out of fear. I urge you to make a decision based on courage, transparency, medical facts, which come from all places, including those that are being silenced in the main media. Please do not allow fear to be part of your decision. Fear of what others think or say, fear of job loss, lack of promotion, fear of possible personal cost if you stand against the swell of the current tyrannical narrative. You have so many people cheering you on to stand for human rights including medical freedom of choice.

Sadly, the push for the mandate of vaccines and the proposed policies which could follow will place health officers in the possibility of managing a police state. We are not in an emergency situation that would justify the use of law enforcement to order persons involuntarily to isolation facilities or coerced medical intervention. If this continues Washington board of health is considering medical tyranny. Not only is all of this discussion in direct violation of the Washington State Constitution and the US Constitution, but the proposed policies are also in direct violation of the Nuremberg code article 6 section 3 that states: No government can mandate or force medical treatment without individual consent.

Please stand for medical freedom of choice for the citizens of Washington.

Loren Fox

Dear Sir or Madam;

I oppose changes to the above codes;

Allowing local health officers to use law enforcement (WAC 246--100) to force an emergency order to involuntary detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246--045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040 ). These specifics come from WAC 246-100.

INCLUDING THE COVID-19 INJECTIONS AS PART OF SCHOOL IMMUNIZATION REQUIREMENTS USING WAC 246-105

Subject: IN OPPOSITE of EUA covid vaccine on childhood schedule

External Email

BOH,

I appreciate you for taking the time to read this email. I am writing in as a very concerned parent and citizen.

It is unethical, immoral and illogical to place this unapproved EUA product on the children's vaccine schedule. The effects of covid on children are negligible to nonexistent.

We would be sacrificing innocent, healthy children to risks of injury and death from a product that has NO longterm safety data. Thousands of experts at the Global Covid Summit have declared that these vaccines should NOT be used on children.

The Vaers database is signaling risks of heart inflammation, Myocarditis, Pericarditis, period irregularities, blood clots, etc. after covid vaccination.

If placed on the children's vaccine schedule to attend school, we run the risks of uninformed parents assuming "approval" and "safety," neither of which are true. Especially among those with language barriers.

If placed on the children's vaccine schedule to attend school, we run the risk of exemptions being eroded and a future of compulsory experimental vaccination of healthy, innocent children.

If placed on the children's vaccine schedule to attend school, we run the risk of continuous, compulsory, untested booster shots, further endangering healthy, innocent children.

If placed on the children's vaccine schedule to attend school, we run the risk of causing long-term health consequences of healthy, innocent children.

I am pasting part of the Global Covid Summit Declaration here:

NOW THEREFORE, IT IS:

RESOLVED, THAT HEALTHY CHILDREN SHALL NOT BE SUBJECT TO FORCED VACCINATION (view

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdoctorsandscientistsdeclaration.org/evidence%2F%23children&data=04%7C01%7Ckaitlyn.donahoe%40sboh.wa.gov%7C1ec7f74a780e449b34supporting evidence](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdoctorsandscientistsdeclaration.org/evidence%2F%23children&data=04%7C01%7Ckaitlyn.donahoe%40sboh.wa.gov%7C1ec7f74a780e449b34supporting%20evidence)>)

\* Negligible clinical risks from SARS-CoV-2 infection exist for healthy children under eighteen.

\* Long term safety of the current COVID vaccines in children cannot be determined prior to instituting such policies. Without high-powered, reproducible, long term safety data, risks to the long-term health status of children remain too high to support use in healthy children.

\* Children risk severe, adverse events from receiving the vaccine. Permanent physical damage to the brain, heart, immune and reproductive system associated with SARS-CoV-2 spike protein-based genetic vaccines has been demonstrated in children.

\* Healthy, unvaccinated children are critical to achieving herd immunity. Natural immunity is proven to tolerate infection, benefiting community protection while there is insufficient data to assess whether Covid vaccines assist herd immunity.

In conclusion, anyone involved in the approval and implementation of an experimental product which causes future injury & death will be morally responsible for harming innocent, healthy children.

If there exists any financial incentives for placing these experimental products on the child vaccine schedule, the immorality increases tenfold.

We need your help now to stop this process. We need your help now to protect our children. We need your help.

Please consider the words of terrified parents everywhere. Parents who are trying to protect their children from unnecessary harm. And with all of my heart, I appreciate you reading this email.

Sincerely,

Jennifer Groeneweg

Subject: Upcoming mandates for school children

External Email

To Whom It May Concern,

I am extremely concerned about the upcoming issue with requiring school age children to take the Covid-19 vaccine. This "vaccine" is still being studied and has shown to cause blood clots, seizures, lesions in the spinal cord and brain, and death.

Parents should be the decision makers for their offspring and no governing body should have any say in this unless they are harming them of course. This vaccine has shown to be harmful and non preventive of catching Covid-19 and has caused numerous disabilities and deaths. Had even adults chose not to receive, and had the ability to choose to say no, there would have been minimal deaths from COVID-19.

I'm not sure how well versed you are about ventilators, but that was an obvious set up for so many to die. It was more of a high altitude type of issue than respiratory and those who go on ventilators rarely wean off of them. I have been an RN working in hospitals for most of my career and am no longer nursing, partially due to the mandates that have been put in place.

This country is withholding medications that can cure COVID-9. Ivermectin for example. It cures this. They have replaced protocol with Remdesivir, which causes organ failure then death. This has gone on way too long.

If you have any conscience at all, please do everything in your power to stop this mandate for school children. They are out future. Your actions will directly affect thousands of children and their families. Please rise up. Please do what you can.

Sincerely,

Rachel Johnson RN BSN and mother and grandmother

Subject: School Age Vaccine Requirement

External Email

I hereby register my strong opposition to requiring school aged children to be fully vaccinated against Covid. There is strong medical data that indicates this is a potentially very dangerous route to travel. However the negative side effects, the unknown long term effects of this newly and rushed vaccine that had to have the definition of a vaccine modified so it would qualify that is being hidden from the general public by the main stream media. Children are the least apt to die from this disease and that the majority of the deaths in children were among those with other comorbidities.

Covid has somehow made the American people lose sight of their basic rights provided under the national constitution as well as our Washington State constitution. The Governor has long over extended this "emergency." It is time for the citizens of this state to stand against the various examples of government over reach that infringe on constitutionally guaranteed rights.

I strongly request that you do not approve this proposed mandate. Although my children are grown and I spent thirty years working the public education, I would gladly withdraw my children and move into private school or home schooling to avoid subjecting them to the many things I have seen smuggled into public education.

Thank you for your consideration on this matter.

Judith Littleton

Hello,

In regards to your upcoming meeting on January 12, 2022, I would like to comment on agenda #11 regarding immunization and children. I am deeply opposed to making COVID vaccinations a requirement with school-aged children and do not support this measure. Not only does COVID pose a zero-to-low risk for children, but the vaccine testing data are starting to show moderate to significant risk to some children. I believe it would be unethical and irresponsible to mandate COVID vaccinations of children.

Please do not endanger our vulnerable next generation.

Thank you for your time,

Lisa Eastman

Subject: Do NOT mandate covid vaccines for Wa public schools- it is a PARENTS decision

External Email

Each family should decide for themselves if they want their own children to get a vaccine or not.

It is not the role of the Wa public schools to mandate what people decide to do with their own children's health.

Vaccines are a decision that each child's parents should decide based on their individual child's health - not the government.

Subject: Opposition to the Upcoming January 12, 2022 Covid-19 Vaccine Requirement Recommendation

External Email

To Whom it May Concern;

I am submitting this email in regards to the upcoming January 12, 2022 decision recommending the Covid-19 Vaccine for school age children.

Public education is funded by taxpayers and should not be withheld from ANY child in Washington State based on their personal or religious beliefs and preferences. Our children deserve equal access to education without discrimination. Segregating our children by forcing parents to make decisions to un-enroll their children in Public Education and find alternate means of education or in many cases, leaving the state completely, will not cure Covid-19. It will only increase childhood depression and anxiety and, as you all should know, even increase suicidal tendencies in Washington State Youth.

Washington State, in my opinion and that of numerous fellow parents I have spoken with in regards to the subject, has operated at an extremely poor level during this pandemic. It has promoted division and supported the isolation of our children by implementing online learning as opposed to in-person learning, and the requirements that have been imposed on our children when they were allowed to return to in person learning are proving to be detrimental to their mental health and well-being even now. I implore you to talk to students at all grade levels and actually see what they are thinking and how they feel being in the situations they are in with the restrictions in place. Given that Washington State has seen a withdrawal of students from their Public Education program over the past two years in excess of 55,000 students, this should be a blatantly obvious indication that the decisions being made that effect the students of Washington are not "Popular". If this becomes a requirement, the number of students pulled from Public will grow exponentially. Washington State is already disregarded across the country with the poor handling of the pandemic and the excessive restrictions that leadership has put in place, don't add any 'Fuel to the fire' by adding yet another layer to this already disgraceful situation.

The Covid-19 virus and it's continued variants are something that we are ALL going to have to live with going forward. It is abundantly clear at this point that vaccines and masking have not solved the issue. It is being reported that upwards of 70% of Omicron infected patients are all vaccinated. I personally know of several Breakthrough cases of Covid-19 in family and friends, and some of them were severe enough to end up in ICU BEING FULLY VACCINATED! The rules for masking, types of masks, etc. change so often a person could get whiplash attempting to keep up with current protocols. My family and I have all had, and recovered, from Covid-19 even with the protocols in place.

I am firmly against the requirement of the Covid-19 Vaccine for our children to attend public school. This is not something that was put forth by a vote of the People of Washington State, nor is it accommodating for all of our children. As a parent of 3 children in Public Education, I am imploring you oppose making the Covid-19 Vaccine a requirement to attend Public School in Washington State.

I thank you for your time.

Subject: Parent Letter Re: Child Vaccine Requirements

External Email

Jan. 5, 2022

Dear Kaitlyn Donahoe,

I am a parent to 3 young children (under 12) in the White River School District (Pierce County). I appreciate the need to keep our children safe in the school environment. There are many, many safety concerns to consider. But after 2 years of very difficult rules and regulations for our young children regarding COVID. I don't believe that this should any longer be the number #1 concern regarding our children. I think we need to find a way to carry on with "normal" life cautiously.

Our children can not carry on wearing masks to school indefinitely. It has caused interruption to learning for my 2nd grader. She was learning to read just as schools closed in 2020. Through all the zoom, partial open schools and irregular teaching lessons. She did not learn to read as she should have as a 1st grader. If the student can not see the teachers mouth to hear her pronounce and sound out words, learning to read is going to be extremely difficult. These youngest students are losing learning that they will never get back! Now she is a year behind in reading and I am doing everything I can to catch her up, because this affects all her other learning subjects too! I even hired a private tutor because I was so concerned about her falling behind. I am lucky that I have the means to pay for a tutor. But many parents do not, therefore their kids will just stay a grade behind. There is no clear evidence that masks are affective in the school environment. I don't know if you have been in a school lately... but you should really go and spend time in these classrooms. You will see that the kids are not even wearing their masks appropriately and the job of the teachers should not be "the mask police". They should just be able to freely teach their students.

I believe that requiring the Covid Vaccine for young children is NOT NECESSARY! I am not opposed to the vaccine, I actually received it myself. I am not opposed to vaccinations for children. All of my children have received all their regular vaccines. But Covid is not killing nor hospitalizing children! My entire family was sick with Covid over Christmas break (my husband and I are vaccinated) and it was no more than a minor cold/flu. Now that we have had Covid studies show that natural immunity is much more powerful and longer lasting than the vaccine. So why do my children need to be vaccinated? I feel the possible long term affects to this very new vaccine could be far more damaging than very minisule possibility of death to covid. I would like to see another year at least of testing on this vaccine before it is administered to every child. I can see in the future it may be like receiving an annual flu shot and I think that is great! I do not believe in making it a requirement to attend school. I should have the choice as a parent if my child receives the vaccine and it should not be a vaccine or education choice!

Thank you for hearing my concerns and I trust that you will consider these as you make choices for the families and communities you represent.

Sincerely,

Amy Molen

Subject: Covid 19 Vaccine Consideration for 5-12 yo

External Email

Dear Unelected Person assigned by the WA B of H to Evaluate this Vaccine:

As you consider the Covid Vaxx mandate for school age children in WA this Friday, please consider:

Mandating an Experimental vaccine goes against the Nuremberg Code, Federal and State Statutes.

There IS NO APPROVED vaccine AVAILABLE within the US. Mandating this vaccine is therefore breaking laws at all levels, including international. This can then qualify as crime against humanity. Individuals are therefore liable for their own decisions within this matter; legally, "just doing my job" is not a defense.

Have you ever heard of Thalidomide? It may be before your time. Look it up. THAT WAS AN APPROVED medication. There are people still alive living with the detrimental results of that approved medication. This experimental gene modification therapy is not.

More Children have ALREADY died from this vaccine than EVER died since the first lockdown, per VAERS--which is notorious for drastically suffering under-reported adverse events.

The PCR test, per Kary Mullis (the inventor of the PCR test); was never to have been used to diagnose ANYTHING. Flu and colds virtually disappeared the past 2 years. WHY? The CDC no longer recommends the PCR test and admits it gave far too many false positives, which have been the justification for all of this medical tyranny. Using these numbers to REQUIRE an EXPERIMENTAL 'vaccine' is ethically wrong on all levels.

I implore you to DO THE RIGHT THING. STAND for LAW. STAND for FREEDOM and our liberty--while there is still some left. DO YOUR JOBS.

Jay McAfee  
Bellingham, WA

Subject: NO to vaccine mandates

External Email

As a parent to three school aged children I'm writing because I am vehemently opposed to mandating the Covid vaccine for school aged children. There are three main reasons why.

First, the current vaccine does not have any long term safety studies done yet, they are simply too new. The studies and evidence currently available show that receiving the vaccine poses far greater health risk to children than Covid does. VAERS data as well as many other studies prove this. Children have a 99.998% survival rate with Covid, a vaccine with possible side effects is not necessary nor a smart risk assessment.

Secondly, the vaccines do not stop the transmission of Covid. There is no argument that vaccinating someone helps protect anyone other than themselves. If children have basically no risk of harm from the disease, a vaccine is not necessary. Teachers and staff are already vaccinated so they should be protected if their vaccine works to lessen symptoms. Our hospitals are not overwhelmed with Covid patients, if they are struggling it is because of the firing of unvaccinated workers, delayed/improper care for other issues, and/or extreme quarantine and safety precautions unnecessarily being taken because of Covid.

The third reason I am opposed to mandating this vaccine for school entry is that while the FDA did approve the Comirnaty version of the Pfizer vaccine, it is currently unavailable anywhere in the US. Public schools may not require an experimental vaccine that is under EUA. The only vaccine currently available to our children is NOT the FDA approved version.

Thank you for your time,  
Alissa H

Subject: Opinion on vax school children

External Email

Good afternoon,

As a parent I am very concerned about the state trying to force a vaccine on our children that has not had sufficient testing and is not safe. When the last SARS vax came out it killed 5 people and it was pulled. The Covid shots have killed 20,000 thus far, causing young people extreme heart issues, including smaller children. It is not normal for children to have a heart attack or severe issues. I have seen firsthand amongst my acquaintance and friends, not only the side effects but how incredibly ill they become after they have the shot; whether it be the initial 1 or 2 or the booster. Each comes from different walks of life and are of a wide age range as well. Each and every one of them have had issues. This is simply not safe and should NOT be forced on our children.

We still live in a free country and we are the parents. We should decide what is right for our children's health! Not the state or anyone else, it is NOT the school's job to police the health care choices of our children. We have the freedom to choose. If someone feels that it is safe and they choose to vax their children, that is their choice and I will not stand in their way or get in their face about it. They have that right! But we also have a right to say NO!

I also want to point out the fact that if this vax works, then why are people so scared of us? If it works, then they shouldn't have anything to fear from me or my child. It's no different if a kid can't be vaxed for MMR. . I'm not worried because my kid has had those shots. I'm not knocking them all, I'm saying this particular one is not safe and should not be forced. public-school, in-home learning or home school. Should NOT be a forced thing. I pulled my child from school after last year because I saw the hand writing on the wall.

These shots have not been properly tested and we as parents should have the final say! If we don't want our kids to have it then we should be able to at least fill out an exemption form. Forcing people to get something injected into their body they don't want there is not any different that the sexual abuse I suffered. It was something I did NOT want in my body and it was forced. Not any different. Without long term testing on the side effects ( heart problems, blood clots, sudden death, again to name a few that HAVE happened) these things should not be forced! Everyone is entitled to choose. Freedom of choice! My body my choice remember. We are the parents, we created our children and we should decide what is best for our kids. Not the State! This is NOT Russia, China, North Korea or Nazi Germany. We decide, not the state

External Email

Hello,

I am a parent of an absolutely healthy child, who didn't have a flu in her 14 years or colds. I beg you not to enforce Covid vaccine in schools as we don't know health implications on our children in 10 and 20 years and the future generations of the planet. Also I beg you to protect rights of parents to make choices for their children.

Regards,

Yuliya Tenks

Please for the love of our children don't do this. Our schools will crumble, children will lack education and our world will fall even more apart.

I speak from the heart of a mother who has been fighting childhood cancer since January 2019. As you should know, cancer patients and patients in hematology and oncology cannot be vaxxed. Its a downfall for their immuno compromised bodies but it is the biggest factor in my why I am emailing you all. He relapsed June 2021 after winning our initial battle June 2020 and was additionally diagnosed with Li Fraumeni syndrome which means his cancer fight gene doesn't work. Please don't make my life any harder than we already have it.

I have a 1st grader and kinder and my cancer boy will start kinder this fall. Please dont take that away from him, it is hard enough this school year having to tell him no to his preschool and friend because he has chemotherapy weekly, dont make us take school away from them all completely.

I know COVID is serious, i do. We had it in October and i watched numerous kids between Seattle childrens hematology/oncology and Spokane Sacret Heart Childrens get it and make it through. One kid even laughed it off with a receptionist at Seattle childrens at the long quarantine being away from everyone. Please consider the risks and implications and burdens you are putting on parents to even navigate the right decision, dont force us into this please.

Thank you for your time, happy new year.

Danica Gatlin

Subject: NO VACCINE MANDATE FOR CHILDREN

External Email

Dear members of the Washington State Board of Health,

Due to the following reasons and many more, ethical & moral, I demand that you refuse to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have 99.995% survival rate for COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Sincerely,

Janis Slansky

Subject: OPPOSE vaccine mandates for children

External Email

To Whom it May Concern:

I am opposing your formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school-aged children.

I am writing to vehemently OPPOSE any vaccine mandate in children. The shots are still EUA and haven't gone through the proper 3 phase trials for all ages. (Yes, I know the word game the FDA and CDC did for Comirnaty approval which isn't even available in the USA). These shots DO NOT prevent you from contracting covid. More and more vaccinated individuals are contracting covid despite being told early on they wouldn't get it if they were fully vaccinated against it. This is not a vaccine per definition because it doesn't stop one from contracting it. Children are not in danger of dying from covid. There is over a 99.9% survivability rate for children. Contracting covid is not a death sentence. Just because cases of covid are going up doesn't mean deaths are. This is a virus that will never go away despite efforts to vaccinate against it. Viruses constantly mutate and become less deadly over time. The choice to inoculate for this virus should be left up to parents and the doctor. Just say NO to required covid shots for school aged children.

I am in full SUPPORT of the rulemaking petition set forth by Xavier Figueroa PhD on behalf of Informed Choice Washington. This needs to be looked at and supported by all involved.

Thank you for your time.

WA state simply needs to stop this tyranny.

Masks are ineffective & you continue to dehumanize students and school staff by requiring them: [https://www.poverty-action.org/sites/default/files/publications/Mask\\_Second\\_Stage\\_Paper\\_20211108.pdf.pdf](https://www.poverty-action.org/sites/default/files/publications/Mask_Second_Stage_Paper_20211108.pdf.pdf)  
<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.poverty-action.org%2Fsites%2Fdefault%2Ffiles%2Fpublications%2FMask\\_Second\\_Stage\\_Paper\\_20211108.pdf.pdf&](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.poverty-action.org%2Fsites%2Fdefault%2Ffiles%2Fpublications%2FMask_Second_Stage_Paper_20211108.pdf.pdf&)

The latest version of covid--the omicron variant proves without a doubt the vaccination does not stop transmission. Our children are not dying, aside from the death of a normal childhood and school experience which was stolen from them by the governor of WA, the state superintendent, and I can only assume teacher's unions.

Stop, please, just stop. I attended the WA board of health meeting and it is clearly a sham--one person has vaccinate WA on his screen the whole time and a grandfather celebrates his grandbabies having gotten the shot. This is unfair & unjust. We are Americans in a free country.

Lisa Meehan

Subject: No more mandates!

External Email

Happy New Year! It is now 2022 and we are still pretending there is a state of emergency related to a virus from 2019. It is time to move on. Most of us have already moved on and it is time for the board of health to try to keep up. It is time to end the emergency declaration and all associated mandates. It is definitely not time to add more mandates to the list. It would be a particularly bad idea to mandate COVID vaccinations for children. Those of us who are opposed to the idea will not be complying anyway, so don't waste your time. Please review the declaration and information at the following link as you consider your decisions: <https://doctorsandscientistsdeclaration.org/>  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdoctorsandscientistsdeclaration.org/>>  
. It is important that you get this decision right for the sake of our society and for the sake of your own credibility and reputation.

Thank you.

Good morning. I'm a mother of twins in the district of UP in Washington State. I'm not on favor for the mandate on kids vaccine . We already now this vaccine do not affect kids . Please do not make the same mistake the gobernador make on mandated vaccine on workers and people . Also as parent I will like to know why you mandate something and ask for a sign waiver on the same time without knowing the ingredients of this vaccine . My vote is no to the vaccine mandate.

My name is Crystal Martin and I have 2 children in the Kettle Falls School District. I have already forced them to wear the masks against their will. I'm not going to force a shot that isn't even a real vaccine. Our Healthcare workers are quitting their life long careers just to avoid this shot. You really think we should just go ahead and give it to our kids? Over my dead body! I say No!

Subject: COVID-19 vaccine requirement for school aged children

External Email

Good morning,

I am writing this email to express my disagreement with implementation COVID vaccine as a requirement for school aged children. According to statistics and the information provided by CDC, children belong to the age group that is least affected by COVID-19. Their mortality rate from COVID is almost nonexistent and long term effects are extremely low. Up to this date majority of the children have already been infected with COVID and developed natural immunity.

In addition, requiring COVID-19 vaccine as a condition to attend public school will force majority of the parents to pull their children from public schools and move them to private schools, which, as a result, will lead to public schools losing a lot in funding and will damage already fragile school system in Washington state.

Please, consider people's will and opinion when you will be making a decision on this matter on January 12.

Thank you.

Respectfully,  
Irina Radchanka

Subject: NO Vaccine Mandate!

External Email

Dear Washington State Board of Health,

Please DO NOT make the Covid 19 vaccines mandatory for school children in Washington state.

Science tells us that these vaccines aren't effective in stopping the spread of Covid, nor have they been studied enough to show their inevitable negative, long-term effects on the body.

There is no reason to put our future generations at risk, when they're faced with catching an illness that is 99.9% survivable.

End the insanity surrounding Covid NOW.

Respectfully,

Shelbey Davis  
A concerned parent of school-aged children in Washington

To The Board Members of the WA State Department of Health,

I am writing to you tonight out of complete desperation... I strongly and adamantly OPPOSE this proposed WAC 246-105! I am shocked and appalled that this state is seriously about to vote to impose a vaccine mandate on our children for the Covid 19 shot. A vaccine that has not withstood the test of time, that's been pushed on to people, taking away their choices. A vaccine that is shown to be more like a treatment than any sort of actual prevention. No one can tell me what the effects may be on my child in 5 years or 10 years. The lack of transparency has been extremely troubling and I don't trust, nor think it is absolutely necessary for myself or my child. The children are not at risk of death or serious illness from this virus. The deaths in US this 2 years of Covid is under 1,000 according to the CDC. Why are we doing this!?? It's not worth the risk to our children. I ask you to please not back parents into a corner. We love our children and deserve to have choices and the ability to advocate for them since they are unable to do so for themselves.

Thank you for your time.

In regards to the public meeting being held on Wednesday, January 12th, I implore you to oppose the following proposals:

Please oppose WAC-246-100 that would expand any authority to involuntarily quarantine individuals against their will. Also, please oppose adding a C-19 vaccine to the WAC 246-105 required list of vaccines for children to attend school.

Thank you for your time. I pray God's wisdom and protection over you and your family.

Sincerely,  
Beth Bower

I'm writing in opposition of the proposed policy to WAC 246-105 of "including the Covid-19 injections as part of school immunization requirements".

I personally would be removing my children from public school, as well as many more families in our county if this policy were to be approved.

The risks for the children are so low, vaccines are not necessary for them.

I, Danielle Loft, oppose the use of law enforcement to be used to detain those who are unvaccinated. There are so many reasons one would choose not to get this medical procedure for their own personal reason, for instance previous injury from other vaccines (many of my friends and family have experienced, look into VAERS to see how much money has been paid out to victims) religious reasons, natural immunity, wanting more studies to be done before making that decision, all of which are legitimate reasons and shouldn't be questioned. It is our own right to refuse and to be punished and detained for those valid reasons is unacceptable on every level. This is America, we have a constitution, we have rights to choose what is best for ourselves, but seems for some that's been forgotten.

I do not support adding the C vaccine to the childrens school schedule. There have not been enough studies on it, we don't know the effects it will have on fertility and their bodies. All the science says children are not a threat and are likely to not be harmed by the virus as much as adults, so why mandate it? It doesn't make sense. Leave the children alone.

Please do what you know is right and oppose these WACs from being added as a law.

External Email

To whom it may concern,

As a citizen of Washington State and a parent of school age children, I am writing to inform you of my disapproval of any actions by the state or any other entity within the state of Washington that may be seeking to require school age children receive covid-19 related shots as a condition for school / childcare attendance. The risks of complications to children who have contracted covid-19 as well as the known role that children play in the transmission of covid-19 are both very benign. When comparing that risk to the known and unknown risks of available covid-19 shots, as well as the inability of these shots to prevent transmission among those that have received them, it becomes abundantly clear that any proposal to require any covid-19 related shots for attendance to school / childcare or any other activity would be absolutely absurd.

Let it be known that I vehemently oppose any actions or proposals that would require school age children to receive covid-19 related shots of any kind as a condition for attendance to any activity of any kind. School, childcare or otherwise.

Thank you for your time,

-Chad Lofquist

A concerned citizen.

Subject: Comments related to quarantines and coronavirus injections for public school children

External Email

Hello SBOH,

I would like to submit a comment concerning the WAC 246-100 series (5) and also requirements or 'recommendations' related to public school children receiving the coronavirus 19 shot as a requirement to attend school.

The 'Covid -19 "vaccine" as it is being called is Experimental and Under Emergency Use Authorization, is an mRNA gene therapy (all iterations including Janssen which is more traditional) and is in it's third stage of trial, of we, the public citizens being the third stage test subjects. As such, every person who is eligible to receive such injections must be made aware of the potential side effects, adverse reactions and/or death that can occur, and cannot be coerced against their will to take such injections, since they are/would be participating in an \*experiment\* of which we do not know the long term outcomes.

Therefore, children should not be required to have the shots for school entry nor should any citizen be detained against their will for not taking said injection if that is the mindset of the State Board of Health, the Washington State Dept of Health or any County boards of health.

Nor should any citizen or individual of Washington State be detained against their will. Education about self isolation and self care (staying home when sick) is much more effective and the best way to go (ads by the Ad Council in public places?). All of this just comes down to grandma's basic common sense.

At present, the outdated injections are completely ineffective for the current strain of coronavirus - Omicron;

Have a \*HUGE\* amount of adverse events including deaths associated with them;

Are now well known to cause myocarditis and pericarditis in young adults, particularly males;

Don't stop people from catching the virus because the injection fails after three months;

Don't stop people from spreading the virus;

Cause those injected to develop antibody dependent enhancement making them more prone to the coronavirus

As mentioned at the top of the list, the injections are obsolete.

Thank you for considering this matter, please feel free to forward my comments to any concerned parties.

Subject: NO to Covid Policies

External Email

Washington Board of Health,

I am writing to let you know that I am against the proposed WACs: 246-100-079, 246-100-045, 246-100-040, 246-100, 246-105. All deal with Covid policies and protocols. As we have witnessed since the beginning of the pandemic, there is little that can be done to stop the spread of the virus. Mitigation strategies put into place have had no effect.

I believe that the proposed WACS undermine freedom and will do little to stop the spread. What they will do is limit student's access to schooling, weaken our state, and place far too much power in the hands of individuals who have not been elected.

As such, the proposed WACS are unconstitutional, immoral and an abuse of power. I strongly stand against their adoption.

Donette Hope

To whom it may concern,

I reject and extremely disapprove of

WAC 246-100-040.

Any mandate requiring vaccination of any age or sex violates medical freedom and agency.

No child of any age should be mandated to vaccinate to attend public schools.

No employed persons should be mandated to vaccinate in order to work. Especially without religious or medical exemptions openly offered and accepted.

No persons should be asked to leave establishments based on vaccination status.

I REJECT WAC 246-100-040

External Email

Ms. Febach -

Please oppose the following WA State Board of Health agenda items. Per the Washington State Constitution, our legislative representatives are elected to make these types of decisions via our legislative process.

1. Agenda Item 9 – Continuance – Communicable and Other Certain Diseases – WAC 246-100.

Please vote against any changes or extensions to this WAC code especially the following:

- \* WAC 246-100-079 – allowing local health officers to use law enforcement
- \* WAC 246-100-045 - to force an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility
- \* WAC 246-100-040 - following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination.
- \*

2. Agenda item 11 – Rulemaking Petition – Chapter 246-105 WAC – Immunization criteria for child care and school entry.

Please vote against any changes to this WAC Code.

- \* Washington State Board of Health should be making no recommendations or requirements regarding immunizations for our Washington State children.
- \* All decisions regarding children’s health care should be decided by the children’s legal parents/guardians.
- \* It is irresponsible to suggest or require that our WA state children take a COVID Vaccine that was only released a year ago and has no long term (multi-year) studies completed.
- \* The COVID vaccinations for children are still under a EUA (Emergency Use Authorization) status. Following EUA rules, these parents and students should be given full disclosure of risks and allowed the legal right to decline.

Respectfully,

Tracy Harker

To whom it may concern:

I am a mother of 5 and the wife of a firefighter. I teach for a home education program and I have battled autoimmune illness for most of my life, very severely in the last 7 years. All of these experiences give me significant interest in the agenda for the January 12, 2022 meeting.

I am in opposition to the following:

1) Any involuntary isolation/quarantine of people as described in parts of WAC 246.100;

There is NO evidence that those with natural immunity to Covid-19 or those who are unvaccinated are of greater threat to their communities. In fact, both those who are vaccinated and those who are unvaccinated can still transmit the virus, as evidenced in the very high number of vaccinated firefighters who are currently sick with Covid. Any type of mandatory quarantine would not only be unnecessary and illogical, but an egregious affront to citizens' civil liberties.

2) Any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

There are currently NO vaccines available for use in the United States that are not still under emergency use authorization. Covid-19 poses less than 1% risk of mortality to children and there are no long-term studies done on risks due to the vaccine. Please do not jeopardize our children's health and futures.

Sincerely,  
Cutzi Jobes

I am writing to voice my strongly opposition to WAC 246-100 Rulemaking that would expand ANY authority to involuntarily quarantine individuals. I also wholeheartedly oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

Children are statistically shown through numerous scientific studies to be the least vulnerable population affected by the C-19 virus, and current vaccines have shown an ineffective tool to stop the spread and transmission of the virus. All vaccines carry a risk to certain groups of people, these vaccines are no different, and each individual should be allowed the freedom to weigh the pros and cons thru their own research and conversations with their own personal medical professionals.

Medicine, prescriptions, treatments and vaccines are not a "one size fits all" solution.

Caroline G.

Subject: Chapter 246-105 WAC

External Email

I am forwarding you an email sent to Kaitlyn Donahoe as she is on maternity leave.

Greetings,

I am emailing in regards to the newly proposed COVID-19 vaccine mandate for schools, and the quarantine (concentration) camps. I am greatly opposed to both of the previously stated mandates, and deeply concerned by the very notion of the ideas.

Medical freedom is simply that: medical freedom. The government cannot legally push

these things into existence in the name of "stopping the spread," or whatever other labels they choose to for it. This is wrong to force upon everyone as each individual reacts differently to medical treatments. Medical decisions and treatments are to be held within the best interest of the patient, and are to be decided between the patient (if a minor, patient's parents), and their personal healthcare provider.

There is no "one size fits all" medical plan: it will never exist. Medical treatments are individualistic because not one person is the same. Some react positively to vaccines, while others negatively. With this particular COVID-19 vaccine, many hesitations arise. For one, it has not undergone the proper time to be tested/tried to ensure functionality and safety. Secondly, we are constantly told to "follow the science" and science has proved this to be an inconsistent and potentially dangerous vaccination. No child should have this forced upon them. Our freedoms don't start where other people's worries begin. We are in America, and as such have medical freedom. Parents are in charge of raising their children and will make medical decisions for them in the child's best interest because they know their kids. For the government to say that they know what's best for other people's kids, kids they don't know, is so very wrong.

That being said, the notion of taking children away and separating families to put people with the coronavirus into camps is downright sickening. Families take care of one another; they don't need "experts" isolating them from loved ones that actually know how to care for them most beneficially and according to their best interest. We are founded on freedom and not finances for the government. We The People hold the power to decide things for ourselves: how best to care for our own sick, to receive desired medical care, to refuse skeptical medical care, and to remove or vote people into office.

I will again state the importance of medical freedom/choice in this great country. Strangers making healthcare decisions for other strangers is an extremely dangerous, and even communistic thing. Last I recall, setting my body on fire will not keep the person in the corner from freezing. To get or not to get the COVID-19 vaccination, and to go or not to go to these "care camps" is and ever should be one's own choice. It doesn't matter if people are left or right, black or white, tall or short, old or young; we all are entitled to our own personal choice for our own personal medical decisions. Not only are we entitled to it, but our rights to choice are protected by laws, and not only by laws, but by the United States Constitution as well; and last time I checked, the government is underneath both law and the U.S. Constitution.

Thank you for your time in reading this email. I stand for medical choice/freedom for We The People, therefore greatly oppose these newly proposed COVID mandates.

May God bless you, and may God bless America - land of the free.

Re.: PROPOSED POLICIES:

1. Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
2. Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Bottom Line: A long-time WA resident, I am adamantly opposed to official's forcing involuntary detention for responsible citizens who exercise their right to determine what they will/won't inject into their own bodies. You propose "involuntary" detention for "voluntary" noncompliance. Sadly, these two mutually-exclusive descriptors ("involuntary" and "voluntary") belie the subplot of what's being advanced. And I object to it.

As a retired educator, I am equally appalled at the thought of forcing experimental injections into the arms of children and youth. Too many questions are yet unanswered. A FDA advisor reminds us that there is no expectation that the lower dose in children will behave similarly to the higher adult dose. This, of course, begs the question: Do we really want to experiment on our children?

One of the most academically cited American epidemiologists alive today says he would pull a healthy child out of public school before he administered this vaccine. Harvard University professor of medicine, Martin Kulldorff, agrees with Dr. Harvey Risch. Data and scientific studies he's reviewed show that children are more likely to contract serious disease or die from the annual influenza, or the flu, than COVID-19.

Covid injections are experimental. Simple as that. Dr. Eric Rubin, who sits on the administration's vaccine advisory panel, said in part, "We're never going to learn about how safe this vaccine is unless we start giving it. That's just the way it goes. That's how we found out about rare complications of other vaccines, like the rotavirus vaccine."

Never mind that safety data are lacking! Rep. (and Doctor) Greg Murphy (NC) responded rightly in noting that Ruben's comment "is literally the most dangerous statement" he had ever heard in medicine." I agree.

Re.: Too many questions are yet unanswered.

*The CDC openly acknowledges that for 30 years since creation of the VAERS reporting system, reporting of adverse vaccine DEATH reports remained very low and constant. However, beginning in December 2020 with the first COVID19 vaccines hitting the open market, and escalating every day since, the adverse event DEATH reports have skyrocketed to levels never before seen in 30-years of vaccine adverse event reporting.*

Before mass-enforcing an experimental injection, especially on children, these questions (and countless more) must be answered (with peer-reviewed science):

1. The CDC admits there are no peer-reviewed studies, yet it's okay to take these injections deemed "safe and effective." But by what standard? There is no longitudinal history from which to draw.
2. Just what's in these injections? We know that the mRNA Moderna experimental injection contains SM-102 designated "for research use only, not for human or veterinary use" (See: Cayman Chemical Safety Data Sheet acc: OSHA HCS. Trade Name: SM-102.) What else is in these injections, and why pump them into humans (especially children)?

3. Salk researchers confirmed that the main damage from Covid is caused by the clot-generating spike protein, not the virus. It's unclear how long these potentially lethal proteins remain trapped in the lining of the blood vessels, or what damage they might eventually do, so why inject people with a substance that teaches their cells to make spike proteins?
4. Why the Covid surge (which, on a per-capita basis, was higher than the surge that devastated India) in 4 out of 5 of the *most vaccinated* countries (Forbes)?
5. Why did more people die in 2021 (January through August) despite the rollout of COVID shots in December 2020?
6. A local ABC News Station posted a request on Facebook for people to share their stories. In five days, over 200K people posted comments, all of which addressed vaccinated loved ones who died shortly after being injected, or who are permanently disabled. Shouldn't this at the very least be looked into?
7. Researchers noted: "Overall, our data provide strong evidence that SARS-CoV-2 infection in humans robustly establishes the two arms of humoral immune memory: long-lived BMPCs and memory B cells." This is perhaps the best available evidence of long-lasting immunity. Yet natural immunity is downplayed in the media narrative. Why?
8. To encourage pharmaceutical companies to manufacture ground-breaking new medicine, governments use no-fault indemnity against lawsuits. Where's the protection for individuals injured from the vaccine?
9. Cardiovascular, neurological and immunological adverse events are all being reported at rates never even remotely seen before. Shouldn't the magnitude of side effects compared to other vaccination programs concern us? This is especially true in that adverse events are broadly known to be seriously *under* reported!
10. One's right to informed consent mustn't be bypassed. But the mainstream media narrative is quite silent about adverse effects. According to the CDC, Myocarditis, a rare condition, is occurring at a higher than expected rate in vaccinated individuals. The Informed Consent Action Network (ICAN) reported that a study showed that the actual number of anaphylaxis is 50 to 120 times higher than claimed by the CDC. Researchers used data from the Vaccine Safety Datalink, run by the CDC, to find 21 potential cases, 11 of which were confirmed, of Guillain-Barré syndrome (GBS) in people who got the shot. Autoimmunity and the opposing condition, metabolic syndrome, are well known adverse events caused by vaccines. The Covid injection is also paired with Creutzfeldt-Jakob (prion) disease. Shouldn't the public be fully informed of these risks and, then, decide for themselves?

Re.: Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

In September, the Singapore government awarded a teen \$225K for having a heart attack following a Pfizer shot. Over in Taiwan, second doses of the Pfizer-BioNTech jab for children, aged 12 to 17, have been temporarily halted due to myocarditis concerns. Meanwhile, in America, the director of the CDC advocates approving the jab for children, aged 11 to 15 years old; and WA wants to include Covid-19 injections as part of school immunization requirements.

So why inject healthy children when their risk is statistically insignificant? Metrics among the unvaccinated rise across age groups, but data clearly illustrate that younger, healthy people are at little risk from the disease. Fact is, unvaccinated 18- to 29-year-olds saw deaths lower than most fully-vaccinated age groups.

Most Covid patients (70.6 percent) have one or more underlying health conditions. Nearly 36 percent infected are obese. 31 percent suffer from chronic lung disorders, and just over 14 percent suffer neurologic disorders. COVID-19-associated hospitalization rates in children were found to be overcounted when, in fact, 45 percent of the patients admitted to Lucile Packard Children's Hospital in California were *not* about Covid.

There is no logical reason for forcing risky, untested injections on healthy children. Consider instead the youth who *are* vaccinated. In June, the CDC reported higher-than-expected rates of myocarditis among *vaccinated* (not

*unvaccinated*) youth. There were 117 cases among males 12 to 15 (when no more than five were expected). Dr. Nicola Klein of the Kaiser Permanente Vaccine Study Center presented data regarding post-vaccination heart inflammation from the Vaccine Safety Datalink, a database from the CDC, and nine other healthcare groups, including five Kaiser Permanente facilities. Data also showed higher than expected cases among youth *following vaccination*.

Yet we are expected to ignore facts and summarily dismiss legitimate concerns, as these, as misinformation perpetrated by quacks. Even if such claims ring true, who gets to decide? The answer is best found in the cliché, "Follow the money." Throughout the pandemic, nine new billionaires have been hatched. Pfizer alone estimates to profit at least 33.5 billion dollars from the Covid injections; and many medical professionals receive financial incentives to promote injections. In the United Kingdom, for example, nurses get £10 per needle they put into a child.

Our charge is to protect children, not to use them for monetary gain. They are not guinea pigs, nor should they be treated as such.

Mr Glasoe,

I Danielle Loft oppose the use of law enforcement to be used to detain those who are unvaccinated. There are so many reasons one would choose not to get this medical procedure for their own personal reason, for instance previous injury from other vaccines (many of my friends and family have experienced, look into VAERS to see how much money has been paid out to victims) religious reasons, natural immunity, wanting more studies to be done before making that decision, all of which are legitimate reasons and shouldn't be questioned. It is our own right to refuse and to be punished and detained for those valid reasons is unacceptable on every level. This is America, we have a constitution, we have rights to choose what is best for ourselves, but seems for some that's been forgotten.

