on spiritual means alone through prayer to treat a communicable or possibly communicable disease in accordance with religious tenets and practices, nor shall anything in this chapter be deemed to prohibit a person so relying who is infected with a contagious or communicable disease from being isolated or quarantined in a private place of his or her own choice, provided, it is approved by the local health officer, and all laws, rules and regulations governing control, sanitation, isolation and quarantine are complied with. At his or her sole discretion, the local health officer may isolate infected individuals declining treatment for the duration of their communicable infection.

#### PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

If the board of health insists it is not planning on detaining unvaccinated citizens, then the question to ask is why does the state have the following job posted at

<https://www.governmentjobs.com/careers/washington/jobs/3364344/lease-manager-fsp-doh6118?keywords=Isolation%20&pagetype=jobOpportunitiesJobs>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.governmentjobs.com%2Fca>

manager-fsp-

doh6118%3Fkeywords%3DIsolation%2520%26pagetype%3DjobOpportunitiesJobs&data=04%7C01%7CW

? The job description clearly states 'In response to the COVID pandemic, the agency has established an Isolation & Quarantine site...' ...and further goes on the state that 9 additional sites will be established? Here is the job description as posted:

The Facilities Senior Planner is part of the Office of Facilities and manages the Lease Management and Workplace Design Team. Our Lease Management and Workplace Design Team provides support in the following ways: lease management, space planning, workplace design, building alteration, move coordination, space utilization, and reporting. Our facility designs strategically support our people and the work they do. Our facilities are safe, clean and energy efficient and our business services meet the highest standards of environmental and fiscal stewardship.

The Office of Facilities is responsible for all policy and operational issues related to the management of a three building campus in Tumwater, field offices in Kent, Shoreline, Richland and Spokane, miscellaneous warehouses in Shoreline and Tumwater, and boat storage facilities in Tumwater and Richland. In response to the COVID pandemic, the agency has established an Isolation & Quarantine site and three Personal Protective Equipment (PPE) warehouses/distribution centers in Western Washington. The agency is currently planning to establish up to nine health support hubs that will be located around the state and a "drop in" location in Belltown, Seattle. The office will work to ensure DOH employees have appropriate facilities and corresponding services to carry out their work throughout the state.

This is a permanent, full-time Facilities Senior Planner position.

Currently, this position may be located anywhere within the State of Washington. Due to the COVID-19 pandemic, telework (mobile-work) is expected. When approved to return, the incumbent will work with their supervisor to identify an appropriate work schedule and balance, including telework and reporting to the Tumwater duty station for work activities.

In order for the community to have trust in our government, then transparency is essential!

Thank you,

Suzi

Subject: Proposed Covid Policies

External Email

Hello,

I am writing in regards to the proposed action of plugging in Covid to the following WAC's:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

These WAC's support an infrastructure that could be used to implement and enforce policies dangerously over-reaching in their assumed authority. If history has taught us anything, it's that power, once granted, is never just quietly given back. Far too often these seemingly small and justified measures snowball into systems of tighter, increasingly centralized forms of government. Such systems of authority are everywhere the source of great human suffering, injustice, corruption, and exploitation. And always do they pave the way to a society's collapse.

We should think deep and wide before enacting such measures.

We've grown too myopic; our actions leaping from a place shrouded and cut off from its past. We fail to carefully calculate all possible lines of future - how these kinds of measures, though taken to try and safeguard our friends and family, might easily become the instruments of unchecked authority.

Let us then consider the full weight of our actions, before we rush headlong into this brave new world of ever-centralized systems of authority.

Thank you for your time,  
- Austin Haskell

)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Look inside your soul and do the right thing.....DO NOT require these vaccinations for school age children.

In regard to allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040):

- This not only violates the Washington State Constitution, but the right to Religious Freedom protected by the 1st Amendment and the right to Privacy in 4th Amendment of the United States Constitution.

- Therefore 37 or 39 County Sheriff's have signed a letter, pledging not to enforce any involuntary removal of private law-abiding citizens to a quarantine facility.

Science does not support the notion that unvaccinated individuals spread the virus any more than vaccinated individuals, nor do our laws permit us to segregate and discriminate against people for refusing a medical intervention.

- Equal Protection Clause of the 14th Amendment to the U.S. Constitution and the Civil Rights Act of 1964.

Masks, in the words of an FDA physician, are little more than "facial decorations" and have no impact on the spread; yet they are mandated for adults and children. This is not American in any way and the truth will come out.

Those who are hiding their heads in the sand from the facts and science of this so-called pandemic (In the Washington State Flu Season of 2017-18 the death rate was 11%, while the Covid death rate in the State of WA thus far is 1.1% according to government sources) will be held accountable for being on the wrong side of history.

No mandate can be followed that violates human rights of conscience and autonomy.

- There is zero evidence indicating that unvaccinated individuals or free breathing individuals are a threat to the vaccinated and masked.
- And like children, when the 99% of adults who contract the virus, survive it and recover, they too have natural immunity which prevents us from contracting or transmitting the virus again.

There has been time enough to find out the truth about what is going on with Covid, and there is no excuse for these draconian measures to be inflicted on citizens anymore. Each of you have been entrusted with making important decisions about the Public Health of our state and each of your credentials qualify you to serve on this board. However, as Government employees, you are public servants who answer to the Sovereign Citizens of this state & this country, the taxpayers who fund your department & your salaries. You work for us.

I pray for each of you to do the right thing by rejecting these Unconstitutional Mandates and respect the Individual Liberties of every Washington State resident that are guaranteed by the Bill of Rights in the United States Constitution and the Washington State Constitution.

Sincerely,

Brady LaMotte

I oppose all of the proposed legislation: WAC 246-100-70, 246-100-045, 246-100-040. These types of laws impede our constitutional rights to freedom. COVID-19 has a 99.97% survivability rate for ages 0-19 and a 99.5% survivability rate for ages 50-69 years old. These statistics come from 61 studies in 51 countries. Stop impeding our civil liberties that our founding fathers created and our military protects! Stop trying to turn us into a government-controlled, socialist society.

Sincerely,

Alicia Stromme

Hello,

Do not pass WAC 246-100-070 and 246-100-045. They violate citizens rights to private medical choices, the right to work, and to simply exist.

The lines are so beyond blurred when it comes to this virus. Firing unvaccinated medical staff but allowing COVID positive vaccinated staff to come to work is ludicrous and the opposite of what the health department has been trying to do. Which is lessen this rarely problematic virus from spreading.

It has been shown that vaccinated people are spreading and contracting this virus quite easily, so trying to detain the people if they are positive for this virus is absolute insanity.

Ebola? That can have a mortality rate of 40%-90% depending on the strain. THAT is a possibly monstrous pandemic that requires detainment.  
Not COVID.

Do not add COVID to the WAC codes, you would be wasting state money, resources, and would cause people to move from the state en mass. Which we all know would be detrimental to the states funding of needed construction, employees, etc.

I object to this on a deep moral and ethical basis. Passing this is no better than sending Jews to the Nazi concentration camps. Your legislation is deeply disturbing.

DO NOT PASS THESE WACS

Subject: WAC COVID codes formal comment

External Email

To Whom It May Concern,

I have been a Washington resident for over 30 years. I am writing to submit a formal comment that I am completely against any of the Proposed WAC COVID codes (WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105) including the detainment policies and making the COVID-19 injection part of the school vaccination requirement.

These codes are against our constitutional rights and are an over reach by the Washington Department of Health and can not be allowed to be put into place. Anyone on the Washington State Board of Health needs to consider what side of history they want to be on when the fight for freedom in Washington has been won. Washingtonians are Americans and we will not stop fighting for freedom until we have complete success. Any public figure making decisions about these illegal codes should consider that their job is on the line if they vote for taking these measures, not to mention probable jail time.

No longer can the voices of the masses be ignored. We the people can not be silenced anymore. There are more of us then their are of you.

We, the people of the United States, have acknowledged the grave mistake made during WWII when we interred Japanese citizens in containment camps. Now, are we going to make a similar egregious mistake of arresting, forcing, and/or putting our citizens who are unvaccinated into containment camps? Doing so, or enacting laws to do so in the state of Washington or anywhere else in the US would be unjust and, frankly, idiotic. I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070 <tel:246-100-070> , WAC 246-100-045 <tel:246-100-045> , WAC 246-100-040 <tel:246-100-040> , WAC 246-100, WAC 246-105. "

Under no circumstances will such proposed policed be warrented or accepted. Please use common sense and vote against these considerations thus January 12th.

Gary L. McIntosh, Ph.D.

Re: Development of Rules and Regulations for State Covid Vaccinations for School Age Children

To Whom it May Concern;

There are several glaring problems with the SBOH and the Technical Advisory Board attempts to set rules for Covid Vaccination Mandates for children age 5 and older.

In your zoom meeting on December, 29, 2021, it was stated that you want subject matter experts. It is important that experts for and against vaccine mandates be shared. One of the glaring problems with your TAG is that there are no school board members with a diverse representation across the state on your committee. There are also no parents on this committee represented from across the state.

1). There needs to be a thorough risk assessment between the risk of harm to school age children from covid verses the risk of harm to school age children from the vaccine. Data is readily available showing the risk of harm of covid to school age children is negligible. For example, King County Dashboard shows 1 death or 0.4 deaths per 100,000 and 112

hospitalizations or 44 per 100,000 in the 0-9 age group. There are 6 deaths or 2.3 per 100,000 and 154 hospitalizations or 60 per 100,000 in the 10-19 age group.

CDC has reported that all deaths in these age groups had comorbid conditions such as leukemia, obesity, or other conditions.

Children 5 and under, are more likely to be taken to a hospital by concerned parents than older children, due to their obvious vulnerability. This must be considered in hospital data numbers. Additionally, Dr. Fauci recently reported that hospitals are "over counting" children as covid. Could there be a monetary reason for them to do so. This could also subtly suggest a glaring conflict of interest by much of the health care industry. This "overcounting" could skew the data used to base mandates or rules thereof.

This is all over nearly a two- year span with most of the incidences early in the pandemic. In December 2021, there have been no deaths and only 9 hospitalizations in these age groups in the last 30 days, which suggests that the variants are less lethal.

3). There is a lack of definitive data on vaccination studies. The pharmaceutical companies have legal immunity for law suits for 70+ years. There is also evidence that the CDC wants to hide post-licensure safety data for 75+ years.

What can be found on a clinical trial is reported in a mayoclinic.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fmayoclinic.org%2F&data=04%7C0>> article. In this article, it was reported that In the 5-11 age group, there were 3100 children that got the vaccine, and 1500 got the placebo. In the 12-15 age group, 1100 got the vaccine and 1100 got a placebo. It is curious that only a portion of the children in each age group were monitored for two months after the second dose. It was reported that side effects were mild to moderate. However, there were severe side effects on children that went unreported or simply omitted. There was also a reported increase in myocarditis and pericarditis after the vaccine, particularly in males 12-17. One study showed 5.4 cases of myocarditis or pericarditis per 100,000. Because covid vaccine clinical trials only began in the summer of 2020, it was stated in the article, "it is not clear if the vaccines will have long term side effects". (The early trials were only on adults; the children trials are even more recent!)

In summary, definitive vaccine data is hard come by and there is effort to suppress it. This lack of definitive data does not justify a mandated vaccine or a need to adopt any rules except voluntary vaccination for children. The testing of children also lacks definitive results as it is a well-known fact that test procedures are incorrect or inaccurate.

4.) Future implications need to be considered. Are you willing to answer to parents whose children become disabled or permanently harmed by not understanding the risk of the vaccine?

5). Regarding the transmission of COVID, children do not present a significant risk to society. Most children are asymptomatic and asymptomatic transmission is not proven and in fact, transmission by children may be weak because their viral load is low. They DO NOT represent a threat to society as a whole and therefore, does not justify a mandate or the need to develop rules for the vaccine in children.

6.). All pandemics have a three-year cycle. We are already in the second year and as in other pandemics, the variants are becoming less lethal. By the time the vaccine rules are implemented, the pandemic will be over. The expense of implementation and risk of harm to children will be unnecessary.

In summary, the board of health and the rules committee are jumping the gun when there is such a paucity of definitive data and a combined ignorance of vaccine risk. This committee should stop their proceedings immediately.

Regards,

Allison Lewey

Subject: Opposition to COVID inoculation enforcement and Illegal Quarantining

External Email

1/6/22

Dear State Board of Health,

It has come to my attention that there will be a meeting January 12th discussing implementation of COVID Inoculations upon our children to attend school. This is an atrocious abuse of power and we as Americans have the right to choose our best medicine for our children.

Let's just consider a scenario, say you have a young child or maybe even yourself and your Doctor or state mandates a medication on you that you aren't comfortable with (possibly an issue with informed consent) or maybe you know you're allergic to this particular medication but you have to take the medication anyway because the state/federal Government or your government run doctors says so? Are you really ok with that? How scary would that be? This is America and we as a free people will choose our best medicine not our big pharma, state representatives, nor our Doctors nor our Federal government.

It has also come to my attention that you are proposing that the Health Department impose Police onto the people if the department thinks that someone is a health risk for quarantining purposes, per WAC 246-100-070. Are you kidding me? This is another power pull, this is not about our health. There are thousands of people running around our world with contagious diseases including the millions coming in across the border that have not been screened. We have immunities that work, why don't we discuss healthy lifestyles, healthy eating, supplements, reducing obesity and diabetes and supporting each other's unique choices and lets take some real steps for healing.

I am putting the state on notice and I am demanding the implementation of EARLY TREATMENT, we have lost thousands of people because the state withheld early treatment options that are working all over the US, who will be liable for all these deaths?

This virus has run its course ( 2 years), we have millions of people that have taken the COVID inoculation/boosters and a massive amount of people that have survived the COVID virus creating herd immunity. It is time to get back to business and open our economy here in Washington before you run it into the ground with these endless illegal proposals aka: mandates, we as free individuals and sovereign people and you are trampling on our GOD given rights, not to mention our legal rights here in WA , we the people do not need the government deciding what is best for our health or our lives. We are fully capable of handling our lives without interference.

The Nuremberg Code protects us from this type of medical apartheid and experimentations and at some point all those that have participated in this tyranny and

rein of terror will be held accountable by a court of law.

I sincerely hope you reign in these horrific unamerican proposals (See copy and paste below of proposals) because at some point this will backfire.

PROPOSED POLICIES: • Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100. • Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Sincerely,

Cheri

Subject: Against COVID-19 Children Vaccine mandates

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105.

I do not believe that forcing COVID-19 immunization of children will be in their best interest or benefit in the long run because of the lack of long-term data of mRNA data. It is unethical to put children's future health on the line for the temporary 'better good' of the adult population during this pandemic.

Respectfully,

Subject: Objection to COVID proposed policies.

#### External Email

I am against any and all of the proposed Covid policies that are overreaching and immoral. We stand against these proposed WAC's: WAC-246-100-070, WAC-100-045, WAV 246-100-040, WAC 246-100, WAC 246-105

First and foremost, no federal, state, or local government may pass a law that goes against the Constitution. Article 6, Section 2 of the Constitution says,

"This Constitution, and the laws of the United States which shall be made in pursuance thereof; and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding."

The Constitution is still the supreme law of the land even during emergencies. As the Supreme Court explained during the Great Depression,

"Emergency does not create power. Emergency does not increase granted power or remove or diminish the restrictions imposed upon power granted or reserved. The Constitution was adopted in a period of grave emergency. Its grants of power to the Federal Government and its limitations of the power of the States were determined in the light of emergency and they are not altered by emergency."

Furthermore, any law that gives health officials the right to use law enforcement to "falsely imprison" an individual is a violation of the 5th and 14th amendments. These amendments require that the government provide you with "due process of law" before the government may take away your life, liberty or property.

