On-site Sewage Systems – Emergency Rule

WAC 246-272A-0110

Emergency Rule Summary and Product-Component Approvals

The State Board of Health (Board) adopted an emergency rule on October 13th, 2022, to allow manufacturers of registered proprietary treatment products to replace components of their products that are not available due to supply chain shortages or similar manufacturing disruptions with like components that will not negatively impact performance, treatment, operation, or maintenance of the original registered product. This filing followed the initial emergency rule filed on June 15, 2022. As directed by the Board, the emergency rule amendment will be considered for incorporation into the permanent rulemaking that is currently underway.

To date, three companies have received department approval to substitute the Salcor 3G UV lamp, a disinfecting ultraviolet lamp, as summarized in the table below.

Company	Registered Product	Component to be Substituted	Substitution Component(s)	Approved Treatment Levels
Bio-Microbics	MicroFAST series with Salcor 3G	Salcor 3G UV Unit	Norweco AT 1500 UV & Jet Illumi-jet 952 & 952 Retrofit Kit	Treatment Level A Treatment Level B
Delta	Whitewater DF with Salcor 3G	Salcor 3G UV Unit	Norweco AT 1500 UV & Jet Illumi-jet 952 & 952 Retrofit Kit	Treatment Level A Treatment Level B
Delta	ECOPOD - N with Salcor 3G	Salcor 3G UV Unit	Norweco AT 1500 UV & Jet Illumi-jet 952 & 952 Retrofit Kit	Treatment Level A Treatment Level B
Enviro-Flo	NuWater B 500 with Salcor 3G	Salcor 3G UV Unit	Jet Illumi-jet 952 & 952 Retrofit Kit	Treatment Level B
Enviro-Flo	NuWater BNR 500 / BNR 600 with Salcor 3G	Salcor 3G UV Unit	Jet Illumi-jet 952 & 952 Retrofit Kit	Treatment Level A Treatment Level B

These approvals allow replacement of the Salcor 3G UV lamp on several individual product lines as listed on the [List of Registered On-site Treatment and Distribution Products for Washington State](#).