I do not support adding the C vaccine to the childrens school schedule. There have not been enough studies on it, we don't know the effects it will have on fertility and their bodies. All the science says children are not a threat and are likely to not be harmed by the virus as much as adults, so why mandate it? It doesn't make sense. Leave the children alone.

Please do what you know is right and oppose these WACs from being added as a law.

To my Washington State board of health member: I am writing to plea against the upcoming vote to strip away my civil liberties and mandate vaccinations which is unconstitutional. Also I do not agree with enforcing vaccines in schools or the confinement and isolation of families or groups not willing to vaccinate or quarantine. This is still America correct?? How in the world are we being so blinded to the corruption of the government and pharmaceutical companies that we don't even remember civil liberties and why America is great!?! Please do not be swayed by pressures from higher up to make these long term injustices legal. I am in health care and I do not think this is a just enforcement of power and personal rights being ignored and powers being stripped away. What's next I ask? Give an inch and the mile comes next... I would like to maintain my rights to life (unimpeded by Vaccine side effects), liberty ( free will and choice to respect my body), and the pursuit of happiness (not enforcement camps and government illegal mandates that I do not agree to).

Thank you for representing me and my rights with a vote against these proceedings and mandates on Jan 12th.

Sincerely and confidently,

Erica Black

Cc:  
Subject: Chapter 246-100 WAC Public Meeting - Comment of Dissent

External Email

Dear Washington State Board of Health and Staff,

My name is Crystal Cochrane. I've lived in Washington all my life where I was raised in Bellingham. I attended the University of Washington in Seattle, where I met my husband, and have since settled in Bothell and Sultan. Washington is my home. I love this state and the people in it.

I am writing to you regarding the upcoming public meeting, scheduled for January 12, 2022 to discuss including COVID-19 vaccination as part of school immunization requirements.

This policy consideration is against reason. It is a violation of individual liberty. It will disproportionately target Hispanic, Black, and Multiracial communities and is therefore an affront to justice. I am writing to you to encourage you to take just and reasonable action in rejecting this policy.

None of the currently available COVID vaccines prevent infection or transmission of COVID-19. This statement alone makes mandating of vaccines one-sided and impractical. Studies have shown children ages 0-19 infected with COVID have a 99% survival rate and neither children nor school have been shown to be sources of high viral spread. The FDA advisory panel members openly admit to not having data necessary to make statements regarding long-term risks to children. Are you willing to risk children's lives based on zero data that could cause them detrimental harm? If so, you must hold everyone on the school board accountable for any reaction that can occur. Parents that would like to get their children vaccinated have the freedom and ability to do so.

As for teachers, there are also studies showing that unvaccinated 18-30 year olds have the same low risk of covid-19 symptoms as 50 year olds with vaccination. There should be zero requirements of vaccination in schools for all persons.

Furthermore, data from the Washington State Department of Health (DOH), released in 2021, shows that vaccination rates are lowest among Hispanic, Black, and Multiracial people when compared to those groups' proportion of the state population.

Denying minority communities the right to public education, on the grounds of exercising their bodily autonomy, is unjust.

The Fourth Amendment of the US Constitution protects our bodily autonomy by stating "the right of the people to be secure in their persons". Our constitution does not grant us rights, rather it acknowledges and secures the rights innate in personhood. Bodily autonomy, the inviolability of the human body, self-ownership, is innate human right, meaning born that way, not given by state officials or members of a board.

Forced vaccination or vaccination under duress (the denial of access to a free education) violates the innate freedom of families in Washington to make their own decisions regarding their bodies and health. You must consider the basic, but important idea that it is not good to compel people to violate their convictions.

I am not requesting this Board give children bodily autonomy nor am I asking for the freedom to choose what medical treatment they receive.

I am demanding you respect the freedom I innately possess as a human being and an American. I urge you to make a policy that reflects reality and acknowledges the humanity of children in Washington state.

Reject totally the inclusion of COVID-19 vaccination in school immunization requirements.

Thank you,

Crystal Cochrane

Subject: AGAINST FASCIST POLICIES WAC 246-100 AND WAC 246-105

External Email

Hello,

I am writing this email to demand the fascist policies WAC 246-105 and WAC 246-100 to be ceased from existence.

Whoever decided to create them, as well as to propose them to the public is cruel and evil in their nature just like the policies themselves.

History shows that whenever government officers were allowed to affect people's lives in such a manner these policies allow them, there were millions of people who were denied their basic human rights of choice and freedom. Because of the same in their nature policies, 6 million Jews were brutally killed, and millions more of different were traumatized and suffering. And if we are to give these policies even a chance for existence, we will be repeating the same mistake here in the United States, the country of the free.

We CANNOT and SHOULD NOT allow policies like that to exist. It is against human rights, rights given to us by God himself, the rights protected by the constitution. The constitution is designed to limit the government because absolute power corrupts absolutely, and our leaders are already corrupted. However, these proposed policies override the constitution and provide health officers absolute power, which makes these policies UNCONSTITUTIONAL.

It is clear that the pandemic, mainly created as a political tool to place power in the hand of just a few cruel people, has nothing to do with the proposed policies that cease human freedom. We all saw that somehow states like Florida, where people continued their normal lives, and somehow had even fewer cases of COVID compared to the Marxist states like California. It is not a question of protecting people's health because it is to be taken care of by each person individually by each individual, not by the government. That is, I am raising my voice AGAINST these UNCONSTITUTIONAL, UNHUMAN, IMMORAL, EVIL IN THEIR NATURE policies. I am raising my voice as my God-given constitutional right for the sake of the future of this generation, the generation of my future children and their children, and for the sake of this country.

I expect to hear a personal reply to this email, as it is my right and your obligation to read it thoroughly to take action upon the people you represent and whose constitutional rights you are to protect.

Best Regards,

Aleksandra Ankuda

To the Washington Advisory Group and the Honorable Jesse Young

I am opposed to making COVID-19 (C19) shorts mandatory for school admission or childcare in our State for the following Reasons:

1. My family has had Covid. This is not a projection but backed up by a medical facility test. The symptoms experienced by my family varied in intensity but nothing greater than previously experienced with influenza. There are numerous studies showing that a healthy immune system and or natural immunity is proving to be of equal if not greater value to the unknown side effects of the experimental mRNA gene therapy. See a few of the numerous studies below.

1. [https://academic.oup.com/cid/advance-article/doi/10.1093/cid/ciab884/6381561#.YWGhCytQ\\_Hc.twitter](https://academic.oup.com/cid/advance-article/doi/10.1093/cid/ciab884/6381561#.YWGhCytQ_Hc.twitter)  
<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Facademic.oup.com%2Fcid%2Fadvance-article%2Fdoi%2F10.1093%2Fcid%2Fciab884%2F6381561%23.YWGhCytQ\\_Hc.twitter&data=04%7C01%7](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Facademic.oup.com%2Fcid%2Fadvance-article%2Fdoi%2F10.1093%2Fcid%2Fciab884%2F6381561%23.YWGhCytQ_Hc.twitter&data=04%7C01%7)>

2. <https://www.medrxiv.org/content/10.1101/2021.08.24.21262415v1.full>  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F10.1101%2F2021.08.24.21262415v1.full>>

3. <https://www.medrxiv.org/content/10.1101/2021.06.01.21258176v2>  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F10.1101%2F2021.06.01.21258176v2>>

2. Experimental gene therapy (GT): I applaud those who desire to be part of the gene therapy program. I and my family however find it personally wrong. For a number of reasons. AND PLEASE NOTE...I do NOT look down on anyone who chooses to receive the mRNA GT treatment.

1. My body is my choice: If the mRNA gene therapy treatment protects and or reduces complications or death from C19 for people, why is my body, my choice not respected? Likewise, the likelihood of dying from C19 is .002% of the entire US population. The overall death rate from 2016 to 2020 remains fluid with some years

being higher and some less per 100,000.

1. 2016 Deaths: 849.3 per 100,000 - I have the CDC PDF is needed
2. 2017 Deaths: 731.9 per 100,000 - CDC
3. 2018 Deaths: 2,839,205 or 723.6 per 100,000 - CDC link below
4. 2019 Deaths: 2,854,838 or 869.8 per 100,000 - CDC final
5. 2020 Deaths: "3,358,814 or 828.7 per 100,000 - CDC link below

2. Our bodies, when healthy, are made to be resilient and able to adapt to all sorts of unwanted illnesses.

3. PEG (polyethylene glycol) is a stabilizer lipid in the mRNA vaccination and can be life threatening for many.

4. Earlier studies of the SARS-1 mRNA trials produced autoimmune hypersensitivity reactions when exposed to the natural virus after the mRNA was delivered. I understand that C19 is a different mutation coming from the roots of C2. However, the concern in becoming vaccine, or gene therapy dependent when a body is healthy is of great concern for my family and I.

5. Heart Inflammation: Though additional studies have been done by the CDC with them now saying it's safe, there still remains a real risk. Medical patients have always had the right to accept or reject medical procedures done to them.

Conclusion: It is the job of the government and the medical community to advise and communicate risk. It is the responsibility of a free people to understand the data along with recommendations and make a decision that best suits them and their families for their medical needs. This unreasonable fear, perpetuated by bad data that has so gripped America and the world it is unreasonable. This attitude is not what made America great! And if you wish to destroy our Republic, the greatest nation on earth, then this is a good way to do it.

Evidence grows stronger for Covid vaccine link to heart issue, CDC says (nbcnews.com)

United States 501(c)(3) public charity ([www.TruthForHealth.org](http://www.TruthForHealth.org))

# Patient Guide to Early COVID Treatment~ Options to Help You Stay Out of Hospital and Save Your Life

Consulting Editor/Co-Author and  
Chief Medical Advisor Truth *for* Health Foundation:

Peter A. McCullough, MD, MPH, FACC, FCCP, FAHA, FNKF, FNLA, FCRSA  
Internist, Cardiologist, and Epidemiologist,  
President, Cardiorenal Society of America  
Creator and Host: *The McCullough Report*, on  
America Out Loud Talk Radio

Editor and Co-Author:

Elizabeth Lee Vliet, MD, MEd Preventive and Climacteric Medicine  
Vive! Life Center, Tucson AZ and Dallas TX  
Founding Director and President/CEO, Truth *for* Health Foundation  
Past Director, Association of American Physicians and Surgeons  
Creator and Host, Truth for Health...*The Rest of the Story* Radio Show

**Disclaimer:** This booklet does not provide individual medical advice or prescribe treatment but is provided as an educational service for patients and their families to know what options are available and widely used for many conditions. Patients should consult the physicians of their choice for individual medical evaluation and recommendations for treatment tailored to individual needs.

# Your “Road Map” for Using This Guide

## Step 1:

Understand the illness, and who is at risk. COVID is a mild illness for most healthy people under age 50. COVID can be unpredictable and dangerous only for a few high-risk people – such as those over 50, and/or those with serious other medical conditions, e.g., diabetes, obesity, heart and lung conditions. Go to **FACT SHEET 1**.

## Step 2:

**Before** you decide to take an experimental genetic “Covid shots,” our expert physicians and scientists suggest you **read our Patient Guide FACT SHEETS 1-4** to make an informed decision. For updates on “the COVID shot,” go to **FACT SHEET 5**.

## Step 3:

If you are healthy and younger than age 50, without medical conditions such as obesity, diabetes, lung or kidney disease, cancer, autoimmune disorders, we suggest focus on **GENERAL PREVENTION STRATEGIES**. Go to **FACT SHEET 2**.

## Step 4:

Before getting sick, read about **COVID EARLY HOME-BASED TREATMENT** options to help reduce your risk of going to hospital. *At the first onset of any COVID symptoms*, go to **FACT SHEET 2** for symptoms and immediate home care steps.

Then go to **FACT SHEET 3** assess your immediate options to start treatment at home. If your doctor does not treat COVID, contact a TeleMedicine service in APPENDIX.

## Step 5:

If you are at high risk for COVID based on your age, medical conditions, or occupation, we suggest **COVID-SPECIFIC PREVENTION** options. Go to **FACT SHEET 4**.

#### INTRODUCTION: The Four Pillars of Infectious Disease Pandemic Response

#### FACT SHEET 1: What Is SARS-CoV-2 Coronavirus and COVID-19 Illness?

#### FACT SHEET 2: What Are Symptoms of COVID-19, & What Should I Do?

#### FACT SHEET 3: Physicians Guide to *Early* Home Treatment

#### FACT SHEET 4: Prevention and Other Treatment Options

#### FACT SHEET 5: Experimental COVID Vaccines: Update on Safety

#### APPENDIX: Contributors, TeleMedicine, Medical and Advocacy Resources

**Disclosures:** Physicians contributing to this guide for patients are actively treating COVID patients based on the best available medical evidence, and are focused on early, home-based delivery of medical treatment options unless critical care in hospital is determined to be urgently needed. Contributors to this guide have no financial ties with any pharmaceutical company or product suggested in the treatment algorithms. All contributors have volunteered their time and expertise as a community service in this pandemic emergency to help inform patients of their options for research-based, peer-reviewed, safe treatments. They have received no remuneration. The opinions expressed in this guide are those of the physician contributors and not those of their institutions listed.

## INTRODUCTION

Our *Patient Guide to Early COVID Treatment* is built on the rapidly accumulating peer-reviewed published medical research, written by practicing physicians with decades of experience treating patients with all kinds of illnesses. *See our “Road Map” to using this Guide to help you reduce your risk of needing hospitalization or dying.*

Early in the global pandemic emergency, large scale randomized clinical trials were not feasible in the face of such critical illness. As of this update, there now are both clinical outcomes studies and randomized trials showing early combination treatment in the home setting has reduced hospitalizations and deaths by more than 85% compared to late-stage treatment in hospital.

The medications listed in the treatment algorithm *are* approved by the U.S. Food and Drug Administration for many medical conditions, but not specifically FDA-approved for COVID-19. These medications were also approved decades ago in other countries and are in use worldwide, with impressive safety track records in many different ethnic groups and ages of patients.

As practicing physicians who have moral, ethical and fiduciary responsibilities to our patients, however, we could not sit back and watch patients die if there were plausible, medically sound, readily available existing safe medicines to offer them early in the disease. Even though the death rate once patients reach the hospital is unacceptably high, the US [National Institutes of Health](#) has not specifically recommended treatment outside of the hospital.

We recommend that treatment administered outside of the hospitalized setting should be under the supervision of a physician or licensed medical professional who is knowledgeable in the use of the medications and the monitoring approach for ambulatory, home-based COVID-19 as described in this guide. *Patients who worsen in any way should seek emergency room evaluation immediately.*

## THE FOUR PILLARS of INFECTIOUS DISEASE RESPONSE

The focus in the global pandemic response for COVID-19 has been on only TWO of these four:

- (1) *Contagion control with masking, social distancing, and lockdowns.*
- (2) *Wait for Vaccine to be developed.*

Our Patient Guide will focus on the pillar of *early, ambulatory, home-based medical treatment overseen by your physician, using a combination of available medicines*, already FDA-approved in the USA for other medical conditions, and widely used in clinical medicine every day in all countries around the world.

We have learned about what medicines and supplements work, how to use them, when to use them, and who is most at risk. Please read this with an open mind. We are writing this to HELP you, to TEACH you how to work with your doctor.

# FACT SHEET 1

## What Is SARS-CoV-2 Coronavirus and COVID-19 Illness?

Coronavirus is a family of common respiratory viruses that cause symptoms many people experience in the fall/winter seasons: from the common “cold” with cough and runny nose to flu-like body aches, low-grade fever.

SARS-1 (Severe Acute Respiratory Syndrome), MERS (Middle East Respiratory Syndrome) and the new SARS-2 COVID-19 are coronaviruses that emerged 2002-2003, and can cause more serious illnesses.

COVID-19 (short for Corona Virus Disease 2019) is the *illness* triggered by the virus SARS-2 or SARS-CoV-2 (Severe Acute Respiratory Syndrome 2) that is reported to be 79% identical to the genetic sequence of SARS-CoV-1.

### How Deadly Is COVID 19?

Globally, about 99.9%+ of individuals who contract COVID will have mild to moderate symptoms and recover, just like with the flu. Highest number of deaths are in nursing home facilities (0.62% of the population).

The vast majority of deaths from the SARS-CoV2 virus happen in those over 75, especially those with other medical conditions: obesity, diabetes, heart disease, lung and/or kidney disease. The majority have been those over 80 years old in nursing homes with an average of 2-3 other medical conditions.

**The chances of someone *under 50 years old* with symptoms dying from COVID-19 is 0.05%.**

**The chances of someone *under 18 years old* dying from COVID is near 0%.** Those that do die are those with severe underlying medical conditions. SEVEN times more children that die from the flu than COVID-19.

The bottom line? This virus looks and acts very much like the flu, but with **one CAVEAT: Unlike seasonal influenza, COVID-19 illness can become profoundly serious in unpredictable ways if treatment is delayed.**

*COVID-19 can very rapidly become critical illness for two primary reasons:*

SARS-CoV-2 virus triggers TWO responses in the body much worse than seasonal flu:

- (1) an *exaggerated inflammatory response* causing damage to critical organs, and
- (2) an *exaggerated blood-clotting response* leading to multiple blood clots in the lungs, brain and other organs. Doctors have even found blood clots in large arteries like the aorta.

## FACT SHEET 2

# What Are the Symptoms of COVID?

**What should I do first?** Consult your physician with the **first onset** of COVID-19 symptoms. If you are experiencing severe, life threatening symptoms go to your nearest emergency facility. ***Difficulty breathing or severe chest pain is a sign of serious illness and needs medical attention promptly.***

The most important reason to contact your physician right away is that studies show **early treatment** is the KEY to success with COVID. *Early treatment is especially critical for people at high-risk.*

**HIGH RISK PATIENTS: over age 50, with one or more other medical conditions:**

- Obesity, Diabetes, or pre-diabetes (“metabolic syndrome”)
- Lung disease (COPD, pulmonary fibrosis, asthma, cystic fibrosis)
- Hypertension, Cardiovascular Disease
- Kidney disease and/or Autoimmune disorders
- History of cancer treatment
- History of taking corticosteroids regularly

### What About a COVID Test?

Rapid treatment is so crucial in COVID, so many outpatient physicians elect to treat patients based on *clinical symptoms, risk factors, and other objective findings from a physical exam or blood work* and do not lose the “window of opportunity” for early treatment by waiting several days for a COVID test report. Reliability of the tests has also been a serious problem. Some patients test negative but have all the symptoms of COVID illness and need treatment. If you have all the symptoms of COVID illness, but a negative test result, most physicians still recommend early treatment to help reduce the risk of requiring hospitalization.

### Immediate home care recommendations

- Follow [recommendations from the Centers for Disease Control](#) and WHO to reduce viral spread to others. If you suspect COVID or test positive for COVID, isolate yourself to minimize spread of the virus. Quarantine time from 7-14 days, depending on symptoms and your age and medical risks.
- Remember to wash hands and body with soap and water.
- Maintain good disinfecting procedures throughout your room/home.
- Sunlight and fresh air are key to good health and to fighting COVID.

## Immediate home care recommendations, continued:

- Direct sunshine for 10-20 minutes twice a day is a good source of vitamin D. Low Vitamin D is a risk factor for getting COVID, for having a worse outcome, and for higher risk of dying. Taking Vitamin D3 in oil in capsules is better absorbed than tablets.
- Talk with your physician about increasing intake of Vitamin D, vitamin C, zinc to boost immunity.
- ***Fever is both a warning of infection that could be serious, and one of our body's defenses against infection.*** Fever may signal a superinfection that needs aggressive antibiotic treatment, not just a fever-reducing medicine. Because of the risk of blood clots with COVID-19, most physicians recommend *aspirin* for treatment of fever, since it also reduces risk of developing a blood clot.
- Plenty of fluids—preferably water, without sugars and additives—is key to keep your immune system working well and keeping your body healthier to fight off the virus.
- To check your hydration, a good rule of thumb is that your urine should be the *color of pale straw*. If your urine is *dark yellow or gold*, you are not drinking enough water. If you don't drink enough water, you are at higher risk of blood clots.
- If your urine is *colorless*, you are drinking too much plain water, which can make you lightheaded or confused from electrolyte imbalance.
- Healthy food intake also gives the vital nutrients for your immune system to work well. Fresh fruits and vegetables are good choices, along with healthy protein options like meats and beans. Avoid excess sugar, excess intake of "convenience" foods high in fat, sugars, salt and additives because these foods cause inflammation and weaken the immune system.

## IN SUMMARY

- **Early treatment, started in the first five days of symptoms, is critically important with the COVID-19 illness to reduce your risk of having to go into Hospital.**
- **Hospital care for critical patients has a much higher death rate.**
- **Waiting until late-stage of illness in COVID-19 leads to a far higher risk of long-term lung, heart, neurological, and other complications for those who survive.**
- **Waiting until too late to start treatment also increases the risk of "COVID Long-Hauler Syndrome" that can last many months or more.**
- **If your physician does not treat COVID, or does not wish to provide medical care and prescriptions shown on FACT SHEET 3, immediately contact one of the TeleMedicine Services in the APPENDIX.**

## SYMPTOM CHECKLIST: VIRAL ILLNESS/COVID SCREENING

NAME \_\_\_\_\_ AGE: \_\_\_\_\_ DATE: \_\_\_\_\_  
 Height: \_\_\_\_\_ Weight: \_\_\_\_\_ TEMP: \_\_\_\_\_ BP: \_\_\_\_\_ PulseRate: \_\_\_\_\_  
 COVID VACCINE? NO: \_\_\_\_\_ YES: \_\_\_\_\_ DATE(S): \_\_\_\_\_ TYPE: \_\_\_\_\_

- YES     NO    1. Have you had a fever >101, or felt feverish lately?
- YES     NO    2. Have you had a new or different type cough lately?
- YES     NO    3. Have you had shortness of breath, difficulty breathing?
- YES     NO    4. Any chills or repeated episodes of shaking with chills?
- YES     NO    5. Any daytime sweats unrelated to exercise, or night sweats?
- YES     NO    6. Any nausea, GI upset, vomiting or diarrhea?
- YES     NO    7. Have you had recent loss of taste or smell?
- YES     NO    8. Do you have new or different muscle/joint aches?
- YES     NO    9. Have you felt loss of energy, or severe fatigue lately?
- YES     NO    10. Have you had trouble with focus, memory or concentration?
- YES     NO    11. Have you had any other flu-like symptoms?
- YES     NO    12. Have you lost appetite and or lost weight?
- YES     NO    13. Any travel to COVID-19 areas in last 14 days?
- YES     NO    14. Any contact within last 14 days with someone who tested positive for COVID-19? If so when? \_\_\_\_\_
- YES     NO    15. Have you tested positive for COVID-19? When \_\_\_\_\_
- YES     NO    16. Have you been diagnosed clinically with COVID-19?
- YES     NO    17. ANY other new symptoms not mentioned above?

### DO YOU HAVE ANY OF THESE MEDICAL CONDITIONS?

- YES     NO    17. Obesity, heart disease, history of heart attack, arrhythmias, high blood pressure, TIA, or stroke? (**CIRCLE ALL that apply**)
- YES     NO    18. Sleep Apnea or Lung disease? (COPD, asthma, pulmonary fibrosis)

## FACT SHEET 3

# TREATMENT OPTIONS *for* EARLY HOME-BASED TREATMENT

Dr. Peter McCullough led a team of international experts and published the first treatment protocol for ambulatory COVID-19 patients developed from experience treating patients in the US. and Italy and supported by the expanding medical literature at the time. The initial protocol was published in the highly respected [\*American Journal of Medicine\*](#), and the updated protocol depicted in the figure was adapted from the [\*Baylor University Medical Center Proceedings\*](#). If you or a loved one are ill or exposed to risk of COVID-19, read the article by Dr. McCullough and colleagues from leading US and Italian medical centers (link above). With today's technology, TeleMedicine allows safe remote evaluation of patients to assess how they look and sound in addition to evaluating their symptoms and vital signs (which can easily be taken at home).

### Returning to Basic Medical Principles - Advantages of Home-based Treatment

- Treating early with prescription medicines targeted to the specific problems COVID-19 causes has the best chance of success because this is when medicines work best for infections.
- It reduces your risk of having to go into hospital.
- It *reduces the risk of you spreading your illness to others* with a contagious virus.
- Home care is safer for *you* because it reduces the risk you will pick up other infections from sick people in the hospital.
- Early home care reduces the risk of death from COVID.
- Home care can quickly use widely available, low cost, generic oral medicines. It helps avoid risks of IV medicines that are the usual treatment when people are critically ill in the hospital.
- Physicians can prescribe home-based oxygen therapy with oxygen concentrators available through home-health services.
- All the treatment modalities used in hospitals can be prescribed by your physician and implemented at home –faster, and better tailored to the individual patient. The only exception *mechanical ventilators* that have many risks and complications.
- Home care also allows people to have family members with them for love and support and assistance with treatment. It is terrifying to be seriously ill in the hospital, and to be alone with family unable to visit.

The SARS-CoV-2 virus causes unique types of damage in the body, which is different from the flu virus. These unique effects mean we must use a *combination* of prescription medicines rapidly to block the virus' dangerous effects leading to serious COVID-19 illness very rapidly, in *unpredictable* ways. Not everyone develops severe illness with COVID-19 but the problem for doctors is that we cannot predict *who* will develop critical illness or how fast.

The unpredictability and rapid progression in COVID happen because the SARS-CoV-2 virus triggers TWO responses in the body that are much worse than seasonal flu:

- **An exaggerated inflammatory response**, causing damage to critical organs. In its most serious form, this is called *cytokine storm*.
- **An exaggerated blood-clotting response**, leading to multiple blood clots (thrombi) in the lungs, brain, kidneys, intestines and other critical organs. These blood clots in COVID can occur in both veins *and* arteries, which is unusual and potentially life-threatening if not treated rapidly.

The use of prescription medications discussed in this guide should be considered clinically indicated, medically necessary, and appropriate "off-label" use of these products. Physicians have *always* used older medicines "Off-label" for new uses based on medical judgement.

Patients should read the safety information in the medication package insert and patient guide before deciding on the risks and benefits of the medication. Ask questions of your physician for additional information/clarification.

## Basic Groups of Medical and Other Therapies Used for Early Home Treatment of COVID-19

- Combination *anti-viral/anti-infective* medicines started as soon as symptoms occur
- Medicines to decrease inflammation, such as *corticosteroids* (called *immunomodulators*). These medicines can be nebulized or given as oral pills. Some patients benefit from both nebulized steroids and oral steroids.
- *Anticoagulant* therapy to prevent blood-clots that can cause pulmonary collapse, strokes, heart attacks, kidney shut-down, and death.
- Non-prescription supportive treatments with zinc, vitamin D, vitamin C, N-acetyl cysteine, electrolyte drinks such as Pedialyte, and others.
- Home-based oxygen support, such as with an oxygen concentrator. These machines are available *by physician prescription* from home health medical supply businesses and are covered on most medical insurance plans.

## New Uses of Older Medicines: COMBINATION THERAPY USED FOR COVID

McCullough PA Innovative Early Sequenced Multidrug Therapy for SARS-CoV-2 (COVID-19) Infection to Reduce Hospitalization and Death, presented in part at Scinov, COVID-19 Drug and Diagnostic Developments, Nov 2, 18<sup>th</sup> Annual WCIIRC 2020 Dec 3, DOI:10.31083/j.rcm.2020.04.264 This is an open access article under the CC BY 4.0 license (https://creativecommons.org/licenses/by/4.0/), adapted for Int J Med Sci Clin Inv 2020, ID 2898 Open Access Publication ISSN: 2348-991X | 2454-9576

BMI=body mass index, Dz=disease, DM=diabetes mellitus, CVD=cardiovascular disease, CKD=chronic kidney disease, yr=years, HCQ=hydroxychloroquine, AZM=azithromycin, DOXY=doxycycline, IVM=ivermectin, VTE=venous thrombo-embolic, EUA=Emergency Use Authorization (U.S. administration)

\*FDA cautions against use of hydroxychloroquine or chloroquine for COVID-19 outside of the hospital setting or a clinical trial, citing risk of heart rhythm problems based on hospitalized patients. Please consult with your physician before use.

For more information on safety of HCQ and other medicines in the algorithm, check the [c19study.com](http://c19study.com) website that summarizes more than 154 studies of HCQ-based treatment, which are particularly favorable when HCQ is used in the first few days of COVID-19 symptoms as recommended in the above algorithm.

For further information, see AAPS [compendium of articles and studies on COVID-19](#).

# FACT SHEET 4

## Prevention and Other Treatment Options

### Monoclonal antibodies

**Natural Antibodies** are produced by the body in response to foreign organisms, such as viruses and bacteria. Synthetic antibodies are those produced in a laboratory to mimic ones the body can make. When these synthetic compounds, referred to as “monoclonal antibodies,” are made in the lab targeted for a new treatment in medicine, they are patented as new therapeutic agents. This is the type of experimental synthetic monoclonal antibody, Regeneron, you heard described on the news that was given to President Trump as part of his treatment for COVID-19 when he was in the hospital at Walter Reed.

The company Regeneron has produced a drug, called REGN-COV2, that is a combination of two “monoclonal antibodies” intended to fight off the virus SARS-CoV-2 that causes the illness we call CoVID-19. To develop REGN-COV2, Regeneron scientists use antibodies from mice that have been genetically modified to have a human immune system, as well as antibodies identified from humans recovered from COVID-19. Regeneron is still [undergoing clinical trials](#). Once randomized, controlled clinical trials are completed, we will be able to analyze the data to determine its overall safety and effectiveness, as well as its side-effect profile.

### Convalescent Plasma

Convalescent plasma, or CP, is the serum from blood donated by people who have had an infectious disease, recovered, and developed antibodies to the infectious organism so that their blood contains those antibodies that can be administered intravenously to a another person with that disease to treat the infection. CP was using during the 1918 flu pandemic, and has also been used for measles, mumps, and polio early in the 20<sup>th</sup> century. When the COVID pandemic hit, physicians began considering this could be a therapy to help ill patients recover.

The FDA approved an Emergency Use Authorization to use CP to treat COVID patients, and it has been given intravenously to COVID patients in the hospital. Data from small studies look promising to lessen the severity and/or shorten the duration of COVID-19 illness. The risk of getting COVID-19 from convalescent plasma has not been tested, but researchers believe that the risk is low because donors have fully recovered from the infection.

Convalescent plasma therapy has some risks, such as allergic reactions, possible lung damage and difficulty breathing, and infections such as HIV and hepatitis B and C though the risk of these infections is low because donated blood is tested for safety.

## Prevention Options: Prophylactic Medications and Vaccines

Since SARS-2 virus first appeared, there has been much media focus on developing a vaccine that will protect people from contracting the SARS 2 virus. But in addition to working on a vaccine to help prevent people from becoming ill with COVID, there are already several *prophylactic*, or preventive, medication protocols in use in more than 50 countries, including in the United States.

### Prophylaxis Regimens:

Prophylaxis means treatment designed to reduce risk of getting an illness. It is a basic approach to prevention, particularly with illnesses like malaria, herpes, HIV/AIDS and some other illnesses. Very early on in the COVID pandemic, physicians in India, South Korea, Japan, Costa Rica, Turkey and several other countries began using the safe, widely available and very potent anti-viral medicine **hydroxychloroquine (HCQ)** as a *prophylactic* (preventive) medicine in COVID-19. Dr. McCullough's team at Baylor did a study in their health care workers using HCQ prophylaxis and found it to be effective and safe, with no adverse cardiac events or serious side effects.

The [India Council on Medical Research](#) (ICMR) published in March 2020 (updated in May, 2020) their national guidelines for India using HCQ 400 mg once a week for health care workers, physicians, nurses, first responders, high risk patients, and family members of exposed or COVID-positive individuals. As a result of widespread prophylaxis and early treatment with HCQ, India early on had a death rate 1/10 the rate in the United States, where prophylactic and early treatment use of HCQ was not recommended or very available. As more and more countries learned from the experiences in India and began to use this once a week prophylactic dose of HCQ, the death rates dropped sharply and the demand for hospital beds also dropped.

The doses of HCQ for prophylaxis are much lower than doses patients with rheumatoid arthritis or lupus or malaria take daily for many years. Because the doses are so low, and not taken daily, risk of side effects is extremely low. HCQ has a long half-life of about 22 days, so it can be given just once weekly for 8-12 weeks, or longer if someone is continually exposed to COVID, such as people working in hospitals. A new report, [Flattening the Risk: Pre-exposure Prophylaxis for COVID-19](#) examines this prophylactic treatment that is easy to use, already available, and inexpensive. They make the case for HCQ as the best candidate for this prevention strategy. Prophylactic regimens are often recommended by the contributors to this guide, who are using several different dose and frequency regimens.

By spring 2020, physicians discovered that the anti-parasite medicine, **Ivermectin**, also was effective for both *treatment* and *prophylaxis (prevention)* of COVID-19. Ivermectin 12-18 mg is given once a week to reduce the risk of being infected with COVID. There are now many clinical studies showing the effectiveness and safety, and low side effect risk, with Ivermectin for prevention as well as all phases of COVID treatment.

We believe that in the face of a public health crisis, it is important to consider life-saving approaches based on scientific logic, available safety data, and clinical availability, even if definitive results are not yet available pending more extensive clinical trials.

We also believe that prophylactic therapy is the safest and fastest way to help people around the world reduce risk of getting sick with COVID, and be able to open schools, businesses, and churches so we can overcome fear, and regain our freedom to live our lives again.

With widespread use of prophylaxis medications and early home-based treatment, there is less fear about serious illness with COVID, and less risk of hospitalization or death. Early treatment makes it *unnecessary* for people to be pressured into using an experimental vaccine with limited safety data from the clinical trials that is causing escalating medical complications and alarming death rates.

## Vaccines:

Vaccines for RNA viruses are notoriously challenging and difficult to develop. After all these years since AIDS emerged in the 1980s, we *still* do not have a vaccine for the AIDS virus, or the SARS-1 coronavirus that emerged in 2002-2003, and both are RNA viruses. Several attempts have been made to create vaccines for coronavirus and other respiratory viruses but none of the vaccines have survived the testing phases. The vaccine trials for SARS-1 from 2003, for example, was shut down because it produced *autoimmune hypersensitivity reactions* when exposed to the natural virus after immunization in animal studies and the animals died.

Another problem is that the SARS-2 virus has already shown many mutations. Viruses adapt to the environment to survive. A new vaccine must be reformulated to adjust to the changing genetic makeup of the SARS-2 virus. The currently available vaccines do NOT protect against any of the new variants emerging.

The most important consideration before approving a vaccine for human use is to make sure that the vaccine is safe and effective. Developing safe and controlled infection models for humans normally takes many years of phased testing in the lab and then in humans. Many physicians and scientists have been concerned that vaccine manufacturers, with government support, sped up this process in ways that are not allowing adequate time for the usual phased testing leading up to human clinical trials. There were many groups of people who were *excluded* from the clinical trials for whom we have NO safety data. It has never been done before to push vaccination people who had recovered from the illness OR those who were never studied in the clinical trials.

Safety and effectiveness are urgently in serious question worldwide due to the alarming and rising numbers of vaccine-induced deaths and severe complications, including paralysis.

***The good news is there are safe and effective early treatments already available making vaccination unnecessary. SEE FACT SHEET 3.***

## **FACT SHEET 5: Experimental COVID Vaccines: Update on Safety**

**I. BE INFORMED!** People EXCLUDED from the drug company studies for the COVID shots should NOT RECEIVE any type of COVID shot. For the EXCLUDED groups, there is NO effectiveness OR safety data to guide a decision.

- Childbearing age and pregnant women; children/adolescents under age 12, nursing home patients.
- People who had COVID or suspected COVID recovered; people with positive antibodies for COVID. They are already immune, do not need vaccination, and have high risk of serious adverse reactions.
- People with past allergic or other adverse reactions to vaccines.
- Those allergic to PEG (polyethylene glycol). mRNA vaccines use PEG to stabilize lipid nanoparticles. About 70% of people have antibodies to PEG that can cause a life-threatening reaction (anaphylaxis).

What was the BENEFIT of the COVID shots in the drug companies' clinical trial studies?

- No evidence of reduced spread to others.
- No evidence of reduced hospitalizations OR reduced deaths.
- Reduced frequency of COVID-19 infections (risk *already* low: Covid infection <1% even with placebo).

What RISKS, SIDE EFFECTS, and COMPLICATIONS are being reported? (Go to [www.OpenVAERS.com](http://www.OpenVAERS.com))

- Heart damage (*myocarditis*) in young people. Not a "mild" effect - can lead to heart failure and death.
- Fever, headaches, fatigue, weakness and muscle pain, swollen lymph nodes, rash, blood clots, deaths.
- Abnormal bleeding, menstrual problems in girls, testicular pain/inflammation in boys; infertility.
- Miscarriages; deaths of mothers, deaths of nursing babies after mother vaccinated.
- Hospitalization and deaths – due to allergic reactions, heart attacks, neurologic injury, and blood clots.

### **II. TESTING FOR IMMUNITY BEFORE GETTING ANY COVID "SHOT:"**

- ALL of these are blood tests, available from clinical labs across the United States.
- Check your immunity for COVID (SARS-COV-2 antibodies - both types) and [www.T-Detect.com](http://www.T-Detect.com)

### **III. FACTS to consider before you take experimental genetic vaccines, or "jab," still in clinical trials.**

*Genetic shots are either mRNA (Pfizer, Moderna) or adenoviral DNA (AstraZeneca, J&J). These are not like vaccines you have had before. NONE are FDA-approved, only being used on Emergency Use Authorization.*

- The genetic COVID-19 vaccines trick your body with mRNA (Pfizer, Moderna) or adenoviral DNA (J&J, AstraZeneca) into making the spike-protein in the organs of your body in an uncontrolled way in order to provoke an antibody reaction. It is this widespread generation of billions of spike proteins in your body that leads to inflammation and thrombosis (blood clots) in susceptible people in unpredictable ways.
- Normal vaccines inject an inactive virus or protein in your arm and your body develops immunity.
- Evidence shows genetic material and spike proteins generated by the vaccine penetrate *ovaries, testes, brain, spinal cord, nervous system, heart, lungs, intestines, kidneys, and cross the placenta* in pregnant women. Actual degree of distribution around our body *has not been studied and is urgently needed*.
- Toxicologists observed and potential toxicities are a "class effect" with all 4 gene-based products.
- NO ONE KNOWS ALL the risks and side effects, or how long the adverse effects may last.

Increasing numbers of physicians and scientists report vaccinated patients exposed to the virus again are having *worse* illness than if they had never been vaccinated. This fits with data from the earlier studies of mRNA vaccines in animal models in 2002-2003 during the SARS-CoV-1 outbreak.

Board of Health Members,

RE WAC 246-100: I staunchly oppose ANY expansion of authority or additional rule making that would expand the ability of the Health Board to involuntarily quarantine Washington State Citizens. The current Governor's mandates are already an overreach of authority. DO NOT MOVE FORWARD WITH ANY EXPANSION OF QUARANTINE AUTHORITY!

RE WAC 246-100: I staunchly oppose any efforts to allow the expansion of immunization authority in schools or child care centers and especially oppose any Emergency Authorization or use of medical products against the wishes of parents. DO NOT EXPAND THE AUTHORIZED AND MANDATED USE OF MEDICAL PRODUCTS ON OUR CHILDREN!!!

Sincerely,

Grant Keller

To The Board Members of the WA state Department of Health,

I am writing to you tonight out of complete desperation... I strongly and adamantly OPPOSE this proposed WAC 246-105! I am shocked and appalled that this state is seriously about to vote to impose a vaccine mandate on our children for the Covid 19 shot. A vaccine that has not withstood the test of time, that's been pushed on to people, taking away their choices. A vaccine that is shown to be more like a treatment than any sort of actual Prevention. No one can tell me what the effects may be on my child in 5 years or 10 Years. The lack of transparency has been extremely troubling and I don't trust, nor think it is absolutely necessary for myself or my child. The children are not at risk of death or serious illness from this virus. The deaths in this 2 years of Covid is under 1,000 according to the CDC. Why are we doing this!?? It's not worth the risk to our children. I ask you to please not back parents into a corner. We love our children and deserve to have choices and the ability to advocate for them since they are unable to do so for

them selves.

Thank you for your time.

Shanti Lambert 253.951.6168

My name is Brittany Miller and I live in Grayland, WA. I am writing in opposition to the WAC246-105. This is over stepping and out of line. We as parents should be able to make the decisions that are best for our family and not be government. We shouldnt be bullied into a vaccine that has been approved for children for a cpl months now. Something like this will cause the end of many, many school districts around the state, because parents are prepared to protect their children and pull them from public schools the moment a cocid vaccine requirement hits. Please consider how devastating this decision could be for many families across our state.

I also strongly oppose WAC 246-100 rule making that would expand any authority to involuntarily quarantine individuals. This is unconstitutional!!

Greetings,

I am emailing in regards to the newly proposed COVID-19 vaccine mandate for schools, and the quarantine (concentration) camps. I am greatly opposed to both of the previously stated mandates, and deeply concerned by the very notion of the ideas.

Medical freedom is simply that: medical freedom. The government cannot legally push these things into existence in the name of "stopping the spread," or whatever other labels they choose to for it. This is wrong to force upon everyone as each individual reacts differently to medical treatments. Medical decisions and treatments are to be held within the best interest of the patient, and are to be decided between the patient (if a minor, patient's parents), and their personal healthcare provider.

There is no "one size fits all" medical plan: it will never exist. Medical treatments are individualistic because not one person is the same. Some react positively to vaccines, while others negatively. With this particular COVID-19 vaccine, many hesitations arise. For one, it has not undergone the proper time to be tested/tried to ensure functionality and safety. Secondly, we are constantly told to "follow the science" and science has proved this to be an inconsistent and potentially dangerous vaccination. No child should have this forced upon them. Our freedoms don't start where other people's worries begin. We are in America, and as such have medical freedom. Parents are in charge of raising their children and will make medical decisions for them in the child's best interest because they know their kids. For the government to say that they know what's best for other people's kids, kids they don't know, is so very wrong.