In *Mullane v. Central Hanover Bank and Trust*, the U.S. Supreme Court held that "due process" means that before the government deprives you of life, liberty, or property, the government must give you notice, and the opportunity to be heard, and to object to the deprivation.

In *Cruzan v. Director, Missouri Department of Health*, the Supreme Court held that persons had a constitutional right to refuse medical treatment. These forced measures, even in good conscience to prevent the spread of COVID, infringe on this right.

In conclusion, We The People will not stand for such unlawful measures to be set in place in our great state of Washington. We will not allow a government that imposes laws that take away our inalienable rights.

"Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and

to provide new Guards for their future security.” -Declaration Of Independence

Signed,

Amanda Appling

Subject: WAC codes to include Covid-19 for all WA State residents

External Email

To whom it may concern,

It came to my attention that the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

Specifically Codes:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100.

Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I am adamantly opposed to any further draconian covid rulings - masks, vaccines, quarantine - that they are unlawful, unconstitutional, and against the Nuremberg Code. I am deeply concerned about the dangers to democracy that this implementation implies.

Thank you

Subject: Against WAC 246-100 Additions

External Email

Good morning. I am standing against the proposed COVID-19 laws and policies that are going to be discussed and possibly passed next week. These are overreaching personal rights and immoral. There is not enough research to support any of this when considering EVERYTHING that has been observed and studied by medical professionals and scientific studies, without bias. I am completely against the proposed additions to WAC 246-100-070, 246-100-045, 246-100-040 and 246-105. Please do not pass these.

Thanks you,  
Brianna Alvarez

Subject: OPPOSED TO WAC 246.100.070

External Email

Washington State Board of Health,

I am writing to let you know of my STRONG opposition of the newly proposed WAC codes that you are meeting to discuss, pass and enforce regarding COVID-19.

I STRONGLY OPPOSE:  
WAC 246.100.070  
WAC 246.100.045  
WAC 246.100.040

This is a STRONG government overreach! We are near the end of the pandemic, and there is absolutely no need to enforce an EUA vaccine that has shown close to zero efficacy. It has been proven that the vaccinated and non-vaccinated can both get and transmit the virus. So, there is absolutely no need to enforce said vaccine.

Respectfully,

Robert Micheles

External Email

I am also Strongly opposing any of the WAC bills that will make for the arrests and detention of unvaccinated citizens to be put in Inslee's quarantine camps, if they refused to be tested, show proof of covid vaccination papers, or receive the COVID-19 or any other medical examination or treatment. This is absolutely illegal, VERY UNCONSTITUTIONAL, a violation of HIPAA, human rights, personal choice and freedom over our own bodies, which is given by God not man, and the Nuremberg Code.

Be warned, there will legal consequences against you if you pass it, and you will be held liable not just on a state level, but nationally and internationally since the Nuremberg Code is a global agreement, And the Constitution is the Highest law in America! Any laws made, that violates or opposes the Constitution, will not stand!

Children are immune to covid and normally don't get it. Regardless of age, there is a 99.98% recovery rate, and the number of deaths from it are less than the flu.

We know the vaccine for the covid-19 is not safe, and people dying in the hospitals were the ones vaccinated. It is not a "vaccine".

This is a violation of our human rights, the Constitution for the United States for America, HIPAA policy, and The Nuremberg Code (international law). It is a crime against humanity. Therefore I condemn the passing of these bills.

Subject: My Comments

External Email

Hi,

I am writing to provide a comment for the Jan 12th meeting discussing applying current infectious disease WAC codes to include Covid for all WA state residents. I and my family stand fully against these proposals, which are over-reaching and deeply immoral. Individuals should have full medical autonomy and decision making responsibility for their medical examinations, testing, treatment, counseling, and vaccination. These are areas of responsibility that should never fall under the government's jurisdiction. It is grievous and wrong to consider including Covid-19 injections in school immunization requirements as science has shown Covid to not be a serious threat against children. Requiring such would be a violation of parental rights.

We stand against these proposed WAC's:

WAC 246-100

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-105

Gentlefolk:

I am writing to voice serious concerns about the Board's proposed expansion of Chapter 246-100 WAC to include COVID.

To begin, I have grave reservations about the constitutionality of WAC 246-100-070 as it already exists. As recently as 2019, in an online FAQ publication by the Washington State Attorney General, the following question and answer were provided by the Attorney General's Office:

13: Should local law enforcement agencies honor immigration detainers, civil immigration warrants, or other hold requests?

No. An "immigration detainer" or "hold request" from federal immigration authorities such as ICE or CBP is a warrantless request for state or local LEAs to voluntarily hold a person in custody to give them the opportunity to take the person into federal custody. Such requests are not binding on local LEAs.

Under KWW local LEAs may only honor court orders and warrants signed by a federal Article III judge or magistrate or an Article IV state court judge. Immigration judges are not Article III judges.

Even before the Legislature passed KWW, numerous federal courts ruled that detaining a person without a warrant signed by a judge or an independent basis for the existence of probable cause of a crime violates the Fourth Amendment. Such detentions could subject officers and local LEAs to civil liability. *Arizona v. United States*, 567 U.S. 387, 449, 132 S. Ct. 2492, 183 L. Ed. 2d 351 (2012); *Ochoa v. Campbell*, 266 F. Supp. 3d 1237, 1249-1250 (E.D. Wash. 2017); *Mercado v. Dallas County, Texas*, 229 F.Supp.3d 501, 511 (N.D. Texas 2017); *Abriq v. Hall*, 295 F. Supp. 3d 874, 880 (M.D. Tenn. 2018); *Lopez-Aguilar v. Marion County Sheriff's Department*, 296 F.Supp.3d 959, 969-70, 2017 WL 5634965, at \* 11-13 (S.D. Ind. Nov. 7, 2017); *Miranda-Olivares v. Clackamas Cty.*, 3:12-CV-02317-ST, 2014 WL 1414305, at \*9-11 (D. Or. Apr. 11, 2014); *Morales v. Chadbourne*, 793 F.3d 208, 215-18 (1st Cir. 2015); *Orellana v. Nobles Cty.*, 230 F. Supp. 3d 934, 944-46 (D. Minn. 2017).

KWW prohibits local LEAs from taking or holding anyone in custody based on these civil

immigration enforcement tools.

Clearly, the Attorney General disapproved of local law enforcement executing so-called "warrants" not signed by an actual, sitting officer of the judiciary, be they state or federal, when the issue was one of immigration enforcement by the federal government. This is in line with constitutional principles requiring due process of law before a warrant issues. The current wording of WAC 246-100-070 provides little to no notice, opportunity for hearing, or determination by a judicial officer prior to issuance of what is, by any name, a warrant to take an individual into custody and deprive him or her of liberty. This is extremely concerning to me as the chief legal advisor of my local law enforcement agency; I cannot say at this time that I would be able to advise my sheriff to take an individual into custody on a "warrant" issued by a non-Article IV state official, for the very thorough and well-spoken reasons provided by the Attorney General just two years ago as applied to federal immigration or "ICE" warrants.

I additionally have concerns that RCW 43.20.050 would authorize the Board to create a system whereby an individual could be taken into police custody as an enforcement mechanism of the WAC. Enforcement of the enumerated areas in RCW 43.20.050 by seizure of property is borderline constitutional, however seizure of an individual or individuals strikes me as extremely problematic under the United States and Washington State constitutions.

I strongly urge the Board to take due process of law into consideration in any system that they intend to establish to deprive an individual of liberty. This WAC as well as RCW 43.20.050, from which it springs, have not been tested in the Courts, and I foresee that they very definitely will be if this change is made. The political climate of the Eastern half of the State at present will likely not countenance such a change, and I fear for the well-being of this State if these rules are changed and enforced in the way proposed.

Thank you for your time and consideration,

Subject: PLEASE OPPOSE MANDATORY VACCINES FOR CHILDREN

External Email

We would like to express our extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its

availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da> ) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da> )

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

We want to voice our concern and opposition to the proposals WAC-246-100-070 and WAC-246-105. We oppose using police force be used to isolate in a quarantine facility any families or group of person because they do not want to be medically examined, treated, tested or vaccinated. That sounds eerily like Nazi Germany treatment of the Jews and I am sure that we do not want to go down that road.

We ask that you listen to the people at your meeting on January 12th and oppose these two measures.

I am writing you today because I and many others are concerned about the direction our state is heading. Below are the WAC that myself, my immediate family and many friends are against.

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

Chapter 246-100 WAC

Chapter 246-105 WAC

Yes we are all aware that Covid-19 is a real disease in our world. But the science in Washington State is not matching other countries or states for that matter. No I am not a scientist nor a doctor. But I have studied disease and communicable properties of such while in Veterinary Technology College. So please don't look at myself or others as incompetent.

I am coming to you to ask that you follow the science outside what is layed before by Dr. Fauci and Governor Inslee. I never once believed that my time on this earth would be fighting my own people. But this has to stop for the future of this country please do not enforce any of these WACs.

Sincerely

Daria Chappel

Hello,

I disagree with the proposed policies.

For the integrity, dignity, health and wellbeing of our community, it is vital that we halt the Board of Health from implementing COVID vaccines/shots as mandatory for school admissions and child care in WA state.

It is vital that we also halt the ability for local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Please refer to the information in the link below as valid reasons for halting the above proposed policies:

Subject: WAC 246-100-040 Citizen Concern

External Email

To the leaders and members of the voting body of the Washington State Board of Health,

My name is Donel Steves. I am a taxpayer and registered voter in Kitsap County WA. It has come to my attention that you will be discussing and proposing policies in your Jan. 12 meeting regarding applying current infectious disease WAC codes to include Covid 19 for all WA State residence.

These Proposed Policies include: (WAC 246-100-070), (WAC 246-100-045), (WAC 246-105)

These proposed policies are not only a violation of medical freedom and bodily autonomy, but they are also unscientifically sound. The Covid 19 vaccines do not prevent infection, transmission, hospitalization, or death. They actually increase the risk of infection and risk of severe disease through antibody dependent enhancement (ADE). They have proven to be the most dangerous vaccines ever introduced, as per VAERS data.

It is a crime against humanity that existing safe and inexpensive nutrient + drug protocols are being silenced in order to push the dangerous failed vaccines. It is a crime against humanity that superior natural immunity is being ignored.

I speak as someone who has personally survived Covid 19 using over the counter supplements and Covid 19 protocols gleaned through my own research and through the council of my personal physician. I am not vaccinated, and I recovered without being seen by my physician, going to any clinic, or being hospitalized. I am a healthy 63-year-old woman, well researched, and equipped with common sense. I have tested positive for antibodies. It is unconscionable that I have heard nothing from our State Department of Health about researching natural immunity from Covid 19. The research is available via approx. 127 peer-reviewed studies worldwide on the superiority of natural immunity from Covid 19 than that of the vaccines.

As Judge Dave Larson so clearly spells out in his opinion letter dated Sept. 2, 2021: " Only the Legislature Can Compel Vaccinations under Washington Law.

Thank you for listening to my concerns as a citizen of Washington State. I appreciate your role in keeping us safe and informing us of our choices for treatments options. My belief is that when only one narrative is expressed, other scientific peer-reviewed science is ignored and censored, and governmental overreach is enforced through mandates that remove citizens medical choice and personal freedoms that we no longer live in a free Republic.

Respectfully,

Donel Steves

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□Daniel 2:22□□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for to reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□Proverbs 31:8□□

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Amber Lund

Subject: January 12th Covid -19 WAC code changes

External Email

To Whom it may concern,

I am a registered Washington voter and resident of our state. I am writing to inform you of my outright refusal of government overreach that your Health department is trying to pull with this Covid-19 change to WAC codes.

I am completely AGAINST ANY of the proposed COVID policies. I stand against any and all of these WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100 and WAC 246-105

It is not the job of the health department to act as a parent figure and lock up/force examinations/or force vaccinations of law abiding Americans. And then to have the audacity to use the police as your hired thugs against their own people they are sworn to protect. You should be ashamed that you even thought that anyone in their right mind would be ok with any of these measures.

People in charge decades in another country before put forth some same measures under the guidance of protecting the public from people they deemed unfit. I am well aware of that history, since I was told it from a survivor of that government overreach. I will not allow history to repeat itself to this level of atrocity in my lifetime let alone my state.

I want the record to state that I am fully against any COVID 19 WAC's

Sincerely,

Amy Wunsch  
Vancouver, WA 98682

Subject: Proposed Covid-19 Mandates

External Email

I am writing in regards to the extreme attempts of the Washington state government and health department to completely control the public due under the guise of Covid-19 as it has reached alarming levels. It smacks of the beginnings of what has been seen in other countries (ie, Germany and Hitler). Our liberties and freedoms are being removed piece by piece and it has been allowed and encouraged due to the fear mongering of the media and exploitation of the uneducated masses.

Doing the same thing over and over and expecting different results (ie the definition of insanity) is what is happening here. Masking isn't working, vaccines are not working or slowing the spread, the virus is becoming more contagious/stronger and the vaccines aren't preventing it, the side effects are frightening and damaging not only our adult population but our youth in ways that we have not yet been able to be measure.

What has happened to medical freedom? What has happened to the right to choose for your own body and your own children? This is not the United States of America that I grew up in and I am afraid of the progression towards control by the state of all of our freedoms and liberties, including our own bodies. The idea of quarantining people in a state run facility is terrifying, as well as forcing questionable vaccinations in children for the first time in my lifetime.

As a medical professional I find it suspicious that the FDA is requesting 55 years to turn over clinical data... Never in history has this ever happened nor been allowed. This tells me that there is definitely information they do not want the public to have, and in 55 years it will be too late. There is not even a recourse for people who followed the mandates and have damaged their bodies permanently since the FDA/government is not holding the vaccine companies responsible for lifelong damages (pericarditis, myocarditis, neurological disorders, autoimmune and others). This is setting a precedence that the government knows better than the individual person what is right for their bodies and their children and their lives.

To summarize, my family and I are completely against any of the proposed Covid policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 2.

Sincerely,

Andrea Seeley

I am vehemently opposed to any changes or additions involving WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

The proposed WAC Covid Policy changes/additions are overreaching, immoral, and unconstitutional. Even if they were "enacted," they would likely be struck down by the court, wasting taxpayer money and everyone's time.

I specifically OPPOSE Agenda Item #8, the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period!

I SUPPORT Agenda Item #11 Informed Choice Washington's Petition for Rulemaking. This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

Sincerely,

Brian E Boldt

Sent: 1/7/2022 1:25:07 PM  
To: DOH WSBOH  
Cc:  
Subject: Proposed Legislation

External Email

January 7, 2022

To Washington State Department of Health and anyone else concerned:

I am writing in Regards to Proposed Legislation WAC 246-100-070, WAC 246-100-045, 246-100-040, WAC 246-100 and WAC 246-105.

As a long-time resident of Washington State and a mother, I DO NOT agree with these propositions. I do not consent to our government dictating personal medical choices and locking up citizens. This is unconstitutional overreach. Our forefathers would never have tolerated this type of legislation! America was founded on the premise of personal freedom. As Benjamin Franklin wisely coined, "Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety." This is America, land of the free and home of the brave! We do not consent to this intrusion into our private lives. What about those with medical conditions? Are they now to be locked up in a quarantine facility because they would die from an experimental medical procedure? What has happened to our country that this is even considered?

I believe these proposed laws are unconstitutional and violate the 4th amendment:

#### Amendment IV

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Remember that whatever you do DOES NOT SUPERSEDE the United States Code. You can and will be held accountable by We the People!

Title 18 of the United States Code, Sections 241 and 242 criminalize conspiracy against rights and the deprivation of rights under color of law. In other words, they make it a criminal offense for public officials to go beyond the limits of their authority to strip away the public's rights. The law applies to police, judges, elected officials, and yes, public health officials as well as health care providers at public facilities.

Please also leave our children alone! Whether a parent chooses to vaccinate their children is a personal choice. All should be free to decide either TO get it or NOT to get it. I am OPPOSED to making COVID-19 vaccination mandatory for schools or childcare in our State. There are studies that show both vaccinated and unvaccinated can and do get and transmit COVID. And there are studies showing harm and death from the vaccine, as well as no long term safety studies so far. Children are also EXTREMELY low risk for dying from COVID. This should be a personal choice up to each family and parent. The vaccines have been proven to cause death. No one should be forced or coerced to take something that might kill them!

Please do not pass these laws and bring disgrace upon our nation, a world leader for its founding principles of freedom. Let us remember that "all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness." And when we read the Declaration of Independence further, we see that when our government attempts to make laws that are destructive to personal freedoms such as bodily integrity and informed consent, then "it

is right of the people to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness." Please remember our history and do not pass these horrendous laws in Washington State!

Thank you for your consideration of my request.

Sincerely,

Al Drake Jr.

I am vehemently opposed to any changes or additions involving WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

The proposed WAC Covid Policy changes/additions are overreaching, immoral, and unconstitutional. Even if they were "enacted," they would likely be struck down by the court, wasting taxpayer money and everyone's time.

Sincerely,

PJ Glassey

Kirkland WA resident

I am completely against all of these insane and non humane laws that take away our freedoms. The fact that this is where we are is just mind blowing. We live in a free country and freedom come before all. We the people make our own choices and the government isn't here to raise our children for us. To those who are scared, they should stay home and not take away the rights of those who choose not to be scared.

I stand completely against any of the proposed Covid Policies that are a complete over-reach and immoral. I stand against WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

To Whom it may concern,

I am writing to express my concern regarding the Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry. As a lifelong WA citizen with two school-age children, I am adamantly against mandating the COVID-19 Vaccine. Mandating the vaccine violates human rights and does not meet the necessary criteria for inclusion in the WAC. As most want us to follow the science on this issue I urge you to look deeper in to the science and how COVID-19 is not a large enough threat to our school age children to deem it necessary to create a mandatory vaccination for them, and would be unethical. This should be left up to our freedom of choice to be able to choose what we put in our body. I feel we should be inclusive of both sides feelings on this issue, and allow those who choose to vaccinate their children to do so and those who don't to not be discriminated against. By forcing the vaccine we will be increasing the division in our great country and adding one more thing for us to continue to fight about.

I also strongly oppose extending the scope of WAC 246-100-070 Enforcement of local health officers to expand authority to involuntarily quarantine individuals. By allowing this to go through and put into action will be in direct violation of our constitutional rights and will be allowing us to repeat what has already happened in history in a not so distant past. This would not be making progress this would be going backwards.

I hope these concerns will be heard and taken seriously.

Thank you for your time.

Subject: Proposed Policies to be discussed on January 12th

External Email

Hello,

I have learned just last night that the following Proposed Policies will be discussed at your meeting on January 12th:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Unfortunately, I was not able to find an email address to send in my concern until now.

Having read the above Proposed policies, They are government overreach and I and my family are totally against such actions.

Last time I checked, this is not Nazi Germany. Why would the government of Washington want to have such laws on the books?

Will Washington state become the next Nazi Germany?

I certainly hope not.

Respectfully,  
Cornelia Ionescu

I am a Washingtonian who is fully vaccinated, but I have friends who are not vaccinated. When I learned about the topics below about using law enforcement to involuntarily detain families who are not vaccinated, it sounds like the opposite of a free country. Where is the line between strongly recommending public safety protocols (ie: everyone should vaccinate) and giving Americans the option to decline a vaccination? Obviously the law-makers behind this think that using the state-directed fire-arm in the hand of the police offer to force an action isn't an infringement of freedom. Are you kidding me? I am terribly concerned we are throwing away the volition of Americans, the the very thing that makes us great as a nation, in exchange for a heavy handed use of force. The intention may be good, to maintain public safety from the virus, but the method is completely inappropriate. Change this creates a slippery slope for government to physically detain Americans on our own soil. Step back for a minute, does that sound like a country you want to live in? I know many are justifying this as being a necessary action for the good of the public, but I think this is a massive overstepping of government reach into the decisions of Americans. Join with France and make their lives miserable by shutting them out of public spaces, but don't allow officers to remove them from their homes. I hope I'm simply misinformed on what the change will create, but on the face of it, I'm terrified to continue living here if my friends families become detained by the state government for not getting vaccinated. You can kiss goodbye to many of the worlds most profitable companies if you move forward with this. They and much of their workforce won't want to be here, and their tax revenues will disappear with them as well.

Topics for Wednesday, Jan 12th 2022 meeting:

Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntary comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Thank you for hearing me.

This is with regard to the proposition to mandate Covid Vaccinations for attendance of public schools. As a parent, and a citizen of the US, I am appalled that you are even considering something like this. Not only is it unconstitutional to force people to vaccinate, it is also overreach to mandate an experimental drug to children. Per FDA, atleast a 5 year testing period is required to rule out most side effects, including myocarditis in children. It is unconscionable that the government would attempt to force people into injecting this drug. This is NOT done in the United States of America! This is a country where even children have constitutional rights. How dare you put them in harm's way!!

I am completely and strongly opposed to any of the proposed Covid policies, which are overreaching, immoral, unethical and unconstitutional. I stand against these WACs.

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

Do the right thing! Listen to the people and put an end to this show of force and violence against the unvaccinated! Statistics show that it is the vaccinated who are 312% more at risk of contracting variants. The unvaccinated are by and large healthy. I personally have lost friends to the Covid vaccination . Perfectly healthy people who collapsed a few days after receiving them. Do not push this on our children!!

External Email

I am writing to make my voice be heard on how absolutely against my family and I are against the following proposed rules: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100. WAC 246-105.

They are an over reach of our freedoms, they are immoral, this is NOT what public health is about. Public health is to help and teach the community, get them accurate information, resources, assistance. The already outrageous rules in place that are NOT backed by science has lost credibility for public health with the public. And now its proposed to further steal our freedoms??!

You have forgotten your role, you have forgotten what country this is and what freedom means. And you have forgotten you faith in humanity. Your role is to teach. Help. Not force or detain. If were to focus your jobs on what you're meant to do. We wouldn't be in this place.

No to those proposed rules mentioned above. Let the public live! Work! Breathe! Your hysteria has only segregated and caused division! Offer facts on health prevention real facts. And then trust the intent that no one wants to get sick. But an iron fist will not be the answer you are looking for.

Dear State Board of Health,

I am gravely concerned about the passage of proposed COVID policies.

COVID has a 99.9% survival rate. The proposition of forced quarantine, detainment, and forced vaccination is unthinkable.

I stand against WAC's 246-100-070, 246-100-045, 246-100-040, 246-100, 246-105.

Thank you for your time,  
Ame Coleman

To whom it concerns,

We are strongly & completely against any of the following proposed covid policies! They are over reaching and immoral.

We stand against these proposed WAC's: WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

All of these proposals are literally medical tyranny. Personal & medical autonomy is true freedom.

Thank you,

Erik Gatz

Subject: Proposed WAC changes

External Email

Hello,

I would like to voice my concern with the Proposed Policies and WAC codes. I have been a Seattle Firefighter for 22 years and have spent the last two years in our state's ground zero of COVID. These potential WAC changes are unfounded, not needed, and violate every form of individual Right. There is NO pandemic, and there never has been. As a front line worker who has the emails from the King County Medical Director telling us to count ANY death as a COVID death as long as the patient is in some way positive with the virus. This includes trauma patients, heart attacks, the flu, you name it. It is disgusting and is in violation of every medical oath. Standard PPE and mild protection of our elderly and vulnerable is more than adequate. When you as a government agency start to enact procedures that violate individual rights, the citizens will turn against you. These "vaccines" have done no good and I have watched first hand numerous accounts of adverse reactions. I have had firefighter friends die days after receiving a booster, numerous patients with severe stroke two weeks after injection, and severe respiratory distress also after being vaccinated. These drugs are doing more harm than good.

Telling an individual or family that they are required to take a vaccine that is not FDA approved and has not been out on the market for longer than 13 months is against the Constitution and our rights as Free Americans. Our ancestors fought for our rights to give us the freedom to make choices for ourselves. If our Washington State health Department and Governor push to vaccinate and take away individual freedoms that is putting you into the NAZI Germany and Hitler era. Governments shall not overreach and cause immoral policies against an individual person's freedoms.

To require children to be vaccinated with a vaccine that is not FDA approved and been through a full multi level trial just as every other medicine and vaccine has had to go through is immoral, illegal, and overreach. Putting a medicine in our bodies that we don't know enough about and that we have personally witnessed other friends and family members have severe reactions to as well as die within 2 days of having these vaccines is again against our personal liberties afforded us under both the State and US Constitution. Please vote against all WAC codes that require COVID vaccines for anyone.

I would love to talk with someone more about my reasons why I am against this if you want to hear more information.

I stand against these Proposed WAC's:  
WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

Sincerely,

Brady Hubler

Good Morning,

I am 100% against the proposed COVID policies. They purposed policies are a government over reach.

There is not enough data to support this. The Trusted News Initiative has censored and pushed one narrative to the people.

I stand against these proposed WAC's : WAC 246-100-070, WAC 246- 100-045, WAC 246-100-040.

This goes against my constitutional rights. My personal beliefs as an American citizen. If these pass, I will leave the state and relocate to a state which protect and honor our rights and freedoms.

Vaccinated people are still contracting and spreading COVID, they are filling up the hospitals. Also in fact dying of this virus after three shots.

This is America stand up and act like it!

Consider you're actions. We the people have the power. Government works for the people.

Thank you,  
Patricia Howe

Subject: LETTER OF OBJECTION TO PROPOSED POLICIES FOR DISCUSSION ON JANUARY 12, 2022

External Email

January 6, 2022

Dear Sir/Madam:

I am a retired physician, living in Washington. I have practiced Internal Medicine and Infectious Diseases (academic, clinical and research ) for over 40 years .

This evening Jan. 6, 2022, I received a disturbing notice regarding an upcoming agenda of the Washington State Board of Health scheduled to take place on January 12, 2022 ,at 9:30 am – 3:30 PM

Please take notice that I ,and many members of my family and community, are vehemently opposed to the following proposed policies that are scheduled to be discussed by the Washington State Board of Health:

"PROPOSED POLICIES:

\* Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

\* Including the Covid-19 injections as part of school immunization requirements using WAC 246-105."

The above-mentioned proposed policies are a gross infringement upon the freedoms of the citizens of Washington State and blatantly violate our Constitutional rights.

Therefore, I demand that all members of the Washington Board of Health cease and desist from moving forward with the above policies and any proposed policies that infringe upon our Constitutional rights and freedoms.

Respectfully,

Bienvenido G. Yangco, M.D.,M.P.H.

To: Lang, Caitlin M (SBOH) <Caitlin.Lang@sboh.wa.gov>  
Subject: Jan 12th (9:30am - 3:30pm) MEETING re. WAC Codes

#### External Email

I have just been informed that on Jan. 12th (from 9:30 AM to 3:30 PM), the WA State Board of Health will be discussing applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

As a European Jew (I am also an American Citizen, registered to vote in WA State as well as being a resident here, in WA), I am horrified by the amendments to the laws you are seeking to implement. The idea that someone can come to my door and decide what I PUT INTO MY BODY, or TAKE ME AWAY, or PUNISH ME for NOT COMPLYING, TRAUMATIZES ME.

Is that what you are looking to do? TRAUMATIZE people??

I am OPPOSED to implementing the WAC 246-100-070 to FORCE an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility.

I am OPPOSED to implementing WAC 246-100-045 following refusal to comply with requests for medical examination, testing, treatment, counseling, vaccination WA 246-100-040.

In England, in 1940, at the age of 20, my mother joined the Ambulance Corps. Subsequently, as bombs fell on London and people went running for the shelters, my mother was climbing into an ambulance to go out looking for those wounded. (After the war, she came to America, where she met my father. She lived here the rest of her life). If she were here NOW, she would be dumb struck by the measures being proposed today, BY THIS GOVERNMENT, as well as appalled and shaken to her core.

On the other side of the globe, in San Francisco, my father's nanny, Toshi, who was

Japanese, was taken away to a camp, 'GUILTY' only BY ACCIDENT OF BIRTH.

As a society, we have come to admit that draconian measures such as these, are shameful, are wrong, and constitute Government Sanctioned Discrimination.

Under Title 21 Code of Federal Regulations section 50.23 and 24, it is illegal to make anybody participate in an experimental program using coercion. That is how the United States law embraces the Nuremberg Code.

If, as a Nation, we are to make reparations for the past, it is incumbent upon us to NOT SLEEP IN THE PRESENT, making these mistakes all over again, albeit with different sectors of the population, under the pretense of caring for people's safety. A Government trying to FORCE people to take something into their bodies that they have NOT agreed to and DO NOT WANT, is Government Sanctioned rape.

As a U.S. Citizen, I go on the record as OPPOSING Agenda # 8: the WA State Board of Health (or any other entity) forming a Technical Advisory Group (TAG) to review information about Covid-19 shots with the intention or consideration of MANDATING them for children of ANY age.

I wholeheartedly SUPPORT Agenda #11 (Informed Choice Washington's petition): I am asking the WA State Board of Health to create a new rule that PROHIBITS the adding of ANY 'Emergency Use Authorized' (EUA) product/substance/drug or any licensed product that lacks completed phase 3 trial studies to the School's 'Required' List.

I OPPOSE implementing COVID-19 injections as part of school immunization requirements using WA 246-105.

A year into the vaccinations and we are seeing that they do not work, that those vaccinated can catch AND transmit covid-19, that there have been massive numbers of people irreparably harmed by them, with the drug companies NOT interested, NOT HELD ACCOUNTABLE, indemnified. This is HORRIFIC. History will be the final judge, but my hope is that people who know their history will intervene to see that we do not repeat heinous mistakes.

Need I say more?

Sincerely,

Andrea Jeffress

(US Citizen)

Subject: Re: Mandating Vaccines for school age children

External Email

Hi,

I am writing to provide a comment for the Jan 12th meeting discussing applying current infectious disease WAC codes to include Covid for all Washington state residents. I and my family stand fully against these proposals, which are over-reaching and deeply immoral. Individuals should have full medical autonomy and decision making responsibility for their medical examinations, testing, treatment, counseling, and vaccination. These are areas of responsibility that should never fall under the government's jurisdiction. It is grievous and wrong to consider including Covid-19 injections in school immunization requirements as science has shown Covid to not be a serious threat against children. Requiring such would be a violation of parental rights.

We stand against these proposed WAC's:

WAC 246-100

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-105

Thank you.

Dana Walker

Subject: Mandating Vaccines for school age children

Please consider voting against mandating the COVID-19 vaccine for children at this time. The studies that have been conducted have very few participants and the long-term effects have not been considered. There also seems to be a rather large percentage of young men who are developing heart conditions, until it is determined why this is, the vaccine should not be mandated for anyone. There are too many adverse effects being reported and ignored.

Thank you,  
Dana Walker

We stand against these proposed WAC's:  
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

**PROPOSED POLICIES:**

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC in 246-100).
- Including the Covid-19 injections as part of school immunization requirements using (WAC 246-105.)

External Email

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

- Children are at extremely low risk for Covid
- The vaccines are still only EUA (emergency use authorized)
- There are no long-term studies to document any history of safety
- Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,
- The vaccine apparently does not stop the spread of the disease

Also I am appalled that our state is even thinking about detaining people in a "quarantine facility" by using force! This is un-American and unethical! There has been so much hypocrisy when it comes to how we have handled this virus and the science is not clear and constantly changing. It is the duty of each American to take their own precautions based off their own health and values!