That being said, the notion of taking children away and separating families to put people with the coronavirus into camps is downright sickening. Families take care of one another; they don't need "experts" isolating them from loved ones that actually know how to care for them most beneficially and according to their best interest. We are founded on freedom and not finances for the government. We The People hold the power to decide things for ourselves: how best to care for our own sick, to receive desired medical care, to refuse skeptical medical care, and to remove or vote people into office.

I will again state the importance of medical freedom/choice in this great country. Strangers making healthcare decisions for other strangers is an extremely dangerous, and even communistic thing. Last I recall, setting my body on fire will not keep the person in the corner from freezing. To get or not to get the COVID-19 vaccination, and to go or not to go to these "care camps" is and ever should be one's own choice. It doesn't matter if people are left or right, black or white, tall or short, old or young; we all are entitled to our own personal choice for our own personal medical decisions. Not only are we entitled to it, but our rights to choice are protected by laws, and not only by laws, but by the United States Constitution as well; and last time I checked, the government is underneath both law and the U.S. Constitution.

Thank you for your time in reading this email. I stand for medical choice/freedom for We The People, therefore greatly oppose these newly proposed COVID mandates.

May God bless you, and may God bless America - land of the free.

Hello,  
I would like to submit the following public comment for the Washington State Board of Health Public Meeting scheduled for January 12, 2022, regarding agenda items pertaining to Communicable and Other Certain Diseases, Chapter 246-100 WAC:

"I strongly oppose COVID-19 vaccine mandates for school aged children at this time. I also oppose any rule that expands or establishes the authority of any state or local agency to impose involuntary quarantines on any person, family or other group of people in Washington state."

Sincerely,  
George Muller  
Richland, Washington

Good morning, Team,

This is a last minute comment because I only recently became aware that this meeting was occurring and what the intended and proposed topics were. That in itself, is quite terrifying, these topics should be flooding the news and should include a request for feedback from the people that will be affected.

It feels frustrating that I should even have to discuss this. This vaccine is not intended for mass vaccination. It does not stop infection or spread; it never has. This information is no longer a secret, it is readily visible.

The vaccine may be beneficial to provide some protection for those who are most vulnerable to severe symptoms or for those who sincerely want it.

Considering including the Covid-19 Vaccine to the list of required immunizations for school and day care entry is a huge overreach of power and I strongly advise against it. Healthy children are at an incredibly low risk for severe or long-term illness from this virus or it's variants.

The decision to vaccinate for Covid-19 should be up to individuals and families without coercion or restriction from services or activities.

Families need the freedom to make their own decisions based on individual risk analysis.

In addition, any other restrictions or mandates related to Covid-19 need to be ended. Please be part of the solution and do not entertain further restrictions, quarantine or vaccine mandates, or any other forceful use of power.

Thank you for your time, make good choices.

I am a K-12 School Psychologist in WA public schools and I strongly oppose:

1. Any involuntary isolation/quarantine of people as described in parts of WAC 246.100;
2. Any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

Isolation and vaccines have not been proven to be safe or effective. I have seen the impact on our children first hand in the schools. A healthy society does not take life from their children to briefly extend the life of elderly. It is time to learn to live with the virus, and focus on early treatment.

Sincerely,

Julie Apeles

External Email

Good Morning,

I have major concerns!!!

I have lived in Washington over 60 years.

Worked in School districts for over 30 years.

I am writing you about the agenda for the January 12, 2022 meeting.

I am in opposition to the following.

\* Any involuntary isolation/quarantine of the people as described in parts of WAC

246.100

\* Any mandate on COVID vaccines for children as a requirement to attend K-12 public or private school.

This reminds be of the Japan interment camps right here in the U.S.

Please have some common sense

Sincerely,

Karla Atwood

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

To whom it may concern - I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

Here are my reasons:

\*

- \* Children are at extremely low risk for Covid
- \* The vaccines are still only EUA (emergency use authorized)
- \* There are no long-term studies to document any history of safety
- \* Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,
- \* The vaccine apparently does not stop the spread of the disease

Thank you - Dennis Patterson

Subject: Immunizations for children

External Email

Good afternoon,

I am writing to you today in response to the consideration of adding Covid-19 immunizations to the list of requirements for school aged children. As a parent of 3 children in WA public schools and a medically trained individual, it is my desire to continue to allow parents to choose what is right for their families. Since the onset of these vaccines, politics have played too large a role in the distribution, availability and discussion of their existence. Mandating vaccines for any population at this juncture serves only to divide our communities, push the "others" mindset, and create a feeling of distrust in our healthcare systems.

Currently, Covid-19 is spreading faster than it has at any other time despite the invent of the vaccine. This is partially due to the more transmissible strain of Omicron, but also points to a more concerning trend of vaccine immunity waning rapidly and decrease in effectiveness to the current strain.

Continuing to push for vaccines requirements in school aged children does not serve our children well. We know that there is a significant risk of myocarditis in young boys and menometrorrhagia in young girls. This fact is indisputable. Additionally, for all of those children who have natural immunity, the risk of vaccine side effects is again increased. At this time, the most effective, least destructive method of attack would be to continue to encourage vaccines in school aged children while at the same time, allowing parents the autonomy to decide what is best for their children.

Warmest Regards,  
Haley Anthes

9. Rules Hearing Continuance–

Communicable and Other Certain

Diseases, Chapter 246-100 WAC

– Testimony Will Be Taken

– Possible Action

“The Median COVID-19 infection fatality rate was 0.27%.”

In February 2020 the predictions of the Infection Fatality Rate (IFR), or “death rate” from COVID were estimated by the World Health Organization (WHO) to be 3.4%. We were told that COVID was much more deadly than the seasonal flu and we must “flatten the curve” to avoid overwhelming the hospitals. Seven months later, the WHO acknowledges in its own report that “infection fatality rates tended to be much lower than estimates made earlier in the pandemic”. The WHO’s report found the “median COVID infection fatality rate was 0.27%”. Other studies support this finding with IFRs of between .32% - .01%. By comparison the flu has an IFR of .1% - .2%. The former Director of Israel’s Health Ministry said, “You’re not more at risk of dying of coronavirus than the flu.”

With all the reports of COVID deaths, it is important to understand how that term is defined. At the start of the COVID outbreak, the WHO created a very broad definition of what is considered to be a “COVID death”, and this definition was adopted worldwide. According to their definition a COVID death is one where a person had a confirmed or suspected case of COVID at any time, prior to death. This means that what is reported as a COVID death may have another cause, like cancer, heart condition, or accident. Center for Disease Control (CDC) reported that only about 6% of COVID deaths had no comorbidity. This means that 94% of COVID deaths had additional contributing causes of death listed on the death certificate. So even the deaths that are reported as COVID death, are mostly deaths that occurred with COVID and not because of COVID .

The original predictions for infections, hospitalizations and deaths resulting from COVID that led numerous governments to lockdown and implement panic-driven policies, were made in a report from Imperial College led by Neil Ferguson. The report, presented in mid-March 2020, predicted that absent any controls there would be 510,000 deaths in Great Britain and 2.2 million in the U.S. with in the next three months. In an appendix, issued days later, the report listed it’s predictions for other countries including Sweden.

Sweden is significant, because it was the only western country not to lockdown in those initial 7 months, it was predicted that they would suffer a minimum of 66,000 deaths by June, when in fact they experienced only 5,900 by September. Here, in the only control group to test the validity of the model, we see it overestimated the number of deaths by a factor of 11. In June, Neil Ferguson of the Imperial College admitted that Sweden achieved similar results to the UK without imposing a lockdown.

The police power of quarantine only is possible against ill persons. *Jew Ho v. Williamson* 103 F. 10 (1900) and *Wong Wai v. Williamson* 103 F. 384 (1900)

Taking decisions out of the control of patients and handing it over to government bureaucrats is harmful and counter-productive. More choice in healthcare leads to greater numbers of empowered patients.

## 11. Rulemaking Petition – Chapter 246-105

WAC, Immunization Criteria, Child Care

and School Entry

—Possible Action

“A team of Johns Hopkins researchers found a mortality rate of zero among children without a preexisting medical condition such as leukemia.”

Kids are significantly less affected by COVID compared to adults, and mortality from COVID is considered rare. The Infection Fatality Rate (IFR) is very low in younger children, only 0.002% at age 10 compared to 1.4% at age 65. This very low mortality rate is for all children, including those with pre-existing medical conditions. A team of Johns Hopkins researchers found a mortality rate of zero among children without a pre-existing medical condition such as leukemia. When comparing to the seasonal flu, children are at a much greater risk of hospitalization due to seasonal flu vs COVID.

While COVID itself is of very minimal risk to children’s health, some justify instituting restrictions on children because they are more likely to spread the virus to adults. However, after examining the data from U.S. schools, the infection rate among both children and school staff was significantly less than the infection rate in the broader community. Nor was there an increase of cases following the opening of schools. A study found that school teachers teaching in Swedish schools during COVID outbreaks were not hospitalized more than other professions. In a study of NC school districts with a total student population of around 90 thousand, 773 infections were traced to interactions outside of school, while only 32 infections from within and no instances of child to adult transmission in school were found at all.

Kids have been less affected by COVID itself, but did not escape the damage caused by the COVID regulations including isolation, mask mandates, and school closures. The evidence was coming in fairly strong even at the start of the lockdowns policies, in May of 2020 just a couple months into the restrictive measures, one of Canada's top children's hospitals reported a 100 percent increase in admissions due to suicide attempts and a 200 percent increase in admissions from drug abuse. This was not limited to Canada, similar reports were made in other countries and throughout the COVID restrictions. There are numerous linkages between social-distancing policies and deteriorating mental health in children, including domestic violence, reduced social interactions with friends, reduced physical activities, and the guilty feeling that results from being told you may kill someone you love. Some attention has focused on the virtual learning that replaced in-class learning. In MR4q53 for example, 60% of child suicides were linked to online learning. In California an 11 year old killed himself during a virtual class meeting. The CDC published a report showing the proportion of emergency department visits related to mental health were up nationwide, 24% for children aged 5 to 11 and 31% for children aged 12 to 17 from April through October, compared with the same time period last year. By December of 2020 suicide was the number one cause of death in children aged 10 to 14 in the state of Ohio.

As the scale of the damage was becoming clear, some medical experts pleaded with policy-maker to change course, open the schools and leave the children out of the harsh restrictions. Most notably was the collection of medical experts that supported the Barrington Declaration which recommended the COVID response to be focused on the high-risk population, and freeing up of the low-risk population - the declaration was signed by over 48 000 medical professionals. Those recommendations largely fell on deaf ears with the early and courageous exception made by the Prime Minister of Norway who conceded that she made the decisions to close schools out of fear.

In places where schools were allowed to open between infection waves, numerous jurisdictions required children who have been in close proximity to an infected person to "self-isolate" for 14 days. This policy of solitary confinement is perhaps the harshest of the COVID restrictions. A doctor of infectious diseases wrote: "This is cruel punishment for a child, especially for younger children, 4-10 years old, shutting a child off from their parents and siblings for up to 14 days in this manner could produce significant and long-lasting emotional and psychological effects."

"I don't understand how any health-care professional has moved so far away from the fundamentals of public health and of doing no harm that they would think that basically incarcerating a child in a room for 14 days is in any way justified," said Dr. Martha Fulford, an infectious diseases physician at Hamilton Health Science who focuses on pediatrics.

Perhaps the most unnoticed damage to kids resulting from panic-driven COVID policies are to the ones who were never born. The U.S. experienced a 4% drop in births in 2020, numbering about 97,000 in fewer children being born, 2021 is expected to see an ever greater reduction estimated at 300,000. Israel with its overall rising birth rates, experienced a 2.5% decrease in births numbering 4709 fewer births in 2020 compared to

the previous year. When compared to the 2609 increased deaths, a stunning conclusion is revealed - the panic resulted in almost twice as many fewer births than the virus may have caused in increased deaths.

“Reported deaths in connection to the COVID vaccines totaled more than all vaccines-related deaths over the past 31 years, combined.”

With the start of the mass vaccination in January 2021, numerous reports of serious adverse reactions following the injections were being reported from all over the world and still more were being cataloged.

The government acknowledged that there would be significant amounts of people with mild short-term side-effects but that it was better to take the shot anyway

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Famericasfrontlinedoctors.org%2Ffacts%2F%23footnote-](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Famericasfrontlinedoctors.org%2Ffacts%2F%23footnote-137&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ca36d4fdaa54342c0f98d08d9d2096ea6%7C11d0e217)

137&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ca36d4fdaa54342c0f98d08d9d2096ea6%7C11d0e217

. The more serious adverse reactions around the new vaccines were dismissed as having no proven link to the vaccination.

All-cause mortality rates began to climb in several countries with the start of vaccinations. As time passed, concerned doctors began voicing their objections. Of particular concern were the adverse effects on younger people, since they are at a much lower risk from COVID. The Israeli Public Council of experts called for suspending vaccinations of people under 30, as did a group of physicians from Sweden, and America’s Frontline Doctors (AFLDS) in the U.S.

By September the VAERS system, whose function is to report on adverse reactions from all vaccines in the U.S., tallied over 15900 deaths associated with the COVID vaccines alone. Reported deaths in connection to the Covid vaccines totaled more than all vaccines-related deaths over the past 31 years, combined. A similar phenomenon was observed with the European reporting system, and in England. Not only deaths are being widely reported, but other serious adverse reactions that led to permanent disability, hospitalization, or threatened the patient’s life. Since these cases are self reported, and have not been confirmed as having been caused by the vaccination, it is difficult to say exactly how many are actually a result of the vaccine. However that is the case for all reports to the systems, and with the COVID vaccine there is a dramatic increase. It’s worthy to note that If these suspected vaccine deaths were cataloged using the same criteria as COVID deaths are cataloged, they would all be considered vaccine deaths.

Other vaccines with much safer profiles have been pulled from the market in the past. For example, the Rotavirus vaccine was suspended by the US authorities in the late 1990s after 100 babies became ill, and one died - out of approximately one million doses. The vaccine was pulled from the market despite the fact that officials stated that “no firm link had been drawn between the vaccine and the children’s illnesses”. The 1976 swine flu vaccine was pulled from the market after 500 people contracted Guillain-Barre syndrome, and was associated with 25 deaths out of 43 million doses (1 in 17 million).

There was no conclusive proof that these relatively few deaths were a result of the vaccine, yet the government halted the entire vaccination campaign. As of September 2021 there are over 18,000 deaths in question, yet the government still maintains the COVID vaccines are safe.

Please take this information into consideration before approving these policies.

Sincerely,

Amber Gallegos

Dear Stuart Glasoe,

As a parent and a member of the community, I implore you to please stop the push to require Covid-19 vaccinations for ANY child in child care or school. Covid vaccines should absolutely NOT be a requirement for our children! Please also reference Seattle Childrens Article

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.seattlechildrens.org%2Fresearch%2Fbioethics%2Fresearch%2Fkids-required-covid-19-vaccine-ethics-perspective%2F%3Ffbclid%3DIwAR0R\\_d3b4QB75FgFmEhilIzrKMuUTn9GJBqiTO352mhaExKzZeCkabObK5g](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.seattlechildrens.org%2Fresearch%2Fbioethics%2Fresearch%2Fkids-required-covid-19-vaccine-ethics-perspective%2F%3Ffbclid%3DIwAR0R_d3b4QB75FgFmEhilIzrKMuUTn9GJBqiTO352mhaExKzZeCkabObK5g)>  
where its stated that it is too soon to be requiring vaccinations for our children. Children are at an extremely low risk for Covid-19. The Covid-19 vaccines have no long-term testing on adults and they have even less testing on children. Covid-19 vaccines are not stopping the virus as many with the vaccine are contracting and spreading Covid-19 . The vaccine has not been tested enough to ensure its efficacy and safety in children. Requiring this vaccine does not protect our children!

The disease burden in this case does not meet your criteria. There is NOT a significant morbidity and/or mortality in at least some sub-set of the population. The survival rate is well over 97% and even the long term effects of Covid-19 do not represent a significant amount. Additionally, this vaccine is not meeting your criteria because it is not reducing the risk of person-to-person transmission.

As for the criteria of Implementation, the vaccine is NOT acceptable to the medical community and the public. There is an extremely large amount of both the medical and the general public who do NOT accept this vaccine as safe.

And finally in regard to vaccines effectiveness, this vaccine does not work. It is not on

the Recommended Childhood & Adolescent Immunization Schedule. It is not preventing Covid-19 nor is it preventing the spread of Covid-19. The vaccine is not cost effective for our nation. Perhaps it is cost effective or free or maybe even puts some money into the local schools, but as a nation, it is destroying our financial position at an alarming rate. "Experience to date with the vaccine containing this antigen demonstrates that it is safe and has an acceptable level of side effects." Yeah. Not even close. Tell that to the parents of the kids who are having heart attacks. Tell that to my friends who have had massive auto immune flare ups and other medical issues arise immediately after their second dose. This is not a safe vaccine for all people.

In addition, i want to point back to The Nuremberg Code, codified into US Federal Law which prohibits forcing or coercing anyone, under any circumstances, to participate in a medical experiment; and the Code states "the voluntary consent of the human subject is absolutely essential." Your chapter 246 - 100 and rule making petition for 246 -105 try to confuse, coerce, intimidate, threaten and harass us. This is called retaliation and discrimination, and that is against the law.

We have the right to determine what is the best for our families. Please PROTECT our children by NOT requiring a Covid-19 vaccination to attend child care or school.

Thank you,

May Lindsay

Subject: No vaccine mandate for children or adults

External Email

Hello,

At this time there is, in my view, a complete lack of evidence of the necessity of inclusion of a COVID vaccination requirement in WAC 246-105. Quoting from 246-105-010: "The purpose of this rule is to protect children and the public against certain vaccine-preventable diseases. Under the authority of the board of health, this rule describes the immunization requirements of children attending schools and child care centers." The facts are the current COVID vaccines do not prevent catching the disease, and therefore are ineligible for inclusion in the list of "vaccine-preventable" diseases. The current COVID "vaccines", as is demonstrated by the vast number of "breakthrough" cases, are not able to prevent COVID to a comparable level as actually effective vaccines for the section 030 listed diseases, but merely to be a pre-treatment for the disease that generally reduces the severity. Compare and contrast the number of COVID breakthrough cases (and rates) to breakthroughs for those vaccinated against the diseases listed in 246-105-030. Who has heard of breakthrough cases of chickenpox? Diphtheria? Rubella? Measles? Mumps? Pertussis? And the rest of the list, for that matter. The simple fact is, the number of "breakthrough" cases of the -030 currently listed diseases is so small as to be negligible - it would be major local news of an outbreak of Measles or Mumps in our local schools, yet these are all but unheard of. Yet the number of COVID cases that breakthrough the current vaccines is significant. Therefore, as a matter of definition, COVID is not a vaccine preventable disease. Compare and contrast COVID to one of the listed diseases with an actually effective vaccine - Mumps. According to the CDC, there were only 139 cases in 2021. Considering that the best available evidence as of this writing indicates that on average children suffer no worse from COVID than the normal seasonal flu, and considering the unknown potential long term side effects of the current COVID vaccines, the risk-reward profile indicates negligible benefit to the children of Washington, while imposing unquantified potential risk upon them. Compare to the current policy for seasonal flu: Flu is an equal, if not a greater risk to children (and never mind the ability of children to spread seasonal flu to adults) AND the seasonal flu vaccine risk profile is well known and low, yet there is no mandate to vaccinate children for the seasonal flu. Yet, this Board is considering mandating a vaccine for a disease, COVID, that is equal or lower risk to children AND has a vaccine with an unknown long term risk profile? That would be illogical and would indicate other non-fact based motivations for such a mandate. I respectfully urge the board to not add COVID to the list of diseases in WAC 24-105-030."

Thank you for your consideration in this matter,

Cathy

Subject: PLEASE OPPOSE

External Email

Hello,

I am writing to you as a concerned citizen of Washington State. I am a mother, a small business owner, and have volunteered countless years of my time in my community. I was born and raised here in WA State and care about it and the people here deeply.

I am deeply concerned with the things I am seeing happening here in WA in regards to people's health rights.

Everyone should have the right to choose if/how/when to seek medical care/treatment for ANYTHING. Choosing what happens to our body is one of our most BASIC human rights.

PLEASE OPPOSE applying new WAC codes that will allow health officers to use law enforcement to detain people to a quarantine facility against their will. EVERYONE should have the basic human right to decline testing, treatment, counseling or vaccination against, not only COVID 19 but ANYTHING.

Additionally, I am urging you to oppose WAC 246-105 which will add COVID 19 injections to the school immunization list.

There has not been ANY long term studies to see what this new injection may or may not do to us down the road. There have only been short term studies. Forcing parents to give their children something that is still in phase 3 trials is reckless. Heart issues have already been proven to be a side effect of this injection. What else will we discover as the years go by? We cannot take back an injection once we've received it, but we CAN get them later after more data is available, if needed.

We have also learned over the last year with this injection, that you can still, very easily, catch and spread COVID, even if you are vaccinated.

Parents should not have to choose between an injection they are genuinely, and rightfully, worried about, or sending their kids to public school.

PLEASE OPPOSE these new WAC codes.

Thank you for your time  
Codi Villalobos

I strongly oppose both agenda items #9 on Communicable and Other Certain Diseases, Chapter 246-100 WAC, and agenda item #11 on Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry, for the following reasons:

1. Children are at extremely low risk for Covid.
2. The vaccines are still only EUA (Emergency Use Authorized).
3. There are no long-term studies to document any history of safety.
4. Studies show that both the vaccinated and unvaccinated can transmit Covid.
5. Forced or coerced injections clearly violate the Nuremberg Code and the people's constitutional rights.

In conclusion, the illegal and immoral vaccine mandates apparently do not stop the spread of the disease.

Sincerely,

Dam Pham

Good morning,

I am reaching out because I oppose WAC 246-100 rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools. Children's healthcare and medical decisions are for the child's parents to make, NO ONE else's. What is right for one person may not be right for the next else especially when it's proven that this "vaccine" (when the definition of something has to be changed multiple times to fit an agenda you can guarantee that it's not what you're being told it is) isn't effective and the risks to children (and probably adults we just haven't seen the affects yet) outweigh the benefits. This is unconstitutional and wrong.

I oppose WAC-246-100 that would expand any authority to involuntarily quarantine individuals against their will. I also oppose adding a C-19 vaccine to the WAC 246-105 required list of vaccines for children to attend school.

I oppose WAC 246-100 which would expand authority to involuntarily quarantine individuals or groups. I also oppose adding the COVID-19 vaccine to the WAC schedule of required vaccines for children to attend school. There is no one-size-fits-all in Healthcare. Ostracizing a group of people who don't get a vaccine that doesn't stop the spread or infection is horrific. Children are at extremely low risk of this disease and should not be forced to take an injection that has no long-term studies done on how it may later affect them. Where is the consideration for natural immunity which, according to several studies, show a 27x greater protection to C19?

As a mother of two school aged children, I am seriously concerned at the discussion of the Covid -19 vaccine to be included in Chapter 246-105 WAC. Forcing parents and families to make a healthcare choice that they are not comfortable with is a significant and unnecessary overreach by the state government.

Including this vaccine, a vaccine with no high-powered, reproducible, and long term safety data, as a requirement to attend PUBLIC school is irresponsible and shortsighted. Children who receive this vaccine are at risk from severe, adverse events such as permanent physical damage to the brain, heart, immune and reproductive systems associated with SARS-CoV-2 spike protein-based genetic vaccines. This is a fact. And this is a risk that I am not willing to take.

Washington public schools have already lost tens of thousands of students this academic year. How can we justify this new barrier when we know it is extremely politically charged and that it provides minimal medical protection for this sub-set of the population?

For these reasons and for the basic fact that this rushed, top-down approach from the state government is not appropriate in public education - I strongly encourage this board to not include the Covid19 vaccine in Chapter 246-105 WAC.

Sincerely,  
Allison Miller

Subject: Comments for WAC 246-100 and WAC 246-105

External Email

To Whom it May Concern:

I would like to address you in regard to WAC 246-100 and WAC 246-105 and ask you to oppose both measures due to their unconstitutionality and inability to positively affect the public health (I have included links at the bottom to all of my references, not including the court cases, in the order they appear in my comments). First, WAC 246-100 violates the Fourth Amendment which gives the people the right to be secure in their persons and against unreasonable searches and seizures. This right does not change simply because the seizure is meant to be temporary or only last for a short period. Second, WAC 246-105 violates the Fourteenth Amendment and established case law. The Parental Rights Doctrine was established in Meyer v. State of Nebraska 262 U.S. 390 (1923) which stated that parents have the natural right to educate their children. Prince v. Commonwealth of Massachusetts, 321 U.S. 158 (1944) declared that it was the parents' responsibility to nurture children and that the family life was private and must be respected and not infringed upon by the state. Cleveland Board of Education v. LaFleur, 414 U.S. 632 (1974) elaborated on this further stating this freedom was granted by the Due Process Clause of the Fourteenth Amendment. There are a number of other cases that I could list, but these are the main ones.

Not only are these provisions unconstitutional but they will not increase public health and will, instead, cause irreparable harm. There is no longitudinal data on how the vaccines may affect individuals. In an interview with the New York Times

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nytimes.com%2F2021%2F1-daily%2Fanthony-fauci-vaccine-mandates-booster-shots.html%3FshowTranscript%3D1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C7355352c1c4e4d42dab908d9d1c323a8%7C11>

, Dr. Fauci admitted that the vaccines are not effective in the long-term and even though he predicted that multiple doses would immunize individuals, he confessed that he was unsure. Fauci also made it clear that it was unknown as to what the medical community would need to change in order to make the vaccines effective. Lastly, he conceded that the vaccinated are not necessarily protected from becoming seriously ill, hospitalized or even dying from COVID-19. In OSHA's vaccine or test mandate

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpublic-inspection.federalregister.gov%2F2021-23643.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C7355352c1c4e4d42dab908d9d1c323a8%7C11>

, the government admits that those who are vaccinated are just as likely as unvaccinated individuals to transmit COVID to others. While there is a certain segment of the population who would still likely benefit from the vaccine due to their risks in contracting and dying from COVID-19, children are not among that population. Gundry's study (2021)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ahajournals.org%2Fdoi%2F10.1161/ATVBAHA.121.328111>> showed that mRNA vaccines increased three markers that indicate an increased risk of cardiovascular problems. Hoeg et al. (2021)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F10.1101/2021.06.15.21261111>> found that boys 12-17 without comorbidities are more likely to suffer from cardiac adverse events than they are to be hospitalized due to COVID. According to the CDC

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2F2019-ncov%2Fvaccines%2Fsafety%2Fmyocarditis.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C7355352c1c4e4d42dab908d9d1c323a8%7C11>>, myocarditis and pericarditis are risks of the vaccine, and while they state those who receive care did respond well to rest and medicine, they did not provide information on whether the illnesses were resolved. Lastly, not only do we not know the long-term effects, we know that not all of the information has been disclosed. According to the FDA,

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fmedia%2F148542main>> Pfizer described the injuries of Maddie de Garay, who was 12 at the time of her second dose of the vaccine, as abdominal pain. However, it was later uncovered

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fmedia%2F148542main>> woman-daughter-covid-vaccine-reaction-wheelchair&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C7355352c1c4e4d42dab908d9d1c323a8%7C11

that de Garay suffered from abdominal and chest pains and now suffers from seizures, ticks, and loss of feeling from her waist down and now uses a wheelchair and gets her nutrition from a tube because she can no longer digest food. This was known to Pfizer and they intentionally buried that information. While some may say that this is only one case, it clearly shows that the public does not know all of the information and cannot trust the companies that created the COVID-19 vaccines to disclose all of the possible risks. As of 1/6/22,

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCHS%2FProvisional%2F2020-2021%2FCOVID-19-Deaths-Focus-on-Ages-0-18-Years-Old>>

823 children 18 years of age and younger have died of COVID-19. While each death is a tragedy, it shows that children are not at a high or even moderate risk of dying from COVID. However, the risks of the vaccine are unclear and evidence shows that it could be detrimental to their health, especially to the health of young boys.

The unnecessary risk of mandating a vaccine for children is underlined by the many other treatments and prophylaxes that have been shown to be effective when combating COVID-19. There is evidence indicating that zinc (Wessels et al, 2020)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ncbi.nlm.nih.gov%2Fpmc%2Farticle%2FPMC6944441>> and a combination of quercetin and vitamin C (Colunga Biancatelli et al., 2020)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpubmed.ncbi.nlm.nih.gov%2F32614441>> may be used as prophylaxes and treatments for COVID-19. Derwand et al. (2020)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.sciencedirect.com%2Fscience%2Farticle%2Fpii%2FS0950268820320000>> showed a link between the use of zinc, azithromycin and low-dose HCQ and significantly fewer hospitalizations. Two real-time meta analyses on treatment studies for COVID-19 are currently being conducted. One examines the effects of vitamin D

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvdmeta.com%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C7355352c1c4e4d42dab908d9d1c323a8%7C11>> (includes 163 studies) while the other examines ivermectin

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fivmmeta.com%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C7355352c1c4e4d42dab908d9d1c323a8%7C11>> (includes 73 studies). The former showed a significant improvement of outcomes is associated with vitamin D sufficiency. The latter indicated that the use of ivermectin for early treatment and prophylaxis were linked to statistically significant improvements in recovery, mortality, ICU admission, viral clearance, ventilation, cases, and viral clearance.

This evidence shows that not only do parents have the right and responsibility to nurture and raise their children without interference from the state, based on the Constitution and case law, the vaccine does not immunize individuals who take or protect them from spreading it to others. Furthermore, mandating children to take the vaccine would force them to be participants in an experimental trial for which no one knows the possible consequences of such a gamble.

I appreciate your time.

To Whom It May Concern,

I am a resident of Olympia, WA.

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaxx to the WAC 246-105 schedule of required vaccines for children to attend schools.

I strongly suggest our lawmakers look at the scientific data regarding kids and Covid-19. The data does not support requiring kids to get vaccinated since very little of infected kids have severe symptoms.

Sincerely,  
Ann Marie Pearce

To Whom it May Concern:

I am writing in regard to several items of discussion:

WAC 246-100: I am completely opposed to any of the measures being proposed for isolation or quarantine for "communicable disease". The definitions are too broad and using any forced quarantine or isolation is in violation of all civil rights for Washington State citizens. Beyond education related to disease and prevention, the state has no business imposing any treatments, quarantine or protective measures on citizens. You can not write laws that are in direct conflict with our state and national constitutions. This is a gross overreach of authority and scope for the board of health and is unacceptable.

WAC 246-105 With regard to childhood immunization, COVID is an flu like illness with a greater than 99% survival rate. The state has no authority to mandate the COVID vaccine, for a flu like illness on children, or anyone for that matter. This should not be added to the required vaccines rules. Firstly, COVID 19 is not vaccine-preventable diseases. Children are at a particularly low risk level for severe outcomes related to COVID and they are not vectors for spread either. To add insult to such a ridiculous proposal, you are considering mandates for a drug that is not FDA approved. Long term studies have not been completed for efficacy or safety at any level. In fact, VAERS data indicates that this vaccine is very unsafe. This mandate would be putting significantly more children at risk for death and injury from the vaccine than would be at risk from infection by COVID-19 virus. There is no evidence to support the safety or efficacy for this vaccine. There is quite a lot of evidence for cardiovascular complications and death related to the vaccines. The state has no authority mandating any medical treatment of any kind. These are personal health decisions. The COVID shots are not sterilizing vaccines. They are leaky vaccines, that at this moment in time, have negative efficacy. It is unconscionable to consider requiring a treatment that has not passed phase 3 trials. The vaccines do not stop the spread of COVID and have no benefit to young healthy children. And for young less healthy children may be a great risk. It is illegal (Nuremburg Code) to require experimental medications on people. I oppose the proposal to add COVID 19 Vaccines to childhood vaccine schedules and requirements.

With regard to item 8 on your agenda I do not support any committee to push COVID vaccines for children, or any age citizen in the state of Washington. The schools have no business being involved with medical decisions. It is appropriate for the Board of Health to be involved in providing access to information so that people can make informed decisions. It has no right to persuade people toward treatment or prevention strategies. These are decisions to be made by individuals with or without the help of their healthcare provider. The health department appears to be engaging in a propaganda war and this is

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend school.

Subject: NO on Unconstitutional COVID Mandate Agenda

External Email

January 7, 2022

Washington State Board of Health;

I object to the plan to apply current infectious disease WAC 246-100-040 & additional WAC codes to include Covid-19 for Washington State residents. This virus is manageable if treatment is started early. Moreover, it is survivable by more than 90% of the population. These Covid EUA shots have little effect on the Omicron variant, and in fact, most people who get this variant have had the EUA shot, some have even received a booster.

Including Covid EUA shot as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the Covid EUA shot.

In America, health officers or government officials do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid EUA shot or any other medical treatment or intervention.

This is not about our health; it is an unconstitutional, criminal attempt by the government to control the population.

Those who are proposing and pushing this plan should be charged with treason.

Regards,

Carol Johnson

Subject: Jan 12 Agenda

External Email

To whom it may concern:

I am a mother of 5 and the wife of a firefighter. I teach for a home education program and I have battled autoimmune illness for most of my life, very severely in the last 7 years. All of these experiences give me significant interest in the agenda for the January 12, 2022 meeting.

I am in opposition to the following:

1) Any involuntary isolation/quarantine of people as described in parts of WAC 246.100;

There is NO evidence that those with natural immunity to Covid-19 or those who are unvaccinated are of greater threat to their communities. In fact, both those who are vaccinated and those who are unvaccinated can still transmit the virus, as evidenced in the very high number of vaccinated firefighters who are currently sick with Covid. Any type of mandatory quarantine would not only be unnecessary and illogical, but an egregious affront to citizens' civil liberties.

2) Any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

There are currently NO vaccines available for use in the United States that are not still under emergency use authorization. Covid-19 poses less than 1% risk of mortality to children and there are no long-term studies done on risks due to the vaccine. Please do not jeopardize our children's health and futures.

Sincerely,  
Cutzi Jobes

Dear Stuart Glasoe,

I oppose adding Covid-19 vaccine to the WAC 246-105 schedule of required vaccines for school children to attend school.

We are already to 3 boosters, will it be every week. Based not on survivor rates, but minimal death tolls. Has the flu completely disappeared?

Sincerely, Sharon Covington

External Email

Dear Washington State Board of Health Members,

It is with great concern that I write to you today. The legislation that the Washington State Board of Health is currently considering implementing for both the mandatory COVID vaccination for school children WAC 246-105 and the draconian methods of handling health emergencies in WAC 246-100 is a vast government overreach that breaches our constitutional rights.

All of the proposed WAC Health Codes violate our constitutional rights they also violate our state constitution. In our state constitution Article 1 section 1 it states "All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights." Your job is not to revoke an individuals right to choose what is best for them or for their family but to Maintain and Protect those individual rights. Article 1 Section 7 also states that "No person shall be disturbed in his private affairs, or his home invaded, without authority of law". The state has no right to interfere in private affairs or to enter or withhold and individual in their homes without authority of law. That without authority of law does not mean that one can simply write health codes that invade people's homes and private affairs. Article 1 Section 12 states "Absolute freedom of conscience in all matters of religious sentiment, belief and worship, shall be guaranteed to every individual, and no one shall be molested or disturbed in person or property on account of religion; but the liberty of conscience hereby secured shall not be so construed as to excuse acts of licentiousness or justify practices inconsistent with the peace and safety of the state. No public money or property shall be appropriated for or applied to any religious worship, exercise or instruction, or the support of any religious establishment: PROVIDED, HOWEVER, That this article shall not be so construed as to forbid the employment by the state of a chaplain for such of the state custodial, correctional, and

mental institutions, or by a county's or public hospital district's hospital, health care facility, or hospice, as in the discretion of the legislature may seem justified. No religious qualification shall be required for any public office or employment, nor shall any person be incompetent as a witness or juror, in consequence of his opinion on matters of religion, nor be questioned in any court of justice touching his religious belief to affect the weight of his testimony." By mandating COVID requirements you force people to violate their religious conscious which is against the law.

In addition to the constitutional violations there is no scientific reasoning for the health codes being proposed. In regards to the mandatory school vaccination children are at extremely low risk for COVID not only are their ample studies on this to date but the COVID data simply reflects this fact. The vaccines that are being administered to date are still under Emergency Use Authorization and are not approved. Male boys age 12-15 are more likely to receive myocarditis from receiving a shot that to have any serious side affects from contracting COVID. Statistically speaking kids are more likely to die from the FLU that COVID-19 yet the FLU vaccine was never a mandate (and rightfully so). There are also no long term studies to document ANY history of safety. With the known minimal COVID risk why would we risk what is unknown for adults to "feel" safe. Finally the most pertinent point is that even if you have received a COVID shot you can still catch and transmit the disease the same as an unvaccinated person so what exactly is the purpose of requiring it be mandatory? Anyone who wants to receive the COVID shot should be allowed to receive it and anyone not wishing to obtain it should likewise be allowed to have that choice.

These draconian mandates, edicts and health codes also do not recognize any natural immunity or the various amounts of therapeutics that are now available to treat this disease. This is now no longer a pandemic and COVID will not be wiped from the face of the earth rather this is something that we as a society must learn to live with. And as time passes similarly with other viral diseases of the past our natural immunity to this will grow and the therapeutics and treatment options will grow but all options on how to treat should be left to the individual not NOT government.

Please thoughtfully and prayerfully consider these things.

Sincerely,

Christie Arnold

Subject: Covid Vaccine

External Email

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a Covid-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

1. No COVID vaccine available in the United States has received FDA approval. PERIOD! All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da> ) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children appear to be statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. Please note, one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully lacking. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da> )

Force vaccinating healthy children (or anyone) for a disease that doesn't affect them to make adults feel safe is unconscionable. Please do the right thing and do not require these vaccinations for school age children.

Comments by

Debra Mullins

1512 Magnolia Way West

Seattle, WA 98199

Re.: PROPOSED POLICIES:

1. Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
2. Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Bottom Line: A long-time WA resident, I am adamantly opposed to official's forcing involuntary detention for responsible citizens who exercise their right to determine what they will/won't inject into their own bodies. You propose "involuntary" detention for "voluntary" noncompliance. Sadly, these two mutually-exclusive descriptors ("involuntary" and "voluntary") belie the subplot of what's being advanced. And I object to it.

As a retired educator, I am equally appalled at the thought of forcing experimental injections into the arms of children and youth. Too many questions are yet unanswered. A FDA advisor reminds us that there is no expectation that the lower dose in children will behave similarly to the higher adult dose. This, of course, begs the question: Do we really want to experiment on our children?

One of the most academically cited American epidemiologists alive today says he would pull a healthy child out of public school before he administered this vaccine. Harvard University professor of medicine, Martin Kulldorff, agrees with Dr. Harvey Risch. Data and scientific studies he's reviewed show that children are more likely to contract serious disease or die from the annual influenza, or the flu, than COVID-19.

Covid injections are experimental. Simple as that. Dr. Eric Rubin, who sits on the administration's vaccine advisory panel, said in part, "We're never going to learn about how safe this vaccine is unless we start giving it. That's just the way it goes. That's how we found out about rare complications of other vaccines, like the rotavirus vaccine."

Never mind that safety data are lacking! Rep. (and Doctor) Greg Murphy (NC) responded rightly in noting that Ruben's comment "is literally the most dangerous statement" he had ever heard in medicine." I agree.

Re.: Too many questions are yet unanswered.

*The CDC openly acknowledges that for 30 years since creation of the VAERS reporting system, reporting of adverse vaccine DEATH reports remained very low and constant. However, beginning in December 2020 with the first COVID19 vaccines hitting the open market, and escalating every day since, the adverse event DEATH reports have skyrocketed to levels never before seen in 30-years of vaccine adverse event reporting.*

Before mass-enforcing an experimental injection, especially on children, these questions (and countless more) must be answered (with peer-reviewed science):

1. The CDC admits there are no peer-reviewed studies, yet it's okay to take these injections deemed "safe and effective." But by what standard? There is no longitudinal history from which to draw.
2. Just what's in these injections? We know that the mRNA Moderna experimental injection contains SM-102 designated "for research use only, not for human or veterinary use" (See: Cayman Chemical Safety Data Sheet acc: OSHA HCS. Trade Name: SM-102.) What else is in these injections, and why pump them into humans (especially children)?

3. Salk researchers confirmed that the main damage from Covid is caused by the clot-generating spike protein, not the virus. It's unclear how long these potentially lethal proteins remain trapped in the lining of the blood vessels, or what damage they might eventually do, so why inject people with a substance that teaches their cells to make spike proteins?
4. Why the Covid surge (which, on a per-capita basis, was higher than the surge that devastated India) in 4 out of 5 of the *most vaccinated* countries (Forbes)?
5. Why did more people die in 2021 (January through August) despite the rollout of COVID shots in December 2020?
6. A local ABC News Station posted a request on Facebook for people to share their stories. In five days, over 200K people posted comments, all of which addressed vaccinated loved ones who died shortly after being injected, or who are permanently disabled. Shouldn't this at the very least be looked into?
7. Researchers noted: "Overall, our data provide strong evidence that SARS-CoV-2 infection in humans robustly establishes the two arms of humoral immune memory: long-lived BMPCs and memory B cells." This is perhaps the best available evidence of long-lasting immunity. Yet natural immunity is downplayed in the media narrative. Why?
8. To encourage pharmaceutical companies to manufacture ground-breaking new medicine, governments use no-fault indemnity against lawsuits. Where's the protection for individuals injured from the vaccine?
9. Cardiovascular, neurological and immunological adverse events are all being reported at rates never even remotely seen before. Shouldn't the magnitude of side effects compared to other vaccination programs concern us? This is especially true in that adverse events are broadly known to be seriously *under* reported!
10. One's right to informed consent mustn't be bypassed. But the mainstream media narrative is quite silent about adverse effects. According to the CDC, Myocarditis, a rare condition, is occurring at a higher than expected rate in vaccinated individuals. The Informed Consent Action Network (ICAN) reported that a study showed that the actual number of anaphylaxis is 50 to 120 times higher than claimed by the CDC. Researchers used data from the Vaccine Safety Datalink, run by the CDC, to find 21 potential cases, 11 of which were confirmed, of Guillain-Barré syndrome (GBS) in people who got the shot. Autoimmunity and the opposing condition, metabolic syndrome, are well known adverse events caused by vaccines. The Covid injection is also paired with Creutzfeldt-Jakob (prion) disease. Shouldn't the public be fully informed of these risks and, then, decide for themselves?