Thank you for your time and consideration and I hope that you will do the right thing and also oppose

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040.

Sincerely a concerned mother and Washington resident,

Chelsea Lockwood

Subject: In regards to the upcoming meeting

External Email

I'm writing today to express that I am completely against the proposed policy changes WAC-246-100-070, WAC-246-100-045, WAC-246-100-040, WAC 246-100 and WAC-246-105. There has been a serious government overreach with these policies and they violate the people's constitutional and god given rights. Speaking as someone who has been vaccinated and works in health care, I fully object to these policy changes. Washington residents should always have a right to choose when there is risk involved, in regards to their body and their health.

Respectfully,  
Ms. Dean

Subject: Upcoming policy topic (involuntary detention, etc.)

External Email

This is in regard to the following proposed policy:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Members of the WA State Board of Health:

I'm writing to remind you to be on the right side of history and NOT even consider that anyone should be involuntarily (forcefully) detained and placed in a quarantine facility and forced to be vaccinated. If you are not noticing the parallels to concentration camps then you aren't paying attention! This is not for "the greater good." Eroding our basic human rights to refuse any treatment is flat-out WRONG. We the people will not stand for it and you can bet it will get very ugly before it is made right again. This is not a threat. It's a promise!!!

Now is your chance to stand for what is basic human rights. If human rights are taken away, it's not about health anymore. Some day you be explaining to your grandchildren how you were responsible for taking away human rights, or hopefully how you stood up for them despite the mainstream narrative. Choose wisely.

Sincerely,

Paul Lindberg

Dear Ms. Hisaw,

I am writing in regards to your upcoming meeting which includes the following proposals:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid injections as part of school immunization requirements using WAC 246-105

I want to express my voice and concern over these proposals. To be honest, I am shocked that I even have to address these things in America, the land of the free.

I am 100% opposed to any forced Covid 19 mRNA shots on our children! This is absolute madness to even consider given that kids are at very little risk of harm from Covid and now that we have Omicron, which is proven to be mild, it shows that the pandemic is coming to an end. This is a virus that will always be around we simply need to learn to live with it. This is still an experimental shot and we have no way of knowing the long term effects on our kids. I am not willing for my kids to be an experiment and there is simply no need for this to happen. Dr. Fauci himself, stated that kids were at little risk from dying of Covid and that the hospitalizations were being overcounted because they are including kids in the hospital WITH Covid rather than BECAUSE of Covid, this is a HUGE difference and confirms there is no need to mandate this for kids.

I am also appalled at the thought that quarantine facilities would be even be considered, is this Nazi Germany?! It is complete insanity and there is absolutely no scientific basis

I understand that, today you are discussing vaccinations requirements for children, forced quarantine for the unvaccinated and perhaps forced vaccination. I have a large extended family, most of whom have already acquired and recovered from Covid.

I see that a great deal of time and effort has gone into these WACs. I wonder when time and effort will go into studying the benefit of natural immunity.

What you are considering, I believe to be unnecessary and overreach by the Washington Board of Health.

Due diligence would consider the value of natural immunity, as well as the right of the individual to decide what medications they will inject into their bodies.

I remember the damaging swine flu vaccine of the mid 1970's, which was rushed into use, and I chose not to be vaccinated. I am thankful that others could choose vaccination.

I recovered from Covid and am thankful. The control group for the unvaccinated was eliminated but we have a large voluntary group that could be studied if the desire were there to do so.

Diane Oliver  
Washington State Resident  
and US Citizen.

Dear WSBOH,

This email is in regards to the current policies being discussed today(1/7). I am so disappointed to see proposed policies:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040

Have you all lost your mind? Do you wake up every morning, thinking of ways to make the residents of Washington State question what country or world they are living in? You are ruining our state and our lifestyle by proposing people should lose medical freedom, and I know it's not going to stop here. You will continue to remove each and every freedom we have, until you run every aspect of our lives. We should have the right to choose whether the Covid vaccine is appropriate for our bodies or not. The choice is important, and what has been enforced on us thus far, has obviously done nothing for anyone's health. The vaccine has proven its ineffectiveness by now, so forcing this would be the absolute wrong decision and removal of the freedom we have a right to.

Olympia, you need to get your priorities straight. Put your focus on cleaning up Seattle, which I used to consider the most beautiful place in the country. It is now a landfill. Homelessness, garbage, drugs are rampant. I have about as much confidence walking through gang ridden Compton, CA as I do Seattle. And how about putting some focus on mental health, which you guys have blatantly disregarded since enforcing your drastically overblown lockdowns and social distancing requirements. We need hope and positivity, not continuous fear mongering.

Thank you,

Andrew Belton

Public comments for Jan 12 meeting

Regarding the Covid-19 measures.

This WAC 246-100-70, 246-100-45, 246-100-45 as proposed here goes against the state constitution, Civil Rights Act, Bill of Rights of the Constitution of the United States of America, the Nuremberg Codes, and many others. Freedom IS the solution. Ask yourselves hard and logical questions and seek the answers for yourself.

I would ask the state, in all its scientific wisdom, if it has isolated the COVID-19 virus and how it is able to test for the alleged variants. And how it collects data and the various levels of overlap between "vaccinated/boosted" individuals, breakthrough cases, and other causes of death being counted as COVID cases. The "science" is flawed and unproven – what has been proven shows this entire issue is a political tool to strip citizens of our freedoms. Where is the proof of "direct threat" that must be applied to each individual citizen, by medical professional under threat of perjury (per Civil Rights Act, Title VII)? Why does the state need to assume it knows best for every individual citizen's religious, political, and medical needs?

What is the state's criteria for ending these requirements, independent of other agencies and politicized government bodies (the governor)? I foresee a slippery slope of allowing government control over anyone's health – what may be "required" of free citizens in the future? Forced sterilizations? Forced abortions?

Who is legally liable for VAERS (vaccine adverse event reporting system) ? Why is this a requirement when there are NO long-term studies or successful animal trials? Free citizens cannot be forced to participate in untested medical experiments, especially when political, pharmaceutical, governmental interests stand to benefit greatly and the citizens suffer life-altering health problems as result. It has been over 2 years of this "virus" – rationally, we must look to herd and acquired immunity. Citizens of Washington State are STILL living under governor dictatorship – I do not consider the measures here to be free and democratic in our Federal Republic. How is this not coercion, threat, intimidation, discrimination, division, segregation? What is the continued danger?

Who is being paid benefits to require/administer these tests and vaccines? Why are the

homeless and immigrants (not required to test or take the 'vaccines' not being affected and dying by the thousands?

Please also see the vaccine breakthrough cases in our state from the Department of Health as of 12/01/21:

If the vaccines and masks are so faulty (80,902 breakthroughs) and the hospitalization (4% "Delta") and death (1%) rates are so minimal – why is any of this an issue?

The CDC admits there is NO difference in transmit-ability between a vaccinated and unvaccinated person and they show ZERO CASES

Subject: I oppose WAC 246-100 proposed policies

External Email

Good morning,

I am writing this morning to voice my opposition of the proposed policies. First and foremost I oppose policy (WAC 246-100-070) which allows local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) these specifics come from WAC 246-100.

I also would like to voice my opposition to WAC 246-105 that requires Covid-19 injections as part of school immunization.

Thank you for your time.

Sincerely,  
Caitlin Hendricks

I oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

Subject: A concerned citizen's comments on policies in WAC to 46-100

External Email

To whom it may concern:

As a citizen of this country and a resident of Washington state for the past 16 years I am deeply concerned about policies that will be considered by the Washington state board of health on January 12. Please note that I am emphatically opposed to the following policies outlined in WAC 246-100 :

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
- Covid-19 injections as part of school immunization requirements using WAC 246-105.

It is my opinion that policies like this represent extremely dangerous government overreach. These policies do not reflect my values, my family's values, American constitutional values, or even the most basic human rights. To vote in favor of these policies is to vote against the will of me and my household and most assuredly against the will of the people of this state.

With gravest sincerity,

Alyssa Farinella

Subject: We are not Nazi Germany

External Email

To whom it may concern:

I am writing to ask that the state board of health REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. Vaccines DO NOT prevent, nor stop the spread of COVID-19.
2. Children under the age of 18 have a 99.995% survival rate from COVID infection.
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19.
4. The COVID-19 vaccine is new. Many parents do not feel comfortable giving this to children without years of testing, studies and long term effects being known.

I personally will remove ALL my children from Washington state public schools before I will comply to a COVID-19 vaccine mandate for my children.

I also URGE the state board of health to REFUSE to pass (WAC 246-100-070) that allows law enforcement to force an emergency order to involuntarily detain a person or family. This is unconstitutional and against everything America stands for.

Thank you for your time,

Elizabeth Regalado  
Concerned Mother

I OPPOSE agenda item #8 re: TAG for the purposes of creating/using Covid Policies that would over reach individual medical rights. I stand against the proposed WAC's 246-100-070, 045, 040 or WAC 246-100 , 105 when used to mandate Covid. I oppose the use of EUA re: products or policy re: Covid in all forms.

I SUPPORT agenda item that restricts adding anything to the school list requirements that does not support appropriate research at least phase 3 trials, and that there is also allowable exemptions, religious, ethical re: anything on the list.

Thank you for your attention to this,

Foster Hockett.

External Email

Hello,

Do not pass WAC 246-100-070 and 246-100-045. They violate citizens rights to private medical choices, the right to work, and to simply exist.

The lines are so beyond blurred when it comes to this virus. Firing unvaccinated medical staff but allowing COVID positive vaccinated staff to come to work is ludicrous and the opposite of what the health department has been trying to do. Which is lessen this rarely problematic virus from spreading.

It has been shown that vaccinated people are spreading and contracting this virus quite easily, so trying to detain the people if they are positive for this virus is absolute insanity.

Ebola? That can have a mortality rate of 40%-90% depending on the strain. THAT is a possibly monstrous pandemic that requires detainment.  
Not COVID.

Do not add COVID to the WAC codes, you would be wasting state money, resources, and would cause people to move from the state en mass. Which we all know would be detrimental to the states funding of needed construction, employees, etc.

I object to this on a deep moral and ethical basis. Passing this is no better than sending Jews to the Nazi concentration camps. Your legislation is deeply disturbing.

**DO NOT PASS THESE WACS.**

WA State Board of Health members

The upcoming discussion regarding applying the current infection disease WAC codes to include COVID-19 for all WA State residents is of grave concern to me.

Most importantly, this is a massive overreach of government & a human rights violation. It is plainly put: unconstitutional.

To allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040) is egregious! This law should be put in front of a court and eliminated! Now you are discussing extending such lawlessness to an experimental emergency use medication?! Please look at the published death rates by the CDC that are attributed to this & that is under reported! Approving such an infringement on our rights would be a threat to our freedom and a mimicking of the communist China government. I implore you to prevent our State government from excessive power & abuse of authority.

I also would like to cover a critical issue regarding the discussion to include the Covid-19 injections as part of school immunization requirements using WAC 246-105. Again, this is an EUA drug. NOT a fully approved vaccine by the FDA. The known issues, especially for young males, are already incredibly alarming. Approving such a measure is not only irresponsible but another overreach of government on our youngest and most vulnerable that deserve the protection of their parents and healthcare provider. The deaths associated with this vaccine on those being forced to comply with a surging amount of government infringement would be a gross violation of human rights & our Constitution. Medical freedom must be reinstated in this country and especially in our State. Please do the right thing & do not permit these matters to go forward.

Thank you

Good Day, I would like to make it very clear that I am against the overreaching and tyrannical Covid19 Policies of this state, including the proposal to include Covid19 in the current infectious disease WAC codes. Our government has no right to use law enforcement to strip us of our rights and liberties. The proposed involuntary detainment for isolated quarantine is not American. Vaccine mandates are not American. Restricting children from attending school is not American. Masking our children is not American. I am adamantly against any vaccination mandates for children of any age. Shutting down small businesses so we cannot provide for our families is not American. This is NOT what our great country was built on. As an American citizen, I have had enough. We have all had enough. This blue state government has used this pandemic for their own power and political gain for far too long. Our votes have power, I trust you will do the right thing for the people of Wa state.

I firmly stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC-246-100, WAC 246-105.

Thank you,

To whom it may concern,

I am completely against any of the proposed covid policies that are being up for review in the state of Washington. They are overreaching and immoral. We, my family, stand against these proposed WAC's:  
WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100-, WAC 246-105

Again, these are very immoral, and there is no need to make it mandatory to attend school with having this covid vaccine. The recovery rate is very high, especially among children and teenagers.

Let the voices of the people in the state of WA be heard.

Thank you,  
Amy Lowdon

To Whom it may concern,

I am writing to express my concern regarding the Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry. As a lifelong WA citizen with two school-age children, I am adamantly against mandating the COVID-19 Vaccine. Mandating the vaccine violates human rights and does not meet the necessary criteria for inclusion in the WAC. As most want us to follow the science on this issue I urge you to look deeper in to the science and how COVID-19 is not a large enough threat to our school age children to deem it necessary to create a mandatory vaccination for them, and would be unethical. This should be left up to our freedom of choice to be able to choose what we put in our body. I feel we should be inclusive of both sides feelings on this issue, and allow those who choose to vaccinate their children to do so and those who don't to not be discriminated against. By forcing the vaccine we will be increasing the division in our great country and adding one more thing for us to continue to fight about.

I also strongly oppose extending the scope of WAC 246-100-070 Enforcement of local health officers to expand authority to involuntarily quarantine individuals. By allowing this to go through and put into action will be in direct violation of our constitutional rights and will be allowing us to repeat what has already happened in history in a not so distant past. This would not be making progress this would be going backwards.

I hope these concerns will be heard and taken seriously.

Thank you for your time.

To whom it may concern,

I am completely against ANY of the proposed COVID policies, they are overreaching and immoral. I stand against the proposed WAC's and any others I may have missed adding below:

- WAC 246-100-070
- WAC 246-100-045
- WAC 246-100-040
- WAC 246-100
- WAC 246-105

Attempts like this violate mine and the American peoples medical freedom and rights as a free person living in a free nation. "My body, my choice." Myself and anyone I know should not be discriminated against. These proposed laws do just that and also violate my religious beliefs.

Thank you for considering my input,  
Carissa Anderson

I am opposed the following

**PROPOSED POLICIES:**

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Ms. Tami Thompson,

See attached my petition to prohibit the board from enacting WAC 246-100-070, WAC 246-100-045, and WAC 246-105 accompanied with reasoning. The people DO NOT want this and will fight against it.

Best,

Anastasia Osorio

# PETITION FOR ADOPTION, AMENDMENT, OR REPEAL OF A STATE ADMINISTRATIVE RULE

Print Form

In accordance with RCW 34.05.330, the Office of Financial Management (OFM) created this form for individuals or groups who wish to petition a state agency or institution of higher education to adopt, amend, or repeal an administrative rule. You may use this form to submit your request. You also may contact agencies using other formats, such as a letter or email.

The agency or institution will give full consideration to your petition and will respond to you within 60 days of receiving your petition. For more information on the rule petition process, see Chapter 82-05 of the Washington Administrative Code (WAC) at <http://apps.leg.wa.gov/wac/default.aspx?cite=82-05>.

### CONTACT INFORMATION *(please type or print)*

Petitioner's Name Anastasia Osorio  
Name of Organization Informed Choice WA (ICWA)  
Mailing Address PO Box 195  
City Hoquiam State WA Zip Code 98550  
Telephone \_\_\_\_\_ Email \_\_\_\_\_

### COMPLETING AND SENDING PETITION FORM

- Check all of the boxes that apply.
- Provide relevant examples.
- Include suggested language for a rule, if possible.
- Attach additional pages, if needed.
- Send your petition to the agency with authority to adopt or administer the rule. Here is a list of agencies and their rules coordinators: <http://www.leg.wa.gov/CodeReviser/Documents/RClst.htm>.

### INFORMATION ON RULE PETITION

Agency responsible for adopting or administering the rule: Board of Health

1. NEW RULE - I am requesting the agency to adopt a new rule.

The subject (or purpose) of this rule is: ICWA is requesting the WA State Board of Health adopt a new, permanent Rule prohibiting the Board from adding to the daycare or school requirements any Emergency Use Authorized (EUA) product or any licensed product formulation which has not yet completed Phase 3 clinical trials. This new rule request pertains to any and all avenues through which the Board has authority to add medical intervention requirements, including through regular or emergency rule-making.

The rule is needed because: Despite the absence of an FDA licensed COVID-19 vaccine w/ completed Phase 3 trial studies in children, and despite CDC-acknowledged risks of myocarditis and blood clots, the BOH has gathered a Technical Advisory Group (TAG) to examine adding COVID-19 vaccines to daycare & school requirements. This new rule is needed immediately to ensure that federal EUA regulations are upheld & to protect fully informed consent, which prohibits the use of coercion or undue influence, such as can be exerted by state requirements.

The new rule would affect the following people or groups: All minor children, their parents and guardians in WA State.

We have attached just a few of the many resources available to support this petition. We request adequate time to present more information and expert testimony to the BOH members in-person (or via an online meeting).

# *Informed***CHOICE**WA.org

**Date:** December 28, 2021

**To:** The Washington State Board of Health Members

**From:** The Board and Members of Informed Choice WA

**Subject:** Addendum to Petition Prohibiting Addition to Daycare or School Requirement any Emergency Use Authorization Product, or any licensed medical intervention product that has not completed Phase 3 clinical trials.

Dear Board of Health Members:

As noted in the Petition Filing, we are requesting the WA State Board of Health adopt a new, permanent rule prohibiting the Board from adding to the daycare or school requirements any Emergency Use Authorized (EUA) product or any licensed product formulation which has not yet completed Phase 3 clinical trials. This new rule request pertains to any and all avenues through which the Board has authority to add medical intervention requirements, including through regular or emergency rule-making.

We are requesting this Rule because despite the absence of an FDA licensed COVID-19 vaccine formulation with completed Phase 3 trial studies in children, and despite CDC-acknowledged risks of myocarditis and blood clots and the data showing children are not at high risk of severe disease or death from COVID-19, the BOH has gathered a Technical Advisory Group (TAG) to examine adding COVID-19 vaccines to daycare & school requirements. This new rule is needed immediately to ensure that federal EUA regulations are upheld & to protect fully informed consent, which prohibits the use of coercion or undue influence, such as can be exerted by state requirements.

This new rule would impact and protect all minor children, and their parents and guardians, in WA State.

**The Addendum attached provides just a few of the many resources available to support this petition. We request adequate time to present more information and expert testimony to the BOH in person or via an online meeting.**

Sincerely,

Xavier Figueroa, Ph.D.

On behalf of the ICWA Board and Members

# ADDENDUM

## 1. Federal Emergency Use Authorization statutes prohibit school mandates of EUA products

“The possible side effects of the vaccine are still being studied in clinical trials. . . Under the EUA, there is an option to accept or refuse receiving the vaccine.” source: pp. 4-5 <https://www.fda.gov/media/153717/download>

The option to accept or refuse an EUA product is not conditioned upon written assertion of exemption. Medical, personal, or religious exemptions are not required in order to exercise the right to refuse. Under EUA law, a parent or guardian may simply decline a shot for their minor child, without providing explanation or paperwork. A state-level daycare or school requirement introduces the need for filing of exemptions, unlawfully exceeding the parameters set forth by Congress for EUA products.

“FDA believes that the terms and conditions of an EUA issued under section 564 preempt state or local law, both legislative requirements and common-law duties, that impose different or additional requirements on the medical product for which the EUA was issued in the context of the emergency declared under section 564.” Source: <https://www.fda.gov/emergency-preparedness-and-response/mcm-legal-regulatory-and-policy-framework/vaccine-eua-questions-and-answers-stakeholders>

**2. Phase 3 clinical trials of COVID-19 vaccines are not yet completed.** C4591007—the main clinical trial in children and young adults with BNT162b2—has an estimated completion date of May 5, 2026. Source: <https://clinicaltrials.gov/ct2/show/NCT04816643>

**3. The vaccine formulation now being given to U.S. children aged 5-11 is NOT the same formulation used in the clinical trials, and NOT the same formulation that has been administered to all other age groups under EUA.** So even when current ongoing clinical trials are complete, the results cannot be assumed to be relevant to the safety or effectiveness of the new formulation.

“The vaccine that is authorized for use in children 5 through 11 years of age includes the same mRNA and lipids but different inactive ingredients compared to the vaccine that has

been used under EUA in individuals 12 years of age and older and that has been studied in clinical trials.” Source: p. 2 <https://www.fda.gov/media/153717/download>

The participants in clinical trials involving children aged 5-11 received “two doses of 10 µg BNT162b2 or placebo (saline)”, not the new formulation. Source: Pg. 17 <https://www.fda.gov/media/153447/download>

Pfizer requested approval of the new formulation when they requested EUA for children 5-11. “Authorization is being requested for a modified formulation of the Pfizer-BioN-Tech COVID-19 Vaccine. Each dose of this formulation contains 10 µg of a nucleoside-modified messenger RNA (mRNA) encoding the viral spike (S) glycoprotein of SARS-CoV-2 that is formulated in lipid particles and supplied as a frozen suspension in multiple dose vials. . . . To provide a vaccine with an improved stability profile, the Pfizer-BioN-Tech COVID-19 Vaccine for use in children 5-11 years of age uses tromethamine (Tris) buffer instead of the phosphate- buffered saline (PBS) as used in the previous formulation and excludes sodium chloride and potassium chloride.” Source: Pg. 14 <https://www.fda.gov/media/153447/download>

**4. FDA admits safety unknown.** Children are being used as test subjects, with their parents acquiescing under fraudulent marketing pressure. Public Health messaging does not match the reality of the current knowledge base. At the October 26 VRBPAC meeting, FDA Advisor Dr. Eric Rubin admitted: “. . . .but we’re never going to learn about how safe this vaccine is unless we start giving it.” Source: @6:52:33 [https://youtu.be/laaL0\\_xKmma](https://youtu.be/laaL0_xKmma)

**5. The International Alliance of Physicians and Medical Scientists has declared that children should be excluded from vaccine mandates:**

*“Consensus is clear among MDs and medical PhDs: following 20 months of exhaustive research, millions of patients treated, hundreds of clinical trials performed and scientific data shared worldwide, they conclude that healthy children and the COVID-recovered should be excluded from restrictions and vaccine mandates.”*

Source: <https://globalcovids Summit.org/news/thousands-of-physicians-and-scientists-reach-consensus-on-vaccinating-children-and-natural-immunity>

**Physicians Declaration II – Updated  
Global Covid Summit  
International Alliance of Physicians and Medical Scientists  
October 29, 2021**

WE, THE PHYSICIANS OF THE WORLD, united and loyal to the Hippocratic Oath, recognizing the imminent threat to humanity brought forth by current Covid-19 policies, are compelled to declare the following:

WHEREAS, after 20 months of research, millions of patients treated, hundreds of clinical trials performed and scientific data shared, we have demonstrated and documented our success and understanding in combating COVID-19;

WHEREAS, in considering the risks vs. benefits of major policy decisions, thousands of physicians and medical scientists worldwide have reached consensus on three foundational principles;

NOW THEREFORE, IT IS:

RESOLVED, THAT HEALTHY CHILDREN SHALL NOT BE SUBJECT TO FORCED VACCINATION ([view supporting evidence](#))

- Negligible clinical risks from SARS-CoV-2 infection exist for healthy children under eighteen.
- Long term safety of the current COVID vaccines in children cannot be determined prior to instituting such policies. Without high-powered, reproducible, long term safety data, risks to the long-term health status of children remain too high to support use in healthy children.
- Children risk severe, adverse events from receiving the vaccine. Permanent physical damage to the brain, heart, immune and reproductive system associated with SARS-CoV-2 spike protein-based genetic vaccines has been demonstrated in children.
- Healthy, unvaccinated children are critical to achieving herd immunity. Natural immunity is proven to tolerate infection, benefiting community protection while there is insufficient data to assess whether Covid vaccines assist herd immunity.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I am aghast at the completely dictatorial policies that are coming out of Olympia. The fear mongering and the division being caused by unconstitutional policies surrounding this "pandemic" are surreal. Data manipulation, misinformation, and an utter lack of transparency to the people of this country is causing an internal disintegration of our country!! Who benefits from this? Certainly not the people of the USA.

The mandate on a "vaccine" that is not even a vaccine was the first 3 alarm bell going off in my head (perhaps there were others that I ignored - shame on me) but these upcoming proposals listed below are cause for much higher alarms. People will not stand idly by. This needs to stop now!

"I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you?"

If you have any say in this matter, now is the time to speak.

Thank you for your time,

Subject: Public Comments RE January 12th Agenda

External Email

To Whom it may concern,

I am writing to express my concern regarding the Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry. As a lifelong WA citizen with two school-age children, I am adamantly against mandating the COVID-19 Vaccine. Mandating the vaccine violates human rights and does not meet the necessary criteria for inclusion in the WAC. As most want us to follow the science on this issue I urge you to look deeper in to the science and how COVID-19 is not a large enough threat to our school age children to deem it necessary to create a mandatory vaccination for them, and would be unethical. This should be left up to our freedom of choice to be able to choose what we put in our body. I feel we should be inclusive of both sides feelings on this issue, and allow those who choose to vaccinate their children to do so and those who don't to not be discriminated against. By forcing the vaccine we will be increasing the division in our great country and adding one more thing for us to continue to fight about.

I also strongly oppose extending the scope of WAC 246-100-070 Enforcement of local health officers to expand authority to involuntarily quarantine individuals. By allowing this to go through and put into action will be in direct violation of our constitutional rights and will be allowing us to repeat what has already happened in history in a not so distant past. This would not be making progress this would be going backwards.

I hope these concerns will be heard and taken seriously.

Thank you for your time.

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds of they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.  
-Concerned citizen.

Re.: PROPOSED POLICIES:

1. Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

2. Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Bottom Line: A long-time WA resident, I am adamantly opposed to official's forcing involuntary detention for responsible citizens who exercise their right to determine what they will/won't inject into their own bodies. You propose "involuntary" detention for "voluntary" noncompliance. Sadly, these two mutually-exclusive descriptors ("involuntary" and "voluntary") belie the subplot of what's being advanced. And I object to it.

As a retired educator, I am equally appalled at the thought of forcing experimental injections into the arms of children and youth. Too many questions are yet unanswered. A FDA advisor reminds us that there is no expectation that the lower dose in children will behave similarly to the higher adult dose. This, of course, begs the question: Do we really want to experiment on our children?

One of the most academically cited American epidemiologists alive today says he would pull a healthy child out of public school before he administered this vaccine. Harvard University professor of medicine, Martin Kulldorff, agrees with Dr. Harvey Risch. Data and scientific studies he's reviewed show that children are more likely to contract serious disease or die from the annual influenza, or the flu, than COVID-19.

Covid injections are experimental. Simple as that. Dr. Eric Rubin, who sits on the administration's vaccine advisory panel, said in part, "We're never going to learn about how safe this vaccine is unless we start giving it. That's just the way it goes. That's how we found out about rare complications of other vaccines, like the rotavirus vaccine." Never mind that safety data are lacking! Rep. (and Doctor) Greg Murphy (NC) responded rightly in noting that Ruben's comment "is literally the most dangerous statement" he had ever heard in medicine." I agree.

Re.: Too many questions are yet unanswered.

The CDC openly acknowledges that for 30 years since creation of the VAERS reporting

system, reporting of adverse vaccine DEATH reports remained very low and constant. However, beginning in December 2020 with the first COVID19 vaccines hitting the open market, and escalating every day since, the adverse event DEATH reports have skyrocketed to levels never before seen in 30- years of vaccine adverse event reporting. Before mass-enforcing an experimental injection, especially on children, these questions (and countless more) must be answered (with peer-reviewed science):

1. The CDC admits there are no peer-reviewed studies, yet it's okay to take these injections deemed "safe and effective." But by what standard? There is no longitudinal history from which to draw.

2. Just what's in these injections? We know that the mRNA Moderna experiment injection contains SM-102 designated "for research use only, not for human or veterinary use" (See: Cayman Chemical Safety Data Sheet acc: OSHA HCS. Trade Name: SM-102.) What else is in these injections, and why pump them into humans (especially children)?

3. Salk researchers confirmed that the main damage from Covid is caused by the clot-generating spike protein, not the virus. It's unclear how long these potentially lethal proteins remain trapped in the lining of the blood vessels, or what damage they might eventually do, so why inject people with a substance that teaches their cells to make spike proteins?

4. Why the Covid surge (which, on a per-capita basis, was higher than the surge that devastated India) in 4 out of 5 of the most vaccinated countries (Forbes)?

5. Why did more people die in 2021 (January through August) despite the rollout of COVID shots in December 2020?

6.

7. Researchers noted: "Overall, our data provide strong evidence that SARS-CoV-2 infection in humans robustly establishes the two arms of humoral immune memory: long-lived B cells and memory B cells." This is perhaps the best available evidence of long-lasting immunity. Yet natural immunity is downplayed in the media narrative. Why?

8. To encourage pharmaceutical companies to manufacture ground-breaking new medicine, governments use no-fault indemnity against lawsuits. Where's the protection for individuals injured from the vaccine?

9. Cardiovascular, neurological and immunological adverse events are all being reported at rates never even remotely seen before. Shouldn't the magnitude of side effects compared to other vaccination programs concern us? This is especially true in that adverse events are broadly known to be seriously under reported!

10. One's right to informed consent mustn't be bypassed. But the mainstream media narrative is quite silent about adverse effects. According to the CDC, Myocarditis, a rare condition, is occurring at a higher than expected rate in vaccinated individuals. Researchers used data from the Vaccine Safety Datalink, run by the CDC, to find 21 potential cases, 11 of which were confirmed, of Guillain-Barré syndrome (GBS) in people who got the shot. Autoimmunity and the opposing condition, metabolic syndrome, are well known adverse events caused by vaccines. The Covid injection is also paired with Creutzfeldt-Jakob (prion) disease. Shouldn't the public be fully informed of these risks and, then, decide for themselves?

A local ABC News Station posted a request on Facebook for people to share their stories. In five days, over

200K people

posted comments, all of which addressed vaccinated loved ones who died shortly after being injected, or who are permanently disabled. Shouldn't this at the very least be looked into?

The Informed Consent Action Network (ICAN) reported that a study showed that the actual number of anaphylaxis is

50 to 120 times higher than claimed by the CDC.

Re.: Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

In September, the Singapore government awarded a teen \$225K for having a heart attack following a Pfizer shot. Over in Taiwan, second doses of the Pfizer-BioNTech jab for children, aged 12 to 17, have been temporarily halted due to myocarditis concerns.

Meanwhile, in America, the director of the CDC advocates approving the jab for children, aged 11 to 15 years old; and WA wants to include Covid-19 injections as part of school immunization requirements.

So why inject healthy children when their risk is statistically insignificant? Metrics among the unvaccinated rise across

age groups, but data clearly illustrate that younger, healthy people are at little risk from the disease. Fact is, unvaccinated 18- to 29-year-olds saw deaths lower than most fully-vaccinated age groups.

Most Covid patients (70.6 percent) have one or more underlying health conditions.

Nearly 36 percent infected are obese. 31 percent suffer from chronic lung disorders, and just over 14 percent suffer neurologic disorders. COVID-19- associated hospitalization rates in children were found to be overcounted when, in fact, 45 percent of the patients admitted to Lucile Packard Children's Hospital in California were not about Covid.