Re.: Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

In September, the Singapore government awarded a teen \$225K for having a heart attack following a Pfizer shot. Over in Taiwan, second doses of the Pfizer-BioNTech jab for children, aged 12 to 17, have been temporarily halted due to myocarditis concerns. Meanwhile, in America, the director of the CDC advocates approving the jab for children, aged 11 to 15 years old; and WA wants to include Covid-19 injections as part of school immunization requirements.

So why inject healthy children when their risk is statistically insignificant? Metrics among the unvaccinated rise across age groups, but data clearly illustrate that younger, healthy people are at little risk from the disease. Fact is, unvaccinated 18- to 29-year-olds saw deaths lower than most fully-vaccinated age groups.

Most Covid patients (70.6 percent) have one or more underlying health conditions. Nearly 36 percent infected are obese. 31 percent suffer from chronic lung disorders, and just over 14 percent suffer neurologic disorders. COVID-19-associated hospitalization rates in children were found to be overcounted when, in fact, 45 percent of the patients admitted to Lucile Packard Children's Hospital in California were *not* about Covid.

There is no logical reason for forcing risky, untested injections on healthy children. Consider instead the youth who *are* vaccinated. In June, the CDC reported higher-than-expected rates of myocarditis among *vaccinated* (not

*unvaccinated*) youth. There were 117 cases among males 12 to 15 (when no more than five were expected). Dr. Nicola Klein of the Kaiser Permanente Vaccine Study Center presented data regarding post-vaccination heart inflammation from the Vaccine Safety Datalink, a database from the CDC, and nine other healthcare groups, including five Kaiser Permanente facilities. Data also showed higher than expected cases among youth *following vaccination*.

Yet we are expected to ignore facts and summarily dismiss legitimate concerns, as these, as misinformation perpetrated by quacks. Even if such claims ring true, who gets to decide? The answer is best found in the cliché, "Follow the money." Throughout the pandemic, nine new billionaires have been hatched. Pfizer alone estimates to profit at least 33.5 billion dollars from the Covid injections; and many medical professionals receive financial incentives to promote injections. In the United Kingdom, for example, nurses get £10 per needle they put into a child.

Our charge is to protect children, not to use them for monetary gain. They are not guinea pigs, nor should they be treated as such.

To the State Board of Health,

I write to you as a concerned citizen regarding several policies that you are scheduled to consider on January 12.

Regarding Agenda Item 9, relating to the use of WAC 246-100 in regards to COVID prevention, I must firmly oppose the Board to adopt any such policies that would allow the Board to use police powers to enforce quarantines. COVID-19 is well on the way to becoming endemic (in fact several countries have already declared it to be so) and with that in mind, if the Board of Health is going to use police powers on COVID-19, indeed they would need to do so with other endemic viruses including the seasonal flu which is, like COVID-19, an upper respiratory disease.

Regarding Agenda Item 11, relating to the requirement of immunizing children with the COVID-19 vaccine in order to attend school, I must also firmly oppose any action the board would take. I would like to specifically remind the board that no FDA approved vaccine exists for children under 16. Pfizer, Johnson and Johnson and Moderna all only exist as EUA (emergency use authorization vaccines for children under the age of 16)

<https://www.fda.gov/vaccines-blood-biologics/comirnaty>

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fvaccines-blood-](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fvaccines-blood-biologics%2Fcomirnaty&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C4f0f6523cf6b423f675608d9d2106)

[biologics%2Fcomirnaty&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C4f0f6523cf6b423f675608d9d2106](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fvaccines-blood-biologics%2Fcomirnaty&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C4f0f6523cf6b423f675608d9d2106)  
. As such, vaccines authorized under EUA authority are subject to federal law:

"Title 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(I-III) of the Federal Food, Drug, and Cosmetic Act states: individuals to whom the product is administered are informed— (I) that the Secretary has authorized the emergency use of the product; (II) of the significant known and potential benefits and risks of such use, and of the extent to which such benefits and risks are unknown; and (III) of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks."

Therefore, these EUA COVID vaccines are forbidden from being mandated by federal law. They must include an opt-out. Even the CDC has said as much. On August 2020 at a meeting of the CDC's Advisory Committee on Immunization Practices, Dr. Amanda Cohn (the Committee's executive secretary), stated (beginning @1:14:37): "I just wanted to add that, just wanted to remind everybody, that under an Emergency Use Authorization, an EUA, vaccines are not allowed to be mandatory. So, early in this vaccination phase, individuals will have to be consented and they won't be able to be mandated."

([https://www.cdc.gov/vaccines/videos/low-res/acipaug2020/COVID-19Supply-NextSteps\\_3\\_LowRes.mp4](https://www.cdc.gov/vaccines/videos/low-res/acipaug2020/COVID-19Supply-NextSteps_3_LowRes.mp4)

I want to express my concern regarding the discussions surrounding the possible mandatory covid shots for children. I think it is extremely irresponsible to even be discussing such a mandate when the science doesn't come close to suggesting there is any advantage to doing so.

I will welcome any reply that might sway my opinion. Please include any data that would show that vaccinated children are less likely to contract or spread Covid than unvaccinated. Also any absolute assurance that there is NO risk whatsoever if children receive this shot.

I look forward to hearing from you.

Thank you, Craig Sorenson

Washington State Board of Health Members,

Regarding the Rulemaking Petition on January 12, 2022, for Chapter 246-105 WAC, Immunization Criteria, Child Care, and School Entry, I support the initiative to prohibit (for school attendance) any Emergency Use Authorized products or licensed products that lack completed Phase 3 trial studies.

Thank you for your time,

Subject: Subject: MY PUBLIC COMMENTS

External Email

Residents of Washington State, and all other states, must maintain the right to refuse medical examination, treatment, testing, counseling and vaccination. We must be allowed to have autonomy of our own bodies and those of our minor children.

No person should be forced to quarantine or involuntarily be taken to a facility for any length of time for any reason. It is not the governments job to be involved how a person lives their day to day lives, sick or well. Each person must be able to make their own decisions based on what is best for themselves and their families. Each person must be able to obtain medical advice from their trusted personal physician and make decisions based on his/her recommendation. Forcing people to do otherwise is violating the patient/medical professional relationship.

Public Health offices are a service and should remain a service providing education and medical services to those that seek them out. Public Health should not interfere with and individual's freedom and liberty.

I oppose WAC 246-100 rule expanding the authority to involuntarily quarantine individuals.

I OPPOSE adding C-19 vaccine to the WAC schedule of required vaccines for children.

External Email

Hello,

I am writing this email to demand the fascist policies WAC 246-105 and WAC 246-100 to be ceased from existence.

Whoever decided to create them, as well as to propose them to the public is cruel and evil in their nature just like the policies themselves.

History shows that whenever government officers were allowed to affect people's lives in such a manner these policies allow them, there were millions of people who were denied their basic human rights of choice and freedom. Because of the same in their nature policies, 6 million Jews were brutally killed, and millions more of different were traumatized and suffering. And if we are to give these policies even a chance for existence, we will be repeating the same mistake here in the United States, the country of the free.

We CANNOT and SHOULD NOT allow policies like that to exist. It is against human rights, rights given to us by God himself, the rights protected by the constitution. The constitution is designed to limit the government because absolute power corrupts absolutely, and our leaders are already corrupted. However, these proposed policies override the constitution and provide health officers absolute power, which makes these policies UNCONSTITUTIONAL.

It is clear that the pandemic, mainly created as a political tool to place power in the hand of just a few cruel people, has nothing to do with the proposed policies that cease human freedom. We all saw that somehow states like Florida, where people continued their normal lives, and somehow had even fewer cases of COVID compared to the Marxist states like California. It is not a question of protecting people's health because it is to be taken care of by each person individually by each individual, not by the government. That is, I am raising my voice AGAINST these UNCONSTITUTIONAL, UNHUMAN, IMMORAL, EVIL IN THEIR NATURE policies. I am raising my voice as my God-given constitutional right for the sake of the future of this generation, the generation of my future children and their children, and for the sake of this country.

I expect to hear a personal reply to this email, as it is my right and your obligation to read it thoroughly to take action upon the people you represent and whose constitutional rights you are to protect.

Best Regards,

Aleksandra Ankuda

Subject: Public Comment for Jan. 12th meeting regarding Chapter 246- 100 and 246-105 WAC

External Email

I wonder if you are surprised by the outpouring of emails and comments concerning your January 12th meeting. I can explain.

I have been a Washington State resident for almost thirty years, a business owner and a parent. I voted solidly Democratic until I started to see "behind the curtain" during Obama's presidency. When Covid came, the floor I had thought solid -- the foundations of our democracy, free speech, bodily autonomy, informed consent, even liberty -- began to disintegrate.

And now here we are: pharmaceutical companies, big tech and massive investment firms solidly control the discourse on all tv stations, newspapers, and radio. (1) World renown doctors and scientists who were immensely respected in 2019 have been branded pariahs and quacks. (2) "Science" has been corrupted into a tool of powerful interests who care nothing about public health: why else ignore the many safe and effective treatments for COVID in favor of a dangerous and ineffective (but very lucrative) vaccine? (3) Actually that is a dangerous question: why are the vaccines so critical to the agenda being promoted so uniformly around the world?

The answer lies in the digital currencies that are being quickly brought on line in country after country, and tied into the vaccine passports/health passes/green pass -- it has many names, but the application is the same: connect your health data with your money, use 5G and AI to monitor everyone's social interactions and every financial transaction, and get rich off all the new data flowing into the system and exile the non-compliant from society altogether. (4)

It sounds insane. It *is* insane. But if you investigate -- if you actually read and listen to the scientists, doctors, the vaccine-injured, the philosophers and parents and so many others who are being censored by the mainstream media -- you will see that fact after fact show that we are already well down this trajectory.

You can help stop it. Remove WAC 246-100-040, 246-100-045, 246-100-050, and 246-100-055 from the Washington Administrative Code. The fact that almost every state in the Union has "relocation camps" standing by, staffed and ready to receive the unvaccinated or otherwise "problematic," shows that these codes are far too dangerous to be on the books. You, on the Washington Board of Health, can remove the legal underpinning of what may well otherwise be used to create another Auschwitz. (5)

I fully support the petition currently before the Board proposed by Xavier Figueroa and Informed Choice WA to ban any EUA product or any product which has not yet completed Phase 3 clinical trials. Further, I also say: all vaccines must be both optional and given ONLY with full consent, which requires dissenting opinions be heard and considered.

As much as Washington State has been vaccinated, note that instead of getting more and more fully vaccinated citizens, we have reached the peak of the vaccination curve and will soon have fewer and fewer up-to-date residents. People are starting to realize that the vaccines are preventing neither transmission nor infection and fewer and fewer will choose boosters. Instead of clamping down ever harder, please read and watch some of the many articles and videos linked below.

Subject: Please Oppose covid 19 shots added to school age children

External Email

To Stuart Glasoe,

I, Val Harris, Oppose the use of law enforcement to be used to detain those who are unvaccinated for covid 19 shots.

Most of us already have natural immunity. Many of us have religious opposition to taking the vaccine.

I Do Not support adding the vaccine for school age children.

Please Oppose these injections for our children.

The children are not spreading and or dying from covid. They do not pose a threat.

According to FDA safety surveillance for covid-19 vaccine Adverse Events outcomes.

Here is a list of side effects from receiving covid-19 vaccine:

Death,

Guillain-Barre syndrome,

Acute disseminated encephalomyelitis,

Transverse Myelitis,

Encephalitis/ Myelitis / Encephalomyelitis / Meningoencephalitis/ Meningitis,  
Encepholopathy,

Convulsions / seizures

Stroke,

Narcolepsy and Cataplexy,

Anaphylaxis,

Acute myocardial infarction,

Myocarditis/ pericarditis,

Autoimmune disease,

Pregnancy and birth outcomes,

Other acute demyelinating diseases,

Non- anaphylactic allergic reactions,

Thrombocytopenia,

Disseminated intravascular coagulation,

Venous thromboembolism,

Arthritis and Arthralgia/ joints pain,

Kawasaki disease,

Multisystem inflammatory syndrome in children,

Vaccine enhanced disease.

Just by reading these side effects. How can you mandate this on the children???

These are experimental vaccines that have never been used on humans.

They are still going through trials.

We do not have enough long term studies on fertility and overall health. They are not safe or effective!!

It goes against the Nuremberg code.

On the vaccine inserts it says, intentionally left blank, how can you give us a consent if the trials and ingredients are not listed on the vaccine insert? You are blindly enforcing something on the children that you have no idea of the outcome.

It is against the law to mandate them. You will all be held accountable when children will

be having life-threatening injuries and side effects.

You will be held responsible and accountable!!!

Who will be paying for all the injuries and deaths??

These vaccines are not safe. Please, please Oppose these injections.

These are all for profit, it has nothing to do with health. Please do not play Russian Roulette with our children's health.

There has been a filing in the International Crimes Court the ICC by Dr Michael Yerdon and others for crimes against humanity by pushing this vaccine and with holding life saving treatments.

The vaccine is not the only way to combat this virus.

Kids recover so fast from this virus and some don't even have side effects.

Vaccinated still get it and spread it. These do not work, they will only harm the children.

Please Do the right thing and oppose these WACs from being added to laws.

Subject: No mandatory vaccine for our children!

External Email

This is not about vaccine or no vaccine. I am vaccinated. But I do not want to be told by the government or the school district what to do with my child. It is my right as a parent to be able to do what I want with my own children. If you make it mandatory I will pull my children out of your school system and put them in private school! I put a lot of money and time into your school system. I will not pay to be told what to do.

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

Thank you for listening, Brooke Schuldt

To whom it may concern,

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools or daycares.

If C-19 vaccines are required for children to attend schools or daycares then I'm afraid this is the last straw. My family will leave WA state and go to a state where freedom of conscience is protected by those who have been elected to positions of leadership. We do not want to leave WA, our family and friends, and our home but things have become out of control with these C-19 mandates. I could go on and on about my many concerns for vaccinating my children with an experimental drug but I'm sure you have many public comments that agree with me on this subject to get through. I refuse to submit my children to this experiment. I do not need any state government or federal agencies making healthcare decisions for my babies. I reject the premise that any state or federal healthcare authority knows better than me when it comes to making healthcare decisions for my children.

Regards,

Crystal Girardot

January 6, 2022

Washington State Secretary of Health Umair A. Shah  
Washington State Board of Health Members -  
Grellner, Pendergrass, Kutz, Crawford, Lentz, Crockrell, Bessermin, and Lutz

Dear Board Members:

I commend you in your efforts to improve the health and safety of all people in Washington State. Your leadership to protect the public's health during these last two years has resulted in several rulemaking decisions. Agenda items for next Wednesday's public meeting bode the same.

However, I feel dismayed by the sheer lack of longitudinal data supporting "emergency authorization" vaccination protocols. Furthermore, reluctance to make full disclosures of R&D documentation by the pharmaceutical corporations sounds an alarm for caution, even a HALT, to the current flow of mandates and restrictions across our state.

Therefore, I write to express my concerns prior to your deliberations on Wednesday, January 12.

1. I oppose any recommendation to include COVID-19 into the policies covered by WAC 246-100 (per agenda Item 9).
2. I oppose any recommendation to include COVID-19 vaccination as an immunization requirement for school children of any age into the policies covered by WAC 246-105 (per agenda Item 11).

Thank you for your time and understanding.

Sincerely,

Dennis A. Tyas

Washington State Board of Health

PO Box 47990

Olympia, WA 98507-7990

wsboh@sboh.wa.gov <mailto:wsboh@sboh.wa.gov>

Dear Washington State Board of Health Board Members:

I am writing in follow up with a question related to the first Technical Advisory Group (TAG) meeting held on December 29th, 2021 and considering Covid-19 for inclusion in WAC 246-105. During that meeting, as staff was briefing the participants using a PowerPoint presentation, they indicated that the group was at the point of the fourth box in the process. My question for Board of Health members is how is it that the TAG has progressed to step four when step one of the process has not yet been met. Step one states that the Advisory Committee on Immunization Practice recommends a fully FDA approved immunization against a specific antigen for the school aged population.

The only fully FDA approved Covid 19 vaccine at this time is the Pfizer-BioNTech vaccine, marketed as Comirnaty, for individuals 16 years of age and older. There are currently no fully FDA approved immunizations for the majority of school aged children. How is it that the Board of Health has ignored its own process to move this forward to

the point of convening a technical advisory group? How can the public trust a process established by the Board of Health that is not followed by the Board of Health? How can the citizens of Washington, in particular parents of school aged children, have confidence that the Board of Health and the TAG are fairly assessing and judging the information and criteria? I believe that in ignoring step one of this process and moving forward at a brisk pace, the Board has already "showed its hand" related to this critical decision.

There are many who believe as I do that it is far too early and there is not enough data and scientific evidence to ensure safety of the Covid 19 immunizations for children. A decision to require a Covid-19 immunization for school entry will be catastrophic and both inhumane and unethical. I implore you to not include the Covid-19 vaccine among those required for school attendance.

Sincerely,

Emily Anderson

Subject: Fw: Do not add Covid-19 to the current infectious disease WAC codes

External Email

I Do not support Covid-19 being added to the current infectious disease WAC codes. I do not want the vaccine forced on me or my family. I have had covid and so has my family. Everything in my body is saying don't do it. The following email is just another view against Covid Vaccines but I say, no matter what, I do not want it.....

Do not add Covid-19 to the current infectious disease WAC codes, as this is not a disease that causes death as our Government Regime would like for us to believe, with a 96% + survival rate, "False Information" & "NO complete TRANSPARENCY", being an "EXPERIMENTAL Vaccines" all of which comes from our Government, should not ever be taken to the lengths that it has.

This is my understanding to the pandemic; I would like you to consider this information and again DO NOT ADD Covid-19 to WA WAC Codes.

1. Federal government wants to run roughshod over state powers, contrary to what the Founding Fathers intended in the Ninth and 10th Amendments to the Bill of Rights, which reserved powers to the states.

2. Dr. Francis Boyle is an international law expert. He's also an expert on 'genetic bioweapons.' And he was a gentleman who framed the 'anti-terrorism act.' It's called the "Bioweapons Anti-Terrorism Act" or B.W.A.T.A. It was framed in 1989, signed into law in 1990 by President George W. Bush, with unanimous approval from the U.S. Senate and the U.S. Congress. And so, if there is a Genetic Bioweapons Anti-terrorism Act, it means obviously there must be a genetic bioweapons industry. And I want you to know, that on this earth: 22 nations on planet earth have what we call BSL4 Labs, BSL4 Labs means Bio Safety Level 4. Bio Safety Level 4 is the highest level of Bio Safety.

3. Dr. Derek Knauss, A clinical scientist Southern California laboratory immunologist-virologist says "he and colleagues from 7 universities, that of 1500 samples of people tested "positive" for Covid-19 could not find any (0) . All the people were simply found to have influenza A and to a lesser extent influenza B".

4. New Zealand has locked its entire citizenry down for one, yes one new case of COVID. This simply boggles the mind. A look across the United States shows a similar trend in states led by democrat leaders. The separation of powers, or the powers granted to the states under the constitution is the only thing stopping America from looking like the examples listed above. Leaders in the red states are essentially holding the line against national oppression in America, but they cannot do this alone.

I can predict with relative certainty that new variants or strains are about to emerge. New bloated case counts, not deaths of course, will pepper the headlines of news organizations, hysteria will once again rule the news cycles. Continued public crises are going to manifest and perpetuate fear throughout our communities. My hope is that you are done being scared; and anger and outrage finally sets in. Remember, you are exceptional. I can also say with absolute certainty that they will come for you one day, not matter who you are if you don't stand up now, vaccinated or not. Tyranny has no boundaries; and there are bigger plans for you, your children and your wealth. Globalism has found its way into American culture; and it is poisoning from within. Digital passports, digital currencies, elimination of privacy and private property ownership; and massive taxation are happening as we speak; and are modern day tools of enslavement. The time has come to resist lockdown measures (peacefully of course) and say no to tyranny. Collectively we are stronger than the world's largest armies. We will not give up any of our civil liberties granted to us under our Constitution. We will not comply with vaccine passports. We will not allow segregation and discrimination to take new root in America. We will not enforce any mask mandates, especially of our children. We will not frequent businesses that promote targeted oppression of our neighbors. We will not be bullied by state agencies or elected abusers.

5. Natural Immunity has never been approved or meds that has proven to work, Ivermectin and hydroxychloroquine

6. I believe are state will suffer if any more mandates or codes are enforced at this time and more than likely the citizens will boycott businesses that enact segregated practices on our fellow citizens. We will have a zero tolerance for civil liberty abuses on our citizenry. We will utilize the American court system of justice; and non-violent civil disobedience to combat despotism and tyranny, as Dr Martin Luther King Jr has taught us. Above all else, we will remain free people.

Thank you, for your time and concern and please remember to open your heart, soul and mind to all the issues that I have tried to convey.

Subject: Opposition for V Requirments for Children

External Email

I am writing to voice my strong opposition for requiring the COVID Vax for children as a requirement for school (or any other place for entry). Children are not at an extreme risk and it should be up to parents if they want to inject their child with an experimental vaccine. This should not be something anyone in government mandates!

I also am opposed to WAC 246-100-040, Procedures for isolation or quarantine. It should be up to the individual to self-quarantine if they are sick. This should in no way be forced upon people.

It's time to let our citizens start making choices for their own health and own family. The government has done what it can to mitigate the spread of this virus, the power now needs to go back to the individual to manage their own health. If you all want something positive to do to help us get healthy, why not actually create and promote a health campaign? Challenge citizens to get more exercise, eat healthier and take their vitamins. If everyone did this, our bodies would be healthier and less susceptible to sickness.

Thank you!

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

Children are at extremely low risk for Covid

- The vaccines are still only EUA (emergency use authorized)
- There are no long-term studies to document any history of safety
- Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,
- The vaccine apparently does not stop the spread of the disease.

Subject: Upcoming vote related to vaccine mandates

External Email

To All Washington State Officials who represent me,

I am writing you as a concerned citizen of Washington state. I understand you have a major decision coming before you to consider vaccine mandates for children as well as adults. I urge you to take into your thought process more than the current accepted binary conversation that the vaccine is the one and only way to proceed in health for our communities and states.

In years past, we as parents, families and supported by the medical community considered natural immunity strong and robust. We currently have doctors who are successfully helping to keep sick patients out of the hospital, and they need more physicians to help them. There is more to this story on a successful way through this, and your decision is an important part of it.

There are not enough long-term studies regarding the use of the Covid-19 vaccine and the option of natural immunity needs to be a part of this conversation if we are truly wanting to follow the science. The fact that the drug manufacturers have requested to wait to release their data for 75 years creates confusion and concerns on why they are not acting with transparency. Recently the CDC director and Dr. Anthony Fauci have admitted that the vaccine itself does not stop transmission or infection. This is the logical disconnect between facts and political agenda.

In addition, there are thousands of deaths and adverse reactions reported, though not published through mainstream media. I will provide you links to some of these sources if you want.

You will be looked on in history for the vote you are about to make. How will you choose to stand for the liberty and freedom our country is rooted in? Can you imagine what caused our state and government to place Germans and Japanese citizens in camps during the 2nd World War? It may have seemed like the best option at the time, however, it is viewed correctly today as a human rights abuse. It was a decision made out of fear. I urge you to make a decision based on courage, transparency, medical facts, which come from all places, including those that are being silenced in the main media. Please do not allow fear to be part of your decision. Fear of what others think or say, fear

of job loss, lack of promotion, fear of possible personal cost if you stand against the swell of the current tyrannical narrative. You have so many people cheering you on to stand for human rights including medical freedom of choice.

Sadly, the push for the mandate of vaccines and the proposed policies which could follow will place health officers in the possibility of managing a police state. We are not in an emergency situation that would justify the use of law enforcement to order persons involuntarily to isolation facilities or coerced medical intervention. If this continues Washington board of health is considering medical tyranny. Not only is all of this discussion in direct violation of the Washington State Constitution and the US Constitution, but the proposed policies are also in direct violation of the Nuremberg code article 6 section 3 that states: No government can mandate or force medical treatment without individual consent.

Please stand for medical freedom of choice for the citizens of Washington.

Subject: NO VACCINE MANDATE Public Comments for WSBOH Members from March EH Committee Special Meeting

External Email

Dear Kaitlyn Donahoe,

I am a parent of a third grader and a fifth grader in the Peninsula School District in Vaughn Washington. Last year we homeschooled with book curriculum to keep normalcy and structure as we did not know what to expect during the school year due to the pandemic. My children although flourished academically, we grew as a family and enjoyed our time together; it did not replace the childhood experience of going to school with peers and teachers.

My children are doing amazing being back at school socially, academically and developmentally. Children need children for healthy mental and social emotional development, it is crucial.

I am desperately asking you to please not mandate the EUA Covid-19 Vaccine product for children to attend school in Washington State. We believe in keeping the community healthy and support keeping others safe, but in our core as parents we cannot ignore many unknowns of the Covid-19 vaccine for children.

It is parents jobs to keep their kids safe, our number one priority and we do this with informed decisions. It is difficult to make a decision to give a young child a vaccine when the FDA will not release their report for the \product for 50 years. The risk of myocarditis is very concerning, it is permanant scarring of the heart muscle, possibly predisposing children to premature cardiovascular disease. The testing for this product was done on a very small group of less than 2,000 participants and even at the FDA stated that "we wouldn't know the true risk of serious side effects until it is rolled out onto a larger population". There are noted vaccine injuries such as the 12 year old female who has a feeding tube and cannot walk, numerous reports of young athletes collapsing due to heart issues that led to death. We do not know or test what biomarkers for future disease the vaccine may cause for our younger precious popluation. The benefit versus risk for this population is not proven.

This is the information us concerened parents have to process as we make the best decisions for our children. We have also been living the last 2 years in a pandemic, trying to keep life going normal, balance jobs, health and our family's well being. It is life changing and terrifying to think that we may have to choose to provide our children with an education that meets their mental health needs, social emotional and academic needs, or give them an inoculation that we feel may be unsafe. It literally breaks my heart privately, when I see their happy faces and know it may all be gone, due to a mandate.

Whether you agree with parents like me or not, we are out here. Our feelings are very strong and we will not comply with a Covid-19 Vaccine mandate for our children to attend school. Some will be ok, some may have lasting mental heath and academic consequences that could lead to other health crisis such as depression, substance abuse, suicide and future unemployment. WE MUST FACTOR THE RISK VERSUS BENEFIT.

Please hear my Prayer.

Sincreley,

Sharay A, Nickles, MA, LMHC

To whom it may concern:

I am writing you to urge you to stand up against the push for vaccine mandates (for children and adults) and to stand for medical freedom of choice. There are not enough long term studies regarding the use of the Covid-19 vaccine and the option of natural immunity needs to be a part of this conversation, if we are truly wanting to follow the science.

Even the CDC and Dr. Anthony Fauci have admitted that the vaccine itself does not stop transmission or infection. This is the logical disconnect between facts and political agenda.

Sadly, with the push for this and the proposed policies to allow health officers to use law enforcement to order persons involuntarily to isolation facilities or coerced medical intervention, Washington board of health is playing with medical tyranny. Not only is all of this discussion in direct violation of the Washington State Constitution and the US Constitution, the proposed policies are in direct violation of the Nuremberg code article 6 section 3 that states: No government can mandate or force medical treatment without individual consent.

Please stand for medical freedom of choice for the citizens of Washington.

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State and ANY forced vaccine requirements for any person. Additionally, forcing anyone to quarantine or isolate against their will is a direct violation of their basic human rights. Asking to use local law enforcement to conduct such vile, inhumane and illegal acts is preposterous at best.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense ([childrenshealthdefense.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>> ) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors ([americasfrontlinedoctors.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da>> )

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children. Who is going to pay for any death or disabilities that arise from these mandates? Are YOU?

Dear Kaitlyn Donahoe,

My name is Melina Kaul and my husband and I have three children in school in Washington state. I am extremely concerned about the Washington State Board of Health requiring my children receive the vaccine to attend school. Our family has had Covid and recovered and believe our natural immunity should be taken into consideration as is stated in your requirements for assigning vaccines for school age children. Also, we have personally witnessed a teammate of my high school son have myocarditis from the Covid-19 vaccine. This young man will always have this to deal with for the rest of his life. Please I ask that you allow each family to decide for themselves whether the Covid-19 vaccine is right for their situation.

Thank you,  
Melina Kaul

Hello,

I oppose WAC-246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-29 vaccine to the WAC-246-205 schedule of required vaccines for children to attend schools.

The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion. (Nuremberg Code Rule 1 from the Nazi Trials 1947).

Please let lessons learned from the Nuremberg Trials be part of your guide.

Zane E.

Subject: Please Vote NO on MANDATORY VACCINES FOR ANYONE, LEAST OF ALL CHILDREN!

External Email

Please do not require vaccination of children for admission to school and day care! Please do not take authority away from parents, especially since this vaccine is still only approved as Emergency Use and no one really knows the long term side effects. All one need do is look at the government's own website (VAERS) for vaccine related adverse effects to know that these vaccines are not without risks. Thousands have been injured and many have died, having taken the shot under duress.

This latest variant is proving to be mild in its symptoms and the "vaccine" is not proving to be effective or efficient in eradicating Covid so why should anyone take the risk of injecting themselves or least of all their children with an unproven solution.

Please listen to Dr. Robert Malone who is one of the founding scientists for the mRNA "vaccine!"

JRE #1757 - Dr. Robert Malone, MD (rumble.com)

Board Members,

Thank you for serving in our beautiful state of Washington. I am a father of 3 children, who lives in Vancouver WA along with many other families. We the people here, who elected you to represent us and our families do not support WAC 246-100-070 and 246-100-045. This is unconstitutional. You stand with woman to protect their bodies when they want to abort the baby, but now you force people who want to protect their body from vaccine. This is hypocrisy. Do not take away the freedom that our fathers fought for, the freedom given by God. Stop telling us how to live our lives. We elected you to represent us, please do so. We are wholeheartedly oppose WAC 246-100-070 and 246-100-045, please vote against it.

Respectfully yours,

Families of Vancouver, WA.

Hello Kaitlyn Donahue,  
My name is Carol Linden.  
I'm asking you to vote AGAINST vaccines for school age children.  
I'm sure you are aware of how Sweden handled the Covid-19 outbreak in 2020.  
School age children went to school, did NOT wear masks, played with their friends and did not die of Covid-19. ZERO children died of Covid-19 between the ages of 0-15!  
I know you are aware also that I represent thousands of Washington State residents that do not email you because no one seems to care what we think.  
I'm letting you know that I care about the children of our future that now cannot vote or voice their opinion.  
Some of their lives rest in YOUR vote!  
You think about that.  
Thank you for your time.  
Carol Linden

We, as constituents and community members of this great State of Washington, DEMAND the Washington State Board of Health (WSBOH) REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Subject: Please fight for our freedom

External Email

To Kaitlyn,

I am writing you to voice my opposition to any sort of mandated vaccines for school children. I have 3 children who will be attending school in WA in the next few years.

It is discriminatory for ethnic and religious groups, goes against science because clinical trials have not been completed or successful in showing the efficacy and safety of Covid 19 vaccines, and goes against freedom of choice. The shots are dangerous for many individuals as you can readily see in the VAERS reporting. Even if it only harms ONE person, where there is risk of harm, there must be choice. I have multiple family members and friends who have suffered effects ranging from heart races to severe life long tremors that there is no remedy as a direct result of the Covid 19 vaccine. It is outrageous that mandating vaccines for ANYONE but especially children is an option. One size does not fit all. This is not science. This is tyranny. Please fight for our children. Do what is right, not what you feel pressured to do.

All it takes for evil for triumph is for the good men to do nothing. Please be a good person. Do something. Fight for our freedom even if you personally support Covid 19 vaccines.

Please please take heed!  
Meghan Durazo

To: Donahoe, Kaitlyn N (SBOH)  
Cc:  
Subject: Concerned parent

External Email

Hello,

I am writing to express my sincere concerns about mandatory Covid-19 vaccines for school entry and childcare in WA. I have 2 young children, ages 6 and 4 who are currently all up to date on their vaccination schedules. My husband and I have spent hours discussing and evaluating potential risks and benefits of vaccinating our children against Covid-19 and have come to the conclusion that there are simply too many known and unknown risks to submitting our children to these experimental vaccines. It is well known that the risk of severe illness and death to children from Covid-19 is extremely low. What is more concerning to us as parents are the potential long term risks associated with a new vaccine technology. Given these facts, we believe it is in the best interest of our children's health to not vaccinate them against Covid-19.

May I also point out that the current Covid-19 vaccines available in the United States remain under emergency use authorization. These vaccines also do not stop transmission, only lessening the severity of symptoms. Mandating Covid-19 vaccines for our children, the majority of who have very mild or even asymptomatic cases, is simply unnecessary and will not "stop the spread" or protect others. If anything, it may convince parents to allow their vaccinated children to go to school while ill in a false assumption that they can't get covid, increasing the spread. Putting our most innocent at risk of suffering unknown long term side effects from a rushed vaccine for a disease that does not cause them harm is simply not rational.

I implore you to allow parents to make their own decisions for their children's health.

Thank you,

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>  
) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long-term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org  
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da>  
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Respectfully,

Kelvin and Claudia Hanson

Subject: PROPOSED POLICIES

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□ Daniel 2:22 □□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for and reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□ Proverbs 31:8 □□

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Emily Seaboch

Subject: Children's mandated vaccines

External Email

Our family is strongly opposed to mandating vaccines for children. There is not enough information about long term effects. We cannot put our children at risk with what is still an experimental vaccine. There is not enough information on adolescent boys and resulting cardiomyopathy.

Sincerely, Tom and Marva McDevitt

Subject: Jan 12 Meeting Agenda

External Email

To whom it may concern:

I am a mother of 5 and the wife of a firefighter. I teach for a home education program and I have battled autoimmune illness for most of my life, very severely in the last 7 years. All of these experiences give me significant interest in the agenda for the January 12, 2022 meeting.

I am in opposition to the following:

1) Any involuntary isolation/quarantine of people as described in parts of WAC 246.100;

There is NO evidence that those with natural immunity to Covid-19 or those who are unvaccinated are of greater threat to their communities. In fact, both those who are vaccinated and those who are unvaccinated can still transmit the virus, as evidenced in the very high number of vaccinated firefighters who are currently sick with Covid. Any type of mandatory quarantine would not only be unnecessary and illogical, but an egregious affront to citizens' civil liberties.

2) Any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

There are currently NO vaccines available for use in the United States that are not still under emergency use authorization. Covid-19 poses less than 1% risk of mortality to children and there are no long-term studies done on risks due to the vaccine. Please do not jeopardize our children's health and futures.

Sincerely,

Subject: Public Comment for the January 12 WA Board of Health meeting

External Email

January 6, 2021

RE: January 12, 2022 meeting

\* Opposition to Agenda Item #8, the Board's formation of a Technical Advisory Group

\* Support for Agenda Item #11 Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry

Ladies and Gentlemen,

I am sure others have provided you with sound research, properly conducted, to demonstrate why we should not be mandating vaccinations particularly in children. As such, there is no need for a Technical Advisory Group on this matter; thus Agenda item 8 pertaining to this should be voted down. To form such a group results in a very small number of people steering decisions for children and their extended families statewide. As of July 2021, the US Census Bureau indicates the state population over 7.7 million with 21% being under age 18. You are making decisions on behalf of 1,625,125 children plus several million other family members, for that which affects one person affects the whole family.

Now what type of information would these decisions be based upon? What has been the quality and accuracy of public information given to the WA state government and citizens received these two years? It has been a rollercoaster of bait-and-switch actions. The issuers of official guidance—FDA, CDC, NIH, etc. referred to collectively as “Federal officials”—told us the vaccines would prevent people from becoming ill with Covid-19. Once enough vaccinated people caught Covid, they switched to saying it doesn’t prevent infection but prevents death, and that people will suffer much less if vaccinated prior to being infected. Meanwhile, they deny Covid deaths amongst the vaccinated, spreading for many months the soundbite that the vaccinated have a 1 in a million chance of dying from Covid. This is a rare outlier figure that cannot be substantiated and defies common sense. More realistically:

“[...] the exact definition of rare disease, or orphan disease, varies from country to country. The National Institute of Health classifies a rare or orphan disease as one with fewer than 200,000 cases in the country. The European Union defines it as any disease that affects five or fewer people out of every 10,000. Whichever definition you use, the answer is the same: Thousands of rare diseases affect millions of people every day.”

The guidance from the Federal Officials later dropped to 1 in 250,000. However, you can still see by the NIH own definition that this is an outlier figure, one that would not pertain to a general population. And the Federal Officials in collaboration with the media do not accurately depict the increasing rates of Covid deaths amongst the vaccinated. Meanwhile, the CDC still promotes adverse effects like Guillain-Barré Syndrome as rare

when at the same time the American Neurological Association is following the significant occurrences of post-vaccine incidents . The lists could go on and on, as for two years we have had very specific messages intentionally aimed to conditioning the general public through collaboration with media outlets.

In spite of various legal actions nationwide against mandating vaccination, Washington state has chosen to expedite vaccinations, modeling for organizations statewide to terminate thousands of workers by accepting but not accommodating exemptions. While at the same time various officials speak of the 'unknowns', they advance controls with penalties to citizens at a rapid speed based on insufficient and even faulty science. For example, just this week, the National Comprehensive Cancer Network® updated their Pre-exposure Prophylaxis recommendations:

"research shows many immunocompromised people develop inadequate immune responses from vaccines. Thankfully, we now have additional tools to help people in active treatment for cancer, solid organ transplant recipients, engineered cellular therapy (e.g. CAR T-cell) or stem cell transplant recipients (a.k.a. hematopoietic stem cells), and those with other immunodeficiency-causing conditions (such as HIV, DiGeorge syndrome, or Wiskott-Aldrich syndrome)." [...] "The Food and Drug Administration (FDA) has issued an emergency use authorization for the monoclonal antibody combination of tixagevimab plus cilgavimab for pre-exposure protection from COVID-19 in adults and children starting at age 12 (weighing at least 40 kg) who have moderate to severe immune compromise and may not be responsive to vaccination. Patients with blood cancers (including those receiving stem cell transplantation or engineered cellular therapy) are more likely to have inadequate responses to COVID-19 vaccination" {...} "We have new agents to prevent and treat COVID-19 that will benefit patients with cancer"

Meanwhile, "the CDC Director Walensky herself stated, "What the vaccines can't do anymore is prevent transmission." [...] Dr. Anthony Fauci says, "We know now as a fact that [vaccinated people with Covid-19] are capable of transmitting the infection to someone else." [...] Moderna's Chief Medical Officer Dr. Tal Zaks agrees, "There's no hard evidence that it stops [the Covid-19 vaccinated] from...potentially infecting others who haven't been vaccinated." In contrast to the narrative espoused in collusion with media outlets, vaccinated persons do carry the same, and sometimes higher, viral load as the unvaccinated, thus the unvaccinated are not the super-spreaders.

Now we face Omicron which is 95% of Covid-19 cases; experts agree it is milder than previous Delta and will not result in as many hospitalizations nor deaths. Yet the public remains conditioned to believe the deaths occur amongst the unvaccinated, and WA state government continues driving policies and taking actions with this presumption as well. In addition to VAERS data (which has been demonized in the narrative) and reports from many countries, an example of our government's own data would be the HHS' Countermeasures Injury Compensation Program (CICP) Data of the 4751 Covid injury claims. The program only has 5200 claims of which 4751 claims pertain to Covid-19 treatments. The Epoch Times earlier reported that out of this 4751, 2297 are claims of adverse effects from vaccination with over 600 deaths in these claims. Forbes reported that the HHS states there were only 1357 vaccine claims and 53 of these were deaths. That is 39% of the claims. The article also demonstrates how the government is not paying compensation for Covid vaccines and the new limitations it has placed upon them.

Adult Americans have been the human experiments for these vaccines for too long. Officials in the FDA and CDC have made statements that go without recourse such as males under age 40 have greater chance of suffering debilitating damage from the vaccine than from the Covid virus itself. There have been many studies substantiating

that. Last month, a panel of advisers to the Centers for Disease Control and Prevention unanimously recommended people do not take the Johnson and Johnson vaccine due to adverse effects and deaths. Unfortunately, this came after 16 million Americans had already had J&J. Other countries had already banned the J&J vaccine and have banned mandates as well.

Now we suffer the move to experiment on our children despite that a systematic review of the research found:

“five times the number of deaths attributable to each inoculation vs those attributable to COVID-19 in the most vulnerable 65+ demographic. The risk of death from COVID-19 decreases drastically as age decreases, and the longer-term effects of the inoculations on lower age groups will increase their risk-benefit ratio, perhaps substantially”

Last October, FDA panelist and Editor in Chief of the New England Journal of Medicine Eric Rubin said “We're never gonna learn about how safe the vaccine is until we start giving it. That's just the way it goes.” Given that the tweet had 1.8 million views, I assume you are already aware of this. Since last spring, the death rate associated with Covid-19 in Whatcom county has run at or just under 1% for all ages. Meanwhile, the obituaries and testimonials of vaccine survivors increase as tens of thousands of people, with all good intentions to serve their country, are maimed and killed by the vaccines. And who could ignore athletes in their prime, particularly soccer players, collapsing on the field? With 183 deaths so far and hundreds more injured, young adults have suffered.