There is no logical reason for forcing risky, untested injections on healthy children.

Consider instead the youth who are vaccinated. In June, the CDC reported higher-than-expected rates of myocarditis among vaccinated (not

unvaccinated) youth. There were 117 cases among males 12 to 15 (when no more than five were expected).

Dr. Nicola Klein of the Kaiser Permanente Vaccine Study Center presented data regarding post-vaccination heart inflammation from the Vaccine Safety Datalink, a database from the CDC, and nine other healthcare groups, including five Kaiser Permanente facilities.

Data also showed higher than expected cases among youth following vaccination.

Yet we are expected to ignore facts and summarily dismiss legitimate concerns, as these, as misinformation perpetrated by quacks. Even if such claims ring true, who gets to decide? The answer is best found in the cliché, "Follow the money." Throughout the pandemic, nine new billionaires have been hatched. Pfizer alone estimates to profit at least 33.5 billion dollars from the Covid injections; and many medical professionals receive financial incentives to promote injections. In the United Kingdom, for example, nurses get

£10 per needle they put into a child.

Our charge is to protect children, not to use them for monetary gain. They are not guinea pigs, nor should they be treated as such.

Subject: Forced quarantine abuse of power

External Email

Good Morning,

It has been brought to my attention that the Board of Health is proposing to amend WAC 246-100-040 and WAC 246-100-070 and enact provisions of the WAC that allow for the forceful quarantine of people against their will. I am vehemently opposed to this change, and while the Board of Health is not elected, I will do everything in my power to ensure that politicians are elected that will reign in the Boards gross abuse of power if this proposal is passed.

Respectfully,

Greg Morton  
Silverdale, WA

WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

These proposals are violations of Nuremberg Code: "The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision."

- Katrina Mason

Good afternoon,

I am a resident in Puyallup, Wa. I am not only a mother and wife, but a sister, friend, and daughter myself. When I speak for myself I can confidently say I speak for many others as well. I am completely AGAINST the new proposed policies for Covid. These policies are controlling, immoral, and more importantly against our civil rights! WE STAND AGAINST WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100-100. End the nonsense, come back down to reality.

Signed, Alyssa Busch  
Aka. Someone fighting for their rights!

Dear Stuart,

As a member of the Washington Board of Health I'm sure you share my concern for the wellbeing of our populous. It is for this reason that I have taken the time to write to you. As a US citizen and resident of Washington State I want to express my strong objection to WAC 246-100. I understand that it will allow local health officers to use law enforcement (WAC 246-1-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to comply with requests for medical examination, testing, treatment, counseling, vaccination (WA 246-100-140).

I believe this is an unnecessary overreach by this State. It seems like we are heading toward a pattern of control that resembles Communism. Please reject this legislation and protect our freedoms.

Subject: Jan 12 meeting

attachments\F4A2BA870B8A4BAF\_WSBOH-Agenda-2022-01-12-Final.pdf

External Email

Hello,

I received a message from someone I who was alarmed by this meeting. Namely, agenda items 9 and 11. I reviewed the posted agenda, and found it to just reference some discussion points. I've attached the agenda for reference.

They referenced several WACs and related the following:

"PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105."

Can you please confirm whether or not the board is considering the above specific actions, specifically regarding forced detention, forced vaccination, and/or forced use of quarantine facilities? If so, what enforcement agency would health departments use to enforce it (local police, Washington State Patrol, National Guard, other)?

I know that there are a lot of alarmists out there, and often these types of frantic messages are a result of someone reading into an agenda item. I suspect this to be the case. This is why I wanted to reach out and get information from the source, and to hopefully put at ease any undue alarm.

Also, if the above information I received is not accurate, I thought this would be a good chance for you to know what information is floating out there, and address it early.

Thank you for your time,

Antonio Tararan

Subject: Statement on proposed application of WACs to Covid-19

External Email

To whom it may concern,

I vehemently oppose the State Board of Health's proposal to extend certain infectious disease WACs to include Covid-19. The proposal is a gross and unjustified overreach of power, for a disease that continues to decline in both severity and mortality rates.

Let me state this clearly: WSBOH does not make law; only the Legislature makes law. WSBOH's policies must comply with the Constitution of WA State. This proposal violates the Constitution, and it violates the God-given Rights of the People. Such an overreach of power is unacceptable and will not be tolerated.

Witness:

WA State Constitution, Article I, Section 1: " All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights." (emphasis mine)

WA State Constitution, Article I, Section 3: " No person shall be deprived of life, liberty, or property, without due process of law."

WA State Constitution, Article I, Section 7: " No person shall be disturbed in his private affairs, or his home invaded, without authority of law."

WA State Constitution, Article I, Section 11: " Absolute freedom of conscience in all matters of religious sentiment, belief and worship, shall be guaranteed to every individual, and no one shall be molested or disturbed in person or property on account of religion..."

WA State Constitution, Article I, Section 30: " The enumeration in this Constitution of certain rights shall not be construed to deny others retained by the people."

I refuse my consent to these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

You have been given Notice.

Erin Honeycutt

Subject: Concerning proposed policies

External Email

Regarding the proposed policies for the upcoming meeting, I STRONGLY oppose them. To involuntarily detain people over something that has a 99% survival rate is unconstitutional and just not something that should even be considered, purr act of evil.... to mandate kids receive a vaccine that has high risks of myocarditis and teachers having to be taught signs of symptoms of cardiac arrest and yet actual Covid has less effects on them, is not right... it should be parent choice what happens to their children, they are the ones to birth them, raise them, feed them, etc.. they should be the ones to decide on vaccines...NOT THE GOVERNMENT!

NONE OF THIS IS OKAY. STOP THIS INSANITY NOW!

AGAINST THE PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Commenting on the meeting planned January 7th regarding applying WAC 246 -100-070, the 045 regarding quarantine, 040 regarding forced vaccination. Consideration of applying these to management of Covid is a dangerous, unconstitutional abuse of the authority you have been granted. I am a full time practicing nurse - there is no call for this. We do urgently need education, on the media, regarding the urgent treatment at home that is necessary to combat the virus including rapid covid tests, monoclonal Antibody treatment as outpatient and aggressive respiratory treatment. The number of fatalities can be significantly reduced by urgent education. Regards - Jill Morgan RN BSN

I am writing to voice my opposition to the proposition of including covid to these WACs: WAC 246-100-040, WAC 246-100-045, WAC 246-100-070, WAC 246-100, and WAC 246-100-105. These propositions are over-reaching, intrusive, and have no business being implemented against citizens of Washington State. As we've seen over the last two years, covid is difficult to contain and despite vaccines, boosters, masks, and social distancing, the virus continues on it's path.

Also, I would strongly oppose adding the covid vaccine to the childhood school immunization schedule. This vaccine is new! Long term safety data is not complete. Yet the short-term information shows there's already noticeable harm by giving this vaccine to the 5-17 age group. Children already have a very high survival rate for the actual virus and nearly no long term complications.

Children are suffering from the covid virus, but it's not from the illness caused from infection, it's the mental and social stress and disruption that is causing harm. Children need to see faces, they need to interact with their peers, and need have their mental health valued by providing consistency and familiarity in their educational. The fears of adults over an illness should not eclipse the need of setting our children up for success. The damage from the covid overreaction is going to be far more lasting than the effects of the virus. It would be in the best interest of our children to focus on the social, mental, and educational detriment of these current covid policies (I.e. masking, school closures, and social distancing) and to leave the covid vaccine decision up to the parents and their personal trusted medical voice.

Washington citizens are trustworthy with their personal health decisions. Be respectful of our autonomy.

Good morning,

I am writing this e-mail regarding the proposed COVID-19 policies that would be a complete overreach of the government and are at best a threat to our freedoms as American citizens. This is besides the fact that the vaccine is more of a risk to children than actually getting COVID. It's absolutely senseless. It's not right - you know it and we know it. I, and my other 4 family members, stand in complete opposition of the following proposed WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Sincerely,

Jana Bajema

Washington State Board of Health Members,

I wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070 <tel:246-100-070> ) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045 <tel:246-100-045> ) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040 <tel:246-100-040> ). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and its variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. Several of my friends ages 40 up to 75, (all unvaccinated), some with several comorbidities have had Covid (including Delta variant) have all survived. Our God-given natural immunity kicked in and we successfully navigated the disease and are now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS reports!

Also, I have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus.

Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept my concerns and recommend AGAINST these proposals being presented.

Sincerely,  
Pamela Coffell

To: DOH WSBOH  
Cc:  
Subject: Health Board Meeting

External Email

Good morning,

My name is Ashlee Desmarais and I am writing this email regarding the Washington state board of health meeting that will be taking place January 12, 2022.

As it currently stands, regarding proposed WAC 246-105, the reasoning for a Covid vaccine requirement for schools with the current lack of efficacy in preventing infection is completely lost on me.

The vaccine has been readily available to those who are interested in getting it, and a mandate is completely taking parents' options away. Coercion under the guise of "public health" is absolutely unacceptable and quite frankly, tyrannical.

This is beyond upsetting to me and having to even send this comment is completely disappointing. The state of Washington, and the vaccination system in general, is being destroyed by forceful policies and greedy politicians. I have lost complete hope in the future of our state with the proposed laws.

Additionally, I largely have an issue with proposed WAC 246-100-070. This will put extreme strain on our already struggling law enforcement. This proposed WAC is reminiscent of the WWII era, and disgusting to even be considered. If this gets enacted into law, I will do everything in my power not to comply. I will never allow my family to be privy to government overreach.

I hope that the concerns of the people will truly be heard and taken into consideration during this meeting, and restore all of our faith into the Washington State government.

Respectfully,  
Ashlee Desmarais

To Whom It May Concern:

I would like to express my great concern about (and object to) the WAC codes applying to WA state residents. These laws infringe upon basic human rights. As has now been established by science, the vaccines have proven ineffective in preventing people from contracting Covid or spreading it. One could conclude through reading the VAERS reports, which present only a small sampling of vaccine-related injuries, that more people are harmed by the vaccines than saved by them. These vaccines have proven to be a medical experiment in which irreversible damage is done, particularly to young people. Children should not take the Covid vaccine. As stated at the beginning of this pandemic, children are not statistically at risk for dying from Covid, nor are they great spreaders. For those people who are older, early treatment has proven to be effective in treating Covid. There are many legitimate, documentable international case studies proving this. Those studies which dismiss early treatment were relying on inappropriate dosing or on implementing treatment too late after infection. At the very least, regardless of opinions regarding the vaccine, every WA citizen should have the right to choose which medical avenue to pursue: to be vaccinated or not to be vaccinated. Somewhere along the line, we as a country have allowed our freedom and right to choose to be devalued and eliminated. If you took the vaccine, and if it actually was effective, why would you care if anyone else is vaccinated? Your own vaccination should be adequate. WAC 246-100-070 is to allow local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counsel, vaccination (WAC 246-100-040). THESE SUGGESTIONS ARE UNCONSCIONABLE! Can you not see that these codes absolutely infringe on basic human freedoms? Please reconsider passing any of these codes, particularly the ones requiring all children to be vaccinated with an experimental vaccine.

Thank you for your service.

Sincerely,

Ben Klinger

To whom it may concern,

I found this policy discussion online. It says the board will meet to discuss on January 12th.

"PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105."

Is the board of health seriously considering this? I am beside myself as a father and resident of Washington state. You will not use the power of the state to force a vaccination on my children. I will move from the state before I see this happen. The idea that you will put my family in an internment camp because we choose to follow professional medical advice that does not line up with state doctrine is evil and Un-American. I adamantly oppose the use of these rules as it pertains to Covid-19.

Best,

Brandon McPherson  
Life Long Washington Resident and Father

I am vehemently opposed to any and all of the proposed draconian Covid policies this rogue state leadership is looking to employ! This is an egregious overstep to say the least and a challenge to this constitutional Republic and the idea that government is comprised of persons from the self same republic that has placed leaders in positions to create direction and cripple the concept of a democracy.

Specifically, I am opposed to these proposed WAC's:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100- 040  
WAC 246-100  
WAC 246-105

Subject: Concerns

External Email

Washington State Board of Health Members,

I am a resident in Chelan, WA, and wish to STRONGLY OPPOSE allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100 and including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

The government has no right to force anyone to take anything into their bodies they do

not choose to take. This idea is equal to the taking of God-given freedoms in Nazi Germany. It also is criminal to punish or detain anyone for their choice of medical freedom. Reference the NUREMBERG Code! A Quarantine facility where people are forced to stay is absolutely wrong, especially in the face of the Covid disease and it's variants which only have a tiny fraction of risk of death to the average person. Even those with comorbidities have a very high chance of surviving this virus. Both me and my husband, age 65 and 75, (unvaccinated) with several comorbidities had Covid in June and July of 2021 (Delta variant) and survived. Our God-given natural immunity kicked in and we successfully navigated the disease and are now stronger for it. Allowing people's natural immunities to fight this virus is the ONLY way to reduce its strength. The mRNA vaccines are EXPERIMENTAL and should not be forced on anyone, period! These vaccines have been proven to carry more of a health risk than getting Covid! Look at the VAERS reports!

Also, we have the same opinion about not mandating children to be vaccinated against Covid. Almost ALL children survive the virus as easily as the common cold or flu virus. Again, these vaccines are EXPERIMENTAL and have not yet proven to be safe! Heart, nervous system, and other systems in the bodies of young people receiving these vaccines are being affected in atrocious ways! The risk FAR OUTWEIGHS any benefit! It is truly WRONG to mandate these vaccines when natural immunity is very effective against this virus!

Please accept our concerns and recommend AGAINST these proposals being presented.

Sincerely,

Catherine Anderson

Chelan, Wash. 98816

Hi Mike,

The original agenda cited an RCW Chapter. It was not known which sections would be addressed. The updated E letter that went out this morning clarified what will be on the agenda.

Currently, the state board of health is considering adding the shot to the vaccine schedule for schools. A technical advisory group is being put together to study that and determine whether or not to recommend it.

I have seen a lot of things flying around in social media. I hope this clarifies that issue!

Thank you!!

Dear Committee Members,  
Are the below "Proposed Policies" true?

If so, I believe this is very concerning and shows a clear overreach of our local Government.

These types of policies are a slippery slope into outright tyrannical governments. This is what our "Greatest Generation" fought so hard against. Involuntarily detaining people for periods of time with no due process is NOT the way America governs and polices itself. And State agencies should always have very limited power.

If the State of Washington and the DOH really want to help. Then push for more approved Therapeutics, Allow monoclonal treatments. Allow an individual's Doctor to say whether an individual requires or should have a vaccine. Incarcerate Drug dealers and heavy users.

DO NOT strip hard working tax paying citizens of their Freedoms and Liberties!

I encourage you to educate yourself with the US Constitution and the Bill of Rights. As well as many historical books on Germany, Latvia, China, Cuba etc.

You will find that sacrificing Freedom for Security always ends up providing neither.

Sincerely,  
Very concerned Veteran Citizen.  
Michael Avila

To Whom it May Concern,

I have heard, and I hope it is not true, that the WA State Board of Health is considering how it might interpret WAC's 246-100-070; 246-100-045; and 246-100-040 to either compel Washington citizens to get vaccinated or force them into quarantine either at home or other "other public or private premises."

Beyond the obvious violation of the an individual's privacy when it comes to his or her medical history, the very idea of compelling someone to receive certain medical treatment violates every standard of medical ethics. Obviously, history has a record of such state-induced medical practices and internment camps for the unacceptable members of society. Those who enforced such standards were not shielded, in the end, from accountability, but stood trial at Nuremberg. Out of those trials came the Nuremberg Code, which states in part, "The voluntary consent of the human subject is absolutely essential." No impartial court of law will ever see the threat of incarceration as consistent with "voluntary consent."