You can now see the need not only to vote down item 8 Technical Advisory Group but also to approve and move forward item 11 Rulemaking Petition that prohibits the addition of any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

While it is a dearth of information, I ask that you take time to seriously review in detail the resources provided by me and others prior to Monday's meeting. Thank you in advance for doing so.

Sincerely,

Debra Black

Thank you for serving in dealing with public health issues.

I disagree with adding COVID-19 and its variants to the list of vaccine-preventable diseases in WAC 246-105-030.

The history of the past two years has shown that the disease is not fully vaccine preventable. More information is needed.

In addition, children are not affected by the disease at the same level as (most or all) other population groups.

Subject: OPPOSITION to WAC 246-90, 246-100, and 246-105 proposed rulemaking

External Email

Members of the Board of Health,

Silent Majority Foundation (SMF), a non-profit organization that represents 10,000s of Washingtonians. We are writing to inform the Board of Health that SMF and our supporters oppose any expansion of WAC 246-100, we oppose adding COVID-19 to the WAC 246-105-030 list requiring all vaccination for children, and we oppose the proposed modification to Local Boards of Health, as proposed in WAC 246-90, although we recognize that the impetus of WAC 246-90 is Engrossed Second Substituted House Bill 1152 (2021). We will address each issue in turn.

Opposition to Expansion or Enforcement of WAC 246-100

We oppose the Board of Health, or any Board's strengthening or expansion of WAC 246-100, specifically WAC 246-100-040, Procedures for Isolation or Quarantine as such restraints violate the US and State of Washington Constitutions and violate personal liberties. That WAC 246-100-040 (and the corresponding RCW 43.20.080) has been on the books since 2003 does not render the rule constitutional, reasonable, or otherwise justifiable by law. SMF and our supporters oppose any attempt to enforce or expand such quarantine and isolation processes or other infringements of constitutional rights or civil liberties.

Opposition to Adding COVID-19 to WAC 246-105

We also oppose adding COVID-19 to WAC 246-105-030 for several reasons, but chiefly because COVID-19 vaccine effectiveness remains questionable, and there is clear risk with vaccinating children.

VAERS data indicates nearly 28,000 adverse events for children aged 0-17,  
(<https://medalerts.org/vaersdb/findfield.php?TABLE=ON&GROUP1=AGE&EVENTS=ON&VAX=COVID19>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffindfield.php?TABLE=ON&GROUP1=AGE&EVENTS=ON&VAX=COVID19>  
>

This includes 55 deaths in that age group

(<https://medalerts.org/vaersdb/findfield.php?TABLE=ON&GROUP1=AGE&EVENTS=ON&VAX=COVID19&DIE>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffindfield.php?TABLE=ON&GROUP1=AGE&EVENTS=ON&VAX=COVID19&DIE>  
>).

In context the United States has experienced 823 deaths within the 0-18 year old category US since the onset of the pandemic (<https://data.cdc.gov/NCHS/Provisional-COVID-19-Deaths-Focus-on-Ages-0-18-Yea/nr4s-juj3>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCHS%2FProvisi-juj3&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ca778f06a2f11482cc33508d9d2163939%7C11d0e217>> COVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-  
>).  
>).

There is no clear indication that the COVID-19 vaccine will do more good than harm for the children of Washington. Further, this proposed Rule raises the question that if minors are harmed from the COVID-19 vaccine, who will take responsibility? Is the Board of Health willing to commit to funding a liability/compensation fund for minors injured from the COVID-19 vaccine? We oppose adding COVID-19 to WAC 246-105-030 (or any other section of WAC 296-105) or requiring COVID-19 vaccine for children.

#### Opposition to WAC 246-90 Modifications to Local Health Boards

Finally, we recognize that the Board of Health may have limited authority with respect to your approach to WAC 246-90; nonetheless, we object to any modification (proposed or actual) to the existing structure of local Boards of Health that would infringe on local control or decision-making authority. Specifically, it is unclear on how that process will work and who benefits and/or who is served by the process. We object to any Rule that would remove the decision-making authority from local elected officials. These elected officials better know the needs of their communities than state officials. Further, we question the need for certain equitable representation where no such representation may be applicable to the county or region. Simply stated, we oppose any proposed rule that would remove local control for health matters, including the decision of how to structure a local health board.

We reiterate our opposition to: (1) strengthening or expanding WAC 246-100; (2) adding COVID-19 to WAC 246-105-030 or requiring COVID-19 vaccine for children; and (3) any modification to local Boards of Health that would take away local control or decision-making.

Sincerely,

Silent Majority Foundation

Subject: Covid-19 vaccine mandate for children

External Email

I am requesting this requirement to be stopped. This Covid-19 vaccine mandate clearly does not pass the 9 criteria required when Reviewing Antigens for Potential Inclusion in WAC 246-105-030.

The long term affects in children have not been studied and the side affects have shown to be a major concern. The virus hasn't shown to be exceptionally dangerous to children, therefore is unnecessary to children. Why are we not discussing natural immunity?

It had been proven that individuals that have been vaccinated still pass the virus. This is unnecessary and unethical.

Our school districts will see a large drop in number whether it be from relocating to a state without such mandates or to be schooled by parents.

We need to keep medical freedom in our state. We don't need to mandate a vaccine that isn't proven to help anyone but the individual themselves, and that hasn't proven to be as efficient as advertised either. If individuals choose to be vaccinated themselves, then so be it. If not, that also needs to be recognized. Why force a vaccine on someone who can easily get the vaccine themselves if they choose to.

Let's part of the solution, not the problem. Mandates aren't working. They are causing an unnecessary division in our state and community. Let's maintain a state our children's children can be proud of.

---Amber

harm for the children of Washington. Further, this proposed Rule raises the question that if minors are harmed from the COVID-19 vaccine, who will take responsibility? Are you willing to be personally liable for any injured minors? Are you willing to bet the hard-earned money of the constituents of Washington to fund liability/compensation funds? I oppose adding COVID-19 to WAC 246-105-030 (or any other section of WAC 296-105) or requiring COVID-19 vaccine for children.

I am a K-12 School Psychologist in WA public schools and I strongly oppose:

1. Any involuntary isolation/quarantine of people as described in parts of WAC 246.100;
2. Any mandate on COVID vaccines for children as a requirement to attend K-12 public schools.

Isolation and vaccines have not been proven as safe or effective. I have seen the impact on our children first hand in the schools. A healthy society does not take life from their children to extend the life of elderly. It is time to learn to live with the virus, and focus on early treatment.

Sincerely,  
Julie Apeles

Good Morning,

I have major concerns!!!

I have lived in Washington over 60 years.

Worked in School districts for over 30 years.

I am writing you about the agenda for the January 12, 2022 meeting.

I am in opposition to the following.

\* Any involuntary isolation/quarantine of the people as described in parts of WAC 246.100

\* Any mandate on COVID vaccines for children as a requirement to attend K-12 public or private school.

This reminds be of the Japan interment camps right here in the U.S.

Please have some common sense

Sincerely,

Karla Atwood

To The Board Members of the WA State Department of Health,

I am writing to you tonight out of complete desperation... I strongly and adamantly OPPOSE this proposed WAC 246-105! I am shocked and appalled that this state is seriously about to vote to impose a vaccine mandate on our children for the Covid 19 shot. A vaccine that has not withstood the test of time, that's been pushed on to people, taking away their choices. A vaccine that is shown to be more like a treatment than any sort of actual Prevention. No one can tell me what the effects may be on my child in 5 years or 10 Years. The lack of transparency has been extremely troubling and I don't trust, nor think it is absolutely necessary for myself or my child. The children are not at risk of death or serious illness from this virus. The deaths in US this 2 years of Covid is under 1,000 according to the CDC. Why are we doing this!?? It's not worth the risk to our children. I ask you to please not back parents into a corner. We love our children and deserve to have choices and the ability to advocate for them since they are unable to do so for themselves.

Thank you for your time.

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals.

I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools. The CDC's own statistics show that children are NOT at great risk of becoming seriously ill from C-19. It has also been shown that those who have received the shot can contract C-19 as well as spread it to others. Long-term studies have not been done to determine potential side effects of the C-19 shot. Requiring that children receive the C-19 shot is unnecessary and unconscionable.

Respectfully,

Terrie Wilder

Subject: Proposed policies

External Email

To whom it may concern,

I am writing as a concerned king county resident.

Please DO NOT add Covid-19 to the current infectious disease list applicable to WAC 246-100-045, WAC 246-100-940, WAC 246-100, WAC 246-105. I believe these proposed policies a vast over reach, violate our rights as American citizens and go against medical freedom.

I especially oppose adding the Covid-19 gene therapy (referred to as "vaccine") to the lists of requirements for children to enter public school, based on the following reasons:

1. The long term safety is unknown.  
2. What IS known is that the spike protein migrates to various places in the body, causing a variety of conditions, as seen in the increase in myocarditis & nervous system issues.

3. Children are not at high risk of dying from the disease.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.sciencedirect.com%2Fscience>

4. Immunity from these shots is waning, but immunity from natural infection is not.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F1>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Facademic.oup.com%2Fcid%2Fadvances%2Fdoi%2F10.1093%2Fcid%2Fciab884%2F6381561&data=04%7C01%7Cwsboh%40sboh.wa.g>

5. "Vaccinated" children can still spread the disease to others.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F1>

6. Pre-pubescent medications often have unexpected impacts on various body systems, and so need to be well studied prior to approval. This has had no long-term safety studies.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.sciencedirect.com%2Fscience>

7. The effect on reproduction is unknown. What IS known is that these shots often affect women's menstruation, and menstruation affects fertility.

8. There is another way. There are many other treatment options available.

The negative impact that this would have VASTLY outweighs the possible benefits. Please do what is right for the future of America. DO NOT add Covid-19 to this infectious disease list.

Thank you for your time.

Emily Blend

To Whom This Concerns,

I'm a born and raised Washingtonian, I'm highly concerned that the leadership of WA State has overstepped their boundaries on this Covid Vaccine mandate. To state that the unvaccinated need to be quarantined or to receive a jab that is still in the test stage is not the decision of WA State leaders, nor does FEMA have any rights to mandate/put the unvaccinated in camps. We The People have free choice and the US Constitution & WA State Amendment! You the leaders of WA State need to remember you WORK for We Thee People! We also want to see all of your vaccine papers as well!! What's good for all of you in Olympia is good for us!!!

Our tax money pays for the schools are kids go to! You don't have any rights to make it a mandate for kids to be vaccinated for Covid in order to go to school, it's the decision of the parents/guardians.

Some of our religion doesn't allow us to get vaccines, don't mess with our religious freedom! In case you all forget Inslee was sued by a church & Inslee stated that he can not force the mandate!! So stop being bullies.

Very Concerned Washingtonian,

Charlotte

Subject: OPPOSE AGENDA ITEM #8 AND WAC 246-100

External Email

To whom it may concern,

I OPPOSE Agenda Item #8, the Board's formation of a Technical Advisory Group (TAG) to review information about Covid-19 shots for consideration of mandating the shots for school. I OPPOSE Covid-19 shot mandates, PERIOD. The science does NOT support the notion that unvaccinated individuals spread the virus any more than vaccinated individuals. Children are statistically at ZERO risk of dying from Covid (their survival rate is in the range of 99.997 - 99.998%); where there is no risk, there can be no benefit. Furthermore, there are numerous studies now that support adverse affects of the vaccine on our children. Even the FDA has doubts about the safety of a vaccine for an individual under the age of 16. ([www.fda.gov/media/151710/download...the](http://www.fda.gov/media/151710/download...the) <https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.fda.gov%2Fmedia%2F151710> required studies on children will not even be completed until May 31, 2027!!!!!! And that is only one of the required pediatric assessments!) There has been enough time now to find out the truth about what is going on with Covid, and there is no excuse for draconian measures to be inflicted on our children just to be able to attend school.

I SUPPORT Agenda Item #11 Informed Choice Washington's Petition for Rulemaking. This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EAU) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list. As noted in the FDA link above, the required pediatric studies required are not yet completed. STOP USING OUR CHILDREN AS TEST SUBJECTS!!!

I also STRONGLY OPPOSE WAC-246-100 that will allow local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, and vaccination. This policy is tyrannical, an atrocious abuse of power, and unconstitutional.

Sincerely,

Amy Voges

Subject: Public Comment - 1/12 WSBOH meeting, Agenda item: Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry

External Email

Good morning, I am providing public comment on the subject agenda item. I feel strongly that our government should not be mandating a COVID shot to our children, especially a shot that currently remains under Emergency Use Authorization(EUA) (it is not an FDA-approved vaccine; see page 12 of Health Care Factsheet

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fmedia%2F15371>

). Parents have the responsibility, and authority, for managing their children's health. Our children have a strong and growing immune system. They have a very low COVID infection and impact rates. There are adverse reactions realized in children post Pfizer COVID shot that, in many cases, are more severe than COVID itself. The Pfizer COVID shot does not protect children from being infected by nor from transmitting COVID; therefore, giving the Pfizer COVID shot does not protect other family members.

External Email

To Whom It May Concern,

It's come to my attention that the upcoming meeting on January 12th includes considering requiring school-age children to have the c-vaccine to attend private and public schools.

Given the recent wildfire spread of the newest strain amongst vacs and unvac, it's very obvious that the vac isn't as effective as people would have hoped. Furthermore, anyone who has gotten it has immunity and is better equipped for the future than having the vacs.

PLEASE VOTE NO

There is no reason at this stage to require kids to have this. Please protect our rights as parents to look after the well-being of our children and make the decision that we feel is healthiest for them.

-Dawn Apuan

---

Covid 19 has been politicized and this proposal if passed would mean that more of our freedom and rights would be infringed. The current mask and vaccine mandates are unconstitutional and have caused much hardship and stress to citizens. This proposal if passed would be seriously harming lives of individuals and entire families. I strongly oppose this proposal.

On the CDC's vaccination adverse reporting system there are over 21,000 deaths reported and over 1,000,000 adverse reactions reported. These vaccines are NOT safe and people should not be forced to take them. Here is one website of many of people telling stories about vaccine injuries. <https://www.c19vaxreactions.com/real-video-stories.html> another one is <https://www.vaxtestimonies.org/en/> Please look at these real stories about how much damage was done to them.

Covid vaccine, despite applied to a significant portion of the population, is NOT 100% risk free. It is also NOT the only way to treat covid or attenuate covid symptoms. There's no evidence provided by FDA or CDC suggesting that covid vaccines block the transmission. Then what is the basis for a mandate? Are we saying we want to sacrifice some people for the great, but unknown unspecified, good? That's NAZI thinking!! It is why we have Nuremberg Code and now the government learns nothing from that! The policy based on this line of thinking should NOT be allowed. If this line of policy is adopted, it can be used to create the basis for forced abortion or forced birth as well. The freedom of any individual to decide what to do for oneself's body, SHALL NOT BE INFRINGED. I respectfully but strongly urge the board to oppose the vaccine mandate.

This is absurd. A gross and negligent overstepping of local government authority. This will be met with stiff resistance and I would not be surprised if it incited violence among certain demographics of the state population.

I strongly oppose any further measures by the state Department of Health in regards to handling the covid situation. They should be done on a personal level with medical physicians. I will not comply to any mandates put forth by the Department of Health at the state level.

I further call on the Department of Health to pressure the office of the governor to end the state of emergency that we are currently operating under. It is overstepping authority and taking power away from the people to govern themselves. We are in an endemic, the threat from covid 19 no longer warrants operation under emergency action.

Respectfully,  
Zach Maier

I am absolutely against mandating covid vaccines for young people. There is definitely not enough data on long term affects and there is plenty of data proving there are many risks with minimal benefits.

Please don't risk the health of our young people. If the vaccines work then those who get them are protected. Omicron deaths are very few. Normal year flu deaths are 45,000-80,000. Please be realistic and stop this madness. No mandates!

Thanks,  
Renee B DeLucia

Dear Tracy,

Thank you for serving in the position of board member for the state health board. I know it's not easy to make decisions for other people's health, especially in this day and age. I also know that there is not enough research to verify the efficacy of the "vaccinations". Even the CDC says that the vaccines cannot prevent Covid-19. Interestingly enough it seems the cases began to increase as more and more people began to obtain the vaccination.

Please do not encourage and enforce the mandate to vaccinate the population of the great state of Washington.

A registered voter in the county of Pierce,

Vawna Gary

Subject: No on Vaccine Mandate - Yes on Informed Choice

#### External Email

I am a 76-year-old grandfather of four grandchildren. It is inconceivable to me that the youth of our state be subjected to an unproven & non-FDA Approved chemical injection that is being marketed as a vaccine. This new technology has never been used before and yet it is deemed completely and totally safe for people of all ages as well those that are currently pregnant. Wholesale vaccination of the pregnant has never been a universally good idea even in FDA approved vaccines.

There are 2 main issues as I see it. One is the legality of the proposed mandate and the other is the safety of the chemical injection itself.

First the legal part. This so-called vaccine is not FDA approved except for experimental use and it is a violation of basic human rights to force it on anyone. Every person has the basic human right of refusal to deny forced harm to themselves. Was that not one of the lessons learned from the Nazis atrocities. There is no doubt that this chemical inoculation causes harm.

Secondly, No long-term studies have been done on this chemical injection and the side effects are being learned daily by the data collected on those that are injected. The people currently being vaccinated with it are the very people creating the data by which scientists are learning about the vaccine. They are known in the vernacular as guinea pigs.

The lesson of this disease and the vaccine used against it is that we are simply learning as we go and nobody knows for sure where we are going.

This lack of information is due to the dearth of prior testing & has resulted in lots of misinformation & flip flopping. How can we possibly in the name of proper health and common sense recommend it be given to a younger population that is essentially immune to it in the first place?

1. The confusion started immediately when we were initially told the vaccine would prevent people from getting Covid and the transmission of the disease to others. That didn't take long to be proven false. At first the vaccinated people who got sick were considered cases of a rare breakthrough. Of course now it is known that it is not rare but very common that vaccinated people can still get the disease. So the latest spin is that it will help the person have more mild symptoms when they do get sick. However, the bottom line is people can still die whether they have been vaccinated or not. This is because it is now known the antibody response to the vaccine is so short (dropping 40% per month) that people can become susceptible within weeks. Hence the call for more and more boosters.

2. We also now know the vaccination will not prevent transmission of the disease to others. In fact, vaccination reactions themselves mimic the disease itself causing great distress in many. I myself, and my wife who was vaccinated with the J&J vaccine, got full Covid from two Pfizer double vaccinated friends who themselves both also got severely sick with Covid.

3. Due to the lack of testing it is now known that the spike protein produced by the chemical injection is biologically active & toxic itself and does not restrict itself to the injection site but travels through the entire body. It specifically has an affinity for heart tissue and ovarian tissue & is found in many others. This biologically active protein has been demonstrated to cause myocarditis & even death especially in young boys. Myocarditis of any type suffered by a person results in permanent damage of some type and the heart is never again as good as it once was. In fact, the chance of a young person having a serious reaction to the vaccine is higher than getting a significant reaction to the disease itself. There have been zero reported deaths in healthy young people due to Covid. The few deaths were restricted to those with significant concurrent comorbidity issues. This virus is not a significant threat to healthy young people. Let the unhealthy & immunocompromised have the option to be vaccinated.

4. The affinity for the spike proteins to invade ovarian tissue brings up the question of possible fertility issues or birth defects. Again, there is no data on this as no testing has been done. It is unconscionable to allow this unproven chemical injection to be given to those that are pregnant.

5. The vaccine has not been available long enough to have any understanding on the breadth of potential side effects. It is possible we only know of the tip of the iceberg. To assume the vaccine is harmless is not even common sense when one considers no medication has ever been produced that did not have side effects & lead to complications of some type. Simply watch the advertisements for drugs on television and notice all of the precautions listed.

6. This mass vaccination experiment has resulted in mass mutations. This was predicted by epidemiologists and people who produce vaccines from the very beginning but was ignored. This happens in all cases but especially in the case of the Covid vaccine which produced immunity to only one part of the virus is spike protein. This increased its chances for a mutation dramatically. This warning and proposed remedy was spelled out completely by epidemiologists from Oxford, Stanford and Harvard. They were joined by epidemiologists from around the world who signed onto their recommendations in a document called the Great Barrington Declaration. Their recommendation was to vaccinate the seniors, who comprised 80% of those at material risk, isolate any with symptoms & let others live their lives.

7. The original vaccine does not produce immunity to the newer mutations. What sense does it make to keep giving the same vaccine to use against new mutations? Delta has taken over from Alpha one and now Omicron is raising havoc. Neither is prevented by current vaccination & with each booster received there is the potential for more & possibly more side effects.

7. Can one shred of evidence be produced that shows a highly vaccinated population actually has a reduced amount of Covid cases? An entire navy vessel of 100% vaccinated seamen had an outbreak of Covid. How in the world can you recommend wholesale vaccinating with an unproven vaccine with such a poor track record?

8. Why are countries like Sweden or states like Texas and Florida that have minimal to no restrictions on their citizens having no worse and often less complications with the disease than those states with severe mandates and lockdowns like New York?

9. Is it not becoming more and more evident that you are behind the curve in proposing this health directive as it becomes more and more obvious that the stated restrictions to the freedom of choice of Washington state citizens has no value over and above having no restrictions at all?

I can go on but by now certainly logic and common sense would dictate that the

draconian, expensive and time consuming measures being recommended are nonsensical and violate the basic human rights and HIPAA Certification protection of the citizens of this state. This is not even beginning to address the inefficiencies they would cause in conducting the ordinary activities of both business and pleasure that make our state vibrant.

Subject: No detention order

External Email

I'm appalled to even have to be writing this letter. How on Earth are we not learning from the past? Each of the three orders I reviewed have dangerously close likeness to that of Nazi Germany. It is never ok for there to be unchecked power in detaining individuals about a virus. A virus with a 99.99% survivability rate. But we know this isn't about the virus, it's about power.

Unchecked power is downfall to any government. Please rethink how this could play out long term, this isn't a win, this is a lose-lose on all sides. We the people do NOT agree with this! Further, there shouldn't be any vaccine mandate for kids! For one, there isn't enough evidence it is safe, actually the opposite is happening. Especially with over 1 Million VARS reports now, we can't support a drug with so many issues. Second, the kids don't need it! Why is this being pushed so much? Fear? Control? Power? Think about the long term goal, this is not the way.

Concerned parent and WA citizen,

Good Afternoon,

I would like to make sure my voice is heard before your meeting on the 12th. Please DO NOT put the police force in a position like this. DO NOT entertain the idea of camps or forced Vax for the kids to be educated. This is absolutely ridiculous and a complete government overreach. This is not the basis on which our freedoms were established and this is so far outside of our constitutional rights it's hard to believe this is even America anymore. It's beginning to feel like Germany 2.0. I will do everything in my power to fight anything of the sorts in the state of Washington. I am asking you to please remember what our Country was founded on and fight for we the people.

Thank you for your time,

Rose Knowles

Subject: Proposal of mandatory covid vaccine

External Email

Hello,

I'm writing to let you know that I, like so many others, strongly oppose the proposal of mandatory covid vaccines in Washington state for students. The reasons to me are many, and the most obvious ones are:

- kids and young adults are at an extremely low risk of dying from covid. The risk of dying and becoming crippled from the vaccines is a lot higher.
- All of the covid vaccines that are used only have EUA (Emergency Use Authorization); none are FDA-approved. We simply cannot make un-approved products mandatory.

Thank you for reading and reflecting,

Tove Koch

I'm very opposed to kids getting the vaccine. I don't think kids should have to have the covid shot to learn. And some kids have health issues and are not able to get the shot because of those health issues. And I don't know if we know enough about the long-term effects of getting it are younger kids and what that could do to their natural immunity system. So I do not want kids to have to get the vaccine very opposed to it. Thank you for listening.

---

No EAU product can nor should be added to a mandated list. This forgoes informed consent and is against the Nuremberg Code. This is especially relevant if a product hasn't even completed it's phase III trials for proper licensure.

To whom it may concern,

Medical decisions are best left between families and their physicians. This state has been in the top of all the other states as far as mandates and lockdowns and we're still here dealing with it. As a soldier, I trained in NBC (Nuclear, Biological & Chemical) warfare. A cloth mask does not stop this. The vaccine does not stop you from getting it or transmitting it. It may help with the symptoms. That is something that can be left to the decision making of individuals with the advice of their Doctor.

Police are already at half staff and in potentially troubling positions without this added issue being thrust upon them.

Please leave the WAC alone.

Respectfully,

Terry Carter

Deputy Mayor  
City of Bonney Lake

Hello,

I truly believe that this mandate proposal is not justified. This is a epidemic at most from a virus that originated in a lab in China. Thank God what got released was not that deadly. I think natural immunity, therapeutics, and if your really old and fragile that a vaccine will work for a human. I don't think people will get behind a mandate for kids. It's like mandating religion or forced abortions. It's just not good policy!!!

Sincerely,

Ryan J Jacobs

I strongly oppose these mandates. This is unconstitutional and absolutely wrong. There has been no consistency with this man made virus. Bribing and forcing a person against their will is sick!

This is about government control and not for "we the people".

It's our God Given right to protect and manage our bodies by personal choice, not the government!

And where or how does this vaccine fall in alignment with law enforcement or even other blood borne pathogens. It doesn't!

This is the most twisted non-effective proposal yet!

The rise of mental health, crime, and drugs is the fault of our government, not due to Covid..

Subject: January 12th

External Email

Hello my name is Thomas Tuttle and I am a veteran of over 15 years and a current federal employee. I was forced to get the vaccination or lose my house and I am not ok with it. If you look past all of the main stream (so called )media there is minimal testing and so much information that is proving the vaccine is not ready to be used and especially on kids. To have our government SHUT DOWN ideas and speech on treating covid it is trying to force this experimental toxin on everyone. If you are ok with what they are doing in Australia and other communist countries there is going to be a problem. I urge you to please say NO to forced vaccinations and NO to forcing people into camps. This is crazy and getting out of hand. I WILL NOT let anyone take me or my family if they have not committed a crime and will not stand for taking out freedoms and liberties away.

I am begging you. Please do not go down this path. I am scared for the country I love, fought and gave so much of my life for.

Thank you for your time.

Thomas Tuttle

The vaccines are only EUA, emergency use authorization, not FDA approved for permanent use

There are no long-term studies to document ANY history of safety

Studies DO now document that vaccinated and unvaccinated can both get and transmit Covid, therefore

The vaccine DOES NOT STOP the spread of the disease

To whom it may concern:

Thank you for having this forum. I am writing in support of Petition #11 which requests that BOH establish a new rule that prohibits requiring that anyone take an EUA product or licensed product that has not yet completed phase 3 clinical trials. I oppose BOH formation of a Technical Advisory Group to review information about Covid-19 shot mandates because each person needs to weigh their medical their medical condition with their medical provider and make an informed, personal decision. This is especially true since the infection fatality rate for Covid-19 is low. For ages 0-7 it is 0.00002 (99.998% survival rate) which is statistically a zero percent death rate. Beyond that, when you consider that most that most hospitalizations for the young are with Covid-19 and not for Covid-19, we can know that they are not in mortal danger from Covid-19. Neither is there a great risk of the young spreading Covid-19 to staff and teachers. The young have a greater risk of the Covid-19 vaccine adverse reactions than of serious Covid-19 illness. We must protect our young before we consider self-protection.

Sincerely,

Charyl Baziak

Good Day,

I would like to emphasize that I am your neighbors. I bear you no ill will and presume you are all decent, well-intentioned people.

Every policy that you have enacted or enabled under the guise of COVID-19 that denies people - living men, women, boy and girls - equal access to public accommodations unless they submit to long-term wearing of masks, invasive diagnostic testing, or injections of gene-modification therapies is unlawful.

First, people are divine creations and are only bound by divine law, not by man's law. The first sentence of the first law of this country, the Declaration of Independence, states this clearly: "Men [and women] are endowed by their Creator with unalienable rights." These are absolute and unconditional. What is given by our Creator cannot be taken away by you. The supreme court has upheld this countless times. Your coercive policies violate our unalienable rights under the pretense of law.

Second, all three of these policies involve medical procedures. In 1947 civilized society declared in Article 1 of the Nuremberg Code that this type of coercion is everywhere and always a crime against humanity.

Policies relating to COVID19 and Pierce County Resolution No. R2021-224 are violations of the 1st, 4th, 5th, and 9th Articles of the Bill of Rights and are by definition Rape, Bodily Invasion, Abduction, Abuse, Molestation and Maltreatment at the very least.

This is a betrayal of your allegiance to the Constitution for the united States of America, and thus to us, it's beneficiaries. Your polices, therefore, are a breach of fiduciary duty and treason.

You have not been granted permission to pass such mandates as proposed.

If you do not comply with the direction, you have just been given, I will hold each and every one of you accountable for these deprivations of rights, crimes against humanity, and treason.

Please understand that I have every remedy available to me.

Your individual liability is unlimited.

You have now been offered lawful Notice of due process

Adding Covid to the list of diseases under 246- 100 WAC and their handling. It can include forceful quarantining and forced vaccination.

11.

Are you Pro or Con on the proposal?

2.           Con

---

Covid can be dangerous, but luckily we can treat early on with a variety of cheap and safe medications (Human Ivermectin use: about 4 billion times in the last 30 yrs). Then we will have no overflow in ICUs. We have successful protocols available(eg <https://covid19criticalcare.com/covid-19-protocols/i-mask-plus-protocol/>) and do not need a vaccine mandate to fight Covid. The 'vaccine' doesn't prevent one from contracting or spreading the disease. Early treatment is key to recovery from Covid per many experts. Doctors are afraid of prescribing and being reported. Please make these effective drugs and protocols widely available. This way the great majority can be back to good health quickly and without involvement of state enforcement. Thank you

To whom it may concern,

Medical decisions are best left between families and their physicians. This state has been in the top of all the other states as far as mandates and lockdowns and we're still here dealing with it. As a soldier, I trained in NBC (Nuclear, Biological & Chemical) warfare. A cloth mask does not stop this. The vaccine does not stop you from getting it or transmitting it. It may help with the symptoms. That is something that can be left to the decision making of individuals with the advice of their Doctor.

Police are already at half staff and in potentially troubling positions without this added issue being thrust upon them.

Respectfully,

Terry Carter

To whom it may concern,  
I feel strongly against the CoVid 19 vaccine and will remove my students from public education in the state of WA if it is mandated for them. There is no real proof it is helping with anything. Just 1 shot to stop the spread, just kidding you need a second shot.. Oops that still isn't working let's do a booster... and I am sure it will go on and on. I am not anti vax, I am anti Covid Vax.  
This is a choice that should be up to the parents, NOT the state.

Signed,  
Sarah Sevigney

I believe that it should be up to parents to decide whether or not to vaccinate their kids, not dictated by criteria set by a board. I believe it is an infringement on rights of individuals to dictate who should get a vaccine. Retain rights of individuals. Allow them to choose. Vaccines shouldn't be mandatory.

Let me make this concise.

- 1) We humans are not rats and until complete rat or other animal studies are done there should be no one "mandated" to take such medicines.
- 2) I fully support Informed Choice Washington's Petition for Rulemaking whis item 11 on the January 12th agenda filed by Xavier Figueroa PhD on behalf of ICWA.
- 3) A note for the board. What you are proposing violates certain Federal Laws and is punishable by up to 99 years in prison.

Thank you,

Richard Ranum

To whom it may concern you are all a bunch of psychopathic narcissists. Do not put into effect "detention" or "enforced isolation" on January 12th. This is a gross imbalance of power and I'm stunned that this is even up for discussion. This new Covid variant is very transmissible, so transmissible that procedures like this will do nothing but cause upheaval. This would not slow or stop the spread at all. The good news about this highly transmissible variant of this virus is while it effects literally everyone, it is so mild that we don't need any totalitarian government leaders locking us up for the sniffles. This is insane. You are insane and before you all rule to lock up the slightly sickly masses maybe you should take some anxiety medication and sit the frick down.

Thanks.

I will use the VAERS data as an example. It will not be complete, but it is a slice of what we need to consider.

11.

Are you Pro or Con on the proposal?

2. Con

---

The idea of a one size fits all as a medical design, is preposterous. The examples of the our politicians deciding what is best for we the people, is outrageous. Since when has anyone placed our trust in anyone that tells us what to do with our health? This is a first! Never has anyone forced this on the public. We have no idea what this will do to our health. It's experimental, and the long term is unknown. Thalidomide was a good thing in the 1950's, and we learned from that. I think we are all more aware of what is safe for the human body. And from this knowledge we can decide what we are willing to partake in. We should have no pressure, no reason to be terminated from our jobs, and absolutely have freedom of choice. Are we really going to be like Australia? Like I said in the beginning of my position, it's outrageous, and we should have freedom of choice. Let's not make WA a mandate state.

Hello,

Please, do not put American citizens into interment camps for a virus with a 98% recovery rate. What you are not taking into consideration is that some people have gotten the Covid virus, and now have natural immunity. Until you face the fact that people may have natural immunity, then you have no business trying to falsely imprison people.

Sincerely,

Mary Johnson

I am officially submitting this email in opposition to the Board of Health's totalitarian measures to put people in Covid isolation centers, possibly when they have Omicron, which is hardly more than a cold. This smacks of a political power play, rather than a true effort to help people recover and go on to lead a normal life. If the goal was to help people recover, you would be urging them to take the remedies that have proven effective in reducing the length of the illness like the following:

Use of treatments like Ivermectin and Hydroxychloroquine and monoclonal antibodies. All of them have been deemed by this state to not be effective and "crank cures". At the same time, statistics don't lie. More people are being killed in hospitals with Remdesivir and respirators than ever were with these proven remedies that work around the world, and in states without an obvious political agenda.

Pushing vaccines that have also killed and maimed people is hardly helping them, and causing great harm to so many who are no longer with us, including people I know.

So, being someone who has lost relatives to the Holocaust, I see your efforts at controlling the population and herding them into Covid camps, like the one in Auburn we just learned about, is nothing less than what Hitler did back in the days of the Nazis.

And if these are the guidelines you will be enacting, the public has a right to know. I not only am registering my opposition, but would like a return email acknowledging same. Would be helpful to know that you aren't really going to be enacting the following from your own pages:

I am a concerned US citizen as you are trying to take the rights away from your citizens in your state. I heard you are going to lock people up for not being vaccinated against what is looking more and more like a scam. It is legally and morally wrong to do this. If you really want to pass that insane law, you will have a mass exodus of residents. The CDC is finally going to do the right thing and separate the 'with' deaths and the 'from' deaths which basically means the numbers have been fraudently reported. The vax kills and harms people with no long term testing. Do you guys know what Nuremberg is? Who is liable for a vax death or injury. Don't lie to your people that the vax works as it clearly doesn't. It is for depopulation and really murder. Also the tests are inaccurate. I have done my homework on the lies. I talked to people online and they are ready to move out if that stupid BS passes. You aren't American if you is force an unsafe drug on people that doesn't work and is more harmful than the CV-19 farce is. the FDA was going to have 75 years to release their data on the deadly vax, now they have 8 months. If it weren't from Trump millions of people would have died due to shutdowns for 5 to 10 years(suicides, starvation, etc.). The people are done with the scam. I care about human life is why I am reaching out.

This proposal is disgusting and tyrannical. It goes against all definitions of medical ethics. It is in direct violation of the Nuremberg Code, which explicitly prohibits forcing experimental medical interventions against the unwilling. There are NO COVID vaccines approved in the US that are not still classified as experimental. The proposal is unconstitutional, and blatantly evil. One would expect such a despicable authoritarian proposal that violates individual autonomy in Nazi Germany, but to see something so totally sinister being considered in the US is utterly reprehensible.

I understand that there is a bill In Olympia to allow health officials to use law enforcement, per 'emergency order' to involuntarily detain a person or group to be put in a 'quarantine facility' if they refuse to do anything 'health officials' want them to do.

This sounds like a tremendous power grab by 'health officials' , to determine what citizens must do, and to put tax payer/citizens in some facility, against the wishes of these tax payer/citizens.

I am strongly opposed to this.

I would like to comment on the WA Covid Detainment Emergency meeting scheduled for January 12th.

As a citizen of Washington state for nearly 68 years, I disagree with any type of forced detainment, forced vaccination, or being singled out because I am making a personal, informed decision about my health. I have read data, I have read reports, I have watched videos and I have made a decision for myself about my health. That is my right as a citizen of Washington state and as a citizen of the United States. To believe that the state has the right to require me to vaccinate, or require me to be detained because of my choice is a radical violation of my rights.

Please hear me loud and clear that I am against the ideas and protocols being discussed at this meeting.

I refer to the WA Board of "health" and their proposal to apply current WAC infectious disease codes to include Covid to all WA residents.

On behalf of myself and extended family, I do not consent to this, or to anyone who represents my health or the health of my fellow citizens, applying such codes or orders onto the residents of WA. These codes while perhaps seemingly for the greater good, when applied or related to what we have witnessed in the last 30 months, where every human right has been destroyed in the name of "greater good" to the utter detriment of all that is truly about health and wellbeing and our most fundamental human rights, are alarming. How can we ever trust a department to consider individual human rights when recent history shows there is no respect for the wellbeing and rights of the residents of this state or this country - we have lost it all. We have lost all trust in your system. These proposed orders will destroy even more the rights of people to bodily integrity and health choices. Please do not support this move. It is a terrifying one in the face of all the freedoms we have already lost, and the crimes already being perpetuated against the people of Australia.

Thank you

A deeply concerned citizen

Wendy S.

To whom it concern,  
I am troubled by the news that you will be deciding on law enforcement to be used like the gestopo to place people in concentration camps.. sorry..quarantine camps. What abject abuse of power and a morally disgusting thought. Especially since most of this State has been vaccinated, and many have already had covid and have robust antibodies. Omicron has been proven to be less deadly which would provide better antibodies than any of the current vaccines. It has already been said by the CDC that the current vaccines do Not protect against omicron, at all, period. If you vote in favor of this, you are morally corrupt and enept. There would be lawsuits, civil lawsuits against this type of power grab. There is no place in our country for concentration camps of any kind! The American people will hold you accountable for crimes against humanity. The Nurnberg code of 1945 prevents these types of things. It is monstrous that you would even be considering this at all Especially so secretly without the general publics knowledge. Our officers aren't to be used for your gestopo tactics. If you decide to do this, then we all will see you in court.

AGAINST: WAC 246-100-040

The above proposed law is a major overreach in power given to non accountable health officials.

Under this provision the Health Official under their own determination may force people or groups of people into quarantine. This forces those people to file paperwork to the superior court if they object. There is no penalty against the state. This is a major violation of our rights. This is unconstitutional.

If the state does go forward, there should be direct compensation to any and all individuals who are put into quarantine to the tune of \$5,000 per day. With this type of compensation the state health official would only act upon this provision with serious consideration of the impact the order would have on the individuals.

Washington State Board of Health  
All Members

I am strongly opposed to the policy that will "allow law enforcement to forcibly enforce an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility following refusal to voluntarily comply with medical examination, testing.....

Every American has the right to choose what medical procedures he or she will or will not take.

Mandates from state executives and their subcommittees should not be allowed. This should be debated in the Legislature, not by health boards. Medical decisions are PRIVATE according to HIPPA LAWS. This is a dangerous road to take.

The vaccines are not effective in stopping the virus. I personally know many who are vaccinated and have gotten the virus.

This policy is dangerous, unAmerican and makes no sense in terms of public health. I have had many friends leave Washington because of the liberal policies that are being enforced. Four families within one block of me have left. We shall be leaving as well if this passes.

I am begging you to Not pass this policy.

Sincerely,  
Veronica Spaterna  
Kitsap County Resident, WA

I am not against vaccinations. What I feel uncomfortable with is forcing people to be vaccinated with a vaccine that is brand new and has not been around long enough to know the long-term effects. I believe we should all have a choice and how we treat our bodies. I also do not believe we should detain people against their will.

All people should be treated as humans regardless of their condition. We do not detain people who have the flu, and yet it kills hundreds of thousands of people every year. We do not detain people with aids, even though (Regardless of how) it can be spread and kill people.

The proposal to force people to get vaccinated is unconstitutional. To force people into "camps" if they are unvaccinated and have COVID is unconstitutional. I personally will file suit against the governor and the state of Washington if this is passed. You will also literally divide the state. It will be King and Pierce Counties vs the rest of the state. I am vehemently against this and I'm not the only one.

Yes, this article ultimately pushes the Covid vaccine but can you read between the lines?

Hospitals are full. Certainly they have Covid pneumonia patients but that's not the story here. There is a significant increase in non Covid hospitalizations and we are told it is because of delayed care due to lockdowns. What if it's due to Covid vaccine injuries? The total number of hospitalizations in Indiana are the highest they've seen in 5 years. Some hospitals at 120% capacity. Way higher than last year when we had the virus and no vaccine. What if the vaccine is causing this rise in hospitalizations? I cannot prove it but also you cannot prove that this is an incorrect assumption. Only time and investigation will reveal the truth.

Meanwhile you are deciding whether or not to strip Americans of basic rights. Why? People are not dying in the streets. The Covid vaccine appears to not stop infection nor transmission, why insist-through law enforcement- that people comply with failed vaccine? If a person wants the vaccine then they can get one. If a person does not get the vaccine it's ok too. Perhaps the vaccine minimizes Covid infection so that's up to the individual. The Covid vaccine will never itself achieve herd immunity. It can't. It does not stop the virus.

The Covid vaccine has a huge risk ratio. Just look at the VAERS data knowing only a fraction of events are reported. You must take a step back. This tyrannical action is wrong and you should not play a part in it. No. Vote no on all of it.