External Email

Members of the Washington State Board of Health,

I oppose the following proposed policies:

Allowing local health officers to use law enforcement (WAC 246-100—070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040. These specifics come from WA 246-100. Which includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I am concerned for these policies as they go against our God given rights and freedom.

Respectfully,

Mandy Meier

Attention Michelle Davis,

As a member of the Washington Board of Health I'm sure you share my concern for the wellbeing of our populous. It is for this reason that I have taken the time to write to you. As a US citizen and resident of Washington State I want to express my strong objection to WAC 246-100. I understand that it will allow local health officers to use law enforcement (WAC 246-1-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to comply with requests for medical examination, testing, treatment, counseling, vaccination (WA 246-100-140).

I believe this is an unnecessary overreach by this State. It seems like we are heading toward a pattern of control that resembles Communism. Please reject this legislation and protect our freedoms.

Dear Mr. Glasoe,.

I am writing in regards to your upcoming meeting which includes the following proposals:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid injections as part of school immunization requirements using WAC 246-105

I want to express my voice and concern over these proposals. To be honest, I am shocked that I even have to address these things in America, the land of the free.

I am 100% opposed to any forced Covid 19 mRNA shots on our children! This is absolute madness to even consider given that kids are at very little risk of harm from Covid and now that we have Omicron, which is proven to be mild, it shows that the pandemic is coming to an end. This is a virus that will always be around we simply need to learn to live with it. This is still an experimental shot and we have no way of knowing the long term effects on our kids. I am not willing for my kids to be an experiment and there is simply no need for this to happen. Dr. Fauci himself, stated that kids were at little risk from dying of Covid and that the hospitalizations were being overcounted because they are including kids in the hospital WITH Covid rather than BECAUSE of Covid, this is a HUGE difference and confirms there is no need to mandate this for kids.

To Whom This May Concern,

I am completely against revising the current laws to include COVID. COVID is no longer a pandemic worthy of allowing public health officials to involuntarily quarantine members of the public. It is highly questionable to entertain these powers two years after this pandemic began and makes one wonder why this is being considered at this point in time.

It is quite concerning that unelected health officials get to decide based solely on their own judgement that someone loses their freedom. I see no reason why the current situation warrants these kind of powers.

Sincerely,  
Elizabeth King

Good morning,

I write you today in regards to WAC 246-100-070, WAC 246-100-045, WAC 246-200-040, WAC 246-100, 246-105. These bills are of massive concern to all Washington state citizens yet few know they are even a topic of discussion. I idea that you would willfully discuss the notion of detaining the citizens you serve to impose a sense of "greater good" is not only counterintuitive, it's barbaric. The weight these bills carry would fracture the basis of freedom we enjoy in this state and forever damage the trust and confidence we have in any governmental entity. I implore you to see reason in this regard. Vote NO on imposing such tyrannical Laws on the citizens you claim to serve.

Respectfully,  
A concerned citizen

I am completely against any of the proposed Covid Policies that are over-reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105 or any other policies that attack individual freedoms. Vaccination is a medical decision that belongs to the individual citizen, not the government that, ironically is sworn to protect his/her constitutional rights(both state and U.S.). "Voluntary compliance" is a lie unless one can decide to refuse without retribution.

To: Washington State Board of Health  
Keith Grellner, Chair, Tom Pendergrass, Vice Chair,  
Stephen Kutz, Elisabeth L. Crawford, Temple Lentz, Vazaskia Crockrell, Fran Bessermin,  
Bob Lutz, Umair and A. Shah, MD, MPH

My understanding is that you are considering mandating COVID shots for school age children as a requirement to attend school. My hope is that families who do not want the shots whether for medical reasons or religious reasons will be allowed exemption.

I have studied hundreds of hours about COVID, literally, reading a wide variety of offerings. Here are my major concerns as a medical professional and concerned citizen.

1. I have asked patients who got vaccinated what Informed Consent was given to them- "not much" is the most common response. I am sure that I do not need to include RCW 69.77.050 to remind us all of the concept of informed consent but here it is:

Washington State Legislature site online:

RCW 69.77.050

Informed consent.

(1) Prior to treatment of the eligible patient with an investigational product, the treating physician shall obtain written informed consent, consistent with the requirements of RCW 7.70.060(1), and signed by the eligible patient or, if the patient lacks the capacity to consent, his or her legally authorized representative.

(2) Information provided in order to obtain the informed consent must, to the extent possible, include the following:

(a) That the patient has been diagnosed with a serious or immediately life-threatening disease or condition and explains the currently approved products and treatments for the disease or condition from which the eligible patient suffers;

(b) That all currently approved and conventionally recognized treatments are unlikely to prolong the eligible patient's life;

(c) Clear identification of the investigational product that the eligible patient seeks to use;

(d) The potentially best and worst outcomes of using the investigational product and a realistic description of the most likely outcome. This description must include the possibility that new, unanticipated, different, or worse symptoms may result and that death could be hastened by the proposed treatment. The description must be based on the physician's knowledge of the proposed treatment in conjunction with an awareness of the eligible patient's condition;

(e) That the eligible patient's health benefit plan is not obligated to pay for the investigational product or any harm caused to the eligible patient by the investigational product, unless otherwise specifically required to do so by law or contract, and that in order to receive the investigational product the patient may be required to pay the costs of administering the investigational product; and

(f) That the eligible patient is liable for all expenses consequent to the use of the

investigational product, except as otherwise provided in the eligible patient's health benefit plan or a contract between the eligible patient and the manufacturer of the investigational product.

(3) The document must be signed and dated by the eligible patient's treating physician and witnessed in writing by at least one adult.

My understanding is that IT IS THE LAW to provide informed consent about a procedure. That was my training and that is my practice. The person needs to be told the possible good, bad, and the ugly. THEY GET TO CHOOSE if they want the procedure whether for themselves or their child(ren). If they are not informed and something goes awry-That is LAWSUIT time and the plaintiff will likely win a lot of money if the provider cannot prove informed consent.

2. I am interested to know what your personal liability is as a governmental agency, and as individuals within that agency, if you mandate the COVID experimental shot for school attendance without possibility of exemption. What recourse will families have if

a child is vaccine injured or even dies because you used your governmental power to coerce families to do something they did not want to do? I am a Washington State taxpayer and

would prefer not to have to pay more in taxes to cover the expenses if the State successfully gets sued even by one family due to DOH mandated school COVID shots.

3. I have patients who are nurses in the hospital system(s). They have witnessed the sometimes terrible vaccine reactions in people who had been seemingly healthy before the shot(s). Below is a copy of a recent testimonial from a practicing nurse in a Louisiana hospital to the Louisiana House Health and Welfare Committee:

01/06/22

More Kids Dying From Vaccines Than From COVID, Nurse Tells Louisiana Lawmakers  
A registered nurse who last month testified at a hearing of the Louisiana House Health and Welfare Committee said her hospital is seeing "terrifying" reactions to COVID vaccines, but hospital officials are failing to report them.

By Jeremy Loffredo

Louisiana nurse last month told state lawmakers her hospital is seeing "terrifying" reactions to COVID vaccines, but hospital officials are failing to report them.

Colette Martin, R.N., a practicing nurse for 17 years, said her Louisiana hospital is witnessing blood clots, heart attacks, strokes, encephalopathy and heart arrhythmia following COVID vaccination, and staff are failing to report anything to the Vaccine Adverse Event Reporting System (VAERS).

Martin, testifying at a Louisiana House Health and Welfare Committee hearing, told State Rep. Lawrence Bagley that most medical professionals in her hospital aren't even aware VAERS exists.

"The majority of our nurses, nurse managers and some doctors do not even know what VAERS is," Martin said. "I've spoken to our chief medicine managers and other nurses on why we're not reporting to VAERS, and the most common response is: 'What is VAERS?'"

Martin said she raised concerns about adverse reactions to COVID vaccines and the failure to report them to hospital administrators, but she was "repeatedly dismissed."

Martin made clear to the legislators that VAERS was reporting, at the time of her testimony, more than 18,000 deaths post-COVID vaccination, and how it's her belief only a fraction of deaths are being reported because her hospital and other hospitals in the area "are not reporting anything."

Martin also told legislators she is concerned about mandating COVID vaccines for children.

She said:

"We are not just seeing severe acute [short-term] reactions with this vaccine, but we have zero idea what any long-term reactions are. Cancers, autoimmune [disorders], infertility. We just don't know.

"We are potentially sacrificing our children for fear of maybe dying, getting sick of a virus, a virus with a 99% survival rate."

Martin said her hospital has seen "more children die from the COVID vaccine than COVID itself."

"It's maddening, and I don't understand why more people don't see it. I think they do, but they fear speaking out and, even worse, being fired," Martin said.

4. There will be children injured from the COVID shots. Where will the money for immediate financial aid to pay for their medical and life expenses come from and how will it be given to their families to care for them? Naturally acquired COVID exposure, for most children, seems to result in minimal illness. If you publish some low cost ideas for families to use to improve their children's health, in general the children will have less chance of severe illness. If you suggest that with the current available information you believe, as a Washington State agency, that the COVID shots could be helpful and the family decides to proceed on their own, there would be less chance of expensive lawsuits and settlement payouts for the State. The families who want the vaccines will get them.

Feds Pay Zero Claims For Covid-19 Vaccine Injuries/Deaths

Forbes

November 4, 2021

Adam Andrzejewski

Senior Contributor

Policy

In fiscal year 2021, the U.S. government paid \$246.9 million in claims for vaccine-related injuries and deaths. Not a single payout was related to Covid-19 vaccines.

Each person with a "provable" injury from a Covid vaccine could claim up to \$379,000 from a special Covid vaccine fund set up by the federal government. The payout for death could be as high as \$370,376.

However, according to an OpenTheBooks.com investigation, the federal government didn't pay a penny for Covid-vaccine claims. The special fund for these claims is called the Countermeasures Injury Compensation Program (CICP).

There were only 1,357 claims filed that alleged "injuries/deaths from the Covid vaccines," and 53 were listed as deaths, according to recent reporting by the U.S. Department of Health and Human Services (HHS).

By contrast, the self-reporting Vaccine Adverse Reporting System (VAERS) lists 16,310 deaths related to Covid vaccines. Of these, "5,326 of the deaths occurred on Day 0, 1, or 2 following vaccination[.]"

The low number of applicants to the CICP fund for injuries or death from the Covid vaccine suggests that people don't know the special fund exists.

The "normal" vaccine fund, the National Vaccine Injury Compensation Program (VICP), has existed since 1988 and provides compensation for injuries or deaths associated with most vaccines routinely administered in the United States (such as pediatric and seasonal influenza vaccines), according to the Congressional Research Service.

Last year, this fund paid out \$246.9 million in vaccine-related injuries and deaths.

Payouts include \$250,000 for a vaccine-caused death and \$250,000 "for pain and suffering and emotional distress." A special vaccine court handles these claims.

However, in the case of Covid-19 vaccines developed and approved under Project Warp Speed, deaths resulting from a Covid vaccine would pay out through the CICP and would pay more money than a vaccine-related death in normal times.

Since the benefit for a death caused by a Covid-19 vaccine is \$370,376 for fiscal year 2021 and \$50,000 per year for lost employment income (with a lifetime cap to be "generally \$379,000"). So, the death benefit is \$120,376 higher than for other vaccines

(\$250,000).

However, there is no equivalent to the VICP's \$250,000 "for pain and suffering and emotional distress" under the current Covid-19 parameters.

Here are some other differences between the two vaccine-injury funds:

1. No attorney fees. The Covid fund is not authorized to provide reimbursement for attorneys' fees. Therefore, lawyers have less incentive to represent claims.
2. Injured children receive small payouts. A Covid vaccine-injured child would only be reimbursed for "reasonable medical expenses." Since the child survived and isn't employed, there's no other compensation.
3. Narrow window to file a claim. The Covid fund allows a one-year window to file a claim whereas the regular vaccine fund has a three-year window.

And sure enough, the CICIP fund hasn't paid out a dime in Covid-vaccine claims. HHS bluntly states online, "As of October 1, 2021, the CICIP has not compensated any Covid-19 countermeasures claims."

#### BACKGROUND:

The federal government is still operating under the "public health emergency" declared by Trump administration HHS Secretary Alex Azar on February 4, 2020. This declaration created a different funding stream for claims from adverse reactions to vaccines. Congress established the Countermeasures Injury Compensation Program (CICIP) as part of the PREP Act in 2005 to encourage the rapid development and deployment of medical countermeasures during a public health emergency.

The Public Health Emergency (PHE) declaration has been renewed multiple times, most recently by Biden Administration HHS Secretary Xavier Becerra, on October 15, 2021, effective October 18, 2021. (Under federal law, the declaration lasts 90 days and can be renewed).

For the most part, since that February 4, 2020, declaration, "manufacturers, distributors, and health care providers are generally immune from legal liability (i.e., they cannot be sued for money damages in court) for losses related to the administration or use of covered countermeasures against Covid-19[.]" CRS reports.

This liability protection enabled those industry players to shift into high gear to address the pandemic without fear of lawsuits. Under the PHE declaration, the CICIP funds any lawsuits related to adverse reactions proven by victims or their families.

\$246.9 million in non-COVID-vaccine-related claims (FY2021)

According to the VICP's latest report dated October 2021, \$4.6 billion in total compensation has been "paid over the life of the program" (which began in 1988). From 2006-2019, 6,054 claims were compensated out of the 8,516 petitions for compensation that were "adjudicated by the Court[.]"

According to the table included on page nine of the report, in fiscal year 2021 the U.S. government paid out \$210.4 million to 722 petitioners, and, after adding in attorney's fees the total U.S. taxpayer outlay was \$246.9 million.

With such a complicated and bureaucratic process in place, it's no wonder that zero Covid-vaccine claims have been paid to victims or their families.

#### NOTE:

The vaccine injury/death compensation issue was first tipped to us by the prestigious Illinois watchdog organization, Edgar County Watchdogs. Learn more here

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fedgarcountywatchdogs.com%2F&>

.

We reached out to Health and Human Services and a spokesperson replied. Review the entire response here

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.openthebooks.com%2Fasset>

.

"The Countermeasures Injury Compensation Program (CICIP) is working to process claims as expeditiously as possible. For the majority of COVID-19 countermeasure claims, including COVID-19 vaccine claims, the CICIP is still waiting for records and documentation to be submitted. About 90 percent of claims are awaiting medical records for review. Requesters are permitted to submit the necessary medical records after the claim is filed and this is the most significant factor in the processing time for CICIP claims."

Additional Information

HHS Request For Benefits Form, Covid Vaccine Injury/Death Fund, here.

"Countermeasures Injury Compensation Program (CICP) Data, Aggregate Data as of October 1, 2021, HHS Health Resources & Services Administration.

National Vaccine Injury Compensation Program Data Report,- updated October 1, 2021, Updated monthly, and includes the number of petitions filed; adjudications compensated and dismissed; awards paid by type and amount; claims by vaccine; and adjudication categories by vaccine.

Adam Andrzejewski

In conclusion:

I know that these have been stressful times and that you as public health officials have, more than likely, studied hard the COVID VAERS data from the CDC, testimonials from real healthcare providers who are in the "trenches" dealing with high numbers of COVID patients (and perhaps using low cost medicines with good results), so that you are well informed to make careful decision(s) that will impact the short and long term health of Washington State citizens young and old.

This is a great opportunity for all of you to make history as DOH board members who made excellent choices for Washington State children based on good science and medicine.

Respectfully,

Patti Robbins, ND

Subject: No on the following

#### External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's:

WAC 246-100-070,  
WAC 246-100-045,  
WAC 246-100-040,  
WAC 246-100-105.