LIBERTY FOR WASHINGTONIANS.

I do not believe that local health officers should be given the authority to use law enforcement to involuntarily detain an individual or families to be isolated in a quarantine facility if they have tested positive for Covid or have known exposure to someone who has tested positive for Covid. I strongly oppose these measures and think they are a gross overreach of the government for a highly survivable virus that will likely be endemic within our society.

This has got to stop. Washington State has no authority to control the citizens like this. We have a constitution right to refuse your vaccine. This is a cold and flu virus.

You are taking away freedom. Do not move forward with this agenda. If it takes moving out of this state we will. You are opening a door you do not want to go through. The Citizen are not going to sit and go quietly on this. This is an overreach of power that has gone on way to long.

RE Agenda Items 6 and 9 for Communicable & Other Diseases: WAC 246-100

The imposition of this section of the state code is beyond extreme, given that it has taken over two years for the State to reach 805,459 confirmed cases (today's Covid Dashboard), slightly more than 10% of the state's 2021 population of 7,796,941. Of that 800,000+ there have been 9,974 deaths or 1.1%. While every death is tragic for a family, that is a very small number. What other illness does the state track cumulatively rather than annually? I can't find any record of that.

What is the reason for possibly implementing a quarantine? According to the State Covid Dashboard, only 21% of the state's hospital beds are being used for covid patients. According to the news, a far bigger problem for hospital load is that many people can't be discharged because they have no place to go. If the State has space available for a quarantine holding site, it would seem a better use of the space would be as an outpatient respite so that less seriously-ill patients could be discharged and quit taking up critical space.

Where would any detained people be placed? What would stop this from becoming a major "spreading" facility or event? Or a petri dish for further mutation of the virus, to possibly a more deadly form than the current prevalent Omicron?

Another concern is the likelihood of imposition of quarantine would be prejudicial against minorities, as they statistically have a lower vaccination rate.

What happens to the economy if "x" number of important professions get locked down?

What reliable source determines possible infection? Every test available to date reportedly has a large number of both false positive and negative results. How will this be addressed? What recourse do people have who are quarantined erroneously?

I see nothing that takes into account co-morbidities in applying quarantine, some of which are more dangerous such as alcoholism that results in many innocent victims each year. How about quarantining drug users so that they can't get to their suppliers?

The panic associated with this virus is the true concern.

To Whom It May Concern in Dept Of Health Washington State,  
In regards to something as being brought before the table to put into place.

I feel that the procedures for isolation of Quarantine or Isolation is very open ended and could put alot of potentials for health care officers just going in and evaluating places that they may be doing there do diligence.

How would you monitor this? How would you regulated this? I feel this is wrong and people are monitored enough with Health Dept calling them everyday if the are quarantined. Will this only be with for those who are not compliant with isolation or would it open up to others? Also, extending it for 30 days? This seems like Martial Law to a certain extent.

Personally, I feel this is wrong. I think you should leave this up to an individual and not to have a health officer go over and detain people or a group..... I feel by putting this into practice this could become open ended and infringing upon our rights as citizens.

Thankyou.  
Virginia E. Marshall-Frye,MED,BS

You must stop what you're doing!!! Please, for our freedom! I came to this country to be free and now you're allowing police to enter homes of unvaccinated??? What are you thinking?

THIS MUST STOP!! NOW!!

We are DEVASTATED and many of us are going to sue WA state if any of this moves forward. We have constitutional rights!

You want to let neighbors who don't like the other neighbor report that someone is being unsafe with Covid and allow police to come to our doors and take us to camps?

This is NAZI GERMANY!!!

PLEASE STOP! The people of WA state are not going to allow this to continue. We have had ENOUGH of the communistic NAZI regime!!!!

We will NOT ALLOW THIS to go any further!

We are going to stand up for our rights! We will join together like you've never seen to protect our rights.

THIS IS UNACCEPTABLE:

You're going to try and pass a bill to allow police to INVOLUNTARILY detain people who are not vaccinated?!!

WHAT ARE YOU THINKING???

STOP THIS NONSENSE NOW!!!!

Tyranny!!! Against the constitution! I will spend my life fighting this along with THOUSANDS of others

We will sue WA government for Tyranny and going against our constitutional rights!!

How DARE you blame the unvaccinated for the problem when the vaccinated are passing the virus to each other!

The fact that you are even THINKING of doing such a thing to American citizens shows how corrupt and delusional the WA government has become!

TYRANTS!!! STOP THIS OR WE WILL FILE A FEDERAL AND LOCAL LAWSUIT! No more of this nonsense!

We are sickened that this is even a conversation!

We are DEVASTATED

We are HORRIFIED

We are DISAPPOINTED

We are NOT GOING TO ALLOW THIS!

To Washington state board of health

Regarding proposed involuntary detention of people in a quarantine facility:

According to Kary Mullis, the inventor of the PCR test, the PCR test is not able to diagnose any disease. According to the CDC, the covid-19 virus has never been isolated. There is a computer generated model of a covid-19 virus. Therefore, you cannot prove that covid-19 is a contagious disease, nor are you able to reliably diagnose anyone with covid-19. The proposition is therefore nonsensical.

Involuntary detention of any person is illegal. This constitutes kidnapping and assault. It is a violation of the United States Constitution and the Washington State constitution.

Yours sincerely

A Washington State Citizen

To whom it may concern,

I am leaving my thoughts on this and wholeheartedly disagree with all of the proposed changes. I don't think it's fair to force kids to get this "vaccine" that we know nothing about! I also do not agree with forcing people into quarantine camps my whole family had covid while yes it was not easy we overcame it like most other people. Yes I do understand that's not always the outcome and sympathize with those families. People understand the risk whether they choose to either get it or not. I have many family members who have got it and also who have not and I love them all the same.

Sincerely  
Vanessa Tinkham & Family

The following survey response is submitted:

1.

State Board of Health Meeting Date:

---

01/07/22

2.

Agenda Item or Issue:

---

Totalitarianism attempt by D.O.H and Jay Inslee

3.

Your Name:

---

Chris Hall

4.

Do you have a professional title?

1. Yes

---

Professional patriot that actually abides by the U.S. constitution

5.

Are you representing an organization?

1. Yes

---

America

6.

Address:

7.

Email:

8.

Phone Number (Include Area Code):

9.

Do you have any special expertise relevant to this topic?

1. Yes

---

I can read, which is all anyone needs to be able to do to see the statistics do not support any of the over reach that has been done. This is not a pandemic, this is an attempt for totalitarian rule.WE WILL NOT COMPLY

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

D.O.H. quarantine for any illness

11.

Are you Pro or Con on the proposal?

2.           Con

---

. 001% of people that get COVID die and that alone eliminates this as an actual pandemic. This is a pathetic over reach. Jay Inslee and all democrats must be removed from office. Washington state is dying economically like the rest of the west coast due to woke pro pervert pro drug addiction policy. Keep chaos so politicians can keep making fake resolutions that hamstring everyone else. Covid isn't killing people, the government is by telling hospitals to put people on ventilation and not using proven anti viral meds that have existed for decades. Washington states government needs to be investigated for corruption and n the people of Washington state need to take back Washington state. No more power hungry corrupt politicians like Jay Inslee

External Email

Dear Washington State Board of Health,

Our state government should NOT enforce emergency orders to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, or vaccination.

This is an over reach by our local government. Medical decisions should be made between a person and their local medical provider!

Sincerely,

Dr Richard Ward

I am a concerned Washington resident commenting about WAC 246-100-040. I'm extremely disappointed that you thought it permissible to have WAC pertaining to detaining and quarantining residents because they are "health threats". There is such vague language regarding who is a health threat and gives way too much power to these health officers. Also, deputizing police to do your dirty work? As if the police aren't already inundated with fighting actual crime. This is so dangerous and I hope you have a wave of critical pushback. I for one will not go quietly should I be detained. And I know many, many Washington residents agree with me. Shame on you for the hubris of thinking you have this right.

Involuntarily detaining a person for their personal medical choice is a violation of civil rights. The last use of internment camps was also used under the guise of public safety. In actuality they were due to hysteria, prejudice, and discrimination. Let's not use the media and politically fueled fear and hysteria as a reason to take away the civil rights of Washingtonians.

I believe I stand with an overwhelming majority when I say that what you're proposing is not just illegal and unconstitutional (Washington or US Constitution) but is absolutely appalling and tyrannical. With a Covid survival rate of 99.9% and easily treatable with cheap and effective medicines you cannot justify these measures. Furthermore, the truth is coming out fast and you will have to answer for your actions. If you were truly interested in stopping this virus you would make these medicines available to everybody and they could take them prophylactically and the pandemic would be over. It appears though, that instead you would prefer to stomp on our rights, liberties and freedoms.

Everyone has their personal beliefs and should not be forced to do something that they do not believe in. We live in a world where we are supposed to be able to follow our beliefs and make our own choices not have those choices be made for us and forced to do something we don't want. This should be something people should want to do on their own will not be detained for simply following their beliefs and values. We're supposed to have freedom of speech, expression, beliefs and values. Those shouldn't be stripped from us.

Forcing people to take a needle or chemical in their body without consent is no different than rape. Would you detain a woman for refusing non-consensual sex? Then it's not okay to detain somebody for refusing a non-consensual medical treatment. YES IT IS EXACTLY THE SAME THING. IF YOU EVEN STARTED TO SAY IT WASN'T, YOU NEED TO ASK YOURSELF WHAT MATTERS MORE: a person's right to refuse being penetrated, or the government's right to imprison/enslave a person for refusing that penetration. Every sane adult knows that there is never, ever a valid justification for taking away somebody's consent.

I have chosen to write to you. I had a friend in Spokane, as a kid, with the name Tracy. I am hoping to find a reasonable person. The proposal for quarantine camps is unbelievable. This is not a communist country and we are not at war. As Americans, liberty is very important; it is the cry of the first revolution. There are many people who feel it is wrong to change our God-given immune systems. This is wrong on so many levels. Good luck on stopping this insanity.

Subject: Public Meeting - January 12 Draft Agenda for State Board of Health Public Meeting

External Email

Dear Washington State Board of Health,

I am submitting this regarding the upcoming meeting of your board. Our state government should absolutely NOT enforce emergency orders to involuntarily detain a person or group of persons to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, or vaccination.

This is a gross overreach by our state and local government and is completely unacceptable. Medical decisions should be made between an individual and their medical provider, not our state or local government officials.

Sincerely,

Taylor K. Baze

Subject: Comments on proposed COVID policies

External Email

To whom it may concern,

I am completely against any of the proposed Covid-19 policies that are over-reaching and immoral. To use law enforcement to detain and isolate individuals and families involuntarily and without their permission and consent under the pretense of an infection that has a 99.98% survival rate for the vast majority of human beings violates basic human rights. In a State where the law enforcement is so defunded and demoralized because of past approved policies, these proposed policies will demoralize them further and deteriorate the relationship between law enforcement and the community.

Businesses and employers already have measures in place to require isolation if tested positive for covid. As a personal business, that is legally their choice and right to implement such policies. The government should have NO such power in enforcing such over-reaching policies on the public.

Subject: Covid

External Email

Dear Board of Health Members,

Thank you for your service to the citizens of WA.

I am writing to ask you to NOT implement ANY policies that utilize tyrannical actions (involuntary quarantines, testing, treatment, counseling, and vaccinations) in what will be a failed attempt to "contain" Covid19. This virus will never be contained, it is a part of our ecosystem now. The only real defenses against it are REDUCING CO-MORBIDITIES and allowing ROBUST THERAPEUTIC TREATMENT DEVELOPMENT. Have you as a board, recommended spending any public service resources on telling people to live a healthy lifestyle as the best defense??? If people are healthy, IT IS CLEAR THEY ARE AT A MASSIVELY REDUCED RISK OF LONG TERM EFFECTS FROM THIS DISEASE.

We also know that the vaccines are ONLY GOOD FOR SHORT TERM PERSONAL PROTECTION from significant symptoms, but do not stop transmission or infection. My taking a vaccine DOES NOT save anybody else from Covid19, so forcing vaccines on people becomes nothing more than a form of medical authoritarianism, not health care. If WA's health care systems are stressed due to COVID patients, it is ONLY because hundreds of qualified health care professionals were unnecessarily terminated from their jobs (many with natural immunity), and due to that there are not enough people to provide care.

Please DO NOT implement any actions that will only hurt/divide/anger your fellow citizens and DO NOTHING to reduce the spread of this disease. HAVE COURAGE AND PLEASE TAKE A STAND AGAINST TYRANNY.

I'm voicing my opinion on how far our government is making terrible decisions!  
It's a gross over reach of government control especially when the data and facts prove this is not an epidemic.  
It is wrong to even consider camps for those that have not been vaccinated and to remove them from their homes.  
When the truth of the matter is - Everybody gets Covid and carries it. Vaccinated and non-vaccinated.  
I am vehemently opposed to any consideration of this matter.

I believe each person has the right to make their own healthcare choices without pressures from the government or providers. The proposed updates to the COVID-19 approach in dealing with unvaccinated and infectious individuals is stripping people their rights and freedoms. Choices of quarantine and restrictions should be made on the organizational and personal level and not forced upon anyone. Furthermore, there should be room for those who have natural immunity and more enfases on heard immunity altogether.

Before attempting to require and force disease containment and quarantine for COVID-19 on law abiding citizens who have made a conscientious choice to do what they believe is right for their own bodies, I implore the board and all leadership in Washington to first attempt to require and force containment on non law abiding citizens who are actively stealing from both businesses and individuals, who are so obviously forcing women into prostitution along Aurora, and who are stalking innocent women and being let off due to charges of "insanity". My wife was stalked by someone last year and was the third victim of his stalking and is still at large making the lives of one of his other victims a living hell. My family has had a presence in the Seattle area for well over a hundred years. It is an amazingly beautiful and wonderful place. Year by year it continues to decrease in quality due to the inaction of the leadership in this state. William Wilberforce in the early 1800's lived in a time rampant with crime, and it was because the leaders only focused on the big crimes. Wilberforce believed that every crime no matter how small should be persecuted lest the individuals get a liking for the small crimes and set their sights to larger crimes. That mentality single handedly cleaned up crime back then, and it more recently did wonderful things in New York under Rudy Giuliani. All of that to say, I understand that we have a physical disease on our hands as a city, country, nation, world, etc. But the real issue we need to stand up against is the degradation of manners meaning how we treat one another. With this proposal it will only cause more division to the already segregated country. As someone who is unvaccinated I already feel segregated from my friends who can go where they want and do what they want without a care while I am looked down on as the scum of the earth for making a personal decision. Those same friends who are vaccinated are getting just as sick as I got when I had COVID last year, and are spreading it just as much as an unvaccinated person. This whole pandemic has lacked logic, and has been incredibly divisive. Please do not perpetuate that division. When I look to the future by looking at the past of nazi Germany I see this bill opening up the floodgates of concentration camps of those who disagree with the popular opinion at the time. I am not denying the existence or threat of this disease, but the way this bill is going about "fixing" the issue will do exponentially more harm than good. What side of history do you want to be on?

Subject: WAC 246-100-040 Procedures for isolation or quarantine.

External Email

Dear BOH,

WAC 246-100-040 should be completely rejected. This abuse of power can never be allowed in America or Washington State! It can never be the sole discretion of a single individual to make such tyrannical decisions. When people are sick or might have been exposed to a virus go ahead and give them notice if you know for sure, so they can make appropriate decisions with their own doctor and self-isolate at home if truly sick. It is an individual decision on how to handle illness with the doctor of their choice. With the internet people can order groceries and supplies for home delivery when sick. People heal better at home, not at government concentration camps! How ridiculous to even think of hauling "the sick" off to concentration sick camps, which would be as reckless and careless as Governor Cuomo sending covid patients to nursing homes, only to harm our senior citizens! People in America go to their doctor's office or hospital, not concentration camps! I would like to know who wrote this hostile law because it sounds like they borrowed ideas from the communists, I am serious, who wrote this? It is individual responsibility in America not government abuse of power. Our elected and appointed officials are public servants not dictators. Power is decentralized so no one has "sole discretion!" In the last two years what the government called "reasonable" has been abuse of power. "Professional judgment" has been partisan politics. "Risks to health" fear mongering. "Invoking emergency powers" have needlessly ruined the economy and skyrocketed suicide. "Stop the spread in 2 weeks turned into 2+ years! So 10 days in isolation can be turned into 30 days how many times? All this will never cure a thing, and it is not meant to, it is a power grab. Enough of this fear mongering manipulation! If the government really wanted to improve public health the focus would be on diet and exercise to strengthen people's own immune system, which is far superior than the fake shots being produced today! Why the silence about diet and exercise? This crazy unconstitutional law is just another abuse of power that must be stopped! I am sounding the alarm against this evil law! Don't do it!

Sincerely, William Keith Mathison, Battle Ground WA 360-903-5951

To whom it concerns,

I am completely against these unethical and unconstitutional proposed COVID policies that will strip away the freedom that our country has worked so hard to keep. Not only do people need to work to survive in this capitalist society, but they need faith that the police force and government will protect their rights as US citizens. This will not be the case if the proposed COVID policies go into action. It will further police brutality and will bring our people to another civil war.

This is a reminder that vaccines are also not a "one size fits all" medicine. There will always be people allergic to it, and they should not be penalized for that. That would count ableist and discriminatory.

So far, none of these extreme measures taken to stop COVID have worked. It is very clear that people are not powerful enough to stop an entire virus that also lives in animals. The best we can do is to make personal, informed decisions on our health and strive to create a loving, supportive community.

Once again I will reiterate. I am against ALL of the proposed Washington state COVID policies.

Sincerely,

Rebekah Pusateri

Subject: Public Comment Internment Camps

*attachments\0A4EF983C8354C34\_image001.png*

External Email

WA State Medical Board:

As the CDC records disclose the amount of covid cases have increased yet the number of deaths have diminished. This is a typical historical trend with viruses where mutations become less deadly but more communicable, thus creating what many term herd immunity, which in fact is more effective in fighting this virus than the vaccines distributed by the government. (The recent example of the Florida Cruise ship with 90% of the positive tested passengers having been fully vaccinated is a vivid example).

It is curious that your board is now considering instituting mandated internment camps of those non vaccinated citizens who may be better prepared to deal with the virus than vaccinated citizens. I argue your idea is well beyond its pull date if this solution ever had any shelf life.

Therefore, I urge you to drop this notion of forcing citizens to live at internment away from society, thus impacting their families, livelihoods and the overall physical, economic and mental well being of this state.

Dear Washington State Board of Health,

I'm very disappointed in our state and those who are official's in how far removed we are from our Constitution and the values we once had for truth and freedom.

We the American people stand for Freedom and these mandates: whether it's masks, experimental vaccines, or detainment/quarantine camps: based on so called "science", "health", and "safety" are not in alignment with freedom.

Thank you for hearing our voice,

Uriah Kallstrom

To whom it may concern,  
I strongly oppose the proposal that would allow law enforcement to detain me or any citizen involuntarily for quarantine purposes. This is going too far. Yes, this virus has caused death and suffering, yet it also has a 98% survival rate. I also understand the stress it has put on our health care system, but forcing people against their will into isolation is not the answer. This is scary ground we are walking. Another 3 week lockdown is a better answer than allowing citizens of the United States to be forcibly detained. I never thought I would see the day that this is even considered.

Please see the absolute harm that this will do to our country.

I can only hope that you all are building a fascist, tyrannical, medical dictatorship under the color of public safety.... through ignorance and lack of research on your parts.

Creating a police state to isolate, quarantine and most importantly enforce unproven health measures on the public...Is Nazism, Tyranny, Fascism...Period!

If you all are basing your decisions on only the one source of mainstream media and Fauci and other sociopathic and psychopathic sources you are helping to create a beast which will consume you and yours as well as the rest of the populace you are criminalizing in the name of public safety.

When you broaden your data base and really look at what is happening you WILL find that there is a full blown CONSPIRACY to dominate and eliminate large swaths of humanity.

Perhaps this is a necessary and even a good thing in some way I cannot understand at this time...  
However, again, if you believe you and yours will somehow be magically exempted from this tyrannical Medical - Military - Industrial - Complex...Well I wish you well.

Recommend you watch a YouTube video called A Killing of the Mind...How an entire population becomes mentally ill.

Blessings and good health to each one of you.

Sincerely, Robert James, Sequim, WA

I could get very detailed as to why I am opposed to this.

But I will make it short.

I am opposed to mandating any experimental shots in any way for any age.

I am opposed to any quarantine issues. Way too risky. Can be used for manipulation, miss interpretation, over reactions, coercion and so easily be subject to biases. It will spread more fear, separate families and spread more distrust of government in general.

I am for Informed Choice Washingtons petition for Rulemaking item 11.

I'm voicing my opinion on how far our government is making terrible decisions!  
It's a gross over reach of government control especially when the data and facts prove this is not an epidemic.  
It is wrong to even consider camps for those that have not been vaccinated and to remove them from their homes.  
When the truth of the matter is - Everybody gets Covid and carries it. Vaccinated and non-vaccinated.  
I am vehemently opposed to any consideration of this matter.

To Whom It May Concern on the WA State Board of Health,

The very fact that you are having a hearing on this gross overreach of government is absolutely unacceptable. There has never been nor could there ever be any public health crisis so great as to plan to detain people, remove them from their homes, isolate them against their will, or to force ANYTHING on their person, including your plans for medical examination, testing of any kind, treatment of any form, counseling for any reason, or vaccination of any kind, which is MEDICAL RAPE. It is disgusting that you are even considering this whatever the circumstances, but especially for a virus that has a survival rate of OVER 99%. This is what NAZI GERMANY would do. Is that where you would choose to align yourself?! Is this having any positive impact in Australia? It is not benefitting them, nor would it benefit us here. This is not serving the people of Washington State well, which is your job. This needs to stop here and now. Do not choose to fall on the wrong side of history.

Thank you for choosing to do what is RIGHT.

In light of the new proposed COVID rules, I am firmly against an individual who fails to comply with a health order to be found guilty of a misdemeanor, and for law enforcement to involuntarily detain a person for that reason. I urge you to restrain yourself in exercising your power, as it is derived from the people you serve. These are drastic measures that are not needed now or ever, if this is to still be the free state of Washington. Do not implement these measures!

To whom it may concern,

We are past the hump of considering this a dire pandemic that requires emergency measures. We have herd immunity at this point and have extremely high vax<sup>0</sup>% already. The virus is weakening. Cases may be rising but deaths are declining sharply.

We do not need to jeopardize individual freedom by taking adult citizens to government facilities for quarantine. The precedent this measure sets is draconian. It is also too little, too late. The risk/reward is no longer there.

If we become a State that involuntarily detains its citizenry over a declining issue, I see no reason to remain in this state I love.

It is a shame to see us taken in this direction.

To all the members of the Washington State Board of Health,

It has come to my attention that one of the agenda items for your January 12th, 2022 meeting is to consider "allowing law enforcement to forcibly enforce an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility following refusal to voluntarily comply with request for:  
medical examination,  
testing,  
treatment,  
counseling,  
vaccination."

I want to express IN THE STRONGEST POSSIBLE LANGUAGE MY ABSOLUTE OPPOSITION TO SUCH A POLICY!!!!

Here are some of my reasons for opposition to this proposed policy:

Every American has the right to determine what medical procedures he or she will or will not take. We have the right to Life, Liberty and the Pursuit of happiness. This has been a pillar of American life since the revolution of 1776!

Mandates from state executives and their subcommittees should not be allowed. The LEGISLATURE should debate such all-encompassing rules, not "health boards"!

Under HIPPA rules, my medical decisions are PRIVATE!!

Unvaccinated people pose no more of a danger to the public than vaccinated people. This has been proven over and over!

Supposedly, the vaccinated are safe...so leave the unvaccinated alone!

If more vaccinated people actually do end up in the hospital (doubtful), it would be the result of their own private CHOICE about their own health

The current vaccinations are not effective against the current virus strains, anyway. The original strain and Delta (and soon Omicron) will be history...but the vaccination has not changed. This is like taking the same flu shot every year, even though every year's flu variant is different!

This is AMERICA...not Communist China where women have been forced to get abortions against their will, or Saudi Arabia where women are forcefully sexually mutilated because the Muslim leaders say so. For the BOH to pass such a rule would violate everything that is good about American Freedom!

Every American has a RIGHT to choose what healthcare they will or will not take.

This policy will drive more good people to leave this state because of its liberal and extremely harmful policies regarding Covid.

It is DANGEROUS! If this policy is adopted and enforced, there will, without doubt, be violence. Both law enforcement and civilian Americans, my fellow Washingtonians will be injured or killed.

I beseech you to NOT pass this policy. It is dangerous, unAmerican and makes no sense in terms of public health. I believe that the ONLY reason any state government would pass such policies would be to control their people for nefarious purposes.

Sincerely,  
Delia Moore

---

By its self, but especially used to combat the covid-19 pandemic (against vaxed, outdated-vaxed, unvaxed, and unable-to-vaxed), Chapter 246-100 WAC is impractical, and too close to historical examples of governments gone tyrannical. The hope of this law is clearly to provide control to protect. Control and protection are dangerous lines to blur indeed (remember Europe and war crimes in the 1930s). Two points, firstly, 1. SCALE: The amount of money and people-power it would take to enforce this is very unreasonable. Seen as a tool to control spread of illness, injury and death, it would need to be sweeping (large scale, lots of policing) in order to bring down cases numbers worth the cost to individual lives, economy, or other health (psychological or other) concerns. What if instead, the State of Washington could help its self if its health department and board of health spent that money and staff power on purchasing and mobilizing vitamins and supplements, masks, and covid-tests for families without such supplies, rather than litigation, policing, and forced removal/imprisonment. 2. TIMING: The amount of time it would take for a health officer to procure the information needed to legally make the impositions "necessary" (according to these and other WAC), would take longer than the window of contagion for exposed people. By the time action is taken against individuals or parties deemed threats to the health of others, it is too late to control their spread and isolating them for likely the last half of symptomatic infection. You would have to be building cases against individuals preemptively, which may or may not be legal, in order to act fast enough to lock them down. Key note, 10 days has now changed to 5 days, so the window is even smaller. There is not enough practicality in this law to be worth the danger it presents to a free nation. After you realize how unlikely this would affect a covid/flu spread (due to timing and scale), what's left is only an option/excuse to infringe on personal freedom and lean into totalitarianism. It it borders on unethical. Stop this law; we can do better.

I'd like to voice a definite NO to involuntary quarantine measures in WA. This is America and we need to have freedom of choice. Most people would use common sense and stay home when sick. After all, the COVID restrictions have been in place for almost 2 years already. We pretty much know what's expected of us. This State control of our freedoms has got to stop!  
This is my humble opinion.  
Thank you.

Do NOT allow the local Health Dept to set up isolation and quarantine facilities. This is not science based nor medically based. My doctor has my medical history as well as current conditions. Do not return us to the time when during World War II, the Fairgrounds Pavilion served as a Prisoner of War Stockade for German POWs. We are a non discriminatory society and this would set us back to be like second and third world countries. Follow the constitution for freedom of speech and choice and we will make the correct decisions for the protection of ourselves and well as others! You have no right to play God!

Subject: Comments on Agenda WAC 246-100

External Email

To: wsboh@sboh.wa.gov  
<mailto:wsboh@sboh.wa.gov> Subject: Comments on your agenda item for January 12th regarding WAC 246-100

To all the members of the Washington State Board of Health,  
It has come to my attention that one of the agenda items for your January 12th, 2022 meeting is to consider "allowing law enforcement to forcibly enforce an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility following refusal to voluntarily comply with request for:

- \* medical examination,
- \* testing,
- \* treatment,
- \* counseling,
- \* vaccination."

I want to say this is a horrible policy and I do oppose it completely.

Here are some of my reasons for opposition to this proposed policy:

1. Every American has the right to determine what medical procedures he or she will or will not take. We have the right to Life, Liberty and the Pursuit of happiness. This has been a pillar of American principles throughout our history.

2. Mandates from state executives and their subcommittees should not be allowed. This is socialism and like Nazi Germany. Government control like this is beyond any true democracy. Our state legislature has not been involved with any the Governor Inslee mandates or anything from the WA Health Board. Washington has become a dictatorship state with many irrational decisions from our Governor, not working with our representatives we voted for.

3. Under HIPPA rules, my medical decisions are PRIVATE. My health decisions for my body are not to be disclosed to a government agency to make new laws.  
In regards to the current COVID shot that was released in 2020.

Current vaccine issues:

Supposedly, the vaccinated are seem to think they are totally safe (untrue, just like all flu vaccines). They are on airplanes, on trips everywhere, at stadiums, and feel they have the ticket to immunity from the virus. The vaccinated are still getting sick, they are not fully immune even from the beginning of the pandemic (but this is hidden by the media). It has been proven over and over that the best immunity are the ones that got a good case of COVID and now have far better immunity than any vaccinated ones. It is proven but hidden.

At this point, this COVID vaccine is not up to speed with the variants. It has not been

that effective with the Delta variant and certainly not much at all with the Omnicron variant. This shot and booster is no longer effective as it was designed for the first COVID that showed up in the US in 2020. It is now causing immunity issues and is not valid for fighting these new strains. Why are the medical experts not looking at the facts? Please see attached paper below on stats and new findings based on medical research, not a government group.

So why are we still giving people this shot when it has not been formulated for the last 3 variants? This is like giving the normal flu vaccine every few months just because it "may help." The normal flu vaccine is usually 40-50% effective and may not even help as it is a guess as to what strain may come to the US. This year the flu shot has missed the strain that is starting to show up... just like the Covid vaccine is not working on these variants-time to stop injecting people with an invalid vaccine that has many adverse effects with its RNA technology. The adverse effects reporting on this vaccine is so under reported as doctors don't have time to fill out the extensive paperwork required to report them. What about all the deaths from the vaccine? Not even reported! What has happened to truth in reporting and medical concern for our people?

This is not AMERICA when we see this form of control. Are we wanting Communist China policies or like other countries where people are controlled by all agencies of their government? For the BOH to pass such a rule would violate everything that is good about American Freedom.

Every American has a RIGHT to choose what healthcare they will or will not take.

This policy will drive more good people to leave this state because of its liberal and extremely harmful policies regarding Covid. Many people already are leaving because of the oppressive WA government. They are moving to Idaho, Arizona, Texas, and Florida. We are losing many taxpayers to other states that have more freedom than ours. Moving companies can't keep up with the mass exodus of good working people leaving WA. They are having a hard time getting trucks back to our state with the number of families leaving WA.

If this policy is adopted and enforced, there will, without doubt, be violence. Both law enforcement and civilian Americans along with my fellow Washingtonians will be injured or killed. This policy is not part of a democracy at all.

We beseech you to NOT pass this policy. It is dangerous, unAmerican and makes no sense in terms of public health. I believe that the ONLY reason any state government would pass such policies would be to control their people for their own purposes, not consulting or representing its people.

Sincerely,

Rich and Terri Dahm  
Mead, WA

A national research Dr. on medicine, Dr. Mercola Findings

Stigmatizing Unvaccinated Is Unjustified  
November 20, 2021, The Lancet published a letter by Gunter Kampf, titled "COVID-19:

Stigmatizing the Unvaccinated Is Not Justified.”<sup>2</sup> “In the USA and Germany, high-level officials have used the term pandemic of the unvaccinated, suggesting that people who have been vaccinated are not relevant in the epidemiology of COVID-19,” Kampf writes. However, he adds, “There is increasing evidence that vaccinated individuals continue to have a relevant role in transmission.” He goes on to cite statistics from Massachusetts, where 469 new COVID-19 cases were identified during July 2021. Of those, 346 (74%) were either fully or partially jabbed, and 274 (79%) were symptomatic.

People who are vaccinated have a lower risk of severe disease but are still a relevant part of the pandemic. It is therefore wrong and dangerous to speak of a pandemic of the unvaccinated. ~ Gunter Kampf

The cycle threshold values used during PCR testing were also similarly low regardless of COVID jab status (median 22.8 cycles, which minimizes the risk of false positive results), “indicating a high viral load even among people who were fully vaccinated,” Kampf notes. These data are clear evidence that the COVID jabs cannot end the pandemic, and may in fact be preventing it from dying out naturally. Kampf continues:<sup>3</sup>

“In the USA, a total of 10,262 COVID-19 cases were reported in vaccinated people by April 30, 2021, of whom 2725 (26.6%) were asymptomatic, 995 (9.7%) were hospitalized, and 160 (1.6%) died. In Germany, 55.4% of symptomatic COVID-19 cases in patients aged 60 years or older were in fully vaccinated individuals, and this proportion is increasing each week.

In Münster, Germany, new cases of COVID-19 occurred in at least 85 (22%) of 380 people who were fully vaccinated or who had recovered from COVID-19 and who attended a nightclub.

People who are vaccinated have a lower risk of severe disease but are still a relevant part of the pandemic. It is therefore wrong and dangerous to speak of a pandemic of the unvaccinated.

Historically, both the USA and Germany have engendered negative experiences by stigmatizing parts of the population for their skin color or religion.

I call on high-level officials and scientists to stop the inappropriate stigmatization of unvaccinated people, who include our patients, colleagues, and other fellow citizens, and to put extra effort into bringing society together.”

Human Today, Not Human Tomorrow

It’s important to realize you cannot comply your way out of this tyranny. If you choose to get the COVID shot because you don’t want to be stigmatized, there can be no end to your compliance to future boosters, no matter what the cost to you or your family.

In short order — a handful of months at most — you will suddenly and arbitrarily be deemed an unvaccinated menace to society again, even though you’ve already had one, two or three kill shots.

None of that will matter. You get no brownie points for past compliance. At six months past your second or third dose, your status will go from green to red, from human to not human, literally overnight. You’re “unvaccinated” again, until or unless you get another booster. This cycle will continue until you’re dead. Are you game? Is that how you want to spend the rest of your life?

COVID Shots Keep the ‘Pandemic’ Going

More than 80 studies have confirmed that natural immunity to COVID-19 is equal or superior to what you get from the jab.<sup>4</sup> This conforms to well-established medical science, so it’s no surprise. It’s as it should be.

But for the first time in modern medical history, natural immunity is being portrayed as having no benefit whatsoever. Even worse, those with natural immunity are being labeled as dangerous and are shunned and even fired from their jobs for failing to get a shot.

Only the jabbed are protected and can protect others, health authorities now claim — even though it’s those with natural immunity who are most protected and don’t pose a risk to others.

The reality and truth, though, is that natural immunity is long-lasting, protects against all variants and will not contribute to the creation of variants. The same cannot be said for the COVID jab. We now have clear evidence the shots offer, at most, six months’ worth of protection, after which the relative risk reduction drops to zero.

As just one example among many, a Swedish study<sup>5</sup> published October 25, 2021, found

that while the jabs initially lowered the risk of hospitalization, their effectiveness rapidly waned.

\*

The Pfizer jab went from 92% effectiveness at Day 15 through 30, to 47% at Day 121 through 180, and zero from Day 201 onward.

\*

The Moderna shot had a similar trajectory, being estimated at 59% from Day 181 onward.

\*

The AstraZeneca injection had a lower effectiveness out of the gate, waned faster than the mRNA shots, and had no detectable effectiveness as of Day 121.

This and other studies showing waning immunity were discussed in a December 9, 2021, New England Journal of Medicine interview.<sup>6</sup> As noted in that interview, the Delta variant, which is significantly different from the initial SARS-CoV-2 strain, can infect fully jabbed individuals, and its ability to do so increases over time, as the effectiveness of the shot rapidly wanes.

Aside from waning efficacy, the fact that the virus is mutating within “vaccinated” populations also forces it to develop the capacity to circumvent the COVID jab. In short, the deck is stacked against those who rely on the COVID shot to protect them. In the long term, it’s a hopeless situation, as we cannot inoculate our way out of an endemic with a product that doesn’t prevent infection and spread!

Sadly, NEJM, rather than promoting science, toes the line of the official mainstream narrative and suggest boosters are the answer. They should know better, which raises suspicions that conflicts of interest likely impact their clinical judgment.<sup>7</sup>

---

I was infected with Covid and subsequently healed of it. I know what it feels like, how long it lasted, and the after affects (ie: loss of smell for a time).

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

---

The WAC proposal in question to be discussed by the Board of Health to mandate forced vaccinations on all Washington state residents and the involuntary confinement and illegal quarantine imposed on individuals and/or families.

11.

Are you Pro or Con on the proposal?

2.           Con

---

The fact that this subject matter is even a topic being considered is ludicrous. At what point did a very few select group of people arrive at the idea of imposing forced and arbitrary regulations on private citizens without any form of due process. The fact that Washington state is even considering the abject stripping of civil liberties and inherent freedom of its residents is abhorrent and surreal. This cannot happen. This is tyranny in its purest form. The end cannot justify the means and the breakdown of all things life and liberty and the pursuit of happiness, will utterly destroy the precious people living in this state. Imposing this illegal violation will ultimately incur the destruction of Washington state and its beauty as well. Corruption and decay will be the legacy of this state if you do not act wisely and swiftly.

9.

Do you have any special expertise relevant to this topic?

2. No

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

---

the authority to involuntarily quarantine individuals

11.

Are you Pro or Con on the proposal?

2.           Con

---

Granting this authority would just make people fearful to test. So, I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals.

Dear Washington State Board of Health,

Our state government should NOT enforce emergency orders to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, or vaccination.

This is an over reach by our local government. Medical decisions should be made between a person and their local medical provider!

Sincerely,  
Dr Victoria Brown

---

Communicable and other diseases and the involuntary detainment of people for failure to comply with a health official's directive.

11.

Are you Pro or Con on the proposal?

2. Con

---

It is wrong to detain someone involuntarily against their will just because they are sick or refuse to take some kind of drug. The rights we have are given by God and not from the government. What makes the government any different from a kidnapper? All in the name of public health?? Where does it end? First it's public health then slowly, it will move into other spheres. This is unlawful and unconstitutional which trumps any state law for that matter. This is oppression disguised as public health safety. America is the land of the free.

To the WA State Board of Health,

The very fact that you are having a hearing on this UNCONSTITUTIONAL overreach of government is absurd . Other than Washington's mindless and disgraced period of time in which she gathered up loyal, patriotic Asian citizens, there has never been nor could there ever be any public health crisis so great as to detain people, remove them from their homes, isolate them against their will, or to force ANYTHING on their person, including your plans for medical examination, testing of any kind, treatment of any form, counseling for any reason, or vaccination of any kind, which is MEDICAL RAPE. It is disgusting that you are even considering this HALOCAUST for any circumstances, but especially for a virus that has a survival rate of OVER 99%. This is what NAZI GERMANY would do. Is that where you would choose to align yourself not only foe time but for ?! This is not civil service to the people of Washington State which is your RESPONSIBILITY. This needs to stop here and now. Do not choose to fall on the wrong side of history.

Thank you for CONSIDERATION in doing what is RIGHT.

ROBERT N. BOYER

We strongly oppose any order that would allow any government official to take away the freedoms of any Washington state citizen! You all took a OATH to uphold our Constitution and we suggest you DO so! We can't believe you're actually considering to put your citizens in concentration camps the same as Hitler did in Germany, here in America! You politicians are making it where we don't even recognize this country anymore and our forefathers are rolling in their graves! SHAME ON ALL OF YOU for even CONSIDERING such a thing! And we are fully vaxed and don't approve of this at all! Especially when even after getting vaxed we can still contact & spread the virus! So why are you singling out any others?? Are you just power hungry control freaks??? We highly suggest you vote against this "order" tomorrow! Unless you want to lose the very people paying the most taxes including many of our businesses that will FLEE this state and if all you want left here is the welfare sponging leaches that cost us nothing but money and don't pay any taxes, than by all means, vote for the ORDER! Most intelligent people KNOW that this medication is not only still in the experimental stage, but it doesn't work!! You can NOT force people to take an experimental drug! Do you think we don't know it hasn't been fully approved by the FDA?? Um, that would be your dummies that don't pay taxes! So unless you want to run off all of your best tax paying citizens, we insist you vote AGAINST this ORDER! Or you'll go down in history as one of the biggest communists this country has ever known! Up to you! Sincerely; Mr. & Mrs. Joseph A. Salomone

#### External Email

Please know that your scheduled meeting today of January 12, 2022 is not compliant with Washington State Open Public Meeting (OPMA) law, specifically RCW 42.30.040 <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault>>, "Conditions to attendance not to be required." That law states:

"A member of the public shall not be required, as a condition to attendance at a meeting of a governing body, to register his or her name and other information, to complete a questionnaire, or otherwise to fulfill any condition precedent to his or her attendance."

To log onto the WA State Board of Health Jan 12, 2022 ZOOM meeting, attendees were expressly required to "register". Attendees were required to log in with both their name and email, in order to have access to the zoom meeting.

This is prohibited by law.

I encourage you to share this information with your AG.

As you may know, RCW 42.30.120 also addresses the penalties for OPMA violations:

Violations—Personal liability—Civil penalty—Attorneys' fees and costs.

(1) Each member of the governing body who attends a meeting of such governing body where action is taken in violation of any provision of this chapter applicable to him or her, with knowledge of the fact that the meeting is in violation thereof, shall be subject to personal liability in the form of a civil penalty in the amount of five hundred dollars for the first violation.

(2) Each member of the governing body who attends a meeting of a governing body where action is taken in violation of any provision of this chapter applicable to him or her, with knowledge of the fact that the meeting is in violation thereof, and who was previously assessed a penalty under subsection (1) of this section in a final court judgment, shall be subject to personal liability in the form of a civil penalty in the amount of one thousand dollars for any subsequent violation.

(3) The civil penalty shall be assessed by a judge of the superior court and an action to enforce this penalty may be brought by any person. A violation of this chapter does not constitute a crime and assessment of the civil penalty by a judge shall not give rise to any disability or legal disadvantage based on conviction of a criminal offense.

(4) Any person who prevails against a public agency in any action in the courts for a violation of this chapter shall be awarded all costs, including reasonable attorneys' fees, incurred in connection with such legal action. Pursuant to RCW 4.84.185, any public agency which prevails in any action in the courts for a violation of this chapter may be awarded reasonable expenses and attorney fees upon final judgment and written findings by the trial judge that the action was frivolous and advanced without reasonable cause.

Onward!

Carolyn A. Lake .

Hello All,

Attached is a video of the WHO Chief Scientist saying "...there's no evidence right now that healthy children, or healthy adolescents, need boosters. No evidence at all."

Also attached is a video of UK PM Boris Johnson saying England ends all covid passports, mask mandates and work restrictions.

Could this be happening because of the very recent investigations and findings of courts? Are you aware of the investigation in the UK ... see attached image.

How much are you payed to continue your path of genocide and crimes against humanity?

As a reminder, the VAERS data is reporting over 21,000 deaths and over 1 million injuries from the needle poison you are pushing on the We The People. Your unconstitutional mandates and policies have destroyed countless businesses and lives while you all keep your jobs and paychecks. Do you think you are immune from investigations?

---

It is unconstitutional and immoral to detain citizens who are sick with covid to quarantine facilities. Against their will! The level of fear and measures being taken, does not align with what's actually happening in the world right now. Everyone is spreading this virus, the vaccinated and unvaccinated. It's ridiculous to continue to treat the unvaccinated like the problem. Take this experimental mRNA gene therapy drug should be a choice and I do not support the Washington state board of health proposed policies.

I have had Covid, had all symptoms and have fully recovered. I am healthy, not obese, and take care of my body. I was put on the Covid protocol, Ivermectin, vitamin supplements. Therefore, yes I am an expert and I followed my doctors advice who is a expert!

10.

Are you testifying on a specific proposal under consideration by the board?

2. No

11.

Are you Pro or Con on the proposal?

2.           Con

---

The fact that this is even a topic being considered is absolutely ridiculous! At what point did a few people get to decide for the residents of WA what will be imposed and forced on private citizens without any form of due process. The fact that Washington state is even considering the stripping of civil liberties and inherent freedom of its residents is abhorrent and surreal. This cannot happen. This is tyranny in its purest form. The end cannot justify the means and the breakdown of all things life and liberty and the pursuit of happiness, will utterly destroy the precious people living in this state. Imposing this illegal violation will ultimately incur the destruction of Washington state and its beauty as well. Corruption and decay will be the legacy of this state if you do not act wisely and swiftly. I really don't think people have thought about how many people will leave this state! Washington will be no more. These will be current concentration camps and the government and its organizations imposing force on U.S. citizens is absolutely horrific!

Questions for Committee:

- 1) Does this policy allow for all Washingtonians to be legally required to comply with a health request for a vaccination or a physical examination?
- 2) Does this policy allow for any Washington State police department to detain anyone in Washington who does not comply with an examination request or request for vaccination card?
- 3) Assuming people do not comply and are arrested where will they be detained?
- 4) Does this policy infringe on human rights and our constitutional freedoms?
- 5) Will Washington police officers or health officers be subject to dealing with noncompliance of examination and vaccination and thus increase their exposure to people with viruses?

Subject: WA State Board of Health COVID meeting

External Email

Dear Washington State Board of Health,

Our state government should NOT enforce emergency orders to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, or vaccination.

This is an over reach by our local government. Medical decisions should be made between a person and their local medical provider!

Sincerely,  
Dr Sam Smith

To: DOH WSBOH  
Cc:  
Subject: Concerning Proposed Rule Hearing for Communicable and Other Certain Diseases, Chapter 246- 100 WAC

External Email

To Whom It May Concern on the WA State Board of Health,

The very fact that you are having a hearing on this gross overreach of government is absolutely unacceptable. There has never been nor could there ever be any public health crisis so great as to plan to detain people, remove them from their homes, isolate them against their will, or to force ANYTHING on their person, including your plans for medical examination, testing of any kind, treatment of any form, counseling for any reason, or vaccination of any kind, which is MEDICAL RAPE. It is disgusting that you are even considering this whatever the circumstances, but especially for a virus that has a survival rate of OVER 99%. This is what NAZI GERMANY would do. Is that where you would choose to align yourself?! Is this having any positive impact in Australia? It is not benefitting them, nor would it benefit us here. This is not serving the people of Washington State well, which is your job. This needs to stop here and now. Do not choose to fall on the wrong side of history.

Thank you for choosing to do what is RIGHT.

---

Allowing local health offices to use law enforcement to force an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility

following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination. The specifics come from WAC 246-100

11.

Are you Pro or Con on the proposal?

2.           Con

---

It is unconstitutional to forcibly remove a person or group of persons from their home for noncompliance in receiving a recommended medical procedure. The current situation does not require this kind of emergency authorization. There are treatments available, and over 99% of people who receive early intervention recover. This kind of authorization would result in gross government over reach and opens the door to all manner of tyranny.

Cc:  
Subject: COVID-19

External Email

I worked as an Environmental Health Specialist for 15+ years. I worked through the Avian Flu and Swine Flu. The best thing for us to do now is remove the masks and allow people to go about their daily schedules. The people who are at high risks should take precautions. Students should be back in schools with no changes from before the pandemic other than checking temperatures when students show symptoms or complain of not feeling well. There is no need for students to have a Covid shot or to wear masks. There are some studies suggesting that masks are counter-productive for students. The shots should be left up to the parents. There are some studies suggesting the MRNA may lead to heart problems for those under 19. It is no longer a pandemic, but an endemic.

Sincerely,  
Randy B Grove

Subject: No to COVID-19 on infectious disease WACs

External Email

To whom it may concern:

I am fully vaccinated and boosted for COVID-19. I am convinced that this is a very real and concerning illness. However I am concerned that the proposal to add COVID-19 to current infectious disease WACs may be going too far.

WAC 246-100-040 specifies that quarantine can be forced in the case of exposure or refusal to vaccinate if exposed. Considering the prevalence of the omicron variant, it seems this exposure requirement could be applied to nearly everyone. The measure seems extreme and an overreach of government power.

While I am convinced of the efficacy of the vaccines and try to persuade others toward vaccination as well, I valued the ability to be able to weigh the options and choose it for myself. The fact is that the mRNA vaccines are a technology that has never before been used on this scale. I understand that we have more data on them than any other vaccine trial in history, but it is also true that we don't have long-term data. We're still finding new associated effects. Because this is all so new and changing, the recommendations on quarantine, vaccination, boosters, etc. are also changing by the day. I can understand the hesitancy that some feel over being vaccinated and do not feel that this should be a government requirement, or that those who refuse should be able to be forcibly quarantined.

I oppose the proposal to include COVID-19 in applying current infectious disease WACs.

Sincerely,

Rachel Rudd  
Tacoma, WA

What you're trying to implement here with your WA Covid Detainment Emergency law is GENOCIDE and inhumane. You are disgusting for trying to implement this in our state. You are taking away our freedom and interfering with our rights as an American. If you truly cared about us and our health you wouldn't allow this to pass.  
None of this makes any sense or is right at all.

Dear Washington board of health member,

Absolute power corrupts absolutely.

You all very well might have the best of intentions, but consider carefully the level of power that including Covid-19 onto Chapter 246- 100 WAC will do to those intentions. The expression "absolute power corrupts absolutely" still applies to medical officers, and giving the power to detain and quarantine anyone suspected of covid is an absolute power that no one should have. It will be abused. Consider carefully the consequences of including Covid-19 to Chapter 246- 100 WAC.

-Sean Kelly, a concerned citizen of Washington State.

I have heard that the state board of health is set to discuss involuntary confinements and quarantine by force with the use of law enforcement.

This is absolutely unacceptable and is more than likely a violation of civil rights and constitutional rights.

I am absolutely against any type of action like this and it should not even be considered or discussed. It appalls me that this would even be considered to be an option and I hope that you and other officials realize how absurd this is.

To you who are considering the proposed policies attached to WAC 246-100

We have been told over the past couple years to "trust the science"

Very well. If you dare to enact any of these policies, know that you will be taken to court where you will be required to present an isolated sample of the original Covid -19 virus as well as the delta and omicron variants.

Believe me, you will lose as there are currently at last count, 25 countries (and more coming) who have taken their governments to court who demanded the same and the governments could not provide the requested samples. Refer to the case of Patrick King; link to interview listed below.

<https://www.redvoicemedia.com/2021/08/freedom-fighter-court-victory-ends-masking-shots-quarantine-in-alberta/>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.redvoicemedia.com%2F2021-fighter-court-victory-ends-masking-shots-quarantine-in-alberta%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ccc741e96691c43a8250c08d9d17dff51%7C11>>

"On August 23, the FDA granted full approval for a COVID-19 vaccine to Pfizer-BioNtech for a specific product sold under the brand name Comirnaty. The landmark moment — the "full approval" endorsement from the FDA — was heralded by the Biden Administration and countless states, and quickly leveraged to coerce millions into taking the shots. This product, Comirnaty, was fully authorized for the "prevention of COVID-19 disease in individuals 16 years of age and older."

Yet Comirnaty itself has never made its way into the United States. The fully-approved version is nowhere to be found within our borders."

<https://dossier.substack.com/p/bait-and-switch-there-remains-no>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdossier.substack.com%2Fp%2Fbait-and-switch-there-remains-no&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ccc741e96691c43a8250c08d9d17dff51%7C11d0e2172>>

In short, this means that the vaccines that are in use in the United States are still the experimental Emergency Use Authorized vaccines only. To force, coerce, bribe or in any way try to persuade any individual to take these vaccines is a violation of the Nuremberg code (see below) and those who violate it may be at risk of criminal charges up to and including crimes against humanity. "Just doing your job" will not be a defensible excuse. Also Note: None of these vaccines have inserts that have information listed such as the ingredients contained in the vaccines, studies or list of potential side effects which violates every individual's right to Informed Consent.

What you are proposing is medical tyranny and I would point you to the few examples of rights and codes you are in risk of violation:

#### UNIVERSAL DECLARATION OF HUMAN RIGHTS

Below are some extracts from the United Nations Declaration of Human Rights, which we all need to be respectful of.

##### Article 1

All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.

##### Article 3

Everyone has the right to life, liberty and security of person.

##### Article 23

Everyone has the right to work, to free choice of employment, to just and favourable conditions of work and to protection against unemployment.  
Everyone, without any discrimination, has the right to equal pay for equal work.

##### Article 27

Everyone has the right freely to participate in the cultural life of the community, to enjoy the arts and to share in scientific advancement and its benefits.

#### INTERNATIONAL CODE OF MEDICAL ETHICS (WORLD MEDICAL ASSOCIATION)

The International Code of Medical Ethics drafted by the WMA develops the following principles and obligations:

\* Obligation of care: The obligation not to refuse care to those who need it and not to discriminate on financial or other grounds is linked to the obligation to respect life and to consider emergency care as a humanitarian duty. This ethical obligation may also be

found in criminal law under the offense of failure to assist a person in danger. The obligation to provide medical care compels doctors to act in the exclusive interest of patients

\* Respect of patients' consent: The obligation to inform the patient and to obtain and respect his or her consent before any act of care is paramount in order to protect the balance in the relationship between the doctor and the patient, and to ensure that the patient's dignity is respected. This obligation puts the power that the doctor has over the patient into perspective. Even if the doctor must always act in the patient's best interest, he cannot substitute himself for the patient and decide what the patient wants. This duty is well spelled out in most national laws, and gives rise to compensation before courts.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.wma.net%2Fpolicies-post%2Fwma-declaration-of-helsinki-ethical-principles-for-medical-research-involving-human-subjects%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Ccc741e96691c43a8250c08d9d17dff51%7C1>

## IMPORTANCE OF INFORMED CONSENT (UK NHS)

Consent to treatment means a person must give permission before they receive any type of medical treatment, test or examination. The principle of consent is an important part of medical ethics and international human rights law.

Source: <https://www.nhs.uk/conditions/consent-to-treatment/>

## THE NUREMBERG CODE (1947)

### Permissible Medical Experiments

The great weight of the evidence before us to effect that certain types of medical experiments on human beings, when kept within reasonably well-defined bounds, conform to the ethics of the medical profession generally. The protagonists of the practice of human experimentation justify their views on the basis that such experiments yield results for the good of society that are unprocurable by other methods or means of study. All agree, however, that certain basic principles must be observed in order to satisfy moral, ethical and legal concepts:

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability or death

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment

9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Finally, we are sovereign living beings, not corporations and We The People Do Not Consent.

Regards

Robert Barrett

Quarantine/Internment/Concentration It makes no difference what you call it, they always end up the same. Inhumane atrocities and human rights offenses happen in these places. You just can't get around it. If you pass these measures, you are literally choosing openly to throw people lives away and not from any form of covid. Ethical conduct is not and should never be an opinion, nor a belief. "Primum Non Nocere" First do no harm, is the hypocratic oath. We continue to see pressure and coercion spread to every corner of our state, where does it stop, when does it stop, how many more lives must be intentionally destroyed? America has been doing it wrong since 1838 with The Treaty of New Echota which was the 1st to put the Cherokee in prison camps. Then in 1942 during World War II, Camp Harmony Internment camp. Whats going to make this any different? One must realize when they are on the wrong side of history, otherwise our humanity is at stake.

Good morning,

I am writing in response to WAC 246 and WAC 246-105. Your agency clearly states that "you have the responsibility for a wide range of health rules designed to keep people safe". It is therefore your responsibility to make informed and educated decisions in the best interest of the public, not the politicians or a personal political belief/agenda. It is clear that the C-19 vaccines are NOT effective at preventing someone from becoming sick or spreading the virus. This is a PROVEN fact that you can't deny. Therefore, forcing 1939 Germany style quarantine camps are not only unnecessary, they are unconstitutional and a violation of human rights!

Your website also states, " An objective, evidence-based analysis that provides the Governor and Legislators with information about how proposed legislation may impact health equity in Washington."

If you are truly being objective and evidence based then you will not pass either WAC 246 and/or WAC 246-105. A simple look at the CDC's VAERS will show you that there has been just under 1 million, that's correct, 1 million adverse events to these vaccines in just over 1 year. This includes over 20,000 deaths, let that sink in. Each of you have a HUGE responsibility to look beyond your own personal/political beliefs and look at the available information without bias. This is extremely difficult in times like today and I don't envy your positions. We are not naive that you are receiving immense political pressures from the elected officials in Washington who are no longer representing the people but rather an ideology. However, you will be held responsible for your decisions and the deaths and injuries that may occur. As we learned in Nuremberg, simply following orders is not an excuse for crimes against humanity.

Please pray on your decisions.

God Bless

Steve LaValle

To whom it may concern,  
Please listen to logic and reason. The FDA has stated this week that the human race will have to learn to live with Covid-19 and it's variants. With the current data from the state of Washington website covid dashboard, regardless of age, the death rate is .14%. Said another way, a person has a 99.86% chance of living through this illness as Covid-19 works it's way through the population. While this corona virus does transmit and spread through a population it in no way poses a serious threat to the population or the healthcare systems as a whole. This is evident with the data collected and presented by the Washington state website covid dashboard. As with all seasonal sicknesses our hospital system as a whole was stressed but never overwhelmed in 2020 or 2021. With our increased knowledge of this corona virus and our growing ability to treat the symptoms that arise from it, we have no reason to fear Covid-19 or any of it's variants. There is no logical reason to lock people up in isolation or quarantine facilities for a virus that has this incredibly small lethality rate. There is no moral or ethical defence for this action if you continue down this course.

With this new Omicron variant there is truly nothing to fear. In the history of viruses, never has any virus evolved to have a variant with worse effect on a population than the original virus. This is evident in the variant Omicron that is running through the population today. As of today there are no confirmed deaths as a direct result of Omicron infection. This shows that the virus is weakening in it's severity and lethality as should be expected. Do not put in place these rules that are a clear over reaction to a virus that is not a threat to the human population.

Placing a corona virus on the list of illnesses that qualify for quarantine and Isolation will allow for the possibility of indefinitely detaining a person. Adding a corona virus to the current WAC that is currently in place right will effectively allow the "local health officer" to detain a person for an indefinite amount of time when that officer continues to apply for 30 day extensions to the isolation and quarantine of an individual. WAC 246-100-040 (5) and (6). The indefinite involuntary detention of any human living within the borders of these United States is in direct violation of the U.S. Constitution 14th amendment - Citizenship Rights. Ratified 7/9/1868. Keep in mind that United States Constitution Article 6, Paragraph 2, states that the U.S. Constitution is the supreme law of the land.

Dear Washington State Board of Health Members,  
I understand that you are discussing adding current infectious disease WAC codes to include Covid-19 for all WA State residents. New CDC guidelines have reduced from 10 days to 5 days the quarantine time for Covid. In light of lessening restrictions coming from the CDC it is inadvisable to add more restrictions to our state. The areas that are the most vaccinated, such as the Seattle area, have a greater surge of covid infections than the state at large. You do not need to take any action that would restrict the citizens of this state from pursuing their constitutional freedoms. I urge you to not take this action. Thank you for considering my voice.

Sincerely,

I want to voice my concerns on the consideration how our beautiful state of WA can even think imposing law enforcement over this covid issues.

I am retired and spent not only over 17 years running a long-term care facility but also 15 years in emergency medicine and I am born and raised a citizen of the "free" country of the United States of America.

This idea of trying to allow the health officials to decide and force residents into a facility for quarantine of medical treatment is insane! This is not only un-constitutional but immoral and wrong. I cannot even wrap my head around the idea it would come up for discussion in the USA, this is not a communist country.

First, the coverage in media over Covid is debatable, the treatment is debatable, and the idea of the so-called vaccine is debatable. Medical choice is a freedom along with religious freedom. We also have HIPPA laws to protect people privacy when it comes to medical care and choice. This "pandemic" is also new science to how it should be handled and debatable of the options. We know the PRC tests are not accurate, we know the vaccines do not stop spread or prevention of getting covid and the new variant Omnicron is not only less severe, but records prove the vaccine have not been effective. The vaccines are trial and not rolled out properly as a true trial drug.

It is my choice to of prevention and treatment.

If this consideration of putting people into a quarantine facility are already people in a long-term care, it is still wrong. While we do not want the virus to spread among facility residents, it is wrong to isolate people who are already in last days of life. I have sat and held the hand and cared for over 100's of people as they die, I would not want my family member to be isolated and alone at the time of death. ( or any time)

I do not know if this idea was formulated from the office of our out of control Governor, but I need to remind all of you, you work for me. You are part of our gov of the State of WA, which means, you work for me, I do not work for you. It is your job to help yes protect and guide the residents of our state, not to control or run our lives. I do not know how this subject is even being discussed and I will assist the removal of all of you from office for those who think they can impose communist, Nazi concentration camps on the well- being of Americans.

I promise you try knocking on my door, first you will be asked to leave and not allowed to trespass. But, I know how to protect my family, myself and home.

Robin Aman

1. Yes

---

Involuntary quarantine by law enforcement for not complying with medical exam, treatment, etc

11.

Are you Pro or Con on the proposal?

2. Con

---

The survival rate for Covid is at least 97% medical ethics require informed consent and right of refusal for treatment, all persons have the right to bodily autonomy, high positive case numbers does not matter, number of hospitalizations and deaths do, use accurate reporting of those numbers and the pandemic was over months ago. Right to liberty is stated in the constitution. This is no longer a public health crisis. There are treatments available.

There is absolutely no reason to quarantine people who don't get vaccinated. The vaccinated can spread Covid more effectively since they often don't know they are sick.

Sent from phone. May seem unnecessarily brief.

Subject: Opposition to adding Covid 19 to Chapter 246-100 WAC

External Email

To the Board,

I am writing to voice my objection to adding Covid-19 to Chapter 246-100 WAC. Doing so represents a violation of Human and Constitutional Rights. Individuals have the right to make personal medical decisions without coercion or the threat of INVOLUNTARY DETENTION.

I stand against adding Covid-19 to Chapter 246-100 WAC with particular reference to the following subsections.

- WAC 246-100- 070
- WAC 246- 100- 045
- WAC 246- 100- 040
- also, WAC 246- 105

Efficacy of the Covid-19 "vaccines" is unclear, highly politicized, and divisive - and the adverse effects are demonstrable (VAERS) . Please exercise wisdom. Involuntary confinement for personal medical decisions related to a "preventative" IS WRONG and will only increase individual suffering and societal conflict.

I URGE YOU TO REJECT ANY PROPOSED ATTACHMENT OF COVID-19 TO Chapter 246-100 WAC AND NOT ADDRESS WASHINGTONIANS IN THIS DISRESPECTFUL, DICTATORIAL, THIRD WORLD MANNER.

The WA state government has no legal or moral right to detain anyone by point of gun and threat of fine and/or jail for failing to comply with the overreaching and tyrannical mandates and policies set forth by useless and power hungry bureaucrats in government. You are delusional if you think legislate in this manner with no repercussions. It is people like those who push forward this nonsense that have ruined more lives than Covid-19 itself. Once the vaccines became available the pandemic has been over for nearly every moderately healthy American. All I, and tens of millions of Americans, ask is to be left the hell alone. We do not tell you how to live, and yet you cannot help but use the levers of government to command us with what is best for our lives.

2. Con

---

These policies are unconstitutional and unfounded. I live in Clark County and to date the death rate of COVID 19 is 1.17% over the last 2 years. It is unacceptable for these policies to be in place with such a small % of the population being effected. Also the vaccine does NOT prevent an individual from getting the virus, spreading the virus, being hospitalized or dying from the virus. As of today 1/7/2022 Clark County WA population April, 1, 2020: 503,311 Positive COVID Confirmed Cases: 46,118 % positive in 22months: 9.1% positive rate over a 2 year period?? Number of Deaths: 543 (This is minus vaccinated deaths: % of Deaths in 22months: 1.17% (this does include non confirmed cases as that is all that is available on Clark County Health Department) Number of Breakthrough cases: 6,373 Number of Breakthrough cases with symptoms: 4,037 Number of Breakthrough cases hospitalized: 297 Number of Breakthrough cases who died: 65 Proven by the numbers above this vaccine does not work as it was intended, it is not healthy for 100% of the population, there is no medicine that exactly the same fo all people. You are proposing taking away peoples freedoms which I believe will have dire consequences when this is all said and done. Please stop the tyranny in this state or I know my family and many others will be moving out of the State of Washington and taking our businesses with us.

attachments\7D58A47B34274C6E\_image001.jpg

External Email

Our family is completely against any of the COVID policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There should absolutely be no right for law enforcement to detain people for vaccination purposes. The vaccination for COVID is unproven as a legitimate vaccination. People are receiving the vaccination still getting COVID, being hospitalized for COVID and dying from COVID. There is no evidence that is lowers symptoms of COVID in the majority of people. There are significant side effects and risks of receiving the vaccination. This should not be a required vaccination at this time as it is NOT a vaccination.

Please, please, consider the effects of these WACs and the unnecessary overreach they would cause. Please oppose these WAC's.

Thank you for your consideration.

Hi

This email is to say NO for Wac 246-100-070.

The Japanese government just announced the abolition of all compulsory covid 19 vaccines and marked the risk of myocarditis on the vaccine package. the minister of health of Japan stated that vaccination is voluntary, and people must decide whether to vaccinate or not after they have been informed of the risks and benefits this is the attitude the government should have! !

on the contrary, most of Western countries including US are running fast on the road to revive Nazis!!

current covid 19 vaccines are still experimental, there are lot of side-effects, let alone deaths. it is Crimes against humanity if push everyone to take it. right now we should find other solutions to treat covid 19 instead of relying on experimental vaccines only. hope government will make correct decision, like Japan, India...

Best regards

lingzifang

Subject: Please stop this blatant usurpation of our freedom and basic rights!

External Email

My family and I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105 as I understand they are forcing people to comply with medical testing, treatment, vaccinations, examination against their free will and free choice. Furthermore, I understand they are granting to the state such tyrannical powers as forcing people into quarantine facilities. This sounds a lot like the National Socialists in Hitler's Germany. WAC 246-100-040 alone gives the local health officer authorization to detain Washingtonians in a quarantine facility and force whatever "treatment" they feel is in the state's best interest, and It looks a lot like a ploy to subject us to slavery. This is about whether our state officials will respect any rights they don't believe are convenient for them and their agendas. Please read it for yourself to see the dangerous precedent. No disease is as harmful as losing human dignity and subjecting ourselves to an elitist "health officer" or anyone's subjective control. I urge you to please stop this blatant attempt to usurp our freedom and basic rights.

Thank you,

Richard Udlock

I am writing as a lifelong resident of WA State. I am fully against any of the proposed COVID Policies that are government overreach, and immoral.

Our beautiful country was built on freedom and these proposed policies are a direct violation of those freedoms. I, and many others, will stand and fight against these policies.

WAC 246-100-070, WAC 246-100-045, WAC 256-100-040, WAC 246-100, WAC 246-105.

Please listen to those of us who love and live in this State. Do not tear our families apart, do not coerce us into this agenda.

Thank you for your time,  
Shealyn Veitenheimer  
Vancouver, WA Resident

Do you have any special expertise relevant to this topic?

1. Yes

---

I am trained in the field of natural health and also am a person with a deep faith. I have personal experience regarding the harms of pharmaceutical products. I also am a parent and know the negative physical, emotional and mental impact of having your health controlled and dictated to you. Quarantines, lockdowns, forced medical procedures have had a very deleterious impact on myself and my family and those around me. These impacts can not be minimized.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

11.

Are you Pro or Con on the proposal?

2. Con

---

Our constitution protects our God-given rights to choose for ourselves what is best for us. What I see happening is government and health agencies trying to control our choices and decide for us what is best. But this is a huge overstep of our fundamental freedoms. I believe God created us and He knows what is best, not a person. And there is no one size fits all, but these policies seek to remove our personal choices and violate our humanity and our individuality. The Nuremburg Code is also violated in many ways, including the lack of informed consent. We must be informed and we MUST give consent. That is vital. This is international law. What is happening here is nothing short of force and coercion. We have the right to our freedoms and you seem to want to strip these away. Can you not see that forcing masks, vaccines, lockdowns, social distancing, etc on people has clearly not worked???? Do you not understand viruses and how they operate? Covid-19 has become endemic. Most of us have had it by now and yet there is ZERO acknowledgement of natural immunity. We need to move forward together with factual information, not fear-mongering and inaccurate data. There are many people who have had harm done to them with pharmaceutical products, including myself. Medical conditions must be recognized. Religious convictions also must be upheld. We can not rob people of their right to religious freedom. We worship God, not man. We take very good care of ourselves, yet natural health is not acknowledged. Why aren't we following people to make sure they don't eat fast food and exercise and get adequate rest? Should we not be focusing on these things instead of trying to control a virus that will just be with us perpetually? And is survivable. If you are under 70 years old, you have less than a 1% chance of dying from this virus. And yet many have been harmed by the non-natural measures taken to eradicate it and early treatment has been censored Also, our privacy has been massively violated through this whole experience. It is no one's business what our 'status' is. This would never be allowed if someone was HIV positive! Never. We would be fined if we revealed in our workplace or in the public square we shared someone's health condition. But suddenly with covid, it is everyone's business what your vaccination status is? This is egregious. And inhumane and wrong. There is a new level of discrimination and segregation that has taken hold in our county, state and country. Please correct this before you are in the position to be mistreated according to your private and personal medical decisions. You need to uphold the Constitution, The Nuremberg Code, and stop violating people's rights. It is time to move on. If people want to pursue any kind of treatment or intervention, that is their right, but you can not discriminate and force people to do things against their will. You violate their humanity and God's Creation. Our founding fathers knew how important acknowledging our God-given rights were and made sure it was written into law. Please stop mandating anything. Choice and personal freedom need to be upheld before we lose the virtues of our country.

External Email

NO! These proposals are just an extension of Inslee's tyrannical overreach during this whole plandemic. It is totally unnecessary for an illness that is nothing more than a bad flu except for people with comorbidities. Where's the science? Why aren't you putting out information encouraging exercise, eating well, sunshine and taking care of oneself? Instead, you are perpetuating this lie. So disappointing considering your title...Board of HEALTH.

Sincerely,

Annette Fox

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. Governor Jay Inslee and the legislature are conducting a gross misuse of power. We the people are not cattle of the state to be done with as you choose. You work for us. Forced vaccination and quarantine is an abuse of power and an attack on personal freedoms granted to us by God and made clear by our U.S and State Constitutions. Vaccination against Covid -19 has already been proven ineffective. It does not prevent the disease from transmitting. These proposed Codes are Draconian in nature and are a stepping stone towards progressing our state into 1940's Nazi Germany rule of law. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

---

This is the worst law that I as a veteran member of USN have ever seen. This was thought out by the CDC July 26,2020 "Interim Operational Considerations for Implementing the Shielding Approach to Prevent COVID-19 Infections in Humanitarian Settings". This approach is nothing more than tyranny on its citizens. This approach is trying to protect, when in fact it is removing the freedoms that I fought for. Are we going to keep doing this forever since the experts tell us COVID is here forever?? We have endured mask, social isolation, lockdowns, job losses and still a virus continues to march on. So, ask yourselves is this correct approach, when so far nothing has worked. Australia and New Zealand started this and it has not made any difference in COVID cases. Australia suffers record cases (Yahoo News 01/07/2022 for Australia) Ministry of Health New Zealand 01/07/2022 "rapidly increasing cases". Mind you they are the most vaccinated as well and have the highest COVID restrictions in the world???. So it seems the question is, what is the real agenda??

I am completely against any of the proposed Covid Policies that are over reaching and immoral. Governor Jay Inslee and the legislature are conducting a gross misuse of power. We the people are not cattle of the state to be done with as you choose. You work for us. Forced vaccination and quarantine is an abuse of power and an attack on personal freedoms granted to us by God and made clear by our U.S and State Constitutions. Vaccination against Covid -19 has already been proven ineffective. It does not prevent the disease from transmitting. These proposed Codes are Draconian in nature and are a stepping stone towards progressing our state into 1940's Nazi Germany rule of law. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I am completely against all of the proposed Covid Policies that are over reaching and entirely immoral! I stand against these proposed WAC's, in particular:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100 -105  
WAC 246-100

If you FORCE anything like this on free Americans you are looking for dissension, strife and more! We are protected by the Constitution and we WILL hold the line against any tyrannical mandates and proposed policies that violate our civil liberties AND our fundamental rights as human beings!

I stand with the federal Constitution. Will you?!?

I also stand with God and pray for you, our leaders.

"Daniel answered and said: "Blessed be the name of God forever and ever, to whom belong wisdom and might. He changes times and seasons; he removes kings and sets up kings; he gives wisdom to the wise and knowledge to those who have understanding; he reveals deep and hidden things; he knows what is in the darkness, and the light dwells with him."

Daniel 2:20-22

Whether you stand with the Word or not, it is all inspired by God. It's everlasting, unshakable and pierces the soul with Truth. Each of us will one day meet our Maker and be responsible for what we've done on earth. Are you comfortable with your actions? If not, seek God while He may be found! Do not fall for lies from the Enemy.

I am calling on you to represent the population of Washington that you swore to be a voice for and to reject all such proposed policies in the items listed above.

Also please "Ensure justice for those being crushed." Proverbs 31:8b  
Tell me, is not "ensuring justice" part of the role you are in, the position you ran for?  
Please give serious consideration to the control over individual bodies you are seeking and to the constitution of the United States. Thank you.

Regards,

Wendy Benton

External Email

Thank you for hearing from our comments.

Considering there are experts of credentialed honorary contributions in our society who don't all conclude the same interpretations of many matters, I would draw attention to the fact we all are leaning heavily on these experts for guidance.

I am very disturbed to see such suppression of experts who don't agree with the experts who seem to have been selected as representing the official authority and narrative.

As a society, we are clearly ignoring the past policy maladies of countries who followed best intentioned paths through the use of increased enforcement that eventually and inevitably lead to overreach of authority in the name of "safety, health and security".

Experts are warning we are on the same paths and need to guard our own selves from continuing further. However, these voices are being suppressed and only the selected experts supporting the agenda of greater authoritarian policies are being recognized. This presents a lie by omission perception that is presented as fact, although is distorted and unbalanced.

Please do NOT continue down the paths of greater authoritarian policies in the name of "safety, health and security" as is being proposed in the WAC 246-100-070, 045, 040. This is not the American values this country has structured its architecture of policies for guidance in our rules of law. There is a reason and it is having learned by observation from other societies that did not have concern about growing authoritarian policies.

A country completely dominated by the far right is not more palatable than what the far left would offer. They both would become totalitarian for their own values. Giving greater measure of enforcement always leads to one side or the other validating their overreach.

Best Regards,  
~Rod

Reject WAC 256-100-070, WAC 246-100-045, WAC 246-100-040, and WAC 246-105. I served honorably in the US military for 25 years and took an oath to protect and defend the Constitution of the United States against all enemies - foreign and domestic. I prepared for a foreign invader, but if the members of the WA State Board of Health pass the measures proposed above, you will create a domestic enemy of the citizens. Review history. The Jews in WW2 were rounded up in much the same way by the Nazis. Read and heed the Nuremberg Code. You have no right to enforce such draconian measures.

External Email

I want to voice my utmost concern for the violation of the constitution that is being discussed on being enforced in the state I was born and raised. All of the WAC 246-100 and 246-105 proposals I find absolutely insane to any logically thinking human being. You are saying that the government would have the authority to detain a family or person and take them to a facility to be quarantined. This is ridiculous and if mandates like this push too far it will cause chaos among the people as well as senseless violence. I know if someone showed up to take me away they wouldn't make it off the porch whether they had author or not. This is America where we choose our destiny and that's what makes it beautiful. Take that away and the civil war you will uncover is more than deadly that this virus is. Every person I surround myself with in my life feels this way as well. These mandates have gone way too far and now we are asking that it stops now or we stop them as a people by force.

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. "

Is this what our forefathers fought so many years ago when they left a dictatorship that didn't allow them any of the civil liberties that was their God given right to have? The answer is simple NO!!!! They did not. Stop trying to focus on all of the horrible ideas and how about focus on the good ones.

We've survived so many different diseases, famine, war, riots and fought against Tyranny across the globe so others could have the same the liberties as Americans.

We will survive this as well and come out stronger not divided but through working with one another to ensure we help those who need help and promote simple hygiene vs forcing vaccines that aren't working. Let the human body do what it has done for generations adapt and overcome.

----- Original message -----

Subject: : Wsboh@sboh.wa.gov

In regards to mandating a VACCINE which currently has NO bottled vaccine that is FDA approved- all circulating vaccine last are under the EUA. This is unconstitutional and unethical. I oppose mandating a vaccine that does nothing stop the contraction or spread of this sickness. Current vaccines that are mandated have a much higher efficacy rate and cannot be used as precedents.

I also oppose the unconstitutional and overreaching (WAC 246-100-070) that would force detainment. The shielding approach is eerily similar to nazi Germany.

I stand completely against WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105 as they are unconstitutional, preemptive, founded in political agenda rather than community safety.

Are you in fact violating Under 21 code of federal regulations, Section 50.23/24, it is illegal to make anyone participate in an experimental program using coercion? Are you interested in doing a civil violation of the law? Are you willing to violate Section US code 18.2331, subsection 802, stating coercion is illegal and the definition of domestic terrorism is anytime a us citizen or government is forced to do something they wouldn't otherwise do that is domestic terrorism? Which one of these 8 felonies do you want to be implicated in? All carry 99 year prison terms and 100 million dollar fine. Under 21 code of federal regulations, Section 50.23/24, it is illegal to make anyone participate in an experimental program using coercion. Coercion is illegal under Section US code 18.2331, subsection 802, inside the definition of domestic terrorism is anytime a us citizen or government is forced to do something they wouldn't otherwise do that is domestic terrorism.

Subject: Please VOTE NO on Unconstitutional Vaccine Agenda

External Email

VOTE NO on WAC 246-100-070. As a certified healthcare safety officer, I object to this legislation and its over reach into the lives of private citizens in the state of Washington. All currently communicable diseases, including Omicron, are easily managed at home and in all healthcare settings, if the public is educated appropriately and treatment is started early. Covid-19 and all its variants, for which this legislation was written, is survivable by more than 90 percent of the population. Current science, published by the CDC, indicate the Covid-19 vaccines and the latest emergency use prophylactics recently distributed by the major pharmaceutical companies have little effect on the Omicron variant. Current vaccine data show most people who get the Omicron variant have been fully vaccinated, some have even received booster shots. Accepted public health policies, pre-Covid 19, establish that mass vaccination is the wrong approach in a pandemic. In the United States, public health officers and law enforcement do not have the right to quarantine a person or family refusing vaccination or any other medical intervention. This legislation is not based on public health and safety, it is unconstitutional, and an over reach of the state government to control the population. Those who are proposing this plan are, at best, misinformed. Continued support of this legislation, with all of the current scientific evidence, can only be interpreted as a public crime.

Signed,

Suzanne Loeb

I am writing to Express my complete opposition to the following WACs . WAC 246 100 070. WAC 246 100 045, WAC 246 100 040, wac 246 100. And WAC 246 105. these proposed policies are unconstitutional over reaching and have no place in a republic democracy! It is an outrage that our state government is even proposing such obscene measures for a virus that is running its course as an endemic and will continue to do so regardless of government policies. As we can see from China. But if this virus was as horrible as magnified, gicernment has no right in telling any human how they must react and protect themselves from it. Each person is entitled to his tigt of choice and liberty regarding medical autonomy.

A vaccination is NOT an immunization and cannot be forced on someone.

Straight from the CDC website:

**Immunity:** Protection from an infectious disease. If you are immune to a disease, you can be exposed to it without becoming infected.

**Vaccine:** A preparation that is used to stimulate the body's immune response against diseases. Vaccines are usually administered through needle injections, but some can be administered by mouth or sprayed into the nose.

**Vaccination:** The act of introducing a vaccine into the body to produce protection from a specific disease.

**Immunization:** A process by which a person becomes protected against a disease through vaccination. This term is often used interchangeably with vaccination or inoculation.

Thank you,

Rebecca Wescott

Cc:  
Subject: Survey Response: Testify Online \*

The following survey response is submitted:

1.

State Board of Health Meeting Date:

---

January 12, 2022

2.

Agenda Item or Issue:

---

Rules Hearing Continuance for Communicable and Other Certain Diseases, Chapter 246-100 WAC

3.

Your Name:

---

Michael Helland

4.

Do you have a professional title?

2. No

5.

Are you representing an organization?

2. No

6.

Address:

---

12976 Gopher Hill PL SE Olalla, WA 98359

7.

Email:

---

michael.helland@outlook.com

8.

Phone Number (Include Area Code):

---

2533187581

9.

Do you have any special expertise relevant to this topic?

2. No

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

---

Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be

isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

11.

Are you Pro or Con on the proposal?

2.           Con

---

I am opposed to this expansion of the power of unelected health officers to be able to leverage the power of law enforcement to enforce their determinations of what is in the interest of individuals and families health in this state for the following reasons: 1. There is no accountability to these unelected health officials. 2. Isolation and quarantining has been demonstrated to not be effective at containing or controlling the spread of COVID-19. 3. The threat of or the imposition of this confinement is coercive and an unjust restriction on our constitutional freedoms and would result in an abuse of power as people are deprived of the liberty, livelihood, and potential physical and mental health. 4. There are not sufficient protections for due process or recourse for those wrongfully detained. 5. The forced treatment or vaccination based on a government officials opinion (no matter what it is based on) is a gross abuse of the power of government and in direct conflict with our State and US Constitution. I urge you to oppose this proposal. Thanks for your consideration. Regards, Michael

From: Susan O'Brien  
Sent: 1/7/2022 6:40:35 AM  
To: DOH WSBOH  
Cc:  
Subject: Discussion about detainment

External Email

I am COMPLETELY against any of the proposed COVID policies that are overreaching and immoral. There is zero proof that vaccination status has affected the spread of the COVID virus in any of its mutations or variants.

I stand firmly against these proposed WAC's:  
WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

There are no facts whatsoever that support detaining anyone at all over anything related to COVID 19. Please back away from this action that equates to nothing more than our government trying to force (through fear and threats) all citizens into obeying whatever we are told to do. That's the very definition of tyranny.

Thank you in advance for not implementing these draconian and exceptionally uncalled for policies.  
Susan O'Brien

Hello, I do not support the new WAC's (WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105). They go against what America is supposed to represent and that's freedom. How come for abortion they can claim "my body my choice" and everyone else has to be fine with that? My body my choice, I choose the "risks" of having freedom and not getting the vaccine. Vaccinated people can get Covid and the same symptoms. Open your eyes and see the reality of things.

Subject: WAC Codes for Infectious Diseases

External Email

Good Evening,

I wanted to write a note, as a tax paying, law abiding, resident of Washington state and citizen of the United States of America, and voice my concern and strong opposition to the proposed policies WA state is looking to vote in. Irregardless of whether or not they will be implemented in the near or far future, they are an absolute impediment on the rights of the citizens and open the door to a catastrophic effect on the people of Washington state.

Government is in place for the people, by the people, not to make detrimental decisions and policies behind closed doors. The citizens of this great state are intelligent enough to make their own decisions in regards to infectious diseases without government overreach and seemingly better decisions for them!

My family and I strongly oppose all of the policies that are in the following proposed WAC codes to be approved for infectious diseases including COVID-19 in Washington state: WAC246-100-040, WAC246-100-045, WAC246-100-070, WAC246-100, WAC246-105.

Kindly consider the voice of the people and stand for freedom, medical or otherwise, to protect the founding principles of this great nation.

Thank you for your time.

Very Respectfully,  
Inna Tasmaly

Subject: PROPOSED POLICIES

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Forcing anything on free Americans protected by the Constitution is asking for strife and dissension. We will hold the line against tyrannical mandates and proposed polices that violate our civil liberties and fundamental rights as human beings. I stand with the Constitution - will you? I stand with the Word of God:

"Praise the name of God forever and ever, for he has all wisdom and power. He controls the course of world events; he removes kings and sets up other kings. He gives wisdom to the wise and knowledge to the scholars. He reveals deep and mysterious things and knows what lies hidden in darkness, though he is surrounded by light."