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense ([childrenshealthdefense.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>> ) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors ([americasfrontlinedoctors.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da>> )

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Thank you for your time.

Subject: Opposition Statement to Proposed WAC on January 12th

External Email

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools and the use of law enforcement to involuntarily detain individuals to and to place them in a quarantine facility.

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from (WAC 246-100).

- Including the Covid-19 injections as part of school immunization requirements using (WAC 246-105.)

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997%.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it"

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity.

I will pull my children from public schools if this is pushed forward.

I will move out of this state if you should choose to move forward with unlawfully detaining individual based on their health/ medical choices.

I believe that medical freedom should remain a private choice between you, your family, and your creator.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

To Whom It May Concern~

I am unable to make the meeting Wednesday so this e-mail is my public comment in regards to agenda items 5, (246-100 WAC) 9 (246-100 WAC), and 11 (246-105 WAC).

It is alarming to know that the Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents with the proposed policies including:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

I would like it to be known that I am against both of these possibilities becoming reality. Implementation of such a policy in the United States of America is against our rights and freedoms as Americans. There is nothing "voluntary" about these proposals.

Please seriously consider putting a stop to these policies.

Chloe

Subject: I OPPOSE THE COVID POLICIES!

External Email

To WA State Board of Health:

Concerning your agenda for your meeting next week, as lifelong Washington State residents we wanted to write you and let you know that we OPPOSE any involuntary isolation or quarantine of people as described in parts of WAC 246.100. We also OPPOSE any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

In short, we are COMPLETELY AGAINST any of the proposed COVID policies that are over reaching and immoral. We stand against these proposed WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Do not vote for these policies!

Subject: FW: Wa State Board of "Health" & Inslee's proposed TYRANNICAL & UNCONSTITUTIONAL QUARANTINE CAMPS & Forced Vaccines

From: Sue Kicha <GALEK\_TSP@msn.com>  
Sent: Friday, January 7, 2022 1:41 AM  
To: Lang, Caitlin M (SBOH) <Caitlin.Lang@sboh.wa.gov>  
Subject: Wa State Board of "Health" & Inslee's proposed TYRANNICAL & UNCONSTITUTIONAL QUARANTINE CAMPS & Forced Vaccines

External Email

It's come to our attention that the WA Board of Health & Dictator Inslee is considering passing UNCONSTITUTIONAL bills for Quarantine Camps & forced vaccines with:

\*WAC 246-100-040

\*WAC 246-100-105

\*WAC 246-100-070

\*WAC 246-100-045

If you pass these bills you WILL BE IN VIOLATION of the NUREMBERG CODE & YOU WILL BE INDICTED for CRIMES AGAINST HUMANITY for your participation. Currently there are Common Law juries being formed ALL around WA State which have the power to do this to YOU! If you have't heard about this, you ought to look it up before you vote. WE THE PEOPLE will hold you accountable for YOUR actions, & we will not let you get away with this CRIME!

These bills not only violate our precious & beloved Constitution but several other health laws including:

\* PATIENT BILL OF RIGHTS

\* HIPPA LAWS

\* THE Supreme Court ALREADY RULED THAT NO EMERGENCY CAN ELIMINATE ANY RIGHTS GUARANTEED BY THE CONSTITUTION

If your "Health" Board & Inslee proceed to pass these bills after being warned of these facts you are KNOWINGLY VIOLATING, YOU will be considered to be intentionally committing TREASON against the Constitution & against We the People of the United States of AMERICA!

The covid Omicron variant is contagious HOWEVER, VERY MILD...HEALTHY PEOPLE ARE NOT DYING OF IT. Actually it will help us reach herd immunity quickly for anyone interested in REAL SCIENCE. However, our government officials don't seem to be interested in real science. Instead you all only use data that goes alongside of your AGENDA....& are fully focused on THE GREAT RESET & destroying our state & country for a virus with a 99.997% SURVIVAL RATE, so you'll be able to pass the Vaccine Passport to take over control our assets if we don't comply with your every whim. You are EVIL!!!!

We are actively ORGANIZING & WE THE PEOPLE will PEACEFULLY fight you on this. We are thankful for the 2nd Amendment during times like these when our government has become tyrannical — this is exactly WHY our founders made the 2nd amendment so we the people if need be could defend ourselves from governmental TYRANNY. \*\*\*Canada & Australia sure wished they hadn't surrendered their guns....they NOW have no defense against their tyrannical DICTATOR government officials & are now a communist police state. This is not a threat...it is a simple fact.

Never have I understood the importance of the 2nd Amendment UNTIL BIDEN & INSLEE have gone CRAZY MAD & now our own Wa State Board of Health too over covid restrictions taking ALL OUR FREEDOMS AWAY .... Again for a very survivable virus for healthy people of all ages.

You act like we don't talk with friends from other states. ALL RED STATES ARE WIDE OPEN. Our daughter goes to college in Arizona, & they don't even mask up there! Dear friends moved to Florida & they said Covid is NON-EXISTENT there!!!

WE THE PEOPLE OF WASHINGTON STATE WLL NOT ALLOW YOU TO FORCE ANYTHING INTO OUR BODIES OR OUR CHILDREN'S THAT WE HAVEN'T FREELY CHOSEN FOR OURSELVES.

There are MILLIONS OF US IN WA STATE & only a few hundred or thousand of you. We are AWAKE to your tyranny & stomping all over our Constitutional Rights. WE WILL WIN THIS BATTLE....not you! We will rise up against you & protest every minute of everyday against this until you make the right decisions to OPPOSE THESE BILLS & any others in the future!

Dear Board of Health members,

I'm writing you regarding proposed policies WAC 246-100-070 Allowing local health officers to use law enforcement to force an emergency order to involuntary detain a person or group of person to be isolated in a quarantine facility. This is completely unacceptable and should in no way be considered as a proposed policy. Local Health officers are acting without logic and disregarding public opinion and current science that clearly show actions of the Health officers ie. mandates closures etc. are largely harming the population, economy and the community of WA. I strongly disagree with proposals for WAC 246-100-045, WAC 246-100-040, WAC 246-100.

Hello,

I recently heard about new covid policies that are considering being enacted. To 'Detain people' for covid purposes.

The proposed idea is asinine. There are 320,000 known viruses to man. This is not a health protocol in any way whatsoever. You cannot escape a virus. Oxygen is far more essential than evading a virus, which isn't even possible.

It completely tramples on the constitution and regardless of how you feel about the constitution we all have constitutional rights. Yourself included. If you think that detaining people will 'fix things' you're sorely mistaken.

The fact that this is even a conversation is absolutely absurd. To detain without reason? For what? What will that do? Freedom is a foundation of this country. Liberty is a foundation of this country.

The fact that there are counties in this state that are already enacting medical segregation is something that will legally and lawfully come back to haunt this state and harm OUR economy. That includes your finances too. You're not only hurting us, you're hurting yourselves, your children and grandchildren.

The actions we take affect people's lives. To think that you have the audacity to detain people without reason just shows how far and corrupt the Government has become.

I despise and reject all of these policies.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

In regards to mandating a VACCINE which currently has NO bottled vaccine that is FDA approved- all circulating vaccine last are under the EUA. This is unconstitutional and unethical. I oppose mandating a vaccine that does nothing stop the contraction or spread of this sickness. Current vaccines that are mandated have a much higher efficacy rate and cannot be used as precedents.

I also oppose the unconstitutional and overreaching (WAC 246-100-070) that would force detainment. The shielding approach is eerily similar to nazi Germany.

I stand completely against WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105 as they are unconstitutional, preemptive, founded in political agenda rather than community safety.

Subject: WA Covid Detainment Proposal - Objection

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's:

WAC 246-100-070 <tel:246-100-070> , WAC 246-100-045 <tel:246-100-045> , WAC 246-100-040 <tel:246-100-040> , WAC 246-100, WAC 246-105

The notion that any given person could even potentially be placed into a "concentration camp" or a "medical institution" outside of their own will is not only against the very fabric of what it means to be American but highly offensive and outright disgusting.

This is not OK..... No matter how you try to spin it. History has shown us over and over again how genocidal practices have started as mere legislation. I humbly request that you all remember that you are sworn into office to serve "the people" and NOT self serving and unethical corporations.

Very Respectfully,

Cole Allen

I am writing to express my concern regarding the Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry. As a lifelong WA citizen with two school-age children, I am adamantly against mandating the COVID-19 Vaccine. Mandating the vaccine violates human rights and does not meet the necessary criteria for inclusion in the WAC.

I also oppose extending the scope of WAC 246-100-070 Enforcement of local health officers to expand authority to involuntarily quarantine individuals.

I hope these concerns will be heard and taken seriously.

Thank you for your time.

Dear sir/madam,

I have been a Washington resident for 48 years. I have built and run businesses with hundreds of employees and have enjoyed raising our 11 children in this beautiful state. I am wholeheartedly opposed to the proposed legislation to erode the freedoms of our citizens. The government has no proper authority to act on their own in restricting our freedoms to move about. Do not restrict our freedom's.

Thank you,  
Gellert Dornay

**PROPOSED POLICIES:**

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

My name is Crystal and The legislation whom I identify in the subject line that is being proposed is absolutely terrifying. My dad was a Japanese American and he and his whole family was rounded up , taken from the farm and home in Gresham Oregon , without cause and sent to the Japanese Minidoka internment camp in Idaho following the Pearl Harbor bombing. My family spent 6 years there without a single charge. Completely illegal by the state and federal constitutions . What you propose is a concentration camp, not unlike what happened to the Jews abroad or the Japanese here. This is not how you protect the public. This is cruelty, and a gross human rights violations among many other serious crimes. My voice may be small but it is not alone. This is not Ok or acceptable. I respectfully ask you reject this proposal.

Sincerely Crystal Ando

To Whom It May Concern:

I urge you not to add COVID-19 to the already existing Chapter 246-100 WAC. Currently, the world is in a global clinical trial. As time progresses and we are learning more, SARS-CoV-2 should be in the same category as the flu and/or common cold. Naturally acquired herd immunity appears to be the most successful way to deal with this.

Thank you for your time.

Subject: WAC Changes for CoV-SARS-2

External Email

To whom it may concern,

Please do not change the WAC's that we're created in the wake of 9/11 from fear of biowarfare attacks to now include Cov-SARS-2. This game would be a terrible misstep for this state and would cause immense harm to families of Washington. We should all have the right to make medical and health decision in the private council of our doctors, not have a totalitarian government take this power from the people. Everyone has had ample opportunity to get vaccinated and the level of vaccination is plenty high for us all to get back to normal. Quit the hysteria and draconian law changes. Vote NO to the proposed inclusion of Cov-SARS-2 to WAC 246-100, 246-105, 246-100-040, 246-100-045, and 246-100-075. I strongly urge our government representatives and leaders to say no to these codes and laws, we are better off without them.

Thank you,

David Lewis  
Seattle, WA

Hello,

My name is Kristine and I am emailing to voice my concerns with the upcoming meeting in WA Board Health Meeting.

Please do not enforce a vaccine, or any health mandate on the people. The vaccine does not prevent the spread of the COVID virus, and it should remain an individual choice to be vaccinated or unvaccinated.

Those who do want the vaccine, can easily get it, and spare themselves the greater risk from the virus. It should be a choice for those who do not wish to be vaccinated, to

refrain from getting the vaccine, or any health care they wish to decline.

Do NOT impose a mandate for "conditions and principles when isolating or quarantining a person or group of persons in accordance with WAC 246-100-040

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault%2F100-040&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C0fb9221649384a303b1108d9d219cbe6%7C11d0>

Protect our freedom of choice.

Thank you,

Kristine Krueger

#### External Email

So I just found out that next week a new WAC code is going into effect wherein the state of Washington dept of health will now have powers to take people into involuntary custody for isolation and quarantine for up to 30 days, basically into these fema camps everyone has been talking about, unless you guys determine that reasonable efforts have been made for them to have undergone vaccinations, "medical exams", treatment, counseling, "decontamination", etc. WAC 246-100

How on earth you EVER in your mind think you have the right to govern what goes in another persons body is INSANE. These vaccines have been known to cause harm to untold numbers of people and adverse side effects and a person has every right to refuse a medication or a vaccine if they so choose. That being said, there is also no known evidence that the efficacy rate or known prevention is actually there. Transmission of the Covid-19 virus is unprecedented even at the peak of vaccination rate acceptance and has been known to infect persons who have been vaccinated, which can only lead one to believe that being vaccinated and catching Covid will allow the virus to mutate again and again. This creates a much more dangerous situation than it does a preventative situation for the masses. There is also not enough evidence that the vaccine was safely produced in a manner that was or could be used by the population for the indeterminate future or what it's repercussions would be in time to come.

I have had Covid twice myself already, once in prison and once recently, and I do not fear getting it again, and as a person who is completely anti-vaccine because I praise natural immunity, I fear what you are pushing on the masses and now more so what you will do by enforcing this ridiculous and insane code. As if we weren't divided enough already you guys want to rip apart families and lock people up or isolate/quarantine them and "decontaminate, counsel, vaccinate, exam..." them? Businesses and households are suffering enough already with the way things are and rents are raised at the worst possible time and now this? Absolutely the craziest thing I could imagine coming from a state like ours, and I hope everyone sees it for what it is and it gets the response it deserves.

WSBOH Members:

As a Washington resident of 46 years, I am both appalled and disturbed by the proposed changes in the infectious disease WAC codes to include COVID-19 for all WA residents. This is an egregious overreach of the state government. It is NOT the responsibility of a state government to force an experimental vaccine on it's residents. This decision is based on zero scientific evidence. You cannot justify forcing the state's citizens to take an experimental drug. This is a violation of basic human rights, guaranteed by the constitution of the US. If you want to see proof, look at Massachusetts and their COVID-19 rates. They have the highest vaxxed population, yet their COVID-19 rates have skyrocketed. You have the responsibility to the citizens of WA to reject these proposals. This is a virus with a 99.99% survival rate. Have you forgotten?

You must reject ALL of these proposed WAC changes.

Molly Peoples

I am writing to submit my opposition to proposals WAC246-100-045 and WAC-246-100-040. These proposals are terrifying and Nazi-like. The proposals require individual rights to be infringed based on "a theory". The proposal would grant a complete stranger, empowered by the state with less qualification than my medical doctor and even less knowledge of my medical history over me. As we have seen in the Covid-19 death rates such extreme measures are not required for the public as 99 percent of those infected by Covid 19 recover. Also, we have seen this Covid-19 pandemic be politicized and abused in our current state of affairs. For these reasons and others, I am asking out state Legislative to vote no on WAC246-100-040 and WAC246-100-045; Thank you.

Subject: Changing Wording to Blood Born Pathogen Concerns

External Email

Hi. I just wanted to say that it seems very suspicious and coincidental that you guys would be changing the wording from HIV to blood born pathogen right at the same time that China is experiencing a big epidemic of hemorrhagic fever- a type of blood born pathogen. Similar to how the CDC changed the definition of vaccine to not include the word immunity so when the covid vaccine didn't offer immunity it could still be considered a vaccine. Now as this hemorrhagic fever has begun to spike in China and with the winter Olympics next month in China it seems to be a very likely way for it to spread to the U.S. and with this rule if this hemorrhagic fever comes to the U.S. you guys will have the proper wording in place to detain and quarantine us at your discretion. All seems a little too coincidental to me and very scary. Thank you.

I am completely against any of the COVID policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-040, WAC 246-100, WAC 246-105.

While I certainly hope this is not the case, it appears you are going to try to levy the use of WAC 264-100 to complete forced vaccinations of people who do not wish to have a COVID vaccine. This is both unethical and deeply un-American. Hopefully I am reading into this too much, but this state has shown itself to be unreasonable in the extreme when it comes to the alleged "pandemic".