□□Daniel 2:22□□

Whether you stand with the Word or not, It's Everlasting, Unshakable, and pierces the soul with Truth.

I call on you to represent the population of those whom you swore to be a voice for and reject all such aforementioned policies.

"Speak up for those who cannot speak for themselves; ensure justice for those being crushed."

□□Proverbs 31:8□□

"Ensure justice" - isn't that the key to the position you are in?

Kind Regards,

Emily Seaboch

Subject: Re: WAC 246-100-070, 246-100-045, 246-100-040

External Email

Good morning to all,

I would like to express my deep concern regarding the policies mentioned in the email subject, proposed for a discussion by the WA State Board of Health.

It is very concerning that such policies are even being brought up in the USA, where freedom of choice is protected by the Bill of Rights of the United States Constitution which guarantees individuals the right to personal autonomy. To forcefully isolate, quarantine, treat, inject people without an informed consent looks very much like former Soviet Union and Nazi, where people who didn't fit the narrative of that time were considered the enemy of the country and were taken away from their families in the middle of the night to never be seen again. America the Beautiful is the land of the free, where our freedoms to choose what treatment, injection, vaccine to take or decline is protected by the Constitution.

Public health and safety are important, however it can be achieved without the infringement of the sacred rights guaranteed to us by the Bill of Rights of the United States Constitution.

I hope and pray you will give this matter a careful consideration and will not pursue it any further.

Thank you.

God bless!

Best regards,

We stand against these Tryanical policies that are trying to be passed. This is illegal, unethical, immoral, Un-Constitutional, and against our Bill of Rights. America will turn into a Communist China, or even worse if we do not stand against Government over-reach. This "Virus" has a 99.8+ percent survival rate and requiring anyone to take an "EXPERIMENTAL" SHOT, is outrageous! This shot is proving to do more harm than good. More people have been damaged by this experiment and the Pharmaceutical companies have ZERO liability. This "SHOT" does NOT prevent anyone from spreading the virus and has proven to be ineffective and dangerous. The community will not tolerate any more of these Government over-reaching efforts and the community will stand against any more of these "POLICIES" that you are trying to enact. Do not, I repeat DO NOT make this mistake. You will be no different than HITLER in Nazi Germany. This will not end well for anyone who continues to participate in this genocide and we will hold you accountable during the Nuremberg 2.0 trials, which if found guilty has the penalty of death by hanging. We are serious!  
STOP THIS MADNESS!!!

Sincerely,  
Stacie MacDonald

I am completely against any of the proposed Covid Policies that are over reaching and immoral.

We the People of Washington State, stand against the following proposed WAC's:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-100-105

Thank you

Subject: CoVid policies against the constitution. Our view.

External Email

I and my entire family, friends, and neighbours have all been discussing this. We are a group of about 100 people. They are afraid to contact you for fear of reprisals, but I am trusting you to be fully democratic and wholly America. This is our opinion for the public meeting.

We are completely against any of the proposed Covid Policies that are over reaching, unconstitutional and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. "

They are over reaching. They are unconstitutional. This is America. Land of the free. We stand by FREEDOM of choice. We stand by the constitution that was put there to protect our freedom and rights.

This is NOT NAZI Germany, with the Jews ostracised, being taken to the ghettos, and then taken to Auschwitz for extermination. THIS IS AMERICA, land of the FREE. This is NOT a war where the Japanese US citizens were taken to internment camps. THIS IS AMERICA...not NAZI Germany. America, people. Remember that!

The science shows that this will end soon. It is in the ENDEMIC stage.

There are valid, recommended and safe treatments for this virus.

We are not a country that lives in fear. Nor should neighbours and families be afraid that their constitutional rights are being eroded. We stand up for what is right. These COVID policies should NOT be enforced.

Sincerely,  
Vivienne

(And everyone else who wanted their voices heard and asked me to email you. I believe and trust in you. We all do. Trust you to do the right thing and allow NOT pass these policies.)

\* please consider the fact there are millions upon millions of people who have agreed that a woman's body is her own right and that she can do with her body whatever she pleases or desires. That she can abort a baby, she can tattoo herself, she can do whatever she wants with her body, she can sell her body if she's so deems this acceptable. But the people in the state of Washington and the United States of America may not want to be tested or have an injection if they don't want to do that to their body, and you are wanting to use Force to remove them from their homes? To isolate people and to quarantine them? This is rather obvious what is going on. This doesn't make any sense. Please use logic here and reasoning, sound reasoning here. These are our bodies. It has been accepted in the United States of America and the entire state of Washington that a person can do with their body whatever they want. People fought for those rights and and so now they can do whatever they want with their bodies. This is up to individual people. Obviously when people are sick they will quarantine because they feel so sick they don't want to go anywhere. You do understand that this is sounding like Germany. Absolutely not acceptable in the United States, nor is it acceptable in this state. I'm fully against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. "

\* Make decisions on integrity and the way the people, We the people desire this land to be which is free. This is the land of the free. Thank you for your time. With much respect.

External Email

To members of Wash State Board of Health and ALL OTHERS who are overstepping their elected boundaries of office:

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I am a 2 time US Military Vet and US Constitutional Oath swearer who believes in Freedom of choice for American Citizens, especially when it pertains to what is injected or put into our own bodies. I have not received ANY vaccine since the late 90's for flu or any other annual viruses that come to us all, regularly. The last time I did, it made me deathly sick and I swear that I would never get another "vaccine" shot. And, I haven't. I rarely get sick as a result. I trust my natural immune system and quite frankly - THE MORE Y'ALL PUSH AND TRY TO FORCE THIS ON ME? The more I REFUSE to even consider getting a vaccine shot.

If you are scared of the flu, and feel the need to get the shot? By all means - DO SO! PLEASE DO! That is YOUR RIGHT!!! 100% All FOR you having that right!!! But if I don't want it? Then give me the same respect, if nothing else - as a 2x American Military Vet. As the Left so eagerly flaunts to the world: "My Body = MY CHOICE" (to kill LIVING babies inside a woman who freely made the choice to do the act that led to her having a Living Growing infant inside her belly). And, locking healthy people up all because y'all live in a constant state of fear of being sick? Completely UnAMERICAN and UNCONSTITUTIONAL! Please stop exercising powers that are not within your authority of office. You're acting like freekin NAZI's!!! Are concentration camps next??? (for anyone who isn't scared of the flu (like y'all are)???) Serious question there. Stop overstepping your authority of office. Thank You!

Sincerely,  
Tim Burkenbine

Subject: Covid vacation - anti freedom act

External Email

Good morning,  
I am writing this email as a concerned father and I am asking the Board to vote AGAINST the following:

WAC CODE LAWS:  
WAC/246-100-070  
WAC/246-100-045  
WAC/246-100-040  
WAC/246-100  
WAC/246-105

Such laws go AGAINST my sincere religious beliefs and DISCRIMINATE against moral principles of so many people including mine, and most importantly it strips away our freedom.

With covid vacation mandate I am afraid that our country becomes very much like Venezuela or any other countries that run by dictotar.

Thank you!

The following survey response is submitted:

1.

State Board of Health Meeting Date:

---

01/12/22

2.

Agenda Item or Issue:

---

disuss apolying current infectious disease WAC codes to include covid-19 for all WA state residents

3.

Your Name:

---

Tina Houle

4.

Do you have a professional title?

1. Yes

---

BS, MS, RN

5.

Are you representing an organization?

2. No

6.

Address:

---

182 Mountain View Dr. Sequim, WA 98382

7.

Email:

---

tinacat3@yahoo.com

8.

Phone Number (Include Area Code):

---

3607971501

9.

Do you have any special expertise relevant to this topic?

1. Yes

---

RN

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

---

The proposal would allow local health officers to use law enforcement (WAC 246-100-070) to fore an emergency order to involuntarily detain a person or group of people to be isolated in a quarantine facility following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, or vaccination.

11.

Are you Pro or Con on the proposal?

2. Con

---

This proposal violates HIPAA, the Nuremberg code, and goes against informed consent. Most people who contract Covid-19 recover. Those who are medically fragile can choose to take extra precautions. It is our basic right as humans to have autonomy over our bodies.

Subject: Public Comment

External Email

My name is Rick Jolley I have lived in Yakima all my life.

I'm trying to navigate to comment process regarding Board of Health infectious disease policies regarding Covid-19.

Specifically, (WAC 246-100-070), (WAC 246-100-045), (WAC 246-100-040).

These are set to be discussed/ voted on during a scheduled hearing on Friday January 12th 2022.

In my humble opinion, these are UNACCEPTABLE.

While I agree that Covid 19 is a serious public health issue, I'm SHOCKED that you would consider such measures.

Terms and policies to Involuntarily detain ANY person, or family in order to Quarantine and Isolate them are simply NOT acceptable in a free society, which we still are.

Even for emergency public health reasons, policies targeting personal refusal to "comply" with "requests" for medical examinations, testing, treatment, and or counseling are more in line with dictatorship forms of government and are simply another step TOO FAR.

While these proposals may look like the right way to progress, I submit they will only breed MORE Division and Confusion among the populace and make matters worse.

Please, find a better solution.

I realize the operative word in all this is "Emergency".

However that ultimately means that whoever decides it's "Emergency" time has the ability to bring these unacceptable policies to bear and loose them on the public.

Thank You.

Rick Jolley.

The following survey response is submitted:

1.

State Board of Health Meeting Date:

---

Jan 8, 2022

2.

Agenda Item or Issue:

---

WAC 246-100-070

3.

Your Name:

---

Sara Schmidt

4.

Do you have a professional title?

2. No

5.

Are you representing an organization?

2. No

6.

Address:

---

2020 NE 181st Ave Vancouver, WA 98684

7.

Email:

---

Sara11schmudt@gmail.com

8.

Phone Number (Include Area Code):

---

360-524-1273

9.

Do you have any special expertise relevant to this topic?

2. No

10.

Are you testifying on a specific proposal under consideration by the board?

2. No

11.

Are you Pro or Con on the proposal?

2. Con

---

Please, you must look at this through clear eyes. This proposal is completely unconstitutional and is terrifying to even think about. By ejecting this you are on a fast path to totalitarianism. Please also review the science. Those that are vaccinated are spreading COVID, this vaccine doesn't stop the disease or spread of the disease, therefore, one person's choice to not be vaccinated is not causing vaccinated people to become sick. This is illegal and also not scientifically justified. If you are a decision maker for this, ensure you look for real science to back up this decision. You won't find any. There is none. Follow the science and uphold our constitutional freedoms. History will look back on these moments. Be on the right side of history.

From: William Bedient  
Sent: 1/7/2022 9:34:49 AM  
To: DOH WSBOH  
Cc:  
Subject: Jan 12 Meeting Comment - Proposed Rule Changes

External Email

I'm writing to day to comment on the proposed policy regarding Rules Hearing Continuance- Communicable and Other Certain Diseases, Chapter 246-100 WAC

As I understand it, the proposed rule would allow local health officers to use law enforcement (WAC 246-100-070) to enforce an emergency order to involuntarily detain a person or family to be isolated in a quarantine facility (WC 246-100-045) or following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

COVID vaccines are available. They are safe and effective. Anyone who wants protection from COVID can get one for free. Why would we need to lock people up or use police for a disease that we have vaccines for?

Interactions with police get violent, which is why our state recently limited the weapons and tactics that police can use. Do we really want to bring them into further conflict with the public over a disease that we have a vaccine for?

The public trust in our government and public health institutions has been harmed by the way we have handled this pandemic. Lies and illogical actions have greatly hurt our confidence in the public health authorities. Examples include constantly changing rules for masking, eating at restaurants but putting a mask on to walk around, encouraging cloth masks as if they are effective when N95s are what really work etc. I don't think we need to further degrade our trust in the public health authorities by adding talking points to the conspiracy theorists. You know they'll say "the BOH passed a law to send cops to drag your family off to a camp if you don't get the vaccine." These actions are not necessary and will harm the public trust.

As a life long resident I have always thought of Washington as a progressive, liberal state. The proposed rule changes are authoritarian.

The proposed rules are appropriate for the black plague when it rips through an authoritarian police state. We are not a police state, COVID is not the plague and we have safe and effective vaccines. Please stand against the proposed rule changes.

To: DOH WSBOH  
Cc:  
Subject: Opposition to proposed rule changes on 1/12

External Email

Dear State Board of Health Members,

I am writing to convey that I am completely against all of the proposed Covid policies that are being considered for adoption at the upcoming Jan 12, 2022 meeting. These proposed policies are overreaching and immoral. This includes proposed rule changes with respect to WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105.

I am a lifelong citizen of Washington State and I am not an anti-vaxxer. That said, I'm appalled by the rush to shut down free speech and the criminalization of a large portion of our society for merely making their own individual health care decisions or seeking to be 'informed' before 'consenting'. The rules that are being considered are nothing I thought I'd ever see in the USA.

There HAS TO be a line we are not willing to cross. We cannot continue sacrificing individual liberty to mitigate risk. We can NOT be ruled by Fear forever. I am asking the Board to take a stand for freedom. I'm asking the Board to stand up to the forces that wish to impose tyrannical rule. I'm asking the Board to soundly reject these proposed rule changes.

Respectfully,  
Ryan Drovdaahl

I am completely against any of the proposed Covid policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Here in Washington, we are free to make so many choices over our bodies. We have women's reproductive/abortion services, we can choose to drink alcohol and smoke Marijuana, and we can freely decide to end our lives due to terminal disease. Having a policy that mandates and forces people to choose is not freedom.

Dear Policymakers,

I am completely and absolutely against any of the proposed Covid policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

As an individual born and raised in Washington State, and as a citizen of the United States of America, any of these are in direct opposition to the Constitution and freedom.

Please REJECT any and all policies which deny citizen rights.

History will remember how you choose, and we need to be on the correct side of policymaking & the rights we were provided with...by our Creator and in accordance to the Constitution.

Sincerely,  
Theresa E. Wietrick

PLEASE stop all proposed covid policies that are over reaching and immoral. Please stand against WAC's 246-100-070, 246-100-045, 246-100-0040, 246-100, 246-105 and any other policies that detain anyone for covid or vaccine choices. This is like Nazi germany and against the Nuremberg code to force experimental vaccines. We are now at 4 vaccines per year and they are not working. STOP this madness! People are getting sick for one day with Omicron. This is ridiculous.

Tia Lesser

Sent: 1/7/2022 11:02:27 AM  
To: DOH WSBOH  
Cc:  
Subject: Fwd: Put an end to Corona Virus Regulations!

External Email

To whomever, this may concern,

I am writing to you as a constituent of Washington State who is concerned about government policy. I am writing this letter to express my strong opposition to the proposed policies listed below

- 1.WAC 246-100-070
- 2.WAC-246-100-045
- 3.WAC-246-100-040
- 4.WAC-246-100
- 5.WAC-246-105

I urge policymakers to reverse course and honor the will of the people that elected them. There has been a lack of discourse and open-end discussion at the state level, county level, city level, and community level therefore passing these regulations would result in a negative effect on Washington communities. It is important that the government prioritizes the opinions of its constituents especially when it involves expanding the power of the state government.

Sincerely,

Valentin Fesyuk  
A Proud Washingtonian

Subject: January 12th Meeting - FDA COVID 19 Vaccination - Nuremberg Code (1947)

External Email

Dear State Board of Health,

1. The FDA NEVER approved the COVID 19 vaccine being used today.
2. The Nuremberg Code (1947) clearly states that humanity cannot be experimented on.
3. If you approve these POLICIES (WAC 246-100-070) (WAC 246-100-045) (WAC-246-100-040) and you are challenged in court, THESE FACTS WILL COME OUT!!

SEN. RON JOHNSON: We do not have an FDA-approved vaccine being administered in the U.S. The FDA played a bait and switch. They approved the Comirnaty version of Pfizer drugs. It's not available in the U.S. They even admit it. I sent them a letter three days later going "What are you doing?" What they did is they extended the emergency use authorization for the Pfizer drug vaccine that's available in the U.S., here that's more than 30 days later, they haven't asked that very simple question. If you're saying that the Pfizer drug is the same as the Comirnaty, why didn't you provide FDA approval on that? So, there's not an FDA-approved drug and, of course, they announced it so they could push through these mandates so that people actually think, "Oh, OK now these things are FDA approved." They are not and again, maybe they should be, but the FDA isn't telling me why.

The judgment by the war crimes tribunal at Nuremberg laid down 10 standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide.

This judgment established a new standard of ethical medical behavior for the post World War II human rights era. Amongst other requirements, this document enunciates the requirement of voluntary informed consent of the human subject. The principle of

voluntary informed consent protects the right of the individual to control his own body.

This code also recognizes that the risk must be weighed against the expected benefit, and that unnecessary pain and suffering must be avoided.

This code recognizes that doctors should avoid actions that injure human patients.

The principles established by this code for medical practice now have been extended into general codes of medical ethics.

---

## The Nuremberg Code (1947)

### THE NUREMBERG CODE

1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be

so situated as to be able to exercise free power of choice, without the intervention of any element

of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and

should have sufficient knowledge and comprehension of the elements of the subject matter

involved, as to enable him to make an understanding and enlightened decision. This latter

element requires that, before the acceptance of an affirmative decision by the experimental

subject, there should be made known to him the nature, duration, and purpose of the experiment;

the method and means by which it is to be conducted; all inconveniences and hazards reasonably

to be expected; and the effects upon his health or person, which may possibly come from his

participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in

nature.

3. The experiment should be so designed and based on the results of animal experimentation

and a knowledge of the natural history of the disease or other problem under study, that the

anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental

suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian

importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest

degree of skill and care should be required through all stages of the experiment of those who

conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the

experiment to an end, if he has reached the physical or mental state, where continuation of the

experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate

the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith,

superior skill and careful judgement required of him, that a continuation of the experiment is

likely to result in injury, disability, or death to the experimental subject.

Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

11.

Are you Pro or Con on the proposal?

2. Con

---

I would like to retain the right to care for my own body in the way that I feel is best. In the past two years, I have been considerate and have not gone out of our home if I feel unwell. It would be a large violation of my rights as a human being to have the government or health care official have any authority over my medical decisions. If I was performing a criminal act I understand for intervention but this conversation is centered around our health and public health's position in a broad description of events. Basically the state and public health wants to cover their bases in the event somebody feels that their personal rights are being infringed upon, where is the legal wording that protects the people?

I am writing to Express my complete opposition to the following WACs . WAC 246 100 070. WAC 246 100 045, WAC 246 100 040, wac 246 100. And WAC 246 105. these proposed policies are unconstitutional over reaching and have no place in a republic democracy! It is an outrage that our state government is even proposing such obscene measures for a virus that is running its course as an endemic and will continue to do so regardless of government policies. As we can see from China. But if this virus was as horrible as magnified, gicernment has no right in telling any human how they must react and protect themselves from it. Each person is entitled to his tight of choice and liberty regarding medical autonomy.

I am shocked to hear that our American Washington state legislature is even considering isolating unvaccinated people in quarantine facilities! Have we forgotten history? Hitler, Russia, Mao and currently what is happening in China?

These vaccines are still only EUA (emergency use authorized) with side effects. They do not prevent illness and still can infect others. Should we quarantine all vaccinated people who can transmit the illness to others ? No of course not. If an unvaccinated person or a vaccinated person becomes ill, they should quarantine at home...not rounded up in Nazi fashion before even becoming ill.

I am counting on our elected representatives to protect the people. If they don't, it will be remembered next election time. We still have a constitution if you choose to protect it and the people you represent.

Dear WSB of Health members,

I have just been notified of the agenda for today's meeting addressing adopting WACs that will increase COVID restrictive policies. I am very much opposed to the overreach on Washington State residents that WACs 246-100-070, 246-100-045, 246-100-040, 246-100, , and 246-100-105 would impose regarding Covid management. Please DONOT consider implementing any of these.

Especially considering the current SCIENTIFIC STATUS that indicates this pandemic is about to change and the ratio of ICU hospitalizations and deaths are diminishing. To adopt these over reaching and constitutionally infringing WACs is rash and wrong.

The public's health is protected by not only the constitution of the United States of America and the Bill of Rights. There is absolutely no reason to require a mask or What is currently being called the vaccine. Disclosing this information publicly is a violation of our Hippa rights. And, the fact that there are no approved Jabs available, you are violating the Nuremberg code by requiring general public to receive a trial medical procedure.

Hello WSBOH, Contrary to popular belief, many Americans are actually opposed to the vaccine mandate. Morally, the vaccine should be made available to those that want it, it should be an option and not a requirement. America is the most diverse country of different races, ethnicities, religions, etc. We have to respect other people's decisions but it should not have a large impact that this vaccine mandate has on the whole country. Many of our ancestors and even ourselves come to America for what it's known for, freedom. America is the last of its kind and we Americans see it slowly fading away as we try to fight for it back. We all have seen the consequences of the vaccine mandate. Many small businesses had to close while the big corporations were allowed to stay open. The WSF had plenty cancelled sailings along with crew shortages. Also, the recent snow storm left many stranded and in unsafe driving conditions. The list goes on and on; and it would really be ignorant to deny it. The Washington people openly see the lies and know that all these issues are due to the vaccine mandate. With the vaccine, it does not lessen symptoms, it does not prevent or minimize chances of transmission, and it does not 100% protect you from it (virus). I personally contracted the virus from my father who is fully vaccinated, who also contracted it from his fully vaccinated coworker. I am happy to have natural immunity to the virus because it is the real and most accurate type of immunization. It's been over two years with the virus, it was said to us that it would only take 15 days. The masks were supposed to go away once a vaccine was created. It's been two years, we Americans are becoming offended that we are thought to comply to their obnoxious mandates that has no sense in them at all. Myself, along with many others are proud to be American. Freedom is America and America is Freedom. Vaccine mandates are neither.

WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-105

Please consider the above Covid policies as a severe overreach of government in a country and state build on democracy and freedom. These proposals are severe in their over reach into personal rights and medical autonomy.

As a taxpayer, I am completely against these policies and would like you to represent my opinion in these hearings.

Please confirm your receipt of my comments.

Subject: Proposed policies re Covid

External Email

As a long term resident of WA state, I am completely against any of the proposed Covid policies, they are overreaching and immoral. I stand with thousands of fellow Washingtonians against these WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There are no long term research studies that prove Covid vaccines are safe and effective. According to the VAERS report on the CDC website, since 12/24/21 over 21,000 people have already died and over a million adverse reactions to the vaccine have been reported, that is higher than every vaccine over the last 100 years combined, this is unconscionable! It's also stated that only about 5% of people actually submit a report through VAERS. This has not been studied long enough! This is not a one size fits all approach. These tyrannical mandates are unconstitutional and unacceptable. It's shocking that these topics are even up for discussion, this is not freedom, this is blatant overreach and something from the textbook of Nazi Germany. Please do the right thing and put a stop to this tyranny.

THIS IS ABSOLUTELY ABSURD. THIS IS A PROCHOICE MOVEMENT, NOT RIGHT TO DETAIN PRETTY MUCH PRISON TIME. ALSO THIS WILL CREATE HAVOC AND WAR WITHIN COMMUNITY, MANY WILL TAKE A STAND AND I WOULD BE AFRAID IT WOULD START WARFAIR. I KNOW MANY INDIVIDUALS THAT WOULD STAND BEFORE ALLOWING DETAINMENT.

Allowing local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine

facility following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination.

11.

Are you Pro or Con on the proposal?

2.           Con

---

This is fascism and medical tyranny. There is no evidence to support any of the claims being made. The virus has never been isolated. This violates the Nuremberg Code and those who seek to usher in this will stand trial for the evil they are engaging in. If the vaccine, the masks, the boosters are so effective, this wouldnt be necessary. The vaccinated are the ones who are sick. Enough with this scam.

Subject: Proposal regarding WAC 246-100-045

External Email

Dear Washington State Board of Health Directors;

I am writing in response to Proposed Policy implementation of WAC 246-100-070 which empowers the county health officer to utilize whatever means he or she deems necessary (utilizing law enforcement) to involuntarily detain a person or persons in a quarantine facility given refusal to voluntarily comply with requisition for medical examination, testing, treatment, counseling and vaccination.

I STRONGLY OPPOSE the implementation of this proposal. I am appalled by these proposals whereby we would give ONE individual the power to impose their will on the people, that is tyrannical rule at its finest. We live in America-- not China, not Russia, not Australia, where personal freedom and liberty has been the foundation of our constitutional rights.

I am a healthcare worker and I have seen vaccine related injuries, i.e. heart attacks, heart failures, strokes, neurological problems, seizures, and deaths which no one is allowed to voice concern over. This vaccination should be offered to those with the highest risk, but it should be a personal choice, as one assumes responsibility for his or her own health. No County Health Office should ever be given the POWER to determine what is best for me.

I continue to see COVID hospitalization because of the refusal to treat patients early with known and effective treatment. This pandemic has been stopped in other countries with treatment, which nullifies the need for vaccination. I implore the BOARD of HEALTH Directors, to do their own independent research and investigate the reality of this pandemic and embrace the use of treatments which are safe and effective, rather than become part of a regime that is determined to remove liberty and freedom.

Thank you for seriously considering our voice.  
Resa Yamamoto, RN,  
Sequim, WA

Subject: Comments to Vaccine WAC session

External Email

To our elected officials:

Regarding the upcoming January 2022 session for mandated vaccines.

We The People are AGAINST WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

The vaccines for COVID-19 should be called a "shot", not a vaccine. Vaccines prevent transmission and infection. Shots have to be provided over & over as their efficacy wanes. It's obvious to see that these are shots since we are now heading into a 4th "booster" in less than 12 months time.

A mandated inoculation is not what our elected government officials were "hired" to implement as we should be allowed to self-govern and inoculate as our individual needs deem necessary. Vaccines for Tuberculosis, Measles, Polio are medical marvels that provide the necessary stop to infection & transmission AS NEEDED. These C-19 shots do not provide what these other medical marvel vaccines have provided.

Until the proof of where the virus started and what the virus IS, there should not be any mandates put in place.

Allow people to make decisions to put into their bodies what they want. Messaging to the public should be "improve your health by eating healthy, exercise and rid of excess weight" to combat this unknown virus unleashed on the world. Protect the vulnerable, allow the people to make their own decisions about what they need and stop mandates of any sort.

Do what you were elected to do, which does NOT include mandates of any kind.

A life long WA resident that would like to stay a WA resident, accountable to my own actions and choices.

Subject: Covid Measures

External Email

Hello!

Thank you for serving the people of Washington!

On January 12th you will be deciding about some measures concerning Covid 19.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Please don't strip WA residents of the medical freedom that we have now. Covid 19 and vaccinations for it have been here for a while now and we are able to see the data.

Vaccinations don't guarantee no infection, nor do they prevent new variants of developing.

Given this, I believe people should make their own decisions on how they want to be treated and how to prevent the spread.

I do believe in educating people on the disease and the facts about it, but people should not be forced or threatened when they make a choice that some don't support.

Thank you for your time and dedication to the people.

No person should ever be coerced to engage in an unwanted medical procedure. And while it is bad enough the government violated this basic liberty right by mandating the Covid-19 vaccine, they have also been negligent with providing honest and accurate data.

That form of governance is destructive to liberty and antithetical to the openness required in a democratic society. Therefore, I stand completely against any of the proposed Covid Policies that are over reaching and immoral. Standing against the following proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Subject: Public Comments for WSBOH Members Meeting Discussing WAC Codes, including Covid 19 - January 12

External Email

Hello,

Washington State used to be a state that I was proud to live in. Under the rule of Jay Inslee, this state has fallen into terrible disorder (well evidenced by what was/is happening in Seattle.)

We moved to the East Side of the state to achieve a better quality of life and yet, the world according to Inslee, continues to follow us. The proposition to be discussed on January 12, "Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.)" is reminiscent of what my husband's relatives experienced in the Nazi death camps. Have we not learned anything?

To impose constitutionally unlawful detainment of American citizens, who make personal health choices for their own good, takes us to a very dangerous place. It is an individuals freedom to decide what they want to do for their own health and well-being. This is not a state or federal decision! These propositions are what they are already doing in Australia and look how it's working for them.

The fact remains that NO ONE should ever be coerced into taking any medical procedure that they do not want. This is also documented in the Nuremberg Code.

Please, don't vote to take away the rights of the good people in this state. You have a moral and ethical responsibility to do what is right...not political...serving a Governor who has ulterior motives. These propositions are what they are already doing in Australia and look how it's working for them.

Sincerely,

Rena McGill

To whomever, this may concern,

I am writing to you as a constituent of Washington State who is concerned about government policy. I am writing this letter to express my strong opposition to the proposed policies listed below

- 1.WAC 246-100-070
- 2.WAC-246-100-045
- 3.WAC-246-100-040
- 4.WAC-246-100
- 5.WAC-246-105

I urge policymakers to reverse course and honor the will of the people that elected them. There has been a lack of discourse and open-end discussion at the state level, county level, city level, and community level therefore passing these regulations would result in a negative effect on Washington communities. It is important that the government prioritizes the opinions of its constituents especially when it involves expanding the power of the state government.

Sincerely,

Valentin Fesyuk  
A Proud Washingtonian

Good morning,

The proposed policies are unconstitutional and tyrannical. Please stop over reaching.  
Leave us and our kids alone.

We the People of Washington State, stand against the following proposed WAC's:

WAC 246-100-070  
WAC 246-100-045  
WAC 246-100-040  
WAC 246-100  
WAC 246-100-105

Thank you

External Email

I am completely against the new COVID policies. In addition to it being completely against the constitution it will also cause a crisis in policing. Police officers will not stand for this and should not. This will cause many more officers in addition to the ones who quit over the unconstitutional vaccine mandates to quit. The police agencies all over Washington already are having a hard time find quality recruits because of the atmosphere that some people in the government created. I AM COMPLETELY AGAINST: WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

"Those who would give up essential Liberty, to purchase a little temporary safety, deserves neither Liberty nor safety"

-Benjamin Franklin

Hello,

I am writing to express that I am completely against ANY of the proposed Covid Policies that's are over-reaching and immortal.

I stand against these WAC's:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

I kindly ask that you take my opossision into consideration.

Thank you,  
[your name]

Subject: Survey Response: Testify Online \*

The following survey response is submitted:

1.

State Board of Health Meeting Date:

---

January 12, 2022

2.

Agenda Item or Issue:

---

COVID Policies

3.

Your Name:

---

Stephanie Herr

4.

Do you have a professional title?

2. No

5.

Are you representing an organization?

2. No

6.

Address:

---

18729 95th Ave Ct E Puyallup WA 98375

7.

Email:

---

stephanie.n.herr@gmail.com

8.

Phone Number (Include Area Code):

---

3603591400

9.

Do you have any special expertise relevant to this topic?

2. No

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

11.

Are you Pro or Con on the proposal?

2.           Con

---

These proposals are overreaching and immoral. The vaccines are not stopping or slowing the spread while the virus itself is weakening in severity albeit not in contagion.

Subject: Comments about the proposed WAC's.

External Email

To whom it may concern:

Our family came to USA with a refugee status, seeking freedom due to the religious oppression our family encountered under the Soviet Union. Don't believe me? Go search my papers. We're not opposed to the vaccine but we're surely opposed to the methods of how things are done. The ending never justifies the means.

We were never asked to not believe in God but we were persecuted for not complying to the Soviet regime. I see no difference in the proposed WAC laws. It seems that the propositions are in the same pattern. Leave the health decisions to the people ... they are mature to make their own decisions!

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Obviously my comment nor my families experience won't mean anything to anyone with a different point of view but if you actually got this far into reading my email, thanks, but how am I supposed to explain to my family that we left our country for freedom only to be back in the same boat?

I really don't thing anything is going to come out of my comments in this email except for an automated message that says, "We've received your comments and truly appreciate them." But if my comments actually have a voice, we'll than, truly thanks for your consideration!

Serge

Subject: Proposed WAC's for Vaccination

External Email

I am completely against any of the proposed Covid Policies that are over reaching and immoral. Governor Jay Inslee and the legislature are conducting a gross misuse of power. We the people are not cattle of the state to be done with as you choose. You work for us. Forced vaccination and quarantine is an abuse of power and an attack on personal freedoms granted to us by God and made clear by our U.S and State Constitutions. Vaccination against Covid -19 has already been proven ineffective. It does not prevent the disease from transmitting. These proposed Codes are Draconian in nature and are a stepping stone towards progressing our state into 1940's Nazi Germany rule of law. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

To whomever, this may concern,

I am writing to you as a constituent of Washington State who is concerned about government policy. I am writing this letter to express my strong opposition to the proposed Policies listed below

- 1.WAC 246-100-070
- 2.WAC-246-100-045
- 3.WAC-246-100-040
- 4.WAC-246-100
- 5.WAC246-105

I urge policymakers to reverse course and honor the will of the people that elected them. There has been a lack of discourse and open-end discussion at the state level, county level, city level, and community level therefore passing these regulations would result in a negative effect on Washington communities. It is important that the government prioritizes the opinions of its constituents especially when it involves expanding the power of the state government.

Sincerely,

Valentin Fesyuk  
A Proud Washingtonian

---

As a Washingtonian, I strongly oppose detaining people (WAC 246-100-070) against their will and isolating them in quarantine camps (WAC 246-100-045; 040). An agenda that proposes citizens forfeit their rights for the sake of public health is unfathomable. Sacrificing liberty and rights for safety is dangerous rhetoric. This isn't Hitler's Germany.

The Nazis weaponized medicine, and eugenics influenced public health policy. Please oppose this heinous and unconstitutional proposal.

Hi,

The Washington state proposals listed here are immoral and unlawful: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

If this is allowed to happen, you will have the greatest amount of resistance on your hands that you could possibly imagine. You are only trying to create problems if you allow something like this to happen. The people do not want violence but if you do pass these laws, I assure you- you will be making them to feel as if they have no choice. Think about your actions.

Sincerely,

Seth B. Giles

External Email

Our family is completely against any of the COVID policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There should absolutely be no right for law enforcement to detain people for vaccination purposes. The vaccination for COVID is unproven as a legitimate vaccination. People are receiving the vaccination still getting COVID, being hospitalized for COVID and dying from COVID. There is no evidence that it lowers symptoms of COVID in the majority of people. There are significant side effects and risks of receiving the vaccination. This should not be a required vaccination at this time as it is NOT a vaccination.

Please, please, consider the effects of these WACs and the unnecessary overreach they would cause. Please oppose these WAC's.

Thank you for your consideration.

Subject: Proposed policies

#### External Email

I am against any and all of the proposed Covid policies that are overreaching and immoral. We stand against these proposed WAC's: WAC-246-100-070, WAC-100-045, WAV 246-100-040, WAC 246-100, WAC 246-105

First and foremost, no federal, state, or local government may pass a law that goes against the Constitution. Article 6, Section 2 of the Constitution says,

"This Constitution, and the laws of the United States which shall be made in pursuance thereof; and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding."

The Constitution is still the supreme law of the land even during emergencies. As the Supreme Court explained during the Great Depression,

"Emergency does not create power. Emergency does not increase granted power or remove or diminish the restrictions imposed upon power granted or reserved. The Constitution was adopted in a period of grave emergency. Its grants of power to the Federal Government and its limitations of the power of the States were determined in the light of emergency and they are not altered by emergency."

Furthermore, any law that gives health officials the right to use law enforcement to "falsely imprison" an individual is a violation of the 5th and 14th amendments. These amendments require that the government provide you with "due process of law" before the government may take away your life, liberty or property.

In *Mullane v. Central Hanover Bank and Trust*, the U.S. Supreme Court held that "due process" means that before the government deprives you of life, liberty, or property, the government must give you notice, and the opportunity to be heard, and to object to the deprivation.

In *Cruzan v. Director, Missouri Department of Health*, the Supreme Court held that persons had a constitutional right to refuse medical treatment. These forced measures, even in good conscience to prevent the spread of COVID, infringe on this right.

In conclusion, We The People will not stand for such unlawful measures to be set in place in our great state of Washington. We will not allow a government that imposes laws that take away our inalienable rights.

"Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security." -Declaration Of Independence

Signed,  
Renee Valinsky

Good day,

My name is Stephen Smith and I am completely against any of the proposed Covid Policies that are over reaching and immoral. My family and I absolutely stand against all of these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

-Stephen

Subject: Opposing adding Covid 19 to allow for forced quarantine or vaccination

External Email

I am emailing to let you know of my disgust at the governments over reach of power and using Covid 19 or any other illness as a right to force any medical treatment or quarantine of individuals or families. You do not have my consent or the right to detain me especially for something that has an over 99% survival rate. Do not ramrod this through legislation with WAC 246-100-070, 246-100-045 or 246-100-040 and you absolutely do not have the right to force the use of an untested unproven vaccine on anyone using WAC 246-105. This is a gross over reach and a power grab and it will not be tolerated by the public. This is a violation of the Nuremberg Code and Declaration of Helsinki. You do not have the right to force me to participate in a treatment that has not been thoroughly tested and has already had a million adverse effects and or deaths linked to it. There are proven pre-treatments available for Covid 19 and instead of making those available the government has done nothing but prevent treatment to allow for more power grabbing, a vaccine and continuing to plunge this country into further debt to push a communist agenda. Keep peoples medical decisions in their own hands and not the governments, my body, my choice.

Rachael Seal

External Email

I'm just reaching out to notify all whom are considering this extreme overreach of Governmental power, that I am not in anyway ok with our State Officials elected or unelected to put forth the following measures and policies.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

I implore our officials to stay in their lane, live your life and let us (me, my brothers and sisters, friends, family and neighbors) to live our lives without this totalitarian form of dictatorship.

I thank you for your time and consideration,

Tyler Boyle

This is nonsense and against the law, our civil rights, and human freedoms!!! May this be a notice that all of the control tactics which are being implemented (vaccines, health invasion, & HYPPA violations) will be subject to the 1947 Nuremberg code (see below) . All who participate in this global tyranny and crimes against humanity will be held PERSONALLY responsible for. (see attachment). These jabs are EXPERIMENTAL. The suppressed information and EXPERT testimonies are being silences. I Know DOZENS OF PEOPLE WHO HAVE BEEN HARMED BY THEM!!!! Tens of thousands also have DIED. This nonsense better stop or Washington state health department is going to have a HUGE LEGAL problem on hand!!!!!!!

<https://anti-vaccines.com/history-of-vaccine/nuremberg-code-of-1947/>

# THE NUREMBERG CODE

1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision. This latter element requires that, before the acceptance of an affirmative decision by the experimental subject, there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person, which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study, that the anticipated results will justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted, where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment, the human subject should be at liberty to bring the experiment to an end, if he has reached the physical or mental state, where continuation of the experiment seemed to him to be impossible.

10. During the course of the experiment, the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgement required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

["Trials of War Criminals before the Nuremberg Military Tribunals under Control Council Law No. 10", Vol. 2, pp. 181-182. Washington, D.C.: U.S. Government Printing Office, 1949.]

To whom it may concern, I am extremely against mandating any of the proposed Covid Policies. These include WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Not only is it against our Charter of Rights but it is also against the Numenberg code. As sent out today, what is in the vaccine will be released within 8 months, and so, if you force this upon ANYONE, you will be liable for any side effects that will ensue.

Do the right thing and remove any talk of mandating these dangerous injections.

Signed a very concerned citizen,  
Rikke Melgaard Liffiton

Subject: Regarding WAC

External Email

As a healthcare worker and citizen of Washington state I am completely against the idea to involuntarily detain people in quarantine centers if people refuse to receive medical care. Each person has the freedom and liberty to decide what's best for their body and no government has the authority over an individual's body. Coming from a communist country, I am appalled that this state wants to use communist tactics to force people to submit their freedom and will to the government. My body and will always be my choice what I do with it. Therefore I am completely against any of the proposed covid policies that are over reaching and immoral. I stand against the proposed WAC's :WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. Washington state board of health, I ask you to do better job at creating policies that will actually benefit the community.

External Email

Washington State Board of Health,

I am writing to let you know of my STRONG opposition of the newly proposed WAC codes that you are meeting to discuss, pass and enforce regarding COVID-19.

I STRONGLY OPPOSE:  
WAC 246.100.070  
WAC 246.100.045  
WAC 246.100.040

This is a STRONG government overreach! We are near the end of the pandemic, and there is absolutely no need to enforce an EUA vaccine that has shown close to zero efficacy. It has been proven that the vaccinated and non-vaccinated can both get and transmit the virus. So, there is absolutely no need to enforce said vaccine.

If you elect to pass and enforce the above mentioned WAC codes, my husband and I will vacate Washington state. We will move our family, our business and all of our tax dollars to another state that respects the Constitution of the United States.

Respectfully,

TRACY R.  
Pierce County

As a citizen of the United States and of the state of Washington and of the world. I must absolutely say something. The proposals being discussed today are against our human rights and God given rights! If you vote in favor of these polices, God will surely judge you now and throughout eternity for these evil proposals!

I am totally against any of the proposed Covid Policies! My husband, myself and our family stand against these horrendous and torturous proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105. "

Mrs. Terri Higgins and family

External Email

Good evening,

I am writing to you concerning the policies being discussed next week. The proposed Covid Policies are over reaching and immoral and I am completely against them. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

My family and I have all had Covid with minimal symptoms. I have yet to understand the paranoia that some people have concerning a virus with such a high survival rate. The vaccine should be a personal choice depending on each persons unique situation.

Thank you for your time,  
Samantha Ferrell

Subject: Objection to WAC Covid-19 Laws

External Email

I am writing to object to the proposed WAC Covid Policies. This is overreaching and stripping away WA residents' freedom of choice. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

There are many ways to promote health practices but these policies are unethical, not consenting of an individual, no place for authority to have power to do so and a crime against humanity for a citizen to be in a situation such as proposed.

WA resident
